Overview

IPEDS Student Financial Aid Component Overview
Private Academic Reporters

Changes to This Year's SFA Component
There were no changes implemented for the 2017-18 data collection period.

College Affordability and Transparency Center's lists
Net price amounts calculated in SFA will be used to populate the Department's College Affordability and Transparency lists.

Interactive Edits and Error Messages
SFA contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk at 1-877-225-2568 for resolution.

Context Boxes

Based on the information reported on the previous screens for Group 1 (all undergraduates) and Group 2 (full-time, first-time degree/certificate-seeking undergraduates), this comparison chart seeks to help institutions check their reported data. Assuming that the information on Groups 1 and 2 are correct, then the calculated fields for 'All Other Undergraduates' should be the balance (Group 1 minus Group 2). If the balance does not check with your institution's calculations, please correct your reported numbers for Groups 1 and 2 before moving forward with the completion of the SFA survey component. **Note:** Data for the 'All Other Undergraduates' will appear in the IPEDS Data Center for data users, but not in College Navigator.

General Instructions

What You Will Need

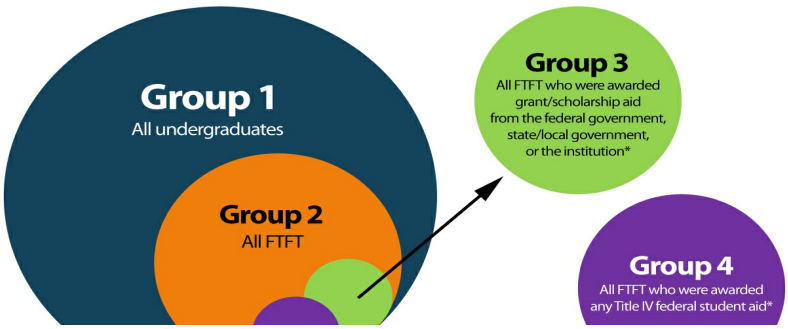
The institution's financial aid system should be the beginning basis for reporting to this IPEDS component.

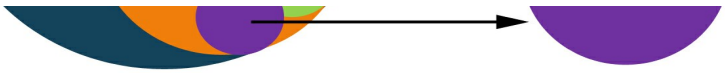
Data providers for this component should be familiar with college and university practices associated with student financial aid. In general, there are two types of financial aid data that will be requested in this component. These types are:

- Numbers of students that meet certain conditions
- Total aid dollars awarded to these students

To complete this component, data providers will need the following:

1. Financial aid information about the following student groups:
   - **Group 1.** All undergraduate students
   - **Group 2.** Of the students in Group 1, those who are full-time, first-time degree/certificate-seeking students
   - **Group 3.** Of the students in Group 2, those who were awarded grant or scholarship aid from the following sources: the federal government, state/local government, or the institution
   - **Group 4.** Of the students in Group 2, those who were awarded Title IV federal student aid





*For public institutions, include only those students paying the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

2. Living arrangement information for full-time, first-time degree/certificate-seeking undergraduate students who were awarded grant or scholarship aid during the reporting period

3. Living arrangement information for full-time, first-time degree/certificate-seeking undergraduate students who were awarded Title IV federal student aid during the reporting period

4. Income levels for full-time, first-time degree/certificate-seeking undergraduate students who were awarded Title IV federal student aid during the reporting period

About the Data

ive different types of data appear in this component. There are data:

- That institutions provide from their own financial aid records
- That are prior year data, shown in red, which can be used as a comparison with the current year's data being reported
- That are carried forward from the IPEDS Fall Enrollment (EF) component and the IPEDS Institutional Characteristics (IC) component that your institution completed in the most recent collections of those components.
- That are carried forward from one part of the Student Financial Aid component to another part to ensure that the data are internally consistent
- That are calculated from the other data elements

In the latter two cases, the data provider should check that the data that are carried forward and calculated are consistent with the data in the institution's underlying financial aid records. If the data carried forward or calculated are not consistent with the institution's records, then an error in data entry may have occurred.

Context Boxes

Optional context boxes throughout the component allow institutions to provide more information regarding reported data. Note that the information in these context boxes may be posted on the U.S. Department of Education's College Navigator website. NCES will review entries in these context boxes for applicability and appropriateness before posting them on College Navigator. However, institutions should ensure that entries in these context boxes are free from grammatical and spelling errors and are written to be understood by students and parents.

Interactive Edits

This component contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk (1-877-225-2568 or ipedshelp@rti.org) for resolution.

Coverage

Reporting Period

The data reported for this component should be for the prior academic year.

Student Cohort

The student cohort covered by this component includes undergraduate students enrolled in the prior academic year as of October 15 or as of the institution's official fall reporting date.

What to Include

The following types of financial aid should be reported in this component:

- **Federal grants (grants/educational assistance funds):** Grants provided by federal agencies such as the U.S. Department of Education, including Title IV federal student aid grants such as Pell grants, Federal Supplemental Educational Opportunity Grants (FSEOG), Academic Competitiveness Grants (ACG), National Science and Mathematics Access to Retain Talent (National SMART) Grants, and Teacher Education Assistance for College and Higher Education (TEACH) Grants. Also include need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs.

  Do not include veterans education benefits, as defined in section 480(c) of the HEA, as they are no longer treated as Estimated Financial Assistance for Federal Student Aid purposes. For more information, visit http://www.ifap.ed.gov/eannouncements/081309GuidFedVeteransEdBenefits.html.
- **Federal loans to students:** Monies from the federal government that must be repaid for which the student is the designated borrower. This type of aid includes all Title IV federal student loan aid such as Federal Perkins Loans, Subsidized Direct or FFEL Stafford Loans, and Unsubsidized Direct or FFEL Stafford Loans. Do not include PLUS loans and other federal loans not made directly to the student.
- **State/local government grants (grants/scholarships/waivers):** Grants that were awarded by your state such as Leveraging Educational Assistance Partnerships (LEAP) (formerly SSIGs) and Robert C. Byrd Honors Scholarships. Include merit-based grants or scholarships that were provided by your state or local government. Also include tuition and fee waivers for which your institution was reimbursed by a state or local government agency.
- **Institutional grants or scholarships (scholarships/waivers):** Grants, scholarships, and fellowships granted and funded by the institution and/or individual departments within the institution and are limited to students attending your institution. Also include scholarships targeted to certain individuals (e.g., based on state of residence, major, or participation in athletic activities) for which the institution designates the recipient. Also include institutional tuition and fee waivers for which your institution was not reimbursed by a state or local government agency. This is not intended to include Federal Work Study.
- **Private grants or scholarships:** Grants or scholarships to students that are awarded and paid by an outside organization but are directed through the institution's financial aid office (e.g., Rotary Club Scholarship).
- **Private loans to students:** Monies that must be repaid to the lending institution for which the student is the designated borrower. Include all institutionally- and privately-sponsored loans. Do not include loans that are not made directly to the student.

NOTE: In this component, "aid awarded" refers to grant or scholarship aid that was awarded to students or to loans awarded to and accepted by students. For reporting grant or scholarship aid, institutions should report on aid that was awarded to students. This amount may be different from the amount that was actually disbursed to students. For example, a student may be awarded grant or scholarship aid at the beginning of the academic year but then leave the institution before the entire amount is disbursed. In this case, institutions should report the original amount of grant or scholarship aid that was awarded. For reporting loans to students, institutions should continue to report on loans that were awarded to and accepted by the student.

Note also that different types of financial aid should be reported for different groups of students. Please review the instructions and the screens carefully to ensure that you are reporting the correct types of financial aid in the appropriate parts.

Institutions need to report aid in this component such that the net price calculations shown on College Navigator and used for the College Affordability and Transparency lists are a reflection of what students actually pay.

In cases where a student is awarded aid for multiple academic years within one aid year period, institutions should report only aid

awarded for the student's first academic year.

For total aid amounts, report to the nearest whole dollar and omit cents. For student counts, an unduplicated count should be given within a given aid category (e.g., Pell grants). However, a student can appear in more than one aid category.

What NOT to Include

Do not report student counts or aid amounts for the following:

- Students who were **only** graduate students at the institution during the reporting period
- Students who were enrolled **exclusively** in courses not creditable toward a certificate/degree
- Students who were enrolled **exclusively** in Continuing Education Units (CEUs)
- Students who were **exclusively** auditing classes

Do not report Federal Work Study amounts into any total aid amounts.

Do not report loans that are made to someone other than the student.

Do not report military/veterans aid in Section 1. Such aid is ONLY reported in Section 2.

Note: Two aid categories in this section are further disaggregated into subcategories. Because students may be awarded more than one type of aid, the sum of the values you enter in the subcategories will not necessarily equal the value you enter in the aid category. However, the total number of students reported for the aid category cannot exceed the sum of subcategories. (For example, the number of students who were awarded federal grants cannot exceed the sum of the number of students who were awarded Pell grants and the number who were awarded other federal grants). In addition, the total number of students reported for an aid category must be at least as large as the largest of those reported in a subcategory.

Cost of Attendance Revision

If you made errors in the prior year reporting of cost of attendance, you can make changes in the SFA component, there are no prior year revisions. Please refer to the instructions on reporting cost of attendance in the IC component.

Part D - Enter Financial Aid about Group 3

This part is intended to collect information used to estimate the average net price for Group 3 students in Part F.

Group 3 students are all full-time, first-time degree/certificate-seeking undergraduate students enrolled in the prior fall who were awarded grant or scholarship aid from the following sources: federal government, state/local government, or the institution. Students who were awarded only grant or scholarship aid from private or other sources, or students who were awarded only non-grant aid should not be included in this group.

For this part, report:

For These Students	The Following Type(s) of Aid	Awarded in This Period
• Full-time, first-time, degree/certificate-seeking undergraduate students enrolled in the prior fall who were awarded grant or scholarship aid from the following sources: the federal government, state/local government, or the institution • Do not include students who were awarded only grant or scholarship aid from private or other sources, or students who were awarded only non-grant aid.	• Grant or scholarship aid from the federal government • Grant or scholarship aid from state/local government • Grant or scholarship from the institution • Do not include grant or scholarship aid from private or other sources.	• Any time during the prior academic year.

Data carried forward from Part A include the following:

Information from Part A:	YOUR PRIOR YEAR DATA 2014-15	YOUR PRIOR YEAR DATA 2015-16	2016-17
Group 3 Full-time, first-time degree/certificate-seeking undergraduate students who were awarded grant or scholarship aid from the federal government, state/local government, or the institution (This number is carried forward from Part A, Line 03)	Pre-loaded	Pre-loaded	Carried forward from Part A

Note: In this part, you will be asked to report living arrangement information for Group 3 students. The living arrangement categories used in this component are the same categories used to describe living arrangements for Federal Student Aid purposes. Students indicate their intended living arrangement on the Free Application for Federal Student Aid (FAFSA).

Institutions should use the most recently available information regarding student living arrangement. For example, a student may have indicated on her or his FAFSA or an institutional financial aid application that she or he planned to live at home with family. But when the student enrolled, she or he decided to live on campus. Although the student may not have modified the FAFSA to reflect the updated living arrangement, the institution may have more recent information in its financial aid system indicating that the student lived on campus according to the most recent aid package for that student during the financial aid year. In this case, the institution should classify this student as an on-campus student.

A student should be counted in only one category—the one that the institution used most recently to develop or modify that student's financial aid package. If a student in this group did not complete the FAFSA, that student may appear as having an unknown living arrangement in Line 01d. However, if the institution knows the living arrangement for the student, then the student should be reported in the appropriate category.

Instructions:

In the fields provided, report the number of Group 3 students with each type of living arrangement and the total amount of grant or scholarship aid from the federal government, state/local government, or the institution awarded to these students.

Item	Description
01.	**Report the number of Group 3 students with the following living arrangements.**
01a.	**On-campus.** Report the number of Group 3 students who lived on-campus.
01b.	**Off-campus (with family).** Report the number of Group 3 students who lived off-campus with their parents or guardians.
01c.	**Off-campus (not with family).** Report the number of Group 3 students who lived off-campus not with their parents or guardians.
01d.	**Unknown (calculated).** This value is calculated using the following formula: [A03 – (D01a + D01b + D01c)], where A03 is the number of Group 3 students that you entered in Part A, Line 03. Note that this number should be a small percentage of the total number of students in a given year because institutions should have this information available for all students that completed the FAFSA as well as other information they have in their financial aid data systems.
02.	**Report the total amount of grant or scholarship aid from the federal government, state/local government, or the institution awarded to Group 3 students** Report the total dollar amount of grants and scholarship aid from the federal government, state/local government, or the institution awarded to Group 3 students. Exclude grant or scholarship aid from private sources (e.g., Rotary Club Scholarship) and exclude all loan aid.
03.	**Average grant or scholarship aid from the federal government, state/local government, or the institution awarded to Group 3 students** The average grant or scholarship aid from the federal government, state/local government, or the institution awarded to Group 3 students will be calculated for you. This value is calculated using the following formula: [D02/A03]. This amount will be used in Part F to calculate net price.

Part E - Enter Financial Aid about Group 4

This part is intended to collect information used to estimate the average net price for Group 4 students in Part G.

Group 4 students are full-time, first-time degree/certificate-seeking undergraduates enrolled in the prior fall who were awarded any Title IV federal student aid (i.e., students who were awarded federal grant aid or who were awarded federal work study or federal student loans)

Title IV federal student aid includes the following:

- Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), Teacher Education Assistance for College and Higher Education (TEACH) Grant
- Federal Work Study
- Federal Perkins Loan, Subsidized Direct or FFEL Stafford Loan, and Unsubsidized Direct or FFEL Stafford Loan

For this part, report:

For These Students	The Following Type(s) of Aid	Awarded in This Period
• Full-time, first-time, degree/certificate-seeking undergraduate students enrolled in the prior fall who were awarded any Title IV federal student aid	• Grant or scholarship aid from the federal government • Grant or scholarship aid from state/local government • Grant or scholarship from the institution • Do not include grant or scholarship aid from private or other sources. • Do not include loan amounts. • Do not include Federal Work Study amounts.	• Any time during the prior academic year

Data carried forward from Part A include the following:

Information from Part A:	YOUR PRIOR YEAR DATA 2014-15	YOUR PRIOR YEAR DATA 2015-16	2016-17
Group 4 Full-time, first-time degree/certificate-seeking undergraduate students who were awarded any Title IV federal student aid (This number is carried forward from Part A, Line 04)	Pre-loaded	Pre-loaded	Carried forward from Part A

Notes: In this part, you will be asked to report living arrangement information for Group 4 students. The living arrangement categories used in this component are the same categories used to describe living arrangements for Federal Student Aid purposes. Students indicate their intended living arrangement on the Free Application for Federal Student Aid (FAFSA).

Institutions should use the most recently available information regarding student living arrangement. For example, a student may have indicated on her or his FAFSA or an institutional financial aid application that she or he planned to live at home with family. Although the student may not have modified the FAFSA to reflect the updated living arrangement, the institution may have more recent information in its financial aid system indicating that the student lived on campus according to the most recent aid package for that student during the financial aid year. In this case, the institution should classify this student as an on-campus student.

A student should be counted in only one category—the one that the institution used most recently to develop or modify that student's financial aid package. If a student in this group did not complete the FAFSA, that student may appear as having an unknown living arrangement in Line 01d. However, if the institution knows the living arrangement for the student, then the student should be reported in the appropriate category.

In this part, you will also be asked to report the number of students in Group 4 and the total amount of grant or scholarship aid they were awarded by income level. To determine the income level of the student, use the income that was used by the institution's financial aid office to determine the student's Expected Family Contribution (EFC). For dependent students this will include the parents' adjusted gross income and the student's adjusted gross income. For independent students this will include the student's adjusted gross income.

Instructions:

In the fields provided, report the number of Group 4 students with each type of living arrangement.

Item	Description
01.	**Report the number of Group 4 students with the following living arrangements.**

Part F - Net Price Calculation for Group 3

This part is intended to summarize the information used to estimate the average net price for Group 3 students.

Group 3 students are all full-time, first-time degree/certificate-seeking undergraduate students enrolled in the prior fall who were awarded grant or scholarship aid from the following sources: the federal government, state/local government, or the institution. For public institutions, Group 3 includes only those students who paid the in-state or in-district tuition rate.

As required by the HEOA, the average net price for Group 3 students will be posted on College Navigator. In addition, the average net price calculated for this group will be used in the U.S. Department of Education's College Affordability and Transparency lists.

The components used to estimate the average net price include the average total cost of attendance and the average grant or scholarship aid awarded to Group 3 students. The total cost of attendance is the sum of published tuition and required fees (Line 01), books and supplies (Line 02) and the weighted average by living arrangement for room and board and other expenses (Line 05).

Information about cost of attendance is carried forward from data that your institution reported in the Institutional Characteristics component of IPEDS. If you did not enter this information and have questions about the values entered here, contact your institution's IPEDS Keyholder.

The source or calculation for each line is described here.

Item	Description
01.	**Published tuition and required fees (lower of in-state or in-district at public institutions)** The published tuition and required fees (lower of in-state or in-district at public institutions) are carried forward from data that your institution reported on the IPEDS Institutional Characteristics component, Part D - Student Charges, Cost of Attendance.

Section 2. Military Servicemembers and Veteran Students with Benefits

Purpose of Component

The purpose of the Student Financial Aid (SFA) is collect information about the financial aid provided to various groups of undergraduates in order to meet requirements of the Higher Education Act of 1965, as amended. Starting in 2014-15 data collection year, SFA has expanded to collect information on the federal dollars supporting military servicemember and veteran undergraduate and graduate students.

As presented in the Technical Review Panel Report #36 (March 2012), the increase in beneficiaries and federal dollars has led for an increase demand for information to help prospective students look where to use their educational benefits, researchers study the impact of the programs on college outcomes, and policymakers assess the effectiveness of benefits programs and return on investment.

Who Must Report

All registered IPEDS institutions that educate military servicemembers, veterans, or eligible dependents receiving any Tuition Assistance Program or Post-9/11 GI Bill benefits. Report only those that **RECEIVED** the benefit(s).

General Instructions

What You Will Need

If unfamiliar with these educational benefits, below is a general synopsis of each programs:

1. Post-9/11 GI Bill
   - Effective August 1, 2009, benefit provides payment of tuition and fees, monthly housing allowance, and books and supplies stipend.
   - Tuition and fees are paid directly to the institution on behalf the students; thus, institutions should know which students have Post-9/11 GI Bill benefits and the amount of benefits received at the institution.
   - Educational benefits can be transferred to a dependent.
   - Program expanded in 2011 to cover non-degree-granting programs, apprenticeships/on-the-job training programs, flight training programs, and training correspondence.
   - The Yellow Ribbon program through the Post-9/11 GI Bill is an institutional aid matching program only for tuition and fees for students attending participating institutions.
   - For more information, visit the Department of Veteran Affairs, Post-9/11 GI Bill Benefits website http://www.benefits.va.gov/gibill/post911_gibill.asp

2. Department of Defense Tuition Assistance
   - For active duty servicemembers, reservists called to active duty, and their spouses.
   - Educational payments cover only tuition and fees and are made directly to the institution.
   - GI Bill benefits can be used to supplement costs not covered by this program.
   - For more information, visit the Department of Defense Tuition Assistance Program website http://www.dodmou.com/

Consult and verify the data with your institutional representative who certifies these benefits. This individual or office may not be in the student financial aid office.

About the Data

The Post-9/11 GI Bill and Tuition Assistance programs may only highlight two of many educational benefits provided to military servicemembers and veterans. However, from a national perspective, Post-9/11 GI Bill and Tuition Assistance programs are more likely to be found across over 7,500 IPEDS institutions.

For Yellow Ribbon participating institutions, the institutional aid provided through the Post-9/11 GI Bill Yellow Ribbon matching program should NOT be included in the Post-9/11 GI Bill's Total dollar amount of benefits/assistance awarded through the institution.

Context Boxes

Optional context boxes throughout the component allow institutions to provide more information regarding reported data. Note that the information in these context boxes may be posted on the U.S. Department of Education's College Navigator website. NCES will review entries in these context boxes for applicability and appropriateness before posting them on College Navigator. However, institutions should ensure that entries in these context boxes are free from grammatical and spelling errors and are written to be understood by students and parents.

Interactive Edits

This component contains interactive edits that will check for blank fields, invalid values, or values that fall outside expected ranges. Some error messages will require you to confirm or explain the values that you entered. Some error messages are fatal and will require you to contact the IPEDS Help Desk (1-877-225-2568 or ipedshelp@rti.org) for resolution.

This includes students enrolled in academic or occupational programs. It also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits or postsecondary formal award earned before graduation from high school).

Includes scholarships targeted to certain individuals (e.g., based on state of residence, major field of study, athletic team participation) for which the institution designates the recipient.
Integrated Postsecondary Education Data System (IPEDS)	The Integrated Postsecondary Education Data System (IPEDS), conducted by the NCES, began in 1986 and involves annual institution-level data collections. All postsecondary institutions that have a Program Participation Agreement with the Office of Postsecondary Education (OPE), U.S. Department of Education (throughout IPEDS referred to as "Title IV") are required to report data using a web-based data collection system. IPEDS currently consists of the following components: Institutional Characteristics (IC); 12-month Enrollment (E12);Completions (C); Admissions (ADM); Student Financial Aid (SFA); Human Resources (HR) composed of Employees by Assigned Position, Fall Staff, and Salaries; Fall Enrollment (EF); Graduation Rates (GR); Outcome Measures (OM); Finance (F); and Academic Libraries (AL).

Available only to eligible servicemembers who are currently in active service as long as criteria limits are not exceeded and students are enrolled off-duty in an U.S. Department of Education accredited post-secondary institution. This military benefit is paid directly to the postsecondary institution by the individual's Armed service.
Net price	The Higher Education Opportunity Act of 2008 defines institutional net price as "the average yearly price actually charged to first-time, full-time undergraduate students receiving student aid at an institution of higher education after deducting such aid." In IPEDS, average institutional net price is generated by subtracting the average amount of federal, state/local government, or institutional grant and scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state for public institutions), books and supplies, and the weighted average for room and board and other expenses. Cost of attendance data are collected in the Institutional Characteristics (IC) component of IPEDS, and financial aid data are collected in the Student Financial Aid (SFA) component of IPEDS.

This Department of Veteran Affairs benefit provides up to 36 months of education benefits at an approved institution for the following college costs: tuition and fees, books and supplies and housing. The tuition and fees payment, which is the cost for an in-state student attending a public institution, is made directly to the postsecondary institution whereas payments for books and supplies and housing are sent directly to the student.

State and local grants	Grant monies provided by the state such as Leveraging Educational Assistance Partnerships (LEAP) (formerly SSIG's); merit scholarships provided by the state; and tuition and fee waivers for which the institution was reimbursed by a state agency. Local government grants include scholarships or gift-aid awarded directly to the student. (Used for reporting Finance data for private for-profit institutions)
Title IV institution	An institution that has a written agreement with the Secretary of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs (other than the State Student Incentive Grant (SSIG) and the National Early Intervention Scholarship and Partnership (NEISP) programs).
Transfer of Entitlement Option	A program through which any unused Post 9/11 GI Bill may be transferred to a spouse or dependent(s) as long as servicemembers or veterans meet the additional Department of Veterans Affairs criteria. Only Department of Defense (DoD) can approve transfer of benefits requests.
Yellow Ribbon Program	A voluntary program through which participating public and private institutions can provide veterans and eligible beneficiaries additional institutional aid to cover the costs of tuition and fees at their institutions. Answers:

General

1) Which institutions are required to complete the IPEDS Student Financial Aid (SFA) component?

All postsecondary institutions that either 1.) participate in federal student financial aid programs that enrolled undergraduate students or 2.) enroll students who received an educational benefit (e.g., Department of Defense Tuition Assistance or Department of Veteran Affairs Post-9/11GI Bill) any time during academic year 2016-17 must complete SFA.

Back to top

2) What is the reporting period covered by SFA for the 2017-18 collection year?

For the 2017-18 data collection, institutions should report data for academic year 2016-17.

For Title IV participating institutions that enroll undergraduate students:

- For **academic reporters**, the academic year is defined as the period of time generally extending from September to June; usually equated to 2 semesters or trimesters, 3 quarters, or the period covered by a 4-1-4 calendar system.

  To determine the financial aid amounts to report for a given group of students, first identify the students in that group (e.g., for Group 2, full-time, first-time degree/certificate-seeking undergraduates enrolled in Fall 2016). Second, determine the financial aid that was awarded to these students any time during the 2016-17 academic year.
- For **program reporters**, the academic year is defined by the institution, so long as the institutionally-defined academic year falls within the full aid year period of July 1-June 30.

  To determine the financial aid amounts to report for a given group of students, first identify the students in that group (e.g., for Group 2, full-time, first-time degree/certificate-seeking undergraduates enrolled any time during the academic year). Second, determine the financial aid that was awarded to these students any time during the academic year.

For institutions that enroll undergraduate and graduate students who received military or veteran benefits:

- The data reported for the **Post-9/11 GI Bill** benefit questions should be for the prior academic year, from July 1 to June 30.
- The data reported for the **Department of Defense Tuition Assistance Program** questions should be for the prior academic year, from October 1 to September 30.

Back to top

3) What changes occurred for SFA for the 2017-18 collection year?

For the 2017-18 collection year, there were no changes.

Back to top

4) Can I revise my institutions cost of attendance (COA) data in SFA?

Yes, the 3 most recent COA years can be changed in SFA's "Cost Revision" screen, which carried forward the COA data from Institutional Characteristics (IC) component. Changes should only be made if errors were made in the IC reporting. Changes cannot be made in the prior year revision system.

Student Counts

1) For which students should I report financial aid information?

SFA collects information on undergraduate students only.

Academic reporters should report on students who were enrolled as of October 15, or the institution's official Fall reporting date.

Program reporters should report on students who were enrolled any time during the academic year. For program reporters, the academic year is defined by the institution, so long as it falls between July 1 and June 30.

For the purposes of reporting to SFA, students are divided into the following groups:

- **Group 1:** All undergraduate students
- **Group 2:** Of Group 1, full-time, first-time degree/certificate-seeking students
- **Group 3:** Of Group 2, students who were awarded any grant/scholarship aid from the federal government, state/local government, or the institution. For public institutions, include only those paying in-state/in-district tuition rates. For program reporters, include only those enrolled in the institution's largest program.
- **Group 4:** Of Group 2, students who were awarded any Title IV federal student aid. For public institutions, include only those paying in-state/in-district tuition rates. For program reporters, include only those enrolled in the institution's largest program.

Back to top

2) What students are included in Group 1?

Group 1 includes all undergraduate students. You should report the total number of all new and continuing full-time students, part-time students, degree/certificate-seeking students, and non-degree/certificate-seeking students.

Back to top

3) What students are included in Group 2?

Group 2 students include all full-time, first-time degree/certificate-seeking undergraduates.

For **academic reporters**, include students attending your institution for the first time at the undergraduate level. Also include students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school). This number should match the data that you reported on the Fall Enrollment component of IPEDS.

For **program reporters**, include students attending your institution for the first time at the undergraduate level anytime during the academic year, as defined at your institution. Also include students who entered with advanced standing (college credits earned before graduation from high school). This number should closely match the data you reported on the 12-month Enrollment component of IPEDS.

Back to top

4) What students are included in Group 2a?

In Group 2a, you should report the number of full-time, first-time degree/certificate-seeking undergraduate students who were awarded any of the following:

- Federal Work Study
- Federal or private loans to students
- Grant or scholarship aid from the federal government
- Grant or scholarship aid from state/local government
- Grant or scholarship aid from the institution
- Grant or scholarship aid from other sources known to the institution

Back to top

5) What students are included in Group 2b?

In Group 2b, you should report the number of full-time, first-time degree/certificate-seeking undergraduate students who were awarded any of the following:

- Federal or private loans to students
- Grant or scholarship aid from the federal government
- Grant or scholarship aid from state/local government
- Grant or scholarship aid from the institution

Group 2b is Group 2a minus those students who were awarded only Federal Work Study or grant or scholarship aid from other sources known to the institution.

Back to top

6) What students are included in Group 3?

Group 3 students include all full-time, first-time degree/certificate-seeking undergraduates who were awarded grant or scholarship aid from the following sources:

- Federal government
- State/local government
- Institution

For public institutions, include only those students who paid the in-state or in-district tuition rate. For program reporters, include only those students enrolled in the institution's largest program.

Do not include students who were awarded only grant or scholarship aid from private or other sources, or students who were awarded only non-grant aid, such as loans.

Financial Aid

1) Should veterans education benefits be reported?

For the portion of SFA (Parts A through E) that requires Title IV institutions to report on undergraduate students receiving financial aid:

- Veterans education benefits **should not** be reported as financial aid in SFA.
- The Higher Education Opportunity Act of 2008 (HEOA) removed veterans education benefits from "estimated financial assistance," effective July 1, 2010. A later technical corrections bill (H.R. 1777) updated the list of programs that meet the definition of "veterans' education benefits" in section 480(c) of the Higher Education Act (HEA) and moved the effective date of the exclusion to July 1, 2009 (beginning with the 2009-10 award year).
- However, the institutional aid from Yellow Ribbon program should be reported under institutional aid. See how to report the Yellow Ribbon aid in FAQ.
- For more information about the Department's Guidance on Federal Veterans' Education Benefits for Purposes of the Title IV Student Assistance Programs, please visit http://www.ifap.ed.gov/eannouncements/081309GuidFedVeteransEdBenefits.html.

For the portion of SFA (Section 2) that requires institutions to report on students who received military or veteran benefits:

- Educational benefits from the Department of Defense's Military Tuition Assistance or Department of Veteran Affairs' Post-9/11 GI Bill **should** be reported in SFA.

2) How should I report post-9/11 "Yellow Ribbon" benefits?

The Post-9/11 GI Bill program includes a 'Yellow Ribbon' program, which is comprised of matching funds provided by the government and the institution. The institutional part of this aid should be reported in the SFA component (Section 1) as aid to the undergraduate student. Yellow Ribbon benefits provided from the VA should NOT be included when reporting to the portion of SFA (Section 1) on Title IV institutions that enroll full-time, first-time degree/certificate seeking undergraduate students.

However, both Post-9/11 GI Bill and Yellow Ribbon beneficiaries and federal dollar amounts should be reported to the military/veteran question of SFA (Section 2). This portion of SFA requires all institutions that enroll students with Post-9/11 GI Bill and/or Tuition Assistance educational benefits to provide the number of beneficiaries and total dollar amounts.

3) The SFA survey indicates that the maximum amount of DOD TAP awarded per fiscal year per student is $4500. What do I do if my DOD TAP average is greater than $4500 per student?

According to the 2014 final regulations set for the DOD Voluntary Education Programs - which include TAP - each branch of military service can pay no more than $250/semester-unit (or equivalent) for tuition. Each service member is eligible for up to $4500 in aggregate for each fiscal year. If your institution's DOD TAP average is greater than $4500 per student per award year, then you should:
--Ask your financial aid office or VA certifying official to sort out the military aid and remove any non-DOD TAP aid (e.g., ROTC scholarships, tuition reimbursements for advanced civil schooling, education-related incentive or bonus);
--Remove any non-Title 10 aid since TAP is a Title 10 program; and
--Make sure that you are including one disbursement period for that award year. Even though DOD TAP aid are reported for the Oct 1 – Sep 30 timeframe, which technically covers two fall periods; only include one fall disbursement period per award year.

4) What types of financial aid should be reported?

The following types of financial aid should be reported in this component:

- **Federal grants (grants/educational assistance funds):** Grants provided by federal agencies such as the U.S. Department of Education, including Title IV federal student aid grants such as Pell grants, Federal Supplemental Educational Opportunity Grants (FSEOGs), Academic Competitiveness Grants (ACGs), National Science and Mathematics Access to Retain Talent (National SMART) Grants, and Teacher Education Assistance for College and Higher Education (TEACH) Grants. Also include need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs.
- **State/local government grants (grants/scholarships/waivers):** Grants that were provided by your state such as Leveraging Educational Assistance Partnerships (LEAP) (formerly SSIGs) and Robert C. Byrd Honors Scholarships. Also include merit scholarships that were provided by your state and tuition and fee waivers for which your institution was reimbursed by a state agency. Local grants include any local government grants, scholarships or gift-aid awarded directly to the student.
- **Institutional grants:** Scholarships and fellowships granted and funded by the institution and/or individual departments within the institution (and are limited to students attending your institution). Also include scholarships targeted to certain individuals (e.g., based on state of residence or major) for which the institution designates the recipient; athletic scholarships; and the like. This is not intended to include Federal Work Study.
- **Private grants or scholarships:** These may include scholarships or grants to students that are paid by an outside organization but are directed through the institution's financial aid office (e.g., Rotary Club Scholarship).
- **Loans to students:** Monies that must be repaid to the lending institution for which the student is the designated borrower. Include all Title IV federal student loan aid such as Federal Perkins Loans, Subsidized Direct or FFEL Stafford Loans, and Unsubsidized Director or FFEL Stafford Loans. Also include all institutionally- and privately-sponsored loans. Please do not include PLUS and other loans made directly to parents.

Note that different parts of the SFA component ask for different types of financial aid to be reported. Please review the instructions and the survey screens carefully to ensure that you are reporting the correct types of financial aid in the appropriate parts.

5) What is the time period for which I should report financial aid amounts?

Institutions should report aid that was awarded any time during the academic year.

For academic reporters, the academic year is the period of time generally extending from September to June, usually equated to two semesters or trimesters, three quarters, or the period covered by a 4-1-4 calendar

system.

For program reporters, the academic year is defined by the institution, so long as it falls between July 1 and June 30.

Note that for the purposes of calculating net price, the cost of attendance (COA) for an academic year reported in the Institutional Characteristics (IC) component should align with the aid amounts reported in the Student Financial Aid (SFA) component.

6) Should tuition and fee waivers be reported?

Yes, tuition and fee waivers should be reported.

Tuition and fee waivers for which your institution was reimbursed by a state agency should be reported under state/local government grants.

Tuition and fee waivers granted by your institution (for which your institution is not reimbursed from another source) should be reported as institutional grants.

7) Where in Part C should I report tribal aid?

In general, institutions should report financial aid from tribal offices awarded to full-time, first-time students in the state/local government field (Line 03) in Part C.

Back to top

8) Should PLUS loans be reported?

No. PLUS loans are made to the parents of students. Any type of loan that is not made to the student should not be reported.

Back to top

9) What does "aid awarded" mean?

Institutions should report on grant or scholarship aid that has been awarded to students. This may be different from aid that was actually disbursed to students. For example, a student may be awarded grant or scholarship aid at the beginning of the academic year but then leave the institution before the entire amount is disbursed. In this case, you would report the original amount of grant or scholarship aid that was awarded, even though the entire amount was not actually disbursed to the student.

For reporting loans to students, institutions should continue to report on loans that were awarded to and accepted by the student.

10) If a student is awarded more than one type of aid, do I count him/her twice?

Yes, students should be included in each category of aid that they are awarded. If a student is awarded both federal and institutional aid, he/she should be counted under both types of aid.

However, in Part C, count students only once in the major aid category. For example, if a student is awarded both a Pell Grant (Line 02a) and another type of federal grant (Line 02b), then count that student once for the major category of Federal grants (Line 02).

11) Where can I get living arrangement information for students?

Students indicate their intended living arrangement on the Free Application for Federal Student Aid (FAFSA) or an institutional financial aid application. If a student did not complete the FAFSA or an institutional financial aid application with living arrangement information, that student may appear as having an unknown living arrangement.

Institutions should use the most recently available information regarding student living arrangement.

12) How do I get information about students' income categories?

To assign the income category of the student, use the income that was used by your financial aid office to determine the student's Expected Family Contribution (EFC). For dependent students this will include the parents' adjusted gross income and the student's adjusted gross income. For independent students this will include the student's adjusted gross income.

If your institution takes part in campus-based aid programs like SEOG, FWS, and Perkins Loans, then it might be easiest to tell your financial aid office that students should be put in income categories as they are done on FISAP. Institutions with campus-based based aid programs must report annually to the Department of Education using the FISAP (Fiscal Operations Report and Application to Participate). Part of the FISAP includes income-related information. Even if your institution does not file FISAP, the instructions from it may be helpful (fields 26-39):

Use the FISAP Total Income (FTI), one of the intermediate computed values on the Student Aid Record (SAR) or ISIR (Institutional Student Information Record), to determine the proper cell for each student. For dependent students, FTI is the sum of Total Income (TI) and Student's Total Income (STI). For independent students, the FTI will equal the TI. ***Remember, extract this information only from the SARs/ISIRs of students who actually enrolled in your school.***

You might need to correct or adjust a student's income information and recalculate the EFC. If so, you must use that corrected or adjusted information when determining the proper income cell for a student. In such a case, to determine the income cell for a dependent student, you must use the student's and parents' base year incomes, as reported on the SAR/ISIR.
