QUESTION TEXT:
(As I mentioned earlier), you and {CHILD} have been selected to take part in the Early Childhood Longitudinal Study, Kindergarten Class of 2010-2011, which is sponsored by the U.S. Department of Education, National Center for Education Statistics. I have some questions for you that ask about {CHILD}'s school and home experiences. The information I collect in this interview will be extremely valuable in understanding the development of young children and how their early school experiences can be improved.

All responses that relate to or describe identifiable characteristics of individuals may be used only for statistical purposes and may not be disclosed, or used, in identifiable form for any other purpose, unless otherwise compelled by law.

This call will be recorded for quality control purposes.

IF FALL K NON-RESPONDENT, GO TO NEXT SECTION (SPQ).
OTHERWISE, GO TO SECTION PIQ (PARENT'S INVOLVEMENT WITH CHILD'S SCHOOL).
I'd like to talk to you about child care {CHILD} received on a regular basis from someone other than you or {his/her} parents or guardians the year before {he/she} started kindergarten. This does not include occasional baby-sitting or backup care providers. Did {CHILD} receive care from a relative on a regular basis the year before (he/she) started kindergarten? This may include grandparents, brothers and sisters, or any relatives other than you or {CHILD}'s parents or guardians.

THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.

HELP TEXT:
Care from a relative: Record care or programs provided by someone other than the child’s parents in a private home. The private home may be the child’s home, the caregiver’s home, or another home. In all cases, do not include care provided by a parent, even if they do not live in the household. (Do not include visitation with a separated or divorced parent who does not have custody.)

If there is at least one parent in the household, any relative living in the household is eligible to be counted as a care arrangement, if the care is provided on a regularly scheduled basis. Relatives outside the household may also be regular care providers.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are similar to parents).

Relative care arrangements may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or "back up" arrangements that are just used once in a while.

SPQ020
**QUESTION TEXT:**

Head Start is a federally sponsored preschool program primarily for children from low-income families. Were any of the regular care arrangements that {CHILD} had with relatives in the year before kindergarten Head Start?

**HELP TEXT:**

Head Start: Head Start is a federally funded early childhood education program designed to improve the school-readiness of disadvantaged children (i.e., children from low-income families). Children who participate are usually 3 to 5 years old. Head Start may be offered in a variety of locations. For this question, we are interested in Head Start services in a family child care program in a private home where the child was cared for by someone who is related to the child but is not his or her parent.

Rarely, you may find a case in which a respondent reports that the child is in 'home Head Start," that is, he/she participates in Head Start in his/her own home. Generally, this involves the parent acting as the child's teacher, supplemented by occasional home visits by a Head Start teacher and perhaps some occasional group activities at a central location. Do not include child care by a parent in this question.

DISPLAY 'a regular basis the year before' IN UNDERLINED TEXT.

BOLD 'Care from a non-relative", "If there is at least one parent in the household", "If neither parent lives in the household", AND "Regular Basis" ON FIRST INSTANCE ONLY IN HELP TEXT

**QUESTION TEXT:**

{Now I'd like to ask you about any care {CHILD} received from nonrelatives in a private home, not including child care centers.} Did {CHILD} receive care from a nonrelative on a regular basis the year before (he/she) started kindergarten? This includes home child care providers, regular sitters or neighbors. {It does not include child care centers.}

THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.

PROBE: This refers to care received from nonrelatives in a private home, including home child care providers, regular sitters, or neighbors. However, this does not include child care centers.

**HELP TEXT:**

Care from a non-relative: Non-relative care is provided by someone not related to the child and is located in a private home. The private home may be the child's home, the caregiver's home, or another home.

If there is at least one parent in the household, any nonrelative living in the household is eligible to be counted as a care arrangement, IF the care is given on a regularly scheduled basis.

If neither parent lives in the household, do not include care provided by guardians who live with the child (they are treated the same as parents).
Non-relative care arrangements or programs may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or "back up" arrangements that are just used once in a while.

**QUESTION TEXT:**

{Head Start is a federally sponsored preschool program primarily for children from low-income families.} Were any of the regular care arrangements that {CHILD} had with nonrelatives in the year before kindergarten Head Start?

**HELP TEXT:**

Head Start: Head Start is a federally funded early childhood education program designed to improve the school-readiness of disadvantaged children (i.e., children from low-income families). Children who participate are usually 3 to 5 years old. Head Start may be offered in a variety of locations. For this question, we are interested in Head Start services in a family child care program in a private home where the child is cared for by someone who is not his or her parent and is not related to the child.

BOLD 'Day Care Center" AND "Regular Basis" ON FIRST INSTANCE ONLY
QUESTION TEXT:
Did {CHILD} attend a day care center, nursery school, preschool or prekindergarten program on a regular basis the year before {he/she} started kindergarten?

THIS MEANS ANYTIME IN THE YEAR BEFORE CHILD ENTERED KINDERGARTEN.

HELP TEXT:
Day Care Center: Includes any type of formal program that provides care and supervision. It may be in a child's school or in another location, such as a church or a free-standing building. Head Start programs and state-sponsored preschool or prekindergarten programs are also included.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or "back up" arrangements that are just used once in a while.

Now I have a few questions about your household. We have listed that (READ NAMES FROM MATRIX) lived in this household at the time of our last interview.

As I read each person's name again, please tell me if he or she still lives in this household.

Does {NAME} still live in this household?

CODES
1  YES
2  NO

PROGRAMMER INSTRUCTIONS:
DISPLAY THE COMPLETED HOUSEHOLD MATRIX FROM THE ROUND 1 INTERVIEW. THIS INCLUDES THE PERSON TYPE, FIRST NAME, LAST NAME, AGE, AND GENDER COLUMNS. THESE COLUMNS SHOULD BE PROTECTED, THAT IS, INFORMATION CANNOT BE CHANGED. CHANGES MADE AT INQ.130, INQ.160, AND AGE QUESTIONS (IF INQ.175 = 1, CALCULATE AGE FROM BIRTHDATE IN INQ.170. ELSE, GET FROM INQ.176) SHOULD SHOW UP ON THE MATRIX AT FSQ.010. FOR CONTINUING HOUSEHOLDS, CHANGES MADE AT INQ.112 AND INQ.116 SHOULD BE REFLECTED IN THE FSQ.010 MATRIX.

ADD AS THE 6TH COLUMN TO THE MATRIX, 'STILL HERE'. DISPLAY 'Y' IF PERSON STILL LIVES IN THE HOUSEHOLD AND 'N' IF THE PERSON DOES NOT (BASED ON HOW FSQ010 IS CODED).

THE CURSOR SHOULD START AT THE 'STILL HERE' COLUMN FOR THE FIRST PERSON LISTED IN THE MATRIX.

DISPLAY BRACKETS [ ] AROUND THE FIRST TWO PARAGRAPHS WHENEVER IN THE 'STILL HERE' COLUMN FOR SOMEONE OTHER THAN THE FIRST PERSON LISTED ON THE MATRIX. (THE FIRST TWO PARAGRAPHS SHOULD BE DISPLAYED WITHOUT THE BRACKETS WHEN YOU FIRST ARRIVE AT THIS QUESTION.)
ADD AS THE 7TH COLUMN TO THE MATRIX, 'REASON LEFT' (FSQ.015).

IF THE 'STILL IN HH' COLUMN IS CODED 'NO', THE CURSOR SHOULD MOVE RIGHT TO THE 'REASON LEFT' COLUMN. IF THE 'STILL IN HH' IS CODED 'YES', THE CURSOR SHOULD MOVE TO THE 'STILL HERE' COLUMN FOR THE NEXT PERSON ON THE MATRIX (THE 'REASON LEFT' COLUMN DOES NOT NEED TO BE COMPLETED IN THIS INSTANCE).

ADD AS THE 8TH COLUMN TO THE MATRIX, 'REASON LEFT OTHER' (FSQ.015OS).

THE MATRIX CANNOT HAVE MORE THAN 25 ROW ENTRIES.

IF QUESTION IS ABOUT THE RESPONDENT AND INQ.055 NE 0 (RESPONDENT IS NOT A NEW HOUSEHOLD MEMBER) AND FSQ.010 = 2 (NOT IN HH), DISPLAY ERROR MESSAGE: 'THIS PERSON CANNOT BE THE RESPONDENT AND NOT BE IN THE HOUSEHOLD.'

{Other than the people I just asked about, is there anyone else currently living in this household? For example, anyone who has moved in or any babies born since our last interview? Please tell me the names and ages of all the other people who normally live here. Please do not include anyone staying here temporarily who usually lives somewhere else.}

{Now I have a few questions about your household. We have noted that you and {CHILD} currently live in this household. First I’d like to ask you some questions about yourself, then I’d like you to please tell me the names and ages of all the other people who normally live here. Please do not include anyone staying here temporarily who usually lives somewhere else.}

{PROBE: Anyone else (living in this household)?}

{ENTER FIRST NAME OF {NEW} HOUSEHOLD MEMBER OR PRESS ENTER IF MATRIX IS COMPLETE.}

{YOU WILL NEED TO ENTER THE NAME, AGE, AND GENDER OF EACH HOUSEHOLD MEMBER NAMED BEFORE LEAVING THE MATRIX.}

{PRESS ENTER TO RECORD THE AGE AND GENDER OF THE RESPONDENT OR PRESS THE DOWN ARROW KEY TO ADD A HOUSEHOLD MEMBER.}

PROGRAMMER INSTRUCTIONS:
1. DISPLAY THE HOUSEHOLD MATRIX (PERSON TYPE, FIRST NAME, LAST NAME, AGE, AND GENDER COLUMNS.)
2. THE INTERVIEWER CAN ADD UP TO 25 ROW ENTRIES.
3. THE INTERVIEWER CAN MOVE ALL AROUND THE MATRIX USING ARROW KEYS (EXCEPT ON PROTECTED FIELDS).
4. IF A FALL-K CONTINUING HOUSEHOLD:

QUESTION TEXT:
What is {your/{NAME}'s} relationship to {CHILD}?

{CODE RELATIONSHIP OF NEW HOUSEHOLD MEMBERS ONLY.}

HELP TEXT:
Mother/Female Guardian: The female primarily responsible for the child. Includes birth or biological mothers,
adoptive, step, foster, and other mothers, as well as legal female guardians.

Father/Male Guardian: The male primarily responsible for the child. Includes birth or biological fathers,
adoptive, step, foster, and other fathers, as well as legal male guardians.

Sister: Include biological (full, half), adoptive, step, and foster sisters.

Brother: Include biological (full, half), adoptive, step, and foster brothers.

Girlfriend or Female Partner of CHILD's Parent/Guardian: The female who has a "partner-like" relationship
with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Boyfriend or Male Partner of CHILD's Parent/Guardian: The male who has a "partner-like" relationship with
one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Grandmother: The female parent of the child's biological or adoptive mother or father.

Grandfather: The male parent of the child's biological or adoptive mother or father.

Aunt: The sister of the child's biological or adoptive mother or father or the wife of the child's uncle.

Uncle: The brother of the child's biological or adoptive mother or father or the husband of the child's aunt.

Cousin: A child of the focal child's uncle, aunt, or cousin.

Other Relative: Refers to relationships that aren't specifically listed, such as great grandmother, niece, or
nephew.

Other Non-relative: Refers to the relationship between two people when there is no family relationship through blood, marriage, adoption, or partnership (i.e., living together as married). It also refers to more ambiguous relationships that exist where there are two people living together as married and they have children. For example, the child’s father and the father's girlfriend (who is not the child’s mother) live together as married and the girlfriend’s daughter lives with them. The relationship of the girlfriend’s daughter to the child would be siblings if they were married, but since the father and the girlfriend are not married, she is an "other non-relative." If the "other non-relative" is coded, you will receive a list of other codes to use if they are more descriptive than "other non-relative."

BOLD IN HELP TEXT: 'Highest Grade or Year of School Completed', "12th grade but no diploma", "High school equivalent", "High school diploma", "Vocational/technical program after high school but no voc/tech diploma", "Vocational/technical program after high school", "Some college but no degree", "Associate's degree", "Bachelor's degree", "Graduate or professional school but no degree", "Master's (MA, MS)", "Doctorate Degree (Ph.D., EDD)", "Profesional degree after bachelor's degree (Medicine/MD; Dentistry/DDS; Law/JD/LLB)"

QUESTION TEXT:

{Now I have a few questions about education and job training.} What is the highest grade or year of school that [you/[NAME] {have/has} completed?

{{IF NECESSARY, SAY: Again, any information you can provide will be helpful.}}

HELP TEXT:

Highest Grade or Year of School Completed: For grades 1-11, enter the exact grade level. If the person you are asking about completed elementary school, find out the last grade completed. If the respondent says the person finished 12th grade, ask whether the person received a diploma or got the equivalent of a high school diploma.

Completing a given grade in school should be counted as the number of years it normally takes to complete that grade level of education, regardless of how many years it actually took the person to finish. This means that for persons who skipped or repeated grades in elementary school, you will enter the highest grade completed regardless of the number of years they were in school. This rule is true for elementary school through high school and is especially relevant to college.

12th grade but no diploma: The person completed the 12th grade, but did not earn a high school diploma or GED.

High school equivalent: This means that the person has a GED. The GED is an exam certified equivalent of a high school diploma received when the person has not actually received a degree from attending high school, but has acquired his/her GED (high school equivalency based on passing the GED exam).

High school diploma: A certificate that verifies that a person has successfully completed the required courses of a high school curriculum and has actually graduated from high school rather than having a GED.

Vocational/technical program after high school but no voc/tech diploma: The person attended this type of program, but did not earn a degree/diploma/certificate of successful completion of the program.

Vocational/technical program after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered '1-2
years of college" or "associate's degree" and not vocational or trade school.

Vocational/technical program after high school: The person attended this type of program, but DID earn a degree/diploma/certificate of successful completion of the program. Vocational/trade school after high school refers to work or trade-related education received after completing high school, but does not include college. Examples include secretarial school, mechanical or computer training school, etc. Some community colleges offer vocational training, but this would be considered "1-2 years of college" or "associate's degree" and not vocational or trade school.

Some college but no degree: The person does not have a 4-year college (bachelor's) degree but has completed a class for credit at a college or university.

Associate's degree: A 2-year college degree typically earned at a community college (rather than a trade school).

Bachelor's degree: A 4-year college degree earned at a university or 4-year college. It is sometimes called an "undergraduate degree."

Graduate or professional school but no degree: The person attended a graduate or professional school that advanced him/her toward a degree beyond a Bachelor's degree (for example, a Master's, Doctorate, or other professional degree). However, the person did not complete the program or earn the degree.

Master's (MA, MS): Studies beyond a bachelor's degree, but not a Ph.D. or Ed.D.

Doctorate Degree (Ph.D., EDD): Studies beyond a Master's degree that result in a doctorate degree.

Professional degree after bachelor’s degree (Medicine/MD; Dentistry/DDS, Law/JD/LLB): Any other graduate degrees earned with academic studies beyond the bachelor’s.

QUESTION TEXT:
What was the diagnosis or were the diagnoses?
PROBE: Anything else?
CODE ALL THAT APPLY.

HELP TEXT:

Learning disability: This is a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which shows up as difficulty to listen, think, speak, read, write, spell, or do mathematical calculations. In some cases the child can perform at grade level, but only with special help. Some names of learning disabilities are dyslexia (CODE UNDER DYSLEXIA), dyscalculia (CODE UNDER DYSCALCULIA), developmental aphasia, minimal brain dysfunction, brain injury, and perceptual disabilities. The term does not include learning problems that are primarily the result of problems with seeing, hearing, or walking (or visual, hearing or motor disabilities); mental retardation; emotional disturbance; or environmental, cultural, or economic disadvantage. A commonly used acronym is "LD."

Attention Deficit Disorder (ADD): A childhood syndrome characterized by short attention span that is inappropriate for his/her age group.

Attention Deficit Hyperactivity Disorder (ADHD): The child displays signs of inattention, impulsivity, and hyperactivity that are inappropriate for his or her mental and chronological age. Adults in the child’s environment, such as parents and teachers must report the signs. Inattention means difficulty concentrating, easily distracted, and not finishing things started. Impulsivity means often acts before thinking, shifts excessively from one activity to another, needs a lot of supervision. Hyperactivity means runs about or climbs on things excessively, has difficulty staying seated, always on the go, as if driven by a motor. Onset is typically before age seven and condition lasts at least six months.

Developmental delay: A condition in which a young child falls significantly behind his/her age-mates in physical, mental (cognitive), speech (communication), social/emotional, adaptive (behavioral) development. It does not simply mean that the child talked somewhat later than some children talked or was smaller than average. It is not to be confused with autism or pervasive developmental delay. If the child’s social behavior and relationships with other people are generally consistent with his or her delayed cognitive development, then the classification of the condition as developmental delay is probably appropriate. If this is not the case, see the definitions of autism and pervasive developmental disorder or delay.

Autism is a developmental disability significantly affecting verbal and nonverbal communication as well as social interaction, generally evident before age three. Other characteristics often associated with autism are a pervasive lack of responsiveness to other people, and engagement in repetitive activities and stereotyped movements (such as hand-flapping or rocking). There is also often an insistence on sameness, as shown by...
stereotyped play, abnormal preoccupations, or resistance to change. With autism, the impaired social
development and delayed or deviant language development are not merely predictable from the child's
cognitive retardation. Some children with autism are actually advanced in their reading skills, memory skills,
or musical abilities. The term autism does not apply if the child's educational performance is negatively
affected primarily because the child has an emotional disturbance. Asperger's Disorder, Pervasive
Developmental Disorder (PDD), or any other autism spectrum disorder may be coded here; the subtype will
be captured in the next question. Pervasive developmental disorder or delay is also characterized by gross
and sustained impairment in social relationships, but typically has an onset after 30 months of age. Other
characteristics are sudden excessive anxiety, inappropriate affect or emotions, resistance to change in the
environment, oddities of motor movement, abnormalities of speech, hypersensitivity to sensory stimuli, and
self-mutilation. This condition generally does not involve delusions, hallucinations, incoherence, or bizarre
associations.

Dyslexia: A learning disability (see above definition) marked by impairment of the ability to recognize and
comprehend the written word.

Dyscalculia: A learning disability (see above definition) marked by impairment in the ability to perform and
remember calculations in mathematics.

Intellectual or Severe cognitive disability/Mental Retardation: The child's mental development is significantly
and noticeably behind what would ordinarily be expected for a child of his or her age. This significantly below
average general intellectual functioning exists at the same time as problems in adaptive behavior, and
negatively affects the child's educational performance.

Orthopedic impairment: A bodily (or physical) impairment that is severe enough to negatively affect a child's
educational performance. Disabling physical problems such as those resulting from poliomyelitis (often called
polio or infantile paralysis), bone tuberculosis, cerebral palsy, amputations, and fractures or contractures
(shortening of tissue) from burns would be considered as orthopedic impairments.

Serious Emotional Disturbance or SED: A condition that has one or more of the following characteristics over
a long period of time that negatively affect a child's educational performance: (a) an inability to learn that
cannot be explained by other factors; (b) an inability to build or maintain satisfactory interpersonal
relationships with peers and teachers; (c) inappropriate behavior or feelings; (d) a general mood of
unhappiness or depression; or (e) a tendency to develop physical symptoms or fears associated with personal
or school problems. The term includes schizophrenia but does not apply to children who are socially
maladjusted, unless it is determined that they have a serious emotional disturbance.

Traumatic Brain Injury: An acquired injury to the brain caused by an external force, resulting in total or partial
functional disability or psychosocial impairment, or both, that adversely affects a child's educational
performance. The term applies to open or closed head injuries resulting in impairments in one or more areas,
such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving;
sensory, perceptual, and motor abilities; psycho-social behavior; physical functions; information processing;
and speech. The term does not apply to brain injuries that are congenital (there at birth) or degenerative
(problem that grows worse over time), or to brain injuries brought on by birth trauma (injuries during birth).
The term is used when an external force has caused the injury.

Panic Disorder: A disorder in which there is the sudden onset of several different physical signs, such as rapid
heart rate, shaking, sweating, nausea, dizziness, and difficulty breathing. A panic disorder may make a child
think that something horrible is about to happen.

Separation Anxiety Disorder: This is the fear a child has of being separated from his/her parents which is far
more than would be expected for the child's developmental stage.

Obsessive Compulsive Disorder: A child must have obsessions or compulsions or both to have this disorder,
and these obsessions and/or compulsions must be disabling to the child. Obsessions are thoughts that aren't
visible to others but cause the child distress. The thoughts occur over and over and the child spends so much
time on them that they have a hard time taking care of themselves or relating to others. Compulsions are
mental acts that a child feels driven to perform in response to an obsession.

Generalized Anxiety Disorder: Children who have this disorder worry all the time over nothing, themselves,
other's safety, their health, and/or the world to a far greater extent than average. They often have many
physical signs of anxiety such as headache, abdominal pain, cramps, diarrhea, vomiting, and dizziness.
Other Anxiety Disorder: An anxiety disorder that is not one of the specific disorders in this list.

Bipolar Disorder: A child with bipolar disorder displays signs of major mood changes, sometimes sad, as in depression, or the opposite, mania. All bipolar disorders are a combination of mania with or without depression. Some signs of mania include inflated self-esteem, decreased need for sleep, distractibility and increased activity. Some signs of depression are sleeping too much, poor appetite, feelings of severe worthlessness, hallucinations or strange beliefs about the past.

Depression: Some signs of depression are frequent sadness, loss of interest or enjoyment of activities, low energy, isolation from friends, sleeping too much, poor appetite, a severe sense of worthlessness, problems with concentration, frequent complaints of physical illnesses, and thoughts of suicide or destructive behavior.

Speech or language therapy?

HELP TEXT:
Speech or language therapy: Therapy involving the evaluation or treatment of the student’s speech or language abilities. Impairments to speech can include one or more of the following: articulation errors (includes omitting words, substituting words, or distorting sounds), inappropriate voice (including pitch, loudness, or voice quality), or abnormal fluency (including abnormal rate of speaking, speech interruptions, repetitions of sounds, words, phrases or sentences). Impairments to language can include improper use of phonemes, syntax, or semantics. Language impairments can also stem from improper practical use of language. Therapy includes special techniques to overcome speech or language limitations. Therapy should be provided only by a teacher of the speech or language impaired who is certified by the state, or by a certified Speech and Language Therapist/Pathologist.

Occupational therapy?

HELP TEXT
Occupational therapy: Therapy involving the evaluation or treatment of the student's level of independence in daily living activities. The goal of occupational therapy is to promote maximum independence in daily living. Therapy can include the use of work, play, or self-care activities to improve functional ability, promote health, prevent injury or further disability. Therapy should be provided only by a therapist who has been certified by the American Occupational Therapy Association or by an occupational therapy assistant who provides therapy under the supervision of a certified occupational therapist.

Physical therapy?

**HELP TEXT:**

Physical therapy: Therapy involving the evaluation or treatment of health problems resulting from injury or disease. It is also sometimes called physiotherapy. Physical therapists assess joint motion, muscle strength and endurance, how well the heart and lungs work, and how well children can do activities required for daily living. Treatment includes therapeutic exercise, cardiovascular endurance training, and training in activities of daily living, as well as the use of massage, light, cold, heat, electricity, and mechanical devices to treat physical disorders. Physical therapy does not include the use of X-Ray technology. Therapy should be provided only by a therapist who has been state-certified to provide such services.

Vision services?

**HELP AVAILABLE**

Vision services: Therapy combines health and education professions to improve the student’s independence in daily living and access to educational materials. Health professionals include ophthalmologists and optometrists. Ophthalmologists are medical doctors who specialize in medical and surgical care of the eyes and visual system. Optometrists are health service providers who evaluate vision conditions such as nearsightedness, farsightedness, astigmatism, and presbyopia. They test the student’s ability to focus and...
coordinate the eyes, judge depth, and see colors accurately. They prescribe eyeglasses, contact lenses, low vision aids, and vision therapy. Teachers of the visually impaired are state-certified to teach students who are visually impaired or blind.

Social work services?

HELP TEXT:
Social work services: Services that provide support to students and their families to meet individual human needs. Particular attention is devoted to the needs and empowerment of students and their families who are disadvantaged, vulnerable, or at risk. Social workers strive to focus on the well being of the student and his/her family in the context of their school and community. Social workers attend to the environmental forces that create, contribute to, and address problems of daily living. Psychological services?

HELP TEXT:
Psychological services: Services that involve the assessment of academic skills and learning aptitudes, personality and emotional development, social skills and school climates, and eligibility for special education. Treatment involves one-on-one interaction with students or parents to resolve personal conflicts and problems in learning and adjustment, psychological counseling for students and parents, social skills training, and assistance through separation and loss. Within school systems, psychological services are typically provided by certified school psychologists. However, assessment and treatment can be extended to the health community and include services provided by clinical psychologists, psychiatric social workers, or psychiatrists (who are medical doctors).

Private tutoring or schooling for learning problems?

HELP TEXT:

Private tutoring or schooling for learning problems: Refer to education or training associated with a specific learning problem or need. The term “private” suggests either that there is a cost associated with the service or education is not provided by the public school system. Individuals, organizations, or businesses in school, home, or community settings can provide private tutoring designed to improve the student’s educational achievement, typically in math or reading. Special schools are available to students with particular needs such as emotional problems, learning disabilities, blindness, or deafness. Such schools charge parents for their child's education. However, the education of students with disabilities may be subsidized by their home school district if the district cannot provide a similar appropriate education.

Instruction in Braille

HELP TEXT:
Instruction in Braille: Braille is a touch system of reading using as the basic graphic symbol a cell composed of six dots, two dots wide and three dots high. The dots are “read” by running the hand over the paper rather than looking at it. Sixty-three possible dot combinations of the cell form the basis of the Braille code, and numerous rules govern the usage of the code. Learners who are totally blind, near-blind, and with profound low vision need mastery of reading Braille since it is likely their only means of gaining access to educational information in print form. Reading in Braille is a system of reading that differs in many significant ways from reading in print. Teachers receive special training to teach Braille.

Instruction in sign language, Cued Speech, ASL, total communication

HELP TEXT:

Instruction in sign language, Cued speech, ASL, TOCO: Refers to various manual methods that replace the use of speech only as a means of communication. Manual communication is a system of teaching individuals with hearing impairments that makes use of sign language and fingerspelling. Sign language is a general term for using the hands to form words and phrases. There are many forms of sign language, including American Sign Language (ASL), Signed English, Sign Exact English (SEE), etc. Cued Speech uses hand signals to symbolize sounds. TOCO refers to total communication. TOCO employs a combination of oral and manual approaches to communication and includes speech, sign language, lip-reading, natural gestures, fingerspelling, residual hearing, reading and writing.
