NOTE: Marijuana includes hashish usage for 1996 and later years. Due to changes in the survey instrument and administration and to improve comparability with new data, estimates for 1982 through 1993 have been adjusted and may differ from those reported in previous years. Data for 1999 have been revised from previously published figures.

Data for 1999 and 2000 gathered using Computer Assisted Interviewing (CAI) and may not be directly comparable to previous years.
