The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

I. Introduction to the NCES Common Core of Data National Public Education Financial Survey (NPEFS), School Year 2005–06 (Fiscal Year 2006), Revised File Version 1b

This documentation is for the revised file (Version 1b) of the National Center for Education Statistics (NCES) Common Core of Data (CCD) National Public Education Financial Survey (NPEFS) for school year 2005–06, fiscal year 2006 (FY 06). It contains a brief description of the data collection along with information required to understand and access the data file. The NPEFS data collection is conducted by NCES, a branch of the Institute of Education Sciences in the U.S. Department of Education, and the Governments Division of the U.S. Census Bureau. NCES is authorized to collect these data by Congress through the National Education Statistics Act of 1995, section 404(a), 20 U.S.C. 9003(a).

The purpose of the NPEFS Survey is to provide district, state, and federal policymakers, researchers, and other interested users with descriptive information about revenues and expenditures for public elementary and secondary education. The data collected are useful to (1) chief officers of state education agencies; (2) policymakers in the executive and legislative branches of federal and state governments; (3) education policy and public policy researchers; and (4) the public, journalists, and others.

Data for the NPEFS are collected from state education agencies (SEAs) in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). The data file is organized by state or jurisdiction and contains revenue data by source and expenditure data by function and object.¹ The data file also contains average daily attendance data as well as total student membership data from the 2005–06 CCD State Nonfiscal Survey of Public Elementary/Secondary Education.

II. User's Guide

The FY 06 NPEFS data file contains 56 records (one for each SEA from which data are collected), and each record contains 300 fields (4 record identification fields, 148 data fields, and 148 imputation flag fields). The record layout is provided in appendix A.

The remaining appendixes provide the following information:

- Appendix B—glossary with definitions of key variables;
- Appendix C—state abbreviations and Federal Information Processing Standards (FIPS) state codes;
- Appendix D—state-by-state list of imputations and adjustments;
- Appendix E—fiscal data plan questions;
- Appendix F—state-by-state responses to the fiscal data plan questions;
- Appendix G—frequencies of imputation flags and minimum, maximum, and mean of numeric variables;
- Appendix H—fiscal year definitions and specific state notes; and
- Appendix I—the survey form.

¹ *Function* is defined as a category of expenditure defining the activity supported by the service or commodity bought, while *object* is defined as a category of expenditure defining the service or commodity bought. For more definitions of terms used in this report, please see Appendix B—Glossary.

File versions

Starting in 1999–2000, CCD data file names were changed to include a two-digit version number. The final files are assigned a version number beginning with 1 (one). The character following 1 indicates the version number of the file. For example, a “1a” file is the first (original) final file, and a “1b” file is the second (revised) final file.

NCES releases a final file (Version 1a) after a publication using the data has been released. (NCES standards require that an NCES publication using the data be released before the data are considered final.) If NCES receives revised data from states or discovers errors in the final data file, a revised file (Version 1b) is released. The revised file is usually released 1 year after the original (Version 1a) final file. FY 06 NPEFS revised data (Version 1b) contain data revisions from Idaho, Illinois, Kansas, Massachusetts, Nevada, Rhode Island, Tennessee, and Vermont.

File names

The names of the FY 06 releases are as follows:

- Stfis061b.xls (Microsoft Excel file)
- Stfis061b.txt (text file)

The first seven characters indicate the file contents and year, and the last two characters indicate the file version. “Stfis” stands for state fiscal, “06” stands for FY 06, “1” indicates that the file is ready for final release by NCES, and “b” indicates this is the revised version of the final file by NCES.

A. Survey Methodology

The NPEFS consists of data collected from SEAs in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). SEAs compile these data from reports submitted by local education agencies (LEAs) that operate public schools. SEAs may examine and edit these reports. SEAs also include data for any state-run schools, such as special education programs or prison schools serving inmates under the age of 20. NCES and SEAs work cooperatively to ensure comparability between the data items requested and reported.

Missing and nonapplicable data

Missing data are reported as “-1” in the data file; nonapplicable data are reported as “-2.”² NCES requests that states report “0” for data items for which no activity has occurred and missing (“-1”) for items for which activity has occurred, but for which data are missing. A review of the data and subsequent discussions suggest that these practices are not always followed. In some instances, a “-1” may have been reported when there was no activity. Conversely, a “0” may have been reported when, in fact, there was some activity. When producing the final file, NCES edits some “-1” and “0” responses.

² For example, in states where none of the school districts have independent tax-raising authority, the variables Local Revenue Property Tax (R1A) and Local Revenue Nonproperty Tax (R1B) are reported as “-2.”

Average daily attendance data and student membership counts

Average daily attendance (ADA) data are collected in the NPEFS as required under Title I of the Elementary and Secondary Education Act of 1965 (as amended by Title I of the Improving America's Schools Act of 1994). Under this law, states report ADA data in accordance with state law; however, NCES provides a definition for states to use in the absence of state law. Per pupil expenditures (calculated by dividing net current expenditures by average daily attendance) are used to allocate Title I and other program funds to states and school districts. Since some states use their own ADA definitions and others use the NCES definition, ADA data in the NPEFS data file are not comparable across states. Student membership data from the 2005–06 CCD State Nonfiscal Survey of Public Elementary/Secondary Education are included in the data file as a more comparable student count. The variable Student Membership (MEMBR05) is the count of students enrolled on or about October 1, 2005.

NCES crosswalk software

Since the FY 89 data collection, NCES has provided “crosswalk” software to assist states in their reporting and to improve the comparability of data across states. This software converts a state's existing accounting reports to uniform federal standards, as described in the NCES accounting handbook, *Financial Accounting for Local and State School Systems: 2003 Edition* (National Forum on Education Statistics, Core Finance Data Task Force 2003). NCES reviews and validates the protocols of states that do not use this crosswalk software to convert their state reports to federal standards. Crosswalk software was provided for Alabama, California, Georgia, Illinois, Maine, Massachusetts, Mississippi, Montana, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon, Pennsylvania, South Carolina, and South Dakota in the FY 06 collection.

NCES edit checks

After an SEA submits data, an edit is conducted and an edit report is sent back to the SEA listing the previous and current year's data and the percentage increase (or decrease) of every item. Notification of any arithmetic errors and comments containing NCES's understanding of specific missing data items are also included with the edit report. States are asked to correct addition errors, verify or correct information on missing items, and explain any extraordinary changes from the previous year's data.

B. Imputations and Adjustments

NCES introduced the practice of imputing and adjusting data to correct for missing or misreported data beginning with the data collection for school year 1989–90 (FY 90). Imputations and adjustments are limited to the 50 states and the District of Columbia.³ The process consists of several steps, which vary according to the nature of the missing or misreported data. A state-by-state list of items affected by imputations and adjustments is presented in appendix D.

³ Adjustments for direct support expenditures (for and on behalf of school districts) are performed on data from the Commonwealth of the Northern Mariana Islands and Guam, and adjustments for food services expenditures are performed on data from Puerto Rico.

Imputations

Imputations correct cases in which a value is not reported at all, indicating that subtotals for the item are underreported. An imputation by NCES assigns a value to the missing item, and the subtotals containing this item are increased by the amount of the imputation. The same method is used for imputing revenues and expenditures. Revenues are imputed using total revenues, and expenditures are imputed using total expenditures. Imputed data are coded as “I” in the data flag section of the file.

“Impute based on” imputations. Statements with “impute based on” indicate that the first item was reported as missing and the missing value was assigned based on information from the variables following “based on.” For example, assume that a state had Local Revenues – Student Activities (R1K), but did not report them. The statement “R1K impute based on TR” means that the value for Local Revenues – Student Activities (R1K) was assigned based on Total Revenues From All Sources (TR). The method used for imputing a value for Local Revenues – Student Activities (R1K) is to (1) calculate the ratio of R1K to Total Revenues From All Sources (TR) for each state reporting these items “strictly by the definition”;⁴ (2) calculate the average of these ratios; and (3) multiply the Total Revenues (TR) of the state with the missing student activities revenue item times the average ratio.

In some instances, the “based on” statement is followed by a difference between two variables (e.g., “E81 impute based on (TE11-E81)”). This statement means that the value for Community Service – Nonproperty (E81) was imputed by (1) calculating the ratio of Community Service – Nonproperty (E81) to the difference of Total Expenditures (TE11) and Community Service – Nonproperty (E81) for each state reporting these items “strictly by the definition”; (2) calculating the average of these ratios; and (3) multiplying Total Expenditures (TE11) of the state with the missing Community Service – Nonproperty (E81) times the average ratio.

Adjustments

Adjustments correct cases in which a value reported for one item contains a value for one or more additional items not reported elsewhere. For example, a state might not differentiate between instructional support staff and student support staff, reporting “missing” for student support staff salaries and a value for instructional support staff salaries that includes both items. NCES would adjust these two responses by reducing the amount reported for instructional support staff salaries and adding that amount to student support staff salaries. The total for salaries and total expenditures would not be affected by this adjustment.

There are several recently-added data items that NCES does not adjust even though missing data in one item are combined with another item. The missing data on textbook expenditures (E2) are included in the amounts reported for Instructional Expenditures – Supplies (E16). The missing data on teacher salary items (Regular Programs (E11A), Special Education Programs (E11B), Vocational Education Programs (E11C), and Other Education Programs (E11D)) are included in the amounts reported for Instructional Expenditures – Salaries (E11). These cases are not adjusted by NCES in this data file.

Since adjustments consist of redistributing a reported value, any adjustment affects at least two variables.

⁴ States reporting an item “strictly by the definition” are those states reporting values greater than zero for each of the items involved in the imputation, and none of whose values are affected by another “contains” or “combined with” adjustment, as described later in the text.

There are several variations in the way adjustments are carried out, described below and listed in appendix D.

“Combined with” and “contains” adjustments. Because an adjustment subtracts a value from an item in which it was misreported, adjustment statements always come in pairs such as “A combined with B” and “B contains A.” For both statements, the value for items A and B was reported by the state as item B. The adjustment process takes a portion of the amount reported for B, subtracts it from B and adds that value to item A. For example, “E212 combined with E11” means that the value for Support Expenditures – Salaries – Student Support Services (E212) was included in the value reported for Instructional Expenditures – Salaries (E11). The complementary statement, “E11 contains E212,” means that the value for Instructional Expenditures – Salaries (E11) was reduced by the adjustment, and the value for Support Expenditures – Salaries – Student Support Services (E212) was increased by the same amount. In most cases, the adjustments are based on ratios of the items to Total Expenditures for Education (TE11) or Total Revenues From All Sources (TR).

The method used to perform “combined with” and “contains” adjustments is as follows: (1) calculate the ratios of each missing item and the item containing the missing values to the total indicated at the end of the “contains” statement for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item.

“Supplemented by” adjustments. There are instances in which a state only reports a subtotal for a series of expenditures. “Supplemented by” and “totals” statements are the pair of statements associated with this type of adjustment. “A supplemented by B” and “B totals A and C” indicate that the subtotal B consists of the sum of A and C. The state has reported the subtotal (B) but not the detail making up the subtotal. For example, “E3B11 supplemented by E3B1” means that the adjustment took a portion of the amount reported in E3B1 and added it to E3B11. It also means that the state only reported the subtotal E3B1 and not the detail data item E3B11. “E3B1 totals E3B11, E3B12, E3B13, E3B14, E3B16” means that the adjustment took the amount that was reported for the subtotal E3B1 and distributed it to each of the items that make up that subtotal. It also means that the state only reported the subtotal E3B1 and did not report the detail making up the E3B1 subtotal.

The method of adjustment is as follows: (1) calculate the ratios of each missing item and the items containing the missing values to Total Expenditures for Education (TE11) for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported subtotal by the ratios calculated in step 3 to determine the share for each item.

“Distribute by” adjustments. Adjustments identified as “distribute by” are used only to distribute direct state support expenditures to the specific objects and functions listed in the statement. The objects or functions are referred to as the “destination” for this adjusted value. In all but one type of case, expenditures are distributed using the ratio of items to which the reported value is distributed. That is, the method calculates the ratio of each item in the “destination” list to the total of all items in the “destination” list and then distributes the direct state support expenditures to each item proportionately.

For example, “E4B1 distribute by dest. E217, E227, E237, E247, E267” means the value for Direct Program Support – Transport (E4B1) is distributed based on the distribution of the items

following “dest.,” i.e., Support Expenditures – Salaries – Pupil Transportation (E217), Support Expenditures – Employee Benefits – Pupil Transportation (E227), Support Expenditures – Purchased Services – Pupil Transportation (E237), Support Expenditures – Supplies – Pupil Transportation (E247), and Support Expenditures – Other – Pupil Transportation (E267). E4B1 times the ratio of E217 / (E217 + E227 + E237 + E247 + E267) would be added to the amount in E217. E4B1 times the ratio of E227 / (E217 + E227 + E237 + E247 + E267) would be added to the amount in E227, and so on. In a few cases, the amount is “distributed” to only one item.

The adjustment used to distribute Direct Program Support – Employee Benefits (E4C1) is the one case that is different from the “distribute by” method described above. The method used in this case is to calculate the ratio of each salary item to the sum of all listed salary items and to then distribute Direct Program Support – Employee Benefits proportionately across all items. For example, “E4C1 distribute by salary E12, E222, E223, E224, E225, E226, E227, E228, E3A12 using E11, E212, E213, E214, E215, E216, E217, E218, E3A11” means that the reported value for Direct Program Support – Employee Benefits is distributed to specific employee benefit items (Instructional Expenditures – Employee Benefits, Support Expenditures – Employee Benefits – Student Support Services, Support Expenditures – Employee Benefits – Instructional Staff Support, etc.) based on the distribution of salaries for these functions.

To be specific, in the example given above the formula for the amount added to Instructional Expenditures – Employee Benefits (E12) would be: Amount added to E12 = E4C1 x (E11 / (E11 + E212 + E213 + E214 + E215 + E216 + E217 + E218 + E3A11)).

Direct support distributions are performed after all other imputations and adjustments have been performed.

Beginning with the SY 2005-06 (FY 2006) file, all items affected by the direct support distributions have been flagged as “A.”

The order in which these imputations and adjustments are performed is as follows: (1) impute; (2) adjust using “combined with” and “contains” methods; (3) adjust using “supplemented by” method (totals statement); and (4) adjust using “distribute by” methods. Totals and subtotals are recalculated after each step. All totals and subtotals affected by adjustments or imputations are flagged as “T” in the data flag section of the file.

Prekindergarten count imputations

Student membership data are collected by grade in the CCD State Nonfiscal Survey of Public Elementary/Secondary Education; however, only the total student membership data for grades prekindergarten through grade 12 (plus ungraded) are included in the NPEFS data file. Since some states do not report data on prekindergarten students, prekindergarten student counts are imputed for these states and added to the total student count. In school year 2005–06 (FY 06), the prekindergarten student count for California is imputed. The total student membership for California is flagged as “T” in the data flag file.

Data flags

For each variable, there is a companion flag that indicates whether the value was reported by the state or was placed there by NCES using one of several imputation or adjustment methodologies. The flags are as follows:

- R - As reported by the state
- A - Adjusted
- I - Imputed based on a method other than prior year's data⁵
- T - Total based on sum of internal or external detail

The companion cell in each case is identified by the name of the data cell preceded by an "I." Appendix D explains any action taken by NCES with regard to each variable.

C. Variations in the Survey Over Time

The NPEFS underwent a major revision in FY 89, acquiring its present name in that year and greatly increasing the number of data items collected. Since that year, items have been added to and deleted from the survey, as follows:

- *Beginning with the FY 92 survey:*
 - Food Services expenditures were broken out by object, adding items Food Services – Salaries (E3A11), Food Services – Employee Benefits (E3A12), Food Services – Purchased Services (E3A13), Food Services – Supplies (E3A14), and Food Services – Other (E3A16).
 - Enterprise Operations expenditures were broken out by object, adding items Enterprise – Salaries (E3B11), Enterprise – Employee Benefits (E3B12), Enterprise – Purchased Services (E3B13), Enterprise – Supplies (E3B14), and Enterprise – Other (E3B16).
 - Facilities Acquisition and Construction Services - Nonproperty expenditures were broken out into Buildings Built and Alterations Performed by LEA's Own Staff (E611) and Buildings Built and Alterations Performed by Contractors (E612). In addition, Facilities Acquisition and Construction Services – Property expenditures were broken out into Land (E62A) and Buildings (E62B). STE6, the sum of all of the Facilities Acquisitions and Construction Services items, was added.
- *Beginning with FY 98 survey:*
 - The Facilities Acquisition and Construction Services breakouts listed above (items E611, E612, E62A and E62B) were discontinued.
- *Beginning with FY 04 survey:*
 - Teacher Salaries expenditures were broken out by program, adding items Teacher Salaries – Regular Programs (E11A), Teacher Salaries – Special Education Programs (E11B), Teacher Salaries – Vocational Education Programs (E11C), and Teacher Salaries – Other Education Programs (E11D).
 - The item for the textbooks expenditures (E2) was added.

⁵ For some NCES surveys, imputations of missing data items are performed by applying a growth factor to data reported in a prior year. This type of growth-rate imputation is not performed for the NPEFS. "I" is assigned the value of "Imputed based on a method other than prior year's data" to maintain consistency in the meaning of imputation flags across NCES surveys.

D. Fiscal Data Plan

In addition to the finance data specified in the NPEFS, NCES also collects information from each state to help process the data and to gain a better understanding of what programs and/or policies are connected with the data items and definitions. The FY 06 data plan questionnaire appears in appendix E, and the responses (by state or jurisdiction) appear in appendix F. The fiscal data plan responses are presented as reported by SEAs with minimal editing by NCES. The responses to the data plan are not included on the data file.

E. State Notes

The state notes contain information from state data providers regarding any significant changes in the data they are reporting. These comments are reported in this documentation as stated by the respondent with minimal editing by NCES. The beginning and end dates of the fiscal year are also reported for each state.

Appendix A—Record Layout and Description of Data Elements

Appendix A—Record Layout and Description of Data Elements

The tab-delimited file (Stfis061b.txt) has the following layout and description:

56 physical records, 1 per observation – 300 fields in the file.

Missing data are reported as “-1” in the data file, and nonapplicable data are reported as “-2.”

For data type, N = numeric and AN = alphanumeric.

Variable name	Data type	Data element order	Description
SURVYEAR	N	1	FISCAL YEAR OF SURVEY (2006)
FIPS	AN	2	FEDERAL INFORMATION PROCESSING STANDARDS (FIPS)
STABR	AN	3	POSTAL STATE ABBREVIATION CODES
STNAME	AN	4	NAME OF THE STATE OR TERRITORY
R1A	N	5	LOCAL REVENUES PROPERTY TAX
R1B	N	6	LOCAL REVENUES NONPROPERTY TAX

Appendix B—Glossary

Appendix B—Glossary

This glossary applies to the National Public Education Financial Survey (NPEFS). For additional detail, it is suggested that the data user consult the NCES accounting handbook, *Financial Accounting for Local and State School Systems* (National Forum on Education Statistics, Core Finance Data Task Force 2003). When applicable, line numbers corresponding to the handbook are listed in parentheses, and corresponding NPEFS variables are listed in brackets.

average daily attendance: Average daily attendance (ADA) is defined by state law or regulations. In their absence, ADA should be calculated by summing the counts of resident students attending public school each day of the school year and then dividing by the total number of days that school was in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside. [ADA, A14A, and A14B.]

CCD: Common Core of Data. A group of public elementary/secondary education surveys of NCES. CCD data are collected from the administrative records systems of each state's department of education.

community services: A functional category of expenditures (3300) for such services as swimming pools, day care centers, and programs for the elderly. [E81 and E82.]

current expenditures: Current expenditures comprise the functional categories of instruction (1000), support services (2000), and noninstructional services (3000). Current expenditures are those expenditures for the day-to-day operation of public elementary and secondary education and are distinct from long-term expenditures and expenditures for other types of education. Property expenditures are excluded from current expenditure subtotals. [TE5 is the total of STE1, STE2T, and STE3.]

debt services: A subfunction (5100) within the expenditure function "other uses" (5000). It includes only long-term debt service with obligations exceeding 1 year. [E7A1 and E7A2.]

direct cost programs: A category of expenditures for programs not part of public elementary and secondary education. These programs include community colleges, adult education, and nonpublic school support. [E9A, E9B, E9C, E9D, E91, and subtotal STE9. NOTE: STE9 does not include E91.]

direct program support: Expenditures made by state education agencies (SEAs) for, or on behalf of, local education agencies (LEAs). The majority of these expenditures are for teacher's retirement funds. The remainders are for textbooks, busing, and special programs, such as education for disabled students. Although states often report these expenditures in the appropriate function, they are sometimes lumped together under the heading "direct program support," in which case NCES distributes them by function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported in the data file as zero. [E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.]

Appendix B—Glossary

employee benefits: Expenditures (200) made in addition to gross salary that are not paid directly to employees. Employee benefits include amounts paid by, or on behalf of, an LEA for retirement contributions, health insurance, social security contributions, unemployment compensation, worker's compensation, tuition reimbursements, and other employee benefits. [E12, E222, E223, E224, E225, E226, E227, E228, E3A12, and E3B12. Variables E222, E223, E224, E225, E226, E227, and E228 sum to TE22.]

enterprise operations: A subfunction (3200) of noninstructional services (3000). Enterprise operations are activities that are financed, at least in part, by user charges, similar to a private business. These operations are sometimes subsidized by LEAs. Food services expenditures are reported food services, even if they are run as an enterprise. [E3B11, E3B12, E3B13, E3B14, E3B2, E3B16, and subtotal E3B1. NOTE: E3B1 does not include E3B2.]

equipment: An object subcategory (730) within facilities acquisition and construction services (4000). It includes the initial purchase of property items such as books for a newly constructed school or addition. Replacement equipment is labeled property and is reported by function. [E63]

expenditures: All amounts of money paid out by a school system, net of recoveries and other correcting transactions, other than for retirement of debt, purchase of securities, extension of loans, and agency transactions. Expenditures include only external transactions of a school system and exclude noncash transactions such as the provision of perquisites or other in-kind payments.

facilities acquisition and construction services: An expenditure function (4000) that includes the acquisition of land and buildings; building construction, remodeling, and additions; the initial installation or extension of service systems and other built-in equipment; and site improvement. [E61, E62, E63, and subtotal STE6.]

federal revenues: Reported in four categories: (1) unrestricted and restricted grants-in-aid directly from the federal government, (2) unrestricted and restricted grants-in-aid directly through the state, (3) grants-in-aid through other intermediate agencies, and (4) other federal revenues (including payments in lieu of taxes). [R4A, R4B, R4C, R4D, and subtotal STR4.]

food services: A subfunction (3100) of noninstructional services (3000). Food services are activities that provide food to students and staff in a school or LEA. These services include preparing and serving regular and incidental meals or snacks in connection with school activities as well as delivery of food to schools. [E3A11, E3A12, E3A13, E3A14, E3A2, E3A16, and subtotal E3A1. NOTE: E3A1 does not include E3A2.]

function: A category of expenditure defining the activity supported by the service or commodity bought.

general administration: One of nine subfunctions (2300) within the expenditure function support services (2000). It includes expenditures for the board of education and

Appendix B—Glossary

administration of LEAs. [E214, E224, E234, E244, E254, E264, and subtotal STE24. NOTE: STE24 does not include E254.]

instruction: Defined as the activity between teachers and students. Instruction expenditures include salaries and benefits for teachers and instructional aides, supplies, and purchased services such as instruction via television. Tuition expenditures to other LEAs are also included. [E11, E12, E13, E14, E15, E16, E17, E18, and subtotal STE1. Variables E15 and E17 are not included in STE1.]

instructional staff support services: One of nine subfunctions (2200) within the expenditure function support services (2000). It includes instructional staff training, educational media (library and audiovisual), and other instructional staff support services. [E213, E223, E233, E243, E253, E263, and subtotal STE23. NOTE: STE23 does not include E253.]

intermediate sources of revenue: Education agencies with fundraising capabilities that operate between the state and local government levels. One example is New York's Board of Cooperative Educational Services (BOCES). Intermediate revenues are included in local revenue totals. [R2]

local education agency (LEA): An agency at the local level whose primary responsibility is to operate public schools or to contract for public school services. An LEA is also called a school district.

local revenues: Revenues from such sources as local property and nonproperty taxes, investments, and student activities such as textbook sales, transportation and tuition fees, and food service revenues. Local revenues include revenues from intermediate sources. [R1A, R1B, R1C, R1D, R1E, R1F, R1G, R1H, R1I, R1J, R1K, R1L, R1M, R1N, and subtotal STR1. R1F and R1H are not included in STR1.]

NPEFS: National Public Education Financial Survey, a component of the Common Core of Data (CCD).

object: A category of expenditure defining the service or commodity bought.

operations and maintenance: One of nine subfunctions (2600) within the expenditure function support services (2000). It includes expenditures for the supervision of operations and maintenance, the operation of buildings, the care and upkeep of grounds and equipment, vehicle operations (other than student transportation) and maintenance, and security. [E216, E226, E236, E246, E256, E266, and subtotal STE26. NOTE: STE26 does not include E256.]

other support services: Combines three of nine subfunctions (2500, 2800, and 2900). It includes expenditures for business support services (activities concerned with the fiscal operation of the LEA), central support services (activities, other than general administration, which support each of the other instructional and support services programs, including planning, research, development, evaluation, information, and data

Appendix B—Glossary

processing services), and other support services expenditures not reported elsewhere. [E218, E228, E238, E248, E258, E268, and subtotal STE28. NOTE: STE28 does not include E258.]

property: One of six expenditure objects (700). Property includes expenditures for initial, additional, and replacement furniture and fixtures such as desks, file cabinets, computers, copying machines, printing equipment, and other equipment. Property expenditures are not included in current expenditure subtotals. [E17, E252, E253, E254, E255, E256, E257, E258, E3A2, E3B2, E62, E63, E82, E91, and subtotal TE10. Property variables are excluded from all totals and subtotals in the file except for variables TE25, TE10, and TE11. Support services subtotal TE25 is the sum of E252, E253, E254, E255, E256, E257, and E258.]

purchased services: One of six expenditure objects. It is for professional and technical services and the renting of equipment. [E13, E232, E233, E234, E235, E236, E237, E238, E3A13, and E3B13. TE23 is the sum of E232, E233, E234, E235, E236, E237, and E238.]

revenues: Additions to assets that do not incur an obligation that must be met at some future date, do not represent exchanges of fixed assets, and are available for expenditure by the LEAs in the state. Revenues include funds from local, intermediate, state, and federal sources.

salaries: One of six expenditure objects (100). It includes the gross salaries of permanent and temporary staff on the payroll of LEAs, including those substituting for permanent employees. Salaries for full- and part-time staff are included along with overtime and salaries for staff on sabbatical leave. Also included are supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. [E11, E212, E213, E214, E215, E216, E217, E218, E3A11, and E3B11. Support services subtotal TE21 is the sum of E212, E213, E214, E215, E216, E217, and E218.]

school administration: One of nine subfunctions (2400) within the expenditure function support services (2000). It includes expenditures for the office of the principal, full-time department chairpersons, and graduation expenses. [E215, E225, E235, E245, E255, E265, and subtotal STE25. STE25 does not include E255.]

state revenues: Revenues received by the LEA from the state are reported in a single total. This total includes unrestricted grants-in-aid, restricted grants-in-aid, revenue in lieu of taxes, and payments for, or on behalf of, LEAs. [R3]

student membership: Total student enrollment on October 1 (or the closest day to October 1) for all grade levels (prekindergarten, kindergarten, grades 1 through 12, and ungraded students). This count includes students both present and absent on the measurement day.

Appendix B—Glossary

student support services: One of nine subfunctions (2100) within the expenditure function support services (2000). It includes attendance and social work, guidance, health, psychological services, speech pathology, audiology, and other student support services. [E212, E222, E232, E242, E252, E262, and subtotal STE22. NOTE: STE22 does not include E252.]

student transportation: One of nine subfunctions (2700) within the expenditure function support services (2000). It includes expenses for the supervision, vehicle operation, monitoring, and vehicle servicing and maintenance associated with student transportation services. [E217, E227, E237, E247, E257, E267, and subtotal STE27. NOTE: STE27 does not include E257.]

supplies: One of six expenditure objects (line item 600). Supplies are items that are consumed, wear out, or deteriorate through use, or items that lose their identity through fabrication or incorporation into different or more complex units or substances. These include expenditures for general supplies; paper and other materials required for printing and copying; and books, periodicals, and reference materials. [E16, E242, E243, E244, E245, E246, E247, E248, E3A14, and E3B14. Support services subtotal TE24 is the sum of E242, E243, E244, E245, E246, E247, and E248.]

support services: An expenditure function (2000) divided into nine subfunctions: student support services (2100), instructional staff support (2200), general administration (2300), school administration (2400), operations and maintenance (2600), student transportation (2700), and other support services (2500, 2800, 2900). [Support services subtotal STE2T is the sum of subtotals STE22, STE23, STE24, STE25, STE26, STE27, and STE28. STE2T is also the sum of subtotals TE21, TE22, TE23, TE24 and TE26.]

teacher salaries - other programs: Salaries for teachers in programs other than regular education, special education or vocational education. Include salaries in alternative education programs. [E11D]

teacher salaries - regular education: Salaries for teachers in regular education programs, grades: Prekindergarten, Kindergarten, Ungraded and Grades 1 through 12. Missing data are included in the amount reported for Instruction Salaries. Include salaries in alternative education programs. [E11A]

teacher salaries - special education: Salaries for teachers in special education programs, relating to mental retardation, orthopedic impairment, emotional disturbance, developmental delay, specific learning disabilities, multiple disabilities, hearing impairment, other health impairments, visual impairments including blindness, autism, deaf-blindness, traumatic brain injury, and speech or language impairments. Include salaries in alternative education programs. [E11B]

teacher salaries - vocational education: Salaries for teachers in vocational and technical programs. Include salaries in alternative education programs. [E11C]

Appendix B—Glossary

textbook expenditures: Expenditures for textbooks used in instructing students. Missing data are included in the amount reported Instruction Supplies. [E2]

Appendix E—Fiscal Data Plan Questions

Appendix E—Fiscal Data Plan Questions

In addition to the finance data specified in the NPEFS, NCES also collects information from each state to help process the data and to gain a better understanding of programs and/or policies connected with the data items and definitions.

1. DIRECT PROGRAM SUPPORT/STATE PAYMENTS ON BEHALF

A. Do local education agencies in your state receive Direct Program Support/State Payments on Behalf monies from the state?

- Yes
 No (Please go to question 2.)

B. Do you include these payments in the REVENUE section of your NPEFS report?

- Yes
 No

C. Are you able to report these payments in the appropriate EXPENDITURE section of the NPEFS report?

- Yes
 No

D. Are these amounts available on a district-by-district basis for use on the F-33 Local School District report?

- Yes
 No

E. Are these amounts reported on your state's F-33 Local School District data submission?

- Yes
 No

F. Please provide the TOTAL Direct Program Support/State Payments on Behalf amounts in your state (include all amounts, even those reported under their appropriate functions):

F1. Textbooks for Public School Students

1. Non-Property \$ _____
2. Property Only \$ _____

F2. Transportation for Public School Students

1. Non-Property \$ _____
2. Property Only \$ _____

Appendix E—Fiscal Data Plan Questions

F3. Employee Benefits for Public School Employees

1. Non-Property \$ _____
2. Property Only \$ _____

F4. Direct Program Support for Private School Students

1. Non-Property \$ _____

F5. Other Direct Program Support for Public School Students

1. Non-Property \$ _____
If applicable, please specify program name(s) _____
2. Property \$ _____
If applicable, please specify program name(s) _____

2. CHARTER SCHOOLS

A. Does your state have charter schools?

- Yes
- No (Please go to question 3.)

B. Does your state require all charter schools to report fiscal data to the state education agency (either directly or through the LEA)?

- Yes (Please go to C.)
- No

B1. If your state does not currently require charter school finance data, are there plans in place to collect these data in the next 3 years?

- Yes
- No

C. Please indicate all that apply to reporting of financial data by charter schools:

- Charter School data are reported independent of regular school district data.
- Regular school districts serve as a fiduciary agent for charter schools (i.e. report charter school grants as pass-thru expenditures).
- Charter school data are reported within regular district data.

Appendix E—Fiscal Data Plan Questions

D. Are charter school data reported in the NPEFS and F-33 data?

- Yes, both.
- NPEFS only.
- F-33 only.
- Neither.

E. Please include any additional comments concerning charter school data in your state:

3. PRIVATE DONATIONS

A. Are there private organizations that perform educational services on-behalf of school districts in your state (e.g. Educational Foundations)?

- Yes
- No (Please go to question 4.)

B. Do you include private monetary contributions (i.e. donations from individuals or corporations) to schools and school districts in the local revenues you report on NPEFS?

- Yes
- No

C. Are these amounts (i.e. private monetary contributions) included in the expenditures reported on NPEFS?

- Yes
- No

D. Are these amounts (i.e. private monetary contributions) included in the revenues and expenditures reported on the F-33 Local School District report?

- Yes
- No

Appendix E—Fiscal Data Plan Questions

4. RETIREMENT BENEFITS

A. Do you include retirement benefit expenditures for staff that have already retired in the employee benefits reported on NPEFS?

- Yes (Please go to A1.)
- No

A1. Please provide an estimate of the percentage of total employee benefits reported on NPEFS that go towards retired staff:

_____ % (whole numbers only)

¹ Charter school data could easily be included in F-33.

² Item 1F5: Approximately half of charter schools submit their data in the standardized account code structure (SACS) format, either as part of their authorizing LEAs or separately. This format includes expenditure detail by function. Charter school data submitted in this format are included in the NPEFS. The other charter schools submit their data in a highly summarized format called the Alternative Form. This format lacks expenditure detail by function. Charter school data submitted in the Alternative Form format are reported at a summarized level in the NPEFS as Direct Program Support. Items 2C and 2D: Charter schools submit their data in one of three ways: 1) As part of the authorizing LEA's data, in the SACS format. These charter schools' data are included in the F-33 and are indistinguishable from that of the LEA. 2) Separately from the authorizing LEA's data, in the SACS format. These charter schools' data are in the data file from which the F-33 is derived. 3) Separately from the authorizing LEA's data, in the Alternative Form format. These charter schools' data are in a different data file from which the F-33 is derived.

³ Charter schools in the District of Columbia are considered individual LEAs for F-33 reporting purposes; therefore, their data are only included in the NPEFS report.

⁴ Charter school data are included in the data, but limited based on the answers in B.

⁵ State law does not require that charter schools provide the Department of Education with financial data to complete the Common Core Report. However, the department has requested revenue and expenditure information from the charter schools but they have failed to respond. Some charter schools still utilize Hawaii Department of Education financial management system. This charter school information is included in the Common Core Report.

⁶ Iowa charter schools are public schools within a public school district.

⁷ The F-33 report contains data for Types 1, 3, and 4 charter schools, but not Type 2 or Type 5 charter schools. The NPEFS report contains data for all charter schools.

⁸ Massachusetts began collecting fiscal data directly from charters in fiscal year 2006 (FY 06), but the data have not been published nor are they reflected in this submission. Nearly all of their budgets are supported from local tuition paid to charters, which are reflected in the tuition lines on NPEFS.

⁹ Expenditures for charter schools are reported in the same manner as other public school districts.

¹⁰ Open enrollment charter school data are included in the regular school district data and would be included in both the NPEFS and F-33 surveys. Other charter school types are not reported in either surveys.

¹¹ The county code for charter schools is 80. The regular districts report state money that is transferred to charter schools.

¹² Charter schools independently report the bulk of their financial data. On the NPEFS and the F-33 only payments by school districts to charter schools are reported.

¹³ Oklahoma charter schools have a fiduciary agent for most funds, but Oklahoma does collect charter schools data on donations and federal dollars independently. They are all reported on both NPEFS and F-33.

¹⁴ Charter schools only report through annual independent audits, not electronically. Oregon Department of Education submits the transfer of funds that go through the sponsoring school district.

¹⁵ All charter schools, with the exception of New England Laborer's Career Construction Academy, are reporting to the Department of Education independently. Beginning with the FY 07 data, they too will be reporting independently to the Department of Education.

¹⁶ Wisconsin has three chartering entities that do not report data, UW-Milwaukee, City of Milwaukee, and UW Parkside.

Appendix H—State Notes

Appendix H—State Notes

The following notes can be used to track known anomalies in state data reported to the collection agent. Unless otherwise noted, each anomaly recorded here applies to fiscal year 2006 (FY 06). The absence of “Notes” for a state indicates that the state’s data did not contain any known anomalies.

Alabama

Fiscal Year: October 1–September 30

Notes:

- Students do not pay fees for transportation.
- The state chart of accounts does not include a code for revenue from tuition, fees, and charges paid by the students to attend summer school.
- The increase from Revenue from Intermediate Sources is attributed to a payment made on behalf of the Jefferson County Schools by Fultondale City for Fultondale Elementary.
- The increase in Other Sources of Revenue is attributed to a bond issue for new construction from Trussville City Board of Education for a new high school.
- Alabama combines reporting of all Title I expenditures (current and carryover).

Alaska

Fiscal Year: July 1–June 30

Arizona

Fiscal Year: July 1–June 30

Notes:

- The increase in Earnings on Investments is due to more districts selling bonds in order to make capital purchases.
- The increase in Purchased Services Expenditures in Instruction is due to more districts contracting out services.
- The increase in General Administration Support Services Expenditures is attributed to a technology overhaul by the Washington Elementary School District.
- The increase in Operations and Maintenance Support Services Expenditures is due to an 11 percent increase in the cost of health insurance and a 2 percent increase in state retirement and additional staff for new schools.

Arkansas

Fiscal Year: July 1–June 30

Notes:

- The increase in Student Transportation Support Services Supplies is from the sharp increase in fuel costs.
- The increase in Employee Benefits for Instruction and Direct Program Support Expenditures is due to the General Assembly legislative initiative that added additional funds to public school employee health insurance to avoid a sharp increase in the employee premiums.

Appendix H—State Notes

California

Fiscal Year: July 1–June 30

Notes:

- California does not derive revenues from the sale or rental of textbooks.
- California local education agencies (LEAs) do not collect tuition from students to attend summer school programs.
- The increase in Direct Program Support reflects the increase in the charter schools that reported in the Alternative Form in fiscal year 2006 (FY 06).
- The .4 percent decrease in average daily attendance (ADA) is similar to the official enrollment count that reflects a similar decrease of approximately 1 percent.

Colorado

Fiscal Year: July 1–June 30

Notes:

- Before-and-After care expenditures are reclassified as instructional.

Connecticut

Fiscal Year: July 1–June 30

Notes:

- The state allocates their food services expenditure data into the appropriate objects using national percentages from the prior year.
- Connecticut does not collect data from local school districts for the District Activities item.
- Connecticut does not collect community services data from local school districts.

Delaware

Fiscal Year: July 1–June 30

District of Columbia

Fiscal Year: July 1–June 30

Notes:

- Direct Support – Other represents charter schools.

Florida

Fiscal Year: July 1–June 30

Appendix H—State Notes

Georgia

Fiscal Year: July 1–June 30

Notes:

- Atlanta Public Schools (APS) increased amounts spent for contractor services – teacher and technology specialists.
- The increase in Student Transportation Support Services Supplies is due to increased fuel costs.
- The increase in Direct Support – On Behalf Payments – Other is due to increased legislative appropriation. Expenditures increase in state schools and a new Virtual School.
- The increase in Direct Support – On Behalf Payments – Employee Benefits is attributed to health insurance increase.
- The increase in Total Property is due to the increase in Facilities Acquisition and Construction increases for multiple building projects in three Atlanta Metro districts.

Hawaii

Fiscal Year: July 1–June 30

Notes:

- Hawaii does not receive property or nonproperty tax for education.
- Hawaii does not have Instruction – Tuition Expenditures to other LEAs.
- The increase in Students Support Services – Purchased Services is due to a \$14 million increase in services for developmentally delayed/retarded youth service procured by Hawaii Department of Education for FY 06.

Idaho

Fiscal Year: July 1–June 30

Illinois

Fiscal Year: July 1–June 30

Notes:

- The increase in Local Nonproperty Tax is due to Chicago’s increase of 70 percent.

Indiana

Fiscal Year: July 1–June 30

Iowa

Fiscal Year: July 1–June 30

Notes:

- The increase in Support Services – Purchased Services is due to districts being given incentives to share privatized services.
- The decrease in Enterprise Operations is due to reclassification of enterprises that are community services.

Appendix H—State Notes

Kansas

Fiscal Year: July 1–June 30

Notes:

- Tuition from Other LEAs was miscoded in FY 05. For FY 06, the amounts are appropriately coded to Other Local Revenue.

Kentucky

Fiscal Year: July 1–June 30

Louisiana

Fiscal Year: July 1–June 30

Notes:

- The increase in Federal Revenue is due to the increase in Federal Aid to offset the effects of Hurricanes Katrina and Rita.
- Louisiana did not report any District Activity Revenue in FY 06.
- Due to the effect of Hurricanes Katrina and Rita, school systems accepted many displaced students. Several school districts coded all of these expenditures to Instruction.
- Large increases in Operations and Maintenance are due to repair of damaged facilities due to the effects of Hurricanes Katrina and Rita.
- The increase in Student Transportation Support Services is due to the increase in the cost of diesel fuel.
- The increase in Other Support Services – Purchased Services is due to one district’s hiring of a financial management firm to increase the accuracy of the financial accounting records.
- Other Direct Program Support includes data for the following:
 - Louisiana School for the Deaf
 - Louisiana Special Education Center
 - Louisiana School for Math, Science & Arts
 - New Orleans Center for Creative Arts
 - Special School Districts
 - Department of Corrections (Swanson, Jetson, and Bridge City)
 - Recover School District
- Increases in Direct Cost Expenditures are due to displaced students enrolling in nonpublic schools.
- The increase in Total Property is due to equipment purchased necessary to service and accommodate displaced students and also to replace damaged or lost equipment.
- The decrease in ADA reflects the state’s downward trend in its student population for a number of years and the displacement of students by Hurricanes Katrina and Rita.

Maine

Fiscal Year: July 1–June 30

Notes:

- Food Services data are calculated by the Census Bureau using Maine’s food and nutrition data files supplied by the state.

Appendix H—State Notes

Maryland

Fiscal Year: July 1–June 30

Notes:

- The increase in Other Revenue from Local Sources over the previous fiscal year is mostly from Prince George’s County Public Schools. This LEA reports the increase in the School Construction Fund, the Food Service Fund, and the General Fund.

Massachusetts

Fiscal Year: July 1–June 30

Notes:

- The increase in State Revenue is due to the school building authority raising its payment threshold.
- The increase in Instruction – Tuition is due to the state reclassifying this category to include collaboratives and municipal tuition for charter schools. Collaborative expenditures were formerly reported in Direct Cost.
- Expenditures for Instruction data are more accurate than FY 05 due to a more accurate collection method commencing in FY 06.

Michigan

Fiscal Year: July 1–June 30

Minnesota

Fiscal Year: July 1–June 30

Notes:

- Other Direct Program Support includes data for the following:
 - Bureau of Indian Education Tribal Schools
 - Private Alternative Schools
 - Department of Corrections
 - Fairbault Academies
 - Perpich Center for Arts Education
 - Enrollment Options

Mississippi

Fiscal Year: July 1–June 30

Notes:

- The increase in Federal Revenue is due to increased appropriations for Hurricane Katrina relief.
- The increase in Total Revenue is impacted by donations received for the Hurricane Katrina relief efforts.
- Increases in Instruction Expenditures are due to school districts replacing supplies and equipment, and providing supplemental tutorial services for displaced students.
- Increases in Operations and Maintenance are due to the costs associated with restarting schools, renovating and adding classroom space, and higher utility costs.
- Increases in Student Transportation Support Services are due to the increases in gasoline prices.

Appendix H—State Notes

Missouri

Fiscal Year: July 1–June 30

Notes:

- Increases in Student Transportation Support Services are due to the increases in gasoline prices.

Montana

Fiscal Year: July 1–June 30

Nebraska

Fiscal Year: September 1–August 31

Notes:

- The increase in Direct Federal Revenue is due to an increase in Head Start funds.

Nevada

Fiscal Year: July 1–June 30

New Hampshire

Fiscal Year: July 1–June 30

New Jersey

Fiscal Year: July 1–June 30

New Mexico

Fiscal Year: July 1–June 30

New York

Fiscal Year: July 1–June 30

North Carolina

Fiscal Year: July 1–June 30

Notes:

- District Activity Funds records are not kept by the LEA finance offices and are never reported to the state.
- Long-term debt expenditures are not reported by the state. The Census Bureau receives these amounts from the County Commissioners Association.
- Student Support Services were underreported in FY 05.
- Operations and Maintenance Support Services were underreported in FY 05.
- Prior year expenditures excluded Title I and Title V expenditures twice (in current expenditures and exclusions from current expenditures). The state per pupil expenditure was thus understated in the prior year. Data for FY 06 do not include these items in current expenditures).
- A number of Food Management contracts are discontinued in some large LEAs causing the decrease in Food Services – Purchased Services.

Appendix H—State Notes

North Dakota

Fiscal Year: July 1–June 30

Ohio

Fiscal Year: July 1–June 30

Oklahoma

Fiscal Year: July 1–June 30

Oregon

Fiscal Year: July 1–June 30

Pennsylvania

Fiscal Year: July 1–June 30

Rhode Island

Fiscal Year: July 1–June 30

South Carolina

Fiscal Year: July 1–June 30

South Dakota

Fiscal Year: July 1–June 30

Tennessee

Fiscal Year: July 1–June 30

Texas

Fiscal Year: September 1–August 31

Notes:

- Districts had increased expenditures related to Hurricane Rita and Katrina to provide services and programs for evacuees from other municipalities resulting in increased Other Support Services.

Utah

Fiscal Year: July 1–June 30

Appendix H—State Notes

Vermont

Fiscal Year: July 1–June 30

Notes:

- Vermont’s statutory change equalizing revenue per unit of property tax effort has made most LEA revenues state source revenues.
- Vermont has a number of districts that do not operate schools for some or any grades. These districts pay tuition or students may attend any public or approved independent school. The districts can also become members of union districts that operate schools for those grades. In union districts, in the latter case, the districts are paying union assessment fees. In National Public Education Financial Survey (NPEFS) and School District Finance Survey (F-33) these union assessments are also reported as tuition. Starting in FY 09, the union assessments will be abolished. Under state law revenue will go directly to unions.

Virginia

Fiscal Year: July 1–June 30

Notes:

- District Activity Revenues are not collected in this state.

Washington

Fiscal Year: July 1–June 30

West Virginia

Fiscal Year: July 1–June 30

Notes:

- Increased Nonproperty Taxes are due to larger receipts from the Interstate Registration Plan fees and penalties and interest on taxes.

Wisconsin

Fiscal Year: July 1–June 30

Wyoming

Fiscal Year: July 1–June 30

Notes:

- Assessed valuations (local property tax) increased in FY 06; thus, the state portion to the districts decreased over the prior year.
- Increased amounts for supplies for Student Transportation Support Services are due to increased fuel costs.

American Samoa

Fiscal Year: October 1–September 30

Notes:

- Other Revenue source for the prior year was the SLD E-rate. No funds from that source were received in FY 06.

Appendix H—State Notes

Guam

Fiscal Year: October 1–September 30

Notes:

- The ADA figure is not available. The figure used is for FY 01.

Commonwealth of the Northern Mariana Islands

Fiscal Year: October 1–September 30

Notes:

- The Food Services reporting reflects an expanding nutrition program and the addition of summer and after school programs.
- Commonwealth of the Northern Marianas Islands does not collect expenditure data for Community Services.

Puerto Rico

Fiscal Year: July 1–June 30

U.S. Virgin Islands

Fiscal Year: October 1–September 30

Notes:

- ADA has decreased due to students leaving the territory.
- The per pupil expenditure increase reflects declining student enrollment and a major increase in student transportation expenditures.
