

Memorandum for the NCES Review Tracking System (RTS)
IPEDS Data Collection Cycle

2018-19 IPEDS Data Collection: Fall Data Release – Provisional Level

The provisional level data release of the components collected during the fall collection period of the 2018-19 Integrated Postsecondary Education Data System (IPEDS) does not contain substantive changes in file structure or file documentation compared to the previous year. The data are released to the public through the “Use the Data” portal (<https://nces.ed.gov/ipeds/use-the-data>) on the IPEDS website. The IPEDS Methodology has been reviewed and approved by the NCES Review Staff and is currently posted on the IPEDS website as a resource for data users.

IPEDS is an annual, large-scale, web-based survey that collects institution-level data from postsecondary institutions in the United States (50 states and the District of Columbia) and other U.S. jurisdictions.¹ For more information about the IPEDS Survey, its 12 components, and data release procedures visit <https://nces.ed.gov/ipeds/use-the-data/survey-components>. This memorandum documents the IPEDS universe of reporting institutions and response to the fall collection period of the 2018-19 IPEDS.

2018-19 IPEDS Universe of Institutions

The IPEDS universe is established during the fall collection period. During the 2018-19 collection year, there were 6,353 Title IV institutions and administrative offices² in the United States and other jurisdictions of the United States, such as Puerto Rico. For 2018-19, a total of 479 postsecondary institutions were reported exclusively by a parent institution and are not included in the universe counts. The four U.S. service academies that are not Title IV eligible are included in the IPEDS universe because they are federally funded and open to the public.³

NCES statistical standards require that the potential for nonresponse bias for all institutions be analyzed for sectors for which the response rate is less than 85 percent. Because response rates were nearly 100 percent for each survey component, no such analysis was necessary.

Table 1 provides an overview of the number of institutions responding to the components that comprise the fall collection period. This table is updated after each collection period’s data release. Appendix A

¹ The other U.S. jurisdictions surveyed in IPEDS are American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, Guam, the Marshall Islands, Palau, Puerto Rico, and the U.S. Virgin Islands.

² Title IV institutions and administrative offices include 6,281 institutions and 72 administrative (central or system) offices. The central and system offices are required to complete the Institutional Characteristics component in the fall, the Human Resources component in the spring, and the Finance component in the spring (if they have their own separate budget).

³ The four U.S. service academies that are not Title IV eligible are the U.S. Naval Academy, the U.S. Military Academy, the U.S. Coast Guard Academy, and the U.S. Air Force Academy. The U.S. Merchant Marine Academy is Title IV eligible. Data for all five institutions are included in the tables and counts of institutions unless otherwise indicated.

provides a summary of responses for the previous collection year for comparison purposes. Appendix B shows a table of institutions with Title IV status change⁴. Of the 478 institutions that changed Title IV status in 2018-19, 385 were for-profit institutions.

Notes:

¹Not required to respond to the survey component because the institutions were new, were closed, or did not enroll students.

²Due to unit nonresponse, all data were imputed.

³Does not include the 72 administrative offices.

For any questions related to this data product release, please contact Sam Barbett, IPEDS Program Director (Acting) and Team Lead, (samuel.barbett@ed.gov).

⁴⁴ An institution may be classified as changing Title IV status for the following reasons: it closed, it no longer provides federal funded financial assistance, it lost Title IV eligibility, it combined or merged with another institution, it is new, it began to provide federal funded financial assistance, or it regained Title IV eligibility.

NOTE: Title IV institutions are those with a written agreement with the U.S. Department of Education that allows the institution to participate in any of the Title IV federal student financial assistance programs. The four U.S. service academies that are not Title IV eligible are included in the Integrated Postsecondary Education Data System (IPEDS) universe because they are federally funded and open to the public. An institution may be classified as changing Title IV status because it closed, it no longer provides federally funded financial assistance, it lost Title IV eligibility, it combined or merged with another institution, it is new, it began to provide federally funded financial assistance, or it regained Title IV eligibility. The other U.S. jurisdictions include American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, Guam, the Marshall Islands, Palau, Puerto Rico, and the U.S. Virgin Islands.
