

# Spring Supplemental 2009

## Students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2008 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office):

- 3 percent or less
- More than 3 percent:  %

You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.

4 and 8 years completers

**For 4-year institutions, report on your 2000 cohort of bachelor's degree-seeking, full-time, first-time undergraduate students.**

**Data for this cohort were originally reported by your institution in the 2006-07 data collection.**

Graduation  
rates

- 1 Revised cohort
- 2 Exclusions within 150%
- 3 Adjusted cohort 150%
- 4 Number of students in the cohort who completed a bachelor's degree within 100% of normal time
- 5 Number of students in the cohort who completed a bachelor's degree within 150% of normal time
- 6 Additional exclusions
- 7 Adjusted cohort 200%
- 8 Number of students in the cohort who completed a bachelor's degree September 1, 2006 through August 31, 2008
- 9 Total completers within 200% of normal time

**You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.**

## Spring Supplemental 2009

### Students with disabilities

Please indicate the percentage of all undergraduates enrolled in Fall 2008 who are formally registered as students with disabilities with the institution's office of disability services (or the equivalent office):

3 percent or less

More than 3 percent:

%

You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.

A large, empty rectangular text area with a light gray background and a thin black border. It features standard scrollbars on the right and bottom edges, indicating it is a scrollable text field for providing context notes.

100% and 200% completers (<4 year institutions)

**For less than 4-year institutions, report on your 2004 cohort of full-time, first-time undergraduate students. Data for this cohort were originally reported by your institution in the 2007-08 data collection.**

Graduation rates

1 Revised cohort

2 Exclusions within 150%

3 Adjusted cohort 150%

4 Number of students in the cohort who completed a program within 100% of normal time

5 Number of students in the cohort who completed a program within 150% of normal time

6 Additional exclusions (between 150%-200% of normal time)

7 Adjusted cohort 200%

8 Number of students in the cohort who completed a program within 150%-200% of normal time

9 Total completers within 200% of normal time

**You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.**

## Spring Supplemental Survey 2009 (SS09)

This short survey component has been added to the Spring data collection to capture data on students with disabilities, as well as 100 and 200 percent graduation rates. For the 2009-10 data collection, the disabilities question will become part of the Institutional Characteristics (IC) survey and the graduation rates portion will remain a separate survey collected in the spring, called GRS200.

### Disability Services Reporting

This question applies only to undergraduate students enrolled either full- or part-time in Fall 2008. If fewer than 3% of the institution's undergraduate students are registered with the disability services (or equivalent) office, check the first radio button. However, if more than 3% of the institution's undergraduate students are registered with the disability services (or equivalent) office, calculate the appropriate percentage and enter in the box. Please enter only whole numbers (no decimals).

### Four-Year Institutions 200% Graduation Rates Reporting

This report requests data on the cohort of full-time, first-time bachelor's degree-seeking undergraduate students in your institution's 2000 graduation rates cohort, as first reported in your 2006-07 GRS survey reporting. Institutions are to report the status of these students as of August 31, 2008 so that a 200% graduation rate can be calculated. One hundred percent and 150% graduation rates were calculated in the 2006-07 data collection.

### Reporting

Graduation Rates data reported on SS09 are NOT reported by race and ethnicity. Also, 200% graduation rates data will not be reported separately for long programs.

A number of data elements are preloaded in this survey. Data elements 1-5 are preloaded based on responses to the 2006-07 GRS data collection. These fields will not be able to be updated: Revised 2000 cohort, Exclusions within 150%, Adjusted cohort 150% (calculated as the difference between Revised cohort and Exclusions), and the number of cohort students who completed a bachelor's or

equivalent degree in 100% of normal time, and 150% of normal time. One hundred percent and 150% graduation rates reported in 2006-07 will also be preloaded on this screen, and will not be able to be adjusted.

In line 6, please indicate any additional exclusions to the cohort. This will include any additional students who left your institution between August 31, 2006 and August 31, 2008 (and have neither graduated nor transferred to another institution) because of one of the following documented reasons:

- a. The student is deceased or is totally and permanently disabled and thus unable to return to school.
- b. The student left school to serve in the armed forces or was called to active duty. (DO NOT include students already in the military who transfer to another duty station.)
- c. The student left school to serve with a foreign aid service of the Federal Government, such as the Peace Corps.
- d. The student left school to serve on an official church mission.

**NOTE:** Students who leave the institution for one of the reasons noted in b, c, or d above, but return prior to the status date of August 31, 2008, may still be reported as exclusions.

Line 7, 200% adjusted cohort, is a calculated value, and is the difference between the 150% adjusted cohort (line 3) and the exclusions reported in line 6.

In line 8, report the number of students who completed a bachelor's degree or equivalent within the period from September 1, 2006 through August 31, 2008. Once you save the page, the total completers within 200% and the 200% graduation rate value will be calculated in the appropriate boxes on line 9.

### **Less-Than-Four-Year Institutions 100% and 200% Graduation Rates Reporting**

This report requests data on the cohort of full-time, first-time undergraduate students in your institution's graduation rates cohort as first reported in your 2007-08 GRS survey reporting. Institutions are to report the status of these students as of 100% and 200% of normal time, so that 100% and 200% graduation rates can be calculated. 150% graduation rates were calculated in the 2007-08 data collection.

Reporting

Graduation Rates data reported on SS09 are NOT reported by race and ethnicity.

A number of data elements are preloaded in this survey. Data elements 1-3 and data element 5 are preloaded based on responses to the 2007-08 GRS data collection. These fields will not be able to be updated: Revised cohort, Exclusions within 150%, Adjusted cohort 150% (calculated as the difference between Revised cohort and Exclusions), and the number of cohort students who completed within 150% of normal time. 150% graduation rates reported in 2007-08 will also be preloaded on this screen, and will not be able to be adjusted.

In line 4, please indicate the number of students in the cohort who completed a program within 100% of normal time. 100% graduation rate will be calculated when you save the page.

In line 6, please indicate any additional exclusions to the cohort. This will include any additional students who left your institution between 150% and 200% of normal completion time (and have neither graduated nor transferred to another institution) because of one of the following documented reasons:

- a. The student is deceased or is totally and permanently disabled and thus unable to return to school.
- b. The student left school to serve in the armed forces or was called to active duty. (DO NOT include students already in the military who transfer to another duty station.)
- c. The student left school to serve with a foreign aid service of the Federal Government, such as the Peace Corps.
- d. The student left school to serve on an official church mission.

**NOTE:** Students who leave the institution for one of the reasons noted in b, c, or d above, but return prior to the status date of August 31, 2008, may still be reported as exclusions.

Line 7, 200% adjusted cohort, is a calculated value, and is the difference between the 150% adjusted cohort (line 3) and the exclusions reported in line 6.

In line 8, report the number of students who completed within the period of 150% to 200% of normal time. Once you save the page, the total completers within 200% and the 200% graduation rate value will be calculated in the appropriate boxes on line 9.
