The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

I. Introduction to the NCES Common Core of Data National Public Education Financial Survey (NPEFS), School Year 2006–07 (Fiscal Year 2007), Final File Version 1a

This documentation is for the final file (Version 1a) of the National Center for Education Statistics (NCES) Common Core of Data (CCD) National Public Education Financial Survey (NPEFS) for school year 2006–07, fiscal year 2007 (FY 07). It contains a brief description of the data collection along with information required to understand and access the data file. The NPEFS data collection is conducted by NCES, a branch of the Institute of Education Sciences in the U.S. Department of Education, and the Governments Division of the U.S. Census Bureau. NCES is authorized to collect these data by Congress through the National Education Statistics Act of 1995, section 404(a), 20 U.S.C. 9003(a).

The purpose of the NPEFS Survey is to provide district, state, and federal policymakers, researchers, and other interested users with descriptive information about revenues and expenditures for public elementary and secondary education. The data collected are useful to (1) chief officers of state education agencies; (2) policymakers in the executive and legislative branches of federal and state governments; (3) education policy and public policy researchers; and (4) the public, journalists, and others.

Data for the NPEFS are collected from state education agencies (SEAs) in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). The data file is organized by state or jurisdiction and contains revenue data by source and expenditure data by function and object.¹ The data file also contains average daily attendance data as well as total student membership data from the 2006–07 CCD State Nonfiscal Survey of Public Elementary/Secondary Education.

II. User's Guide

The FY 07 NPEFS data file contains 56 records (one for each SEA from which data are collected), and each record contains 300 fields (4 record identification fields, 148 data fields, and 148 imputation flag fields). The record layout is provided in appendix A.

The remaining appendixes provide the following information:

- Appendix B—glossary with definitions of key variables;
- Appendix C—state abbreviations and Federal Information Processing Standards (FIPS) state codes;
- Appendix D—state-by-state list of imputations and adjustments;
- Appendix E—fiscal data plan questions;
- Appendix F—state-by-state responses to the fiscal data plan questions;
- Appendix G—frequencies of imputation flags and minimum, maximum, and mean of numeric variables;
- Appendix H—fiscal year definitions and specific state notes; and
- Appendix I—the survey form.

¹ *Function* is defined as a category of expenditure defining the activity supported by the service or commodity bought, while *object* is defined as a category of expenditure defining the service or commodity bought. For more definitions of terms used in this report, please see Appendix B—Glossary.

File versions

Starting in 1999–2000, CCD data file names were changed to include a two-digit version number. The final files are assigned a version number beginning with 1 (one). The character following 1 indicates the version number of the file. For example, a “1a” file is the first (original) final file, and a “1b” file is the second (revised) final file.

NCES releases a final file (Version 1a) after a publication using the data has been released. (NCES standards require that an NCES publication using the data be released before the data are considered final.) If NCES receives revised data from states or discovers errors in the final data file, a revised file (Version 1b) is released. The documentation for the revised file indicates which states submitted revised data. The revised file is usually released 1 year after the original (Version 1a) final file.

File names

The names of the FY 07 releases are as follows:

- Stfis071a.xls (Microsoft Excel file)
- Stfis071a.txt (text file)

The first seven characters indicate the file contents and year, and the last two characters indicate the file version. “Stfis” stands for state fiscal, “07” stands for FY 07, “1” indicates that the file is ready for final release by NCES, and “a” indicates this is the first version of the final file by NCES.

A. Survey Methodology

The NPEFS consists of data collected from SEAs in the 50 states, the District of Columbia, Puerto Rico, and four other jurisdictions (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands). SEAs compile these data from reports submitted by local education agencies (LEAs) that operate public schools. SEAs may examine and edit these reports. SEAs also include data for any state-run schools, such as special education programs or prison schools serving inmates under the age of 20. NCES and SEAs work cooperatively to ensure comparability between the data items requested and reported.

Missing and nonapplicable data

Missing data are reported as “-1” in the data file; nonapplicable data are reported as “-2.”² NCES requests that states report “0” for data items for which no activity has occurred and missing (“-1”) for items for which activity has occurred, but for which data are missing. A review of the data and subsequent discussions suggest that these practices are not always followed. In some instances, a “-1” may have been reported when there was no activity. Conversely, a “0” may have been reported when, in fact, there was some activity. When producing the final file, NCES edits some “-1” and “0” responses.

² For example, in states where none of the school districts have independent tax-raising authority, the variables Local Revenue Property Tax (R1A) and Local Revenue Nonproperty Tax (R1B) are reported as “-2.”

Average daily attendance data and student membership counts

Average daily attendance (ADA) data are collected in the NPEFS as required under Title I of the Elementary and Secondary Education Act of 1965 (as amended by Title I of the Improving America's Schools Act of 1994). Under this law, states report ADA data in accordance with state law; however, NCES provides a definition for states to use in the absence of state law. Per pupil expenditures (calculated by dividing net current expenditures by average daily attendance) are used to allocate Title I and other program funds to states and school districts. Since some states use their own ADA definitions and others use the NCES definition, ADA data in the NPEFS data file are not comparable across states. Student membership data from the 2006–07 CCD State Nonfiscal Survey of Public Elementary/Secondary Education are included in the data file as a more comparable student count. The variable Student Membership (MEMBR06) is the count of students enrolled on or about October 1, 2006.

NCES crosswalk software

Since the FY 89 data collection, NCES has provided “crosswalk” software to assist states in their reporting and to improve the comparability of data across states. This software converts a state’s existing accounting reports to uniform federal standards, as described in the NCES accounting handbook, *Financial Accounting for Local and State School Systems: 2003 Edition* (National Forum on Education Statistics, Core Finance Data Task Force 2003). NCES reviews and validates the protocols of states that do not use this crosswalk software to convert their state reports to federal standards. Crosswalk software was provided for Alabama, California, Georgia, Illinois, Maine, Mississippi, Montana, New Jersey, New Mexico, New York, North Carolina, North Dakota, Oregon, Pennsylvania, South Carolina, South Dakota, and Texas in the FY 07 collection.

NCES edit checks

After an SEA submits data, an edit is conducted and an edit report is sent back to the SEA listing the previous and current year’s data and the percentage increase (or decrease) of every item. Notification of any arithmetic errors and comments containing NCES’s understanding of specific missing data items are also included with the edit report. States are asked to correct addition errors, verify or correct information on missing items, and explain any extraordinary changes from the previous year’s data.

B. Imputations and Adjustments

NCES introduced the practice of imputing and adjusting data to correct for missing or misreported data beginning with the data collection for school year 1989–90 (FY 90). Imputations and adjustments are limited to the 50 states and the District of Columbia.³ The process consists of several steps, which vary according to the nature of the missing or misreported data. A state-by-state list of items affected by imputations and adjustments is presented in appendix D.

³ Adjustments for direct support expenditures (for and on behalf of school districts) are performed on data from the Commonwealth of the Northern Mariana Islands, Guam, and U.S. Virgin Islands, and adjustments for food services expenditures are performed on data from Puerto Rico.

Imputations

Imputations correct cases in which a value is not reported for an item at all, indicating that total variables consisting of the unreported item are underreported. For example, a state might have revenues from other sources but did not report the value, which results in the reported total revenues being less than the actual total revenues. An imputation by NCES assigns a value to revenues from other sources, and total revenues are increased by the amount of the imputation. The same method is used for imputing revenues and expenditures. Revenues are imputed using total revenues, and expenditures are imputed using total expenditures. Imputed data are coded as “I” in the data flag section of the file.

“Impute based on” imputations. Statements with “impute based on” indicate that the first item was reported as missing and the missing value was assigned based on information from the variables following “based on.” For example, assume that a state had Local Revenues – Student Activities (R1K), but did not report them. The statement “R1K impute based on TR” means that the value for Local Revenues – Student Activities (R1K) was assigned based on Total Revenues From All Sources (TR). The method used for imputing a value for Local Revenues – Student Activities (R1K) is to (1) calculate the ratio of R1K to Total Revenues From All Sources (TR) for each state reporting these items “strictly by the definition”;⁴ (2) calculate the average of these ratios; and (3) multiply the Total Revenues (TR) of the state with the missing student activities revenue item times the average ratio.

In some instances, the “based on” statement is followed by a difference between two variables (e.g., “E81 impute based on (TE11-E81)”). This statement means that the value for Community Service – Nonproperty (E81) was imputed by (1) calculating the ratio of Community Service – Nonproperty (E81) to the difference of Total Expenditures (TE11) and Community Service – Nonproperty (E81) for each state reporting these items “strictly by the definition”; (2) calculating the average of these ratios; and (3) multiplying Total Expenditures (TE11) of the state with the missing Community Service – Nonproperty (E81) times the average ratio.

Adjustments

Adjustments correct cases in which a value reported for one item contains a value for one or more additional items not reported elsewhere. For example, a state might not differentiate between instructional support staff and student support staff, reporting “missing” for student support staff salaries and a value for instructional support staff salaries that includes both items. NCES would adjust these two responses by reducing the amount reported for instructional support staff salaries and adding that amount to student support staff salaries. The total for salaries and total expenditures would not be affected by this adjustment.

There are several recently-added data items that NCES does not adjust even though missing data in one item are combined with another item. The missing data on textbook expenditures (E2) are included in the amounts reported for Instructional Expenditures – Supplies (E16). The missing data on teacher salary items (Regular Programs (E11A), Special Education Programs (E11B), Vocational Education Programs (E11C), and Other Education Programs (E11D)) are included in the amounts reported for Instructional Expenditures – Salaries (E11). These cases are not adjusted by NCES in this data file.

⁴ States reporting an item “strictly by the definition” are those states reporting values greater than zero for each of the items involved in the imputation, and none of whose values are affected by another “contains” or “combined with” adjustment, as described later in the text.

Since adjustments consist of redistributing a reported value, any adjustment affects at least two variables.

There are several variations in the way adjustments are carried out, described below and listed in appendix D.

“Combined with” and “contains” adjustments. Because an adjustment subtracts a value from an item in which it was misreported, adjustment statements always come in pairs such as “A combined with B” and “B contains A.” For both statements, the value for items A and B was reported by the state as item B. The adjustment process takes a portion of the amount reported for B, subtracts it from B and adds that value to item A. For example, “E212 combined with E11” means that the value for Support Expenditures – Salaries – Student Support Services (E212) was included in the value reported for Instructional Expenditures – Salaries (E11). The complementary statement, “E11 contains E212,” means that the value for Instructional Expenditures – Salaries (E11) was reduced by the adjustment, and the value for Support Expenditures – Salaries – Student Support Services (E212) was increased by the same amount. In most cases, the adjustments are based on ratios of the items to Total Expenditures for Education (TE11) or Total Revenues From All Sources (TR).

The method used to perform “combined with” and “contains” adjustments is as follows: (1) calculate the ratios of each missing item and the item containing the missing values to the total indicated at the end of the “contains” statement for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item.

“Supplemented by” adjustments. There are instances in which a state only reports a subtotal for a series of expenditures. “Supplemented by” and “totals” statements are the pair of statements associated with this type of adjustment. “A supplemented by B” and “B totals A and C” indicate that the subtotal B consists of the sum of A and C. The state has reported the subtotal (B) but not the detail making up the subtotal. For example, “E3B11 supplemented by E3B1” means that the adjustment took a portion of the amount reported in E3B1 and added it to E3B11. It also means that the state only reported the subtotal E3B1 and not the detail data item E3B11. “E3B1 totals E3B11, E3B12, E3B13, E3B14, E3B16” means that the adjustment took the amount that was reported for the subtotal E3B1 and distributed it to each of the items that make up that subtotal. It also means that the state only reported the subtotal E3B1 and did not report the detail making up the E3B1 subtotal.

The method of adjustment is as follows: (1) calculate the ratios of each missing item and the items containing the missing values to Total Expenditures for Education (TE11) for all states reporting these items strictly by the definition; (2) calculate the average of each of these ratios; (3) calculate the ratio of each average ratio to the sum of the average ratios; and (4) multiply the reported subtotal by the ratios calculated in step 3 to determine the share for each item.

“Distribute by” adjustments. Adjustments identified as “distribute by” are used only to distribute direct state support expenditures to the specific objects and functions listed in the statement. The objects or functions are referred to as the “destination” for this adjusted value. In all but one type of case, expenditures are distributed using the ratio of items to which the reported value is distributed. That is, the method calculates the ratio of each item in the “destination” list to the total of all items in the “destination” list and then distributes the direct state support expenditures to each item proportionately.

For example, “E4B1 distribute by dest. E217, E227, E237, E247, E267” means the value for Direct Program Support – Transport (E4B1) is distributed based on the distribution of the items following “dest.,” i.e., Support Expenditures – Salaries – Pupil Transportation (E217), Support Expenditures – Employee Benefits – Pupil Transportation (E227), Support Expenditures – Purchased Services – Pupil Transportation (E237), Support Expenditures – Supplies – Pupil Transportation (E247), and Support Expenditures – Other – Pupil Transportation (E267). E4B1 times the ratio of $E217 / (E217 + E227 + E237 + E247 + E267)$ would be added to the amount in E217. E4B1 times the ratio of $E227 / (E217 + E227 + E237 + E247 + E267)$ would be added to the amount in E227, and so on. In a few cases, the amount is “distributed” to only one item.

The adjustment used to distribute Direct Program Support – Employee Benefits (E4C1) is the one case that is different from the “distribute by” method described above. The method used in this case is to calculate the ratio of each salary item to the sum of all listed salary items and to then distribute Direct Program Support – Employee Benefits proportionately across all items. For example, “E4C1 distribute by salary E12, E222, E223, E224, E225, E226, E227, E228, E3A12 using E11, E212, E213, E214, E215, E216, E217, E218, E3A11” means that the reported value for Direct Program Support – Employee Benefits is distributed to specific employee benefit items (Instructional Expenditures – Employee Benefits, Support Expenditures – Employee Benefits – Student Support Services, Support Expenditures – Employee Benefits – Instructional Staff Support, etc.) based on the distribution of salaries for these functions.

To be specific, in the example given above the formula for the amount added to Instructional Expenditures – Employee Benefits (E12) would be: Amount added to E12 = $E4C1 \times (E11 / (E11 + E212 + E213 + E214 + E215 + E216 + E217 + E218 + E3A11))$.

Direct support distributions are performed after all other imputations and adjustments have been performed.

Beginning with the SY 2005–06 (FY 06) file, all items affected by the direct support distributions have been flagged as “A.”

The order in which these imputations and adjustments are performed is as follows: (1) impute; (2) adjust using “combined with” and “contains” methods; (3) adjust using “supplemented by” method (totals statement); and (4) adjust using “distribute by” methods. Totals and subtotals are recalculated after each step. All totals and subtotals affected by adjustments or imputations are flagged as “T” in the data flag section of the file.

Prekindergarten count imputations and student membership adjustments

Student membership data are collected by grade in the CCD State Nonfiscal Survey of Public Elementary/Secondary Education; however, only the total student membership data for grades prekindergarten through grade 12 (plus ungraded) are included in the NPEFS data file. Since some states do not report data on prekindergarten students, prekindergarten student counts are imputed for these states and added to the total student count. In school year 2006–07 (FY 07), the prekindergarten student counts for California and Kentucky are imputed.

Respondents for the NPEFS were asked to review student membership data from the CCD State Nonfiscal Survey of Public Elementary/Secondary Education to make sure that the membership data were for programs whose revenues and expenditures are reported on NPEFS. Six states (Iowa, Missouri, Montana, Nebraska, North Carolina, and Wyoming) indicated that prekindergarten programs were not included in the NPEFS data, and so counts of these students were subtracted from the student membership data reported on the State Nonfiscal Survey of Public Elementary/Secondary Education for use on the NPEFS. Wisconsin does not include

finance data for charter schools in its NPEFS data. Student membership for Wisconsin was adjusted to exclude charter school membership. The membership for Wisconsin was derived from the CCD School District Finance Survey.

Data flags

For each variable, there is a companion flag that indicates whether the value was reported by the state or was placed there by NCES using one of several imputation or adjustment methodologies. The flags are as follows:

- R - As reported by the state
- A - Adjusted
- I - Imputed based on a method other than prior year's data⁵
- T - Total based on sum of internal or external detail

The companion cell in each case is identified by the name of the data cell preceded by an "I." Appendix D explains any action taken by NCES with regard to each variable.

C. Variations in the Survey Over Time

The NPEFS underwent a major revision in FY 89, acquiring its present name in that year and greatly increasing the number of data items collected. Since that year, items have been added to and deleted from the survey, as follows:

- *Beginning with the FY 92 survey:*
 - Food Services expenditures were broken out by object, adding items Food Services – Salaries (E3A11), Food Services – Employee Benefits (E3A12), Food Services – Purchased Services (E3A13), Food Services – Supplies (E3A14), and Food Services – Other (E3A16).
 - Enterprise Operations expenditures were broken out by object, adding items Enterprise – Salaries (E3B11), Enterprise – Employee Benefits (E3B12), Enterprise – Purchased Services (E3B13), Enterprise – Supplies (E3B14), and Enterprise – Other (E3B16).
 - Facilities Acquisition and Construction Services - Nonproperty expenditures were broken out into Buildings Built and Alterations Performed by LEA's Own Staff (E611) and Buildings Built and Alterations Performed by Contractors (E612). In addition, Facilities Acquisition and Construction Services – Property expenditures were broken out into Land (E62A) and Buildings (E62B). STE6, the sum of all of the Facilities Acquisitions and Construction Services items, was added.
- *Beginning with FY 98 survey:*
 - The Facilities Acquisition and Construction Services breakouts listed above (items E611, E612, E62A and E62B) were discontinued.
- *Beginning with FY 04 survey:*
 - Teacher Salaries expenditures were broken out by program, adding items Teacher Salaries – Regular Programs (E11A), Teacher Salaries – Special Education Programs

⁵ For some NCES surveys, imputations of missing data items are performed by applying a growth factor to data reported in a prior year. This type of growth-rate imputation is not performed for the NPEFS. "I" is assigned the value of "Imputed based on a method other than prior year's data" to maintain consistency in the meaning of imputation flags across NCES surveys.

(E11B), Teacher Salaries – Vocational Education Programs (E11C), and Teacher Salaries – Other Education Programs (E11D).

– The item for the textbooks expenditures (E2) was added.

D. Fiscal Data Plan

In addition to the finance data specified in the NPEFS, NCES also collects information from each state to help process the data and to gain a better understanding of what programs and/or policies are connected with the data items and definitions. The FY 07 data plan questionnaire appears in appendix E, and the responses (by state or jurisdiction) appear in appendix F. The fiscal data plan responses are presented as reported by SEAs with minimal editing by NCES. The responses to the data plan are not included on the data file.

E. State Notes

The state notes contain information from state data providers regarding any significant changes in the data they are reporting. These comments are reported in this documentation as stated by the respondent with minimal editing by NCES. The beginning and end dates of the fiscal year are also reported for each state.

Appendix B—Glossary

Appendix B—Glossary

This glossary applies to the National Public Education Financial Survey (NPEFS). For additional detail, it is suggested that the data user consult the NCES accounting handbook, *Financial Accounting for Local and State School Systems* (National Forum on Education Statistics, Core Finance Data Task Force 2003). When applicable, line numbers corresponding to the handbook are listed in parentheses, and corresponding NPEFS variables are listed in brackets.

average daily attendance: Average daily attendance (ADA) is defined by state law or regulations. In their absence, ADA should be calculated by summing the counts of resident students attending public school each day of the school year and then dividing by the total number of days that school was in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside. [ADA, A14A, and A14B.]

CCD: Common Core of Data. A group of public elementary/secondary education surveys of NCES. CCD data are collected from the administrative records systems of each state's department of education.

community services: A functional category of expenditures (3300) for such services as swimming pools, day care centers, and programs for the elderly. [E81 and E82.]

current expenditures: Current expenditures comprise the functional categories of instruction (1000), support services (2000), and noninstructional services (3000). Current expenditures are those expenditures for the day-to-day operation of public elementary and secondary education and are distinct from long-term expenditures and expenditures for other types of education. Property expenditures are excluded from current expenditure subtotals. [TE5 is the total of STE1, STE2T, and STE3.]

debt services: A subfunction (5100) within the expenditure function "other uses" (5000). It includes only long-term debt service with obligations exceeding 1 year. [E7A1 and E7A2.]

direct cost programs: A category of expenditures for programs not part of public elementary and secondary education. These programs include community colleges, adult education, and nonpublic school support. [E9A, E9B, E9C, E9D, E91, and subtotal STE9. NOTE: STE9 does not include E91.]

direct program support: Expenditures made by state education agencies (SEAs) for, or on behalf of, local education agencies (LEAs). The majority of these expenditures are for teacher's retirement funds. The remainders are for textbooks, busing, and special programs, such as education for disabled students. Although states often report these expenditures in the appropriate function, they are sometimes lumped together under the heading "direct program support," in which case NCES distributes them by function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported in the data file as zero. [E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.]

Appendix B—Glossary

employee benefits: Expenditures (200) made in addition to gross salary that are not paid directly to employees. Employee benefits include amounts paid by, or on behalf of, an LEA for retirement contributions, health insurance, social security contributions, unemployment compensation, worker's compensation, tuition reimbursements, and other employee benefits. [E12, E222, E223, E224, E225, E226, E227, E228, E3A12, and E3B12. Variables E222, E223, E224, E225, E226, E227, and E228 sum to TE22.]

enterprise operations: A subfunction (3200) of noninstructional services (3000). Enterprise operations are activities that are financed, at least in part, by user charges, similar to a private business. These operations are sometimes subsidized by LEAs. Food services expenditures are reported food services, even if they are run as an enterprise. [E3B11, E3B12, E3B13, E3B14, E3B2, E3B16, and subtotal E3B1. NOTE: E3B1 does not include E3B2.]

equipment: An object subcategory (730) within facilities acquisition and construction services (4000). It includes the initial purchase of property items such as books for a newly constructed school or addition. Replacement equipment is labeled property and is reported by function. [E63]

expenditures: All amounts of money paid out by a school system, net of recoveries and other correcting transactions, other than for retirement of debt, purchase of securities, extension of loans, and agency transactions. Expenditures include only external transactions of a school system and exclude noncash transactions such as the provision of perquisites or other in-kind payments.

facilities acquisition and construction services: An expenditure function (4000) that includes the acquisition of land and buildings; building construction, remodeling, and additions; the initial installation or extension of service systems and other built-in equipment; and site improvement. [E61, E62, E63, and subtotal STE6.]

federal revenues: Reported in four categories: (1) unrestricted and restricted grants-in-aid directly from the federal government, (2) unrestricted and restricted grants-in-aid directly through the state, (3) grants-in-aid through other intermediate agencies, and (4) other federal revenues (including payments in lieu of taxes). [R4A, R4B, R4C, R4D, and subtotal STR4.]

food services: A subfunction (3100) of noninstructional services (3000). Food services are activities that provide food to students and staff in a school or LEA. These services include preparing and serving regular and incidental meals or snacks in connection with school activities as well as delivery of food to schools. [E3A11, E3A12, E3A13, E3A14, E3A2, E3A16, and subtotal E3A1. NOTE: E3A1 does not include E3A2.]

function: A category of expenditure defining the activity supported by the service or commodity bought.

general administration: One of nine subfunctions (2300) within the expenditure function support services (2000). It includes expenditures for the board of education and

Appendix B—Glossary

administration of LEAs. [E214, E224, E234, E244, E254, E264, and subtotal STE24. NOTE: STE24 does not include E254.]

instruction: Defined as the activity between teachers and students. Instruction expenditures include salaries and benefits for teachers and instructional aides, supplies, and purchased services such as instruction via television. Tuition expenditures to other LEAs are also included. [E11, E12, E13, E14, E15, E16, E17, E18, and subtotal STE1. Variables E15 and E17 are not included in STE1.]

instructional staff support services: One of nine subfunctions (2200) within the expenditure function support services (2000). It includes instructional staff training, educational media (library and audiovisual), and other instructional staff support services. [E213, E223, E233, E243, E253, E263, and subtotal STE23. NOTE: STE23 does not include E253.]

intermediate sources of revenue: Education agencies with fundraising capabilities that operate between the state and local government levels. One example is New York's Board of Cooperative Educational Services (BOCES). Intermediate revenues are included in local revenue totals. [R2]

local education agency (LEA): An agency at the local level whose primary responsibility is to operate public schools or to contract for public school services. An LEA is also called a school district.

local revenues: Revenues from such sources as local property and nonproperty taxes, investments, and student activities such as textbook sales, transportation and tuition fees, and food service revenues. Local revenues include revenues from intermediate sources. [R1A, R1B, R1C, R1D, R1E, R1F, R1G, R1H, R1I, R1J, R1K, R1L, R1M, R1N, and subtotal STR1. R1F and R1H are not included in STR1.]

NPEFS: National Public Education Financial Survey, a component of the Common Core of Data (CCD).

object: A category of expenditure defining the service or commodity bought.

operations and maintenance: One of nine subfunctions (2600) within the expenditure function support services (2000). It includes expenditures for the supervision of operations and maintenance, the operation of buildings, the care and upkeep of grounds and equipment, vehicle operations (other than student transportation) and maintenance, and security. [E216, E226, E236, E246, E256, E266, and subtotal STE26. NOTE: STE26 does not include E256.]

other support services: Combines three of nine subfunctions (2500, 2800, and 2900). It includes expenditures for business support services (activities concerned with the fiscal operation of the LEA), central support services (activities, other than general administration, which support each of the other instructional and support services programs, including planning, research, development, evaluation, information, and data

Appendix B—Glossary

processing services), and other support services expenditures not reported elsewhere. [E218, E228, E238, E248, E258, E268, and subtotal STE28. NOTE: STE28 does not include E258.]

property: One of six expenditure objects (700). Property includes expenditures for initial, additional, and replacement furniture and fixtures such as desks, file cabinets, computers, copying machines, printing equipment, and other equipment. Property expenditures are not included in current expenditure subtotals. [E17, E252, E253, E254, E255, E256, E257, E258, E3A2, E3B2, E62, E63, E82, E91, and subtotal TE10. Property variables are excluded from all totals and subtotals in the file except for variables TE25, TE10, and TE11. Support services subtotal TE25 is the sum of E252, E253, E254, E255, E256, E257, and E258.]

purchased services: One of six expenditure objects. It is for professional and technical services and the renting of equipment. [E13, E232, E233, E234, E235, E236, E237, E238, E3A13, and E3B13. TE23 is the sum of E232, E233, E234, E235, E236, E237, and E238.]

revenues: Additions to assets that do not incur an obligation that must be met at some future date, do not represent exchanges of fixed assets, and are available for expenditure by the LEAs in the state. Revenues include funds from local, intermediate, state, and federal sources.

salaries: One of six expenditure objects (100). It includes the gross salaries of permanent and temporary staff on the payroll of LEAs, including those substituting for permanent employees. Salaries for full- and part-time staff are included along with overtime and salaries for staff on sabbatical leave. Also included are supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. [E11, E212, E213, E214, E215, E216, E217, E218, E3A11, and E3B11. Support services subtotal TE21 is the sum of E212, E213, E214, E215, E216, E217, and E218.]

school administration: One of nine subfunctions (2400) within the expenditure function support services (2000). It includes expenditures for the office of the principal, full-time department chairpersons, and graduation expenses. [E215, E225, E235, E245, E255, E265, and subtotal STE25. STE25 does not include E255.]

state revenues: Revenues received by the LEA from the state are reported in a single total. This total includes unrestricted grants-in-aid, restricted grants-in-aid, revenue in lieu of taxes, and payments for, or on behalf of, LEAs. [R3]

student membership: Total student enrollment on October 1 (or the closest day to October 1) for all grade levels (prekindergarten, kindergarten, grades 1 through 12, and ungraded students). This count includes students both present and absent on the measurement day.

Appendix B—Glossary

student support services: One of nine subfunctions (2100) within the expenditure function support services (2000). It includes attendance and social work, guidance, health, psychological services, speech pathology, audiology, and other student support services. [E212, E222, E232, E242, E252, E262, and subtotal STE22. NOTE: STE22 does not include E252.]

student transportation: One of nine subfunctions (2700) within the expenditure function support services (2000). It includes expenses for the supervision, vehicle operation, monitoring, and vehicle servicing and maintenance associated with student transportation services. [E217, E227, E237, E247, E257, E267, and subtotal STE27. NOTE: STE27 does not include E257.]

supplies: One of six expenditure objects (line item 600). Supplies are items that are consumed, wear out, or deteriorate through use, or items that lose their identity through fabrication or incorporation into different or more complex units or substances. These include expenditures for general supplies; paper and other materials required for printing and copying; and books, periodicals, and reference materials. [E16, E242, E243, E244, E245, E246, E247, E248, E3A14, and E3B14. Support services subtotal TE24 is the sum of E242, E243, E244, E245, E246, E247, and E248.]

support services: An expenditure function (2000) divided into nine subfunctions: student support services (2100), instructional staff support (2200), general administration (2300), school administration (2400), operations and maintenance (2600), student transportation (2700), and other support services (2500, 2800, 2900). [Support services subtotal STE2T is the sum of subtotals STE22, STE23, STE24, STE25, STE26, STE27, and STE28. STE2T is also the sum of subtotals TE21, TE22, TE23, TE24 and TE26.]

teacher salaries - other programs: Salaries for teachers in programs other than regular education, special education or vocational education. Include salaries in alternative education programs. [E11D]

teacher salaries - regular education: Salaries for teachers in regular education programs, grades: Prekindergarten, Kindergarten, Ungraded and Grades 1 through 12. Missing data are included in the amount reported for Instruction Salaries. Include salaries in alternative education programs. [E11A]

teacher salaries - special education: Salaries for teachers in special education programs, relating to mental retardation, orthopedic impairment, emotional disturbance, developmental delay, specific learning disabilities, multiple disabilities, hearing impairment, other health impairments, visual impairments including blindness, autism, deaf-blindness, traumatic brain injury, and speech or language impairments. Include salaries in alternative education programs. [E11B]

teacher salaries - vocational education: Salaries for teachers in vocational and technical programs. Include salaries in alternative education programs. [E11C]

Appendix B—Glossary

textbook expenditures: Expenditures for textbooks used in instructing students. Missing data are included in the amount reported Instruction Supplies. [E2]

Appendix E—Fiscal Data Plan Questions

Appendix E—Fiscal Data Plan Questions

In addition to the finance data specified in the NPEFS, National Center for Education Statistics (NCES) also collects information from each state to help process the data and to gain a better understanding of programs and/or policies connected with the data items and definitions.

District Activities Revenues

1. Are you using agency funds to report district activities revenues?
 - Yes
 - No

Supplies and Equipment

2. Does your state use a threshold amount to distinguish “supplies” from “equipment”?
 - Yes (Please go to question 2a.)
 - No (Please go to question 3.)

2a. What is the threshold amount? \$ _____

School Facilities/Special Component Units

3. Does your state contain school facilities authorities or special component units of school districts whose purpose is to finance or construct school buildings? These entities are closely related to particular school districts, but legally classified as separate entities.
 - Yes (Please go to question 3a.)
 - No (Please go to question 4.)

3a. Are these data (e.g., debt information) reported in your F-33 submission?
 - Yes
 - No

If needed, please provide additional comments to clarify your answer.

Comment _____

Appendix E—Fiscal Data Plan Questions

Reporting Title I and Title V, Part A Expenditures

Undercounting Total Current Expenditures: Part of the original Title I and Title V, Part A law states that the State Per Pupil Expenditure (SPPE) used for allocation purposes consists of current expenditures minus the exclusions listed on Part XII of the NPEFS form. These exclusions include fees and charges to individuals, and the expenditures from specific federal grants.

4. Are you reporting expenditures in Title I and Title V, Part A in the following categories? Check all that apply:

- Instruction
- Support Services
- Exclusions:
- Title I Expenditures
- Title V, Part A Carryover Expenditures

Direct Program Support/State Payments on Behalf

5. Please provide the TOTAL Direct Program Support/State Payments on Behalf amounts in your state (include all amounts, even those reported under their appropriate functions):

5a. Textbooks for Public School Students

- 1. Nonproperty \$ _____
- 2. Property Only \$ _____

5b. Transportation for Public School Students

- 1. Nonproperty \$ _____
- 2. Property Only \$ _____

5c. Employee Benefits for Public School Employees

- 1. Nonproperty \$ _____
- 2. Property Only \$ _____

5d. Direct Program Support for Private School Students

- 1. Nonproperty \$ _____

5e. Other Direct Program Support for Public School Students

- 1. Nonproperty \$ _____
If applicable, please specify program name(s) _____
- 2. Property \$ _____
If applicable, please specify program name(s) _____

† Not applicable.

¹ A capital projects fund and a debt service fund have been established for school districts to report the activities of these entities.

² All school data for debt is reported via the Annual Financial Reports (AFRs) plus the SFCC debt information is submitted through the F-33 process.

³ Missouri school districts may enter into lease purchase agreements with a nonprofit entity. This entity may be a building corporation created by the school board. The building corporation or nonprofit entity borrows the money the school district makes.

⁴ Included in the No007 Bond Data Tab of submission and 31200 PSCOC projects.

⁵ Rhode Island has three state funded schools: Davies Career & Technical School, the Metropolitan Career & Technical School, and the Rhode Island School for the Deaf. Construction projects at these schools are either financed by general obligation bonds approved by voters of the state or Rhode Island's capital funds which are part of the budget for the Department of Administration for the state, not part of the education budgeted.

⁶ Included with school district data as part of capital outlay, but separate state agency handles the administration and reimbursement process.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "National Public Education Finance Survey (NPEFS)," Fiscal year 2007, Version 1a.

Appendix H—State Notes

Appendix H—State Notes

The following notes can be used to track known anomalies in state data reported to the collection agent. Unless otherwise noted, each anomaly recorded here applies to fiscal year 2007 (FY 07). The absence of “Notes” for a state indicates that the state’s data did not contain any known anomalies.

Alabama

Fiscal Year: October 1–September 30

Notes:

- Students do not pay fees for transportation.
- The state chart of accounts does not include a code for revenue from tuition, fees, and charges paid by the students to attend summer school.
- The increase in Other Sources of Revenue is attributed to bond issues for building purchases.
- The decrease in nonpublic school programs is due to millions for emergency impact aids for displacing students for Hurricane Katrina.
- The decrease in “Other” programs is due to: Jefferson County school system reimbursed the City of Fultondale (\$16.3 million) for funding the construction of the new Fultondale elementary school; compensation and benefits paid in a retirement incentive plan (\$4.6 million) for Birmingham City.
- Property increases were for building purchases for Mobile and Baldwin counties and Fairfield city.
- Increase in state per pupil expenditures can be attributed primarily to the increase in the state foundation program of \$444 million.
- Alabama combines reporting of all Title V, Part A expenditures (current and carryover).

Alaska

Fiscal Year: July 1–June 30

Notes:

- Tuition from individuals and Tuition from other LEA’s within the state were collected and reported starting in the FY 07 survey year.
- All Tuition expenditure items cannot be retrieved using the required object codes from the Alaska’s chart-of-accounts.
- Two school districts account for \$18 million increase in Revenue From Local Sources.
- Alaska’s chart-of-accounts does not include a code for Other Local Government Units—Property Tax. This amount is imputed in the final phase of the NPEFS collection cycle, hence adding additional revenue to the total revenue.
- Other Support Services—Other has been collected and reported for the FY 07 processing year.
- Each district reported expenditures on building and improvements for an increase of \$14 million with the Bering Strait and Northwest Arctic school districts accounting for the majority of the increase.
- Throughout Alaska there was a decrease in student enrollment and an increase in current expenditures during FY 07; hence this contributed to the increase in State Per Pupil Expenditures (SPPE).

Appendix H—State Notes

Arizona

Fiscal Year: July 1–June 30

Notes:

- Arizona’s chart-of-accounts does not include code for revenue for Nonproperty Tax, Other Local Government Units—Property Tax, and Summer School Revenue. Expenditure code is also omitted for Support Services: Instruction—Property; School Administration—Property; and Other—Property.
- Medicaid reimbursement revenues were not reported for FY 06.
- There is an increase in support and reporting for the Arizona State School for the Deaf and Blind.
- Expenditures for state funded facilities increase substantially.
- Debt Service for Scottsdale USD - \$143 million is redemption of debt.
- There are no community services for Arizona.
- Arizona combines reporting of all Title I expenditures (current and carryover).
- Title V carryover expenditures: districts and charters reported a net negative beginning fund balance.
- Instruction—Other now includes previously missing detailed expenditure data.
- Support Services:
 - Data have been updated to reflect removal of expenditures which were duplicated by the submission of newly required school reports;
 - Previous missing detailed expenditure data have been added; and
 - Previous summary reported values have now been reported in more detail.

Arkansas

Fiscal Year: July 1–June 30

Notes:

- Tuition from individuals now reflects the opening of day care centers.
- Better data are reported in the Other Revenue from Federal Sources category.
- Support Services—Instruction variance is mainly due to increase in technology hardware.
- The increase in Student Transportation is from the large school bus purchase.

Appendix H—State Notes

California

Fiscal Year: July 1–June 30

Notes:

- California does not derive revenues from the sale or rental of textbooks.
- Revenues for extra-curricular activities are typically collected and managed by student organizations rather than by districts.
- California local education agencies (LEAs) do not collect tuition from students to attend summer school programs.
- California LEAs experienced a reduction in federal funding, as much as 50 percent in a few programs.
- California LEAs experienced a reduction of approximately 50 percent in Title V funding.
- State Per Pupil Expenditure increase is due to a significant increase in state funding given Average Daily Attendance (ADA) remained essentially unchanged.
- The increase in General Administration—Support Services—Purchased Services is due to two LEAs increasing expenditures for legal settlements, election costs, and costs for review/audit of operational policies.
- Increases in property expenditures for School Administration are due to furnishing provided for low-performing schools.
- Adult education expenditure is a large program in California and these expenditures are within normal historical ranges.

Colorado

Fiscal Year: July 1–June 30

Notes:

- Other sources of revenue change were due to the reporting of refunding bond revenue.
- School Administration—Support Services—Other Expenditures: Vilas school district that has the largest on-line charter school reported 136 percent greater than the actual amount. This overpayment was repaid to the state based on the student count audit.
- Other Support Services—Purchased Services: Jefferson County school district (the state’s largest school district) accounts for a very large increase due largely to a new reporting method of internal service fund revenues and expenditures to avoid double-counting.

Connecticut

Fiscal Year: July 1–June 30

Delaware

Fiscal Year: July 1–June 30

Notes:

- The Dover Air Force Base educational services are awarded by the Department of Defense through a contractual arrangement rather than a cost reimbursement agreement with the local district. The revenues derived from the contract are being reflected as local.

Appendix H—State Notes

District of Columbia

Fiscal Year: July 1–June 30

Notes:

- Large property tax increase is the result of the Chancellor’s aggressive approach to schools’ reform. Various projects were undertaken including renovation of schools and athletic fields in about seven schools. Also the Chancellor’s incentive award programs: new hires and bonuses were given to educators who performed effectively and efficiently in various schools.
- Food services department is in the process of out-sourcing most of its services during the year resulting in decreases. Some new equipment was also purchased.
- Although enrollment decreased, resulting in school closures, expenditures increased due to program support, renovating older schools and building new schools to replace the older ones. The state per pupil expenditures increased as a result of the above combination.

Florida

Fiscal Year: July 1–June 30

Georgia

Fiscal Year: July 1–June 30

Notes:

- Significant bond issues by the districts and the second renewal of the local Special Purpose Local Option Sales Tax was used for building and equipping new school construction.
- FY 07 was the recording of On-Behalf payments and revenue. Residential treatment facilities now flow through the school districts for the first time as these are now considered to be public schools.
- Rates for Health Insurance increased.
- The state disseminated grants to school districts for one time purchases of additional buses.
- Districts were previously not charging indirect costs to the School Nutrition Program whereas these monies are now being charged appropriately.
- One district ended their Adult Education program in FY 07.

Hawaii

Fiscal Year: July 1–June 30

Notes:

- Tuition payments for current year were reclassified due to weighted student formula program.

Appendix H—State Notes

Idaho

Fiscal Year: July 1–June 30

Notes:

- There was a special legislative session in August of 2006 where House Bill I was passed into law. Overall, the maintenance and operation portion of property taxes was shifted to the state's general fund.
- Idaho's second largest school district eliminated its adult education program in FY 07.

Illinois

Fiscal Year: July 1–June 30

Indiana

Fiscal Year: July 1–June 30

Notes:

- In an effort to reduce the tax burden to property owners the state is increasing the amount of funding that is provided to school through the Property Tax Replacement Credit (PTRC).
- In an effort to reduce operating expenses and personnel costs school corporations are moving to the outsourcing of their food operations.

Iowa

Fiscal Year: July 1–June 30

Notes:

- A special local option sales tax is increasing across the state that allows capital expenditures such as equipment and vehicles.
- Districts are greatly privatizing services for FY 07.
- Iowa has changed their reporting instrument for schools to a web based application allowing for better detail and improved data quality.

Kansas

Fiscal Year: July 1–June 30

Notes:

- Some revenue items were miscoded for FY 07 (e.g., Other Revenue From Local Sources should have been coded to Tuition From Other LEAs). District activities were also miscoded in FY 06. The correction now shows ADA to be more in alignment with FY 07.
- FY 06 was overstated for redemption of principal.
- FY 06 was the first year Kansas implemented a student level collection for ADA. As districts become familiar with the new reporting, ADA is becoming more accurate.

Appendix H—State Notes

Kentucky

Fiscal Year: July 1–June 30

Notes:

- Kentucky districts were given the ability to upgrade their instructional devices such as desktops, laptops, and tablet computers through a general assembly funding.
- Districts began reporting rental of buildings to food services instead of allocated ownership.

Louisiana

Fiscal Year: July 1–June 30

Notes:

- At the beginning of FY 05/06 Hurricanes Katrina and Rita devastated the coast of Louisiana. Many school systems saw a dramatic decrease in student population, while others saw a sudden increase in displaced students. However, the state as a whole experienced a significant decrease in students in FY 05/06 which resulted in the closure of many schools. In FY 06/07 many of these schools reopened.
- Due to the effects of Hurricanes Katrina and Rita, there was a significant increase in other revenue from local sources, federal grants-in-aid direct from the federal government as well as other miscellaneous revenues. Many hurricane-affected districts continue to receive large contributions and donations from private sources.
- Instruction expenditure increase and due to Hurricanes Katrina and Rita for contractors to provide educational services to nonpublic students with Title I funds, several impacted school systems needed to replace damaged or lost equipment and many school systems took in many displaced students.
- Increased purchased services, transportation services, purchased services, supplies, and property for support services and food are all due to the inclusion of the continued re-opening of schools and the enrolling of additional students, and the upgrading or replacing of library book inventories.
- Due to the effects of Hurricanes Katrina and Rita many nonpublic displaced students sent millions of federal dollars in aid of those students that passed through the local LEAs.
- Title I carryover increase is now at a norm and state per pupil expenditures are decreased from displaced students in FY 06/07.

Appendix H—State Notes

Maine

Fiscal Year: July 1–June 30

Notes:

- Maine school units reported no transportation receipts from individuals nor any receipts from textbook sales.
- In FY 06 nearly \$4 million in teacher retirement funds were budgeted, but not expended. More benefits were paid out in FY 07 due to an aging teacher population and therefore, more teacher retirements.
- The majority of property expenditures in Maine were related to new school construction projects, which were fewer in FY 07.
- Student population declines annually; the decrease in ADA is consistent with the decrease in resident student population but is a smaller decline than the prior reporting period.

Maryland

Fiscal Year: July 1–June 30

Notes:

- The increase in Tuition from individuals is attributable to the increase of nonresident tuition in Prince George’s County Public Schools.
- The decline of revenue from local source is attributable to Prince George’s County Public Schools reducing Local Revenue for school construction.
- In FY 07, the Maryland State Department of Education no longer issued Social Security Act Title XIX – Medical Assistance grants to Maryland LEAs. (Note: The funding responsibility had been assumed by the Maryland Department of Health and Mental Hygiene, which became the major intermediate agency distributing Federal Grants-in-Aid.)
- The major expenditure fluctuations between FY 06 and 07 are the largest school systems in Maryland: Baltimore City, Baltimore County, Prince George’s County, Howard County, and Montgomery County.

Massachusetts

Fiscal Year: July 1–June 30

Notes:

- FY 06 understated Other Revenue, double counted monies on other instruction materials and services and well as paying off a twenty year lingering debt for the Massachusetts School Business Authority.

Michigan

Fiscal Year: July 1–June 30

Appendix H—State Notes

Minnesota

Fiscal Year: July 1–June 30

Notes:

- One Minnesota school district changed its method of accounting from miscellaneous expenditures for administrative support to purchased services.
- Minnesota schools spent additional funds on school buses and bus leases. Several schools spent large amounts of funds for noninstructional supplies and materials.

Mississippi

Fiscal Year: July 1–June 30

Notes:

- Mississippi received approximately \$248 million in federal aid for hurricane recovery.
- State revenue used for textbook purchases in Mississippi is provided as part of the state funding formula and it is the LEAs decision on how much of the allocation to spend on textbook purchases.
- Mississippi continues to recover from Hurricane Katrina and the purchases deal with replacement of damaged equipment.
- Construction costs continue with repair, renovation, and rebuilding due to Hurricane Katrina.

Missouri

Fiscal Year: July 1–June 30

Montana

Fiscal Year: July 1–June 30

Notes:

- The State of Montana continues to experience declining enrollment.

Nebraska

Fiscal Year: September 1–August 31

Appendix H—State Notes

Nevada

Fiscal Year: July 1–June 30

Notes:

- Clark School District is the fastest growing school district in Nevada bringing increased expenditures.
- Clark School District brought the Southern Nevada correction (Prison in Jean, NV) back into service.
- Washoe School District auditor inadvertently reported food service salaries and benefits as one number. FY 08 will show the breakdown.
- Following the completion of a new food service preparation facility (FY 07) in Clark School District decreased the purchased service expenditures previously reported.
- Clark School District had additional property purchased for adult education, instructional support. Washoe and White Pine School Districts also had increased adult education expenditures.
- Clark School District declines over prior year in school bus purchases.

New Hampshire

Fiscal Year: July 1–June 30

Notes:

- State sources include states contribution to the retirement system on behalf of teachers.

New Jersey

Fiscal Year: July 1–June 30

New Mexico

Fiscal Year: July 1–June 30

Notes:

- In FY 07 New Mexico implemented a new chart of accounts; similar to the federal chart of accounts. As conversion took place, some Districts, Charters, Special State Supported Schools, and Regional Education Cooperatives (RECs) reclassified some of their data into different areas than before, therefore anomalies exist throughout the NPEFS submission.

New York

Fiscal Year: July 1–June 30

Appendix H—State Notes

North Carolina

Fiscal Year: July 1–June 30

Notes:

- North Carolina does not have data for District Activities.
- North Carolina does not collect transportation fees.
- North Carolina schools do not collect revenues for sale of books.
- No tuition is collected for students. (The only tuition is transfer of funds from one LEA to another in rare cases when a student attends another LEA different from where he/she resides.)
- Long-term debt expenditures are not reported by the state. The U.S. Census Bureau receives these amounts from the County Commissioners Association.

North Dakota

Fiscal Year: July 1–June 30

Ohio

Fiscal Year: July 1–June 30

Oklahoma

Fiscal Year: July 1–June 30

Notes:

- Tulsa voted a sales tax for schools under local jurisdiction.
- Oklahoma voted in a lottery with pay increase for all certified staff.
- Oklahoma cannot determine if the Johnson O’Malley funds are direct or tribal.
- Oklahoma had three fires to schools in FY 07.
- Equipment was needed in the bookstore.
- The purchase of food has increased tremendously.
- \$1 million in FY 07 cut Oklahoma’s grant in Title V.

Oregon

Fiscal Year: July 1–June 30

Notes:

- Intermediate sources decrease is due to one populous county discontinuing an Income Tax that was distributed to school districts in FY 06.
- Auditors did not provide a breakdown of carryover versus regular expenditures for a couple of large districts.

Pennsylvania

Fiscal Year: July 1–June 30

Notes:

- Pass through money was included in previous years but is now being properly recorded to correct account by the LEAs and is not double counted on the NPEFS.
- For the first year (FY 07) via guidance from NCES staff Pennsylvania is now including community college expenditures.

Appendix H—State Notes

Rhode Island

Fiscal Year: July 1–June 30

Notes:

- In FY 06 the federal commodities value was erroneously included on the incorrect federal category.

South Carolina

Fiscal Year: July 1–June 30

Notes:

- Voters in one of the counties passed a one-cent sales tax increase to help offset debt service costs.
- Beaufort County school district settled seven legal cases in FY 07 brought against a teacher.
- Several districts constructed new schools or remodeled existing schools in FY 07 due to increasing student enrollment.

South Dakota

Fiscal Year: July 1–June 30

Notes:

- South Dakota does not have textbook revenue.
- Instructional property is increasing due to a K12 1 to 1 laptop program that has been initiated in the state.
- The South Dakota Title V allocation was reduced by half.

Tennessee

Fiscal Year: July 1–June 30

Texas

Fiscal Year: September 1–August 31

Notes:

- The increase in Transportation is due to the rising cost of gasoline and other fuels.
- Title V expenditures and carryovers have been inadvertently reversed in correct reporting. The “Current” period should have been the first 15 months of a grant and the “Carryover” period would be the remaining 12 months. Fiscal year as since corrects this problem.

Utah

Fiscal Year: July 1–June 30

Appendix H—State Notes

Vermont

Fiscal Year: July 1–June 30

Notes:

- Vermont’s statutory change equalizing revenue per unit of property tax effort has made most LEA revenues state source revenues.
- ADA has been declining in Vermont for about a decade. The decline is expected and is consistent with prior year’s declines, and is consistent with the enrollment collection.
- Title V, Part A funds received by No Child Left Behind declined by approximately 50 percent.

Virginia

Fiscal Year: July 1–June 30

Notes:

- Virginia does not have district activity expenditures.

Washington

Fiscal Year: July 1–June 30

Notes:

- Washington has no data for instruction tuition to report.
- No data are recorded or collected for textbooks in Washington.
- Federal funding for Title V, Part A was substantially reduced and Title V funds will be greatly reduced again in FY 08 and eliminated in FY 09.

West Virginia

Fiscal Year: July 1–June 30

Notes:

- The decrease in district activities is due to a change in accounting principal. These monies were not included in the Board’s financial statements (recorded as agency funds). Previously they were reported as special revenue.
- Two counties (Lincoln and Jefferson) received funds of over \$5 million with restrictions on spending the funds on construction of a new high school in each of the counties.
- Increased tuition and voucher payments to other LEAs and Charter schools within the state occurred because RESA VIII began running Berkeley County School’s Early Childhood program in FY 07.
- Title V expenditures decrease substantially.

Wisconsin

Fiscal Year: July 1–June 30

Wyoming

Fiscal Year: July 1–June 30

Notes:

- In the FY 06 Legislative session a new funding model was adopted that generated approximately \$238 million in additional resources for FY 07.

Appendix H—State Notes

American Samoa

Fiscal Year: October 1–September 30

Notes:

- A new coordinator prepared the American Samoa data.

Guam

Fiscal Year: October 1–September 30

Notes:

- The Guam Public School System does not know how much of its appropriation from the Legislature is from property tax or nonproperty tax.
- The Guam Public School System does not carry over expenditures, just encumbrances.

Commonwealth of the Northern Mariana Islands

Fiscal Year: October 1–September 30

Notes:

- There was a 500-student decrease in enrollment, which resulted in a drop of the ADA.
- Title V, Part A expenditures for the current year decreased appreciably.
- Commonwealth of the Northern Marianas Islands does not collect expenditure data for Community Services.

Puerto Rico

Fiscal Year: July 1–June 30

U.S. Virgin Islands

Fiscal Year: October 1–September 30

Notes:

- ADA has decreased due to students leaving the territory along with an increase in student absenteeism.
