

# Findings in Brief 

 Reading and Mathematics 2011 NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS AT GRADES 4 AND 8U.S. Department of Education NCES 2012-459

## The 2011 NAEP Assessments

## Mathematics

The National Assessment of Educational Progress (NAEP) mathematics assessment measures students' knowledge and skills in mathematics and students' ability to apply their knowledge in problem-solving situations. At each grade, students responded to questions designed to measure what they know and can do across five mathematics content areas: number properties and operations; measurement; geometry; data analysis, statistics, and probability; and algebra.

## Reading

The NAEP reading assessment measures students' reading comprehension by asking them to read selected grade-appropriate materials and answer questions based on what they have read. At each grade, students responded to questions designed to measure their reading comprehension across two types of texts: literary and informational.

## Reporting NAEP Results

Results are based on nationally representative samples of fourth- and eighth-graders.

|  | Mathematics |  | Reading |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Number of <br> students | Number of <br> schools | Number of <br> students | Number of <br> schools |
| Grade 4 | 209,000 | 8,500 | 213,100 | 8,500 |
| Grade 8 | 175,200 | 7,610 | 168,200 | 7,590 |

NOTE: The number of students is rounded to the nearest ten. The number of students is rounded to the nearest hundred.

Students' performance is reported as average scores on a 0-500 scale for each subject, and percentages of students at or above three achievement levels.

Basic denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at each grade.

Proficient represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.
Advanced represents superior performance.

## Key Findings

## Student performance increases in math at both grades and at grade 8 in reading since 2009

- Higher percentages of fourth- and eighth-graders performed at or above Proficient in math, and a higher percentage of eighth-graders performed at or above Proficient in reading since 2009.
- A higher percentage of fourth-graders performed at Advanced in math, and a higher percentage of eighth-graders performed at Advanced in reading since 2009.

Change in students' performance over time

|  | From 2009 |  |  |  | From 1990 | From 1992 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Math |  | Reading |  | Math | Reading |  |
|  | Grade 4 | Grade 8 | Grade 4 | Grade 8 | Both Grades | Grade 4 | Grade 8 |
| Average score | A | A | - | A | A | A | - |
| Percentages of students |  |  |  |  |  |  |  |
| at or above Basic | $\checkmark$ | $\checkmark$ | - | $\checkmark$ | A | A | A |
| at or above Proficient | A | A | - | A | A | $\underline{\underline{1}}$ | A |
| at Advanced | - | $\bullet$ | - | - | A | A | $\checkmark$ |

A Indicates the score or percentage was higher in 2011.

- Indicates no significant change in the score or percentage in 2011.

## About one-half of states show changes in students' performance

- Hawaii was the only state to improve in both subjects and at both grades.
- The District of Columbia, New Mexico, and Rhode Island were the only other states to improve in math at both grades.
- Reading scores were higher at both grades in Maryland.

Change in average state scores from 2009

|  | Mathematics |  |  | Reading |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Grade 4 only | Grade 8 only | Both grades | Grade 4 only | Grade 8 only | Both grades |
| Higher | Alabama <br> Arizona <br> Georgia <br> Maryland <br> Wyoming | Arkansas <br> Colorado <br> Maine <br> Mississippi <br> Nevada <br> Ohio <br> Oklahoma <br> Texas <br> West Virginia | District of Columbia Hawaii <br> New Mexico <br> Rhode Island | Alabama Massachusetts | Colorado <br> Connecticut <br> Idaho <br> Michigan <br> Montana <br> Nevada <br> North Carolina <br> Rhode Island | Hawaii <br> Maryland |
| Lower | New York | Missouri |  | Missouri South Dakota |  |  |

[^0]2009 and 2011 Mathematics and Reading Assessments.

## Improvement continues in math

Highest math scores to date

Proportion of students at or above Proficient triples at fourth grade and more than doubles at eighth grade since 1990

Grade 8 average math scale scores

Grade 4 math achievement-level percentages

Grade 8 math achievement-level percentages

* Significantly different ( $p$ < .05) from 2011.

## Fourth- and eighth-grade reading scores show mixed results

Grade 4 average reading scale scores

Grade 8 average reading scale scores

Grade 4 reading achievement-level percentages

Grade 8 reading achievement-level percentages

 Accommodations permitted

* Significantly different ( $p<.05$ ) from 2011.

Eighth-graders improve since 2009, no change at grade 4

About one-third of fourth- and eighthgraders reach the Proficient level

## Average scores improve for all racial/ethnic groups at both grades since 1990

## Hispanic students

 improve since 2009
## Asian students score higher than other racial/ethnic groups

## Change in average math scores for racial/ethnic groups

| Race/ethnicity | Grade 4 |  | Grade 8 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | From 1990 | From 2009 | From 1990 | From 2009 |
| White | - | A | - | - |
| Black | - | - | $\triangle$ | - |
| Hispanic | - | $\wedge$ | - | - |
| Asian/Pacific Islander | A | - | $\triangle$ | - |
| American Indian/Alaska Native | $\ddagger$ | - | $\ddagger$ | - |
| Racial/ethnic gaps |  |  |  |  |
| White - Black | Narrowed | - | - | $\checkmark$ |
| White - Hispanic | - | - | - | Narrowed |

- Indicates the score was higher in 2011.
- Indicates no significant change in the score or the gap in 2011.
+ Reporting standards not met. Sample size insufficient to permit a reliable estimate.
- The White-Black score gap narrowed in comparison to 1990 at grade 4.
- The White-Hispanic score gap narrowed in comparison to 2009 at grade 8.

Percentages and average math scores for racial/ethnic groups in 2011

|  | Grade 4 |  | Grade 8 |  |
| :--- | :---: | :---: | :---: | :---: |
|  | Percentage of <br> students | Average score | Percentage of <br> students | Average score |
| Race/ethnicity | 54 | 249 | 55 | 293 |
| White | 15 | 224 | 15 | 262 |
| Black | 22 | 229 | 21 | 270 |
| Hispanic | 5 | 257 | 5 | 305 |
| Asian | 1 | 225 | 1 | 265 |
| American Indian/Alaska Native | $\#$ | 236 | $\#$ | 269 |
| Native Hawaiian/Other Pacific Islander | 2 | 245 | 2 | 288 |
| Two or more races |  |  |  |  |

[^1]
## Average scores improve at grade 4 for all racial/ ethnic groups since 1992

Change in average reading scores for racial/ethnic groups

| Race/ethnicity | Grade 4 |  | Grade 8 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | From 1992 | From 2009 | From 1992 | From 2009 |
| White | - | - | - | - |
| Black | - | - | - | - |
| Hispanic | - | - | - | - |
| Asian/Pacific Islander | A | - | - | - |
| American Indian/Alaska Native | $\ddagger$ | - | $\ddagger$ | - |
| Racial/ethnic gaps |  |  |  |  |
| White - Black | Narrowed | - | Narrowed | - |
| White - Hispanic | - | - | Narrowed | Narrowed |

A Indicates the score was higher in 2011.

- Indicates no significant change in the score or the gap in 2011.

F Reporting standards not met. Sample size insufficient to permit a reliable estimate.

- The White-Black score gap narrowed in comparison to 1992 at both grades.
- The White-Hispanic score gap narrowed in comparison to 2009 at grade 8 .

Percentages and average reading scores for racial/ethnic groups in 2011

|  | Grade 4 |  | Grade 8 |  |
| :--- | :---: | :---: | :---: | :---: | :---: |
|  | Percentage of <br> students | Average score | Percentage of <br> students | Average score |
| Race/ethnicity | 54 | 231 | 55 | 274 |
| White | 15 | 205 | 15 | 249 |
| Black | 22 | 206 | 21 | 252 |
| Hispanic | 5 | 236 | 5 | 277 |
| Asian | 1 | 202 | 1 | 252 |
| American Indian/Alaska Native | $\#$ | 216 | $\#$ | 254 |
| Native Hawaiian/Other Pacific Islander | 2 | 227 | 2 | 269 |
| Two or more races |  |  |  |  |

## \# Rounds to zero.

In compliance with new standards from the U.S. Office of Management and Budget for collecting and reporting data on race/ethnicity, additional information on students' race/ethnicity was collected in 2011 so that results could be reported separately for Asian students, Native Hawaiian/Other Pacific Islander students, and students categorized as being two or more races (multiracial).

## Average math scores improve at both grades in four states

Scores higher in 9 states and lower in 1 state compared to 2009

Scores higher in 13 states and lower in 1 state compared to 2009

[^2]
## Average reading scores improve at both grades in two states

Scores higher in 4 states and lower in 2 states compared to 2009

Scores higher in 10 states compared to 2009

## Highest scores to date for students across income levels

Percentage of students eligible for free lunch continues to increase

Grade 4 mathematics average scores trend by NSLP eligibility

Percentage distribution of students assessed, by NSLP eligibility

| Eligibility status | 2003 | 2005 | 2007 | 2009 | 2011 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Eligible for free lunch | $33^{*}$ | $35^{*}$ | $36^{*}$ | $38^{*}$ | 43 |
| Eligible for reduced-price lunch | $8^{*}$ | $7 *$ | $6^{*}$ | $6^{*}$ | 5 |
| Not eligible | $50^{*}$ | $50^{*}$ | $52^{*}$ | $49^{*}$ | 46 |
| Information not available | $10^{*}$ | $8^{*}$ | 7 | $7^{*}$ | 6 |

Grade 8 mathematics average scores trend by NSLP eligibility

Percentage distribution of students assessed, by NSLP eligibility

| Eligibility status | 2003 | 2005 | 2007 | 2009 | 2011 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Eligible for free lunch | $26^{*}$ | $29^{*}$ | $32^{*}$ | $34^{*}$ | 39 |
| Eligible for reduced-price lunch | $7^{*}$ | $7^{*}$ | $6^{*}$ | $6^{*}$ | 5 |
| Not eligible | $55^{*}$ | $56^{*}$ | $55^{*}$ | $54^{*}$ | 50 |
| Information not available | $11^{*}$ | $8^{*}$ | $7^{*}$ | $7^{*}$ | 6 |

* Significantly different ( $p<.05$ ) from 2011. NSLP = National School Lunch Program.

NOTE: Detail may not sum to totals because of rounding.

## Students across income levels score higher compared to previous assessment years

Grade 4 reading average scores trend by NSLP eligibility

Percentage distribution of students assessed, by NSLP eligibility

| Eligibility status | 2003 | 2005 | 2007 | 2009 | 2011 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Eligible for free lunch | $32^{*}$ | $34^{*}$ | $35^{*}$ | $38^{*}$ | 43 |
| Eligible for reduced-price lunch | $8^{*}$ | $7^{*}$ | $6^{*}$ | $6^{*}$ | 5 |
| Not eligible | $50^{*}$ | $50^{*}$ | $52^{*}$ | $50^{*}$ | 46 |
| Information not available | $10^{*}$ | $8^{*}$ | 7 | $7^{*}$ | 6 |

Grade 8 reading average scores trend by NSLP eligibility
Percentage of students eligible for free lunch continues to increase

Percentage distribution of students assessed, by NSLP eligibility

| Eligibility status | 2003 | 2005 | 2007 | 2009 | 2011 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Eligible for free lunch | $26^{*}$ | $29^{*}$ | $31^{*}$ | $33^{*}$ | 39 |
| Eligible for reduced-price lunch | $7^{*}$ | $7^{*}$ | $6^{*}$ | $6^{*}$ | 5 |
| Not eligible | $55^{*}$ | $56^{*}$ | $55^{*}$ | $54^{*}$ | 50 |
| Information not available | $11^{*}$ | $8^{*}$ | $7^{*}$ | 7 | 6 |

* Significantly different $(p<.05)$ from 2011. NSLP = National School Lunch Program NOTE: Detail may not sum to totals because of rounding.

## Context for Math Education at Grade 4

Fourth-graders whose teachers permit restricted calculator use score higher

The percentage of students whose teachers did not permit them to use calculators higher for eligible students

Percentage of students assessed, by eligibility for free/reduced-price school lunch and extent of calculator use in mathematics lessons: 2011

## Context for Reading Education at Grade 4

Average scores in 2011 by how often students read for fun on their own time

Trend in percentage of students reading for fun

|  | 2002 | 2003 | 2005 | 2007 | 2009 | 2011 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Frequency of reading for fun | $15^{*}$ | $15^{*}$ | $16^{*}$ | $18^{*}$ | $15^{*}$ | 14 |
| Never or hardly ever | $14^{*}$ | $15^{*}$ | $15^{*}$ | $16^{*}$ | $15^{*}$ | 14 |
| Once or twice a month | 26 | 25 | $26^{*}$ | $27^{*}$ | 25 | 25 |
| Once or twice a week | $45^{*}$ | $45^{*}$ | $43^{*}$ | $40^{*}$ | $44^{*}$ | 46 |
| Almost every day |  |  |  |  |  |  |

*Significantly different ( $p<.05$ ) from 2011.
NOTE: Detail may not sum to totals because of rounding.

Fourth-graders who read for fun more frequently score higher

A higher percentage of fourth-graders reading for fun almost every day than in previous years

## Context for Math Education at Grade 8

## Eighth-graders who report taking algebra I score higher

## Average scores in 2011 for students taking selected mathematics classes

- The percentage of Asian students taking algebra I was higher than the percentages of most other racial/ethnic groups (it was not significantly different from the percentage of Native Hawaiian/Other Pacific Islander students).
- The percentage of American Indian/Alaska Native students taking an introductory algebra class was higher than the percentages of other racial/ethnic groups.
- The percentages of students taking a basic math course were higher for Black, Hispanic, and American Indian/Alaska Native students than for White, Asian, and multiracial students.

## Percentage of racial/ethnic groups in 2011 taking selected mathematics classes

|  | White | Black | Hispanic | Asian | American <br> Indian/Alaska <br> Native | Native Hawaiian/ <br> Other Paciic <br> Islander | Two or <br> more <br> races |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Type of class taken | 36 | 28 | 33 | 45 | 24 | 37 | 34 |
| Algebra I (one-year course) | 25 | 23 | 20 | 13 | 32 | 20 | 24 |
| Introduction to algebra or pre-algebra | 23 | 30 | 29 | 13 | 29 | 26 | 23 |
| Basic or general eighth-grade math | 23 |  |  |  |  |  |  |

## Context for Reading Education at Grade 8

## Average scores in 2011 by how often students reported having a class

 discussion about something they read in English class

Percentage of students reporting how often they had a class discussion about something they had read in 2011, by selected school characteristics

| Characteristics | Frequency of class discussion |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Never or hardly ever | $\begin{gathered} \text { A few } \\ \text { times a year } \end{gathered}$ | Once or twice a month | At least once a week |
| Type of school |  |  |  |  |
| Public | 11 | 18 | 24 | 47 |
| Private | 8 | 12 | 19 | 61 |
| School location |  |  |  |  |
| City | 10 | 16 | 23 | 50 |
| Suburb | 10 | 17 | 24 | 49 |
| Town | 12 | 19 | 24 | 45 |
| Rural | 11 | 18 | 24 | 46 |
| School enrollment |  |  |  |  |
| 1-399 | 10 | 16 | 21 | 52 |
| 400-599 | 11 | 17 | 24 | 49 |
| 600-799 | 10 | 17 | 24 | 49 |
| 800-999 | 10 | 19 | 25 | 45 |
| 1000 or more | 11 | 18 | 25 | 46 |

NOTE: Detail may not sum to totals because of rounding.
In 2011, the percentages of eighth-graders who reported having a class discussion at least once a week were

- lower for students attending public schools than for those attending private schools,
- higher for students attending schools in city and suburban locations than for those attending schools in town or rural locations, and
- higher for students attending schools with enrollments of 1 to 399 students than with larger school enrollments.

Eighth-graders having more frequent class discussions score higher

Frequency of eighth-grade class discussion differs by school type, location, and enrollment

## What is The Nation's Report Card ${ }^{\text {m}}$ ?

The Nation's Report Card ${ }^{\text {TM }}$ informs the public about the academic achievement of elementary and secondary students in the United States. Report cards communicate the findings of the National Assessment of Educational Progress (NAEP), a continuing and nationally representative measure of achievement in various subjects over time.

Since 1969, NAEP assessments have been conducted periodically in reading, mathematics, science, writing, U.S. history, civics, geography, and other subjects. NAEP collects and reports information on student performance at the national and state levels, making the assessment an integral part of our nation's evaluation of the condition and progress of education. Only academic achievement data and related background information are collected. The privacy of individual students and their families is protected.

NAEP is a congressionally authorized project of the National Center for Education Statistics (NCES) within the Institute of Education Sciences of the U.S. Department of Education. The Commissioner of Education Statistics is responsible for carrying out the NAEP project. The National Assessment Governing Board oversees and sets policy for NAEP.
