INQ002

QUESTION TEXT:
(As I mentioned earlier,) You and {CHILD} have been selected to take part in the Early Childhood Longitudinal Study, Kindergarten Class of 2010-2011, which is sponsored by the U.S. Department of Education, National Center for Education Statistics. I have some questions for you that ask about {CHILD}'s school and home experiences. The information I collect in this interview will be extremely valuable in understanding the development of young children and how their early school experiences can be improved.

All responses that relate to or describe identifiable characteristics of individuals may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose, unless otherwise compelled by law.

Parts of this call will be recorded for quality control purposes.

QUESTION TEXT:
What is your/is {NAME}'s relationship to {CHILD}?

CODE RELATIONSHIP OF HOUSEHOLD MEMBER.

HELP TEXT:
Mother/Female Guardian: The female primarily responsible for the child. Includes birth or biological mothers, adoptive, step, foster, and other mothers, as well as legal female guardians.

Father/Male Guardian: The male primarily responsible for the child. Includes birth or biological fathers, adoptive, step, foster, and other fathers, as well as legal male guardians.

Sister: Include biological (full, half), adoptive, step, and foster sisters.

Brother: Include biological (full, half), adoptive, step, and foster brothers.

Girlfriend or Partner of CHILD's Parent/Guardian: The female who has a "partner-like" relationship with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Boyfriend or Partner of CHILD's Parent/Guardian: The male who has a "partner-like" relationship with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Grandmother: The female parent of the child's biological or adoptive mother or father.

Grandfather: The male parent of the child's biological or adoptive mother or father.

Aunt: The sister of the child's biological or adoptive mother or father or the wife of the child's uncle.
Uncle: The brother of the child's biological or adoptive mother or father or the husband of the child's aunt.

Cousin: A child of the focal child's uncle, aunt, or cousin.

Other Relative: Refers to relationships that aren’t specifically listed, such as great grandmother, niece, or nephew.

Other Non-relative: Refers to the relationship between two people when there is no family relationship through blood, marriage, adoption, or partnership (i.e., living together as married). It also refers to more ambiguous relationships that exist where there are two people living together as married and they have children. For example, the child's father and the father's girlfriend (who is not the child's mother) live together as married and the girlfriend's daughter lives with them. The relationship of the girlfriend's daughter to the child would be siblings if they were married, but since the father and the girlfriend are not married, she is an "other non-relative." If the "other non-relative" is coded, you will receive a list of other codes to use if they are more descriptive than "other non-relative."

{Are you/is {NAME}} {CHILD}'s ...

HELP TEXT:

Biological or Birth Mother: Child's female biological parent. This may be the birth mother, but could also apply to a mother who used a surrogate mother to have her biological child.

Adoptive Mother: The female who has taken the child into her own family by legal process to raise as her own child.

Step Mother: The female other than the child's mother who is married to the child's father.

Foster Mother: The female with whom the child is placed temporarily, usually through a social service agency and/or a court.

Female Guardian: The female legally placed in charge of the affairs of the child.

Other Female Parent or Guardian: This person acts as the mother to the child, but does not fit into one of the other categories. For example, in a household with two mothers, one of the mothers may not classify herself as biologically related and she may not be legally in charge of the affairs of the child even though she is another parent to the child. This category may also be used if a mother has a child through a surrogate mother, or with a donated egg, and does not classify the child as biologically related or adopted through a legal process.

Head Start is a federally sponsored preschool program primarily for children from low-income families. {Was the regular care arrangement that [CHILD] had with a relative/Were any of the regular care arrangements that [CHILD] had with relatives} in the year before kindergarten Head Start?

**HELP TEXT:**
Head Start: Head Start is a federally funded early childhood education program designed to improve the school-readiness of disadvantaged children (i.e., children from low-income families). Children who participate are usually 3 to 5 years old. Head Start may be offered in a variety of locations. For this question, we are interested in Head Start services in a family child care program in a private home where the child is cared for by someone who is related to the child but is not his or her parent.

Rarely, you may find a case in which a respondent reports that the child is in "home Head Start," that is, he/she participates in Head Start in his/her own home. Generally, this involves the parent acting as the child’s teacher, supplemented by occasional home visits by a Head Start teacher and perhaps some occasional group activities at a central location. Do not include child care by a parent in this question.

QUESTION TEXT:

{Let's talk about your current care arrangements with relatives.} How many different regular care arrangements do you currently have with relatives?

HELP TEXT:

Care from a relative: Record care or programs provided by a relative other than the child’s parents in a private home. The private home may be the child’s home, the caregiver’s home, or another home. In all cases, do not include care provided by a parent, even if they do not live in the household. (Do not include visitation with a separated or divorced parent who does not have custody.)

If there is at least one parent in the household, any relative living in the household is eligible to be counted as a care arrangement, if the care is provided on a regularly scheduled basis. Relatives outside the household may also be regular care providers.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are similar to parents).

Relative care arrangements may or may not have a charge or fee.

Did {CHILD} receive care from a nonrelative on a regular basis the year before {he/she} started kindergarten?
THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.

PROBE: This refers to care received from nonrelatives in a private home, including home child care providers, regular sitters, or neighbors. However, this does not include child care centers.

**HELP TEXT:**

Care from a non-relative: Non-relative care is provided by someone not related to the child and is located in a private home. The private home may be the child's home, the caregiver's home, or another home.

If there is at least one parent in the household, any nonrelative living in the household is eligible to be counted as a care arrangement, IF the care is given on a regularly scheduled basis.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are treated the same as parents).

Non-relative care arrangements or programs may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or "back up" arrangements that are just used once in a while.

QUESTION TEXT:
{Now I have a few questions about education and job training.} What {is/was} the highest grade or year of
school that {you/{NAME}/{CHILD}'s {biological/adoptive} {mother/father}} {have/has/had} completed?

{{IF NECESSARY, SAY: Again, any information you can provide will be helpful.}}}

HELP TEXT:
Highest Grade or Year of School Completed: For grades 1-11, enter the exact grade level. If the person you
are asking about completed elementary school, find out the last grade completed. If the respondent says the
person finished 12th grade, ask whether the person received a diploma or got the equivalent of a high school
diploma.

Completing a given grade in school should be counted as the number of years it normally takes to complete
that grade level of education, regardless of how many years it actually took the person to finish. This means
that for persons who skipped or repeated grades in elementary school, you will enter the highest grade
completed regardless of the number of years they were in school. This rule is true for elementary school
through high school and is especially relevant to college.
12th grade but no diploma: The person completed the 12th grade, but did not earn a high school diploma or GED.

High school equivalent: This means that the person has a GED. The GED is an exam certified equivalent of a high school diploma received when the person has not actually received a degree from attending high school, but has acquired his/her GED (high school equivalency based on passing the GED exam).

High school diploma: A certificate that verifies that a person has successfully completed the required courses of a high school curriculum and has actually graduated from high school rather than having a GED.

Vocational/technical program after high school but no voc/tech diploma: The person attended this type of program, but did not earn a degree/diploma/certificate of successful completion of the program. Vocational/trade school after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered "1-2 years of college" or "associate's degree" and not vocational or trade school.

Vocational/technical program after high school: The person attended this type of program, but DID earn a degree/diploma/certificate of successful completion of the program. Vocational/trade school after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered "1-2 years of college" or "associate's degree" and not vocational or trade school.

Some college but no degree: The person does not have a 4-year college (bachelor's) degree but has completed a class for credit at a college or university.

Associate's degree: A 2-year college degree typically earned at a community college (rather than a trade school).

Bachelor's degree: A 4-year college degree earned at a university or 4-year college. It is sometimes called an "undergraduate degree."

Graduate or professional school but no degree: The person attended a graduate or professional school that advanced him/her toward a degree beyond a Bachelor's degree (for example, a Master's, Doctorate, or other professional degree). However, the person did not complete the program or earn the degree.

Master's (MA, MS): Studies beyond a bachelor's degree, but not a Ph.D. or Ed.D.

Doctorate Degree (Ph.D., EDD): Studies beyond a Master's degree that result in a doctorate degree.

Professional degree after bachelor's degree (Medicine/MD; Dentistry/DDS, Law/JD/LLB): Any other graduate degrees earned with academic studies beyond the bachelor's.
