PROGRAMMER INSTRUCTIONS:

1. DISPLAY ‘still’ IN UNDERLINED TEXT.

2. DISPLAY THE COMPLETED HOUSEHOLD MATRIX FROM THE MOST RECENT COMPLETE OR PARTIALLY COMPLETE PARENT INTERVIEW IN FALL-K, SPRING K, OR SPRING-FIRST GRADE. THIS INCLUDES THE PERSON TYPE, FIRST NAME, LAST NAME, AGE, AND SEX COLUMNS. THESE COLUMNS SHOULD BE PROTECTED, THAT IS, INFORMATION CANNOT BE CHANGED. CHANGES MADE AT INQ.130, INQ.160, AND AGE QUESTIONS (IF INQ.175 = 1, CALCULATE AGE FROM BIRTHDATE IN INQ.170). ELSE, GET FROM INQ.176) SHOULD SHOW UP ON THE MATRIX AT FSQ.010. CHANGES MADE AT INQ.060 and INQ.070 SHOULD BE REFLECTED IN THE FSQ.010 MATRIX.

2a. IF THE MOST RECENT INTERVIEW FOR THE RESPONDENT WAS ONE WITHOUT A COMPLETE FSQ SECTION (R4A INTERVIEW, R3A INTERVIEW OR R2 INTERVIEW WITH ONLY SPQ AND NOT A COMPLETE FSQ), DO THE FOLLOWING:
i. If the most recent round for the case was R4A: If there was a new respondent in R4A and the R4B respondent is the same as the R4A respondent (SAMERESP=1), add this person to the end of the household roster and designate this person with a “Respondent” in their roster spot.

ii. If the most recent round for the case was R3A: If there was a new respondent in R3A and the R4B respondent is the same as the R3A respondent (SAMERESP=1), add this person to the end of the household roster and designate this person with a “Respondent” in their roster spot.

iii. If the most recent round for the case was R2 and there was a partially complete interview in R2 with SPQ but not a complete FSQ: If there was a new respondent in the partially complete R2 interview with only SPQ and the R4B respondent is the same as the R2 respondent (SAMERESP=1), add this person to the end of the household roster and designate this person with an “Respondent” in their roster spot.

iv. If the most recent round for the case was R4A: If the R4B respondent is not the same as the R4A respondent and the R4B respondent is on the original household matrix (a household member from R1, R2, or R3B is selected at INQ030), the R4A respondent should be placed at the bottom of the matrix and the R4B respondent should be designated with a "Respondent" in their roster slot.

v. If the most recent round for the case was R3A: If the R4B respondent is not the same as the R3A respondent and the R4B respondent is on the original household matrix (a household member from R1 or R2 is selected at INQ030), the R3A respondent should be placed at the bottom of the matrix and the R4B respondent should be designated with a "Respondent" in their roster slot.

vi. If the most recent round for the case was R2 and there was a partially complete interview in R2 with SPQ but not a complete FSQ: If the R4B respondent is not the same as the R2 respondent and the R4B respondent is on the original household matrix (a household member from R1 is selected at INQ030), the R2 respondent should be placed at the bottom of the matrix and the new R4B respondent should be designated with a "Respondent" in their roster slot.

vii. If the most recent round for the case was R4A: If the R4B respondent is not the same as the R4A respondent and the R4B respondent is not a household member from the original household matrix (this is a new household member and INQ030=0), the R4A respondent is overwritten by the R4B respondent. The R4B respondent gets placed at the end of the roster and is designated with the “Respondent” in their roster spot.

viii. If the most recent round for the case was R3A: If the R4B respondent is not the same as the R3A respondent and the R4B respondent is not a household member from the original household matrix (this is a new household member and INQ030=0), the R3A respondent is overwritten by the R4B respondent. The R4B respondent gets placed at the end of the roster and is designated with the “Respondent” in their roster spot.

ix. If the most recent round for the case was R2 and there was a partially complete interview in R2 with SPQ but not a complete FSQ: If the R4B respondent is not the same as the R2 respondent and the R4B respondent is not a household member from the original household matrix (this is a new household member and INQ030=0), the R2 respondent is overwritten by the R4B respondent. The R4B respondent gets placed at the end of the roster and is designated with the “Respondent” in their roster spot.

3. Add as the 6th column to the matrix, ‘Still Here’.

4. The cursor should start at the ‘Still Here’ column for the first person listed in the matrix.

5. Display brackets [ ] around the first two paragraphs whenever in the ‘Still Here’ column for someone other than the first person listed on the matrix. (The first two paragraphs)
SHOULD BE DISPLAYED WITHOUT THE BRACKETS WHEN YOU FIRST ARRIVE AT THIS QUESTION.)

6. ADD AS THE 7TH COLUMN TO THE MATRIX, 'REASON LEFT'(FSQ.015).

IF THE 'STILL IN HH' IS CODED 'YES', THE CURSOR SHOULD MOVE TO THE 'STILL HERE' COLUMN FOR THE NEXT PERSON ON THE MATRIX (THE 'REASON LEFT' COLUMN DOES NOT NEED TO BE COMPLETED IN THIS INSTANCE).

8. ADD AS THE 8TH COLUMN TO THE MATRIX, 'REASON LEFT OTHER' (FSQ.015OS).

9. THE MATRIX CANNOT HAVE MORE THAN 25 ROW ENTRIES.

10. IF QUESTION IS ABOUT THE RESPONDENT AND INQ.030 NE 0 (RESPONDENT IS NOT A NEW HOUSEHOLD MEMBER) AND FSQ.010 = 2 (NOT IN HH), DISPLAY ERROR MESSAGE: "THIS PERSON CANNOT BE THE RESPONDENT AND NOT BE IN THE HOUSEHOLD."

PROGRAMMER INSTRUCTIONS:

1. DISPLAY THE HOUSEHOLD MATRIX (PERSON TYPE, FIRST NAME, LAST NAME, AGE, AND SEX COLUMNS.)

2. THE INTERVIEWER CAN ADD UP TO 25 ROW ENTRIES.

3. THE INTERVIEWER CAN MOVE ALL AROUND THE MATRIX USING THE ARROW KEYS (EXCEPT ON PROTECTED FIELDS).

4. IF, ACCORDING TO THE PRELOAD, A CASE HAS COMPLETE FSQ DATA FROM PARENT INTERVIEW IN FALL K, SPRING K, OR SPRING-FIRST GRADE:
a. Display first paragraph “Other... else.” When you first arrive at FSQ020. Also display this paragraph in brackets [ ] whenever you are in the first name column for any person other than person number 1 (the respondent).

b. Display all household members and associated information as collected in the most recent parent interview (in spring-first grade, spring-kindergarten or fall-kindergarten) or updated in spring-second grade IQ (INQ.060, INQ.070, INQ.112, INQ.116, INQ.130, INQ.160), and age variables ((if INQ.175 = 1, calculate age from birthdate in INQ.170. Else, get from INQ.176)) for the child and the respondent. However, do not display the names of those household members that were coded ‘2’ at FSQ010 (not in HH anymore).

If the most recent interview for the respondent was one without a complete FSQ section (R4A, R3A interview or R2 interview with only SQP and not a complete FSQ), but the case had a complete FSQ section from a previous round, use the same instructions as shown in FSQ010.

2a. And collect the age and sex for the respondent.

b. All previous household member rows should be protected. The cursor should appear on the first blank first name column.

c. When on the first blank first name column display "probe: ... household", "enter first complete", and the "new" in that screen instruction.

d. When on the second blank first name column, the probe and screen instruction cited in "d" above should also continue to be displayed.

c. Display the second paragraph “Now... else.” When you first arrive at FSQ020. Also display this paragraph in brackets [ ] whenever you are in the first name column for any person other than person number 1 (the respondent).

b. Display the respondent’s first and last names in the appropriate columns (collected at INQ.060, INQ.070, INQ.112, or INQ.116). Display ‘respondent’ in the first column to indicate that person is the respondent.

If the most recent interview for a household did not have a complete FSQ section, the previous round respondent will be in the first row of the household matrix and we will collect that person’s age and sex. If the respondent changes in the current round, the previous round respondent’s information will be overwritten and we will collect that person’s age and sex.

c. Display the name of the focal child in the second row of the first and last name columns (from INQ.130). Display ‘c’ in the first column to indicate that person is the focal child. Display the age (if INQ.175 = 1, calculate age from birthdate in INQ.170. Else, get from INQ.176) and sex (INQ.160) of the child in the appropriate columns of the second row. This row is protected.

d. Display "You will need... the matrix." and "press enter to... a household member" whenever the cursor is positioned in the first name column for person number 1.

BOX 3

IF IT IS [A CASE THAT HAD COMPLETE FSQ DATA FROM PARENT INTERVIEW IN FALL K, SPRING K, OR SPRING-FIRST GRADE AND (THERE WERE NEW HOUSEHOLD MEMBERS ADDED TO FSQ.020 IN THE CURRENT INTERVIEW) OR (THE RESPONDENT OR SPOUSE/PARTNER HAS A NEW RELATIONSHIP TO THE CHILD (FSQ.121 = 1 OR FSQ.122 = 1 ))] OR (A CASE WITHOUT COMPLETE FSQ DATA IN FALL-KINDERGARTEN, SPRING–KINDERGARTEN, OR SPRING-FIRST GRADE INTERVIEW), GO TO LOOP1.

ELSE, GO TO BOX 4A.

LOOP 1

IF A CASE WITHOUT COMPLETE FSQ DATA IN FALL-KINDERGARTEN, SPRING–KINDERGARTEN, OR SPRING-FIRST GRADE INTERVIEW, ASK FSQ.130 - FSQ.180 FOR EACH PERSON ENUMERATED ON THE HOUSEHOLD MATRIX (AT FSQ.020) WHO IS NOT THE FOCAL CHILD.
Else, if it is a case that had complete FSQ data in Fall K, Spring K, or Spring-First Grade, ask FSQ.130 - FSQ.180 for ([each new person enumerated on the household matrix (at FSQ.020) who is not the focal child] and [each old person who has a new relationship to the child (FSQ.121 = 1 or FSQ.122 = 1 for that person)]).

**FSQ130**

**HELP AVAILABLE**

**QUESTION TEXT:**

What is [your/NAME’s] relationship to [CHILD]?

[CODE RELATIONSHIP OF NEW HOUSEHOLD MEMBERS ONLY.]

**HELP TEXT:**

Mother/Female Guardian: The female primarily responsible for the child. Includes birth or biological mothers, adoptive, step, foster, and other mothers, as well as legal female guardians.

Father/Male Guardian: The male primarily responsible for the child. Includes birth or biological fathers, adoptive, step, foster, and other fathers, as well as legal male guardians.

Sister: Include biological (full, half), adoptive, step, and foster sisters.

Brother: Include biological (full, half), adoptive, step, and foster brothers.

Girlfriend or Female Partner of CHILD’s Parent/Guardian: The female who has a "partner-like" relationship with one of the child's parents or guardians. "Living as married" is another way of describing the relationship.

Boyfriend or Male Partner of CHILD’s Parent/Guardian: The male who has a "partner-like" relationship with one of the child’s parents or guardians. "Living as married" is another way of describing the relationship.

Grandmother: The female parent of the child's biological or adoptive mother or father.

In the case of a step-grandmother, code the relationship as you would a grandmother (code 7). For this survey, we code that person as a grandparent because we don’t distinguish between biological, adoptive, or step grandparents.

Grandfather: The male parent of the child's biological or adoptive mother or father.

In the case of a step-grandfather, code the relationship as you would a grandfather (code 8). For this survey, we code that person as a grandparent because we don’t distinguish between biological, adoptive, or step grandparents.

Aunt: The sister of the child’s biological or adoptive mother or father or the wife of the child’s uncle.

Uncle: The brother of the child’s biological or adoptive mother or father or the husband of the child’s aunt.

Cousin: A child of the focal child’s uncle, aunt, or cousin.

Other Relative: Refers to relationships that aren't specifically listed, such as great grandmother, niece, or...
nephew.

In the case of a step-grandparent, code the relationship as you would a grandparent (code 7 for grandmother, code 8 for grandfather).

Other Non-relative: Refers to the relationship between two people when there is no family relationship through blood, marriage, adoption, or partnership (i.e., living together as married). It also refers to more ambiguous relationships that exist where there are two people living together as married and they have children. For example, the child's father and the father's girlfriend (who is not the child's mother) live together as married and the girlfriend's daughter lives with them. The relationship of the girlfriend's daughter to the child would be siblings if they were married, but since the father and the girlfriend are not married, she is an "other non-relative." If the "other non-relative" is coded, you will receive a list of other codes to use if they are more descriptive than "other non-relative."

In the case of a step-grandparent, code the relationship as you would a grandparent (code 7 for grandmother, code 8 for grandfather).

QUESTION TEXT:

{Are you/is {NAME}} {CHILD}'s...

HELP TEXT:

Biological or Birth Mother: Child’s female biological parent. This may be the birth mother, but could also apply to a mother who used a surrogate mother to have her biological child.

Adoptive Mother: The female who has taken the child into her own family by legal process to raise as her own child.

Step Mother: The female other than the child’s mother who is married to the child’s father.

Foster Mother: The female with whom the child is placed temporarily, usually through a social service agency and/or a court.

Female Guardian: The female legally placed in charge of the affairs of the child.

Other Female Parent or Guardian: This person acts as the mother of the child, but does not fit into one of the other categories. For example, in a household with two mothers, one of the mothers may not classify herself as biologically related and she may not be legally in charge of the affairs of the child even though she is another parent to the child. This category may also be used if a mother has a child through a surrogate mother, or with a donated egg, and does not classify the child as biologically related or adopted through a legal process.

BOX 5
Identify the 2 “key” parent figures in the household. This person or persons should be chosen as follows:

1) The key parent figures should be chosen only from among current members of the household;

2) If a mother (relation=1) is in the household she should be a key parent figure; if a father (relation=2) is in the household he should be a key parent figure; if there are two mothers (relation=1), pick the mother with the lower number relationship in the following system: birth mother = 1, adoptive mother = 2, stepmother = 3, foster mother or female guardian = 4. Other type of mother = 5. If two mothers have same number relationship, or if the relationship in FSQ.140 was refused or don’t know, pick one with lowest person number. If there are two fathers (relation=2), pick the father with the lower number relationship in the following system: birth father = 1, adoptive father = 2, stepfather = 3, foster father or male guardian = 4, and other type of father = 5. If two fathers have same number relationship, or if the relationship in FSQ.150 was refused or don’t know, pick one with lowest person number. Children’s parents with relation = 1 or 2 should be the key parent figures whether or not one of the parents is the respondent.

3) If there is a mother (relation=1) but no father (relation=2) and the mother has a male (FSQ.140 = 1) spouse/partner, the mother should be a key parent figure and the male spouse/partner should be a key parent figure. Else, if there is a mother (relation=1) but no father (relation=2) and there are two mothers in the household, the mother (identified with the same criteria as in bullet 2) should be a key parent figure and the other mother in the household (who has a different person number than the mother identified as a key parent figure) should be a key parent figure. Else, if there is a mother (relation=1) but no father (relation=2) and the mother has a spouse/partner who is female (FSQ.140 = 2), the mother (identified with the same criteria as in bullet 2) should be a key parent figure and her female spouse/partner who has a different person number than the mother identified as a key parent figure should be a key parent figure. If the sex of the spouse/partner of a parent (relation = 1 or 2) is unknown (FSQ.140 = ref or dk), the parent and the spouse/partner of the parent should still each be key parent figures. (Note: in households with two mothers and no father, each mother figure can only occupy one of the two key parent figure slots. If mother figure #2 qualifies as a key parent and is also the spouse/partner of a mother figure #1, mother figure #1 should be one key mother figure and mother figure #2 should be the other key parent figure. Also, in two mother families without a father, if a mother who takes precedence over another mother (by relationship number or person number as indicated in bullet 2 above) is not the respondent, but is the spouse/partner of the other mother who is the respondent, both mothers should be key parent figures rather than setting the mother that takes precedence as both the key female and key male figure.)

4) If there is a father (relation=2) but no mother (relation=1) and the father has a female spouse/partner, the father should be a key parent figure and the female spouse/partner should be a key parent figure. Else, if there is a father (relation=2) but no mother (relation=2) and there are two fathers in the household, the father (identified with the same criteria as in bullet 2 if there are two fathers) should be a key parent figure and the other father in the household (who has a different person number than the father identified as a key parent figure) should be a key parent figure. Else, if there is a father (relation=2) but no mother (relation=1) and the father has a male spouse/partner, the father (identified with the same criteria as in bullet 2 if there are two fathers) should be a key parent figure and his male spouse/partner (who has a different person number than the father identified as a key parent figure) should be a key parent figure. Note: In households with two fathers and no mother, each father figure can only occupy one of the two key parent figure slots. If father figure #2 qualifies as a key parent and is also the spouse/partner of a father figure #1, father figure #1 should be one key father figure and father figure #2 should be the other key parent figure. Also, in two father families without a mother, if a father who takes precedence over another father (by relationship number or person number as indicated in bullet 2 above) is not the respondent, but is the spouse/partner of the other father who is the respondent, both fathers should be key parent figures rather than setting the father that takes precedence.
AS BOTH THE KEY MALE AND KEY FEMALE FIGURE.)

• 5) OTHERWISE, IF THERE ARE NOT PARENTS IN THE HOUSEHOLD (RELATION NE 1 OR 2), THE RESPONSANT SHOULD BE A KEY PARENT FIGURE AND THE RESPONSANT'S SPOUSE/PARTNER, IF ONE, SHOULD BE A KEY PARENT FIGURE.

GO TO SECTION CCQ (CHILD CARE).
Next, I'd like to talk with you about the child care arrangements you have for {CHILD} this year. First, I'd like to talk to you about all the child care {CHILD} now receives on a regular basis from someone other than {you/[his/her] parents} {or [his/her] guardians}. This does not include occasional baby-sitting or backup care providers.

PRESS ENTER TO CONTINUE.

DISPLAY "regular basis" IN UNDERLINED TEXT

FOR ALL DISPLAYS, DEFINE "PARENT FIGURE" AS THE MOTHER OR FATHER OR MALE OR FEMALE GUARDIAN (FSQ.130= 1 OR 2 - THIS INCLUDES BIRTH, ADOPTIVE, STEP, FOSTER, AND OTHER PARENTS OR GUARDIANS).

IF RESPONDENT IS A PARENT FIGURE (FSQ.130 = 1 OR 2 FOR THE RESPONDENT) OR (IF THERE IS NO PARENT IN THE HOUSEHOLD (FSQ.130 NE 1 OR 2 FOR ANY HOUSEHOLD MEMBER)), DISPLAY "you".

OTHERWISE, DISPLAY "[his/her] parents" IF AT LEAST ONE HH MEMBER, NOT THE RESPONDENT, IS A BIRTH, ADOPTIVE, OR STEP PARENT OR THE RELATIONSHIP IS DK OR RF (FSQ.140 OR FSQ.150 = 1, 2, 3, DK, OR REF).

DISPLAY "or [his/her] guardians" IF THERE IS NO PARENT IN THE HOUSEHOLD (FSQ.130 NE 1 OR 2 FOR ANY HOUSEHOLD MEMBER). ELSE, USE A NULL DISPLAY.

Is {CHILD} now receiving care from a relative on a regular basis (including care provided before or after school)? This may include grandparents, brothers and sisters, or any relatives other than {you/[CHILD]'s parents} {or [CHILD]'s guardians}.

DO NOT INCLUDE CARE FROM A PARENT WHO LIVES IN OR OUTSIDE THE HOUSEHOLD. ALSO, IF NO PARENTS LIVE WITH THE CHILD, DO NOT INCLUDE CARE FROM GUARDIANS WHO LIVE WITH THE CHILD.

Care from a relative: Record care or programs provided by a relative other than the child's parents in a private home. The private home may be the child's home, the caregiver's home, or another home. In all cases, do not include care provided by a parent, even if they do not live in the household. (Do not include visitation with a separated or divorced parent who does not have custody.)

If there is at least one parent in the household, any relative living in the household is eligible to be counted as a care arrangement, if the care is provided on a regularly scheduled basis. Relatives outside the household may also be regular care providers.
If neither parent lives in the household, do not include care provided by guardians who live with the child (they are similar to parents).

Relative care arrangements may or may not have a charge or fee.

Regular Basis: An arrangement or program occurring on a routine schedule (i.e., occurring at least weekly or on some other schedule). Do not include occasional babysitting or "back up" arrangements that are just used once in a while.

What was the diagnosis or were the diagnoses?

PROBE: Anything else?

CODE ALL THAT APPLY.

CODE DYSLEXIA AS "6." CODE DYSCALCULIA AS "7." CODE "LEARNING DISABILITY" (CODE 1) ONLY IF THE CHILD HAS AN ADDITIONAL LEARNING DISABILITY THAT IS SEPARATE FROM OR IN ADDITION TO DYSLEXIA (CODE 6) OR DYSCALCULIA (CODE 7).

IF BOTH ADD (CODE 2) AND ADHD (CODE 3) ARE MENTIONED, CODE AS "3" FOR ADHD.

HELP TEXT:
Learning disability: This is a disorder in one or more of the basic psychological processes involved in understanding or in using language, spoken or written, which shows up as difficulty to listen, think, speak, read, write, spell, or do mathematical calculations. In some cases the child can perform at grade level, but only with special help. Some names of learning disabilities are dyslexia (CODE UNDER DYSLEXIA), dyscalculia (CODE UNDER DYSCALCULIA), developmental aphasia, minimal brain dysfunction, brain injury, and perceptual disabilities. The term does not include learning problems that are primarily the result of problems with seeing, hearing, or walking (or visual, hearing or motor disabilities); intellectual or severe cognitive disability/mental retardation; emotional disturbance; or environmental, cultural, or economic disadvantage. A commonly used acronym is "LD."

Attention Deficit Disorder (ADD): A childhood syndrome characterized by short attention span that is inappropriate for his/her age group.

Attention Deficit Hyperactivity Disorder (ADHD): The child displays signs of inattention, impulsivity, and hyperactivity that are inappropriate for his or her mental and chronological age. Adults in the child’s environment, such as parents and teachers must report the signs. Inattention means difficulty concentrating, easily distracted, and not finishing things started. Impulsivity means often acts before thinking, shifts excessively from one activity to another, needs a lot of supervision. Hyperactivity means runs about or climbs on things excessively, has difficulty staying seated, always on the go, as if driven by a motor. Onset is typically before age seven and condition lasts at least six months.

Developmental delay: A condition in which a young child falls significantly behind his/her age-mates in physical, mental (cognitive), speech (communication), social/emotional, adaptive (behavioral) development. It does not simply mean that the child talked somewhat later than some children talked or was smaller than average. It is not to be confused with autism or pervasive developmental delay. If the child’s social behavior and relationships with other people are generally consistent with his or her delayed cognitive development, then the classification of the condition as developmental delay is probably appropriate. If this is not the case, see the definitions of autism and pervasive developmental disorder or delay.
Autism: A developmental disability significantly affecting verbal and nonverbal communication as well as social interaction, generally evident before age three. Other characteristics often associated with autism are a pervasive lack of responsiveness to other people, and engagement in repetitive activities and stereotyped movements (such as hand-flapping or rocking). There is also often an insistence on sameness, as shown by stereotyped play, abnormal preoccupations, or resistance to change. With autism, the impaired social development and delayed or deviant language development are not merely predictable from the child's cognitive retardation. Some children with autism are actually advanced in their reading skills, memory skills, or musical abilities. The term autism does not apply if the child's educational performance is negatively affected primarily because the child has an emotional disturbance. Asperger's Disorder, Pervasive Developmental Disorder (PDD), or any other autism spectrum disorder may be coded here; the subtype will be captured in the next question. Pervasive developmental disorder or delay is also characterized by gross and sustained impairment in social relationships, but typically has an onset after 30 months of age. Other characteristics are sudden excessive anxiety, inappropriate affect or emotions, resistance to change in the environment, oddities of motor movement, abnormalities of speech, hypersensitivity to sensory stimuli, and self-mutilation. This condition generally does not involve delusions, hallucinations, incoherence, or bizarre associations.

Dyslexia: A learning disability (see above definition) marked by impairment of the ability to recognize and comprehend the written word.

Dyscalculia: A learning disability (see above definition) marked by impairment in the ability to perform and remember calculations in mathematics.

Intellectual disability/Severe cognitive disability/Mental retardation: The child's mental development is significantly and noticeably behind what would ordinarily be expected for a child of his or her age. This significantly below average general intellectual functioning exists at the same time as problems in adaptive behavior, and negatively affects the child's educational performance.

Orthopedic impairment: A bodily (or physical) impairment that is severe enough to negatively affect a child's educational performance. Disabling physical problems such as those resulting from poliomyelitis (often called polio or infantile paralysis), bone tuberculosis, cerebral palsy, amputations, and fractures or contractures (shortening of tissue) from burns would be considered as orthopedic impairments.

Serious Emotional Disturbance or SED: A condition that has one or more of the following characteristics over a long period of time that negatively affect a child's educational performance: (a) an inability to learn that cannot be explained by other factors; (b) an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; (c) inappropriate behavior or feelings; (d) a general mood of unhappiness or depression; or (e) a tendency to develop physical symptoms or fears associated with personal or school problems. The term includes schizophrenia but does not apply to children who are socially maladjusted, unless it is determined that they have a serious emotional disturbance.

Traumatic Brain Injury: An acquired injury to the brain caused by an external force, resulting in total or partial functional disability or psychosocial impairment, or both, that adversely affects a child's educational performance. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psycho-social behavior; physical functions; information processing; and speech. The term does not apply to brain injuries that are congenital (there at birth) or degenerative (problem that grows worse over time), or to brain injuries brought on by birth trauma (injuries during birth). The term is used when an external force has caused the injury.

Panic Disorder: A disorder in which there is the sudden onset of several different physical signs, such as rapid heart rate, shaking, sweating, nausea, dizziness, and difficulty breathing. A panic disorder may make a child think that something horrible is about to happen.

Separation Anxiety Disorder: This is the fear a child has of being separated from his/her parents which is far more than would be expected for the child's developmental stage.

Obsessive Compulsive Disorder: A child must have obsessions or compulsions or both to have this disorder, and these obsessions and/or compulsions must be disabling to the child. Obsessions are thoughts that aren't visible to others but cause the child distress. The thoughts occur over and over and the child spends so much time on them that they have a hard time taking care of themselves or relating to others. Compulsions are mental acts that a child feels driven to perform in response to an obsession.
Generalized Anxiety Disorder: Children who have this disorder worry all the time over nothing, themselves, other’s safety, their health, and/or the world to a far greater extent than average. They often have many physical signs of anxiety such as headache, abdominal pain, cramps, diarrhea, vomiting, and dizziness.

Other Anxiety Disorder: An anxiety disorder that is not one of the specific disorders in this list.

Bipolar Disorder: A child with bipolar disorder displays signs of major mood changes, sometimes sad, as in depression, or the opposite, mania. All bipolar disorders are a combination of mania with or without depression. Some signs of mania include inflated self-esteem, decreased need for sleep, distractibility and increased activity. Some signs of depression are sleeping too much, poor appetite, feelings of severe worthlessness, hallucinations or strange beliefs about the past.

Depression: Some signs of depression are frequent sadness, loss of interest or enjoyment of activities, low energy, isolation from friends, sleeping too much, poor appetite, a severe sense of worthlessness, problems with concentration, frequent complaints of physical illnesses, and thoughts of suicide or destructive behavior.

QUESTION TEXT:

[What was the diagnosis?]

SPECIFY DIAGNOSIS.
IF THE CASE HAD A SPRING KINDERGARTEN OR SPRING FIRST GRADE INTERVIEW, DETERMINE FROM THE PRELOAD IF CHQ.250A WAS ASKED IN EITHER SPRING-KINDERGARTEN OR SPRING-FIRST GRADE FOR ABILITY TO COMMUNICATE, HEARING, OR BOTH. IF SO, DETERMINE IF CHQ.250 WOULD BE ASKED ABOUT THE SAME CURRENT ISSUE(S) (E.G., CHILD HAD A HEARING DIAGNOSIS IN SPRING-KINDERGARTEN OR SPRING-FIRST GRADE AND GOT ANOTHER HEARING DIAGNOSIS IN SPRING-SECOND GRADE) ACCORDING TO THE DIRECTIONS BELOW. IF CHQ.250 WOULD BE ASKED ABOUT AN ISSUE THAT HAD BEEN ASKED ABOUT IN SPRING-KINDERGARTEN OR SPRING-FIRST GRADE, WE DO NOT NEED TO ASK ABOUT IT AGAIN IN SPRING-SECOND GRADE. IF THE CURRENT DIAGNOSIS IS FOR THE SAME ISSUE AS IN SPRING-KINDERGARTEN OR SPRING-FIRST GRADE, GO TO CHQ.255a.

(NOTE: IF THERE WERE TWO ISSUES IN SPRING-KINDERGARTEN OR SPRING-FIRST GRADE (E.G., BOTH ABILITY TO COMMUNICATE AND HEARING WERE ASKED ABOUT IN ONE OF THE INTERVIEWS OR ABILITY TO COMMUNICATE WAS ASKED ABOUT IN ONE INTERVIEW AND HEARING WAS ASKED ABOUT IN ANOTHER INTERVIEW), BUT ONE ISSUE IN SPRING-SECOND (E.G., HEARING), GO TO CHQ.255a BECAUSE WE ALREADY ASKED ABOUT HEARING IN SPRING-KINDERGARTEN OR SPRING-FIRST GRADE. HOWEVER, IF ONE ISSUE WAS MENTIONED IN SPRING-K OR SPRING-FIRST GRADE AND IT WAS THE SAME ISSUE IN BOTH TIME PERIODS (E.G., HEARING) AND BOTH ISSUES ARE NOTED IN SPRING-SECOND GRADE (ABILITY TO COMMUNICATE AND HEARING), ASK ABOUT THE ONE THAT THE TWO TIME PERIODS DO NOT HAVE IN COMMON (ABILITY TO COMMUNICATE) BECAUSE THAT HAS NOT BEEN ASKED ABOUT BEFORE.)

ELSE, FOLLOW DIRECTIONS BELOW. ASK CHQ.250a, CHQ.250b (IF APPLICABLE), CHQ.250c (IF APPLICABLE), AND CHQ.255a, CHQ.255b (IF APPLICABLE) FOR THE FOLLOWING:

IF CHQ.215 = 1 AND CHQ.245 NE 1, ASK ABOUT ABILITY TO COMMUNICATE.
IF CHQ.215 NE 1 AND CHQ.245 = 1, ASK ABOUT HEARING.
IF CHQ.215 = 1 AND CHQ.245 = 1, ASK ABOUT BOTH ABILITY TO COMMUNICATE AND HEARING SEPARATELY IN A LOOP.
ELSE, GO TO CHQ.285.
