The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

## Acknowledgments

The author would like to thank all of the professionals in state and local education agencies who record, track, and report the data used in this report. Particular thanks are owed to the state EDFacts Coordinators and the state Common Core of Data (CCD) Coordinators, without whose efforts the CCD system would not exist.

## List of Tables

1. Public school student membership, by grade and state or jurisdiction: School year 2009-106
2. Public school student membership and percentage distribution of public school student membership, by race/ethnicity and state or jurisdiction: School year 2009-1010
3. Number of full-time-equivalent (FTE) staff for public schools, by category and state or jurisdiction: School year 2009-1012
4. Total student membership, total staff, student/teacher ratio, and student/staff ratio for public elementary/secondary education, by teacher and staff category and state or jurisdiction: School year 2009-1014

## Introduction

This report presents findings on the numbers of public school students and staff in the United States and other jurisdictions ${ }^{1}$ in school year 2009-10, using data from the State Nonfiscal Survey of Public Elementary/Secondary Education of the Common Core of Data (CCD) survey system. The CCD is an annual collection of data that are reported by state education agencies (SEAs) to the National Center for Education Statistics (NCES) through the U.S. Department of Education's EDFacts data collection system.

The purpose of this report is to introduce new data through the presentation of tables containing descriptive information; therefore, the selected findings chosen for this report demonstrate the range of information available when using the CCD. The selected findings do not represent a complete review of all observed differences in the data and are not meant to emphasize any particular issue. Data in this report, taken from the State Nonfiscal Survey of Public Elementary/Secondary Education, may differ from data in other CCD reports based on data from the Local Education Agency Universe Survey and the Public Elementary/Secondary School Universe Survey.

The State Nonfiscal Survey of Public Elementary/Secondary Education presents counts of students by grade and by gender and race/ethnicity. The survey also contains counts of full-timeequivalent (FTE) ${ }^{2}$ teachers, aides, support staff, and administrators in public schools and school districts.

Fifty states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and the Bureau of Indian Education reported the 2009-10 CCD data through the EDFacts collection system; the Department of Defense dependents schools (overseas and domestic) and the Commonwealth of the Northern Mariana Islands reported directly to the CCD. American Samoa and Guam did not report data for the 2009-10 school year.

SEAs follow standard definitions for the data items they report to the CCD via the EDFacts collection system. In some cases, SEAs may be unable to report a data item, or may not be able to report a data item in exact accordance with a CCD definition. When states were unable to report key data items, values for these items were collected from alternate sources, imputed, or edited. Please see Appendix A: Methodology and Technical Notes in this report for a detailed discussion of collections from alternate sources, imputations, and edits.

While tables include data for all of the CCD respondents, "United States" and "reporting states" totals in the tables are limited to the 50 states and the District of Columbia. They do not include data from the Bureau of Indian Education, Department of Defense dependents schools (overseas and domestic), Puerto Rico, or the other jurisdictions of American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the U.S. Virgin Islands.

[^0]More information about the survey content and methodology can be found in appendix A. Appendix B is a glossary of key CCD terms used in this report.

More information about CCD surveys and products is available at http://nces.ed.gov/ccd.

## Selected Findings: School Year 2009-10

- Public elementary and secondary schools had 49.4 million students in membership ${ }^{3}$ in school year 2009-10 (table 1). This was an increase of 0.2 percent from student membership in school year 2008-09 (Sable and Plotts 2010).
- Summing across grades, there were 34.5 million students enrolled in prekindergarten through grade 8 and ungraded classes; there were 14.9 million students enrolled in grades $9-12$ in the 2009-10 school year (derived from table 1).
- When examining students for whom race/ethnicity was reported in the 2009-10 school year, ${ }^{4}$ 54 percent were White; 22 percent were Hispanic; 17 percent were Black; 5 percent were Asian/Pacific Islander; and 1 percent were American Indian/Alaska Native (table 2)."
- In school year 2009-10, public elementary and secondary schools and local education agencies employed a total of 6.4 million full-time-equivalent (FTE) staff (table 3). This was an increase of 0.4 percent from the number of FTE staff employed in school year 2008-09 (Sable and Plotts 2010).
- Of the FTE staff in the 2009-10 school year, 51 percent were teachers; 15 percent were instructional aides, instructional coordinators and supervisors, guidance counselors/directors, or librarians; and 24 percent were student and other support staff. School or district administrators comprised 4 percent of staff, and administrative support staff comprised the remaining 7 percent (derived from table 3 ).
- The student/teacher ratio in public schools in school year 2009-10 was 15.4 (i.e., there were about 15 students for every FTE teacher employed) (table 4). The ratio ranged from a high of 22.9 in Utah to a low of 10.6 in Vermont. The elementary student/teacher ratio was 19.1, while the secondary student/teacher ratio was 12.1.
- The category of other instructional and student support includes instructional aides, instructional coordinators and supervisors, librarians, library support, and student support services staff. In the 2009-10 school year, there were about 42.2 students for every instructional and student support staff member (table 4).

## — Not available.

$\dagger$ Not applicable.
${ }^{1}$ Membership is the count of students enrolled on October 1 of the reported school year.
${ }^{2}$ U.S. totals include the 50 states and the District of Columbia.
${ }^{3}$ In California, the District of Columbia, Indiana, Kentucky, Michigan, New Hampshire, North Carolina, Pennsylvania, Tennessee, Vermont, and Virginia one or more reported values was changed to the sum of grade detail by race/ethnicity from the State Nonfiscal Survey or the sum of grade detail from the School Universe survey.
${ }^{4}$ California prekindergarten data taken from Individuals with Disabilities Education Act (IDEA) Part B counts for students ages 3-5 years.
${ }^{5}$ Data were edited. There were several variations in the way edits were carried out. See Section II.B.2. in "Documentation to the Common Core of Data State Nonfiscal Survey of Public Elementary/Secondary Education : School Year 2009-10" for more information regarding the edit methods.
${ }^{6}$ DoDDS and DDESS are the Department of Defense dependents schools (overseas) and the Department of Defense dependent schools (domestic), respectively. SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 2009-10, Version 1a.

## - Not available.

$\dagger$ Not applicable. These states report membership in 5 race category and thus do not report data for "Two or more races".
${ }^{1}$ Black includes African American, Hispanic includes Latino, and Asian/Pacific Islander includes Native Hawaiian or Other Pacific Islander. Race categories exclude persons of Hispanic ethnicity.
${ }^{2}$ Membership is the count of students enrolled on October 1 of the reported school year.
${ }^{3}$ Totals exclude students for whom race/ethnicity was not reported.
${ }^{4}$ The U.S. total count of students who were "Two or more races" is based only on 14 states.
${ }^{5}$ Reporting states totals include any of the 50 states and the District of Columbia that reported all data elements.
${ }^{6}$ DoDDS and DDESS are the Department of Defense dependents schools (overseas) and the Department of Defense dependent schools (domestic), respectively
NOTE: Detail may not sum to totals because of rounding

## - Not available.

## † Not applicable

${ }^{1}$ Student/other support staff include library support staff, student support services staff, and all other nonadministrative support staff.
${ }^{2}$ Administrative support staff include district- and school-level administrative support staff.
${ }^{3}$ U.S. totals include the 50 states and the District of Columbia.
${ }^{4}$ Data were edited. There were several variations in the way edits were carried out. See Section II.B.2. in "Documentation to the Common Core of Data State Nonfiscal Survey of Public Elementary/Secondary Education : School Year 2009-10" for more information regarding the edit methods.
${ }^{5}$ Data were imputed based on prior-year (fall 2008) data. See the Section II.B.1. in the "Documentation to the Common Core of Data State Nonfiscal Survey of Public Elementary/Secondary Education : Schoo Year 2009-10" for more information regarding the imputation methods.
${ }^{6}$ State total includes one or more imputed values or has been edited to reflect the sum of prekindergarten, kindergarten, elementary, secondary, and teachers of ungraded classes
${ }^{7}$ Using current year's reporting, data were disaggregated from current-year totals.
${ }^{8}$ DoDDS and DDESS are the Department of Defense dependents schools (overseas) and the Department of Defense dependent schools (domestic), respectively.
NOTE: All staff counts are full-time-equivalent (FTE) count. Staff categories presented in this table may differ from those published by states. Detail may not sum to totals because of rounding

## - Not available.

${ }^{1}$ Membership is the count of students enrolled on October 1 of the reported school year
${ }^{2}$ Total teachers include prekindergarten, kindergarten, elementary, secondary, and teachers of ungraded classes.
${ }^{3}$ Elementary students includes students in grades 1-8
${ }^{4}$ Secondary students includes students in grades 9-12.
${ }^{5}$ Other instructional and student support staff includes instructional aides, instructional coordinators and supervisors, librarians, library support staff, and student support staff.
${ }^{6}$ Administrative staff includes school and school district administrators.
${ }^{7}$ Administrative and all other support staff includes district- and school-level administrative support staff and all other support staff.

## ${ }^{8} \mathrm{US}$. totals include the 50 states and the District of Columbia

${ }^{9}$ In California, the District of Columbia, Indiana, Kentucky, Michigan, New Hampshire, North Carolina, Pennsylvania, Tennessee, Vermont, and Virginia one or more reported values was changed to the sum of grade detail by race/ethnicity from the State Nonfiscal Survey or the sum of grade detail from the School Universe survey
${ }^{10}$ DoDDS and DDESS are the Department of Defense dependents schools (overseas) and the Department of Defense dependent schools (domestic), respectively.
NOTE: All staff counts are full-time-equivalent (FTE) counts. Some staff counts were imputed based on current-year data. Some staff counts were edited or disaggregated from reported totals
SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 2009-10, Version 1a.

## Appendix A: Methodology and Technical Notes

Common Core of Data survey system. The State Nonfiscal Survey of Public
Elementary/Secondary Education, the Local Education Agency Universe Survey, and the Public Elementary/Secondary School Universe Survey are the nonfiscal components of the Common Core of Data (CCD) survey system.

Participation in 2009-10. The data are collected annually from SEAs through the Department of Education's EDFacts collection system. The 50 states, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, and the Bureau of Indian Education participated in EDFacts for the 2009-10 school year; the Department of Defense dependents schools (overseas and domestic) and the Commonwealth of the Northern Mariana Islands reported directly to the CCD. American Samoa and Guam did not report data for the 2009-10 school year.

States report data to the EDFacts collection system through multiple file groups that fall into different reporting schedules throughout the year. The 2009-10 school year EDFacts collection of CCD data opened in January 2010. Depending on the specific variable or state, the data were extracted from EDFacts between April 29, 2010 and January 3, 2011. Late reports or updates from states may be included in subsequent file releases.

Data quality. The National Center for Education Statistics (NCES) performs extensive quality review of all CCD data submissions and asks state CCD coordinators to correct or confirm any numbers that appear out of range when compared to other states' data or with the state's reports in previous years. If no explanation for anomalous data is provided by the state, NCES edits the data value. For example, NCES will replace a reported total with the sum of detail in cases where the sum of detail exceeds a reported total. NCES also edits values to "not available" if data values are not plausible (e.g., if the number of students increases tenfold from the prior year to the current year while the number of teachers remains unchanged from the prior year, NCES would set the current year value for teachers to "not available").

Missing data. Not all states or jurisdictions collect and report all of the data items requested in CCD surveys. NCES attempts to complete missing data first by drawing on other sources. For example, if the number of teachers was missing in the State Nonfiscal Survey of Public Elementary/Secondary Education, but reported in the Local Education Agency Universe Survey, the state-level number would be summed from the state's local education agencies. In some cases, a state is unable to report data during the collection period, but publishes them later through a written report or website. NCES imports data from these other published sources to complete missing items. When this is done, table footnotes identify all instances in which data were summed or imported from other CCD surveys or outside sources. These procedures to complete missing data are used for any CCD data item and for all three CCD nonfiscal surveys.

If NCES cannot complete missing data by summing from other CCD surveys or using alternate external sources, NCES imputes some missing items (i.e., replaces a nonresponse with a plausible value) in the State Nonfiscal Survey of Public Elementary/Secondary Education. (See below for information on imputation procedures.) Data are not imputed in the Public Elementary/Secondary School Universe Survey or the Local Education Agency Universe Survey.

If information is missing for some but no more than 15 percent of states across the 50 states and the District of Columbia, NCES calculates totals and identifies them as "reporting states" totals (rather than totals for the United States). Precise information about the extent of missing data is included in the documentation for the State Nonfiscal Survey of Public Elementary/Secondary Education, which can be accessed at http://nces.ed.gov/ccd/stnfis.asp.

Imputed and edited data. NCES imputes and edits some reported values in the State Nonfiscal Survey of Public Elementary/Secondary Education to create data files that more accurately reflect student and staff counts and to improve comparability among states. Imputations and edits are performed on data from the 50 states and District of Columbia only.

- Imputations provide plausible values in cases where the data are missing. An imputation assigns a value to the missing item; as a result, subtotals containing this item increase by the amount of the imputation. An example of one of the imputation methods used is the following: if a state is unable to report the number of prekindergarten teachers employed by the state, the number of prekindergarten teachers would be imputed by calculating a median growth rate for all states that reported prekindergarten teachers in the previous and current year, and applying this median growth rate to the previous year's number of prekindergarten teachers. For more information about the imputation procedures used to assign values to missing items, please refer to the documentation for the State Nonfiscal Survey of Public Elementary/Secondary Education, which can be accessed at http://nces.ed.gov/ccd/stnfis.asp.
- Edits are corrections for reported values. There are several variations in the way edits are carried out. An example of one of the edits is the following: if a state reports a total count of teachers that exceeds or is less than the sum of associated detail counts, but none of the associated components has been imputed, the reported total is edited to equal the sum of the associated detail counts. For more information about the procedures used to edit reported data, please refer to the documentation for the State Nonfiscal Survey of Public Elementary/Secondary Education, which can be accessed at http://nces.ed.gov/ccd/stnfis.asp.

Totals. United States totals reported in the tables are limited to the 50 states and the District of Columbia. They do not include data from the Bureau of Indian Education, Department of Defense dependents schools (overseas and domestic), Puerto Rico, or the other jurisdictions of American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the U.S. Virgin Islands. See "Missing data" on page A-1 for more information.

Agreement across survey levels. Some students receive a public education outside a local school district (e.g., they may attend a state-operated residential school). Some students in a regular school district may not be served by a school. For example, hospital-bound or homebound students may be reported in the membership for a regular school district but not in any of the district's schools. NCES derives the numbers of students and staff shown in the tables for any CCD First Look report from the survey represented in that report. Therefore, the numbers may differ across reports. The numbers reported in the State Nonfiscal Survey of Public Elementary/Secondary Education are considered the official statistics for a state.

Staff counts. All staff counts (including teachers) are reported in full-time-equivalent (FTE) units. This is the amount of time required to perform an assignment stated as a proportion of a
full-time position. It is computed by dividing the amount of time an individual is employed by the time normally required for a full-time position.
State agencies vary in their staff data collection and reporting systems, with resulting variations across states. Several states collapse two or more categories of staff (including teachers) into one. In these cases, for the state nonfiscal data only, NCES edits this number by distributing the reported number of staff across the several categories based on the average distribution of these staff in the reporting states. Staff counts in the local education agency and school surveys are not edited.

## Appendix B: Common Core of Data Glossary

American Indian/Alaska Native-A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment. (OMB directive, 1977, 1997)

Asian-A person having origins in any of the original peoples of the Far East, southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, Japan, Korea, Malaysia, Pakistan, the Philippine Island, Thailand, and Vietnam. (OMB directive, 1997)

Asian/Pacific Islander-A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, Thailand, Vietnam, Guam, the Philippine Islands, Samoa, and other Pacific Islands. (OMB directive, 1977)

Black or African American-A person having origins in any of the black racial groups of Africa. (OMB directive, 1977, 1997)

Bureau of Indian Education school and district-A school or district that is directly funded by the Bureau of Indian Education (formerly Bureau of Indian Affairs), U.S. Department of the Interior.
elementary/secondary education-Programs providing instruction, or assisting in providing instruction, for students in prekindergarten, kindergarten, grades 1-12, and ungraded programs.
full-time equivalency (FTE) - The amount of time required to perform an assignment stated as a proportion of a full-time position and computed by dividing the amount of time employed by the time normally required for a full-time position.
guidance counselor/director-Professional staff assigned specific duties and school time for counseling students and parents, addressing learning problems, evaluating student abilities, and assisting students in career and personal development. The state applies its own standards in apportioning the aggregate of guidance counselors/directors into the elementary and secondary level components.

Hispanic-A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race. (OMB directive, 1977, 1997)
instructional aide-Staff assigned to assist a teacher with routine activities associated with teaching (i.e., activities requiring minor decisions regarding students), such as monitoring, conducting rote exercises, operating equipment, and clerking. Includes only paid staff, and excludes volunteer aides.
instructional coordinator and supervisor-Staff supervising instructional programs at the school district or subdistrict level, including supervisors of educational television staff; coordinators and supervisors of audiovisual services; curriculum coordinators and in-service training staff; Title I coordinators and home economics supervisors; and supervisory staff engaged in the development of computer-assisted instruction. School-based department chairpersons are excluded.
kindergarten-A group or class that is part of a public school program and is taught during the year preceding first grade.
librarian or media specialist-A professional staff member or supervisor assigned specific duties and school time for professional library services activities. These include selecting, acquiring, preparing, cataloging, and circulating books and other printed materials; planning the use of the library by students, teachers, and instructional staff; and guiding individuals in the use of library books and material maintained separately or as a part of an instructional materials center.
library and media support staff-Staff member who renders other professional library and media services; also includes library aides and those involved in library/media support. Duties include selecting, preparing, caring for, and making available to instructional staff, equipment, films, filmstrips, transparencies, tapes, TV programs, and similar materials maintained separately or as part of an instructional materials center. Also include activities in the audiovisual center, TV studio, related work-study areas, and services provided by audiovisual personnel.
local education agency (LEA)-The government agency at the local level whose primary responsibility is to operate public schools or to contract for public school services.
local education agency (LEA) administrative support staff—Staff members providing direct support to LEA administrators, business office support, data processing, secretarial and other clerical staff.
local education agency (LEA) administrator-Chief executive officers of education agencies, including superintendents, deputies, and assistant superintendents; other persons with districtwide responsibilities; e.g., accountants, auditors, business managers, facilities managers, technology or information system administrators, or supervisors of transportation, food services, or security. Excludes supervisors of instructional coordinators, supervisors of guidance counselors, and supervisors of student support staff. (These staff are reported under "student support services staff.")

Native Hawaiian or other Pacific Islander-A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. (OMB directive, 1997)
other support staff—Support staff not reported in instructional or student support. Include employees such as plant and equipment maintenance, bus drivers, security, and food service workers.
prekindergarten student-A student who is enrolled in a group or class that is part of a public school program taught during the year or years preceding kindergarten, excluding Head Start students unless part of an authorized public education program of a local education agency.
public school-An institution that provides educational services and: (1) has one or more grade groups (prekindergarten through grade 12) or is ungraded; (2) has one or more teachers to give instruction; (3) is located in one or more buildings or sites; (4) has an assigned administrator; (5) receives public funds as primary support; and (6) is operated by an education agency.
school administrative support staff-Staff whose activities are concerned with support of the teaching and administrative duties of the office of the principal or department chairpersons. Include clerical staff and secretaries.
school administrator-Staff whose activities are concerned with directing and managing the operation of a particular school. Category includes principals, assistant principals, and other assistants; and persons who supervise school operations, assign duties to staff members, supervise and maintain the records of the school, and coordinate school instructional activities with those of the education agency, including department chairpersons.
student membership-Annual headcount of students enrolled in school on October 1 or the school day closest to that date. In any given year, some small schools will not have any students.
student support services staff—Professional staff members whose activities are concerned with the direct support of students and who nurture, but do not instruct, students. Include attendance officers; staff providing health, psychology, speech pathology, audiology, or social services; and supervisors of the preceding staff. Include coaches, athletic advisors, and athletic trainers if position does not require teaching credentials.
student/teacher ratio - The ratio of students to teachers in a school district, based on the total number of students (student membership) and the total full-time-equivalent (FTE) number of teachers reported in the schools associated with the school district. The student/teacher ratio does not represent class size, but rather is a district-level measure of students and teachers.
teacher-A professional school staff member who instructs students in prekindergarten, kindergarten, grades $1-12$, or ungraded classes and maintains daily student attendance records.

Two or more races-A person choosing more than one of the five race categories. (OMB directive, 1997)
ungraded class-A class that is not organized on the basis of grade grouping and has no standard grade designation. This includes regular classes that have no grade designations and special classes for exceptional students that have no grade designations. Such a class is likely to contain students of different ages who, frequently, are identified according to level of performance in one or more areas of instruction rather than according to grade level or age level.

White-A person having origins in any of the original peoples of Europe, North Africa, or the Middle East. (OMB directive, 1977, 1997)

[^0]:    ${ }^{1}$ The CCD includes the 50 states, the District of Columbia, Department of Defense dependents schools (overseas and domestic), the Bureau of Indian Education, Puerto Rico, and the four other jurisdictions of American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, and the U.S. Virgin Islands. For ease of reading, in this report, the term "state" or "states" refers to these entities.
    ${ }^{2}$ Full-time equivalency (FTE) is the amount of time required to perform an assignment stated as a proportion of a full-time position.

[^1]:    ${ }^{3}$ Membership is the number of students enrolled on October 1 of the reported school year.
    ${ }^{4}$ Race/ethnicity was reported for 98.8 percent of the total student membership. Only 14 states reported counts of students who were "Two or more races."

[^2]:    See notes at end of table.
