NOTE: Data for 1998 revised from previously published figures. Trend tabulations of institutions of higher education data are based on institutions that were accredited by an agency or association that was recognized by the U.S. Department of Education, or recognized directly by the Secretary of Education. The new degree-granting classification is very similar to the earlier higher education classification, except that it includes some additional institutions, primarily 2-year colleges, and excludes a few higher education in-

stitutions that did not award associate or higher degrees. Data for 1999 imputed using alternative methods. (See *Guide to Sources* for details.)
