## I. Introduction to Documentation for the Common Core of Data National Public Education Financial Survey: Fiscal Year 1998, School 1997-98 (Revised)

This documentation contains a brief description of the survey collection, along with information required to understand and access the data files. These data were collected by the National Center for Education Statistics (NCES), a branch of the Office of Educational Research and Improvement in the U.S. Department of Education. NCES is authorized to collect these data by Congress through the National Education Statistics Act of 1995, section 404(a), (20 U.S.C. 9003(a)). The data on the files are based on information from state education agencies (SEAs) for fiscal year 1998 (school year 1997-98). There is a record for each state, the District of Columbia and 5 of the outlying areas (American Samoa, Guam, Northern Marianas, Puerto Rico and Virgin Islands). The data were collected through the "National Public Education Financial Survey" (NPEFS) of the Common Core of Data (CCD) series. The U.S. Bureau of the Census is currently the collection agent for NCES for this survey. These data are presented by state and contain revenue data by source and expenditure data by function and object. Average daily attendance is also provided. Total student membership from the 1997-98 Common Core of Data State Nonfiscal Survey has also been added.

## II. User's Guide

There is one data file containing 56 records, each record containing 288 fields. There are 4 record identification fields, 142 data fields and 142 imputation flag fields. The ASCII file has a record length of 1,877 characters and an overall size of 103 KB . A record layout is provided in appendix A, the list of imputation flag frequencies in appendix B , a glossary with definitions of key variables is included in appendix C, state codes and abbreviations are in appendix D, a survey form with data variable names in appendix E . Appendix F includes sample tables.

## A. Survey Methodology

These data are based on information from state education agencies (SEAs) from their administrative records. In compiling these data, each SEA obtains data from the local education agencies (LEAs) that operate public schools. Each SEA may edit or examine the individual LEA reports. SEAs also include data for any state run schools such as special education programs or prison schools serving inmates under the age of 20. NCES and the SEAs work cooperatively to assure comparability between data elements requested and reported.

NCES requests that states report 0 for items in which no activity occurred and $M$ for items in which an activity occurred, but no data are available. Review of the data and subsequent discussions suggests that these practices are not always followed. In some instances, an M may have been reported when there was no activity. Conversely, a 0 may have been used when in fact there was some activity. When producing the final file, NCES edited some missing and 0 responses.

Average daily attendance figures are collected in the NPEFS survey as required under Title 1 of the Elementary and Secondary Education Act of 1965 as amended by the Improving America's Schools Act of 1994 (Title I). Under this law, states are to provide average daily attendance in accordance with state law; however, NCES provides a definition for states to use in the absence of state law. Per pupil expenditures (calculated by dividing net current expenditures by average daily attendance) are used in the formula to allocate Title I and other program funds to states and school districts. Since some states use their own definitions and others use the NCES definition, the data on average daily attendance are not comparable across states. Student membership counts from the CCD "1997-98 State Nonfiscal Survey" have been included in the data set as a more comparable student count. Student membership is the count of students enrolled on or about October 1, 1997 and is comparable across all states.

NCES has provided "crosswalk" software to assist states in their reporting and to improve comparability across states since the FY 1989 data collection. This software converts a state's existing accounting reports to the federal standard, as described in Financial Accounting for Local and State School Systems, 1990 (Files from earlier years followed the standards described in Financial Accounting for Local and State School Systems, 1980). The current accounting publication can be found on the web at: http://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=97096R . States which did not have this crosswalk software developed for them have had their protocol for converting data from their state accounts to the federal standard reviewed and validated.

When data were received from the state education agency, edits were conducted and an edit report was sent back to the state listing previous and current years' data, and the percent increase (or decrease) of every item. Notification of any arithmetic errors and special text containing NCES's understanding of specific missing data items were also included with the edit report. States were asked to correct addition errors, verify or correct information on missing items, and explain any extraordinary changes from previous year's data.

Revised file. The file that is documented in this text presents revised data that are corrections or resubmissions received within one year following the original submission. This revised file replaces the original file. Because a change in a reported value for one state may result in changes for imputed data in several states, the differences between the original and revised files are not listed in this text.

## B. Imputations and Adjustments

NCES introduced the practice of imputing and adjusting data to correct for missing or mis-reported data beginning with the FY 1990, School Year 1989-90 collection. Imputations and adjustments were
performed to correct for item nonresponse only and were limited to the 50 states and the District of Columbia. This process consisted of several stages and steps, and varied as to the nature of the missing data. A list of all of the items affected by these imputations and adjustments is presented in the following section. All items (except totals and subtotals) affected by these adjustments are presented on the left side of the list. A list of imputation flag frequencies is in Appendix B.

Imputations correct cases in which a value is not reported at all, indicating that subtotals for the item are under-reported. An imputation by NCES would assign a value to the missing item, and the subtotals containing this item would increase by the amount of the imputation.

Adjustments are corrections to a situation in which a value reported for one item contained a value for one or more additional items not reported elsewhere. For example, a state may not differentiate between instructional support staff and student support staff, reporting M (Missing) for student support staff salaries and a value representing the salaries for both items as instructional staff support salaries. NCES adjusts these two responses by reducing the amount reported for instructional staff support salaries and adding that amount to student support staff salaries. The total for salaries and total expenditures would not be affected by this adjustment.

Imputations. The same method was used for imputing revenues and expenditures. Revenues were imputed using total revenues, and expenditures were imputed using total expenditures. Imputed data are coded as " I " in the data flag section of the file.

The following example illustrates the procedure. Assume that a state had revenues from student activities, but did not report them. The method used for imputing local revenue - student activities was to (1) calculate the ratio of student activity revenues (R1K) to total revenues (TR) for each state reporting these items strictly by the definition; (2) calculate the average of these ratios; and (3) multiply total revenues (TR) of the state with the missing student activities revenue item times the average ratio. States reporting an item "strictly by the definition" are those states reporting values greater than 0 for each of the items involved in the imputation, and none of whose values are affected by another "contains" or "combined with" adjustment. "Contains" and "combined with" adjustments are described below.

Adjustments. Since adjustments consist of redistributing a reported value, any adjustment affects at least two variables. Adjusted data are coded as "A" in the data flag section of the file.

There are several variations in the way adjustments were carried out. These variations are indicated in the following "List of Imputations and Adjustment", and are described below.

Statements with "combined" indicate that the first item was reported as missing and the value included in the item(s) following "combined with." These statements can be matched to statements with "contains" where the first variable contains the value for that item plus the value for the item(s) following "contains." For example, "E212 combined with E11" means, the value for E212 was included in the value reported for E11; while "E11 contains E212" means the value reported for E11 contains the value for E212 in addition to E11. At
the end of the "contains" statement, the total used in calculating the ratio used in the adjustment is indicated by the word "using". In most cases these totals are TE11 (total expenditures) or TR (total revenues).

The method used for "combined" and "contains" adjustments was to: 1) calculate the ratios of each missing item and the item containing the missing values to the total indicated at the end of the "contains" statement for all states reporting these items strictly by definition, 2) calculate the average of each of these ratios, 3) calculate the ratio of each average ratio to the sum of the average ratios, and 4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item. States reporting these items "strictly by definition" are those states reporting values greater than 0 for each of the items involved in the adjustment, and none of those values are affected by another "contains" or "combined with" adjustment.

Adjustment statements with "distribute by" are used only for the distribution of direct state support expenditures to specific objects and functions listed in the statement. In all but one type of case, these are distributed by destination, the ratio of items to which the reported value is being distributed. This means that the ratio of each item (in the destination list) to the sum of all the listed items for the state is calculated and these ratios are used to distribute the direct support amount to each specific item. For example, "E4B1 distribute by dest. E217, E227, E237, E247, E267" means the value for E4B1 is distributed based on the distribution of the items following "dest". E4B1 times the ratio of E217 / (E217 + E227 + E237 + E247 + E 267 ) would be added to the amount in E 217 . E 4 B 1 times the ratio of $\mathrm{E} 227 /(\mathrm{E} 217+\mathrm{E} 227+\mathrm{E} 237+$ $\mathrm{E} 247+\mathrm{E} 267$ ) would be added to the amount in E227, and so on. In a few cases the amount is "distributed" to only one item. Data adjustments resulting from direct support distributions are not indicated in the data flag section of the file.

The "distribute by salary" adjustment used to distribute E4C1 (direct support employee benefits) is different from the other direct support distributions. In this case the ratio of each salary item to the sum of all listed salary items is calculated, and the amount reported for E 4 C 1 distributed to each employee benefit item. Data adjustments resulting from direct support distributions are not indicated in the data flag section of the file.

These distributions were performed after all other imputations and adjustments had been performed.
Adjustment statements with "supplemented by" indicate that the item on the left was reported as missing, and the value is included in the reported function subtotal. For example, "E3B11 supplemented by E3B1" means the value for E3B11 was increased by the distribution of E3B1. These statements can be matched to a "totals" statement or a "derived from" statement. The "totals" statement indicates that the reported total contains values for missing detail. The adjustment here is similar to that in the "contains" adjustment described above: 1) calculate the ratios of each missing item and the item containing the missing values to total expenditures (TE11) for all states reporting these items strictly in agreement with the definition, 2) calculate the average of each of these ratios, 3 ) calculate the ratio of each average ratio to the sum of the average ratios, and 4) multiply the reported subtotal by the ratios calculated in step 3 to determine the share for each item.

There are a few cases in which some local revenues are imputed and these values are carried over and added to expenditures. This occurs with revenues from student activities and food services, where these activities are run as an enterprise and the states report no revenues and only net expenditures. NCES requires that gross expenditures be reported for all expenditure items on the NPEFS survey. These occurrences are documented on the "List of Imputations and Adjustments" with "impute" for the revenue item and "derived from" for expenditure item (subtotal E3A1 or E3B1) to which the imputed revenue amount is added. This amount is then distributed to the items making up the subtotal in the same manner as the "totals" and "supplemented by" distributions as described above. For example, "E3B1 derived from R1K, distribute over E3B11, E3B12, E3B13, E3B14, E3B16" indicates that the value imputed for R1K has been added to the value for E 3 B 1 , and that the new value for E 3 B 1 is distributed to $\mathrm{E} 3 \mathrm{~B} 11, \mathrm{E} 3 \mathrm{~B} 12, \mathrm{E} 3 \mathrm{~B} 13, \mathrm{E} 3 \mathrm{~B} 14$, and E3B16 based on the distribution of these items.

The order in which these imputations and adjustments were performed is: 1 . imputations, 2 . adjustments, 3 . totals, 4. derive, and 5. distribute. Totals and subtotals were recalculated after each step had been performed. All totals and subtotals affected by adjustments or imputations are flagged as "T" in the data flag section of the file.

Student membership is collected by grade on the CCD State Nonfiscal Survey of Public Elementary and Secondary Education. Some states do not report data on prekindergarten students. Prekindergarten student counts were imputed for those states and added to the total student count. Only total student membership for grades prekindergarten through grade 12 (plus ungraded) are on the NPEFS data file. These cases are noted as imputed in the data flag file and imputation lists.

For each cell there is a companion cell containing a flag indicating whether the figure in the cell was reported by the state or was placed in the cell by NCES using one of several methodologies.

R-As reported by the state
A - Adjustment
I - Imputed based on a method other than prior year's data
T - Total based on sum of internal or external detail
C - combined with data provided elsewhere by the state

The companion cell in each case is identified by the name of the data cell preceded by an "I." This documentation explains any action taken by NCES in regard to each variable.

## C. Variations in File Over Time

The Common Core of Data - State Fiscal survey underwent a major revision with the inauguration of the "National Public Education Financial Survey," beginning with the collection of Fiscal Year 1989 data. Since the FY 1989 collection items have been added to or deleted from the survey. These items are listed below.

Beginning with the FY 1992 survey:
Food Services Expenditures were broken out by object, adding items: E3A11, E3A12, E3A13, E3A14, and E3A16.

Enterprise Operations Expenditures were broken out by object, adding items: E3B11, E3B12, E3B13, E3B14, and E3B16.

Facilities Acquisition and Construction Services - Nonproperty Expenditures was broken out into Buildings Built and Alterations Performed by LEA's Own Staff E611 and Buildings Built and Alterations Performed by Constructors E612. In addition to this breakout, Facilities Acquisition and Construction Services - Property Expenditures was broken out into Land E62A and Buildings E62B. STE6, the sum of all of the Facilities Acquisitions and Construction Services items, was added beginning with the FY 1992 survey.

Beginning with FY 1998 survey:
The Facilities Acquisition and Construction Services breakouts listed above (items E611, E612, E62A and E62B) were discontinued.

## Appendix A. RECORD LAYOUT

Fiscal Year 1998 (IMPUTED FILE)<br>This is a flat file having the following attributes<br>(RECFM=V, LRECL=1877, 56 PHYSICAL RECORDS)

The file contains imputed data for fiscal year 1998, sorted by state (FIPS)

## Appendix C: GLOSSARY

Average Daily Attendance: average resident attendance as defined by state law or regulations. In the absence of such laws and regulations, average daily attendance (ADA) should be the sum of the counts of resident students attending public school each day of the school year, divided by the number of days school was in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside.

CCD: the Common Core of Data, the National Center for Education Statistics' primary database on public elementary and secondary education in the United States. Data are collected annually from states' administrative records.

Community services: a functional category of expenditures (3300) for such services as swimming pools, day care centers, and programs for the elderly. Community services expenditures reported in this publication are funds for the use of these services by public education students. (Variable names: E81 and E82.)

Current expenditures: comprise the functional categories instruction (1000), support services (2000), and non-instructional services (3000). These are expenditures for the day-to-day operation of public elementary and secondary education, distinct from long-term expenditures and expenditures for other types of education. Property expenditures are excluded from current expenditure subtotals. (Subtotals STE1, STE2T, and STE3 sum to total TE5.)

Debt service: a sub-function (5100) within the expenditure function other uses (5000). It includes only long-term debt service (obligations exceeding one year). (Variable names: E7A1 and E7A2.)

Direct program support: expenditures made by state education agencies for, or on behalf of, local education agencies. The majority of these expenditures are for teachers' retirement funds; the rest include expenditures for textbooks, busing, and special programs such as education for disabled students. Although states often report these expenditures in the appropriate function, these expenditures are sometimes lumped together under the heading direct program support, in which case NCES distributes them into function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported as zero on the data file. (Variable names E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.)

Direct cost programs: a category of expenditures for programs not part of public elementary and secondary education. These programs include community colleges, adult education and non-public school support. (Variable names E9A, E9B, E9C, E9D, E91, and subtotal STE9. NOTE: STE9 does not include E91.)

Employee benefits: one of six expenditure objects (200). It is for expenditures made in addition to gross salary that are not paid directly to employees. It includes amounts paid by, or on behalf of, an LEA for fringe benefits such as group insurance, social security contributions, retirement contributions, tuition reimbursements, unemployment compensation, worker's compensation, and other employee benefits (e.g., unused sick leave). (Variable names: E12, E222, E223, E224, E225, E226, E227, E228, E3A12 and E3B12. Variables E222, E223, E224, E225, E226, E227, and E228 sum to TE22.)

Enterprise operations: a sub-function (3200) of the function non-instructional services (3000). Enterprise operations are activities that are financed, at least in part, by user charges, similar to a private business. These operations are sometimes subsidized by local education agencies. (Variable names: E3B11, E3B12, E3B13, E3B14, E3B2, E3B16, and subtotal E3B1. NOTE: E3B1 does not include E3B2.)

Equipment: an object subcategory (730) within the function facilities acquisition and construction services (4000), it includes the initial purchase of property items such as books for a newly constructed school or addition. Replacement equipment is labeled property, and is reported by function. (Variable name E63.)

Facilities acquisition and construction services: an expenditure function (4000) that includes the acquisition of land and buildings; building construction, remodeling, and additions; the initial installation or extension of service systems and other built-in equipment; and site improvement. (Variable names: E61, E62 and E63).

Federal revenues: are reported in four categories: 1) unrestricted and restricted grants-in-aid direct from the federal government, 2) unrestricted and restricted grants-in-aid direct through the state, 3) grants-in-aid through other intermediate agencies, and 4) other federal revenues (including payments in lieu of taxes). (Variable names: R4A, R4B, R4C, R4D, and subtotal STR4.)

Food services: a sub-function (3100) of the function non-instructional services (3000). Food services are activities that provide food to students and staff in a school or LEA. These services include preparing and serving regular and incidental meals or snacks in connection with school activities as well as delivery of food to schools. (Variable names: E3A11, E3A12, E3A13, E3A14, E3A2, E3A16, and subtotal E3A1. NOTE: E3A1 does not include E3A2.)

Function: a category of expenditure, defining the activity supported by the service or commodity bought.

General administration: one of nine sub-functions (2300) within the expenditure function support services (2000). It includes expenditures for the board of education and administration of Local Education Agencies. (Variable names: E214, E224, E234, E244, E254, E264, and subtotal STE24. NOTE: STE24 does not include E254.)

Instruction: activity between teachers and students. Instruction expenditures includes salaries and benefits for teachers and instructional aides, supplies, and purchased services such as instruction via television. Tuition expenditures to other LEAs are also included here. (Variable names: E11, E12, E13, E14, E15, E16, E17, E18, and subtotal STE1. (Variables E15 and E17 are not included in the subtotal.)

Instructional staff support services: one of nine sub-functions (2200) within the expenditure function support services (2000). It includes instructional staff training, educational media (library and audiovisual), and other instructional staff support services. (Variable names: E213, E223, E233, E243, E253, E263 and subtotal STE23. NOTE: STE23 does not include E253.)

Intermediate sources of revenue: educational agencies with fund raising capabilities that operate between the state and local government levels. One example is New York's Board of Cooperative Educational Services (BOCES). (Variable name: R2.)

LEA: local education agency, also called school district or board of education.

Local revenues: funds produced within the boundaries of an LEA that are available for the use of the LEA. These revenues include money collected by other government units for use by the LEA. Local revenues include: property taxes, non-property taxes, parent government contributions, student fees, and other local sources. (Variable names: R1A, R1B, R1C, R1D, R1E, R1F, R1G, R1H, R1I, R1J, R1K, R1L, R1M, R1N, and subtotal STR1. Variables R1F and R1H are not included in the subtotal.)

NPEFS: the National Public Education Financial Survey, a component of the Common Core of Data (CCD) and the source of the data in this report.

Object: a category of expenditure, defining the service or commodity bought.

Operations and maintenance: one of nine sub-functions (2600) within the expenditure function support services (2000). It includes expenditures for the supervision of operations and maintenance, operation of buildings, the care and upkeep of grounds and equipment, vehicle operations (other than student transportation) and maintenance, and security. (Variable names: E216, E226, E236, E246, E256, E266, and subtotal STE26. NOTE: STE26 does not include E256.)

Other support services: combines three of nine support services sub-functions (2500, 2800, and 2900). It includes expenditures for business support services (activities concerned with the fiscal operation of the LEA), central support services (activities, other than general administration, which support each of the other instructional and supporting services programs; including planning, research, development, evaluation, information, and data processing services), and other support services expenditures not reported elsewhere. (Variable names: E218, E228, E238, E248, E258, E268, and subtotal STE28. NOTE: STE28 does not include E258.)

Pupils in membership: the count of students on the current roll taken on the school day closest to October 1 by using either 1) the sum of original entries and reentries minus total withdrawals, or 2 ) the sum of the total present and the total absent.

Purchased services: one of six expenditure objects. It is for professional and technical services, and the renting of equipment. (Variable names: E13, E232, E233, E234, E235, E236, E237, E238, E3A13, and E3B13. Support services subtotal TE23 is the sum of: E232, E233, E234, E235, E236, E237, and E238.)

Property: one of six expenditure objects (line item 700). Property includes expenditures for initial, additional, and replacement furniture and fixtures such as desks, file cabinets, computers, copying machines, printing equipment, and other equipment. Property expenditures are not included in current expenditure subtotals. (Variable names: E17, E252, E253, E254, E255, E256, E257, E258, E3A2, E3B2, E62, E63, E82, E91, and subtotal TE10. Property variables are excluded from all totals and subtotals on the file except for variables TE25, TE10 and TE11. Support services subtotal TE25 is the sum of: E252, E253, E254, E255, E256, E257, and E258.)

Revenue: revenues are categorized by source as follows: federal, state, intermediate government agencies, and local.

Salaries: one of six expenditure objects (line item 100). It includes the gross salaries of permanent and temporary staff on the payroll of LEAs including those substituting for permanent employees. Salaries for full- and part-time staff are included along with overtime and salaries for staff on sabbatical leave. Also included are supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. (Variable names: E11, E212, E213, E214, E215, E216, E217, E218, E3A11, and E3B11. Support services subtotal TE21 is the sum of: E212, E213, E214, E215, E216, E217, and E218.)

School administration: one of nine sub-functions (2400) within the expenditure function support services (2000). It includes expenditures for the office of the principal, full-time department chairpersons, and graduation expenses. (Variable names: E215, E225, E235, E245, E255, E265 and subtotal STE25. NOTE: STE25 does not include E255)

State revenues: revenues received by the LEA from the state are reported in a single total. This total includes unrestricted grants-in-aid, restricted grants-in-aid, revenue in lieu of taxes, and payments for, or on behalf of, LEAs. (Variable name: R3.)

Student support services: one of nine sub-functions (2100) within the expenditure function support services (2000). It includes attendance and social work, guidance, health, psychological services, speech pathology, audiology, and other student support services. (Variable names: E212, E222, E232, E242, E252, E262, and subtotal STE22. NOTE: STE22 does not include E252.)

Student transportation: one of nine sub-functions (2700) within the expenditure function support services (2000). It includes expenses for the supervision, vehicle operation, monitoring, and vehicle servicing and maintenance associated with student transportation services. (Variable names E217, E227, E237, E247, E257, E267, and subtotal STE27. NOTE: STE27 does not include E257.)

Supplies: one of six expenditure objects (line item 600). Supplies are items that are consumed, worn out, or deteriorated through use, or items that lose their identity through fabrication or incorporation into different or more complex units or substances. These include expenditures for general supplies; paper and other materials required for printing and copying; and books, periodicals, and reference materials. (Variable names: E16, E242, E243, E244, E245, E246, E247, E248, E3A14, and E3B14. Support services subtotal TE24 is the sum of: E242, E243, E244, E245, E246, E247, and E248.)

Support services: an expenditure function (2000) divided into nine sub-functions: student support services (2100), instructional staff support (2200), general administration support services (2300), school administration support services (2400), operations and maintenance (2600), student transportation support services (2700), and other support services (2500, 2800, 2900). (Support Services subtotal STE2T is the sum of subtotals: STE22, STE23, STE24, STE25, STE26, STE27 and STE28. STE2T is also the sum of subtotals: TE21, TE22, TE23, TE24 and TE26.)

[^0]:    IMPUTATION FLAGS FOR 1998 ITE23

    IMP FLAG SUP EXP-PURCH SV-SUBTOTAL

    Cumulative Cumulative

[^1]:    ${ }^{1}$ Include only regular and part-time teachers, teacher aides, homebound teachers, hospital-based teachers, substitute teachers, and teachers on sabbatical leave. If prorated amount and FTE are not available, also include teaching school nurses, teaching librarians, and teaching departmental chairpersons.
    [See instructions for a more detailed listing under

    > AMOUNT
    > (omit cents)

[^2]:    ${ }^{2}$ Include only staff in attendance and social work services, guidance, health, speech pathology and audiology.
    ${ }^{3}$ Include only supervisors of instruction (not department chairmen), curriculum coordinators and inservice training staff, school library staff, audiovisual staff, educational television staff, and staff engaged in the development of computer-assisted instruction.
    ${ }^{4}$ Include only board of education staff, board secretary/clerk staff relations and negotiations staff, the superintendent's staff, and the superintendent.

[^3]:    ${ }^{5}$ Include only the staff of the office of the principal (including vice principals and other assistants), department chairpersons and the principal.
    ${ }^{6}$ Include only operations and maintenance supervisor, operation staff (heating, lighting, ventilation, repairing and replacing facilities and equipment), care and upkeep of grounds and equipment staff, vehicle operations and maintenance staff (not student transportation staff) and security services staff.
    ${ }^{7}$ Include only student transportation supervision staff, and staff for vehicle operation, monitoring of students, and vehicle maintenance

[^4]:    ${ }^{9}$ Note that food services expenditures should be gross expenditures, even if substantially aided by federal nutrition programs. If food services are run as an enterprise operation in your state, enter amounts in 3100 and note practice below column.
    ${ }^{10}$ Enterprise operations are activities that are financed by user charges [without governmental funds] similar to a private business. Include payments to the enterprise fund by a school system to cover deficit operations. Note below column the types of enterprise operations reported.

[^5]:    */ Value contains imputation for missing data. Imputed value is less than 2 percent of total revenues in any one state. NOTE: Details may not add to total due to rounding. National figures do not include outlying areas.
