INQ.005 SPRING K

(As I mentioned earlier), you and {{CHILD} {and TWIN}} have been selected to take part in the Early Childhood Longitudinal Study Kindergarten Cohort, which is sponsored by the U.S. Department of Education, National Center for Education Statistics. I now have some questions for you that ask about {{CHILD's} {and TWIN's}} school and home experiences. The information I collect in this interview will be extremely valuable in understanding the development of young children and how their early school experiences can be improved.

IF NEEDED, READ THE FOLLOWING:
The information you provide will be kept completely confidential and private as required by law.

PRESS ENTER TO CONTINUE.

CAPI INSTRUCTION: DISPLAY "{and TWIN}" IF THERE IS A TWIN.

INQ.014

SPRING K

(For this interview, I will first ask questions that collect information specifically about (CHILD) and general questions about you and your household. Once those questions are finished, I will need to ask some questions that collect information specifically about (TWIN). There will not be as many questions for (TWIN), since I will not need to ask the questions about you or your household.

As I mentioned earlier, now I need to ask some questions specifically about (CHILD). These questions will not take as long as the first round of questions, since I have already asked the general questions about you and your household.)

PRESS ENTER TO CONTINUE.

CAPI INSTRUCTION: DISPLAY "For this interview . . . you or your household." IF CURRENTLY ASKING ABOUT SAMPLED CHILD 1. FOR "CHILD," DISPLAY THE NAME OF SAMPLED CHILD 1. FOR "TWIN," DISPLAY THE NAME OF SAMPLED CHILD 2.

Did (CHILD) receive care from a relative on a regular basis the year before (he/she) started kindergarten?

THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.

HELP TEXT:
Care from a relative: Record care or programs provided by someone other than the child’s parents. In all cases, do not include care provided by a parent, even if they do not live in the household. (Do not include visitation with a separated or divorced parent who does not have custody.)

If there is at least one parent in the household, any relative living in the household is eligible to be counted as a care arrangement, if the care is provided on a regularly scheduled basis. Relatives outside the household may also be regular care providers.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are similar to parents).

Relative care arrangements may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or “back up” arrangements that are just used once in a while.

CAPI INSTRUCTION: DISPLAY ‘REGULAR BASIS THE YEAR BEFORE’ IN BRIGHT WHITE.

Did {CHILD} receive care from a nonrelative on a **regular basis the year before** (he/she) started kindergarten?

**PROBE:** This refers to care received from nonrelatives in a private home, including home child care providers, regular sitters, or neighbors. However, this does not include child care centers.

**HELP TEXT:**

**Care from a non-relative:** Non-relative care is provided by someone not related to the child and is located in a private home. The private home may be the child’s home, the caregiver’s home, or another home.

If there is at least one parent in the household, any nonrelative living in the household is eligible to be counted as a care arrangement, IF the care is given on a regularly scheduled basis.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are treated the same as parents).

Non-relative care arrangements or programs may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or “back up” arrangements that are just used once in a while.

Head Start is a federally sponsored preschool program primarily for children from low-income families. Did {CHILD} attend Head Start **the year before** (he/she) started kindergarten?

**THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.**

**HELP TEXT:**

**Head Start:** Head Start is a federally funded early childhood education program designed to improve the school-readiness of disadvantaged children (i.e., children from low-income families). Children who participate are usually 3 to 5 years old. Head Start may be offered in a school, community center, a church facility, or anywhere a nursery school may be offered.

Rarely, you may find a case in which a respondent reports that the child is in “home Head Start,” that is, he/she participates in Head Start in his/her own home. Generally, this involves the parent acting as the child’s teacher, supplemented by occasional home visits by a Head Start teacher and perhaps some occasional group activities at a central location.

**CAPI INSTRUCTION:** DISPLAY ‘THE YEAR BEFORE’ IN BRIGHT WHITE.

Speech or language therapy?

HELP TEXT:
Speech or language therapy: Therapy involving the evaluation or treatment of the student’s speech or language abilities. Impairments to speech can include one or more of the following: articulation errors (includes omitting words, substituting words, or distorting sounds), inappropriate voice (including pitch, loudness, or voice quality), or abnormal fluency (including, abnormal rate of speaking, speech interruptions, repetitions of sounds, words, phrases or sentences). Impairments to language can include improper use of phonemes, syntax, or semantics. Language impairments can also stem from improper practical use of language. Therapy includes special techniques to overcome speech or language limitations. Therapy should be provided only by a teacher of the speech or language impaired who is certified by the state, or by a certified Speech and Language Therapist/Pathologist.

Occupational therapy?

HELP TEXT

**Occupational therapy:** Therapy involving the evaluation or treatment of the student's level of independence in daily living activities. The goal of occupational therapy is to promote maximum independence in daily living. Therapy can include the use of work, play, or self-care activities to improve functional ability, promote health, prevent injury or further disability. Therapy should be provided only by a therapist who has been certified by the American Occupational Therapy Association or by an occupational therapy assistant who provides therapy under the supervision of a certified occupational therapist.

HELP TEXT:

**Physical therapy:** Therapy involving the evaluation or treatment of health problems resulting from injury or disease. It is also sometimes called physiotherapy. Physical therapists assess joint motion, muscle strength and endurance, how well the heart and lungs work, and how well children can do activities required for daily living. Treatment includes therapeutic exercise, cardiovascular endurance training, and training in activities of daily living, as well as the use of massage, light, cold, heat, electricity, and mechanical devices to treat physical disorders. Physical therapy does not include the use of X-Ray technology. Therapy should be provided only by a therapist who has been state-certified to provide such services.

Vision services?

HELP AVAILABLE
Vision services: Therapy combines health and education professions to improve the student's independence in daily living and access to educational materials. Health professionals include ophthalmologists and optometrists. Ophthalmologists are medical doctors who specialize in medical and surgical care of the eyes and visual system. Optometrists are health service providers who evaluate vision conditions such as nearsightedness, farsightedness, astigmatism, and presbyopia. They test the student's ability to focus and coordinate the eyes, judge depth, and see colors accurately. They prescribe eyeglasses, contact lenses, low vision aids, and vision therapy. Teachers of the visually impaired are state-certified to teach students who are visually impaired or blind.

Social work services?

HELP TEXT:
Social work services: Services that provide support to students and their families to meet individual human needs. Particular attention is devoted to the needs and empowerment of students and their families who are disadvantaged, vulnerable, or at risk. Social workers strive to focus on the well being of the student and his/her family in the context of their school and community. Social workers attend to the environmental forces that create, contribute to, and address problems of daily living. Services should be provided only by a social worker who has been certified by the state to provide such services.

Psychological services?

HELP TEXT:
Psychological services: Services that involve the assessment of academic skills and learning aptitudes, personality and emotional development, social skills and school climates, and eligibility for special education. Treatment involves one-on-one interaction with students or parents to resolve personal conflicts and problems in learning and adjustment, psychological counseling for students and parents, social skills training, and assistance through separation and loss. Within school systems, psychological services are typically provided by certified school psychologists. However, assessment...
and treatment can be extended to the health community and include services provided by clinical psychologists, psychiatric social workers, or psychiatrists (who are medical doctors).

Private tutoring or schooling for learning problems?

HELP TEXT:
Private tutoring or schooling for learning problems:  Refer to education or training associated with a specific learning problem or need. The term “private” suggests either that there is a cost associated with the service or education is not sanctioned by the public school system. Individuals, organizations, or businesses in school, home, or community settings can provide private tutoring designed to improve the student's educational achievement, typically in math or reading. Special schools are available to students with particular needs such as emotional problems, learning disabilities, blindness, or deafness. Such schools charge parents for their child's education. However, the education of students with disabilities may be subsidized by their home school district if the district cannot provide a similar appropriate education.

Instruction in Braille?
HELP TEXT:
Instruction in Braille: Braille is a touch system of reading using as the basic graphic symbol a cell composed of six dots, two dots wide and three dots high. The dots are “read” by running the hand over the paper rather than looking at it. Sixty-three possible dot combinations of the cell form the basis of the Braille code, and numerous rules govern the usage of the code. Learners who are totally blind, near-blind, and with profound low vision need mastery of reading Braille since it is likely their only means of gaining access to educational information in print form. Reading in Braille is a system of reading that differs in many significant ways from reading in print. Teachers receive special training to teach Braille.

Instruction in sign language, Cued speech, ASL, TOCO?

HELP TEXT:
Instruction in sign language, Cued speech, ASL, TOCO: Refers to various manual methods that replace the use of speech only as a means of communication. Manual communication is a system of teaching individuals with hearing impairments that makes use of sign language and fingerspelling. Sign language is a general term for using the hands to form words and phrases. There are many forms of sign language, including American Sign Language (ASL), Signed English, Sign Exact English (SEE), etc. Cued Speech uses hand signals to symbolize sounds. TOCO refers to total communication. TOCO employs a combination of oral and manual approaches to communication and includes speech, sign language, lip-reading, natural gestures, fingerspelling, residual hearing, reading and writing.

Now I have a few questions about education and job training. What is the highest grade or year of school that you have completed?

HELP TEXT:
Highest Grade or Year of School Completed: For grades 1-11, enter the exact grade level. If the person you are asking about completed elementary school, find out the last grade completed. If the respondent says the person finished 12th grade, ask whether the person received a diploma or got the equivalent of a high school diploma.

Completing a given grade in school should be counted as the number of years it normally takes to complete that grade level of education, regardless of how many years it actually took the person to finish. This means that for persons who skipped or repeated grades in elementary school, you will
enter the highest grade completed regardless of the number of years they were in school. This rule is true for elementary school through high school and is especially relevant to college.

**12th grade but no diploma:** The person completed the 12th grade, but did not earn a high school diploma or GED.

**High school diploma/equivalent:** A certificate that verifies that a person has successfully completed the required courses of a high school curriculum. Includes both actually graduating from high school or having a GED. The GED is an exam certified equivalent of a high school diploma received when the person has not actually received a degree from attending high school, but has acquired his/her GED (high school equivalency based on passing the GED exam).

**Vocational/technical program after high school but no voc/tech diploma:** The person attended this type of program, but did not earn a degree/diploma/certificate of successful completion of the program. Vocational/trade school after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered "1-2 years of college" or "associate's degree" and not vocational or trade school.

**Vocational/technical program after high school:** The person attended this type of program, but DID earn a degree/diploma/certificate of successful completion of the program. Vocational/trade school after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered "1-2 years of college" or "associate's degree" and not vocational or trade school.

**Some college but no degree:** The person does not have a 4-year college (bachelor's) degree but has completed a class for credit at a college, university, or vocational/technical school.

**Associate's degree:** A 2-year college degree typically earned at a community college (rather than a trade school).

**Bachelor's degree:** A 4-year college degree earned at a university or 4-year college. It is sometimes called an "undergraduate degree."

**Graduate or professional school but no degree:** The person attended a graduate or professional school that advanced him/her toward a degree beyond a Bachelor's degree (for example, a Master's, Doctorate, or other professional degree). However, the person did not complete the program or earn the degree.

**Master’s (MA, MS):** Studies beyond a bachelor's degree, but not a Ph.D. or EDD.

**Doctorate Degree (Ph.D., EDD):** Studies beyond a Master's degree that result in a doctorate degree.

**Professional degree after bachelor's degree (Medicine/MD; Dentistry/DDS, Law/JD/LLB):** Any other graduate degrees earned with academic studies beyond the bachelor's.

HELP AVAILABLE

What is {your/{NAME}'s} relationship to {CHILD}?

{CODE RELATIONSHIP OF NEW HOUSEHOLD MEMBERS ONLY.}

HELP TEXT:
Mother/Female Guardian: The female primarily responsible for the child. Includes birth or biological mothers, adoptive, step, and foster mothers, as well as, legal female guardians.

Father/Male Guardian: The male primarily responsible for the child. Includes birth or biological fathers, adoptive, step, and foster fathers, as well as, legal male guardians.

Sister: Include biological (full, half), adoptive, step, and foster sisters.

Brother: Include biological (full, half), adoptive, step, and foster brothers.

Girlfriend or Partner of CHILD's Parent/Guardian: The female who has a "partner-like" relationship with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Boyfriend or Partner of CHILD's Parent/Guardian: The male who has a "partner-like" relationship with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Grandmother: The female parent of the child's biological or adoptive mother or father.

Grandfather: The male parent of the child's biological or adoptive mother or father.

Aunt: The sister of the child's biological or adoptive mother or father or the wife of the child's uncle.

Uncle: The brother of the child's biological or adoptive mother or father or the husband of the child's aunt.

Cousin: A child of the focal child's uncle, aunt, or cousin.

Other Relative: Refers to relationships that aren't specifically listed, such as great grandmother, niece, or nephew.
Other Non-relative: Refers to the relationship between two people when there is no family relationship through blood, marriage, adoption, or partnership (i.e., living together as married). It also refers to more ambiguous relationships that exist where there are two people living together as married and they have children. For example, the child's father and the father's girlfriend (who is not the child's mother) live together as married and the girlfriend's daughter lives with them. The relationship of the girlfriend's daughter to the child would be siblings if they were married, but since the father and the girlfriend are not married, she is an "other non-relative." If the "other non-relative" is coded, you will receive a list of other codes to use if they are more descriptive than "other non-relative."

CAPI INSTRUCTION: DISPLAY THE RELATIONSHIP MATRIX.

CAPI INSTRUCTION: DO NOT DISPLAY THE FOCAL CHILD'S ROW.

{Are you/Is (NAME)} of Hispanic origin?

**HELP TEXT:**

Hispanic or Latino Origin: A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish cultures or origin (or descent), regardless of race.

**CAPI MATRIX INSTRUCTIONS:**

Display in column 1 each person enumerated on the household roster (at FSQ.020) who is the focal child, respondent, mother figure (code ‘1’ at FSQ.130), or father figure (code ‘2’ at FSQ.130).

If no mother or father figures in the household (no household members with a code ‘1’ or ‘2’ at FSQ.130), display in column 1 the focal child, the respondent, and the respondent’s spouse/partner (household member selected at FSQ.120, if any).

**NOTE:** If the respondent is a mother or father figure, only display his/her name once.

**NOTE:** Do not display household members coded as not living in the household at FSQ.010.

**NOTE:** If cooperating respondent, ask about Hispanic origin and race only if new household members are the focal child’s parents or the respondent or if there are no parents, then about the respondent and respondent’s spouse/partner (if they are new or if missing for previous HH members.)

If previous round non-respondent, ask about Hispanic origin and race for the focal child, respondent, mother and father figures. If no mother or father figures, then ask about the focal child, the respondent, and the respondent’s spouse/partner (if any).
What is your NAME's race?

HELP TEXT:

Speech or Language Therapy: Therapy involving the evaluation or treatment of the student’s speech or language abilities. Impairments to speech can include one or more of the following: articulation errors (includes omitting words, substituting words, or distorting sounds), inappropriate voice (including pitch, loudness, or voice quality), or abnormal fluency (including, abnormal rate of speaking, speech interruptions, repetitions of sounds, words, phrases or sentences). Impairments to language can include improper use of phonemes, syntax, or semantics. Language impairments can also stem from improper practical use of language. Therapy includes special techniques to overcome speech or language limitations. Therapy should be provided only by a teacher of the speech or language impaired who is certified by the state, or by a certified Speech and Language Therapist/Pathologist.

Physical Therapy: Therapy involving the evaluation or treatment of health problems resulting from injury or disease. It is also sometimes called physiotherapy. Physical therapists assess joint motion, muscle strength and endurance, how well the heart and lungs work, and how well children can do activities required for daily living. Treatment includes therapeutic exercise, cardiovascular endurance training, and training in activities of daily living, as well as the use of massage, light, cold, heat, electricity, and mechanical devices to treat physical disorders. Physical therapy does not include the use of X-Ray technology. Therapy should be provided only by a therapist who has been state-certified to provide such services.

Occupational Therapy: Therapy involving the evaluation or treatment of the student’s level of independence in daily living activities. The goal of occupational therapy is to promote maximum independence in daily living. Therapy can include the use of work, play, or self-care activities to improve functional ability, promote health, prevent injury or further disability. Therapy should be provided only by a therapist who has been certified by the American Occupational Therapy Association or by an occupational therapy assistant who provides therapy under the supervision of a certified occupational therapist.

Psychological Therapy: Services that involve the assessment of academic skills and learning aptitudes, personality and emotional development, social skills and school climates, and eligibility for special education. Treatment involves one-on-one interaction with students or parents to resolve personal conflicts and problems in learning and adjustment, psychological counseling for students and parents, social skills training, and assistance through separation and loss. Within school systems, psychological services are typically provided by certified school psychologists. However, assessment and treatment can be extended to the health community and include services provided by clinical psychologists, psychiatric social workers, or psychiatrists (who are medical doctors).
