Commissioner

The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to:

Highlights

- The attrition rate from the teaching profession between school years 1993–94 and 1994–95 was 6.6 percent in public schools and 11.9 percent in private schools (table 1).
- Teacher attrition varied by teacher's age. The rate for teachers in the 25 to 29 age category was 10.0 percent for public school teachers and 13.1 percent for private school teachers; the rate for the 60 to 64 age category was 30.5 and 13.1 percent for public and private school teachers, respectively (table 2).
- Almost all public school teachers who changed schools between school years 1993–94 and 1994–95 transferred to other public school (95.7 percent); about one-half (47.6 percent) of the private school teachers in 1993–94 who changed schools for the 1994–95 school year stayed in private schools and about one-half (52.4 percent) transferred to public schools (table 7).
- Some 16.2 percent of former public school teachers and 17.1 percent of former private school teachers cited homemaking and/or child rearing as their primary occupational status in 1994–95. About 27.1 percent of former public school teachers said they were retired, versus 10.8 percent of the former private school teachers who said they were retired (table 8).
- Twenty percent of former public school teachers and one-third of former private school teachers were employed elsewhere (table 8).
- The main occupation for these former teachers working outside of elementary or secondary education in 1994–95 was employment in a private company, business, or individual for wages, salary, or commission (70.3 percent for public and 76.2 percent for private) (table 9).
- The two main reasons public school teachers cited for leaving the teaching profession in the 1994–95 school year were retirement (27.4 percent) and pregnancy/child rearing (14.3 percent). For private school teachers, the two main reasons cited for leaving the teaching profession were to pursue another career (16.3 percent) and for a family or personal move (16.2 percent) (table 10).
- Among teachers who left the teaching profession between 1993–94 and 1994–95, 25.7 percent of public school teachers expected to retire, while 24.1 percent of the private school teachers expected to work outside the field of education (table 11).

- Among public school teachers who left between 1993–94 and 1994–95 and cited dissatisfaction with teaching as a career, student discipline problems (17.9 percent), poor student motivation to learn (17.6 percent), and inadequate support from administration (15.3 percent) were cited as the main reasons that they were dissatisfied with teaching as a career (table 12).
- Among private school teachers who left between 1993–94 and 1994–95 and cited dissatisfaction with teaching as a career, lack of recognition and support from the administration (30.2 percent), poor opportunity for professional advancement (14.6 percent), and inadequate support from administration (12.5 percent) were cited as the main reasons that they were dissatisfied with teaching as a career (table 12).
- Among teachers who stayed in the same school between school years 1993–94 and 1994–95, 53.1 percent of public and 59.2 percent of private school teachers felt that "providing higher salaries or better fringe benefits" would be the most effective step that schools might take to encourage teachers to remain in teaching (tables 14 and 15).

Acknowledgments

The authors wish to thank all those who contributed to the production of this E.D. TAB. Among the staff at the Bureau of the Census, Kathy Stoner and Lenore Colaciello, monitored the data collection for this survey. Thanks also to Carol Rohr of Pinkerton Computer Consultants, Inc. for formatting the text and tables in this report.

We would like to acknowledge the helpful comments of the peer reviewers. Internal reviewers were Susan Ahmed of the Statistical Standards and Services Group and Shelly Burns and Debra Gerald of the Data Development and Longitudinal Studies Group. Outside reviewers were Iris R. Weiss, Horizon Research, Inc., and Jewell Gould, American Federation of Teachers. Marilyn M. McMillen, of the Surveys and Cooperative Systems Group was the statistical consultant for the E.D. TAB.

Introduction

How the Teacher Followup Survey is related to the Schools and Staffing Survey

The Teacher Followup Survey is a one-year followup of a sample of teachers who were originally selected for the Teacher Questionnaire in the Schools and Staffing Survey. The Schools and Staffing Survey is an integrated set of surveys of public and private schools, principals, teachers, and public school districts throughout the United States of America. There have been three data cycles for the Schools and Staffing Survey, and likewise, three Teacher Followup Surveys.

The 1994–95 Teacher Followup Survey data in this report links responses from the 1994–95 school year to characteristics of those same teachers who participated in the 1993–94 school year SASS. Within this report, there are some data that are drawn directly from the 1993–94 SASS. These data are termed “base year” because the SASS sample is the “base” for the teachers who are selected for the Teacher Followup Survey. Base year characteristics include personal and professional descriptors of the teacher (age, sex, race, field of teaching assignment), as well as characteristics of the school in which the teachers worked in 1993–94: whether the school was public or private, region of the country in which the school is located, and the community type or locale of the school. These “base year” characteristics provide the context for the data collected in the Teacher Followup Survey.

Purpose of the Teacher Followup Survey

How do teachers who remain teaching at the same school from year to year (“stayers”) compare with those who don’t? How many teachers move from one school to another (“movers”)? What percentage of teachers are leaving the profession between one year and the next (“leavers”)? These types of questions can be answered with data from the Teacher Followup Survey. For teachers who leave the profession, TFS asks about their occupational status (are former teachers working, retired, or caring for family members?) or whether they are seeking further education, and reasons for leaving teaching, as well as recommendations for how schools might retain teachers. Those who remain in teaching are asked about changes in teaching assignment, opinions about retaining teachers, and retirement plans. Both current and former teachers are asked for their current family income. Teachers who move from one school to another are asked to describe the type of school to which they moved. Data from the Teacher Followup Survey can be used to compare public and private teachers’ job satisfaction, as well as movement within and out of the teaching profession.

Table A.-- Weighted number of stayers, movers, and leavers, by sector as of: 1988–89, 1991–92, and 1994–95

	Stayers	Movers	Leavers	Total
Public				
1988–89	2,065,839	188,404	132,311	2,387,174
1991–92	2,237,320	185,659	130,495	2,553,474
1994–95	2,205,268	182,949	167,564	2,555,781
Private				
1988–89	242,528	29,682	39,714	311,924
1991–92	287,126	23,226	43,499	353,851
1994–95	310,123	21,725	45,021	376,869

NOTE: Stayers are teachers who were teaching in the same school in the current school year as in the base year. Movers are teachers who were still teaching in the current school year but had moved to a different school after the base year. Leavers are teachers who left the teaching profession after the base year.

*Community types for 1987-88, 1990-91, and 1993-94 are not comparable. In the 1987-88 SASS, respondents reported whether they lived in a rural, suburban, urban or other type of community. In the 1990-91 and 1993-94 SASS, the community type of the school was defined by LOCALE codes created by Johnson, Johnson, F. (1989). "Assigning Type of Locale Codes to the 1987-88 CCD Public School Universe", Technical Report, Data Series: SP-CCD-87188-7.4, CS 89-194 (Washington, D. C.: U.S. Department of Education, National Center for Education Statistics).

¹Coefficient of variation between 30% and 50%. See technical notes.

NOTE: Percents may not add to 100% due to rounding. "Not reported" data in this table are due to total survey nonresponse from some schools in the 1987-88 or 1990-91 SASS. Base years in this table are 1987-88, 1990-91, and 1993-94. Stayers are teachers who were teaching in the same school in the current school year as in the base year. Movers are teachers who were still teaching in the current school year but had moved to a different school after the base year. Leavers are teachers who left the teaching profession after the base year.

*Community types for 1987-88, 1990-91, and 1993-94 are not comparable. In the 1987-88 SASS, respondents reported whether they lived in a rural, suburban, urban or other type of community. In the 1990-91 and 1993-94 SASS, the community type of the school was defined by LOCALE codes created by Johnson, Johnson, F. (1989), "Assigning Type of Locale Codes to the 1987-88 CCD Public School Universe", Technical Report, Data Series: SP-CCD-87188-7.4, CS 89-194 (Washington, DC: U.S. Department of Education, National Center for Education Statistics).

¹Coefficient of variation between 30% and 50%. See technical notes.

NOTE: Percents may not add to 100% due to rounding. "Not reported" data in this table are due to total survey nonresponse from some schools in the 1987-88 or 1990-91 SASS. Base years in this table are 1987-88, 1990-91, and 1993-94. Stayers are teachers who were teaching in the same school in the current school year as in the base year. Movers are teachers who were still teaching in the current school year but had moved to a different school after the base year. Leavers are teachers who left the teaching profession after the base year.

I. Overview

The 1994–95 Teacher Followup Survey (TFS) was sponsored by the National Center for Education Statistics (NCES) of the U.S. Department of Education to update information on teacher attrition and career patterns. The U.S. Bureau of the Census collected and processed the data.

The TFS is a survey of elementary and secondary school teachers who participated in the Schools and Staffing Survey (SASS)¹ and is conducted in the school year following the SASS data collection. The sample for the 1994–95 TFS was selected from those teachers who participated in the 1993–94 SASS; it consisted of all who left teaching within the year after SASS was administered and a subsample of those who continued teaching.

A. Purpose of the Survey

The major objectives of TFS are to:

- Provide estimates of teacher attrition rates;
- Examine the characteristics of those who stay in the teaching profession and those who leave;
- Obtain data on occupations or other activities for those who leave teaching and career information for those who are still teaching;
- Update information on education, other training, and career plans;
- Collect data on attitudes about the teaching profession and job satisfaction.

Congress, state education departments, federal agencies, private school associations, teacher associations, and educational organizations have used data from the 1988–89 and 1991–92 TFS surveys.

B. Periodicity of Survey

The TFS was conducted in the 1988–89, 1991–92, and 1994–95 school years (after the 1987–88, 1990–91, and 1993–94 administrations of SASS, respectively). NCES currently plans to conduct the next survey in the 1999–2000 school year; it will collect data from a subsample of teachers who participate in the 1998–99 SASS.

¹For a complete description of the 1993–94 Schools and Staffing Survey, see *1993–94 Schools and Staffing Survey: Data File User's Manual, Volume I: Survey Documentation*, by Gruber, K., Rohr, C., and Fondelier, S., U.S. Department of Education, National Center for Education Statistics (NCES 96–142–1).

C. Target Populations

The target population for the 1994–95 TFS was the universe of elementary and secondary school teachers who taught in schools that had a first grade and/or higher in the United States during the 1993–94 school year. This population was divided into two components—those who left teaching after the 1993–94 school year (former teachers) and those who continued teaching (current teachers).

The following terms are used in this publication and are defined as they apply to TFS:

Teacher. A teacher is any full-time or part-time school staff member who teaches one or more regularly scheduled classes in any of grades K-12 (or comparable ungraded levels).² In addition to regular full-time teachers, the following types of teachers are also included: (1) itinerant teachers, (2) long-term substitutes who fill the role of a regular teacher on a long-term basis, (3) administrators, counselors, librarians, or other professional or support staff who teach **any** regularly scheduled classes, and (4) other part-time teachers.

Leavers. Teachers who left the teaching profession after the 1993–94 school year.

Movers. Teachers who were still teaching in the 1994–95 school year but had moved to a different school after the 1993–94 school year.

Stayers. Teachers who were teaching in the same school in the 1994–95 school year as in the 1993–94 school year.

Out-of-Scope TFS teachers. Teachers who left the United States or who died.

The following definitions were used in the 1993–94 SASS; they describe variables included on each TFS respondent's record to identify the school where he/she taught during the 1993–94 school year. They are also used in this publication.

²This definition was revised for the 1993–94 SASS and differs from the one used for previous administrations of SASS and TFS. In previous SASS and TFS surveys, a teacher was defined as a school staff member whose **primary assignment** was teaching in any of grades K–12 (or comparable ungraded levels). School staff whose primary assignment was something other than teaching were excluded, even if they taught some regularly scheduled classes.

Census region. The four Census regions are:

Northeast - Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania

Midwest - Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas

South - Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Kentucky, Tennessee, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas

West - Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada, Washington, Oregon, California, Alaska, Hawaii

Common Core of Data (CCD). The Common Core of Data (CCD) is a group of surveys that collect public elementary and secondary education data from the 50 states, the District of Columbia, and the U.S. territories (American Samoa, Guam, Puerto Rico, Virgin Islands, Northern Marianas). CCD is an annual survey that collects information about staff and students in public schools at the school, district, and state levels. Revenue and expenditure data are also collected at the state level.

Local education agency (LEA). LEAs, or public school districts, are government agencies that employ elementary or secondary teachers and are administratively responsible for providing public elementary/secondary instruction and educational support services. Included are education agencies that do not operate schools but employ teachers, e.g., regional cooperatives that employ special education teachers who teach in schools in more than one school district.

School, alternative. Alternative schools serve students whose needs cannot be met in a regular, special education, or vocational school. They provide nontraditional education and may serve as an adjunct to a regular school. They fall outside the categories of regular, special education, and vocational education, although they may provide similar services or curriculum. Some examples of alternative schools are those for potential drop-outs, residential treatment centers for substance abuse (if they provide elementary or secondary education), and schools for chronic truants.

School, BIA. BIA schools are schools funded by the Bureau of Indian Affairs, U.S. Department of Interior. These schools may be operated by the BIA, a tribe, a private contractor, or an LEA (or school district).

School, combined. A combined school has one or more of grades K-6 **and** one or more of grades 9-12; for example, schools with grades K-12, 6-12, 6-9, or 1-12 are classified as combined schools. Schools in which all students are ungraded (i.e., not classified by standard grade levels) are also classified as combined.

School, elementary. A school is classified as elementary if it has one or more of grades 1-6 and does not have any grade higher than grade 8; for example, schools with grades K-6, 1-3, or 6-8 are classified as elementary schools.

School, private. A private school is a school that is not supported primarily by public funds (i.e., it is not a public school). It must provide instruction for one of more of grades 1 through 12 (or comparable ungraded levels), have one or more teachers and be located in a building that is not used primarily as a private home. Organizations or institutions that provide support for home schooling but do not offer classroom instruction for students are **not** included.

School, public. A public school is an institution that provides educational services for at least one of grades 1 through 12 (or comparable ungraded levels), has one or more teachers, is located in one or more buildings, and is supported primarily by public funds. State schools (e.g., schools for the deaf or the blind), schools in juvenile detention centers, and schools located on military bases and operated by the Department of Defense are included.

School, secondary. A school is classified as secondary if it has one of more of grades 7-12 and does not have any grades lower than grade 7; for example, schools with grades 9-12, 7-8, 10-12, or 7-9 are classified as secondary schools.

School, special education. Special education schools provide educational services to students with special physical or mental needs, i.e., students with mental disabilities (such as mental retardation or autism), physical disabilities (such as hearing-impairment), or learning disabilities (such as dyslexia).

School, vocational. Vocational schools primarily serve students who are being trained for semi-skilled or technical occupations.

Typology, private school. Private schools were assigned to one of three major categories and, within each major category, one of three subcategories. The categories and subcategories are:

- *Catholic* - (1) parochial, (2) diocesan, and (3) private;
- *Other religious* - (4) affiliated with a conservative Christian school association, (5) affiliated with a national denomination, and (6) unaffiliated;

- *Nonsectarian* - (7) regular, (8) special program emphasis, and (9) special education.³

Teacher, itinerant. An itinerant teacher teaches at more than one school, e.g., a music teacher who teaches three days per week at one school and two days per week at another.

Ungraded students. Ungraded students are those who are not assigned to a particular grade level (kindergarten, first grade, second grade, etc.); for example, special education centers and alternative schools often classify their students as ungraded. Students in Montessori schools are also considered ungraded if the school assigns them to "primary" and "intermediate" levels instead of specific grades.

II. Sample Design

A. SASS Sampling Frames

1. Public Schools

The public school sampling frame was based on the 1991–92 school year Common Core of Data (CCD). The CCD is collected annually by NCES from all state education agencies and is believed to be the most complete public school listing available. The frame includes regular public schools, some schools on Department of Defense military bases, and nonregular schools such as special education, vocational, and alternative schools. The frame also included 176 Bureau of Indian Affairs (BIA) schools.

2. Private Schools

The sampling frame for private schools was the 1991–92 Private School Survey (PSS).⁴ This data collection used two components to develop estimates of the number of private schools in the United States. A *list frame* was the primary private school frame and an *area frame* was used to identify schools not on the list frame and thereby compensate for the undercoverage of the list frame.

³See M. McMillen and P. Benson, *Diversity of Private Schools*, Technical Report, NCES 92–082 (Washington, D.C.: U.S. Department of Education, National Center for Education Statistics, 1991).

⁴U.S. Department of Education, National Center for Education Statistics, *Private School Universe Survey, 1991–92*, (E. Gerald, M. McMillen, S. Kaufman) NCES 94–350.

List Frame

The list frame used for the 1993–94 SASS private school sample was the same list used for the 1991–92 PSS. It consisted of approximately 25,051 schools from the PSS universe, which was updated in the spring of 1993 by using lists from 24 private school associations.

Area Frame

The SASS area frame consisted of a list of private schools that had not been included on the PSS universe and had not been reported by private school associations during the list frame updating operation. These schools were located in 123 selected PSUs⁵ throughout the United States.

For more information, see the technical report *1993–94 Schools and Staffing Survey: Sample Design and Estimation*, by R. Abramson, C. Cole, S. Fondelier, B. Jackson, R. Parmer, S. Kaufman, (NCES 96–089).

Duplicate schools, as well as schools that did not meet the criteria for being in-scope for the survey (e.g., adult education centers, schools where the highest grade was prekindergarten or kindergarten, and tutoring services) were eliminated from the files before sampling. The resulting number of public schools on the 1993–94 public school frame was 82,746 (9,956 were sampled); the resulting number of private schools on the 1993–94 private school universe was 25,051 (3,315 were sampled). The list frame sample for 1993–94 SASS consisted of 3,162 schools. Additional duplicate private schools were discovered on the PSS after sampling had taken place; these schools received a weighting adjustment to account for their increased probability of selection. Additional out-of-scope public and private schools were detected after processing the sample schools' SASS school questionnaires. These schools were eliminated from further processing of the school samples and are not part of any SASS estimates of the number of schools.

B. SASS Stratification

1. Public Schools

The first level of stratification divided the universe of public schools into four types: (A) BIA (Bureau of Indian Affairs) schools; (B) Native American schools (schools with 19.5% or more Native American students); (C) schools in Delaware, Nevada, and West Virginia (where it was necessary to implement a different sampling methodology to select at least one school from

⁵A PSU is a primary sample unit, which is a geographic area consisting of one or more contiguous counties or an independent city.

each LEA in the state because of the small number of LEAs); and (D) all other schools (i.e., all schools not included in A, B, or C).

For the second level of stratification, the type B schools were stratified by Arizona, California, Montana, New Mexico, Washington, and all other states (except Alaska, since most Alaskan schools have high Native American enrollment). The type C schools were stratified first by state and then by LEA. The type D schools were stratified by state (all states and the District of Columbia, except Delaware, Nevada, and West Virginia).

Within each second level of stratification, regular schools were divided into three grade level strata (elementary, secondary, and combined schools), defined as follows:

- *Elementary* - Lowest Grade ≤ 6 and Highest grade ≤ 8
- *Secondary* - Lowest Grade ≥ 7 and Highest grade ≤ 12
- *Combined* - Lowest Grade ≤ 6 and Highest grade > 8

Nonregular schools such as special education, vocational, technical, adult education (if part of in-scope school) or alternative/continuation schools were classified as combined schools.

2. Private Schools

For list frame private schools, the frame was partitioned into an initial set of 228 cells. The first level of stratification was school association membership:

- (1) Military - membership in the Association of American Military Colleges and Schools;
- (2) Catholic - affiliation as Catholic or membership in the National Catholic Educational Association or the Jesuit Secondary Education Association;
- (3) Friends - affiliation as Friends or membership in the Friends Council on Education;
- (4) Episcopal - affiliation as Episcopal or membership in the National Association of Episcopal Schools;
- (5) Hebrew Day - membership in the National Society for Hebrew Day Schools;
- (6) Solomon Schechter - membership in the Solomon Schechter Day Schools;
- (7) Other Jewish - other Jewish affiliation;

- (8) Missouri Synod - membership in the Lutheran Church, Missouri Synod school association;
- (9) Wisconsin Synod - membership in the Evangelical Lutheran Church - Wisconsin Synod school association or affiliation as Evangelical Lutheran - Wisconsin Synod;
- (10) Evangelical Lutheran - membership in the Association of Evangelical Lutheran Churches school association or affiliation as Evangelical Lutheran Church in America;
- (11) Other Lutheran - other Lutheran affiliation;
- (12) Seventh-Day Adventist - affiliation as Seventh-Day Adventist or membership in the General Conference of the Seventh-Day Adventist Church;
- (13) Christian Schools International - membership in Christian Schools International;
- (14) American Association of Christian Schools - membership in the American Association of Christian Schools;
- (15) National Association of Private Schools for Exceptional Children - membership in the National Association of Private Schools for Exceptional Children;
- (16) Montessori - membership in the American Montessori Society or other Montessori association;
- (17) National Association of Independent Schools - member of the National Association of Independent Schools;
- (18) National Independent Private School Association - member of the National Independent Private Schools;
- (19) All else - member of any other association specified in the PSS or affiliated with a group not listed above or not a member of any association.

Within each association membership, schools were stratified by grade level (elementary, secondary, or combined). Within association/grade level, schools were stratified by four Census regions (Northeast, Midwest, South, or West).

C. TFS Stratification and Sample Allocation

The 1994–95 TFS is a survey of approximately 7,200 teachers interviewed in the 1993–94 SASS Teacher Survey. As described earlier, the purpose of the 1994–95 TFS was to measure teacher attrition rates one year after the 1993–94 SASS data collection. In SASS, schools were selected first. Next, teachers were selected within each sampled school. The TFS teachers were selected from the SASS teacher sample. The TFS sample is a stratified sample that was allocated to allow comparisons of stayers, movers, and leavers within sector (public/private), experience groups, and level. Therefore, for the TFS, the **responding** 1993–94 SASS teachers were stratified by four variables (sector, teacher status, experience, teaching level) in the order shown:

1) Sector: (Public/Private School Indicator)

Public - teachers who taught in a public school system in the 1993–94 school year;

Private - teachers who taught in a private school in the 1993–94 school year;

2) Teacher status:

Leavers - teachers in the 1993–94 school year who left the teaching profession prior to the 1994–95 school year;

Stayers - teachers in the 1993–94 school year who were still teaching in the same school in the 1994–95 school year as they were in the previous school year;

Movers - teachers in the 1993–94 school year who were still teaching in 1994–95, but who were in a different school in the 1994–95 school year;

Don't know - teachers whose status was unknown (or was not reported) in 1994–95 by staff at the school in which they taught in 1993–94.

3) Experience: (New/Experienced Teacher Indicator)

New - teachers who had three years or less teaching experience at the end of the 1993–94 school year;

Experienced - teachers who had more than three years of experience at the end of the 1993–94 school year;

The teacher status and the teacher's teaching experience was defined by the school.

4) Teaching level:

Elementary - teachers who taught elementary students in the 1993–94 school year regardless of the level of the school (elementary, secondary, or combined) in which they taught;

Secondary - teachers who taught secondary students in the 1993–94 school year regardless of the level of the school (elementary, secondary, or combined) in which they taught.

The final TFS sample allocation is summarized in Table II-1.

Table II-1.—TFS sample allocation⁶			
	Total	New	Experienced
Public	5,075	1,682	3,393
<i>Leavers</i>			
Total	2,035	294	1,741
Elementary	697	109	588
Secondary	1,338	185	1,153
<i>Nonleavers</i>	3,040	1,388	1,652
Elementary			
Total	1,624	692	932
Movers	700	364	336
Stayers	924	328	596
Secondary			
Total	1,416	696	720
Movers	664	438	226
Stayers	752	258	494
Private	2,097	838	1,259
<i>Leavers</i>			
Total	641	223	418
Elementary	343	119	224
Secondary	298	104	194
<i>Nonleavers</i>	1,456	615	841
Elementary			
Total	833	349	484
Movers	290	112	178
Stayers	543	237	306
Secondary			
Total	623	266	357
Movers	209	86	123
Stayers	414	180	234

⁶"Don't know" strata cases are included in the "stayer" categories of this table.

D. SASS Sample Selection

1. Public Schools

Before the sample of public schools was selected, the schools within each stratum were sorted. To facilitate the calculation of LEA weights, it was important to keep all schools within a stratum and Local Education Agency (LEA) together. To accomplish this, the first three digits of the ZIP code of all schools within a stratum and LEA were set equal to those of the first school in the stratum and LEA.

After the ZIP code was recoded, non-BIA⁷ schools within each stratum were sorted by the following variables:

- 1) State;
- 2) LEA metro status:
 - 1 = Central City of a Metropolitan Statistical Area (MSA)
 - 2 = MSA, not Central City
 - 3 = Outside MSA
- 3) Recoded LEA ZIP Code (The first three digits);
- 4) CCD LEA ID number;
- 5) Highest grade in school;
- 6) School percent minority:
 - 1 = < 5.5% or unknown
 - 2 = $\geq 5.5\%$ and < 20.5%
 - 3 = $\geq 20.5\%$ and < 50.5%
 - 4 = 50.5% or more;
- 7) School enrollment; and
- 8) CCD School ID (the CCD ID of the last school used.)

Within each stratum, non-BIA schools were systematically selected using a probability proportionate to size algorithm. The measure of size used was the square root of the number of teachers in the school as reported on the CCD file. Any school with a measure of size larger than the sampling interval was excluded from the probability sampling process and included in the sample with certainty. This selection process produced a sample of 9,780 non-BIA public schools.

⁷BIA schools were not sorted since they were designated to be in sample with certainty. All 176 BIA schools were in the 1993–94 SASS school sample.

2. Private Schools

Within each stratum, private schools in the list frame were sorted on the following variables:

- 1) State;
- 2) Highest grade in school;
- 3) Urbanicity:
 - 1 = Large Central City
 - 2 = Mid-size Central City
 - 3 = Urban Fringe of Large City
 - 4 = Urban Fringe of Mid-size City
 - 5 = Large Town
 - 6 = Small Town
 - 7 = Rural
- 4) ZIP Code (The first two digits);
- 5) 1991–92 PSS enrollment;
- 6) PIN number (a unique number that identifies the school on the PSS).

Within each stratum, private schools in the list frame were systematically selected using a probability proportionate to size algorithm. The measure of size used was the square root of the 1991–92 PSS number of teachers in the school. Any school with a measure of size larger than the sampling interval was excluded from the probability sampling process and included in the sample with certainty.

3. Teachers

Selecting the teacher sample in both public and private schools involved the following steps:

- The selected schools were asked to provide teacher lists;
- From the lists, 56,736 public school teachers and 11,548 private school teachers were selected.

The public and private teacher sample selections are described together because identical methodologies were used. The only differences were in the average number of teachers selected within a school.

Teacher Frame

Each selected school was asked to provide a list of their teachers with selected information for each teacher. Nine percent of the private schools and four percent of the public schools did not provide teacher lists. A factor in the teacher weighting system was used to adjust for these nonparticipant schools.

The sample schools were asked to provide the following information for each teacher listed:

- Whether the teacher was new or experienced, where "new" was defined as three years or less of teaching experience and "experienced" was defined as having more than three years of experience;
- Race/ethnicity;
- Whether teacher taught bilingual or English as a Second Language (ESL) classes;⁸
- Main subject taught (General elementary, special education, and all others for elementary level teachers; math, science, English, social studies, vocational education, special education, and all others for secondary teachers.)

The above information for each teacher in a selected SASS school comprised the school teacher frame.

Within each selected school, teachers were stratified into one of five teacher types in the following hierarchical order:

- 1) Asian or Pacific Islander (API)
- 2) American Indian or Aleutian or Eskimo (AIAE)
- 3) Bilingual/ESL
- 4) New
- 5) Experienced

Within-School Teacher Allocation

First, the total number of sample teachers to be selected for each school without regard to strata was calculated assuming no teacher oversampling for

⁸In bilingual classes, subject matter (science, math, social studies, etc.) is taught by using a language other than English. In ESL classes, English is taught to students whose primary language is not English.

new teachers. Then, to allocate across the strata, public school teachers were allocated to the new and experienced categories proportional to their numbers in the school. However, for private teachers, it was decided to oversample new teachers to ensure that there would be a sufficient sample of new teachers in the TFS. (This was also done in 1990–91 SASS.)

Asian or Pacific Islander, American Indian or Aleutian or Eskimo, and bilingual teachers were oversampled at a rate to ensure a set number of each group was selected. To make sure a school was not overburdened, the maximum number of teachers per school was set at 20. When the number of sample teachers exceeded 20 in a school, the Asian or Pacific Islander, American Indian or Aleutian or Eskimo, and bilingual teachers were proportionally reduced to meet the maximum requirement.

Within each teacher stratum, secondary teachers were sorted by teacher's main subject taught (as reported by the principal on the SASS Teacher List); and elementary teachers were sorted by general elementary, special education, or other teaching assignment. When combined schools had both elementary and secondary teachers, the teachers were sorted by grade level/main subject taught. This method was used to assure a good distribution of teachers by main subject taught.

Within each school and teacher stratum, teachers were selected systematically with equal probability.

A total of 68,284 teachers were selected for SASS (62,770 new and experienced; 1,735 Asian Pacific Islander; 1,661 American Indian or Aleutian or Eskimo; and 2,118 bilingual/ESL). Table II-2 shows the number of selected teachers in SASS sample by teacher type and sector.

Table II-2.—Number of selected teachers in SASS sample, by teacher type and sector			
Teacher type	Public	Private	Total
American Indian/Aleut/Eskimo	1,525	136	1,661
Asian/Pacific Islander	1,483	252	1,735
Bilingual/ESL	2,024	94	2,118
New	4,799	2,182	6,981
Experienced	46,905	8,884	55,789
Total	56,736	11,548	68,284

E. TFS Sample Selection

Sorting. Within each public TFS stratum, teachers who responded to the 1993–94 SASS Teacher Survey were sorted by teacher subject, Census region, urbanicity, school enrollment, and SASS teacher control number. Within each private TFS stratum, responding teachers were sorted by teacher subject, association membership (list frame), affiliation (area frame), urbanicity, school enrollment, and SASS teacher control number.

Sample Selection. After they were sorted, teachers were selected within each stratum using a probability proportional to size sampling procedure. The measure of size was the 1993–94 SASS intermediate teacher weight, which is the product of the Basic Weight, Sampling Adjustment Factor, School Nonresponse Factor, Teacher Noninterview Factor, and the First-Stage Ratio Adjustment Factor. (See Table II.1 for more details on TFS Sample allocation.)

For more information about weights and estimation in SASS, see the technical report *1993–94 Schools and Staffing Survey: Sample Design and Estimation*, by R. Abramson, C. Cole, S. Fondelier, B. Jackson, R. Parmer, S. Kaufman, (NCES 96–089).

III. Data Collection

A. Time Frame of the Survey

The Bureau of the Census collected the 1994–95 TFS data during the 1994–95 school year. Table III-1 summarizes the specific data collection activities and the time frame in which each occurred.

Table III-1.—Data collection time schedule	
Activity	Month of Activity
Advance letters mailed to LEAs and state administrators	August 1994
Teacher Status Forms (TFS-1) and letters mailed to sample schools	September 1994
Reminder postcards mailed to sample schools	September 1994
Telephone followup of Teacher Status Forms not returned by schools	October-November 1994
Initial mailing of leaver/stayer questionnaires (TFS-2 and TFS-3)	January 1995
Second mailing of leaver/stayer questionnaires (TFS-2 and TFS-3)	February 1995
Telephone followup of mail questionnaire nonrespondents	March-May 1995

B. Data Collection Procedures

The U.S. Bureau of the Census collected TFS data in two phases:

Phase 1 - In September 1994, the Census Bureau mailed teacher status forms (TFS-1) to schools that had provided lists of teachers for 1993–94 SASS. On this form, the school principal (or other knowledgeable school staff member) was asked to report the current occupational status of each teacher who participated in the 1993–94 SASS, by indicating whether he/she was still at the school in a teaching or nonteaching capacity, or had left the school to teach elsewhere or for a non-teaching occupation. One week after the TFS-1 mailout, reminder postcards were mailed to the sample schools. In October and early November, Census interviewers telephoned schools that had not returned the TFS-1 to obtain the requested information.

If the school staff indicated a sample teacher had moved, the Census Bureau also tried to obtain address correction information for the sample teacher's home address through the post office.

Phase 2 - In January 1995, the TFS questionnaires were mailed to selected teachers and former teachers. The Questionnaire for Former Teachers (TFS-2) was sent to sample persons reported by school administrators as having *left* the teaching profession. The Questionnaire for Current Teachers (TFS-3) was sent to sample persons who were reported as still teaching at the elementary or secondary level. When home addresses were available, the questionnaires were mailed there. Otherwise, they were mailed to the sample teacher's 1993–94 school.

In February, the Census Bureau mailed a second questionnaire to each sample person who had not returned the first questionnaire. Also, for those who returned the first form and indicated that it did not apply to them (because their status was incorrectly reported by their 1993–94 school), the appropriate questionnaire was mailed to them. For example, if a sample person who was teaching in another school received the questionnaire for former teachers (TFS-2), he/she was instructed to return the questionnaire; the Census Bureau sent the correct questionnaire (TFS-3 for current teachers) to the respondent during the second mailout.

In late March 1995, Census interviewers began calling sample persons who had not returned a mail questionnaire. In addition to these nonresponse followup cases, some "nonmailable" cases (cases with incomplete addresses) were assigned for telephone followup. If the interviewers were unable to contact a sample teacher through a contact person (two contact persons had been listed by the sample teacher on the SASS form as knowing how or where

to get in touch with him or her) or through directory assistance, they called the sample person's 1993–94 school to obtain information about the person's current address or employer. Telephone followup of nonrespondents ended in May 1995.

During the telephone followup, the interviewers used form TFS-4, Telephone Questionnaire for the Teacher Followup Survey 1994–95, to collect the data. This form was a combination of the TFS-2 and the TFS-3 questionnaires; i.e., data for a current or a former teacher could be recorded on this single form.

IV. Edit Procedures

A. Clerical Edit

Questionnaires returned by individual respondents and those completed by Census interviewers during telephone followup were sent to the Census Bureau processing center in Jeffersonville, Indiana. Upon receipt, clerks assigned codes to each questionnaire to indicate its status—e.g., complete interview, refusal, deceased. Then they performed a general clerical edit that included reviewing all entries for legibility and making corrections, e.g., changing "one" to "1" and rounding fractions to whole numbers. For the TFS-2 (Questionnaire for Former Teachers), the clerks also assigned industry and occupation codes⁹ to the respondent's current job (questionnaire item 3). For TFS-3 (current teachers) respondents teaching in a different state, they assigned a state FIPS code to the respondent's new state (questionnaire item 13).

After the clerical edit, the questionnaires were batched by type and interview status (i.e., interviews, noninterviews, out-of-scope for survey) for data keying. Data entry personnel were instructed to correct all errors identified during the keying operation and to refer problem cases to their supervisor. To assure the quality of the data, all keying was independently verified at the 100 percent level.

B. Preliminary ISR Classification

After keying data, the next step in processing was to make a preliminary determination of each case's interview status (ISR)—i.e., whether it was an interview, a noninterview, or out-of-scope for the survey. In general, those cases with "out-of-scope" check-in codes (assigned by clerks when questionnaires were received at the processing center) were classified as out-of-scope (ISR=3) for the preliminary ISR.

⁹The lists of industry and occupation codes used for TFS-2 item 3 are provided in Appendix D of this publication.

Otherwise, cases with data entries were classified as interviews (ISR=1) and those with no data were classified as noninterviews (ISR=2).

C. Computer Edit

After the assignment of the preliminary ISR code, the file was divided into two files: (1) former teachers (leavers) and (2) current teachers (stayers and movers). Then these files were submitted to a computer edit that consisted of a range check, a consistency edit, and a blanking edit. Only records classified as interviews in the preliminary ISR were edited.

The *range check* deleted entries that were outside the range of acceptable values.

The *consistency edit* identified inconsistent entries within each record and, whenever possible, corrected them; if they could not be corrected, the entries were deleted.

Example: If the respondent answered "Yes" in Item 9 to indicate that he/she had earned a college degree during the past 12 months but recorded a date in Item 10 (month and year of degree) that was later than June 1995, the "Yes" response in Item 9 was changed to "No" in the consistency edit and the entry in Item 10 was deleted.

The *blanking edit* deleted extraneous entries and assigned the "not answered" (.N) code to items that should have been answered but were not.

D. Final Interview Status Edit

After the range check, consistency edit, and blanking edit were completed, the records were edited to determine whether the case was eligible for inclusion in the survey and, if so, whether sufficient data had been collected for the case to be classified as an interview. An interview status recode (ISR) value was then assigned to each case as a result of the edit:

- A case was classified as **out-of-scope** (ISR=3) if the respondent had died or moved out of the United States.
- A TFS-2 case (former teacher) was classified as an **interview** (ISR=1) if four of these items were reported:
 - Item 1 - Main occupational status
 - Item 4 - Full-time/part-time employee status
 - Item 5 - Earnings at new job
 - Item 8 - Main activity for next year

Item 18 - Whether respondent plans to return to teaching
Item 23a - Main reason for leaving teaching profession

- A TFS-3 case (current teacher) was classified as an **interview** (ISR=1) if six of these items were reported:
Item 5a - Full-time/part-time teaching status
Item 7a - Main teaching assignment field
Item a - Whether respondent is certified in main teaching assignment field
Item 9a - Whether respondent is certified in other teaching assignment field
Item 10 - Grade levels of students taught by respondent
Item 11 - Type of community where school is located
Item 12 - Whether respondent has changed schools
Item 28 - Main activity for next year
Item 51b(1) - Teaching salary
Item 51c - Total earned income

- A case was classified as a **noninterview** (ISR=2) if the conditions for out-of-scope cases and interview cases were not met.

Table IV-1.—Number of 1994–95 Teacher Followup Survey teachers in sample, by sector and interview status			
Teachers in sample	Interviewed	Not interviewed	Out-of-scope
Public	4,528	463	34
Current teachers	2,798	281	2
Former teachers	1,730	182	32
Private	1,751	330	17
Current teachers	1,175	232	0
Former teachers	576	98	17
BIA	44	6	0

NOTE: Noninterviews and out-of-scope teachers are not included in the TFS analytic or public-use datafiles.
SOURCE: U.S. Department of Education, National Center for Education Statistics, "Teacher Followup Survey, 1994–95," (TFS-2 Former Teachers Questionnaire, and TFS-3, Current Teacher Questionnaire) unpublished tabulations.

V. Response Rates

A. Survey Response Rates

Table V-1 summarizes the weighted and unweighted response rates for the TFS (shown in percentages).

Table V-1.—Response rates, by sector and teaching status, unweighted and weighted		
Interviews		
Sampled Teachers	Unweighted	Weighted
Public	90.7	92.3
Current teachers	90.9	92.5
Former teachers	90.5	89.2
Private	84.1	87.2
Current teachers	83.5	87.2
Former teachers	85.5	87.6
BIA	88.0	99.5
Current teachers	95.5	99.9
Former teachers	82.1	88.9
Total	88.8	91.6
Current teachers	88.6	91.8
Former teachers	89.1	88.8

Table V-2.—Survey response rates for 1993–94 SASS Teacher List, 1993–94 Schools and Staffing Teacher Survey, and 1994–95 Teacher Followup Survey, weighted				
	Sector			
	Public		Private	
Components	Current Teachers¹⁰	Former Teachers	Current Teachers	Former Teachers
SASS Teacher List response rate ¹¹	95.0		91.0	
SASS Teacher Survey response rate ¹²	88.2 ¹³		80.2 ¹⁴	
Teacher Followup Survey response rate ¹⁵	92.5	89.2	87.2	87.6

A cumulative overall response rate is the product of the survey response rates shown in Table V-2; (SASS Teacher List response rate) (SASS Teacher Survey response rate) (TFS Teacher response rate). The cumulative overall response rates by sector and teacher status for the 1994–95 TFS are:

Public current teachers: $(.95)(.882)(.925)(100)=80.0$.
 Public former teachers: $(.95)(.882)(.892)(100)=74.7$.
 Private current teachers: $(.91)(.832)(.872)(100)=66.0$.
 Private former teachers: $(.91)(.832)(.876)(100)=66.3$.

¹⁰Includes stayers and movers.

¹¹Percent of schools providing teacher lists for the 1993–94 SASS sample, unweighted.

¹²Percent of eligible sample teachers responding to the 1993–94 SASS Teacher Survey, weighted.

¹³This rate does not include the 5 percent of the public schools which did not provide teacher lists.

¹⁴This rate does not include the 9 percent of the private schools that did not provide teacher lists.

¹⁵Percent of eligible sample teachers responding to the 1994–95 Teacher Followup Survey, weighted.

B. Item Response Rates

Table V-3 is a brief summary of the unweighted item response rates for the 1994–95 TFS questionnaires. A response rate for an item is defined as the number of records with valid responses to that item divided by the number of eligible respondents for the item.

	Former teachers	Current teachers
Range of item response rates	78-100%	52-99%
Percentage of items with a response rate of 90% or more	92.6%	90.4%
Percentage of items with a response rate less than 80%	1.2%	4.1%
Items ¹⁶ with a response rate less than 80%	7	9b, 9c, 48i, 51a(1), 51a(2), 51a(3), 51b(3), 51b(4), 57b

VI. Imputation

For questionnaire items that should have been answered but were not, values were imputed by using data from (1) other items on the questionnaire, (2) the 1993–94 SASS Teacher Survey record for the same respondent, and (3) data from the record for a respondent with similar characteristics (commonly known as the nearest neighbor "hotdeck" method for imputing for item nonresponse¹⁷).

For some incomplete items, the entry from another part of the questionnaire, the SASS Teacher Survey record, or the data record for a similar case was directly imputed to complete the item; for others, the entry was used as part of an adjustment factor with other data on the incomplete record.

¹⁶The questionnaire wording for these items can be found in Appendices B and C of this publication.

¹⁷Kalton, G. and Kasprzyk, D. (1982), "Imputing for Missing Survey Responses," *Proceedings of the Section on Survey Research Methods*, American Statistical Association, 22-31; Kalton, G., *Compensating for Missing Survey Data*. Ann Arbor: Survey Research Center, University of Michigan, 1983; Kalton, G. and Kasprzyk, D. (1986), "The Treatment of Missing Survey Data," *Survey Methodology*, Vol. 12, No.1, pp. 1-16; Little, R. J. A. and Rubin, D. B. (1987), *Statistical Analysis with Missing Data*, John Wiley and Sons; Madow, W. G., Olkin, I., and Rubin, D. B. (eds.) 1983, *Incomplete Data in Sample Surveys*, Vols. 1, 2, and 3, New York, Academic Press.

The procedures described above were carried out by computer processing. However, for a few items there were cases where entries were clerically imputed. The data record, SASS teacher file record, and in some cases, the questionnaire were reviewed and an entry consistent with the information from those sources was imputed. This procedure was used when (1) there was not suitable record to use as a donor, (2) the computer method produced an entry that was outside the acceptable range for the item, or (3) there were very few cases where an item was unanswered (usually less than 10).

Values were imputed to items with missing data within records classified as interviews (ISR=1). Noninterview adjustment factors were used during the weighting process to compensate for data missing because the sample person was a noninterview (ISR=2).

Entries imputed to TFS records are identified by flags that denote the stage or type of imputation: 1 = ratio adjustment of original entry; 2 = entry was imputed by using other data on the record or from the SASS teacher file; 3 = entry was imputed by using data from the record for a similar sample person (donor); 4 = clerical imputation; 0 = not imputed.

The variable names for these flags are $F_{(variable\ name)}$, where *variable name* is the variable name for the data entry, e.g., F_{TFS012} is the imputation flag for variable TFS012 (item 6 of the TFS-2).

VII. Weighting

A. SASS Teacher Weights

The SASS teacher basic weight is the inverse of the probability of selection of the teacher. Teacher basic weights were adjusted to account for schools that refused to provide lists of teachers (school nonresponse adjustment factor), and for teachers who were selected for the survey but did not provide questionnaire data (teacher noninterview factor). In addition, the school sampling adjustment factor and the first-stage ratio adjustment factor were also applied to produce the final weight.

School sampling adjustment factor was applied to certain schools to account for duplicate records, merged schools, or any other circumstance that would affect the school's true probability of selection.

School nonresponse adjustment factor was calculated to compensate for schools that refused to provide lists of their teachers.

First stage ratio adjustment factor adjusted the sample weighted count of all cases (interviewed, noninterview, and out-of-scope) to known frame totals. For public schools, the frame totals such as grade level by urbanicity by state came from the

1991–92 CCD. For private schools on the list frame, the updated private school list frame universe was the source of totals such as grade level by association membership.

B. TFS Teacher Weights

The final TFS sample weight equals:

TFS basic weight x SASS weighting adjustment factor x TFS noninterview adjustment x TFS ratio adjustment

where:

TFS basic weight is the inverse of the probability of selecting a teacher for TFS. This weight is the product of the intermediate teacher weight from SASS (described in previous section) and TFS subsampling adjustment factor. The TFS subsampling adjustment factor is an adjustment that accounts for the subsampling of teachers from SASS sample teachers.

SASS weighting adjustment factor is used to adjust for the fact that preliminary SASS final weights were used in computing the TFS basic weight. The weighting adjustment factor adjusts for any changes that may have occurred between the preliminary and final weighting calculations.

TFS noninterview adjustment is the factor used to adjust for teachers who participated in SASS but did not participate in the 1994–95 TFS.

TFS ratio adjustment is the factor used to adjust the TFS sample totals to known SASS sample totals. This adjustment ensures that the weighted number of TFS teachers (interviews, noninterviews, and out-of-scopes) will equal the weighted number of SASS teachers from 1993–94.

VIII. Variance Estimation

The previous SASS surveys (1987–88 and 1991–92) used the variance procedure known as balanced half sample replication (BHR). A fundamental problem with BHR is that it assumes sampling is done with replacement. Hence, BHR cannot reflect the increase in precision due to sampling a large proportion of a finite population. For most surveys, where the sampling rates are small, the increase in precision will be small and can be safely ignored. However, in SASS the public surveys (school, principal, teacher, library, and librarian) are designed for reliable state estimates. This necessarily implies large sampling rates, which can lead to very large variance overestimates with BHR. Likewise, some of the private surveys (school, principal, and teacher) are designed to produce detailed private association estimates, which also imply large sampling rates, and variance overestimation with BHR.

To overcome this problem, a bootstrap variance estimator was implemented for the 1993–94 SASS. The bootstrap variance reflects the increase in precision due to large sampling rates.

The idea behind bootstrap variance estimation¹⁸ is to use the distribution of the sample weights to generate a bootstrap frame. Bootstrap samples can be selected from the bootstrap frame, replicate weights computed, and variances estimated with standard BHR software. The bootstrap replicate basic weights (inverse of the probability of selection) were subsequently reweighted by processing each set of replicate basic weights through the full-sample weighting procedure.

Further analysis of the bootstrap replicate basic weights revealed that approximately 6% of SASS school replicate weights fell outside a 95% confidence interval. This is only slightly higher than the expected 5% and indicates the bootstrap replicate weights are close to normally distributed.

Public schools. The SASS public school data files contain a set of 48 bootstrap weights, which can be used with any BHR software package. If the package requires specifying a variance methodology, BHR can be specified. At this point, variance computation is similar to the previous SASS and TFS rounds. The difference is in the use of bootstrap methods to produce the replicate weights.

Public school principal replicate weights are the same as the school replicate weights.

Private schools. For private schools, the list frame used the bootstrap methodology as described above. For the area frame, the PSU sampling rates were very small, negating the advantage of using bootstrap.

BHR methodology was employed in the area frame as it has been for all previous SASS. Half-samples are defined by pairing sample PSUs within each sampling stratum, forming variance strata. The final product is a set of 48 replicate weights. After the variance strata were assigned, an orthogonal matrix was used to form the 48 balanced half-sample replicates. Thus, the same methodology can be applied to both the list frame and the area frame replicate weights to compute variances.

¹⁸For more information about bootstrap variance methodology and how it applies to SASS and TFS, see: Efron, B (1982), *The Jackknife, the Bootstrap and Other Resampling Plans*, SIAM No. 38; Kaufman, S. (1992), "Balanced Half-sampled Replication with Aggregation Units," *Proceedings of the Section on Survey Research Methods, American Statistical Association, 1992*. Alexandria, VA: American Statistical Association. Kaufman, S. (1993), "A Bootstrap Variance Estimator for the Schools and Staffing Survey," *Proceedings of the Section on Survey Research Methods, American Statistical Association, 1993*. Alexandria, VA: American Statistical Association. "Properties of the Schools and Staffing Survey's Bootstrap Variance Estimator," *Proceedings of the Section on Survey Research Methods, American Statistical Association, 1994*. Alexandria, VA: American Statistical Association. Sitter, R.R. (1990), "Comparing Three Bootstrap Methods for Survey Data," *Technical Report Series of the Laboratory for Research in Statistics and Probability*, Carlton University.

Teacher replicates. The teacher replicate weights are generally equal to the school bootstrap replicate weights times the inverse of the conditional probability of selection of the teacher given the school was selected in the SASS school sample. These adjusted bootstrap replicate weights are provided on the file. BHR methodology was employed rather than bootstrap in two instances. First, if a school was selected with certainty and, subsequently, teachers were not sampled with certainty, no bootstrap replicate weights were available, so records were sorted by school stratum, order of selection, and control number, and then assigned variance stratum and panel.

The second instance was in the private area frame. These teacher sample records were assigned replicate weights by multiplying the school BHR replicate weights by the teacher's conditional probability of selection given the school was selected in the SASS school sample.

TFS teachers. Since the TFS sample was a proper subsample of the SASS teacher sample, the SASS teacher replicates were used for the TFS sample. The TFS basic weight for each TFS teacher was multiplied by each of the 48 SASS replicate weights divided by the SASS teacher full-sample intermediate weight for that teacher. To calculate 48 replicate weights which should be used for variance calculations, these TFS replicate basic weights were processed through the remainder of the TFS weighting system.

A variance estimate is obtained by first calculating the estimate for each replicate, then summing the squared deviations of the replicate estimates from the full-sample estimate, and finally dividing by the number of replicates:

$$\sum_k \frac{(\hat{y}_k - \hat{y})^2}{48}$$

where $k = 1, 2, \dots, 48$,

$\hat{y}_k = k$ th replicate estimate

and $\hat{y} =$ full sample estimate.

When calculating variance estimates for some small subdomains of interest (e.g., vocational education teachers), sparseness of the data may result in there being no data from some replicates. This can result in either an extremely large variance estimate or failure of the software used to calculate the variance, with possibly a warning message.

WESTAT, Inc. has developed a PC-based replication program, WesVarPC. WesVarPC is available on the World Wide Web. The URL for WESTAT, Inc. is <http://www.westat.com>. There is a link on the WESTAT home page to the WesVarPC home page. WesVarPC version 2.1, along with the documentation, is available for download at no charge.

IX. Reinterview Program

The purpose of the reinterview for the TFS was to evaluate response variance. Measuring response variance allows us to determine the degree of variability between the original interview responses and the reinterview responses. If the degree of variability is high, questions that need improvement can be determined. A sample of 1,545 cases was selected, expecting 1,000 completed reinterviews. Oversampling occurred to account for potential nonresponse based on the 1991–92 TFS. In actuality we obtained 870 completed reinterviews.

We used two reinterview questionnaires—the TFS-3(R) for mail cases and the TFS-3(R)T for telephone cases. Each questionnaire contained a subset of questions from the original questionnaire.

The TFS reinterview took place from February 21, 1995 through June 16, 1995. An analysis of the reinterview data is in progress.

X. Confidentiality Protection Measures

The 1994–95 TFS data are released in accordance with the provisions of the General Education Provisions Act (GEPA) (20 USC 1221e-1) and the Carl D. Perkins Vocational Education Act. GEPA ensures privacy by ensuring that respondents will never be individually identified.

Under Public Law 100-297, the NCES is responsible for protecting the confidentiality of individual respondents and is releasing data to the public to use for statistical purposes only. Record matching or deductive disclosure by any user is prohibited.

To ensure that the confidentiality provisions contained in PL 100-297 have been fully implemented, procedures for disclosure avoidance were used in preparing the data tape in this release. Every effort has been made to provide the maximum research information consistent with reasonable confidentiality protections.

To prevent disclosure of the identities of teachers on the public use data tapes, state identifiers (for the public school teachers) and state, regional, and detailed affiliation and association codes (for the private school teachers) have been removed. In addition, continuous variables on the questionnaire that would permit disclosure of a teacher's identity (age and salary) have been coded into categories. The new categories for recoded variables are defined for the appropriate source codes on the attached tape record layouts. A few items have been deleted from the files altogether because of disclosure problems. These will be missing on the record layouts.

Difference between public and restricted use file. To protect the confidentiality of responding teachers, certain categories were collapsed on the public use file so that teachers cannot be identified. These included base academic year salary, teacher's age, total enrollment, percent minority enrollment, and the community type (rural, small town, urban, and central city) of the school. State identifiers and school affiliation were deleted from the public use file.

XI. Changes to TFS Content from 1991–92 to 1994–95

Some changes to wording and the order of specific items has occurred. Also, a new section was added to the Questionnaire for Current Teachers (TFS-3) to collect data on teaching methods. These new questions are Items 31-50.

XII. Caution Concerning the Measurement of Change Using 1991–92 and 1994–95 TFS

Changes in question wording. Caution must be used in the interpretation of change estimates between 1991–92 and 1994–95 TFS since specific questions are not always worded the same in both surveys.

XIII. User Notes and Comments

We are interested in your reaction to the information presented here about the Teacher Followup Survey (TFS) data collection system as well as the microdata files we release. We welcome your recommendations for improving our survey work and data products. If you have suggestions or comments or want more information about this report, please contact:

Teacher Followup Survey
National Center for Education Statistics
555 New Jersey Avenue, NW
Washington, DC 20208-5651

We are also interested in the research you do using the TFS data sets. We would be pleased to receive copies of reports, working papers, and published articles you write, which use data from the TFS. Send them to the address above.

THANK YOU FOR TAKING THE TIME TO RESPOND!

*Community types for 1987-88, 1990-91, and 1993-94 are not comparable. In the 1987-88 SASS, respondents reported whether they lived in a rural, suburban, urban or other type of community. In the 1990-91 and 1993-94 SASS, the community type of the school was defined by LOCALE codes created by Johnson, Johnson, F. (1989), "Assigning Type of Locale Codes to the 1987-88 CCD Public School Universe," Technical Report, Data Series: SP-CCD-87188-7.4, CS 89-194 (Washington, D.C.: U.S. Department of Education, National Center for Education Statistics.

NOTE: Base years in this table are 1987-88, 1990-91, and 1993-94. Stayers are teachers who were teaching in the same school in the current school year as in the base year. Movers are teachers who were still teaching in the current school year but had moved to a different school after the base year. Leavers are teachers who left the teaching profession after the base year.

TEACHER FOLLOW-UP SURVEY

QUESTIONNAIRE FOR CURRENT TEACHERS

1994-1995

Conducted by:

U.S. Department of Commerce
Bureau of the Census

THIS SURVEY HAS BEEN ENDORSED BY:

American Association for Counseling and Development
American Association of School Administrators
American Federation of Teachers
Bureau of Indian Affairs
Council for American Private Education
Council of Chief State School Officers
National Association of Elementary School Principals
National Association of Independent Schools
National Association of Secondary School Principals
National Catholic Educational Association
National Education Association

INSTRUCTIONS

Most of the items on this questionnaire are arranged so that the answer categories or spaces for written answers are under the questions. Please answer the questions by marking the appropriate answer category with an X, or recording your answer in the space provided. We suggest that you use a pencil, rather than a pen or marker.

Notice that at the end of some answer categories and answer spaces, there are instructions to skip to later questions or to continue with the next question on the questionnaire.

If you are unsure about how to answer a question, please give the best answer you can and make a comment in the "Notes" space. Please include the item number.

If you have any questions, call the Bureau of the Census, toll free, at 1-800-221-1204.

Return your completed questionnaire to the Bureau of the Census in the enclosed preaddressed envelope. Please return it within two weeks.

Please keep count of the time you spend completing this **questionnaire**.
At the end of the **survey, you** are asked to record the amount of time **spent**.

Are you currently teaching – **full-time, part-time**, or as a long-term substitute – in grades K through **12**?

103 1 Yes  PLEASE CONTINUE with this survey.

2 No  RETURN THIS FORM to the Bureau of the Census in the enclosed envelope. You will be sent another form for teachers who are still teaching.

SECTION I – MAIN ACTIVITY

EDUCATION FIELDS

(Use codes to answer items 1a, 1b, 2, 3a, and 3b)

- | | |
|--|---|
| <p>01 Teaching in an elementary or secondary school</p> <p>02 Working in an elementary or secondary school with an assignment OTHER THAN teaching</p> <p>03 Working in an occupation outside of elementary or secondary education</p> | <p>04 Attending a college or university</p> <p>05 Caring for family members</p> <p>06 Retired</p> <p>07 Other</p> |
|--|---|

1a. Is your time EQUALLY DIVIDED between two of the above listed **activities**?

190 1 Yes
2 No
↓
GO to item 2.

b. What are the codes from the list **above**?

192

 and 093

 → **GO to item 4.**
Code Code

2. What code from the list above best describes the activity you spend most of your time on during the work **week**; that **is**, what is your main **activity**?

194

 Main activity
Code

3a. Do you spend time on any other activity from the list **above**?

195 1 Yes
2 No
↓
GO to item 4.

b. What code from the list above best describes this other **activity**?

196

 Other activity
Code

SECTION I – MAIN ACTIVITY – CONTINUED

4. Which of the following categories describes your position as a school **EMPLOYEE**?

Mark (X) only one box.

- 107
- 1 Full time employee
 - 2 3/4 time or more, but less than full-time employee
 - 3 1/2 time or more, but less than 3/4 time employee
 - 4 1/4 time or more, but less than 1/2 time employee
 - 5 Less than 1/4 time employee

5a. How much time do you work as a TEACHER at this **school**?

Mark (X) only one box.

- 108
- 1 Full time teacher
 - 2 3/4 time or more, but less than full-time teacher
 - 3 1/2 time or more, but less than 3/4 time teacher
 - 4 1/4 time or more, but less than 1/2 time teacher
 - 5 Less than 1/4 time teacher

b. Which of the **following** categories best describes your teaching **assignment**?

Mark (X) only one box.

- 109
- 1 Regular full-time or part-time teacher
 - 2 Itinerant teacher (i.e., your assignment requires you to provide instruction at more than one school)
 - 3 Long-term substitute (i.e., your assignment requires that you fill the role of a regular teacher on a long-term basis, but you are still considered a substitute)

6. If you are a full-time school or district employee with less than a full-time teaching **assignment**, which of these best describes your other assignment at this **school**?

Mark (X) only one box.

- 110
- 1 Administrator (e.g., principal, assistant principal, director, head)
 - 2 Counselor
 - 3 Librarian/media specialist
 - 4 Coach
 - 5 Other professional staff (e.g., department head, curriculum coordinator)
 - 6 Support staff (e.g., secretary, aide)
 - 7 Other – Describe

- 8 Not applicable

Code

SECTION I – MAIN ACTIVITY – CONTINUED

8a. Do you **have** a teaching certificate in this state in your MAIN teaching assignment **field**?

- 15
- 1 Yes
 - 2 No

GO to item 9a.

b. What type of certificate do you hold in this **field**?

Mark (X) only one box.

- 116
- 1 Advanced professional certificate
 - 2 Regular or standard state certificate
 - 3 The certificate offered in your state to persons who HAVE COMPLETED what the state calls an "alternative certification program"
 - 4 Provisional or other type given to persons who are still participating in what the state calls an "alternative certification program"
 - 5 Probationary certificate (the initial certificate issued after satisfying all requirements except the completion of a probationary period)
 - 6 Temporary certificate (requires some additional college coursework and/or student teaching before regular certification can be obtained)
 - 7 Emergency certificate or waiver (issued to persons with insufficient teacher preparation who must complete a regular certification program in order to continue teaching)

c. In what year were you certified in your main teaching assignment field by this **state**?

117

1	9		
---	---	--	--

9a. Do you have a teaching certificate in this state in your OTHER teaching assignment field at this **school**?

- 118
- 0 Not applicable; I do not have a second teaching assignment field → **GO to item 10.**
 - 1 Yes
 - 2 No

GO to item 10.

b. What type of **certificate** do you hold in this **field**?

Mark (X) only one box.

- 119
- 1 Advanced professional certificate
 - 2 Regular or standard state certificate
 - 3 The certificate offered in your state to persons who HAVE COMPLETED what the state calls an "alternative certification program"
 - 4 Provisional or other type given to persons who are still participating in what the state calls an "alternative certification program"
 - 5 Probationary certificate (the initial certificate issued after satisfying all requirements except the completion of a probationary period)
 - 6 Temporary certificate (requires some additional college coursework and/or student teaching before regular certification can be obtained)
 - 7 Emergency certificate or waiver (issued to persons with insufficient teacher preparation who must complete a regular certification program in order to continue teaching)

c. In what year were you certified in this field by this **state**?

120

1	9		
---	---	--	--

SECTION I - MAIN ACTIVITY - CONTINUED

10. In what grade levels are the students in your classes at THIS school?

Mark (X) all that apply.

- 121 Ungraded
- 122 Prekindergarten
- 123 Kindergarten
- 124 1st
- 125 2nd
- 126 3rd
- 127 4th
- 128 5th
- 129 6th
- 130 7th
- 131 8th
- 132 9th
- 133 10th
- 134 11th
- 135 12th
- 136 Postsecondary

11. Which of the following best describes the community in which this school is located?

Mark (X) only one box.

- 137 1 A rural or farming community
- 2 A small city or town of fewer than 50,000 people that is not a suburb of a larger city
- 3 A medium-sized city (50,000 to 100,000 people)
- 4 A suburb of a medium-sized city
- 5 A large city (100,000 to 500,000 people)
- 6 A suburb of a large city
- 7 A very large city (over 500,000 people)
- 8 A suburb of a very large city
- 9 A military base or station
- 10 An Indian reservation

12. Are you currently teaching in the SAME school as you were last year when you completed the Schools and Staffing Survey?

138 1 Yes → GO to item 17.

2 No
↓

13. Are you currently teaching in the SAME state as you were last year when you completed the Schools and Staffing Survey?

139 1 Yes

2 No – In what state or country are you teaching now? ↗

140

--	--

Office use only

State or Country

SECTION I – MAIN ACTIVITY – CONTINUED

14. Which of the following best describes your move from last year’s school to this year’s **school**?

Mark (X) only one box.

- 1 Moved from one public school to another public school in the **SAME** school district
 - 2 Moved from one public school district to another public school district
 - 3 Moved from a private school to a public school
 - 4 Moved from one private school to another private school
 - 5 Moved from a public school to a private school
- GO to item 16.**

15. Is the private school in which you currently teach affiliated with the Roman Catholic Church or another religious **organization**, or is it **non-religious**?

Mark (X) only one box.

- 1 Religious – Roman Catholic
- 2 Religious – Non-Roman Catholic
- 3 Non-Religious

POSSIBLE REASONS FOR LEAVING PREVIOUS SCHOOL

(Use codes to answer items 16a, b, and c.)

- 01** Family or personal move
- 02** For better salary or benefits
- 03** For a better teaching assignment (subject area or grade level)
- 04** School staffing action (e.g., reduction-in-force, lay-off, school closing, school reorganization, reassignment)
- 05** Dissatisfied with the previous school

16a. What was your main reason for leaving the school in which you taught last year?

Enter code from above.

143

--	--

Code Main reason

b. Did you have a second reason for leaving?

- 1 Yes
- 2 No → **GO to item 16d.**

What was your second **reason**? Enter code, then continue with item 16c.

145

--	--

Code

c. Did you have a third reason for leaving?

- 1 Yes
- 2 No

What was your third **reason**? Enter code.

147

--	--

Code

SECTION I - MAIN ACTIVITY - CONTINUED

16d. Did you enter code **05** for one of your reasons in question **16a, b, or c?**

148

1 Yes
2 No

GO to item 17.

POSSIBLE AREAS OF DISSATISFACTION
(Use codes to answer items 16e, f, and g.)

- 01 Poor opportunity for professional advancement
- 02 Lack of recognition and support from administration
- 03 Lack of resources and materials/equipment for your classroom
- 04 Inadequate support from administration
- 05 Lack of influence over school policies and practices
- 06 Lack of control over own classroom
- 07 Intrusions on teaching time (i.e., not enough time working directly with teaching students)
- 08 Inadequate time to prepare lesson/teaching plans
- 09 Poor student motivation to learn
- 10 Class sizes too large
- 11 Student discipline problems
- 12 Poor salary

16e. What was your main area of dissatisfaction with teaching in your previous **school?**
Enter code from above.

149

--	--

Code

Main dissatisfaction _____

f. Did you have a second area of **dissatisfaction?**

150

1 Yes
2 No → **GO to item 17.**

151 **What** was your second **area?** *Enter code, then continue with item 16g.*

--	--

Code

g. Did you have a third area of **dissatisfaction?**

152

1 Yes
2 No

What was your third **area?** *Enter code.*

153

65

<input style="width: 50px; height: 20px;" type="text"/>	Years
---	-------

SECTION II – EDUCATION ACTIVITIES AND FUTURE PLANS – CONTINUED

28. What do you expect your MAIN activity will be during the NEXT SCHOOL YEAR (1995–96)?

Mark (X) only one box.

- 166
- 1 Teaching in this school
 - 2 Teaching in another school in this school system
 - 3 Teaching in another public school system
 - 4 Teaching in a private school
 - 5 Teaching in a preschool
 - 6 Teaching at the postsecondary level
 - 7 Working as a substitute teacher
 - 8 Student at a college or University
 - 9 Working in a nonteaching occupation in the field of education
 - 10 Working in an occupation outside the field of education
 - 11 Caring for family members
 - 12 Unemployed and seeking work
 - 13 Military service
 - 14 Retired

SECTION III – YOUR OPINIONS

POSSIBLE STEPS SCHOOLS MIGHT TAKE TO ENCOURAGE TEACHERS TO REMAIN IN TEACHING
(Use codes to answer items 29a, b, and c.)

- 01 Providing higher salaries and/or better fringe benefits
- 02 Improving opportunities for professional advancement
- 03 Dealing more effectively with student discipline and making schools safer
- 04 Giving teachers more authority in the school and in their own classrooms
- 05 Increasing standards for students' academic performance
- 06 Providing better resources and materials for classroom use
- 07 Decreasing class size
- 08 Giving special recognition and/or special assignments to excellent or outstanding teachers
- 09 Reducing the paperwork burden on teachers
- 10 Providing more support for new teachers (e.g., mentor teacher programs)
- 11 Increasing parent involvement in the schools
- 12 Reducing teacher workload
- 13 Providing merit pay or other pay incentives to teachers
- 14 Improving opportunities for professional development
- 15 Providing tuition reimbursement for coursework required for certification or career advancement
- 16 Revising health insurance program to include stress reduction seminars, counseling, and physical fitness options

29a. What would be the most effective step that schools might take to encourage teachers to remain in teaching?

Enter code from above.

SECTION III – YOUR OPINIONS – CONTINUED

30. How satisfied are you with EACH of the following aspects of teaching? Are you (a) Very satisfied, (b) Somewhat satisfied, (c) Somewhat dissatisfied, or (d) Very dissatisfied with –	Very satisfied	Somewhat satisfied	Somewhat dissatisfied	Very dissatisfied
	(a)	(b)	(c)	(d)
a. Salary	170 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
b. Opportunities for professional advancement	171 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
c. Opportunities for professional development	172 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
d. Recognition and support from administrators	173 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
e. Safety of school environment	174 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
f. Your influence over school policies and practices	175 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
g. Autonomy or control over your own classroom	176 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
h. Professional prestige	177 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
i. Benefits	178 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
j. Procedures for performance evaluation	179 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
k. Teaching load	180 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
l. Availability of resources and materials/equipment for your classroom	181 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
m. General work conditions	182 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
n. Job security	183 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
o. Professional caliber of colleagues	184 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
p. Intellectual challenge	185 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
q. Student motivation to learn	186 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
r. School learning environment	187 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
s. Student discipline and behavior	188 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
t. Class size	189 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
u. Support from parents	190 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
v. The esteem of society for the teaching profession	191 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
w. Overall job satisfaction	192 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>

SECTION IV – TEACHING METHODS

This section asks about the teaching strategies, instructional practices, and organizational techniques you use in teaching. The information you provide is intended to describe students' educational experiences and inform future national surveys of school processes.

Think of the class for which you had primary responsibility last semester or grading period when answering the following questions. If you were responsible for a single group of students all day (such as an elementary teacher might have been), think of them as the designated class. If you were responsible for multiple classes or groups of students (such as a content area or special education teacher might have been), select your first instructional class or group of the day (not homeroom). Think of this as the **"DESIGNATED" class**.

TEACHING ASSIGNMENT FIELD CODES FOR QUESTION 31

General	Foreign language	Special education
01 Prekindergarten	51 French	67 Special education, general
02 Kindergarten	52 German	68 Emotionally disturbed
03 General elementary	53 Latin	69 Mentally retarded
	54 Russian	70 Speech/Language impaired
Special areas	55 Spanish	71 Deaf and hard-of-hearing
86 American Indian/Native American studies	56 Other foreign language	72 Visually handicapped
10 Art	Science	73 Orthopedically impaired
12 Basic skills and remedial education	57 Biology/Life science	74 Mildly handicapped
13 Bilingual education	58 Chemistry	75 Severely handicapped
17 Computer science	59 Geology/Earth science/Space science	76 Specific learning disabilities
18 Dance	09 Physical science	77 Other special education
19 Drama/Theater	60 Physics	84 All others
21 English/Language arts	61 General and all other science	
23 English as a second language	Vocational-technical education	
26 Gifted	05 Accounting	
28 Home economics	06 Agriculture	
16 Journalism	14 Business, marketing	
33 Mathematics	27 Health occupations	
35 Military science	30 Industrial arts	
37 Music	49 Trade and industry	
39 Philosophy	50 Technical	
40 Physical education, health	83 Other vocational-technical education	
43 Reading		
44 Religion		
47 Social studies/social science (including history)		

31. What was the subject matter of your DESIGNATED CLASS last semester or grading **period**?

Record the two digit code from the list above and the field name.

SECTION IV – TEACHING METHODS – CONTINUED

32. In what grade levels are the students in your DESIGNATED CLASS?

Mark (X) all that apply.

- | | | | |
|-----|--|-----|--|
| 194 | <input type="checkbox"/> Ungraded | 202 | <input type="checkbox"/> 6th |
| 195 | <input type="checkbox"/> Prekindergarten | 203 | <input type="checkbox"/> 7th |
| 196 | <input type="checkbox"/> Kindergarten | 204 | <input type="checkbox"/> 8th |
| 197 | <input type="checkbox"/> 1st | 205 | <input type="checkbox"/> 9th |
| 198 | <input type="checkbox"/> 2nd | 206 | <input type="checkbox"/> 10th |
| 199 | <input type="checkbox"/> 3rd | 207 | <input type="checkbox"/> 11th |
| 200 | <input type="checkbox"/> 4th | 208 | <input type="checkbox"/> 12th |
| 201 | <input type="checkbox"/> 5th | 209 | <input type="checkbox"/> Postsecondary |

33. Which of the following describe your DESIGNATED CLASS?

Mark (X) all that apply.

- | | | | |
|-----|---|-----|--|
| 210 | <input type="checkbox"/> Heterogeneous | 216 | <input type="checkbox"/> Advanced placement/college credit |
| 211 | <input type="checkbox"/> Homogeneous | 217 | <input type="checkbox"/> Honors course |
| 212 | <input type="checkbox"/> Remedial | 218 | <input type="checkbox"/> Vocational |
| 213 | <input type="checkbox"/> Special education | 219 | <input type="checkbox"/> Bilingual |
| 214 | <input type="checkbox"/> Gifted | 220 | <input type="checkbox"/> None of the above |
| 215 | <input type="checkbox"/> Academic/college preparatory | | |

34. Write in your estimate of the percentage of students in your DESIGNATED CLASS who were at each level of academic ability for their age and **grade.** (Numbers should total **100.**)

- | | | |
|-----|--|---------|
| 221 | Much above the NATIONAL average | _____ % |
| 222 | Somewhat above the NATIONAL average | _____ % |
| 223 | At the NATIONAL average | _____ % |
| 224 | Somewhat below the NATIONAL average | _____ % |
| 225 | Much below the NATIONAL average | _____ % |
| 226 | <input type="checkbox"/> Not applicable | |

35. Write in your estimate of the percentage of students in your DESIGNATED CLASS who were at each level of academic ability for their age and **grade.** (Numbers should total **100.**)

- | | | |
|-----|--|---------|
| 227 | Much above the SCHOOL average | _____ % |
| 228 | Somewhat above the SCHOOL average | _____ % |
| 229 | At the SCHOOL average | _____ % |
| 230 | Somewhat below the SCHOOL average | _____ % |
| 231 | Much below the SCHOOL average | _____ % |
| 232 | <input type="checkbox"/> Not applicable | |

SECTION IV – TEACHING METHODS – CONTINUED

36. Over the past semester, how often did YOU use each of the following instructional strategies with your DESIGNATED CLASS? The strategy need not have taken the entire class period. <i>Mark (X) one response on each line.</i>	Almost every day (a)	Once or twice a week (b)	Once or twice a month (c)	Once or twice a semester (d)	Never (e)
a. Provide instruction to the class as a whole	233 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Facilitate a discussion	234 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Demonstrate a concept using the board or overhead projector	235 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. Work with individual students	236 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
e. Demonstrate a concept using a computer, videotape, or other electronic medium	237 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
f. Lecture	238 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
g. Work with small groups of students	239 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
h. Lead question-and-answer session	240 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
i. Demonstrate a concept using manipulatives, models, other tools or objects	241 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
j. Administer a test or quiz for less than a full period	242 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
k. Administer a test or quiz for a full period	243 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
37. In your DESIGNATED CLASS over the last semester, how often did planned in-class activities require that STUDENTS: <i>Mark (X) one response on each line.</i>					
a. Respond orally to questions testing recall	244 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Use school- or student-owned calculators	245 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Lead whole group discussions	246 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. Listen to or observe teacher presentations	247 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
e. Use hands-on materials or objects	248 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
f. Complete a worksheet or workbook emphasizing routine practice	249 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
g. Use a textbook	250 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
h. Engage in discussion primarily with the teacher	251 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
i. Use school computers for writing	252 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
j. Use supplementary printed materials other than textbooks	253 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
k. Engage in discussion primarily with other students	254 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
l. Respond orally to open-ended questions	255 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
m. Work on a performing arts project	256 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

SECTION IV – TEACHING METHODS – CONTINUED

38. Indicate the frequency with which STUDENTS did the following in your DESIGNATED CLASS during the last semester. <i>Mark (X) one response on each line.</i>	Almost every day (a)	Once or twice a week (b)	Once or twice a month (c)	Once or twice a semester (d)	Never (e)
a. Explained how what they learned in class related to the real world	257 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Worked individually <i>on</i> projects or presentations	258 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Worked on projects that required at least one week to complete	259 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. _____	260 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
e. Worked on problems for which there were several appropriate answers	261 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
f. Worked on problems for which there were several appropriate methods of solution	262 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
g. Worked as part of a group on projects or presentations to earn individual grades	263 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
h. Evaluated the work of other students	264 I D	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
i. Worked as part of a group on projects or presentations to earn a group grade	265 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
j. Put events or things in order and explained why they were organized that way	266 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
k. Discussed with the whole class solutions developed in small groups	267 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
L Conferred with other students about their work	268 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
39. Over the last semester , how often did you emphasize the following with these students ? <i>Mark (X) one response on each line.</i>					
a. Generalizing from patterns or examples	269 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Analyzing and interpreting information	270 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Organizing, summarizing, or displaying information	271 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
40. During a class discussion in your DESIGNATED CLASS if a student gave an incorrect response how frequently did you do each of the following ? <i>Mark (X) one response on each line.</i>					
a. Call on other students to get their responses and then discuss what is correct	272 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Ask the student another question to help him or her get the correct response	273 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Call on another student likely to give the correct response	274 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. Provide the correct response yourself	275 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

SECTION IV – TEACHING METHODS – CONTINUED

<p>41. This following is a list of ACTIVITIES TO COMPLETE AT HOME or homework you might have assigned your students. Although the list is not exhaustive, most activities could be considered variations of those listed below. For each activity described below, indicate the frequency with which you assigned each over the last semester in your DESIGNATED CLASS.</p> <p><i>Mark "never" for activities you did not assign during the last semester.</i></p> <p><i>Mark (X) one response on each line.</i></p>	<p>Almost every day</p>	<p>Once or twice a week</p>	<p>Once or twice a month</p>	<p>Once or twice a semester</p>	<p>Never</p>
	(a)	(b)	(c)	(d)	(e)
<p>a. Write a journal entry</p>	276 I C I	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>b. Prepare a written report</p>	277 I D	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>c. Work on problems for which there is no obvious method of solution</p>	278 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>d. Read the textbook or other assigned reading</p>	279 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>e. Apply concepts or principles to different or unfamiliar situation</p>	280 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>f. Read supplementary material</p>	281 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>g. Complete routine exercises or problems from worksheet, workbook, or text</p>	282 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>h. Work on a project, gather data, conduct an experiment</p>	283 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>i. Prepare an oral report</p>	284 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>j. Complete a short writing assignment</p>	285 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>42. When students in your DESIGNATED CLASS were assigned written homework or activities to complete at home, how often did YOU do each of the following?</p> <p><i>Mark "never" for activities you did not assign during the last semester.</i></p> <p><i>Mark (X) one response on each line.</i></p>	<p>Always</p>	<p>Often</p>	<p>Sometimes</p>	<p>Rarely</p>	<p>Never</p>
	(a)	(b)	(c)	(d)	(e)
<p>a. Record only whether assignment was completed</p>	286 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>b. Collect, correct, and keep assignments</p>	287 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>c. Keep items in a student portfolio</p>	288 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>d. Collect, correct, and return assignment to students</p>	289 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>e. Have students exchange assignments and correct them in class</p>	290 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>f. Have students correct their own assignments in class</p>	291 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>g. Use assignment as a basis for class discussion</p>	292 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>h. Use assignment as a basis for grading students</p>	293 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
<p>i. Use assignment as a basis for lesson planning</p>	294 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

SECTION IV – TEACHING METHODS – CONTINUED

43. Estimate the amount of **time**, in **minutes**, an average student in your class spent doing homework or activities you assigned students in your DESIGNATED CLASS to complete at home during an average **WEEK**.

Mark (X) only one box.

- 295
- 1 0 minutes
 - 2 1–30 minutes
 - 3 31–60 minutes
 - 4 61–90 minutes
 - 5 91–120 minutes
 - 6 121–150 minutes
 - 7 151–180 minutes
 - 8 181–210 minutes
 - 9 211–240 minutes

44. How often do you use assessment information for the following purposes in your DESIGNATED CLASS?

Mark (X) one response on each line.

	Always (a)	Often (b)	Some- times (c)	Rarely (d)	Never (e)
a. Determining student grades or other formal progress reports	296 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Providing feedback to students	297 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Diagnosing student learning problems	298 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. Reporting to parents	299 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
e. Assigning students to different programs or tracks	300 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
f. Planning for future lessons	301 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

NOTES

SECTION IV – TEACHING METHODS – CONTINUED

45. In determining student grades or other formal progress reports for students in your DESIGNATED CLASS , indicate the importance you gave to each of the following. <i>Mark (X) one response on each line.</i>	Extremely important	Very important	Somewhat important	Not important
	(a)	(b)	(c)	(d)
a. Effort	302 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
b. Individual improvement or progress over past performance	303 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
c. Absolute level of achievement	304 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
d. Achievement relative to the rest of the class	305 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
e. Class participation	306 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
f. Regular completion of homework assignments	307 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
g. Consistent attendance	308 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
h. Results of standardized tests produced outside the school	309 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
i. Results of tests with open-ended items	310 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
j. Results of tests with multiple choice or true-false items made by you or other teachers	311 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
k. Performance on projects or practical exercises	312 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
l. Your own observations of students	313 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
m. Items collected in student portfolios	314 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>

The following questions ask about your classroom use of student **PORTFOLIOS**. Portfolios are a collection of student-generated artifacts that provide evidence over the semester or year about the range and extent of individual student performance and growth. Please answer the following questions about portfolio use last semester or grading period with your DESIGNATED **CLASS**.

46. In what content areas were PORTFOLIOS used with your DESIGNATED **CLASS**?

If portfolios were not used with your designated class, mark "None".

Mark (X) all that apply.

- 315 English/language arts
- 316 2 Math
- 317 3 Reading
- 318 4 Social studies
- 319 5 Science
- 320 6 Art
- 321 7 Music
- 322 8 Home economics
- 323 9 Foreign language
- 324 10 Other
- 325 0 None – GO to item 51

SECTION IV - TEACHING METHODS - CONTINUED

47. What types of student work were included in **portfolios**?

Mark (X) all that apply.

- 326 1 Worksheets
- 327 2 Open-ended problems
- 328 3 Exploratory investigations
- 329 4 Long-term projects
- 330 5 Inter-disciplinary problems
- 331 6 Journal entries
- 332 7 Regularly assigned homework
- 333 8 Self-reflective writing
- 334 9 Narrative writing
- 335 10 Audio or video examples
- 336 11 Group work
- 337 12 Independent work
- 338 13 Tests and assessments

48. How were decisions made about the types of items that went into a student's **portfolio**? Selecting from those options listed **below**, indicate the source of directives and suggestions that guided the selection process for portfolios in your DESIGNATED **CLASS**. Directives are mandated and suggestions are **not**.

Mark (X) all that apply.

Mark as "NA" those that do not apply.

	Directive	Suggestion	N/A
a. School administration	339 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
b. School committee or task force	340 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
c. District staff	341 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
d. District committee or task force	342 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
e. State administration	343 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
f. State committee or task force	344 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
g. Classroom teacher	345 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
h. Students	346 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
i. Other	347 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>

NOTES

SECTION IV – TEACHING METHODS – CONTINUED

49. How often did **you** use student **portfolios** in **your** DESIGNATED CLASS last semester or grading period for the **following purposes?**

Mark (X) one response on each line.

	Almost every day (a)	Once or twice a week (b)	Once or twice a month (c)	Once or twice a semester (d)	Never (e)
a. Training students to reflect upon and/or assess each piece of work	348 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
b. Training students to reflect upon and/or assess their overall progress	349 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
c. Communicating student progress to parents	350 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
d. Determining student grades or other formal progress reports	351 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
e. Planning for future lessons	352 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
f. Diagnosing student learning problems	353 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
g. Making informed decisions about student placement	354 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
h. Making informed decisions about student graduation	355 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>
i. Providing information for program or school accountability	356 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>	5 <input type="checkbox"/>

50. Listed below are statements about **portfolio** use in the **classroom**. For **your** DESIGNATED CLASS last semester or grading **period**, please indicate whether you **strongly agree**, somewhat **agree**, somewhat **disagree**, or strongly disagree with each **statement**.

Mark (X) one response on each line.

	Strongly agree (a)	Somewhat agree (b)	Somewhat disagree (c)	Strongly disagree (d)
a. Criteria about types of work to be included or excluded in the portfolio were explicitly defined and were known by students	357 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
b. Criteria and process for evaluating work in the portfolio were explicitly defined and were known by students	358 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
c. Process to encourage students to reflect upon and revise work included in portfolio was explicitly defined and was known by students	359 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
d. Process to encourage student and teacher to work collaboratively on portfolios was explicitly defined and was known by students	360 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
e. Process to identify the amount and type of support student receives in completing each piece was explicitly defined and was known by students	361 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>

SECTION V – INCENTIVES AND COMPENSATION

51. The following questions refer to your before-tax earnings from teaching and other employment from the summer of **1994** through the end of the **1994-95** school year.

Record earnings in whole dollars.

a. DURING THE SUMMER OF **1994**, did you have any earnings from –

(1) Teaching summer school in this or any other **school**?

362 1 Yes – How much? → 363 \$ _____ .00
 2 No

(2) Working in a **nonteaching** job in this or any other **school**?

364 1 Yes – How much? → 365 \$ _____ .00
 2 No

(3) Working in any **NONSCHOOL** job?

366 1 Yes – How much? → 367 \$ _____ .00
 2 No

b. DURING THE CURRENT SCHOOL YEAR –

(1) What is your academic year base **salary** for teaching in this **school**?

368 \$ _____ .00 per year

(2) Do **you, or will you**, earn any additional compensation from your school for extracurricular or additional activities such as **coaching**, student activity **sponsorship**, or evening **classes**?

369 1 Yes – How much? → 370 \$ _____ .00
 2 No

(3) Do **you, or will you**, earn additional compensation from working in any job outside this school **system**?

371 1 Yes – How much? → 372 \$ _____ .00
 2 No

GO to item 51b(4).

Which of these best describes this job outside the school **system**? Mark (X) *only one* box.

373 1 Teaching or tutoring
 2 Nonteaching, but education related
 3 Not related to education

(4) Have you **EARNED** income from any other sources this **year, e.g.,** a **bonus**, state **supplement, etc.**?

374 1 Yes – How much? → 375 \$ _____ .00
 2 No

c. What will be your total **EARNED** income from all sources from the summer of **1994** through the end of this school **year**? Your answer should equal the sum of your answers to questions **51a(1)–b(4)**.

376 \$ _____ .00

SECTION VI - BACKGROUND INFORMATION

52. Do you receive any income-in-kind in addition to or in lieu of your school salary?

Mark (X) all that apply.

- 377 1 Housing or housing expenses
- 378 2 Meals
- 379 3 Tuition for your children
- 380 4 Child care
- 381 5 College tuition for yourself
- 382 6 Car/transportation expenses
- 383 0 None of the above

53. Which category represents the total combined income (include your own income) of ALL FAMILY MEMBERS age 14 and older in your household during 1994? Include money from jobs, net business or farm income, pensions, dividends, interest, rent, Social Security payments, and any other income received by family members in your household.

Mark (X) only one box.

- | | | | |
|-----|---|--|---|
| 384 | <input type="checkbox"/> 1 Less than \$10,000 | <input type="checkbox"/> 5 \$25,000-\$29,999 | <input type="checkbox"/> 9 \$50,000-\$59,999 |
| | <input type="checkbox"/> 2 \$10,000-\$14,999 | <input type="checkbox"/> 6 \$30,000-\$34,999 | <input type="checkbox"/> 10 \$60,000-\$74,999 |
| | <input type="checkbox"/> 3 \$15,000-\$19,999 | <input type="checkbox"/> 7 \$35,000-\$39,999 | <input type="checkbox"/> 11 \$75,000-\$99,999 |
| | <input type="checkbox"/> 4 \$20,000-\$24,999 | <input type="checkbox"/> 8 \$40,000-\$49,999 | <input type="checkbox"/> 12 \$100,000 or more |

54. What is your current marital status?

- 385 1 Married
- 2 Widowed, divorced, or separated
- 3 Never married

55. How many children do you have who are dependent on you (and your spouse) for more than half of their financial support?

0 None → **GO to item 57a.**

386

OR

Children supported

56. What was the age of your youngest child on his/her last birthday? (If child is less than one year, please enter "0.")

387

Age of youngest child

57a. Do you have persons other than your spouse or children who are dependent on you for more than half of their financial support?

- 388 1 Yes
 - 2 No
- ↓ **GO to item 58.**

b. How many persons other than your spouse or children are dependent on you for more than half of their financial support?

389

Number of persons supported

SECTION VII - RESPONDENT INFORMATION

The survey you have completed may involve a brief follow-up at a later time in order to gain information on current teachers' movements in the labor force. The following information would assist us in contacting you if you move or change jobs.

58. Please PRINT your **name**, your spouse's name (**if applicable**), your home **address**, telephone **number**, and the most convenient time to reach **you**.

⁹⁰ Same as address label

⁹¹ Your name			Telephone number - <i>Include area code</i> ()
Spouse's full name			Days/times convenient to reach you
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> <input type="checkbox"/> No phone 2 <input type="checkbox"/> My name 3 <input type="checkbox"/> Other - <i>Specify</i> <u> z </u>
City	State	ZIP Code	

59. What are the names and addresses of two other people who will know **where to** get in touch with you during the coming **years**? List no more than one person who now lives with **you**. Remember to record the relationship of these persons to you (**for example, parent, friend, sister, cousin, etc.**).

⁹² Name			Telephone number - <i>Include area code</i> ()
Relationship to you			
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> 1 <input type="checkbox"/> No phone 2 <input type="checkbox"/> Name entered above 3 <input type="checkbox"/> Other - <i>Specify</i> <u> z </u>
City	State	ZIP Code	

⁹³ Name			Telephone number - <i>Include area code</i> ()
Relationship to you			
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> 1 <input type="checkbox"/> No phone 2 <input type="checkbox"/> Name entered above 3 <input type="checkbox"/> Other - <i>Specify</i> <u> z </u>
City	State	ZIP Code	

60. Not counting **interruptions**, how long did it take to complete this **survey**?

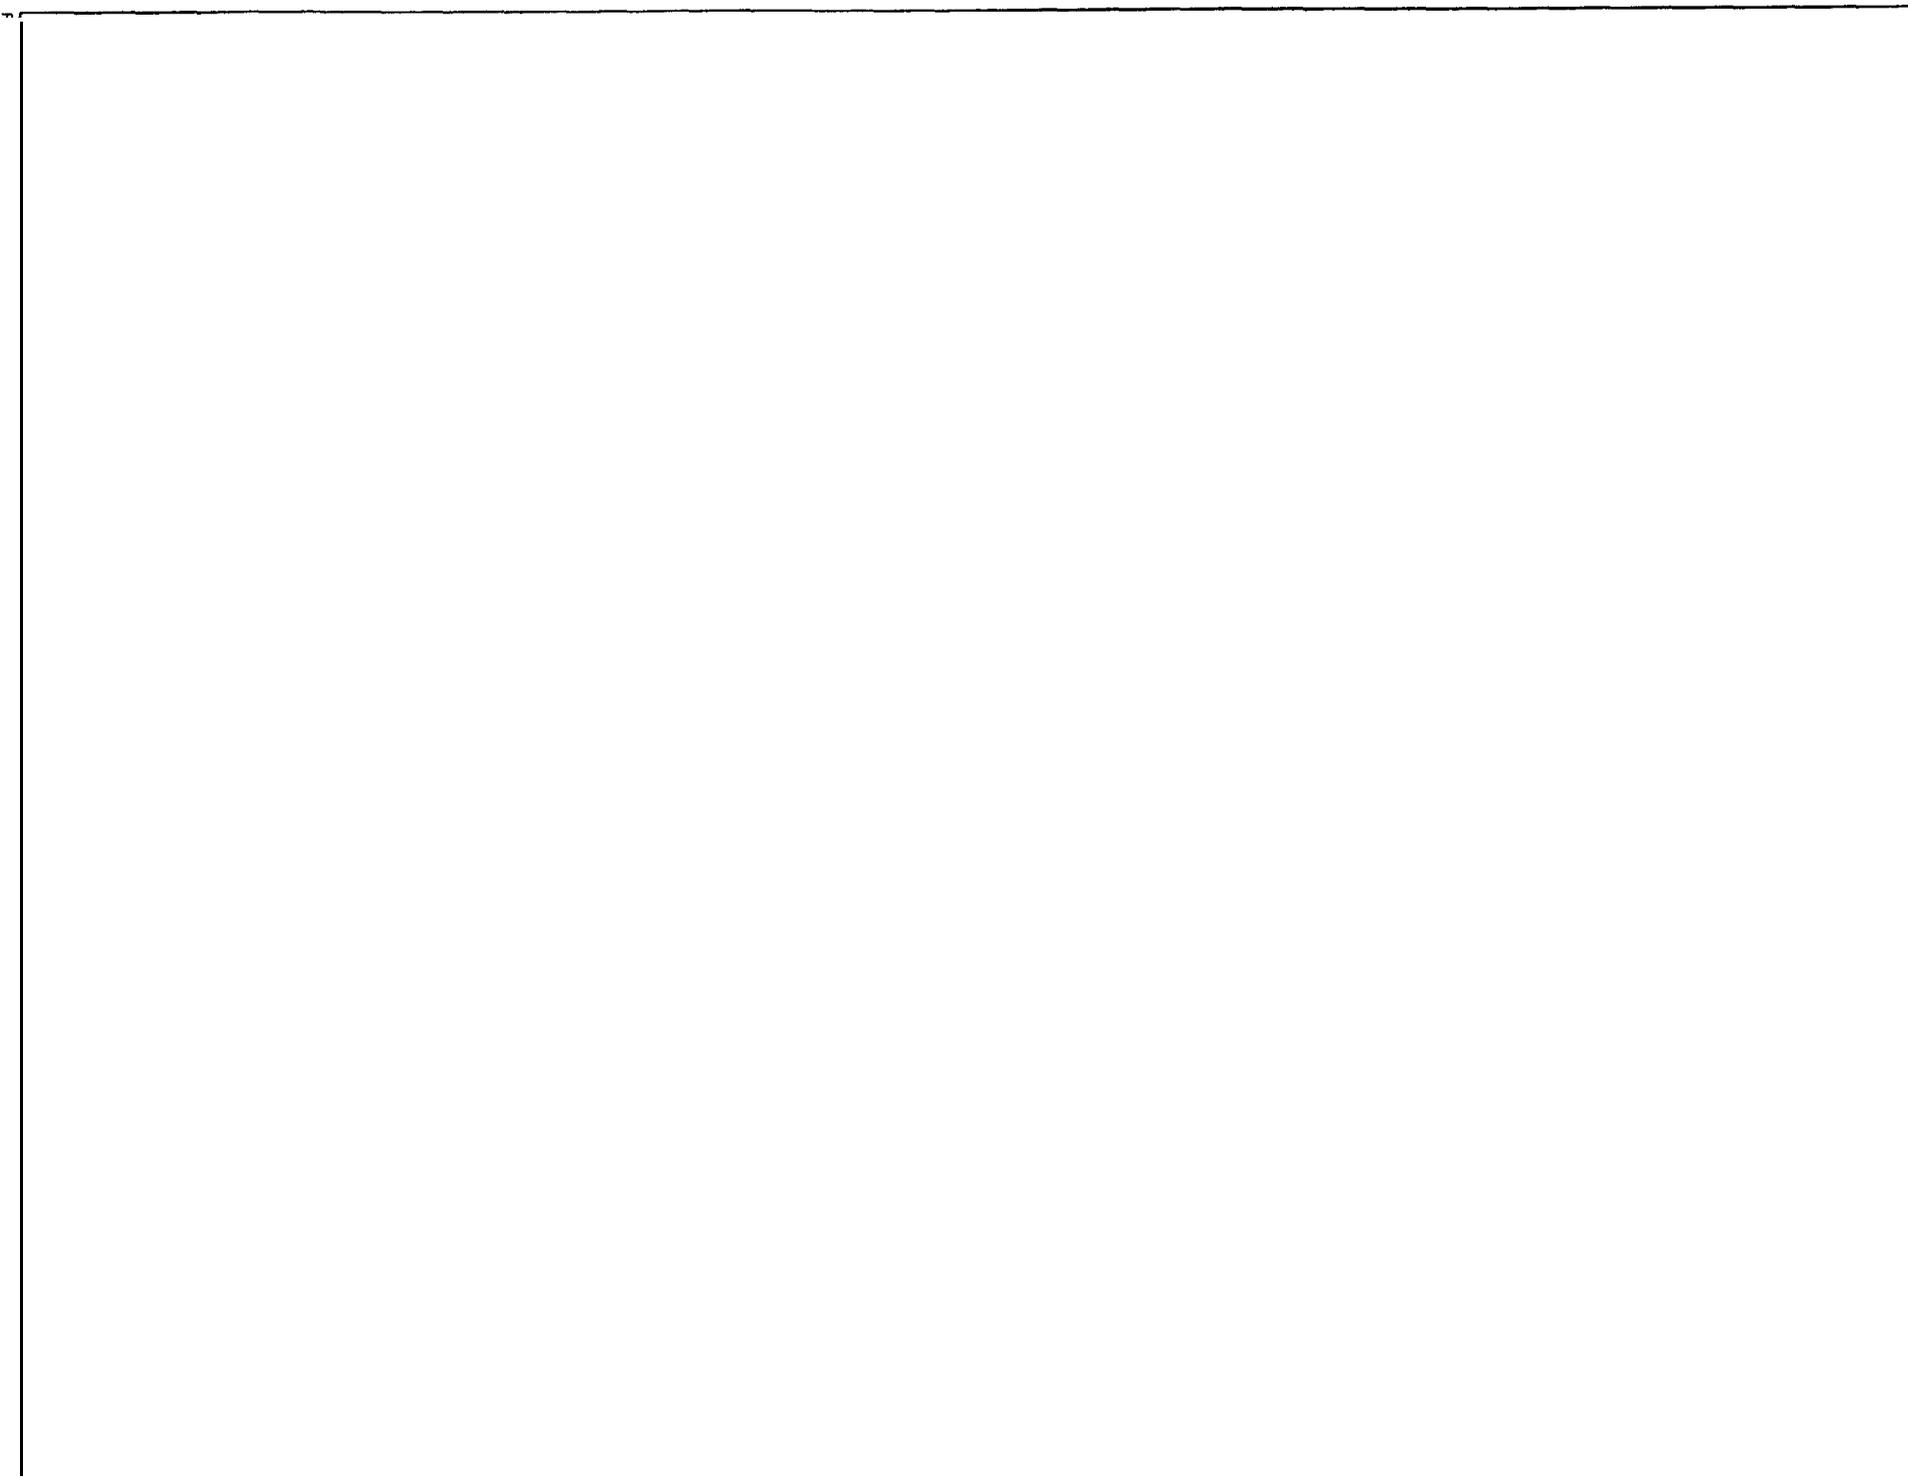

⁹⁴ _____ Minutes

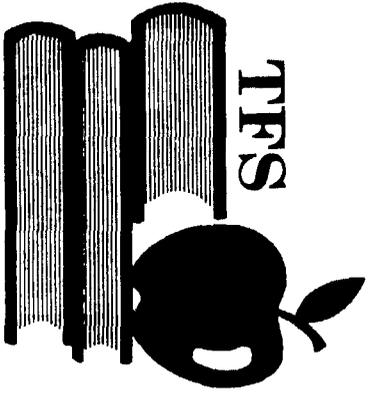

THIS COMPLETES THE QUESTIONNAIRE.
THANK YOU FOR ASSISTING US IN THIS IMPORTANT RESEARCH.
YOUR TIME AND EFFORT ARE APPRECIATED.

THANK YOU FOR ASSISTING US IN **THIS** IMPORTANT **SURVEY**.
YOUR TIME AND EFFORT ARE **APPRECIATED**.

PLEASE RETURN THE QUESTIONNAIRE IN THE ENCLOSED ENVELOPE **TO:**

Bureau of the Census
Current Projects Branch
1201 East 10th Street
Jeffersonville, IN 47132-0001

*(Please correct any **error** in name, address, and ZIP Code.)*

Appendix C

Teacher Followup Survey-Questionnaire for Former Teachers

NOTICE - This report is authorized by law (20 U.S. Code 1221 e). Your answers will be kept strictly confidential. Results from this survey will appear in summary or statistical form only, so that individuals cannot be identified.

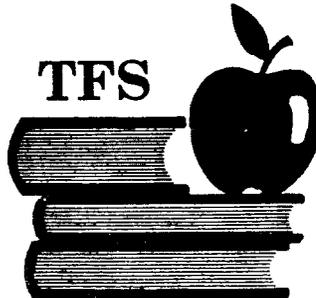

FORM **TFS-2**
1-18-94

U.S. Department of Education
National Center for Education Statistics

TEACHER FOLLOW-UP SURVEY
QUESTIONNAIRE **FOR** FORMER TEACHERS
1994-1995

Conducted by:

U.S. Department of Commerce
Bureau of the Census

THIS SURVEY HAS BEEN ENDORSED **BY:**

American Association for Counseling and Development
American Association of School Administrators
American Federation of Teachers
Bureau of Indian Affairs
Council for American Private Education
Council of Chief State School Officers
National Association of Elementary School Principals
National Association of Independent Schools
National Association of Secondary School Principals
National Catholic Educational Association

INSTRUCTIONS

Most of the items on this questionnaire are arranged so that the answer categories or spaces for written answers are under the questions. Please answer the questions by marking the appropriate answer category with an X, or recording your answer in the space provided. We suggest that you use a pencil, rather than a pen or marker.

Notice that at the end of some answer categories and answer spaces, there are instructions to go to later questions or to continue with the next question on the questionnaire.

If you are unsure about how to answer a question, please give the best answer you can and make a comment in the "Notes" space. Please include the item number.

If you have any questions, call the Bureau of the Census, toll free, at 1-800-221-1204.

Return your completed questionnaire to the Bureau of the Census in the enclosed preaddressed envelope. Please return it within two weeks.

Please keep count of the time you spend completing this **questionnaire**.
At the end of the **survey**, You are asked to record the amount of time **spent**.

Are you currently teaching - **full-time, part-time**, or as a **long-term** substitute - in grades K through **12**?

- 103
- 1 Yes  **RETURN THIS FORM to the Bureau of the Census in the enclosed envelope. You will be sent another form for teachers who are still teaching.**
- 2 No  **PLEASE CONTINUE with this survey.**

SECTION I - EMPLOYMENT STATUS

1. What is your MAIN OCCUPATIONAL status?

Mark (X) only one box.

- 104
- 1 Working in an elementary or secondary school with an assignment OTHER THAN teaching
- 2 Working in an occupation outside of elementary or secondary education → **GO to item 3.**
- 3 Student at a college or university
- 4 Caring for family members
- 5 Retired
- 6 Disabled
- 7 Other - Specify *z*
-

GO to item 8.

2. What is your MAIN school assignment?

Mark (X) only one box.

- 105
- 1 Administrator (e. g., principal, assistant principal, director, head)
- 2 Nonteaching specialist (e.g., counselor, librarian)
- 3 Resource person for other teachers (e.g., department head, resource teacher, curriculum coordinator, mentor teacher)
- 4 Support staff (e. g., secretary, aide)
- 5 Coach
- 6 Other - Specify *z*
-

GO to item 4.

SECTION I – EMPLOYMENT STATUS – CONTINUED

NOTE: Answer questions 3a–e ONLY if you marked box 2 in answer to question 1 on page 2.

3a. For whom do you **work**? Record the name of the company, business, or organization. \checkmark

b. What kind of business or **industry** is **this**? For example, retail shoe store, State Labor Department, bicycle manufacturer, farm. \checkmark

--	--	--

106

Office use only

c. What kind of work do you **do**? Please record your job title; for example, electrical engineer, cashier, typist, farmer, loan officer. \checkmark

H	
---	--

107

Office use only

d. What are your **most important** activities or duties at this **job**? For example, typing, selling cars, driving delivery truck, caring for livestock. \checkmark

e. How would you classify yourself on this **job**?

Mark (X) only one box.

- 1 An employee of a PRIVATE company, business, or individual for wages, salary, or commission
- 2 A FEDERAL government employee
- 3 A STATE government employee
- 4 A LOCAL government employee
- 5 SELF-EMPLOYED in your own business, professional practice, or farm
- 6 Working WITHOUT PAY in a family business or farm
- 7 Working WITHOUT PAY in a volunteer job

108

4. Which of these best describes your position as an **EMPLOYEE**?

Mark (X) only one box.

- 1 Full time employee
- 2 3/4 time or more, but less than full-time employee
- 3 1/2 time or more, but less than 3/4 time employee
- 4 1/4 time or more, but less than 1/2 time employee
- 5 Less than 1/4 time employee

109

5. **Altogether**, how much do you usually earn at this job before **taxes**?

\$ _____ Dollars ▪ _____ Cents per _____

110

- 1 Hour
- 2 Day
- 3 Week
- 4 Biweekly
- 5 Month
- 6 Year
- 7 Other –Specify \checkmark

111

SECTION I - EMPLOYMENT STATUS - CONTINUED

6. How long do you plan to remain in this job?

Mark (X) only one box.

- 112
- 1 As long as I am able
 - 2 Until I am eligible for retirement
 - 3 Will probably continue unless something better comes along
 - 4 Definitely plan to leave as soon as I can
 - 5 Undecided at this time

7. In how many years do you plan to retire?

113 Years

8. What do you expect your MAIN activity will be NEXT SCHOOL YEAR (1995-96)?

Mark (X) only one box.

- 114
- 1 Teaching any of grades K-12
 - 2 Teaching at the prekindergarten or postsecondary level
 - 3 Student at a college or university
 - 4 Working in a nonteaching occupation in the field of education
 - 5 Working in an occupation outside the field of education
 - 6 Caring for family members
 - 7 Unemployed and seeking work
 - 8 Military service
 - 9 Retired
 - 10 Other - Specify

SECTION II - EDUCATIONAL ACTIVITIES AND FUTURE PLANS

9. Have you earned any new degrees in the past 12 months?

- 115
- 1 Yes
 - 2 No

GO to Item 14.

10. When did you earn this degree?

116 017 1 9

Month Year

11. What type of degree is it?

Mark (X) only one box.

- 118
- 1 Associate degree
 - 2 Bachelor's
 - 3 Master's
 - 4 Education specialist or professional diploma (at least one year beyond Master's level)
 - 5 Doctorate (e.g., Ph. D., Ed. D.)
 - 6 Professional (e.g., M. D., D. D. S., J. D., L. L. B.)

SECTION II – EDUCATIONAL ACTIVITIES AND FUTURE PLANS – CONTINUED

20. At which level would you **teach**?

Mark (X) all that apply.

- 127 In Prekindergarten
- 128 2 Elementary (including kindergarten)
- 129 3 Junior high/middle school
- 130 4 Senior high
- 131 5 Postsecondary

21. Has there been a change in your teacher certification status since last **year**?

Mark (X) all that apply.

- 132 1 No change
- 133 2 Yes, certification has lapsed
- 134 3 Yes, certification has been upgraded from temporary or emergency to a regular certificate
- 135 4 Yes, certified in a different field
- 136 5 Other change – *Specify*

22. Do you plan to maintain or reinstate your teaching **certificate**?

- 137 1 Yes
- 2 No
- 3 Undecided

NOTES

SECTION III - YOUR OPINIONS

POSSIBLE REASONS FOR LEAVING THE TEACHING PROFESSION

(Use codes to answer items 23a, b, and c.)

- 01 Family or personal move
- 02 Pregnancy/child rearing
- 03 Health
- 04 To retire
- 05 To pursue another career
- 06 For better salary or benefits
- 07 To take courses to improve career opportunities in the field of education
- 08 To take courses to improve career opportunities outside the field of education
- 09 School staffing action (e.g., reduction-in-force, lay-off, school closing, school reorganization, reassignment)
- 10 To take a sabbatical or other break from teaching
- 11 Dissatisfied with teaching as a career
- 12 Other family or personal reason

23a. What was your main reason for leaving the teaching profession?

Enter code from above.

339

Code

Main reason

b. Did you have a second reason for leaving?

340

1 Yes
2 No

GO to item 23c

What was your second reason? Enter code, then continue with item 23c.

341

Code

c. Did you have a third reason for leaving?

342

1 Yes
2 No

GO to item 23d

What was your third reason? Enter code.

343

Code

d. Did you enter code 11 for one of your reasons in question 23a, b, or c?

344

1 Yes
2 No

GO to item 24a.

Continue with item 23a, page 9

SECTION III – YOUR OPINIONS – CONTINUED

POSSIBLE AREAS OF DISSATISFACTION

(Use codes to answer items 23e, f, and g.)

- 01** Poor opportunity for professional advancement
- 02** Lack of recognition and support from administration
- 03** Lack of resources and material/equipment for your classroom.
- 04** Inadequate support from administration
- 05** Lack of influence over school policies and practices
- 06** Lack of control over own classroom
- 07** Intrusions on teaching time (i.e., not enough time working directly with teaching students)
- 08** inadequate time to prepare lesson/teaching plans
- 09** Poor student motivation to learn
- 10** Class sizes too large
- 11** Student discipline problems
- 12** Poor salary

23e. What was your main area of dissatisfaction with the teaching profession?

Enter code from above.

345

--	--

Code

Main dissatisfaction

f. Did you have a second area of dissatisfaction?

346 1 Yes
2 No → **GO to item 24a**

What was your second **area**? *Enter code, then continue with item 23g.*

347

--	--

Code

g. Did you have a third area of dissatisfaction?

348 1 Yes
2 No → **GO to item 24a**

What was your third **area**? *Enter code.*

Code

SECTION III – YOUR OPINIONS – CONTINUED

POSSIBLE STEPS SCHOOLS MIGHT TAKE TO ENCOURAGE
TEACHERS TO REMAIN IN TEACHING

(Use codes to answer items 24a, b, and c.)

- 01 Providing higher salaries and/or better fringe benefits
- 02 Improving opportunities for professional advancement
- 03 Dealing more effectively with student discipline and making schools safer
- 04 Giving teachers more authority in the school and in their own classrooms
- 05 Increasing standards for students' academic performance
- 06 Providing better resources and materials for classroom use
- 07 Decreasing class size
- 08 Giving special recognition and/or special assignments to excellent or outstanding teachers
- 09 Reducing the paperwork burden on teachers
- 10 Providing more support for new teachers (e.g., mentor teacher programs)
- 11 Increasing parent involvement in the schools
- 12 Reducing teacher workload
- 13 Providing merit pay or other pay incentives to teachers
- 14 improving opportunities for professional development
- 15 Providing tuition reimbursement for coursework required for certification or career advancement
- 16 Revising health insurance program to include stress reduction seminars, counseling, and physical fitness options

24a. What would be the most effective step that schools might take to encourage teachers to remain in **teaching**?

Enter code from above.

50

--	--

 Most effective step
Code

b. What would be the second most effective **step**?

Enter code from above.

151

--	--

 Second step
Code

c. What would be the third most effective **step**?

Enter code from above.

 Third step
Code

SECTION III – YOUR OPINIONS – CONTINUED

25. Is your MAIN occupational status "working" (i.e., box 1 or 2 marked in question 1)?

153

1 Yes

2 No

Go to Item 28.

26. How would you rate teaching relative to your current MAIN occupation in terms of EACH of the following aspects? Please indicate (a) Better in teaching, (b) Better in current position, or (c) No difference.

	Better in teaching (a)	Better in current position (b)	No difference (c)
a. Salary	054 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
b. Opportunities for professional advancement	055 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
c. Opportunities for professional development	056 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
d. Opportunities for learning from colleagues	057 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
e. Recognition and support from administrators/managers	058 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
f. Safety of environment	059 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
g. Influence over workplace policies and practices	060 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
h. Autonomy or control over your own work	061 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
i. Professional prestige	062 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
j. Benefits	063 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
k. Procedures for performance evaluation	064 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
l. Manageability of workload	065 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
m. Availability of resources and materials/equipment for doing job	066 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
n. General work conditions	067 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
o. Job security	068 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
p. Professional caliber of colleagues	069 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
q. Intellectual challenge	070 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>
r. Overall job satisfaction	071 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>

SECTION III – YOUR OPINIONS – CONTINUED

27. How satisfied are you with EACH of the following aspects of your CURRENT job ? Are you (a) Very satisfied, (b) Somewhat satisfied, (c) Somewhat dissatisfied, or (d) Very dissatisfied with –	Very satisfied	Somewhat satisfied	Somewhat dissatisfied	Very dissatisfied
	(a)	(b)	(c)	(d)
a. Salary	072 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
b. Opportunities for professional advancement	073 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
c. Recognition and support from administrators/managers	074 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
d. Safety of environment	075 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
e. Your influence over workplace policies and practices	076 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
f. Autonomy or control over your own work	077 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
g. Professional prestige	078 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
h. Benefits	079 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
i. Procedures for performance evaluation	080 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
j. Manageability of work	081 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
k. Availability of resources and materials for doing job	082 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
l. General work conditions	083 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
m. Job security	084 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
n. Professional caliber of colleagues	085 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
o. Intellectual challenge	086 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>
p. Overall job satisfaction	087 1 <input type="checkbox"/>	2 <input type="checkbox"/>	3 <input type="checkbox"/>	4 <input type="checkbox"/>

NOTES

SECTION IV - BACKGROUND INFORMATION

28. Which category represents the total combined income (include your own income) of AU FAMILY MEMBERS age 14 and older in your household during 1994? Include money from jobs, net business or farm income, pensions, dividends, interest, rent, Social Security payments, and any other income received by family members in your household.

Mark (X) only one box.

- 1 Less than \$10,000
- 2 \$10,000 - \$14,999
- 3 \$15,000 - \$19,999
- 4 \$20,000 - \$24,999
- 5 \$25,000 - \$29,999
- 6 \$30,000 - \$34,999
- 7 \$35,000 - \$39,999
- 8 \$40,000 - \$49,999
- 9 \$50,000 - \$59,999
- 10 \$60,000 - \$74,999
- 11 \$75,000 - \$99,999
- 12 \$100,000 or more

29. What is your current marital status?

- 1 Married
- 2 Widowed, divorced, or separated
- 3 Never married

30. How many children do you have who are dependent on you (and your spouse) for more than half of their financial support?

- 0 None → 
- OR
- Children supported

31. What was the age of your youngest child on his/her last birthday? If child is less than one year, please enter "0."

Age of youngest child

32a. Do you have persons other than your spouse or children who are dependent on you for more than half of their financial support?

- 1 Yes
 - 2 No
- ↓
- 

b. How many persons other than your spouse or children are dependent on you for more than half of their financial support?

Number of persons supported

SECTION V – RESPONDENT INFORMATION

The survey you have completed may involve a brief follow-up at a later time in order to gain information on former teachers' movements in the labor force. The following information would assist us in contacting you if you move or change jobs.

33. Please PRINT your **name**, your spouse's name (if applicable), your home **address**, telephone **number**, and the most convenient time to reach **you**.

095

Same as address label

096 Your name			Telephone number – <i>Include area code</i> ()
Spouse's full name			Days/times convenient to reach you
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> 1 <input type="checkbox"/> No phone 2 <input type="checkbox"/> My name 3 <input type="checkbox"/> Other – <i>Specify</i> _____
City	State	ZIP Code	

34. What are the names and addresses of two other people who will know **where to** get in touch with you during the coming **years**? List no more than one person who now **lives** with **you**. Remember to record the relationship of these persons to you (**for example, parent, friend, sister, cousin, etc.**).

097 Name			Telephone number – <i>Include area code</i> ()
Relationship to you			
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> 1 <input type="checkbox"/> No phone 2 <input type="checkbox"/> Name entered above 3 <input type="checkbox"/> Other – <i>Specify</i> _____
City	State	ZIP Code	

098 Name			Telephone number – <i>Include area code</i> ()
Relationship to you			
Street address _____			In whose name is the telephone number listed? <i>Mark (X) only one.</i> 1 <input type="checkbox"/> No phone 2 <input type="checkbox"/> Name entered above 3 <input type="checkbox"/> Other – <i>Specify</i> _____
City	State	ZIP Code	

35. Not counting **interruptions**, how long did it take to complete this **survey**?

099

_____ Minutes

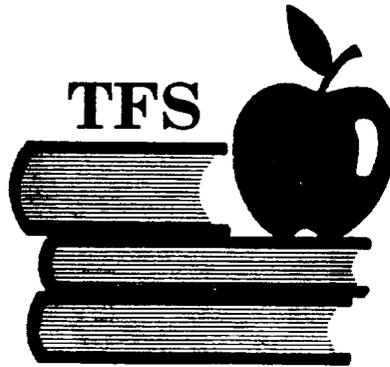

THIS COMPLETES THE **QUESTIONNAIRE**.
THANK **YOU** FOR ASSISTING US IN THIS IMPORTANT **RESEARCH**.
YOUR TIME AND EFFORT ARE **APPRECIATED**.

THANK YOU FOR ASSISTING US IN THIS IMPORTANT **SURVEY**.
YOUR TIME AND EFFORT ARE **APPRECIATED**.

PLEASE RETURN THE QUESTIONNAIRE IN THE ENCLOSED ENVELOPE **TO:**

Bureau of the Census
Current Projects Branch
1201 East 10th Street
Jeffersonville, IN 47132-0001

(Please correct any error in name, address, and ZIP Code.)

Appendix D

SASS and TFS Data Products

**SCHOOLS AND STAFFING SURVEY (SASS) AND TEACHER FOLLOWUP SURVEY (TFS)
DATA PRODUCTS**

The following SASS data products may be obtained free of charge while supplies last from:

U.S. Department of Education
National Center for Education Statistics
SASS Data Products
555 New Jersey Avenue, NW, Room 422
Washington, DC 20208-5651

Reports

- The Effects of Professionalization on Teachers: A Multi-Level Analysis, 1990–91 (NCES 97–069)
- The State of Teaching as a Profession, 1990–91 (NCES 97–104)
- Time Spent Teaching Core Academic Subjects in Elementary Schools: Comparisons Across Community School, Teacher, and Student Characteristics (NCES 97–293)
- Student Records Questionnaire: School Year 1993–94, With Special Emphasis on American Indians and Alaska Native Students (E.D. Tab, NCES 97–449)
- Characteristics of Stayers, Movers, and Leavers: Results from the Teacher Followup Survey, 1994–95 (E.D. Tab, NCES 97–450)
- Characteristics of American Indian and Alaska Native Education, Results from the 1993–94 DSDD (NCES 97–451)
- Public and Private School Principals In The United States: A Statistical Profile, 1987–88 to 1993–94 (NCES 97–455)
- A Profile of Administration Policies and Practices for Limited English Proficiency Students: Screening Methods, Teacher Training, and Program Support, 1993–94 (NCES 97–472)
- The Schools and Staffing Survey Recommendation for the Future (NCES 97–596)
- Out-of-Field Teaching and Educational Equality (NCES 96–040)
- Schools and Staffing in the United States: A Statistical Profile: 1993–94 (NCES 96–124)
- Private School Universe Survey, 1993–94 (NCES 96–143)
- SASS by State, 1993–94 Schools and Staffing Survey: Selected State Results (NCES 96–312)
- Comparing Key Organizational Qualities of American Public and Private Secondary Schools (NCES 96–322)

Reports (*continued*)

- Schools and Staffing in the United States: Selected Data for Public and Private Schools, 1993-94 (E.D. Tab, NCES 95–191)
- Private Schools in the United States: A Statistical Profile, 1990–91 (NCES 95–330)
- Teacher Supply in the U.S.: Sources of Newly Hired Teachers in Public and Private Schools, 1988–1991 (NCES 95–348)
- Characteristics of American Indian and Alaska Native Education, Results from the 1990–91 SASS (NCES 95–735)
- Teacher Supply, Teacher Qualifications and Teacher Turnover, Aspects of Teacher Supply and Demand in the U.S., 1990–91 (NCES 95–744)
- The Patterns of Teacher Compensation (NCES 95–829)
- Characteristics of Stayers, Movers, and Leavers: Results from the Teacher Followup Survey, 1991–92 (E.D. Tab, NCES 94–337)
- SASS by State (NCES 94–343)
- Private School Universe Survey, 1991–92 (NCES 94-350)
- Qualifications of the Public School Teacher Workforce: 1988 and 1991 (NCES 94–665)
- America’s Teachers: Profile of a Profession (NCES 93–025)
- Private School Universe Survey, 1989-90 (NCES 93–122)
- Selected Tables on Teacher Supply and Demand (E.D. Tab, NCES 93–141)
- Schools and Staffing in the United States: A Statistical Profile, 1990–91 (NCES 93–146)
- Schools and Staffing in the United States: Selected Data for Public and Private Schools, 1990–91 (E.D. Tab, NCES 93–453)
- Schools and Staffing in the United States: A Statistical Profile, 1987–88 (NCES 92–120)
- Characteristics of Stayers, Movers, and Leavers: Results from the Teacher Followup Survey, 1988–89 (E.D. Tab, NCES 91–128)

Forthcoming Reports

- America's Teachers: Profile of a Profession, 1993–94
- Job Satisfaction Among America's Teachers: Effects of Workplace, Conditions, Background Characteristics, and Teacher Compensation, 1993–94

Forthcoming Reports (*continued*)

- Private Schools in the U.S.: A Statistical Profile, 1993–94
- Sources of Newly Hired Teachers in Public and Private Schools, 1988–94
- Characteristics of Public School Districts, 1993–94

Issue Briefs

- Schools Serving Family Needs: Extended-Day Programs in Public and Private Schools (Issue Brief, NCES 97–590)
- Programs for Aspiring Principals: Who Participates? (Issue Brief, NCES 97–591)
- Credentials and Tests in Teacher Hiring: What Do Districts Require? (Issue Brief, NCES 97–592)
- Are Limited English Proficient (LEP) Students Being Taught by Teachers with LEP Training? (Issue Brief, NCES 97–907)
- How Widespread is Site-Based Decisionmaking in Public Schools? (Issue Brief, NCES 97–908)
- Public School Choice Programs, 1993–94: Availability and Student Participation (Issue Brief, NCES 97–909)
- Teachers' Sense of Community: How Do Public and Private Schools Compare? (Issue Brief, NCES 97–910)
- Are High School Teachers Teaching Core Subjects Without College Majors or Minors in Those Subjects? (Issue Brief, NCES 96–839)
- Where Do Minority Principals Work? (Issue Brief, NCES 96–840)
- What Academic Programs are Offered Most Frequently in Schools Serving American Indian and Alaska Native Students? (Issue Brief, NCES 96–841)
- How Safe are the Public Schools: What Do Teachers Say? (Issue Brief, NCES 96–842)
- Extended Day Programs in Elementary and Combined Schools (Issue Brief, NCES 96–843)
- What Criteria are Used in Considering Teacher Applicants? (Issue Brief, NCES 96–844)
- Private School Graduation Requirements (Issue Brief, NCES 95–145)
- How Much Time Do Public and Private School Teachers Spend in Their Work? (Issue Brief, NCES 95–709)

Issue Briefs (*continued*)

- Migration and Attrition of Public and Private School Teachers: 1991–92 (Issue Brief, NCES 95–770)
- Which Types of Schools Have the Highest Teacher Turnover? (Issue Brief, NCES 95–778)
- Libraries/Media Centers in Schools: Are There Sufficient Resources? (Issue Brief, NCES 95–779)
- Who Influences Decisionmaking About School Curriculum: What Do Principals Say? (Issue Brief, NCES 95–780)
- Public and Private School Principals: Are There Too Few Women? (Issue Brief, NCES 94–192)
- Sources of Newly Hired Teachers in Public and Private Schools, 1988–91 (Issue Brief, NCES 94–481)
- What are the Most Serious Problems in Schools? (Issue Brief, NCES 93–149)
- Teacher Salaries—Are They Competitive? (Issue Brief, NCES 93–450)
- Teaching and Administrative Work Experience of Public School Principals (Issue Brief, NCES 93–452)
- Teacher Attrition and Migration (Issue Brief, NCES 92–148)

Video

- Americas Teachers: Profile of a Profession

Methods

- 1993-94 Schools and Staffing Survey: Sample Design and Estimation (Technical Report, NCES 96–089)
- An Exploratory Analysis of Nonrespondents in the 1990–91 Schools and Staffing Survey (NCES 96–338)
- Design Effects and Generalized Variance Functions for the 1990–91 Schools and Staffing Surveys (SASS) Volume I--User's Manual (NCES 95–342I)
- Design Effects and Generalized Variance Functions for the 1990–91 Schools and Staffing Surveys (SASS) Volume II--Technical Report (NCES 95–340II)
- Quality Profile for SASS: Aspects of the Quality of Data in the Schools and Staffing Surveys (Technical Report, NCES 94–340)

Methods (continued)

- 1990–91 Schools and Staffing Survey: Sample Design and Estimation (Technical Report, NCES 93–449)
- Modeling Teacher Supply and Demand, with Commentary (Research and Development Report, NCES 93–461)
- 1987–88 Schools and Staffing Survey: Sample Design and Estimation (Technical Report, NCES 91–127)

CD-ROMs

- Schools and Staffing Survey: 1993–94 Electronic Codebook and Public Use Data
- Schools and Staffing Survey: 1990–91 Electronic Codebook and Public Use Data
- Schools and Staffing Survey, 1987–88 Microdata and Documentation

Questionnaires

- SASS and PSS Questionnaires 1993–1994 (NCES 94–674)
- SASS and TFS Questionnaires 1990–1991
- SASS and TFS Questionnaires 1987–1988

User's Manuals

- 1993–94 Schools and Staffing Survey, Data File User's Manual Volume I: Survey Documentation (NCES 96–142)
- 1993–94 Schools and Staffing Survey, Data File User's Manual Volume II: Restricted-Use Codebook (NCES 96–142–II)
- 1990–91 Schools and Staffing Survey: Data File User's Manual Volume I: Survey Documentation (NCES 93–144–I)
- 1990–91 Schools and Staffing Survey: Data File User's Manual Volume II: Restricted-Use codebook (NCES 93–144–II)
- 1990–91 Schools and Staffing Survey: Data File User's Manual Volume III: Public-Use codebook (NCES 93–144–III)
- 1990–91 Schools and Staffing Survey: Data File User's Manual Volume IV: Bureau of Indian Affairs (BIA) Restricted-Use Codebooks: Administrator, Schools, and Teachers (NCES 93–144–IV)

User's Manuals (*continued*)

- 1991–92 Teacher Followup Survey Data File User's Manual—Public-Use Version (NCES 94–331)
- 1991–92 Teacher Followup Survey Data File User's Manual—Restricted-Use Version (NCES 94–478)
- 1988–89 Teacher Followup Survey Data File User's Manual—Public-Use Version (NCES 92–058)

Forthcoming User's Manuals

- 1993–94 Schools and Staffing Survey, Data File User's Manual Volume III: Public-Use Codebook
- 1993–94 Schools and Staffing Survey, Data File User's Manual Volume IV: Bureau of Indian Affairs (BIA) Restricted-Use Codebooks: Administrator, Schools, and Teachers
- 1993–94 Schools and Staffing Survey, Data File User's Manual Volume V: Restricted-Use Codebook Students' Records

Conference Papers

- Using Classroom Instructional Process Items in National Center for Education Statistics Study To Measure Student Opportunity to Learn: A Progress Report
- Heaven or Hell? The Teaching Environment of Beginning Teachers
- Using Opportunity to Learn Items in Elementary and Secondary National Surveys
- Characteristics of Public and Private School Teachers
- Characteristics of Mathematics and Science Teachers
- Teacher Training, Certification and Assignment
- Teacher Turnover: Patterns of Entry To and Exit from Teaching
- Moonlighting Among Public and Private School Teachers
- Characteristics of Bilingual Education and English as a Second Language Teachers
- Highlights of Minority Data from the Schools and Staffing Survey
- Teacher Incentive Research with SASS
- Teacher Salaries: Comparing States After Adjusting for Teacher Experience and Education

Conference Papers (continued)

- What are the Characteristics of Principals Identified as Effective by Teachers
- Schools at Risk: Results of the 1987–88 Schools and Staffing Survey
- Destinations of Movers and Leavers: Where Do They Go?
- Teacher Salaries: Comparing States After Adjusting for Teacher Experience and Education
- Classroom Environment and Support of Beginning Teachers: A Test of the "Crucible versus Cradle" Theory of Teacher Induction
- Why do Teachers Leave Teaching? Reasons for Teacher Attrition from the Teacher Followup Survey
