

## Graduation Rates

### Screening questions

Does your institution use a website to disclose Student-Right-to-Know student athlete graduation rates?

No.

Yes. Please provide the URL.

http://

Does your institution offer programs of 3 years or longer?

*If your answer Yes to this question, a screen will be generated for you to report the number of students still enrolled in long programs as of August 31, 2007.*

No.

Yes.

Based on your institution's response to the predominant calendar system question (B3) on the Institutional Characteristics survey from the IPEDS Fall 2007 Data Collection, your institution must report graduation rates data using a

**Fall Cohort**

*A fall cohort is used by institutions with standard academic terms (semester, trimester, quarter, 4-1-4, other academic). A full-year cohort is used by institutions offering primarily occupational/vocational programs and operating on a continuous basis.*

Caveat (will be posted on the College Navigator website)

### Section III - Graduation Rate - Completers within 150%

- In the columns below, report the status of the Full-time, First-time degree/certificate-seeking students reported in the cohort in Col 10.
- Those who completed their program within 150% of normal time as of August 31, 2007 should be reported in either Col 11 or 12, depending on the length of the program.

#### Cohort of Full-time, first-time degree/certificate-seeking students

### Section III - Graduation Rate - Transfers/exclusions

- In the columns below, report the status of the Full-time, First-time degree/certificate-seeking students reported in the subcohort in Col 10, who did not complete a program as of August 31, 2007.
- Report transfers-out who did not complete a program in Col 30. If the mission of your institution includes providing substantial preparation for students to enroll in another eligible institution WITHOUT having completed their programs, you should report transfer-out data in column 30. A school is required to report only on those students that the school knows have transferred to another school. A school must document that the student actually transferred. If it is not part of your mission, you may report transfer-out data if you wish.
- Report exclusions from the cohort in Col 45. The ONLY allowable categories for this column are:
  - students who died or became permanently disabled
  - students who left school to serve in the armed forces (or have been called up to active duty)
  - students who left school to serve with a foreign aid service of the Federal Government
  - students who left school to serve on an official church mission
- Col 49 [non-completers (still enrolled + not enrolled) and completers > 150% of normal time] will be calculated for you
- If you do not have any values to enter in either column 30 or 45, you must enter at least one zero in a field on this screen

### Section III - Graduation Rate - Long Programs

- Non-completers still enrolled plus non-completers not enrolled as calculated on the previous page are listed in Col 49. If any of those students were still enrolled in long programs as of August 31, 2007, report them in Col 47; these are the only double counted students on this survey, as they are counted in both Col 49 and Col 47.

### Instructions for Graduation Rates - 2-year institutions

For best results, print using landscape orientation.

#### Period of Report

The majority of this report requests data on a cohort of full-time, first-time degree/certificate-seeking undergraduates enrolled in your institution either (1) as of October 15, 2004 or (2) during the period between September 1, 2004 and August 31, 2005. Institutions are to report the status of these students as of August 31, 2007.

#### Screening Questions:

Please read these questions carefully. Your responses will determine whether or not you need to complete the survey and which sections you should complete. The data collection system will use your answers to these questions to determine which screens for data entry will follow.

- Please provide the URL where the Student-Right-to-Know information is disclosed on your institution's website.
- Indicate if your institution offers programs of 3 or 3-1/2 years or longer.
- The method used to establish the cohort reported on this survey has been predetermined by your institution's response to the predominant calendar system question (D1) on the Institutional Characteristics survey component of the IPEDS Fall 2007 Data Collection, according to the following rules:
  - a. Institutions that offer a predominant number of programs based on **standard academic terms** (semesters, trimesters, quarters, or 4-1-4 plan) will report using a **fall cohort** of students. Institutions may use a census date of October 15, 2004, or the end of the institution's drop-add period, or another official fall reporting date to determine the cohort. This should be the same reporting date established for your IPEDS Fall Enrollment report.
  - b. Institutions that do not offer a predominant number of programs based on standard academic terms (as defined above) will report using a **full-year cohort**. These institutions must count as entering students all those students who entered the institution between September 1, 2004 and August 31, 2005, and who were enrolled for at least 15 days in a program of up to, and including, one year in length, or 30 days in a program of greater than one year in length.

#### Who to Include in the Cohort

Include all full-time, first-time degree/certificate-seeking undergraduate students entering the institution either during the fall term or during the 12-month period as described above. Include students enrolled in the fall term who attended college for the first time in the prior summer term.

Students must be enrolled in courses creditable toward a degree, diploma, certificate, or other formal award. Include students enrolled in courses that are part of a vocational or occupational program, INCLUDING those enrolled in off-campus centers and those enrolled in distance learning/home study programs.

Be sure to include full-time students taking remedial courses if the student is considered degree-seeking for the purpose of student financial aid determination.

A student who is designated as a member of the 2004 cohort remains in the 2004 cohort, even if the student:

- Becomes a part-time student.
- Transfers to another institution.
- Drops out of the institution.
- Stops out of the institution.
- Has not fulfilled the institution's requirements to receive a degree or certificate.

### **Who to Exclude from the Cohort**

DO NOT include students in the cohort who are:

- Enrolled exclusively in courses not creditable toward a formal award or the completion of a vocational program (i.e., nondegree seeking).
- Taking CEUs unless they are also enrolled full time in courses creditable toward a degree or other formal award.
- Exclusively auditing classes.
- Studying abroad (e.g., at a foreign university) if their enrollment at this institution is only an administrative record and the fee is only nominal.
- In any branch campus located in a foreign country.
- Part time.
- Transfers into the institution.

### **Categorization of Students**

The Glossary provides detailed definitions of specific terms and should be used to define students in the initial cohort. The Glossary should also be used to identify completers and transfer-out students.

### **Length of Program**

The Glossary also provides detailed definitions of programs of less than 2 years and programs of at least 2 years but less than 4 years. Use the definitions to determine where to report completers.

### **General Instructions for Students Receiving Athletically-Related Student Aid**

Sections V and VI are to be completed by any institution that participates in any Federal student financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended, and awards athletically-related student aid.

### **Reporting Students by Racial/Ethnic Category and Gender**

**Method of collection** - The manner of collecting racial/ethnic information is left to the discretion of the institution, provided that the system which is established results in reasonably accurate data, which may be replicated by others when the same documented system is utilized. One acceptable method is a properly controlled system of post-enrollment self-identification by students. If a self-identification method is utilized, a verification procedure to ascertain the completeness and accuracy of student submissions should be employed.

**Assignment to categories** - For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person may be counted in more than one racial/ethnic group. Racial/ethnic designations are requested only for United States citizens, resident aliens, and other eligible noncitizens. (See definitions below.)

**Racial/ethnic descriptions** - Racial/ethnic designations as used in this survey do not denote scientific definitions of anthropological origins. The categories are:

- **American Indian or Alaskan Native** – A person having origins in any of the original peoples of North America and who maintains cultural identification through tribal affiliation or community recognition.
- **Asian or Pacific Islander** – A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or Pacific Islands. This includes people from China, Japan, Korea, the Philippine Islands, American Samoa, India, and Vietnam.
- **Black, non-Hispanic** – A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).
- **Hispanic** – A person of Mexican, Puerto Rican, Cuban, Central, or South American, or other Spanish culture or origin, regardless of race.
- **White, non-Hispanic** – A person having origins in any of the original peoples of Europe, North Africa or the Middle East (except those of Hispanic origin).

Other descriptive categories:

- **Nonresident alien** – A person who is not a citizen or national of the United States and who is in this country on a visa or temporary basis and does not have the right to remain indefinitely. NOTE: Nonresident aliens are to be reported separately, in the rows provided, rather than in any of the five racial/ethnic categories described above. Resident aliens and other eligible (for financial aid purposes) noncitizens who are not citizens or nationals of the United States and who have been lawfully admitted as legal immigrants for the purpose of obtaining permanent resident alien status (and who hold either an alien registration card (Form I-551 or I-151), a Temporary Resident Card (Form I-688), or an Arrival-Departure Record (Form I-94) with a notation that conveys legal immigrant status such as Section 207 Refugee, Section 208 Asylee, Conditional Entrant Parolee or Cuban-Haitian) are to be reported in the appropriate racial/ethnic categories along with United States citizens.

- **Race/ethnicity unknown** – This category is used ONLY if the student did not select a racial/ethnic designation, AND the postsecondary institution finds it impossible to place the student in one of the aforementioned racial/ethnic categories during established enrollment procedures or in any post-enrollment identification or verification process.

### **Worksheets**

Worksheets calculating the Student Right-To-Know completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the 2004 student cohort are provided as a convenience to the institution.

Worksheets calculating overall four-year average completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the student cohort are also provided. Data previously reported by the institution have been preloaded to use in these calculations.

An additional blank worksheet for calculating Student Right-to-Know four-year average graduation and transfer-out rates by race/ethnicity or other student characteristics for the student cohort is available from the IPEDS website at [http://nces.ed.gov/ipeds/submit\\_data/springdataitems.asp](http://nces.ed.gov/ipeds/submit_data/springdataitems.asp).

### **Privacy Issues with Disclosure**

Before using the worksheets for disclosure, please consider the following:

The Family Educational Rights and Privacy Act of 1974 as amended (1998) (FERPA) requires that institutions not disclose information where students could be identified.

### **Section III – Full-Time, First-Time Degree/certificate-seeking Students**

#### **Report each student only once.**

Report the status of the 2004 cohort of degree/certificate-seeking students **as of August 31, 2007** in terms of the number of completers within 150% of normal time to award, by length of program completed. Report all students by race/ethnicity and gender.

Report only for full-time, first-time degree/certificate-seeking students. DO NOT include students who transferred into your institution.

#### **Count completers only once and indicate the highest degree level attained.**

**SPECIAL NOTE:** In order to resolve a potential conflict between transfers out and the mission of particular programs to prepare students for transfer to other institutions, institutions may count as completers those students who have successfully completed a transfer-preparatory program.

Transfer-preparatory program is defined in 34 CFR Student Assistance General Provisions, Section 668.8(b)(1)(ii) as "the successful completion of at least a 2-year program that is acceptable for full credit toward a bachelor's degree and qualifies a student for admission into the third year of a bachelor's degree program." The Secretary considers this the equivalent of an associate's degree. Similarly, institutions may count as completers, those students who have successfully completed the first three years of a 3-2 program and are eligible to enter another institution to complete the program. The student receives full credit toward a 5-year bachelor's degree and qualifies the student for admission into the fourth year of a 5-year bachelor's degree program.

**\*\*SPECIAL INSTRUCTIONS FOR INSTITUTIONS WITH 3-YEAR AND LONGER PROGRAMS\*\***

Institutions with 3-year and longer programs are to report on the same cohort of students that is being reported by the traditional 2-year institutions. Section III, column 47 requests the number of students still enrolled in 3-year and longer programs. Be sure to complete the information requested in this item. NCES will also request that institutions with 3-year and longer programs report data and calculate a graduation rate after 5-1/4 years. A special supplementary form will be used in Spring 2010 to collect this information on your 2004 cohort.

**Initial Cohort** - If you are reporting on a fall cohort, the information you reported on line 01 of your 2004 IPEDS Fall Enrollment report will be preloaded in this column. If you did not respond to that survey, or if you are reporting on a full-year cohort, the column will be blank.

**Revised Cohort (10)** – Please review the data in the initial cohort column, and make any necessary corrections for omissions or double counting in the revised cohort column. Enter the data according to student race/ethnicity and gender. If your data do not appear in the initial cohort column, please provide the enrollment data as requested in the revised cohort column.

**Completers within 150% of Normal Time (11, 12)**

In order to calculate a graduation rate to comply with Student Right-to-Know regulations, institutions can count as completers only those students who received their degree/certificate (or completed a transfer-preparatory program) within 150% of normal program time. See Glossary for definition of normal time to completion. Do not count as completers students who get their degree from another institution.

**Completed <2-yr within 150% (11)** - Enter the number of students who completed programs of less than 2 years within 150% of normal time. For example, a student who completed a 6-month (or equivalent) program in 9 months or less would be reported in column 11; those taking longer would not be reported.

**Completed 2<4 yr within 150% (12)** - Indicate the number of students who completed programs of at least 2 years but less than 4 years within 150% of normal time to completion of their program. For example, a student who completed a 3-year program in 4-1/2 years or less should be reported in column 12.

**Total completers within 150% (29)** - This column is the sum of the previous two columns, and is calculated by the data collection system.

### Section III – Full-Time, First-Time Degree/certificate-seeking Students

**Report each student only once.**

Report the status of the 2004 cohort of full-time, first-time degree/certificate-seeking students **as of August 31, 2007** in terms of the number of transfer-out students (non-completers), and exclusions to the cohort. Report all students by race/ethnicity and gender.

Report only for full-time, first-time degree/certificate-seeking students. DO NOT include students who transferred into your institution.

**Revised Cohort (10)** – These are the data as reported in Section III, page 1.

**Total completers within 150% (29)** - These are the data as reported in Section III, page 1.

**Total transfer-out students (30)** - If the mission of your institution includes providing substantial preparation for students to enroll in another eligible institution, report the total number of students who transferred out of your institution (without a degree/award) within 150% of normal time to completion. Include students who transferred out of your institution and subsequently re-enrolled. If it is not part of your mission, you may report transfer-out data if you wish.

**Total exclusions (45)**- Indicate the total number of students who left your institution (and have neither graduated nor transferred to another institution) because of one of the following documented reasons:

- a. The student is deceased or is totally and permanently disabled and thus unable to return to school.
- b. The student left school to serve in the armed forces or was called up to active duty. (DO NOT include students already in the military who transfer to another duty station.)
- c. The student left school to serve with a foreign aid service of the Federal Government, such as the Peace Corps.
- d. The student left school to serve on an official church mission.

**NOTE:** Students who leave the institution for one of the reasons noted in b, c, or d above, but return prior to the status date of August 31, 2007, may be subtracted from the cohort during the calculation of graduation rates.

**Non-completers (still enrolled + not enrolled) and completers > 150% (49)** - This column is generated by the calculation of Col 10 - (Col 29 + Col 30 + Col 45).

### Calculation of Graduation and Transfer-out Rates, and 4-Year Average Rates

## **Worksheets**

Worksheets calculating the Student Right-To-Know completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the 2004 student cohort are provided as a convenience to the institution.

Worksheets calculating the overall four-year average completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the student cohort are also provided. Data previously reported by the institution have been preloaded to use in these calculations.

An additional blank worksheet for calculating Student Right-to-Know four-year average graduation and transfer-out rates by race/ethnicity or other student characteristics for the student cohort is available from the IPEDS website at [http://nces.ed.gov/ipeds/submit\\_data/springdataitems.html](http://nces.ed.gov/ipeds/submit_data/springdataitems.html).

## **Privacy Issues With Disclosure**

Before using the worksheets for disclosure, please consider the following:

The Family Educational Rights and Privacy Act of 1974 as amended (1998) (FERPA) requires that institutions not disclose information where students could be identified.
