***Welcome to the
National Forum on Education Statistics
Summer 2008 Meeting***

Dear Forum Members,

On behalf of the National Forum on Education Statistics Forum, we are pleased to welcome you to the Bethesda, Maryland for the Summer 2008 meeting of the National Forum on Education Statistics.

The Forum is committed to improving the quality, comparability, and usefulness of elementary and secondary education data, while remaining sensitive to data burden concerns. Forum meetings are a venue in which representatives from state and local education agencies, the federal government, and other organizations interested in education data gather to plan, recommend, and implement strategies for building an education data system that will support local, state, and national efforts to improve public and private education throughout the United States.

This week, Forum members can expect to consider a wide range of issues, including PK-20 data exchange, FERPA guidance, the PK-12 data model, data ethics, race/ethnicity guidance, metadata, longitudinal data systems, crisis data management, attendance data, and NCES task order awards.

Forum members will have many opportunities this week to share knowledge and ideas about high profile data issues and cutting edge technology use in schools, school districts, state departments of education, and the U.S. Department of Education. We urge you take this opportunity to attend standing committee meetings, joint sessions, and roundtable discussions. Critical to our mission are communication, innovation, and examination of our practices and the assumptions under which we operate. Therefore, we encourage you to engage your peers from schools, districts, state education agencies, federal offices, and national organizations—your most valuable resource at this meeting—and offer ideas, ask questions, and help the Forum continue to make a difference in the collection and use of education data across the nation.

We hope that you develop and renew relationships with colleagues, and take a new idea, concept, or perspective home to your organization following our time together here at the Forum.

Most sincerely,

Susan VanGorden

Forum Annual Report 2007-08

National Cooperative Education Statistics System National Forum on Education Statistics

Summary 2007-08

Officers

Chairperson: Susan VanGorden, Lakota Local School District (OH)
Vice-Chair: Bruce Dacey, Delaware Department of Education
Past Chair: Derrick Lindsay, Mississippi Department of Education

Standing Committees

[National Education Statistics Agenda Committee \(NESAC\)](#)

Chair: Linda Rocks, Bossier Parish Schools (LA)
Vice Chair: Helene Bettencourt, Massachusetts Department of Education

[Policies, Programs and Implementation \(PPI\)](#)

Chair: Levette Williams, Georgia Department of Education
Vice-Chair: James Haessly, School District of Waukesha (WI)

[Technology \(TECH\)](#)

Chair: Kathy Gosa, Kansas State Department of Education
Vice-Chairs: Tom Purwin, Jersey City Public Schools (NJ)

Completed Task Forces & Publications

[Forum Guide to Core Finance Data Elements](#)

Purpose: This document provides an overview of key finance data terms. It also covers the two NCES public school finance surveys: the state-level National Public Education Financial Survey and the School District Finance Survey (or F-33). Differences and similarities between the two surveys are described. Chapter 3 contains definitions for key finance data elements. Chapter 4 contains a listing and definitions of key finance indicators and economic adjustment indexes.

Linda Champion (chair), Florida Department of Education
James (Chris) Christman, Pittsburg State University
Matthew Cohen, Ohio Department of Education
Garnet Lavan Dukes, Florida Department of Education
Dori Nielson, Montana Office of Public Instruction
Catherine Sielke, University of Georgia
Consultant: Steven D. Honegger, American Institutes for Research
Project Officer: Frank Johnson, National Center for Education Statistics

2007-08 Task Forces

[Attendance Task Force](#)

Purpose: To develop an exhaustive and mutually-exclusive list of attendance codes to provide the basis for accurate comparisons between districts and states. The attendance codes will also categorize reasons for nonattendance.

William Smith (chair), Sioux Falls School District (SD)
Ghedam Bairu, National Center for Education Statistics
Janet Emerick, Lake Central School Corporation (IN)
M. Francie Gilmore-Dunn, Mississippi Department of Education
Patricia High, Oklahoma State Department of Education
Kristina Martin, Macomb Intermediate School District (MI)
Janice Petro, Colorado Department of Education
Linda Rocks, Bossier Parish Schools (LA)
Consultant: Alyssa Alston, Council of Chief State School Officers
Project Officer: Lee Hoffman, National Center for Education Statistics

[Crisis Data Management Task Force](#)

Purpose: To develop guidelines that can be used by elementary and secondary education agencies to establish policies and procedures for collecting and managing education data before, during, and after a crisis. This includes scenarios in which the agency is directly or indirectly (e.g., only receiving displaced students) impacted by a disaster.

Linda Rocks (co-chair), Bossier Parish Schools (LA)
Earl Watkins (co-chair), Jackson Public School District (MS)
Challis Breithaupt, Maryland State Department of Education
Derrick Lindsay, Mississippi Department of Education
Allen Schulenberg, Louisiana Department of Education
Steve Shiever, Crescent Public Schools (OK)
Pat Sullivan, Texas Education Agency
Consultant: Beth Young, Quality Information Partners
Project Officer: Ghedam Bairu, National Center for Education Statistics

[Data Ethics Task Force](#)

Purpose: To develop a Code of Ethics for a broad range of stakeholders in the education data community. The Code will address ethical issues focused on the management and use of education data, with particular emphasis on individually identifiable student and staff data. This Code of Ethics will be philosophical enough to complement, and be customizable to, a wide range of state statutes and regulations. Supporting text will be specific enough to make ethical principles understandable and actionable for staff in an education organization.

Tom Purwin (chair), Jersey City Public Schools (NJ)
Cheryl McMurtrey, Mountain Home School District 193 (ID)
Stephen Metcalf, Montpelier School District (VT)
Janice Petro, Colorado Department of Education
Lee Rabbit, North Kingstown School Department (RI)
David Uhlig, Charlottesville City Public Schools (VA)
Consultant: Tom Szuba, Quality Information Partners
Project Officer: Stephen Cornman, National Center for Education Statistics

[Longitudinal Data Systems Task Force](#)

Purpose: To develop a document with lessons learned and effective approaches to designing, implementing, maintaining, and using longitudinal data systems – including various aspects of the project, such as governance, stakeholder involvement and feedback, communications, staffing, RFP writing, and bid evaluations. This resource is intended to tie together the many existing resources available on LDSs and to offer SEA and LEA perspectives to help decisionmakers, education experts, and system developers to effectively assemble the many pieces of the LDS puzzle.

Bruce Dacey (chair), Delaware Department of Education
Nancy Burke, Century Elementary Grafton Public School District (ND)
Corey Chatis, Tennessee Department of Education
Laurie Collins, Schools Interoperability Framework Association
Thomas Cosgrove, Office of the State Superintendent of Education (DC)
Khaled Falah, Office of the State Superintendent of Education (DC)
Beth Juillerat, Ohio Department of Education
Maureen Matthews, Council of Chief State School Officers
Pat Sherrill, U.S. Department of Education
Nancy Smith, Data Quality Campaign
Steve Smith, Cambridge Public Schools (MA)
Susan VanGorden, Lakota Local School District (OH)
Consultant: Anthony Garofano, Quality Information Partners
Project Officer: Tate Gould, National Center for Education Statistics

[Metadata Task Force](#)

Purpose: To develop a document with best practice concepts, definitions, implementation strategies, and templates/tools for an audience of data, technology, and program staff in state and local education agencies. It is hoped that this resource will improve this audience's awareness and understanding of metadata and, subsequently, the quality of the data in the systems they maintain.

Tom Ogle (chair), Missouri Department of Elementary and Secondary Education
Sonya Edwards, California Department of Education
Kathy Gosa, Kansas State Department of Education
Tom Saka, Hawaii Department of Education
Steve Smith, Cambridge Public Schools (MA)
Mike Strozeski, Richardson Independent School District (TX)
Consultant: Tom Szuba, Quality Information Partners
Project Officer: Ghedam Bairu, National Center for Education Statistics

PK-12 Data Model Task Force

Purpose: To develop a conceptual education data model that will focus upon teaching, learning, and the business of schools districts. The model will take into account data elements, categories of data elements, the education process, definitions and semantics, as well as relationships among data elements. The task force will also develop a methodology for utilizing, maintaining and communicating about the data model so that it will have maximum utility for stakeholders.

E. Glenn McClain (co-chair), Platte Valley School District, Weld Re-7 (CO)
Jeff Stowe (co-chair), Arizona Department of Education
Shawn Bay, eScholar
Pam Birkeland, Helena Public Schools (MT)
Bethann Canada, Virginia Department of Education
Les Daenzer, Lower Kuskokwim School District (AK)
Alicia Diaz, Southern Regional Education Board
Bertha Doar, Rockwood School District (MO)
Sonya Edwards, California Department of Education
Patricia Eiland, Alabama Department of Education
Larry Fruth, Schools Interoperability Framework Association
Ed Goddard, Clark County School District (NV)
Kathy Gosa, Kansas State Department of Education
Stephen Hockett, U.S. Department of Education
Lee Hoffman, National Center for Education Statistics
Steve King, ESP Solutions Group
Derrick Lindsay, Mississippi Department of Education
Blair Loudat, North Clackamas Schools (OR)
Stephen Metcalf, Orange-Windsor Supervisory Union (VT)
Deborah Newby, Council of Chief State School Officers
Lee Rabbitt, North Kingston School Department (RI)
Linda Rocks, Bossier Parish Schools (LA)
Robert Rodosky, Jefferson County Public Schools (KY)
Michael Stozeski, Richardson Independent School District (TX)
Charlene Swanson, New York State Education Department
Dave Uhlig, Charlottesville City Public Schools (VA)
David Weinberger, Yonkers Public Schools (NY)
Ray Wilson, Poway Unified School District (CA)
Connie J. Wise, Illinois State Department of Education
Raymond Yeagley, Northwest Evaluation Association
Consultant: Vicente Paredes, Schools Interoperability Framework Association
Project Officer: Kashka Kubzdela, National Center for Education Statistics

[Race/Ethnicity Task Force](#)

Purpose: To develop a tool to help state education agencies (SEAs) and local education agencies (LEAs) implement USED's recent changes to the way SEAs and LEAs will be expected to maintain, collect, and report data on race and ethnicity changes. This tool will aim to reduce redundant efforts within and across states, improve data comparability, and minimize reporting burden.

Bethann Canada (chair), Virginia Department of Education
Helene Bettencourt, Massachusetts Department of Education
Garnet Lavan Dukes, Florida Department of Education
Carol Jones, Michigan Center for Educational Performance and Information
Carmen Jordan, Arkansas Department of Education
Blair Loudat, North Clackamas Schools (OR)
Eric McCormick, Alaska Department of Education & Early Development
John Metcalfe, Fremont County School District #1 (WY)
David Patton, Omaha Public Schools (NE)
Madalyn Quinlan, Montana Office of Public Instruction
Thomas Stella, Everett Public Schools (MA)
Consultant: Oona Cheung, Quality Information Partners
Project Officer: Lee Hoffman, National Center for Education Statistics

Special Task Order Awards 2008

NCES has selected three states this year to receive State Cooperative System Special Projects awards, advancing its effort to improve federal-state cooperation in data collection, processing, analysis, and reporting. The FY 2008 awards, each in the amount of \$50,000, seek to enhance the quality of education and the performance of all students by promoting the development of statewide longitudinal data systems (LDSs). The FY 2008 State Cooperative System Task Order Awards were awarded to:

- **Wisconsin Department of Public Instruction**

- LDS Progress and Summary Report Integration*

- This task order will support the integration of a set of progress and summary reports into Wisconsin's LDS. The reports have been used in both internal and external reviews to ensure data quality, but due to their cumbersome and time-consuming nature, they have been underutilized. Ultimately, the project is expected to provide the state with a fully integrated quality collection and reporting system for their LDS system. As part of the system, the reports will serve as the source of a wide variety of data, feeding the state's EDEN submission, and will serve LEAs by providing NCLB School Performance reports and more options for the display of data as well as easier conduct of data quality checks.

- **Idaho Department of Education**

- Idaho Basic Education Data System Assessment*

- This task order will fund a detailed assessment of the state's primary state-level data system, IBEDS, which has been inefficient and ineffective due to problems such as existing data silos, table duplication, disparate program elements, and reliance on manually edited spreadsheets. With a focus on data architecture, applications, and interfaces, the assessment will provide Idaho with the critical information needed to develop a plan to replace IBEDS with a K-12 LDS. The assessment project, which will consist of requirements gathering, business and technical analyses, and user interviews, will produce a report that details findings on the current system along with

recommendations and resource estimates for developing a replacement system. Upon completion, the report will be made available to other states in the Forum and CCSSO.

- **Iowa Department of Education**

- Data Warehouse Needs Assessment*

This task order will support the creation of a statewide data warehouse to provide better access to the state's data. The warehouse will integrate data from multiple sources within Iowa and will enable the state to provide educators in area and local education agencies as well as the public with easy access to timely data necessary for effective data-driven decisionmaking. While Iowa has been collecting student-level data through its Project EASIER since 2004, these data have thus far been used only to assist in state and federal reporting and the transfer of individual student records among districts and post-secondary institutions. The data warehouse project will begin with a needs assessment phase to ascertain how each stakeholder group would like to view and use the data. Findings will be used to develop the system requirements for the design phase of the data warehouse, which will be accompanied by a portal for education data and reports to meet stakeholder needs.

Member Activities

- The Forum welcomed the [Regional Education Laboratories Northeast and Islands](#) as a new associate member. The organization is a collaboration of the Education Data Center, Inc., the American Institutes for Research, and WestEd, working under contract with the Institute of Education Sciences. It works to promote the use of scientific evidence to help PK-16 educators at all levels make sound decisions and policies that will improve student achievement and reduce performance gaps among student groups.
- The Forum welcomed the [Consortium for School Networking](#) (CoSN) as a new associate member. CoSN, a non-profit organization that includes education and technology leaders and policymakers, as well as leaders from the private sector, has worked since 1992 to advance K-12 education through the use of information technology. The organization has advocated for policies that facilitate effective use of technology in the classroom. CoSN has been a leader in many efforts including the enactment and funding of E-rate and recent legislation dealing with copyright laws and distance learning.

Meetings

- Summer 2007 Meeting: July 23-25, 2007 in Washington, DC
- Winter 2008 Meeting: February 20-21, 2008 in San Francisco, CA
- Summer 2008 Meeting: July 28-30, 2008 in Bethesda, MD

NCES Listserv Instructions

You should have received information on how to join your particular Forum listserv(s) within the past few weeks. The steps below use a fictitious "name of group" to explain the process.

How to send a message to your group:

1. Compose a new email to NAMEOFGROUP@nceslistserv.com and send the message as you normally would. You may also add attachments to your message.

Or

2. Visit <http://nceslistserv.com/archives/NAMEOFGROUP.html> and sign in with your email address and password, (see below for instructions for obtaining a password). Click the link "Post New Message" and complete the form.

How messages are received:

Messages sent to the group will be delivered as would any ordinary email message. As a member of the listserv, you will receive a copy of any message you send.

How to view the group archive:

Visit <http://nceslistserv.com/archives/NAMEOFGROUP.html> and sign in with your email address and password. At the bottom of the group home page, you will see links to the group archives listed by month and year. Click on the month you wish to access; you will see the archived messages from that time period.

How to get a password:

Visit <http://nceslistserv.com/archives/NAMEOFGROUP.html> and click on the link "Get Password." Fill in your **email address** and create a **password** for yourself. An email will be sent to your inbox with a link to complete the registration. After you confirm your email address, you can sign in at the web site to create a new post and view the archives.

Forum Member Handbook

National Cooperative Education Statistics System

The National Center for Education Statistics (NCES) established the National Cooperative Education Statistics System (Cooperative System) to assist in producing and maintaining comparable and uniform information and data on early childhood education and on elementary and secondary education. These data are intended to be useful for policymaking at the federal, state, and local levels.

The National Forum on Education Statistics (the Forum) is an entity of the Cooperative System, and among its other activities, proposes principles of good practice to assist state and local education agencies in meeting this purpose. The Cooperative System and the Forum are supported in these endeavors by resources from NCES.

Publications of the Forum do not undergo the same formal review required for products of NCES. The information and opinions published here are those of the National Forum on Education Statistics and do not necessarily represent the policy or views of the U.S. Department of Education or the National Center for Education Statistics.

July 2007 (revised July 2008)

Foreword

The National Forum on Education Statistics is supported by the National Center for Education Statistics of the U.S. Department of Education. Its mission is to develop and recommend strategies for building an education data system that will support local, state, and national efforts to improve public and private education throughout the United States. Forum members include representatives of state and local education agencies, offices of the U.S. Department of Education, other federal agencies, and national associations with an interest in education data.

This document was written for Forum members, and interested nonmembers, to improve their understanding of the Forum's goals and objectives, the processes and mechanisms the Forum uses to accomplish those goals and objectives, and the resources it develops for the education community.

Visit <http://nces.ed.gov/forum> for more information about the National Forum on Education Statistics, and to find the most up-to-date version of this resource.

Acknowledgments

The development of this document was overseen by the 2007 Steering Committee of the National Forum on Education Statistics. Members include:

National Forum on Education Statistics

Chair: Derrick Lindsay, Mississippi Department of Education
Vice-Chair: Susan VanGorden, Lakota Local School District (OH)
Immediate Past Chair: Bill Smith, Sioux Falls School District (SD)

National Education Statistics Agenda Committee (NESAC)

Chair: Sonya Edwards, California Department of Education
Vice-Chair: Linda Rocks, Bossier Parish Schools (LA)

Policies, Programs and Implementation Committee (PPI)

Chair: Robert Beecham, Nebraska Department of Education
Vice-Chair: Levette Williams, Georgia Department of Education

Technology Committee (TECH)

Chair: Jeff Stowe, Arizona Department of Education
Vice-Chair: Kathy Gosa, Kansas State Department of Education

Forum members reviewed the document in its draft form and provided valuable comments and suggestions for improving its quality and utility. Lee Hoffman and Ghedam Bairu (NCES) and Tom Szuba (Quality Information Partners) provided useful recommendations to improve the handbook. Joyce Stern (Synergy Enterprises, Inc.) provided editorial and design services.

Part One: About the Forum

About the Member Handbook

This Member Handbook of the National Forum on Education Statistics is designed to serve as a single, comprehensive resource about the purpose and operations of the National Forum on Education Statistics (the Forum). It is written for members of the Forum, and for interested nonmembers, to improve their understanding of the Forum’s goals and objectives, the processes and mechanisms the Forum uses to accomplish those goals and objectives, and the resources it develops for the education community.

New members may find it helpful as they prepare for their roles in the Forum, whether as a state education agency liaison, a local education agency liaison, a federal agency member, or an associate member. Typically, it takes some time for a new member to become familiar with the Forum’s culture, processes, and opportunities, and having a Member Handbook to consult should help expedite and simplify that process.

Seasoned members may find the Member Handbook useful as they engage in new activities, serve on committees and task forces, and accept leadership roles in the organization. It may also be a useful tool when mentoring new members and making presentations about the Forum and its resources to outside audiences.

The Handbook has two parts: “About the Forum” and “Forum Resources.” The first part reviews the mission of the Forum, its membership, organizational structure, and operating processes. The second part describes Forum resources, including free publications and presentation materials, the outreach toolkit, web resources, and links to related organizations.

What is the National Forum on Education Statistics?

Background of the Forum

The National Forum on Education Statistics provides an arena for local, state, and national leaders in the education data community to discuss issues, address problems, develop resources, and consider new approaches to improving data collection and utility. It is a voluntary, democratic, and participatory federal-state-local body that identifies and addresses education data needs at the national, state, and local levels. The Forum was established by the National Center for Education Statistics (NCES) of the U.S. Department of Education in 1989.

The Hawkins-Stafford Elementary and Secondary Education Improvement Amendments of 1988 (P.L. 100–297) gave NCES the authority to establish a National Cooperative Education Statistics System. NCES established the Cooperative System to “produce and maintain, with the cooperation of the States, comparable and uniform educational information and data that are useful for policymaking at the federal, state, and local level.” The legislation identified seven broad topics as examples of areas that could be addressed by the data collection and reporting system. They are

1. schools and school districts;
2. students and enrollments, including special populations;
3. availability of school libraries and their resources;
4. teachers, librarians, and school administrators;
5. financing of elementary and secondary education;
6. student outcomes, including scores on standardized tests and other measures of education achievement; and
7. progress of educational reform in the states and in the nation.

NCES established the Forum to assist the National Cooperative Education Statistics System in achieving its congressional mandate. The Forum held its first meeting in March 1989, and the Forum formalized its goals, objectives, functions, organizational structure, and operations in January 1990 with the adoption of a *Policies and Procedures Manual* by the Forum membership. The *Policies and Procedures Manual* has since been revised several times. The latest version, revised in October 2003, is available at <http://nces.ed.gov/forum/polmanual.asp>. In 1996, Forum membership was extended to incorporate local education agency representatives.

The Forum's Mission

The major purposes of the Forum are to

- develop and propose, cooperatively, a national education data agenda and model(s) for a national data system that will meet the needs of education policymakers and program planners in the coming decade and beyond;
- inform federal, state, and local decision makers on the goals and progress of this cooperative education statistics system; and
- provide an arena in which federal, state, and local education interests can identify, debate, mediate, and where appropriate, recommend action on issues, emerging needs, and technological innovation salient to the improvement of education data comparability, uniformity, timeliness, and accuracy at the national level.

Forum's Mission Statement

The mission of the Forum is to develop and recommend strategies for building an education data system that will support local, state, and national efforts to improve public and private education throughout the United States. It is committed to improving the quality, comparability, and usefulness of elementary and secondary education data, while remaining sensitive to data burden concerns.

Who are the Forum Members?

Forum members include representatives from local and state education agencies, and federal agencies that have an interest in elementary/secondary education data. Federal, state, and local agency representatives are eligible to be full members of the Forum. Representatives of other organizations participate as associate members.

Education Agencies and Their Representatives Who are Members of the Forum

- The education agencies of the 50 states, the District of Columbia, and Puerto Rico (hereafter referred to as the states)
- One local education agency within a state selected by each Chief State School Officer
- The NCES Commissioner (ex officio), the Associate Commissioners of major NCES divisions, and the office of the NCES Chief Statistician;
- The other principal offices of the U.S. Department of Education or programs within these principal offices that collect or use elementary/secondary education data, including but not limited to
 - Office of Elementary and Secondary Education
 - Office for Civil Rights
 - Office of Special Education and Rehabilitative Services
 - Office of Vocational and Adult Education
 - Office of English Language Acquisition
 - Office of Migrant Education
 - Office of Non-Public Education
 - Office of the Chief Information Officer

- U.S. Department of Defense Education Activity

State Education Agency (SEA) Liaisons

An SEA representative to the Forum is formally appointed by the Chief State School Officer of each state and is expected to speak on his or her behalf regarding education data issues. The SEA representatives contribute valuable perspective and experience concerning state education data needs. The state representative may designate a permanent alternate who will attend meetings and manage other Forum responsibilities in the representative's place. In the absence of the state representative, the permanent alternate has the same voting and participation rights as a full member. A state representative's responsibilities include

- acting as a representative in the coordination of federal data collections at the state level and in other matters concerning the Cooperative System to promote the efficiency, quality, and usefulness of data;
- attending two annual meetings of the National Forum on Education Statistics and voting on any issues that may come before the full Forum for approval;
- participating in the annual NCES Data Conference and in the Management Information Systems (MIS) Conference;
- serving as the principal contact for all Cooperative System Contracts awarded to states;
- serving as a member of a standing committee;
- volunteering to work with one or more task forces;
- reviewing Forum/NCES publications as a preliminary step to Forum approval; and
- managing work relating to contracts for basic participation and for special task awards. (The basic participation contracts cover the costs of travel to meetings of the Forum while the special task awards cover specific state data improvement projects.)

Local Education Agency (LEA) Liaisons

An LEA representative is formally appointed by the Chief State School Officer of each state and is expected to participate in all Forum meetings as a full member. LEA representatives are authorized to vote on issues that come before the Forum and to hold office in the Forum. They are expected to contribute valuable perspective and experiences regarding local education agency data needs. Other responsibilities include

- attending two annual meetings of the National Forum on Education Statistics and voting on any issues that may come before the full Forum for approval;
- participating in the annual NCES Data Conference and in the Management Information Systems Conference (MIS);
- serving as a member of one standing committee of the Forum;
- volunteering to work with one or more task forces; and
- reviewing Forum/NCES publications as a preliminary step to Forum approval.

Associate Members

- Associate members participate in Forum standing committee meetings and take an active role in committee, subcommittee, and task force activities. They participate in the discussion of issues, but they do not participate in formal decisionmaking of the full Forum, and do not vote for Forum officers or on policies and procedures. They may not hold office. In addition, the responsibilities of associate members include promoting the work of the Forum among the membership of their respective organizations and providing the Forum with valuable input from the perspective of their organizations.

Forum Organization

The Forum meets semiannually (each winter and summer) to discuss and work on data issues and specific topics related to education data in schools, districts, state education agencies, and the U.S. Department of Education. The Forum achieves its mission and objectives primarily through the deliberations and work of a Steering Committee and three standing committees designed to address major interests of the National Cooperative Education Statistics System. The committees may propose and support task forces, which are appointed for a specified time period to develop products about a specific topic (e.g., education indicators and virtual education data elements).

Forum Committees

Forum Steering Committee

The Forum Steering Committee oversees and coordinates all Forum activities. Members of the Steering Committee include the Forum chair, vice-chair, and immediate past chair, and the chairs and vice-chairs of the three standing committees. The Commissioner of the NCES is a member ex officio. The chairperson of the Forum leads the Steering Committee.

Committee Meeting Notes

The meeting notes of the committees may be accessed on the Forum's website at: http://nces.ed.gov/forum/meeting_notes.asp.

Standing Committees

Forum standing committees are designed to address the major mandates of the Cooperative System, promote long-range planning, and foster continuity in Forum activities. Membership in standing committees is limited to members and associates of the Forum. There are three standing committees: the National Education Statistics Agenda Committee (NESAC), the Policies, Programs, and Implementation Committee (PPI), and the Technology Committee (TECH).

1. *National Education Statistics Agenda Committee.* NESAC's mission is to develop a national education statistics agenda. The agenda identifies issues and policy concerns bearing on the development of comparable and effective nationwide elementary and secondary education data collection, reporting, and use. The agenda focuses on the major areas of student, staff, fiscal, institutional, and other information that yields valuable perspectives on education in the United States.
2. *Policies, Programs, and Implementation Committee.* PPI addresses ways to help SEAs and LEAs improve their efforts to collect and report comparable, accurate, and timely data. It also works to improve coordination among federal agencies and between federal and state agencies. In addition, PPI develops ways to reduce paperwork burdens at all levels of government, and explores ongoing and emerging issues such as data sharing and confidentiality of education records. PPI is also responsible for recommending amendments to the Forum Policy and Procedures Manual and for reviewing and recommending the formation of new task forces.
3. *Technology Committee.* TECH is concerned with new and proven technology strategies to improve the management and exchange of student and staff information and the technical infrastructure that supports these technologies. TECH's role and responsibilities include promoting the development and adoption of standards for electronic data exchange; sponsoring pilot and developmental projects in the exchange of data about students and education staff; examining the impact of new technologies on information exchange; and producing "best practices" guides to help schools, school districts, and state education agencies make good decisions about selecting hardware, software, and networking services for information management.

Subcommittees, Working Groups, and Task Forces

Standing committees may appoint subcommittees and working groups (which may become task forces upon additional approval).

Subcommittees

Standing committees may establish subcommittees to address ongoing issues beyond the scope of regular committee work (e.g., the Forum Communications Subcommittee). Subcommittees consist of members of the standing committee with a chairperson determined by the standing committee. Subcommittees do not require substantial resources to complete their assignments, although the chair of the standing committee may request that a listserv be created or that conference telephone calls be convened to conduct subcommittee work.

Working Groups

Working groups are convened by standing committees to determine whether there is merit in establishing a Forum task force to produce a specific product. If it is the consensus of the standing committee to establish a working group to investigate whether such a project should be pursued, the chair appoints an individual or group to complete the Request to Form a Working Group. Upon Steering Committee approval, the working group is authorized to meet once outside of regularly scheduled full Forum meetings to research a specific issue and determine whether there is a need for the Forum to formally establish a task force to produce a publication or other product.

Working groups may consist of Forum members, members of partnering organizations who bring expertise on the topic of interest, an NCES liaison, and a consultant who is contracted to perform support work. The working group may decide that additional research about the topic is not necessary (i.e., resources are already available) or not feasible (i.e., the topic cannot be addressed in a timely or cost-effective manner). Should the working group determine that additional work is desirable, it proposes a product development and dissemination plan for a proposed task force (see the Forum Product Development and Dissemination Guide at http://nces.ed.gov/forum/pdf/guide_04.pdf for more information about the publication development process).

Should the parent standing committee agree with a working group recommendation to form a task force, the product development and dissemination plan is submitted to the Policies, Procedures, and Implementation Committee and the Steering Committee for consideration.

Task Forces

Once a written product development and dissemination plan is reviewed by the Policies, Programs, and Implementation Committee to ensure that the objectives relate to the Forum strategic plan and there is no overlap with other Forum committees or task forces, PPI may recommend to the Steering Committee that a working group be made into a Forum task force. The Steering Committee either approves or disapproves the establishment of task forces. Membership on task forces is not limited to members and associates of the Forum. The task force will develop a work plan that includes objectives, deliverables, outcomes, and a timeline for the completion of the work.

Leadership Roles and Responsibilities

At each summer Forum meeting, the Steering Committee nominates a slate of officers to be voted on by the full membership in a Forum election. The slate includes the Forum/Steering Committee chair, the Forum/Steering Committee vice-chair, and the chairs and vice-chairs of the three standing committees. Nominations for Forum officers may also be made from the floor. A quorum (at least half of the members of the Forum) must be present for an election to be held; officers are elected by a majority vote of those present.

Committee Members

Rosters of current committee members may be accessed through the Forum's website at: <http://nces.ed.gov/forum/memb>

Forum and committee officers are elected for a period of one year and take office immediately following the summer Forum meeting at which they are elected. There is no limit to the number of terms an officer may serve.

The Forum Chair

The Forum chair is elected by Forum members for a one-year term and works with the Steering Committee and NCES staff to oversee and coordinate all Forum activities. Responsibilities of the chair include

- serving for one year as the Forum chair and representing the Forum as necessary;
- chairing each Forum meeting;
- chairing Steering Committee meetings;
- developing agendas for the Forum and Steering Committee meetings with NCES staff;
- leading special projects at the request of Forum members; and
- serving on the Steering Committee as the "immediate past chair" in the ensuing year.

The Forum Vice-Chair

The Forum vice-chair is elected by Forum members for a one-year term and works with the Steering Committee and NCES staff to oversee and coordinate all Forum activities. The Forum vice-chair is often nominated and elected to become Forum Chair in the year following the term of office. Responsibilities of the Forum vice-chair include

- assisting the Forum chair in meetings and in representing the Forum;
- assisting the Forum chair in developing agendas for the Forum and Steering Committee meetings;
- leading the editorial board for the *Forum Voice*;
- serving as chair in the absence of the chair;
- leading special projects at the request of the chair; and
- reviewing the Forum Strategic Plan and recommending updates, as necessary.

The Standing Committee Chairs

Standing committee chairs are nominated by their committees and elected by the full Forum. The standing committee chairs work with the Steering Committee and NCES staff to oversee and coordinate the work of their specific standing committee. Responsibilities of standing committee chairs include

- serving for one year as standing committee chair and representing the Forum as necessary;
- chairing standing committee meetings;

- reviewing reports or products of the standing committee’s task forces and working groups;
- forwarding requests for creating working groups and task forces to the Steering Committee;
- participating in Steering Committee meetings and representing their committees;
- developing agendas for the standing committee meetings in collaboration with the NCES staff; and
- leading special projects at the request of their standing committees and Forum members.

Standing Committee Vice-Chairs

Standing committee vice-chairs are nominated by their standing committees and elected by the full Forum. The vice-chairs work with standing committee chairs and NCES staff to oversee and coordinate the work of their specific standing committees. Responsibilities of standing committee vice-chairs include

- assisting the standing committee chairs in meetings and in representing the Forum;
- assisting the standing committee chairs in developing agendas for the committee meetings;
- serving on the editorial board for the *Forum Voice*;
- chairing committee meetings in the absence of the chair;
- leading special projects at the request of the chair; and
- reviewing reports or products of the standing committee’s task forces and working groups.

Subcommittee and Working Group Chairs

Subcommittee and working group chairs are appointed by their committee chairs. Committee chairs may appoint co-chairs or vice-chairs of subcommittees or working groups if they deem it necessary.

Task Force Chairs

A task force chairperson is designated by the standing committee that requests the task force. The chair oversees and coordinates the work of specific topics of interest to Forum members. Responsibilities of standing task force chairs include

- leading task force work at the request of the Steering Committee, standing committees, and Forum members;
- chairing each task force meeting;
- selecting task force members with expertise in specific topics relating to task force work;
- identifying resource needs and establishing project timelines;
- scheduling and facilitating necessary meetings, phone conferences, and other events required for timely progress toward completion of task(s);
- developing agendas for the task force meetings in collaboration with NCES and support staff;
- developing products and promotional materials in collaboration with NCES and support staff;
- developing a product development and dissemination plan in collaboration with NCES and support staff;
- selecting outside reviewers for draft products in collaboration with NCES and support staff; and
- presenting the final products to the full Forum.

Forum Meetings

The Forum holds two meetings each year: one in the winter in conjunction with the NCES Management Information Systems (MIS) Conference, and one in the summer in conjunction with the NCES Summer Data Conference. The Steering Committee, standing committees, and active task forces/working groups all meet during this time. Task forces and working groups may also meet at other times as deemed necessary by their chairs and the NCES Project Officer.

Forum meetings include

- a new member orientation session held on the first day of all Forum meetings;
- opening and closing general sessions, usually with speakers from the federal government or national associations who update members on current and changing issues related to education data;
- standing committee meetings, in which the ongoing business of the Forum is conducted, major Forum initiatives are planned, and continuity in Forum activities is fostered; and
- professional development sessions, including seminars on important and current education data and technology issues, held on a periodic basis as determined by the Forum Steering Committee.

Consensus Process

The Forum endeavors to work by consensus decisionmaking in which all individuals party to a decision agree to the outcome before it is considered to be approved. To the extent possible, reports from committees, subcommittees, working groups, and task forces reflect the views of all their members.

When consensus cannot be achieved for decisions of the full Forum, majority rule as determined by a vote is used. Resolutions, reports for distribution to external audiences, and other actions representing the Forum as a whole must be approved by a two-thirds majority vote of members present (a quorum—at least half of all members—must be present at a Forum meeting in order to hold an election or to vote on an amendment to the policies and procedures). Forum voting may also be conducted online via the Forum Voting Tool.

Getting Involved in Forum Activities

Standing committees plan initiatives, task forces develop resources, and Forum members participate in professional development programs—to mention just a few of the many activities that take place at Forum meetings. The best way for members to get immersed in Forum work is to attend both the winter and summer annual meetings where decisions and assignments are made. By attending Forum meetings, members learn who is doing what (and how and when) in the Forum.

The next stage of involvement occurs when the member joins a task force. Because task forces usually meet twice a year for 1-2 days in addition to sessions at Forum meetings, they are excellent opportunities for getting to know the Forum and its members. New members are especially encouraged to get involved in task force work.

Another way to participate in Forum activities is to disseminate the publications produced by the Forum. Meetings and conferences within member states or districts provide excellent opportunities to discuss the work of the Forum with colleagues and to bring ideas back to the Forum standing committees for discussion and possible action. Forum members are encouraged to use the items in the Outreach Toolkit (at <http://nces.ed.gov/forum/outreach.asp>) to assist in this effort.

Member Communications

Forum members communicate in person at the annual winter meeting, the annual summer meeting, and task force meetings. Information is shared with Forum members and the general public via the Forum website (<http://nces.ed.gov/forum>). The Forum website contains a wealth of information including access to Forum publications and meeting notes. The organization's newsletter, the *Forum Voice* (<http://nces.ed.gov/forum/voice.asp>), is published in an electronic format each spring and fall. Email addresses and telephone numbers for current Forum members can be accessed via the membership rosters listed on the website (<http://nces.ed.gov/forum/membership.asp>).

NCES, the Steering Committee, standing committees, and task forces also communicate through teleconferences scheduled on an as-needed basis throughout the year and via email listservs restricted to member use. Using the group's listserv address, members of a task force, committee, or other Forum group can send a message by email, which will be distributed to all members of the group. Only registered members of a listserv (i.e., only members of the group) can send messages via the listserv addresses below.

Objectives and Strategies for Meeting the Forum's Goals

Goal I: Develop a comprehensive system of comparable local, state, and federal basic data elements useful for education decisionmaking at all levels of government.

Goal I Objective:

A comprehensive, dynamic set of basic data elements will be developed that adhere to a set of common definitions, are comparable within and across reporting levels, are timely and available on a schedule appropriate for decision making, and provide an accurate and reliable picture of what they measure.

To meet this objective, the Forum endorses the following strategies:

- A. Identify the basic data elements relating to students, staff, finance, facilities, and technology at school, district, state, and national levels.
- B. Disseminate and promote the use of basic data elements.
- C. Review the content and completeness of the system of basic data elements and the procedure for identifying elements on a continuing basis.
- D. Assist with the adoption and use of standards for data collection and reporting.
- E. Support efforts to plan the development and implementation of automated and integrated education data systems.
- F. Identify and seek to remove organizational and technical barriers, problems, and unresolved questions impeding the development, adoption and use of shared data items.

Goal II: Improve coordination, integration, and consolidation of the collection and dissemination of quality education data.

Goal II Objectives:

1. The reporting burden on state and local data providers will be minimized.
2. Communication and coordination among the various data providers and requesters will be improved.
3. Data collectors will employ the most efficient and secure data collection procedures that are technically feasible.
4. Products of the Forum's work (i.e., reports, programs, etc.) will be designed, disseminated and promoted to maximize usefulness.
5. States will implement and share projects that demonstrate the use of technology to improve data collection, access, analysis and reporting.

To meet these objectives, the Forum endorses the following strategies:

- A. Promote ongoing coordinated reviews of education data collection activities.
- B. Support the use of standard definitions in education data collections.
- C. Promote efficiency in data collection and access through the use of new and emerging technologies.
- D. Promote the better integration of education data collections.
- E. Work to improve the dissemination and usefulness of education data and promote its use through Forum products.
- F. Establish linkages with postsecondary education to promote coordination and efficiency in data collection and use.
- G. Promote procedures and practices that ensure data quality at all levels of education.

Goal III: Promote the Forum as a widely recognized cooperative body addressing issues of education data policy and as a leader in setting data standards.

Goal III Objectives:

- 1. Local, state, federal, and other stakeholders will be actively engaged in the development and implementation of education data standards.
- 2. Education data standards will be developed, adopted, and widely disseminated.
- 3. Collaborative partnerships among and between states and the federal government will further the development of education policy.

To meet these objectives, the Forum endorses the following strategies:

- A. Disseminate widely and promote the use of Forum products.
- B. Strengthen coordination by expanding membership as appropriate.
- C. Actively seek collaborative relationships with agencies and groups to work toward common education data issues and goals.
- D. Promote consultation and information sharing with the private research, development, and service sectors.
- E. Establish, review, and disseminate guidelines for policies affecting the production, use, confidentiality, release, and dissemination of education statistics.
- F. Periodically review and update all Forum products as appropriate.

Report every other year on progress toward strategic plan goals.

Part Two: Forum Resources

The Forum web page, located on the NCES website (<http://nces.ed.gov/forum/>), is a rich resource for both Forum members and the larger education community. It provides information about current Forum activities, the *Forum Voice* newsletter, meeting notes, and policies and procedures for conducting Forum meetings and activities, as well as the Forum's strategic plan.

The Forum's many resources can also be accessed at the website, including publications about education data, best practices, and materials for promoting the Forum.

A "Resources" page (<http://nces.ed.gov/forum/resources.asp>) provides links to online materials about the *Federal Register*, FERPA resources (Family Educational Rights and Privacy Act), and NCLB resources (the No Child Left Behind Act of 2001) among other information that Forum members and others in the education community may find useful.

Outreach Toolkit

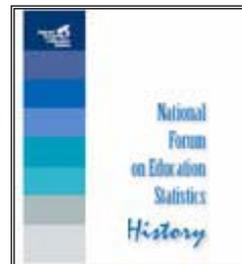

For members who wish to promote the Forum and its resources, the Outreach Toolkit website (<http://nces.ed.gov/forum/outreach.asp>) offers several downloadable promotional tools, including a Forum Overview PowerPoint™ presentation, publication summaries, publication PowerPoint™ presentations, and sample articles and letters. Several of these are described below.

Materials About the Forum

National Forum on Education Statistics History

http://nces.ed.gov/forum/pub_history.asp

This publication presents an overview of the Forum's history since the legislation was passed in 1988 authorizing a Cooperative System for the collection and sharing of education data. It presents a brief history of the activities and special projects of the Forum from 1989-2004. Members may find it a useful source of information for explaining to others what the Forum is and does.

Power Tools for Your Schools (2003)

http://nces.ed.gov/forum/pub_2003365.asp

This brochure lists various Forum resources available for free to individuals, schools, and agencies, and provides information on how to order them.

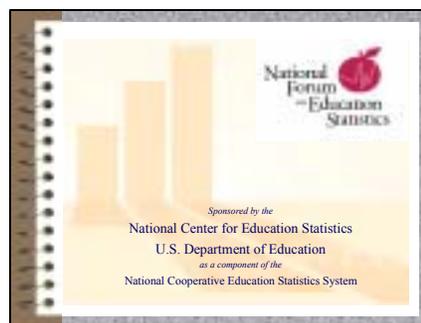

Putting Numbers to Work for Schools (2003)

http://nces.ed.gov/forum/pub_2003366.asp

This brochure presents the purpose of the Forum and explains why the data collected and disseminated are important to users.

2007-08 Forum Overview PowerPoint Presentation

<http://nces.ed.gov/forum/outreach.asp>

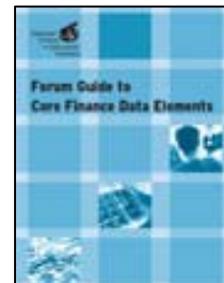

Recent Publications

The publications described below can be accessed at <http://nces.ed.gov/forum/publications.asp>.

Forum Guide to Core Finance Data Elements

http://nces.ed.gov/forum/pub_20078001.asp

This publication establishes current and consistent terms and definitions for maintaining, collecting, reporting, and exchanging comparable information related to education finances. It is designed to accompany *Financial Accounting for Local and State School Systems: 2003 Edition* by identifying common reporting requirements and defining frequently used indicators and calculations that use data elements from accounting and other data systems.

Forum Curriculum for Improving Education Data: A Resource for Local Education Agencies

http://nces.ed.gov/forum/pub_2007808.asp

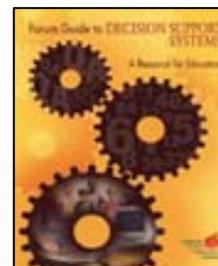

This resource supports efforts to improve the quality of education data by serving as training materials for K-12 school and district staff. It provides lesson plans, instructional handouts, and related resources, and presents concepts necessary to help schools develop a culture for improving data quality.

Forum Guide to Decision Support Systems: A Resource for Educators (2006)

http://nces.ed.gov/forum/pub_2006807.asp

This NCES/Forum guide was developed to help the education community better understand what decision support systems are, how they are configured, how they operate, and how they might be developed and implemented in an education setting.

Forum Guide to Virtual Education (2006)

http://nces.ed.gov/forum/pub_2006803.asp

This publication offers recommendations for collecting accurate, comparable, and useful data about virtual education in the elementary/secondary education setting. It highlights policy questions and data elements that are critical to meeting the information needs of policymakers, administrators, instructors, and parents involved in virtual education.

Forum Guide to the Privacy of Student Information: A Resource for Schools (2006)

http://nces.ed.gov/forum/pub_2006805.asp

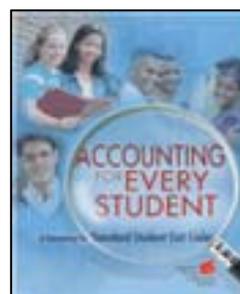

This publication was written to help school and local education agency staff better understand and apply the Family Educational Rights and Privacy Act, a federal law that protects the privacy interests of parents and students with respect to information maintained in student education records. It defines terms such as “education records” and “directory information,” and offers guidance for developing appropriate privacy policies and information disclosure procedures related to military recruiting, parental rights and annual notification, videotaping, online information, media releases, surveillance cameras, and health-related information.

Accounting for Every Student: A Taxonomy for Standard Student Exit Codes (2006)

http://nces.ed.gov/forum/pub_2006804.asp

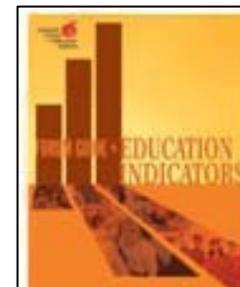

This publication was developed to help education agencies develop effective information systems for tracking the enrollment status of students. It presents a student-level exit code taxonomy for states and districts that accounts for 100 percent (and not 90 percent or 110 percent) of all students. It also offers “best practice” advice regarding effective practices for tracking students, collecting exit codes data, and distinguishing among high school completion credentials.

Forum Guide to Education Indicators (2005)

http://nces.ed.gov/forum/pub_2005802.asp

This publication provides encyclopedia-type entries for 44 commonly used education indicators. Each indicator entry includes a definition, recommended uses, usage caveats and cautions, related policy questions, data element components, a formula, commonly reported subgroups, and display suggestions. The document will help readers better understand how to appropriately develop, apply, and interpret commonly used education indicators.

Forum Guide to Building a Culture of Quality Data (2005)

http://nces.ed.gov/forum/pub_2005801.asp

This publication focuses on data entry—getting things right at the source. As such, it recommends a practical process for developing a “Culture of Quality Data” based around individual “Tip Sheets” for the many people involved in providing quality data, including principals, teachers, office staff, school board members, superintendents, data stewards, and technology staff.

Appendix A. Useful Acronyms

CCSSO	Council of Chief State School Officers CCSSO is a nonpartisan, nationwide, nonprofit organization of public officials who head departments of elementary and secondary education in the states, the District of Columbia, the Department of Defense Education Activity, and five U.S. extra-state jurisdictions.
ED	U.S. Department of Education
EDFacts	EDFacts is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.
EDI	Electronic Data Interchange EDI is the process of exchanging records (e.g., student records) electronically.
FERPA	Family Educational Rights and Privacy Act FERPA is a federal law that protects the privacy of student education records.
Handbooks	The <i>Student Data Handbook</i>, <i>Staff Data Handbook</i>, etc. This body of data handbooks is collectively referred to as the “Handbooks” or the “NCES Handbooks.” They define standard education terms for students, staff, schools, local education agencies, intermediate education agencies, and state education agencies.
LEA	Local Education Agency (i.e., a school district)
MIS Conference	The NCES Management Information Systems (MIS) Conference The MIS Conference is an annual meeting held in late February (in conjunction with the winter Forum meeting) and is co-hosted by NCES and a different state each year.
NCES	National Center for Education Statistics (U.S. Department of Education) NCES sponsors the National Forum on Education Statistics to foster federal-state-local cooperative efforts to improve the accuracy, timeliness, and utility of education data.
NCLB	No Child Left Behind Act of 2001 The NCLB Act, which reauthorizes the ESEA, incorporates principles and strategies such as increased accountability for states, school districts, and schools; greater choice for parents and students, particularly those attending low-performing schools; more flexibility for states and local educational agencies in the use of federal education dollars; and a stronger emphasis on reading, especially for the youngest children.
NESAC	National Education Statistics Agenda Committee A Forum standing committee that supports the development of a comparable and effective national elementary and secondary education data system.
PBDMI	Performance Based Data Management Initiative PBDMI is a U.S. Department of Education initiative to improve the accuracy, timeliness, and utility of education data. States have submitted data for the year two pilot of this effort to streamline federal education collections.
PPI	Policies, Programs, and Implementation Committee A Forum standing committee that addresses the policy implications of the Forum's work on national education data issues.
SEA	State Education Agency (i.e., a state department of education)
SETDA	State Educational Technology Directors Association SETDA is an associate member of the Forum and is the principal association representing state directors for educational technology in all 50 states.

SIFA	Schools Interoperability Framework Association SIFA is an associate member of the Forum and a nonprofit membership organization that is creating a set of platform-independent, vendor-neutral rules and definitions for sharing education information.
TECH	Technology Committee TECH is a Forum standing committee that considers methods, especially technology-related strategies, for improving data collection and communication within states and between states and the federal government.
