Commissioner
The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

## Acknowledgments

Much of the work for this documentation was performed by staff at the Education Statistics Services Institute (ESSI), which is funded by the National Center for Education Statistics (NCES) and composed of staff from the American Institutes for Research (AIR) and a number of partner organizations. The authors would like to acknowledge the following individuals from ESSI for their assistance with analysis, editorial comments, and guidance: Jennifer Sable, Greg Strizek, and Sandy Eyster of AIR made helpful suggestions in their reviews.

The authors would like to thank all of the professionals in state and local education agencies who track, record, and report the data. Particular thanks are owed to the state Common Core of Data (CCD) coordinators, without whose efforts the CCD survey system could not exist.

The U.S. Census Bureau, Governments Division, is responsible for collecting, processing, and editing the CCD fiscal survey data. Eunice Ave, Terri Kennerly, Mary Church, Crecilla Cohen, and Osei Ampadu should be recognized for their efforts in providing assistance to states and collecting these data. They have also helped with the drafting of this documentation.

Those who also assisted by reviewing the documentation include Bruce Taylor, Lee Hoffman, and Jeffrey Owings of the National Center for Education Statistics.

## I. Introduction to the NCES Common Core of Data National Public Education Financial Survey (NPEFS), School Year 2003-04 (Fiscal Year 2004), Revised File Version 1b

This documentation is for the revised file (Version 1b) of the National Center for Education Statistics (NCES) Common Core of Data (CCD) National Public Education Financial Survey (NPEFS) for school year 2003-04, fiscal year 2004 (FY 04). It contains a brief description of the data collection along with information required to understand and access the data file. The NPEFS data collection is conducted by NCES, a branch of the Institute of Education Sciences in the U.S. Department of Education, and the Governments Division of the U.S. Census Bureau. NCES is authorized to collect these data by Congress through the National Education Statistics Act of 1995, section 404(a), 20 U.S.C. 9003(a).

The purpose of the NPEFS Survey is to provide district, state, and federal policymakers, researchers, and other interested users with descriptive information about revenues and expenditures for public elementary and secondary education. The data collected are useful to (1) chief officers of state education agencies; (2) policymakers in the executive and legislative branches of federal and state governments; (3) education policy and public policy researchers; and (4) the public, journalists, and others.

Data for the NPEFS are collected from state education agencies (SEAs) in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands). The data file is organized by state or jurisdiction and contains revenue data by source and expenditure data by function and object. ${ }^{1}$ The data file also contains average daily attendance data as well as total student membership data from the 2003-04 CCD State Nonfiscal Survey of Public Elementary/Secondary Education.

## II. User's Guide

The FY 04 NPEFS data file contains 56 records (one for each SEA from which data are collected), and each record contains 300 fields ( 4 record identification fields, 148 data fields, and 148 imputation flag fields). The record layout is provided in appendix A.

The remaining appendixes provide the following information:

- Appendix B-glossary with definitions of key variables;
- Appendix C—state abbreviations and Federal Information Processing Standards (FIPS) state codes;
- Appendix D-state-by-state list of imputations and adjustments;
- Appendix E-fiscal data plan questions;
- Appendix F-state-by-state responses to the fiscal data plan questions;
- Appendix G-frequencies of imputation flags and minimum, maximum, and mean of numeric variables;
- Appendix H—fiscal year definitions and specific state notes; and
- Appendix I-the survey form.

## File versions

Starting in 1999-2000, CCD data file names were changed to include a two-digit version number. The final files are assigned a version number beginning with 1 (one). The character following 1 indicates the version number of the file. For example, a " 1 a " file is the first (original) final file, and a " 1 b " file is the second (revised) final file.
NCES releases a final file (Version 1a) after a publication using the data has been released. (NCES standards require that an NCES publication using the data be released before the data are considered final.) If NCES receives revised data from states or discovers errors in the final data file, a revised file (Version 1b) is released. The revised file is usually released 1 year after the original (Version 1a) final file. FY 04 NPEFS revised data (Version 1b) contains data revisions from Arizona, Kansas, Kentucky, Maryland, Missouri, Nevada, and North Dakota.

## File names

The names of the FY 04 releases are as follows:

- Stfis041b.xls (Microsoft Excel file)
- Stfis041b.txt (text file)

The first seven characters indicate the file contents and year, and the last two characters indicate the file version. "Stfis" stands for state fiscal, " 04 " stands for FY 04 , " 1 " indicates that the file is ready for final release by NCES, and "b" indicates this is the revised version of the final file by NCES.

## A. Survey Methodology

The NPEFS consists of data collected from SEAs in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands). SEAs compile these data from reports submitted by local education agencies (LEAs) that operate public schools. SEAs may examine and edit these reports. SEAs also include data for any state-run schools, such as special education programs or prison schools serving inmates under the age of 20. NCES and SEAs work cooperatively to ensure comparability between the data items requested and reported.

## Missing and nonapplicable data

Missing data are reported as " -1 " in the data file; nonapplicable data are reported as " -2 ." ${ }^{2}$ NCES requests that states report " 0 " for data items for which no activity has occurred and missing ("-1") for items for which activity has occurred, but for which data are missing. A review of the data and subsequent discussions suggest that these practices are not always followed. In some instances, a " -1 " may have been reported when there was no activity. Conversely, a " 0 " may have been reported when, in fact, there was some activity. When producing the final file, NCES edits some " -1 " and " 0 " responses.

[^1]
## Average daily attendance data and student membership counts

Average daily attendance (ADA) data are collected in the NPEFS as required under Title I of the Elementary and Secondary Education Act of 1965 (as amended by Title I of the Improving America's Schools Act of 1994). Under this law, states report ADA data in accordance with state law; however, NCES provides a definition for states to use in the absence of state law. Per pupil expenditures (calculated by dividing net current expenditures by average daily attendance) are used to allocate Title I and other program funds to states and school districts. Since some states use their own ADA definitions and others use the NCES definition, ADA data in the NPEFS data file are not comparable across states. Student membership data from the 2003-04 CCD State Nonfiscal Survey of Public Elementary/Secondary Education are included in the data file as a more comparable student count. The variable Student Membership (MEMBR03) is the count of students enrolled on or about October 1, 2003.

## NCES crosswalk software

Since the FY 89 data collection, NCES has provided "crosswalk" software to assist states in their reporting and to improve the comparability of data across states. This software converts a state's existing accounting reports to uniform federal standards, as described in the NCES accounting handbook, Financial Accounting for Local and State School Systems: 2003 Edition (National Forum on Education Statistics, Core Finance Data Task Force 2003). NCES reviews and validates the protocols of states that do not use this crosswalk software to convert their state reports to federal standards. Crosswalk software was provided for Alabama, California, Georgia, Illinois, Maine, Massachusetts, Mississippi, Montana, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon, Pennsylvania, South Carolina, and South Dakota in the FY 04 collection.

## NCES edit checks

After an SEA submits data, an edit is conducted and an edit report is sent back to the SEA listing the previous and current year's data and the percentage increase (or decrease) of every item. Notification of any arithmetic errors and comments containing NCES's understanding of specific missing data items are also included with the edit report. States are asked to correct addition errors, verify or correct information on missing items, and explain any extraordinary changes from the previous year's data.

## B. Imputations and Adjustments

NCES introduced the practice of imputing and adjusting data to correct for missing or misreported data beginning with the data collection for school year 1989-90 (FY 90). Imputations and adjustments are performed to correct for item nonresponse only and are limited to the 50 states and the District of Columbia, except that adjustments for direct support expenditures (for and on behalf of school districts) are also performed on data from the Northern Mariana Islands, and that adjustments for food services expenditures are also performed on data from Puerto Rico. The process consists of several steps, which vary according to the nature of the missing or misreported data. A state-by-state list of items affected by imputations and adjustments is presented in appendix D . All of the affected items (except totals and subtotals) are presented on the left side of the list.

## Imputations

Imputations correct cases in which a value is not reported at all, indicating that subtotals for the item are underreported. An imputation by NCES assigns a value to the missing item, and the subtotals containing this item are increased by the amount of the imputation. The same method is used for imputing revenues and expenditures. Revenues are imputed using total revenues, and expenditures are imputed using total expenditures. Imputed data are coded as "I" in the data flag section of the file.
"Impute based on" imputations. Statements with "impute based on" indicate that the first item was reported as missing and the missing value was assigned based on information from the variables following "based on." For example, assume that a state had revenues from Student Activities (R1K), but did not report them. The statement "R1K impute based on TR" means that the value for R1K was assigned based on Total Revenue (TR). The method used for imputing a value for Local Revenue - Student Activities (R1K) is to (1) calculate the ratio of R1K to Total Revenue From All Sources (TR) for each state reporting these items "strictly by the definition"; ${ }^{3}$ (2) calculate the average of these ratios; and (3) multiply the TR of the state with the missing student activities revenue item times the average ratio.

In some instances, the "based on statement" is followed by a difference between two variables (e.g., "E81 impute based on (TE11-E81)"). This statement means that the value for E81 was imputed by (1) calculating the ratio of E81 to the difference of TE11 and E81 for each state reporting these items "strictly by the definition"; (2) calculating the average of these ratios; and (3) multiplying TE11 of the state with the missing E81 times the average ratio.

## Adjustments

Adjustments correct cases in which a value reported for one item contains a value for one or more additional items not reported elsewhere. For example, a state might not differentiate between instructional support staff and student support staff, reporting "missing" for student support staff salaries and a value for instructional support staff salaries that includes both items. NCES would adjust these two responses by reducing the amount reported for instructional support staff salaries and adding that amount to student support staff salaries. The total for salaries and total expenditures would not be affected by this adjustment.

There are several data items that NCES does not adjust even though missing data in one item are combined with another item. The missing data on textbook expenditures (E2) are included in the amounts reported for Instructional Expenditures - Supplies (E16). The missing data on teacher salary items (E11A, E11B, E11C, and E11D) are included in the amounts reported for Instructional Expenditures - Salaries (E11). These cases are not adjusted by NCES in this data file.

Since adjustments consist of redistributing a reported value, any adjustment affects at least two variables. Adjusted data are coded as "A" in the data flag section of the data file.

There are several variations in the way adjustments are carried out, described below and listed in appendix D.

[^2]"Combined with" and "contains" adjustments. Statements with "combined with" indicate that the first item was reported as missing and the value included in the item(s) following "combined with." These statements can be matched to statements with "contains" where the first variable contains the value for that item plus the value for the variable(s) following "contains." For example, "E212 combined with E11" means the value for E212 was included in the value reported for E11, while "E11 contains E212" means the value reported for E11 contains the value for E212 in addition to E11. At the end of the "contains" statement, the total used in calculating the ratio used in the adjustment is indicated by the word "using." In most cases, these variables are Total Expenditures for Education (TE11) or Total Revenue From All Sources (TR).

The method used to perform "combined with" and "contains" adjustments is as follows: (1) calculate the ratios of each missing item and the item containing the missing values to the total indicated at the end of the "contains" statement for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item.
"Supplemented by" adjustments. Adjustment statements with "supplemented by" indicate that the item on the left was reported as missing, and the value is included in the reported function subtotal. For example, "E3B11 supplemented by E3B1" means the value for E3B11 was increased by the distribution of E3B1. These statements can be matched to a "totals" statement. The "totals" statement indicates that the reported total contains values for missing detail. The adjustment here is similar to that in the "contains" adjustment described above: (1) calculate the ratios of each missing item and the items containing the missing values to Total Expenditures for Education (TE11) for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported subtotal by the ratios calculated in step 3 to determine the share for each item.
"Distribute by" adjustments. Adjustment statements with "distribute by" are used only for the distribution of direct state support expenditures to specific objects and functions listed in the statement. In all but one type of case, expenditures are distributed by destination using the ratio of items to which the reported value is being distributed. This means that the ratio of each item (in the destination list) to the sum of all the listed items for the state is calculated, and the ratios are used to distribute the direct support amount to each specific item. For example, "E4B1 distribute by dest. E217, E227, E237, E247, E267" means the value for E4B1 is distributed based on the distribution of the items following "dest." E4B1 times the ratio of E217 / (E217 + E227 + $\mathrm{E} 237+\mathrm{E} 247+\mathrm{E} 267$ ) would be added to the amount in E217. E4B1 times the ratio of E227 / $(\mathrm{E} 217+\mathrm{E} 227+\mathrm{E} 237+\mathrm{E} 247+\mathrm{E} 267)$ would be added to the amount in E 227 , and so on. In a few cases, the amount is "distributed" to only one item.

The "distribute by salary" adjustment used to distribute Direct Program Support - Employee Benefits ( E 4 C 1 ) is different from the other direct support distributions. In this case, the ratio of each salary item to the sum of all listed salary items is calculated, and the amount reported for E4C1 is distributed to each employee benefit item. For example "E4C1 distribute by salary E12, E222, E223, E224, E225, E226, E227, E228, E3A12 using E11, E212, E213, E214, E215, E216, $\mathrm{E} 217, \mathrm{E} 218, \mathrm{E} 3 \mathrm{~A} 11$ " means that the value for E 4 C 1 is distributed to specific employee benefit items E12, E222, E223, E224, E225, E226, E227, E228, and E3A12 based on the distribution of
salaries for these functions. The formula for the amount added to E 12 would be: Amount added to $\mathrm{E} 12=\mathrm{E} 4 \mathrm{C} 1 \times(\mathrm{E} 11 /(\mathrm{E} 11+\mathrm{E} 212+\mathrm{E} 213+\mathrm{E} 214+\mathrm{E} 215+\mathrm{E} 216+\mathrm{E} 217+\mathrm{E} 218+\mathrm{E} 3 \mathrm{~A} 11))$.

The formula for amount added to E222 would be: Amount added to $\mathrm{E} 222=\mathrm{E} 4 \mathrm{C} 1 \times(\mathrm{E} 212 /(\mathrm{E} 11$ $+\mathrm{E} 212+\mathrm{E} 213+\mathrm{E} 214+\mathrm{E} 215+\mathrm{E} 216+\mathrm{E} 217+\mathrm{E} 218+\mathrm{E} 3 \mathrm{~A} 11)$ ).

Data adjustments resulting from direct support distributions are not indicated in the data flag section of the file. These distributions are performed after all other imputations and adjustments have been performed.

The order in which these imputations and adjustments are performed is as follows: (1) impute; (2) adjust using "combined with" and "contains" methods; (3) adjust using "supplemented by" method (totals statement); and (4) adjust using "distribute by" methods. Totals and subtotals are recalculated after each step. All totals and subtotals affected by adjustments or imputations are flagged as " T " in the data flag section of the file.

## Prekindergarten count imputations

Student membership data are collected by grade in the CCD State Nonfiscal Survey of Public Elementary/Secondary Education; however, only the total student membership data for grades prekindergarten through grade 12 (plus ungraded) are included in the NPEFS data file. Since some states do not report data on prekindergarten students, prekindergarten student counts are imputed for these states and added to the total student count. In school year 2003-04 (FY 04), prekindergarten student counts for California and Tennessee are imputed. The total student memberships for California and Tennessee are flagged as " T " in the data flag file.

## Data flags

For each variable, there is a companion flag that indicates whether the value was reported by the state or was placed there by NCES using one of several imputation or adjustment methodologies. The flags are as follows:

R - As reported by the state
A - Adjusted
I - Imputed based on a method other than prior year's data ${ }^{4}$
T - Total based on sum of internal or external detail
The companion cell in each case is identified by the name of the data cell preceded by an "I." Appendix D explains any action taken by NCES with regard to each variable.

## C. Variations in the Survey Over Time

The NPEFS underwent a major revision in FY 89, acquiring its present name in that year and greatly increasing the number of data items collected. Since that year, items have been added to and deleted from the survey, as follows:

[^3]- Beginning with the FY 92 survey:
- Food Services expenditures were broken out by object, adding items E3A11, E3A12, E3A13, E3A14, and E3A16.
- Enterprise Operations expenditures were broken out by object, adding items E3B11, E3B12, E3B13, E3B14, and E3B16.
- Facilities Acquisition and Construction Services - Nonproperty expenditures were broken out into Buildings Built and Alterations Performed by LEA's Own Staff (E611) and Buildings Built and Alterations Performed by Contractors (E612). In addition, Facilities Acquisition and Construction Services - Property expenditures were broken out into Land (E62A) and Buildings (E62B). STE6, the sum of all of the Facilities Acquisitions and Construction Services items, was added.
- Beginning with FY 98 survey:
- The Facilities Acquisition and Construction Services breakouts listed above (items E611, E612, E62A and E62B) were discontinued.
- Beginning with FY 04 survey:
- Instructional Salaries expenditures were broken out by program, adding items E11A, E11B, E11C, and E11D.
- The item for the textbooks expenditures (E2) was added.

## D. Fiscal Data Plan

In addition to the finance data specified in the NPEFS, NCES also collects information from each state to help process the data and to gain a better understanding of what programs and/or policies are connected with the data items and definitions. The FY 04 data plan questionnaire appears in appendix E, and the responses (by state or jurisdiction) appear in appendix F. The fiscal data plan responses are presented as reported by SEAs with minimal editing by NCES. The responses to the data plan are not included on the data file.

## E. State Notes

The state notes contain information from state data providers regarding any significant changes in the data they are reporting. These comments are reported in this documentation as stated by the respondent with minimal editing by NCES. The beginning and end dates of the fiscal year is also reported for each state.

## Appendix B-Glossary

Appendix B-Glossary

This glossary applies to the National Public Education Financial Survey (NPEFS). For additional detail, it is suggested that the data user consult the NCES accounting handbook, Financial Accounting for Local and State School Systems (National Forum on Education Statistics, Core Finance Data Task Force 2003). When applicable, line numbers corresponding to the handbook are listed in parentheses, and corresponding NPEFS variables are listed in brackets.
average daily attendance: Average daily attendance (ADA) is defined by state law or regulations. In their absence, ADA should be calculated by summing the counts of resident students attending public school each day of the school year and then dividing by the total number of days that school was in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside. [ADA, A14A, and A14B.]

CCD: Common Core of Data. A group of public elementary/secondary education surveys of NCES. CCD data are collected from the administrative records systems of each state's department of education.
community services: A functional category of expenditures (3300) for such services as swimming pools, day care centers, and programs for the elderly. [E81 and E82.]
current expenditures: Current expenditures comprise the functional categories of instruction (1000), support services (2000), and noninstructional services (3000). Current expenditures are those expenditures for the day-to-day operation of public elementary and secondary education and are distinct from long-term expenditures and expenditures for other types of education. Property expenditures are excluded from current expenditure subtotals. [TE5 is the total of STE1, STE2T, and STE3.]
debt services: A subfunction (5100) within the expenditure function "other uses" (5000). It includes only long-term debt service with obligations exceeding 1 year. [E7A1 and E7A2.]
direct cost programs: A category of expenditures for programs not part of public elementary and secondary education. These programs include community colleges, adult education, and nonpublic school support. [E9A, E9B, E9C, E9D, E91, and subtotal STE9. NOTE: STE9 does not include E91.]
direct program support: Expenditures made by state education agencies (SEAs) for, or on behalf of, local education agencies (LEAs). The majority of these expenditures are for teacher's retirement funds. The remainders are for textbooks, busing, and special programs, such as education for disabled students. Although states often report these expenditures in the appropriate function, they are sometimes lumped together under the heading "direct program support," in which case NCES distributes them by function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported in the data file as zero. [E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.]
employee benefits: Expenditures (200) made in addition to gross salary that are not paid directly to employees. Employee benefits include amounts paid by, or on behalf of, an LEA for retirement contributions, health insurance, social security contributions, unemployment compensation, worker's compensation, tuition reimbursements, and other employee benefits. [E12, E222, E223, E224, E225, E226, E227, E228, E3A12, and E3B12. Variables E222, E223, E224, E225, E226, E227, and E228 sum to TE22.]
enterprise operations: A subfunction (3200) of noninstructional services (3000). Enterprise operations are activities that are financed, at least in part, by user charges, similar to a private business. These operations are sometimes subsidized by LEAs. Food services expenditures are reported food services, even if they are run as an enterprise. [E3B11, E3B12, E3B13, E3B14, E3B2, E3B16, and subtotal E3B1. NOTE: E3B1 does not include E3B2.]
equipment: An object subcategory (730) within facilities acquisition and construction services (4000). It includes the initial purchase of property items such as books for a newly constructed school or addition. Replacement equipment is labeled property and is reported by function. [E63]
expenditures: All amounts of money paid out by a school system, net of recoveries and other correcting transactions, other than for retirement of debt, purchase of securities, extension of loans, and agency transactions. Expenditures include only external transactions of a school system and exclude noncash transactions such as the provision of perquisites or other in-kind payments.
facilities acquisition and construction services: An expenditure function (4000) that includes the acquisition of land and buildings; building construction, remodeling, and additions; the initial installation or extension of service systems and other built-in equipment; and site improvement. [E61, E62, and E63.]
federal revenues: Reported in four categories: (1) unrestricted and restricted grants-inaid directly from the federal government, (2) unrestricted and restricted grants-in-aid directly through the state, (3) grants-in-aid through other intermediate agencies, and (4) other federal revenues (including payments in lieu of taxes). [R4A, R4B, R4C, R4D, and subtotal STR4.]
food services: A subfunction (3100) of noninstructional services (3000). Food services are activities that provide food to students and staff in a school or LEA. These services include preparing and serving regular and incidental meals or snacks in connection with school activities as well as delivery of food to schools. [E3A11, E3A12, E3A13, E3A14, E3A2, E3A16, and subtotal E3A1. NOTE: E3A1 does not include E3A2.]
function: A category of expenditure defining the activity supported by the service or commodity bought.
general administration: One of nine subfunctions (2300) within the expenditure function support services (2000). It includes expenditures for the board of education and

Appendix B-Glossary
administration of LEAs. [E214, E224, E234, E244, E254, E264, and subtotal STE24. NOTE: STE24 does not include E254.]
instruction: Defined as the activity between teachers and students. Instruction expenditures include salaries and benefits for teachers and instructional aides, supplies, and purchased services such as instruction via television. Tuition expenditures to other LEAs are also included. [E11, E12, E13, E14, E15, E16, E17, E18, and subtotal STE1. Variables E15 and E17 are not included in STE1.]
instructional staff support services: One of nine subfunctions (2200) within the expenditure function support services (2000). It includes instructional staff training, educational media (library and audiovisual), and other instructional staff support services. [E213, E223, E233, E243, E253, E263, and subtotal STE23. NOTE: STE23 does not include E253.]
intermediate sources of revenue: Education agencies with fundraising capabilities that operate between the state and local government levels. One example is New York's Board of Cooperative Educational Services (BOCES). Intermediate revenues are included in local revenue totals. [R2]
local education agency (LEA): An agency at the local level whose primary responsibility is to operate public schools or to contract for public school services. An LEA is also called a school district.
local revenues: Revenues from such sources as local property and nonproperty taxes, investments, and student activities such as textbook sales, transportation and tuition fees, and food service revenues. Local revenues include revenues from intermediate sources. [R1A, R1B, R1C, R1D, R1E, R1F, R1G, R1H, R1I, R1J, R1K, R1L, R1M, R1N, and subtotal STR1. R1F and R1H are not included in STR1.]

NPEFS: National Public Education Financial Survey, a component of the Common Core of Data (CCD).
object: A category of expenditure defining the service or commodity bought.
operations and maintenance: One of nine subfunctions (2600) within the expenditure function support services (2000). It includes expenditures for the supervision of operations and maintenance, the operation of buildings, the care and upkeep of grounds and equipment, vehicle operations (other than student transportation) and maintenance, and security. [E216, E226, E236, E246, E256, E266, and subtotal STE26. NOTE:
STE26 does not include E256.]
other support services: Combines three of nine subfunctions (2500, 2800, and 2900). It includes expenditures for business support services (activities concerned with the fiscal operation of the LEA), central support services (activities, other than general administration, which support each of the other instructional and support services programs, including planning, research, development, evaluation, information, and data

## Appendix B-Glossary

processing services), and other support services expenditures not reported elsewhere. [E218, E228, E238, E248, E258, E268, and subtotal STE28. NOTE: STE28 does not include E258.]
property: One of six expenditure objects (700). Property includes expenditures for initial, additional, and replacement furniture and fixtures such as desks, file cabinets, computers, copying machines, printing equipment, and other equipment. Property expenditures are not included in current expenditure subtotals. [E17, E252, E253, E254, E255, E256, E257, E258, E3A2, E3B2, E62, E63, E82, E91, and subtotal TE10. Property variables are excluded from all totals and subtotals in the file except for variables TE25, TE10, and TE11. Support services subtotal TE25 is the sum of E252, E253, E254, E255, E256, E257, and E258.]
purchased services: One of six expenditure objects. It is for professional and technical services and the renting of equipment. [E13, E232, E233, E234, E235, E236, E237, E238, E3A13, and E3B13. TE23 is the sum of E232, E233, E234, E235, E236, E237, and E238.]
revenues: Additions to assets that do not incur an obligation that must be met at some future date, do not represent exchanges of fixed assets, and are available for expenditure by the LEAs in the state. Revenues include funds from local, intermediate, state, and federal sources.
salaries: One of six expenditure objects (100). It includes the gross salaries of permanent and temporary staff on the payroll of LEAs, including those substituting for permanent employees. Salaries for full- and part-time staff are included along with overtime and salaries for staff on sabbatical leave. Also included are supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. [E11, E212, E213, E214, E215, E216, E217, E218, E3A11, and E3B11. Support services subtotal TE21 is the sum of E212, E213, E214, E215, E216, E217, and E218.]
school administration: One of nine subfunctions (2400) within the expenditure function support services (2000). It includes expenditures for the office of the principal, full-time department chairpersons, and graduation expenses. [E215, E225, E235, E245, E255, E265, and subtotal STE25. STE25 does not include E255.]
state revenues: Revenues received by the LEA from the state are reported in a single total. This total includes unrestricted grants-in-aid, restricted grants-in-aid, revenue in lieu of taxes, and payments for, or on behalf of, LEAs. [R3]

${ }^{1}$ Some California charter schools reported in the Standardized Account Code Structure (SACS) format, which includes expenditure detail by function. Others reported in a summary format called the Alternative Form, which lacks expenditure detail by function. In the NPEFS, Alternative Form charter school data are reported as Direct Program Support.
${ }^{2}$ Georgia has two types of charter schools: (1) Conversion charter schools are existing public schools converted to a charter, and are treated like any other public schools. Their data are included in the district data; and (2) Start-up charter schools are independent. The funds are sent to these schools like a passthrough grant.
${ }^{3}$ Only if charter schools are reported within the district's audit.
${ }^{4}$ Two new public charter schools opened in lowa by the time of the FY 04 NPEFS collection, but will not be reported until FY 05.
${ }^{5}$ Louisiana charter school data reported independently of regular school district data.
${ }^{6}$ Maine only has one charter school, which specializes in math and science.
${ }^{7}$ Massachusetts charter schools do not file financial data with the state, but their tuition is reported by each LEA.
${ }^{8}$ Michigan charter schools are considered independent public school districts.
${ }^{9}$ Minnesota charter schools reported expenditures in the same manner as other public school districts.
${ }^{10}$ Charter schools started operations in New Hampshire by the time of the FY 04 NPEFS collection, but will not be reported until FY 05. New Hampshire is debating whether or not the public school district has any fiscal responsibility.
${ }^{11}$ New Mexico charter school data and regular school district data are reported separately for the F-33.
${ }^{12}$ New York charter school data are reported to the charter school unit of the New York State Education Department.
${ }^{13}$ Charter schools are regarded as LEAs and, as such, their data are included along with the regular LEAs data.
${ }^{14}$ Oklahoma collects data from charter schools and LEAs without duplication of cost by using function codes under transfer. LEAs report revenues and the charter schools report expenditures. Some funds flow directly to charter schools; other funds go through the regular schools before being forwarded to charter schools.
${ }^{15}$ The data submitted from the districts include the revenue received from the state for the charter schools and the expenditures as function 1280 , object 360 in Oregon's accounting structure for school districts (Instruction/Alternative Programs - Purchased Services/Charter school payments).
${ }^{16}$ Wisconsin has three chartering entities that do not report data: (1) UW-Milwaukee, (2) the City of Milwaukee, and (3) UW-Parkside.

## Appendix H—State Notes

## Appendix H—State Notes

The following notes can be used to track known anomalies in state data reported to the collection agent. Unless otherwise noted, each anomaly recorded here applies to fiscal year 2004. The absence of "Notes" for a state indicates that the state's data did not contain any known anomalies.

## Alabama

Fiscal Year: October 1-September 30

## Alaska

Fiscal Year: July 1-June 30
Notes:

- An increase of $\$ 23$ million in Support Services Students and a concurrent decrease in Support Services Instruction are the result of a reclassification of expenditures between these two functions.

## Arizona

Fiscal Year: July 1-June 30
Notes:

- District Activities (formerly Student Activities) were overreported in fiscal year 2003 (FY 03).
- Tuition from Other LEAs within the state was underreported in the prior year (FY 03).
- Food Services expenditures were revised.

## Arkansas

Fiscal Year: July 1-June 30
Notes:

- An increase of over 25 percent for Food Services expenditures is the result of the inclusion of commodities in the data reported for supplies in this category.

## California

Fiscal Year: July 1-June 30
Notes:

- An increase of over 31 percent for Grants-in-Aid directly from the federal government through the state is the result of the department of education reclassifying federal Head Start revenue.
- Charter schools reported an additional $\$ 342$ million in expenditures outside of the standardized account code format.

## Colorado

Fiscal Year: July 1-June 30

## Notes:

- The decrease in average daily attendance is a result of the state education department collecting attendance data directly from the districts in lieu of calculating attendance by using a percentage of average daily membership.

## Appendix H—State Notes

## Connecticut

Fiscal Year: July 1-June 30
Notes:

- Food Services expenditures are based on prior year's nationwide percentage allocations.

Delaware
Fiscal Year: July 1-June 30

## District of Columbia

Fiscal Year: July 1-June 30
Notes:

- Other Local Government Property Tax amount is derived from allocating a percentage of Other Local Government Nonproperty Tax.
- A percentage of Facilities Acquisition and Construction Services (FACS) Nonproperty expenditures are allocated to FACS Property and FACS Equipment.
- No imputation was done for Other Sources of Revenues and Debt Services.
- The imputation for Other Instructional Expenditures in the first final file (Version 1a) was removed.

Florida
Fiscal Year: July 1-June 30

## Georgia

Fiscal Year: July 1-June 30
Notes:

- The state education agency now has a requirement that school districts report their district activities proceeds, accounting for a sharp increase in this category.
- The drop in purchased services expenditures in several categories is a result of a decrease in categorical grants and budget cuts.

## Hawaii

Fiscal Year: July 1-June 30
Notes:

- The 64 percent increase in Support Services Instruction is the result of increased expenditures for autistic services.

Idaho
Fiscal Year: July 1-June 30

## Appendix H—State Notes

## Illinois

Fiscal Year: July 1-June 30
Notes:

- All Revenue from Local Governmental Units Other Than School Districts has been reclassified as Taxes Levied/Assessed by the School District.

## Indiana

Fiscal Year: July 1-June 30
Notes:

- The 91 percent increase in Local Property Tax is the result of late tax payments caused by Section 1 reassessment.

Iowa
Fiscal Year: July 1-June 30

## Kansas

Fiscal Year: July 1-June 30
Notes:

- A majority of District Activities revenues and Enterprise Operations expenditures are now being treated as agency funds. As a result, those revenues and expenditures are no longer reported to the state education agency.
- Capital outlay - Equipment category included expenditures from outside contractors in the amounts reported in the prior year (FY 03). A correction was made this year to include these expenditures in Nonproperty Expenditures for capital outlay.
- Direct Cost Programs - Other was revised.

## Kentucky

Fiscal Year: July 1-June 30
Notes:

- Revenues and expenditures were revised. Revised data resulted in a large increase in expenditures for facilities acquisition and construction services from the data that had been reported previously.

## Louisiana

Fiscal Year: July 1-June 30
Maine
Fiscal Year: July 1-June 30

## Notes:

- Food Services revenues and expenditures are calculated by the U.S. Census Bureau from Maine school nutrition data.

## Appendix H—State Notes

## Maryland

Fiscal Year: July 1-June 30
Notes:

- Queen Anne's County Schools reported no spending in capital outlay during this data collection year. Queen Anne's County capital outlay expenditures accounted for 53 percent of the total in the prior fiscal year.
- Instructional Staff Support Services Salary expenditures in the amount of \$39 million were moved from Instructional Staff Support Services Salaries to Student Support Services Salaries.

Massachusetts
Fiscal Year: July 1-June 30

## Notes:

- The decrease in private school expenditures is the result of the state discontinuing the $50 / 50$ program whereby 50 percent of residential costs for private schools were paid directly by local school districts.

## Michigan

Fiscal Year: July 1-June 30
Notes:

- The decrease in District Activities revenue is attributed to a change in reporting enterprise activities. All amounts for these activities that were services provided to other districts were excluded from the FY 04 NPEFS report to prevent double counting.
- Districts are capitalizing their expenditures for construction services; therefore, these expenditures now fall into the property category in capital outlay.

## Minnesota

Fiscal Year: July 1-June 30
Mississippi
Fiscal Year: July 1-June 30

## Missouri

Fiscal Year: July 1-June 30
Notes:

- Tuition payment categories were revised.

Montana
Fiscal Year: July 1-June 30

## Nebraska

Fiscal Year: September 1-August 31

## Appendix H—State Notes

## Nevada

Fiscal Year: July 1-June 30
Notes:

- All funds from Local Revenues from Local Government Property Taxes were moved to Local Revenues from Local Government Nonproperty Taxes.

## New Hampshire

Fiscal Year: July 1-June 30

## New Jersey

Fiscal Year: July 1-June 30

## New Mexico

Fiscal Year: July 1-June 30

## New York

Fiscal Year: July 1-June 30

## North Carolina

Fiscal Year: July 1-June 30
Notes:

- The state department of education does not collect transportation fees from students.
- Schools do not report transactions related to district activities to the state department of education.
- The state department of education does not collect tuition from students.
- A new budget code was added to the North Carolina chart of accounts to capture interLEA tuition transactions.
- School bus purchases are responsible for the large increase in Transportation Property expenditures in Support Services.

## North Dakota

Fiscal Year: July 1-June 30
Notes:

- Food Services - Supplies was revised.

## Ohio

Fiscal Year: July 1-June 30
Notes:

- The changes in capital outlay data this year are the result of an error in the prior year's reporting of construction and buildings. This year, these amounts are reported in the correct categories as outlined in the NCES accounting handbook.

## Appendix H—State Notes

## Oklahoma

Fiscal Year: July 1-June 30
Notes:

- There are no tuition payments made to private schools.

Oregon
Fiscal Year: July 1-June 30

## Pennsylvania

Fiscal Year: July 1-June 30
Notes:

- The increase in Other Sources of Revenue was the result of the refunding of debt and from extended term debt and bond proceeds.

Rhode Island
Fiscal Year: July 1-June 30
Notes:

- Capital Outlay - Property expenditures have increased due to module classroom acquisitions. Capital Outlay - Equipment expenditures have increased due to purchases of plant equipment.

## South Carolina

Fiscal Year: July 1-June 30
South Dakota
Fiscal Year: July 1-June 30

## Tennessee

Fiscal Year: July 1-June 30

## Texas

Fiscal Year: September 1-August 31
Notes:

- The Texas legislature mandated a statewide requirement for an increase in public school employee health coverage, averaging $\$ 1,000$ per public school employee.

[^0]:    ${ }^{1}$ Function is defined as a category of expenditure defining the activity supported by the service or commodity bought, while object is defined as a category of expenditure defining the service or commodity bought. For more definitions of terms used in this report, please see Appendix B-Glossary.

[^1]:    ${ }^{2}$ For example, in states where none of the school districts have independent tax-raising authority, the variables Local Revenue Property Tax (R1A) and Local Revenue Nonproperty Tax (R1B) are reported as "-2."

[^2]:    ${ }^{3}$ States reporting an item "strictly by the definition" are those states reporting values greater than zero for each of the items involved in the imputation, and none of whose values are affected by another "contains" or "combined with" adjustment, as described later in the text.

[^3]:    ${ }^{4}$ For some NCES surveys, imputations of missing data items are performed by applying a growth factor to data reported in a prior year. For the NPEFS, this type of growth-rate imputation is not performed. However, to maintain consistency in the meaning of imputation flags across NCES surveys, "I" is assigned the value of "Imputed based on a method other than prior year's data," even though this is the only type of imputation performed for the NPEFS.

[^4]:    NOTE: Detail may not sum to totals because of rounding

[^5]:    See notes at end of table.
