PURPOSE OF THE SURVEY AND WHO SHOULD RESPOND

The primary purpose of the Institutional Characteristics (IC) component of IPEDS is to collect the basic data that identify and describe the universe of postsecondary education institutions in the United States and its outlying areas. Each institution or branch campus should file a separate report so that they can be listed in the Directory of Postsecondary Institutions.

USES OF THE DATA

Survey results will be used in a variety of ways. For example, they will be used as the source file for sample design for other postsecondary data collection activities. Other uses include generating basic counts of institutions in each State by type, control, and other key institutional characteristics; compiling directories of postsecondary education institutions that will be made available to the general public; and incorporating results into Career Information Delivery Systems throughout the nation. The data are extremely valuable for survey research design, statistical analysis, and general information purposes.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 10 minutes to 1.0 hours per response, with an average of 20 minutes, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:

National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

### Part D — STUDENT CHARGES FOR ACADEMIC YEAR 1997-98

1. Is an application fee for admission required by your institution?  

   - [ ] Yes — Indicate amount of fee
   - [ ] No

   **Application fee**  
   - Undergraduate 
   - Graduate 
   - First Professional

2. Does your institution enroll any full-time students?  

   - [ ] Yes — Continue with question 3.  
   - [ ] No — SKIP to Part E on page 8

**PLEASE READ THE FOLLOWING INSTRUCTIONS CAREFULLY BEFORE PROCEEDING.**

When reporting student charges information in the following section, please choose the appropriate METHOD(S) OF REPORTING, according to how you answer question 3.

Report charges by **PROGRAM**, if your institution is organized such that students enter into a particular program, and tuition and fees are assessed based on the program chosen. This method of reporting is particularly relevant to occupational and vocational programs. For example, a 1500 hour cosmetology program may cost $2,500 for the entire program.

Report by **ACADEMIC YEAR**, if charges are assessed by credit hour, quarter, semester, trimester, or term. **NOTE** — These charges must be converted to ACADEMIC YEAR charges.

If your institution uses both methods, that is, for some vocational/occupational programs, charges are assessed by the program, while for academic programs, tuition and fees are charged by semester or term, then report BOTH ways.

- If you report by **PROGRAM** — Be sure to complete question 4.
- If you report by **ACADEMIC YEAR** — Complete questions 5 through 9.
- If you report BOTH WAYS — Complete questions 4 through 9.
3. Do you charge full-time students by -

1. Credit hour
2. Term
3. Year
4. Program (normally measured in contact hours) — Provide program and tuition information in question 4.

5. Other — Specify

Provide academic year charges in questions 5—7 as appropriate.

- Provide charges as specified above using the most appropriate method.

Question 4 pertains to programs measured in terms of contact hours. If you have no programs of this type, skip to question 5.

4. If your institution charges by program — Please list the six programs with the LARGEST enrollment at your institution and provide the following information for each program. Report the tuition and fees and the cost of books and supplies for the TOTAL LENGTH OF THE PROGRAM. Follow the instructions carefully and refer to the enclosed pamphlet for CIP codes.

Part E — ENROLLMENT — ACADEMIC YEAR 1996–97 — Continued

NOTE — Part E requests data for academic year 1996–97, unlike Parts A—D and Part F which request data for academic year 1997–98. Please read the definition of credit course in the Glossary before completing this section of the survey form.

NOTE — If this institution’s normal reporting practices exclude students enrolled in summer session(s) or extension division/programs, do not include them in your response to questions 1a and b of Part E.

1a. How many students were enrolled (total headcount) at your institution on October 15, 1996 (or your institution’s official fall reporting date)? This number should include students taking courses for credit as well as those enrolled in occupational and vocational programs. (NCES may have completed this question for you.)

1b. How many students were enrolled (UNDUPLICATED count) during the 12-month period of July 1, 1996 through June 30, 1997? This number should include all students enrolled for credit as well as those enrolled in occupational and vocational programs. Include all students reported in question 1a above plus all other students enrolled during the 12-month period. If another 12-month period is used, indicate the start date of the period.

GENERAL INSTRUCTIONS — IC

Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

NOTE — The completion of this survey, in a timely and accurate manner, is MANDATORY for all institutions which participate or are applicants for participation in any Federal financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended. The completion of this survey is mandated by 20 U.S.C. 1094 (a)(17).

For those institutions not required to complete this survey on the basis of the above requirements, the completion of this survey is voluntary and authorized by P.L. 103–382, National Education Statistics Act of 1994, Sec. 404(a).

INSTITUTIONAL IDENTIFICATION

Mail to — In this block, please provide the address to which IPEDS forms should be mailed. This address can be the physical location of the school or it may be the address of a central, system, or corporate office, or other branch campus located elsewhere.

Institution name and address — This is the full name of the institution covered by this report and the physical location of the institution, including 9-digit ZIP Code (if known), as it should appear in an institutional listing.

Employer ID number — Enter the Employer Identification Number (EIN) which is the 9-digit number that the Internal Revenue Service (IRS) assigned to the institution for tax purposes.

Name and title of chief administrator of institution — Provide the name and title of the chief administrator of the entity covered by this report. (Example: President, Chancellor, Provost, etc.)

Telephone numbers — These are the telephone numbers for general information inquiries, the Financial Aid Office, and the Admissions Office.

Respondent — Enter the name and telephone number of the person responsible for completing this report.

County or city location of institution and Congressional District — Provide the name of the county or independent city in which your entity is located and the Congressional District number.

PART B — ORGANIZATION AND ACCREDITATION

Award levels — Check all applicable levels for all credit programs offered at this institution. Award levels are identified on the basis of either recognition for their completion, or duration, or a combination thereof.

Boxes (1), (2), and (4) — Note that these categories are differentiated on the basis of length of programs and refer to completions below the level of the baccalaureate degree. Do not designate the categories on the basis of the terminology used by the institution to describe these completions. All references to length of study should be interpreted to mean the equivalent of full-time academic years; that is, at least 1 but less than 2 years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time periods. One academic year equals 30 semester credit hours or its equivalent, or 900 contact or clock hours of instruction.

Boxes (3), (5), (7), (9), and (10) Indicate those degree levels for which the institution is authorized to make formal awards.

Boxes (6), (8), and (11) Indicate programs for which the institution offers formal recognition at these levels. Examples might be additional credit hours needed to complete licensure requirements; refresher courses in any technical or professional area; certificates of competency (for example in performing arts); or advanced work that does NOT meet the requirements of the next higher degree but constitutes an organized program of study and is recognized by the institution.

PART D — STUDENT CHARGES

It is recognized that tuition and required fees and room and board charges may not be the same for all students at an institution. Therefore, please be guided by the following —

• Report tuition and fees charged to in-district, in-State and out-of-State students as requested.

• Include all fixed sum charges which are REQUIRED of such a large proportion of all students that the student who does not pay the charges is an exception.

• Do not include any charges which are clearly optional.

• If the institution has a single lump-sum charge for tuition, required fees, and room and board, apportion the lump-sum charges among the appropriate categories so that tuition and fees and room and board can be analyzed separately.

Data items to be completed.

1. Application fee — If your institution charges an application fee for admission, indicate the amount.

2. Enrollment of full-time students — Indicate if your institution enrolls any students on a full-time basis.

3. Basis for charging full-time students — Indicate all methods by which full-time students are charged.

When reporting student charges information in these questions, please choose the appropriate METHOD(S) OF REPORTING, according to how you answered question 3. Report charges BY PROGRAM, if your institution is organized such that students enter into a particular program and tuition and fees are assessed based on the program chosen. This method of reporting is particularly relevant to occupational and vocational programs. For example, a 1,500 hour cosmetology program may cost $2,500 for the entire program. Or report by ACADEMIC YEAR, if charges are assessed by credit hour, quarter, semester, trimester, or term. NOTE — These charges must be converted to ACADEMIC YEAR charges.
GENERAL INSTRUCTIONS - IC — Continued

If your institution uses both methods, that is, for some vocational/occupational programs, charges are assessed by the program, while for academic programs, tuition and fees are charged by semester, then report BOTH ways.

4. Largest programs — Provide the title, Classification of Instructional Program (CIP) code, in-state tuition and required fees for the total program, the cost of books and supplies for the total program, and the length of the program in contact hours.

- Enter the title of the program as designated by your institution.
- Please note that English as a second language and GED courses are not to be included in IPEDS.
- Refer to the enclosed NCES publication, the 1990 version of the Classification of Instructional Programs (CIP). Match your program title as closely as possible with a program listed in this publication. Enter the corresponding 6-digit code in the appropriate space.
- Enter the total in-state tuition and required fees charged for the entire length of the program.
- Enter the cost of books and supplies for the total program.
- Report the full length of the program measured in contact or clock hours.

5—7. Typical tuition and required fees for undergraduate, graduate, and first-professional students — Enter in the spaces provided the dollar amount of tuition and required fees for an academic year most frequently charged to each of the types of full-time students indicated.

NOTE — If tuition is charged on a per credit hour basis, multiply the charge per credit hour by the number of hours that would normally be required per academic year to complete a degree or program at the level indicated and add the typical required fees.

Undergraduate students include: (1) those who have not obtained a bachelor’s degree; (2) all students in bachelor’s degree programs which require at least 4 years but fewer than 6 years of college work; and (3) all students in occupational or general study programs requiring 1, 2, or 3 years of college work and which are designed to prepare students for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor’s degree program.

Graduate students are those who have attained at least one standard bachelor’s degree or first-professional degree and are or could be candidates for Master’s or Doctor’s degrees. DO NOT include candidates for the degrees of D.P.M., D.D.S., D.M.D., M.D., O.D., D.O., D.V.M., L.L.B., J.D., B.D., or other first-professional degrees with data for graduate students. These are reported separately in the spaces provided.

Tuition and required fees for first-professional programs — Enter in the spaces provided the dollar amount of in-state and out-of-state tuition and required fees for an academic year charged to full-time students in each of the first-professional programs offered at this institution, or mark the appropriate box if you have no full-time first-professional students.

8. and 9. Typical room and board charges — Check the appropriate boxes in questions 8a and 8b to indicate if this institution provides room and board to students. Report the number of meals per week covered by the board charge in 8b, if applicable. If there is not a fixed number of meals per week covered by the board charge, check the box provided for this purpose in 8b instead. If your institution reported the number of meals per week on last year’s survey form, the number is provided for reference.

Report the typical room charge (for an academic year) to a full-time student sharing a room with one other student in 9a, if applicable. Report the typical board charge (for an academic year) to a full-time student in 9b, if applicable. DO NOT report the total of 9a and 9b in 9c.

If this institution assesses a combined charge for room and board, report these charges separately in 9a and 9b if possible. If the room and board charge CANNOT BE SEPARATED, report the combined charge in 9c.

PART E — ENROLLMENT

NOTE — Part E requests data for academic year 1996–97, unlike other parts which request data for academic year 1997–98. Please read the definitions in the glossary before completing question 1.

1a. Fall enrollment — Report the total number of students enrolled for credit at your institution as of October 15, 1996, or on your institution’s official fall reporting date. If your institution received the 1996 Fall Enrollment survey, report here the sum of columns 15 and 16 on line 29 of the survey. If your institution received the 1996 Consolidated survey instead, report the sum of columns 15 and 16 on line 29 of Part A of that survey. This number will include students taking courses for credit as well as those enrolled in occupational and vocational programs. This number will be preprinted on your form if your institution provided the data last year.

1b. Unduplicated headcount during 12-month period

Coverage — Institutions should report an unduplicated count of the total number of students by level (undergraduate, graduate, or first-professional) enrolled during the 12-month reporting period in any courses leading to a degree or other formal award AND any students enrolled in courses that are part of a terminal vocational or occupational program. DO NOT report students whose only credit was at a branch campus in a foreign country.
GENERAL INSTRUCTIONS - IC — Continued

DO NOT include interns or residents as those students have already received their first-professional degrees and are NOT included in surveys of fall enrollment.

How to report unduplicated headcount —

• Report students according to the level of their standing with the institution. Students who already hold a baccalaureate degree but are enrolled as an undergraduate for additional undergraduate courses should be counted as undergraduates. Students admitted with graduate standing should be counted as graduate students even if they are taking some undergraduate courses.

• In order to determine an unduplicated number of students enrolled, count each student only once during the 12-month period. Example 1: If a student enrolls in the fall term, drops out in winter, but enrolls again in spring, count student that student once. Example 2: If a student is an undergraduate in the fall and a graduate in the spring, count the student at his/her highest level attained.

PART F — ADDITIONAL INFORMATION

1. Eligibility for Federal programs — Indicate for which of these Federal programs the institution is eligible. This list is not intended to be exhaustive.

2. Athletically-related aid — Please indicate if your institution offers athletically-related aid to students.

GLOSSARY

INSTITUTIONAL CHARACTERISTICS - IC

ACADEMIC PROGRAM — Instructional program leading toward an associate’s, bachelor’s, master’s, doctor’s, or first-professional degree or resulting in credits that can be applied to one of these degrees.

ACADEMIC YEAR — The period of time generally extending from September to June; usually equated to two semesters or trimesters, three quarters, or the period covered by a 4-1-4 plan.

APPLICATION FEE — That amount of money that an institution charges for processing a student’s application for acceptance. This amount is not creditable toward tuition and required fees, nor is it refundable if the student is not admitted to the institution.

ASSOCIATE’S DEGREE — An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

ATHLETICALLY-RELATED STUDENT AID - Any scholarship, grant, or other form of financial assistance, offered by an institution, the terms of which require the recipient to participate in a program of intercollegiate athletics at the institution in order to be eligible to receive such assistance.

BACHELOR’S DEGREE — An award (baccalaureate or equivalent degree, as determined by the Secretary, U.S. Department of Education) that normally requires at least 4 but NOT more than 5 years of full-time equivalent college-level work. This includes ALL bachelor’s degrees conferred in a 5-year COOPERATIVE (WORK-STUDY PLAN) PROGRAM. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows students to combine actual work experience with their college studies. Also, includes bachelor’s degrees in which the normal 4 years of work are completed in 3 years.

BOARDS — The charge for an academic year for meals, for a specified number of days per week.

BRANCH INSTITUTION — A campus or site of an educational institution that is not temporary, is located in a community beyond a reasonable commuting distance from its parent institution, and offers organized PROGRAMS of study, not just courses.

PURPOSE OF THE SURVEY AND WHO SHOULD RESPOND

The primary purpose of the Institutional Characteristics (IC) component of IPEDS is to collect the basic data that identify and describe the universe of postsecondary education institutions in the United States and its outlying areas. Each institution or branch campus should file a separate report so that they can be listed in the Directory of Postsecondary Institutions.

USES OF THE DATA

Survey results will be used in a variety of ways. For example, they will be used as the source file for sample design for other postsecondary data collection activities. Other uses include generating basic counts of institutions in each State by type, control, and other key institutional characteristics; compiling directories of postsecondary education institutions that will be made available to the general public; and incorporating results into Career Information Delivery Systems throughout the nation. The data are extremely valuable for survey research design, statistical analysis, and general information purposes.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 10 minutes to 1.0 hours per response, with an average of 20 minutes, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:

National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

Boxes (1), (2), and (4) — Note that these categories are differentiated on the basis of length of programs and refer to completions below the level of the baccalaureate degree. Do not designate the categories on the basis of the terminology used by the institution to describe these completions. All references to length of study should be interpreted to mean the equivalent of full-time academic years; that is, at least 1 but less than 2 years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time periods. One academic year equals 30 semester credit hours or its equivalent, or 900 contact or clock hours of instruction.

• Refer to the enclosed NCES publication, the 1990 version of the Classification of Instructional Programs (CIP). Match your program title as closely as possible with a program listed in this publication. Enter the corresponding 6-digit code in the appropriate space.

• Enter the total in-state tuition and required fees charged for the total length of the program.

• Enter the cost of books and supplies for the total program.

• Report the total length of the program measured in contact or clock hours.

1b. Unduplicated headcount during 12-month period

Coverage — Institutions should report an unduplicated count of the total number of students enrolled during the reporting period in any courses leading to a degree or other formal award AND any students enrolled in courses that are part of a terminal vocational or occupational program. DO NOT report students whose only credit was at a branch campus in a foreign country.

How to report unduplicated headcount —

In order to determine an unduplicated number of students enrolled, count each student only once during the 12-month period. For example, if a student enrolls in the fall term, drops out in winter, but enrolls again in spring, count that student once.

PART F — ADDITIONAL INFORMATION

1. Eligibility for Federal programs — Indicate for which of these Federal programs the institution is eligible. This list is not intended to be exhaustive.

Changes from the 1996-97 form for

1997-98 INSTITUTIONAL CHARACTERISTICS SURVEY

There are no changes to the form for 1997-98. The text of recognized accrediting agencies on pages 7—9 has been updated to reflect the most recent information available from the Office of Postsecondary Education, U.S. Department of Education.
PURPOSE OF THE SURVEY AND WHO SHOULD RESPOND

The primary purpose of the Institutional Characteristics (IC) component of IPEDS is to collect the basic data that identify and describe the universe of postsecondary education institutions in the United States and its outlying areas. Each institution or branch campus should file a separate report so that they can be listed in the Directory of Postsecondary Institutions.

USES OF THE DATA

Survey results will be used in a variety of ways. For example, they will be used as the source file for sample design for other postsecondary data collection activities. Other uses include generating basic counts of institutions in each State by type, control, and other key institutional characteristics; compiling directories of postsecondary education institutions that will be made available to the general public; and incorporating results into Career Information Delivery Systems throughout the nation. The data are extremely valuable for survey research design, statistical analysis, and general information purposes.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 30 minutes to 2.0 hours per response, with an average of 1 hour, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:

National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

Please read the following instructions carefully before proceeding.

When reporting student charges information in the following section, please choose the appropriate METHOD(S) OF REPORTING, according to how you answer question 3.

Report charges by **PROGRAM**, if your institution is organized such that students enter into a particular program, and tuition and fees are assessed based on the program chosen. This method of reporting is particularly relevant to occupational and vocational programs. For example, a 1500 hour cosmetology program may cost $2,500 for the entire program.

Report by **ACADEMIC YEAR**, if charges are assessed by credit hour, quarter, semester, trimester, or term. **NOTE** — These charges must be converted to ACADEMIC YEAR charges.

If your institution uses both methods, that is, for some vocational/occupational programs, charges are assessed by the program, while for academic programs, tuition and fees are charged by semester or term, then report BOTH ways.

- If you report by **PROGRAM** — Be sure to complete questions 4 through 6.
- If you report by **ACADEMIC YEAR** — Complete questions 7 through 9.
- If you report **BOTH WAYS** — Complete questions 4 through 9.

Remarks
GENERAL INSTRUCTIONS — IC-4

Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

NOTE — The completion of this survey, in a timely and accurate manner, is MANDATORY for all institutions which participate or are applicants for participation in any Federal financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended. The completion of this survey is mandated by 20 U.S.C. 1094 (a)(17).

For those institutions not required to complete this survey on the basis of the above requirements, the completion of this survey is voluntary and authorized by P.L. 103–382, National Education Statistics Act of 1994, Sec. 404(a).

INSTITUTIONAL IDENTIFICATION

Mail To — In this block, please provide the address to which IPEDS forms should be mailed. This address can be the physical location of the school or it may be the address of a central, system, or corporate office, or other branch campus located elsewhere.

Institution name and address — This is the full name of the institution covered by this report and the physical location of the institution, including 9-digit ZIP Code (if known), as it should appear in an institutional listing.

Employer ID number — Enter the Employer Identification Number (EIN) which is the 9-digit number that the Internal Revenue Service (IRS) assigned to the institution for tax purposes.

Name and title of chief administrator of institution — Provide the name and title of the chief administrator of the entity covered by this report. (Example: President, Chancellor, Provost, etc.)

Telephone numbers — These are the telephone numbers for general information inquiries, the Financial Aid Office, and the Admissions Office.

Respondent — Enter the name and telephone number of the person responsible for completing this report.

County or city location of institution and Congressional District — Provide the name of the county or independent city in which your entity is located and the Congressional District number.

PART A — TYPES OF EDUCATIONAL OFFERINGS

These questions are asked to verify the inclusion of this institution on the NCES/IPEDS list of institutions and agencies offering all types of postsecondary education. Postsecondary education is the provision of a formal instructional program whose curriculum is designed primarily for students beyond the compulsory age for high school. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

PART B — ORGANIZATION AND ACCREDITATION

1. If this entity (institution or administrative unit) will complete any IPEDS survey forms for other institutions or branches, provide the information requested in this item. If this entity is an institution of postsecondary education, or branch of such an institution, also complete the rest of the survey.

If this entity is an administrative unit only, stop after completing page 5. All entities should return the completed survey to the address shown on page 1.

2. Institutional control or affiliation — Indicate the appropriate form of control or affiliation under which the institution operates. Affiliation with a religious group need not imply financial backing. Mark the appropriate religious affiliation. If the religious affiliation is Protestant or Other, specify the denomination. If more than one response is appropriate, mark all that apply, but do not indicate both public and private, or both profit making and nonprofit.

3. Award levels — Check all applicable levels for all credit programs offered at this institution. Award levels are identified on the basis of either recognition for their completion, or duration, or a combination thereof.

Boxes (1), (2), and (4) — Note that these categories are differentiated on the basis of length of programs and refer to completions below the level of the baccalaureate degree. Do not designate the categories on the basis of the terminology used by the institution to describe these completions. All references to length of study should be interpreted to mean the equivalent of full-time academic years; that is, at least 1 but less than 2 years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time periods. One academic year equals 30 semester credit hours or its equivalent, or 900 contact or clock hours of instruction.

Boxes (3), (5), (7), (9), and (10) indicate those degree levels for which the institution is authorized to make formal awards.

Boxes (6), (8), and (11) indicate programs for which the institution offers formal recognition at these levels. Examples might be additional credit hours needed to complete licensure requirements; refresher courses in any technical or professional area; certificates of competency (for example in performing arts); or advanced work that does NOT meet the requirements of the next higher degree but constitutes an organized program of study and is recognized by the institution.

REMOVE INSTRUCTIONS BEFORE MAILING AND RETAIN FOR YOUR FILES.
**GENERAL INSTRUCTIONS - IC-4 — Continued**

**Administrative unit** — An administrative unit is the office in a multi-campus environment responsible for the completion of the IPEDS survey forms for the campuses (main and branch) of the school. An administrative unit conducts no classes. The administrative office for a one-campus school is not considered an administrative unit for IPEDS reporting purposes. If this entity, as named on page 1, box 1, is an administrative unit only, stop after completing all of page 5, and return the completed survey to the address shown on page 1.

4. **Two-year provision** — Indicate whether this institution has been offering postsecondary instruction on a continuous basis for at least 2 years (except for normal vacation periods). A change in name or ownership of the institution during this 2-year period is not relevant in answering this question.

5. **Institutional accreditation** — Indicate the types of agencies which accredit this institution.

6. **Regional accreditation** — Please indicate which regional association accredits your institution.

7. **National institutional or specialized accreditation** — If this institution or any of its programs, departments, or schools is currently accredited by any of the national institutional or specialized accrediting agencies recognized by the Secretary, U.S. Department of Education (Higher Education and Occupational/Vocational Institution Eligibility Agencies) which are listed on pages 7—9, mark the appropriate box(es) for all that apply.

**PART C — CALENDAR, ADMISSION REQUIREMENTS, AND SERVICES**

1. **Calendar system** — Indicate the predominant calendar on which the institution operates. If courses or programs are offered on more than one calendar, select the system under which most courses or programs are offered. If there is no predominant calendar system at this institution, mark (X) box 5, 6, or 7, as appropriate.

2. **Location of course instruction** — Indicate all locations where credit/noncredit courses are offered. The intent of this item is to identify geographically dispersed sites used for instructional offerings. Do not use the category of "Abroad" to refer to study-abroad programs that involve travel or visitation in other countries.

3. **Types of facilities used for course instruction** — Indicate all of the types of facilities at which credit/noncredit course instruction is offered. Do not include facilities such as rented space on or adjacent to primary campuses.

4. **Course instruction at military installations** — Indicate whether your institution offers credit courses at military installations in states and territories and/or abroad.

5. **Admission requirements** — This item refers to credit programs only. Mark the types of information that are used as part of the selection process for students entering your institution.

6. **Further admission requirements** — This item refers to institutions that limit entrance to students who have completed certain academic requirements. Indicate the level of completions required.

7. **Modes of instruction** — For credit/noncredit activities, indicate from the choices listed all of the types of instructional delivery that are employed by the institution at any of its locations. This list is not intended to be exhaustive, and omits the more traditional instructional modes.

   Work in a job-related setting with pay could include programs in which substantial periods of academic study alternate with work for pay in industries and occupations which are the objectives of the program. It could also include employment held simultaneously with instruction if the employment was considered an integral part of the program. Include research and teaching assistantships here.

   Work in a job-related setting without pay could include student/practice teaching or unpaid internships.

8. **Selected student services** — Indicate which of the selected services are provided for students at the institution. Mark "remedial services" if the institution has either required or voluntary activities designed to raise basic achievement levels or to improve basic skills. Include day care if the service is available, whether or not enrollees are charged a fee.

9. **Library** — Indicate whether this institution has its own library, shares a library, or has no facility.

**PART D — STUDENT CHARGES AND PROGRAM OFFERINGS**

1. **Application fee** — If your institution charges an application fee for admission, indicate the amount.

2. **Enrollment of full-time students** — Indicate if your institution enrolls any students on a full-time basis. If not, go to question 4 of Part D.

3. **Basis for charging full-time students** — Indicate all methods by which full-time students are charged. When reporting student charges information in these questions, please choose the appropriate METHOD(S) OF REPORTING, according to how you answered question 3. Report charges BY PROGRAM, if your institution is organized such that students enter into a particular program and tuition and fees are assessed based on the program chosen. This method of reporting is particularly relevant to occupational and vocational programs. For example, a 1500 clock hour cosmetology program may cost $2,500 for the entire program. Or report by ACADEMIC YEAR, if charges are assessed by credit hour, quarter, semester, trimester, or term.

   NOTE — These charges must be converted to ACADEMIC YEAR CHARGES.

If your institution uses both methods, that is, for some vocational/occupational programs, charges are assessed by the program, while for academic programs, tuition and fees are charged by semester or term, then report BOTH ways.
4. **Number of programs** — Provide the total number of programs that your institution offers.

5. **Length of programs** — Indicate whether your institution offers programs that are at least 300 contact hours or clock hours, or 6 semester or trimester hours, or 12 quarter hours.

6. **Largest programs** — Provide the title, Classification of Instructional Program (CIP) code, in-state tuition and required fees for the total program, the total length of the program in contact hours, current or most recent enrollment, and the number of students who completed the program in the previous school year (July 1, 1996—June 30, 1997).
   - Enter the title of the program as designated by your institution.
   - Please note that English as a second language and GED courses are not to be included in IPEDS.
   - Refer to the enclosed NCES publication, the 1990 version of the Classification of Instructional Programs (CIP). Match your program title as closely as possible with a program listed in this publication. Enter the corresponding 6-digit code in the appropriate space.
   - Enter the total in-state tuition and required fees charged for the total length of the program.
   - Report the total length of the program measured in contact or clock hours.
   - Report current or most recent enrollment in the program.
   - Report the number of students who completed program in the previous year (July 1, 1996—June 30, 1997).

7. and 8. **Typical tuition and required fees for undergraduate and graduate students** — Enter in the spaces provided the dollar amount of tuition and required fees for an academic year most frequently charged to each of the types of full-time students indicated.

   **NOTE** — If tuition is charged on a per credit hour basis, multiply the charge per credit hour by the number of hours that would normally be required per academic year to complete a degree or program at the level indicated and add the typical required fees.

   Undergraduate students include: (1) those who have not obtained a bachelor’s degree; (2) all students in bachelor’s degree programs which require at least 4 years but fewer than 6 years of college work; and (3) all students in occupational or general study programs requiring 1, 2, or 3 years of college work and which are designed to prepare students for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor’s degree program.

   Graduate students are those who have attained at least one standard bachelor’s degree or first-professional degree and are or could be candidates for Master’s or Doctor’s degrees. **Do not** include candidates for the degrees of D.P.M., D.D.S., D.M.D., M.D., O.D., D.O., D.V.M., L.L.B., J.D., B.D., or other first-professional degrees; see question 9.

In **7c**, enter the typical number of credit (or contact) hours taken by a full-time undergraduate student in a full academic year. Answer in credit hours or contact hours, but not both. Provide a single figure, not a range of hours. In **8c**, enter the typical number of credit hours taken by a full-time graduate student in a full academic year.

9. **Tuition and required fees for first-professional programs** — Enter in the spaces provided, the dollar amount of in-state and out-of-state tuition and required fees for an academic year charged to full-time students in each of the first-professional programs offered at this institution, or mark (X) box **9a** if you have no full-time first-professional students.

   In **9c**, enter the typical number of credit hours taken by a full-time, first-professional student in a full academic year. Provide a single figure, not a range of hours.

10. and **11. - Typical room and board charges** — Mark (X) the appropriate boxes in questions **10a** and **10b** to indicate if this institution provides room and board to students. Report the total dormitory capacity (number of students) for an academic year in **10a**, if applicable. Report the number of meals per week covered by the board charge in **10b**, if applicable. If there is not a fixed number of meals per week covered by the board charge, mark (x) the box provided for this purpose in **10b** instead.

   Report the typical room charge (for an academic year) to a full-time student sharing a room with one other student in **11a**, if applicable. Report the typical board charge (for an academic year) to a full-time student in **11b**, if applicable. DO NOT report the total of **11a** and **11b** in **11c**.

   If this institution assesses a combined charge for room and board, report these charges separately in **11a** and **11b** if possible. If the room and board charge CANNOT BE SEPARATED, report the combined charge in **11c**.

**PART E — ENROLLMENT**

**NOTE** — Part E requests data for academic year 1996-97, unlike Parts A—D and Part F which request data for academic year 1997–98. Please read the definition of credit course in the glossary before completing this section of the survey form.

1a. **Fall enrollment** — Report the total number of students enrolled for credit at your institution on or about October 15, 1996. This number should include only students taking courses for credit as well as those enrolled in occupational and vocational programs.

1b. **Unduplicated headcount during 12-month period Coverage** — Institutions should report an unduplicated count of the total number of students enrolled during the reporting period in any courses leading to a degree or other formal award AND any students enrolled in courses that are part of a terminal vocational or occupational program. DO NOT report students whose only credit was at a branch campus in a foreign country.
GENERAL INSTRUCTIONS - IC-4 — Continued

How to report unduplicated headcount —
In order to determine an unduplicated number of students enrolled, count each student only once during the 12-month period. For example, if a student enrolls in the fall term, drops out in winter, but enrolls again in spring, count that student once.

PART F — ADDITIONAL INFORMATION

SHARED LIBRARY — A facility housing an organized collection of printed, microform, and audiovisual materials, and (a) is jointly administered by more than one educational institution, or (b) whose funds or operating expenditures have been received from more than one educational institution. The location of the facility is not a determining factor.

SPECIALIZED ACCREDITATION — Specialized accreditation normally applies to evaluation of programs, departments or schools which usually are parts of a total collegiate or other postsecondary institution. The unit accredited may be as large as a college or school within a university or as small as a curriculum within a discipline. Most of the specialized accrediting agencies review units within a postsecondary institution which is accredited by one of the regional accrediting commissions. However, certain of the specialized accrediting agencies do accredit professional schools and other specialized or vocational or other postsecondary institutions which are free-standing in their operations. Thus, a "specialized" or "programmatic" accrediting agency may also function in the capacity of an "institutional" accrediting agency. In addition, a number of specialized accrediting agencies accredit educational programs within non-educational settings, such as hospitals.

SPECIAL ADMISSIONS TESTS — Tests prepared by or for a particular institution, or State (for State institutions) and administered by the institution, for purposes of determining prospective students' skills and competencies.

Changes from the 1996-97 form for

1997-98 INSTITUTIONAL CHARACTERISTICS SURVEY

The form has been modified to better reflect programs in less than 2-year institutions.
PURPOSE OF THE SURVEY AND WHO SHOULD RESPOND

The primary purpose of the Institutional Characteristics (IC) component of IPEDS is to collect the basic data that identify and describe the universe of postsecondary education institutions in the United States and its outlying areas. Each institution or branch campus should file a separate report so that they can be listed in the Directory of Postsecondary Institutions.

USES OF THE DATA

Survey results will be used in a variety of ways. For example, they will be used as the source file for sample design for other postsecondary data collection activities. Other uses include generating basic counts of institutions in each State by type, control, and other key institutional characteristics; compiling directories of postsecondary education institutions that will be made available to the general public; and incorporating results into Career Information Delivery Systems throughout the nation. The data are extremely valuable for survey research design, statistical analysis, and general information purposes.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

NOTE — The completion of this survey, in a timely and accurate manner, is MANDATORY for all institutions which participate or are applicants for participation in any Federal financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended. The completion of this survey is mandated by 20 U.S.C. 1094 (a)(17).

For those institutions not required to complete this survey on the basis of the above requirements, the completion of this survey is voluntary and authorized by P.L. 103–382, National Education Statistics Act of 1994, Sec. 404(a).

INSTITUTIONAL IDENTIFICATION

Mail To — In this block, please provide the address to which IPEDS forms should be mailed. This address can be the physical location of the school or it may be the address of a central, system, or corporate office, or other branch campus located elsewhere.

Institution name and address — This is the full name of the institution covered by this report and the physical location of the institution, including 9-digit ZIP Code (if known), as it should appear in an institutional listing.

Employer ID number — Enter the Employer Identification Number (EIN) which is the 9-digit number that the Internal Revenue Service (IRS) assigned to the institution for tax purposes.

Name and title of chief administrator of institution — Provide the name and title of the chief administrator of the entity covered by this report. (Example: President, Chancellor, Provost, etc.)

Telephone numbers — These are the telephone numbers for general information inquiries, the Financial Aid Office, and the Admissions Office.

Respondent — Enter the name and telephone number of the person responsible for completing this report.

County or city location of institution and Congressional District — Provide the name of the county or independent city in which your entity is located and the Congressional District number.

PART A — TYPES OF EDUCATIONAL OFFERINGS

These questions are asked to verify the inclusion of this institution on the NCES/IPEDS list of institutions and agencies offering all types of postsecondary education. Postsecondary education is the provision of a formal instructional program whose curriculum is designed primarily for students beyond the compulsory age for high school. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

PART B — ORGANIZATION AND ACCREDITATION

1. If this entity (institution or administrative unit) will complete any IPEDS survey forms for other institutions or branches, provide the information requested in this item. If this entity is an institution of postsecondary education, or branch of such an institution, also complete the rest of the survey. If this entity is an administrative unit only, stop after completing page 5. All entities should return the completed survey to the address shown on page 1.

2. Institutional control or affiliation — Indicate the appropriate form of control or affiliation under which the institution operates. Affiliation with a religious group need not imply financial backing. Mark the appropriate religious affiliation. If the religious affiliation is Protestant or Other, specify the denomination. If more than one response is appropriate, mark all that apply, but do not indicate both public and private, or both profit making and nonprofit.

3. Award levels — Check all applicable levels for all credit programs offered at this institution. Award levels are identified on the basis of either recognition for their completion, or duration, or a combination thereof.

Boxes (1), (2), and (4) — Note that these categories are differentiated on the basis of length of programs and refer to completions below the level of the baccalaureate degree. Do not designate the categories on the basis of the terminology used by the institution to describe these completions. All references to length of study should be interpreted to mean the equivalent of full-time academic years; that is, at least 1 but less than 2 years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time periods. One academic year equals 30 semester credit hours or its equivalent, or 900 contact or clock hours of instruction.

Box 3 — Indicate if the institution is authorized to award Associate’s degrees.

REMOVE INSTRUCTIONS BEFORE MAILING AND RETAIN FOR YOUR FILES.
GENERAL INSTRUCTIONS - IC-4A — Continued

Administrative unit — An administrative unit is the office in a multi-campus environment responsible for the completion of the IPEDS survey forms for the campuses (main and branch) of the school. An administrative unit conducts no classes. The administrative office for a one-campus school is not considered an administrative unit for IPEDS reporting purposes. If this entity, as named on page 1, box 1, is an administrative unit only, stop after completing all of page 5, and return the completed survey to the address shown on page 1.

4. Two-year provision — Indicate whether this institution has been offering postsecondary instruction on a continuous basis for at least 2 years (except for normal vacation periods). A change in name or ownership of the institution during this 2-year period is not relevant in answering this question.

5. Admission requirements — This item refers to credit programs only. Mark the types of information that are used as part of the selection process for students entering your institution.

6. Modes of instruction — For credit/noncredit activities, indicate from the choices listed all of the types of instructional delivery that are employed by the institution at any of its locations. This list is not intended to be exhaustive, and omits the more traditional instructional modes.

Work in a job-related setting with pay could include programs in which substantial periods of academic study alternate with work for pay in industries and occupations which are the objectives of the program. It could also include employment held simultaneously with instruction if the employment was considered an integral part of the program. Include research and teaching assistantships here.

Work in a job-related setting without pay could include student/practice teaching or unpaid internships.

7. Selected student services — Indicate which of the selected services are provided for students at the institution. Mark “remedial services” if the institution has either required or voluntary activities designed to raise basic achievement levels or to improve basic skills. Include day care if the service is available, whether or not enrollees are charged a fee.

8. Library — Indicate whether this institution has its own library, shares a library, or has no facility.

PART C — CALENDAR, ADMISSION REQUIREMENTS, AND SERVICES

1. Calendar system — Indicate the predominant calendar on which the institution operates. If courses or programs are offered on more than one calendar, select the system under which most courses or programs are offered. If there is no predominant calendar system at this institution, mark (X) box 5, 6, or 7, as appropriate.

2. Location of course instruction — Indicate all locations where credit/noncredit courses are offered. The intent of this item is to identify geographically dispersed sites used for instructional offerings. Do not use the category of “Abroad” to refer to study-abroad programs that involve travel or visitation in other countries.

3. Types of facilities used for course instruction — Indicate all of the types of facilities at which credit/noncredit course instruction is offered. Do not include facilities such as rented space on or adjacent to primary campuses.

4. Course instruction at military installations — Indicate whether your institution offers credit courses at military installations in states and territories and/or abroad.

5. Basis for charging full-time students — Indicate all methods by which full-time students are charged.

6. Number of programs — Provide the total number of programs offered by your institution.

7. Length of programs — Indicate whether your institution offers programs that are at least 300 contact hours or clock hours, or 6 semester or trimester hours, or 12 quarter hours.
PART D — STUDENT CHARGES AND PROGRAM OFFERINGS - Continued

5. Largest programs — Provide the title, Classification of Instructional Program (CIP) code, in-state tuition and required fees for the total program, the total length of the program in contact hours, current or most recent enrollment, and the number of students who completed the program in the previous school year (July 1, 1996—June 30, 1997).

- Enter the title of the program as designated by your institution.
- Please note that English as a second language and GED courses are not to be included in IPEDS.
- Refer to the enclosed NCES publication, the 1990 version of the Classification of Instructional Programs (CIP). Match your program title as closely as possible with a program listed in this publication. Enter the corresponding 6-digit code in the appropriate space.
- Enter the total in-state tuition and required fees charged for the total length of the program.
- Report the total length of the program measured in contact or clock hours.
- Report current or most recent enrollment in the program.
- Report the number of students who completed program in the previous academic year (July 1, 1996—June 30, 1997).

PART E — ENROLLMENT

NOTE — Part E requests data for academic year 1996–97, unlike Parts A—D and Part F which request data for academic year 1997–98. Please read the definition of credit course in the glossary before completing this section of the survey form.

1a. Fall enrollment — Report the total number of students enrolled for credit at your institution on or about October 15, 1996. This number should include only students taking courses for credit as well as those enrolled in occupational and vocational programs.

1b. Unduplicated headcount during 12-month period

Coverage — Institutions should report an unduplicated count of the total number of students enrolled during the reporting period in any courses leading to a degree or other formal award AND any students enrolled in courses that are part of a terminal vocational or occupational program. DO NOT report students whose only credit was at a branch campus in a foreign country.

How to report unduplicated headcount —

In order to determine an unduplicated number of students enrolled, count each student only once during the 12-month period. For example, if a student enrolls in the fall term, drops out in winter, but enrolls again in spring, count that student once.

PART F — ADDITIONAL INFORMATION

1. Eligibility for Title IV programs — Indicate whether or not students attending your institution are eligible for funding through Title IV programs (e.g., Pell, Stafford, etc.). If you know your institution’s OPE (Office of Postsecondary Education) identification number, please enter it in the space provided.

3. Job Training Partnership Act — Indicate whether this institution offers instruction through the Job Training Partnership Act (JTPA).

PURPOSE OF THE SURVEY AND WHO SHOULD RESPOND

The primary purpose of the Institutional Characteristics (IC) component of IPEDS is to collect the basic data that identify and describe the universe of postsecondary education institutions in the United States and its outlying areas. Each institution or branch campus should file a separate report so that they can be listed in the Directory of Postsecondary Institutions.

USES OF THE DATA

Survey results will be used in a variety of ways. For example, they will be used as the source file for sample design for other postsecondary data collection activities. Other uses include generating basic counts of institutions in each State by type, control, and other key institutional characteristics; compiling directories of postsecondary education institutions that will be made available to the general public; and incorporating results into Career Information Delivery Systems throughout the nation. The data are extremely valuable for survey research design, statistical analysis, and general information purposes.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0582. The time required to complete this information collection is estimated to vary from 30 minutes to 2.0 hours per response, with an average of 1 hour, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to: U.S. Department of Education, Information Management Team, Washington, DC 20202-4652. If you have any comments or concerns regarding the status of your individual submission of this form, write directly to:

National Center for Education Statistics/IPEDS
U.S. Department of Education
555 New Jersey Avenue, NW
Washington, DC 20208-5652

The definitions and instructions for compiling IPEDS data have been designed to minimize comparability problems. However, postsecondary education institutions differ widely among themselves. As a result of these differences, comparisons of data provided by individual institutions may be misleading.

GENERAL INSTRUCTIONS — IC-ADD

Please respond to each item on this report in the space provided. The Glossary provides definitions of terms used in this report.

NOTE — The completion of this survey, in a timely and accurate manner, is MANDATORY for all institutions which participate or are applicants for participation in any Federal financial assistance program authorized by Title IV of the Higher Education Act of 1965, as amended. The completion of this survey is mandated by 20 U.S.C. 1094 (a)(17).

For those institutions not required to complete this survey on the basis of the above requirements, the completion of this survey is voluntary and authorized by P.L. 103–382, National Education Statistics Act of 1994, Sec. 404(a).

INSTITUTIONAL IDENTIFICATION

Mail To — In this block, please provide the address to which IPEDS forms should be mailed. This address can be the physical location of the school or it may be the address of a central, system, or corporate office, or other branch campus located elsewhere.

Institution name and address — This is the full name of the institution covered by this report and the physical location of the institution, including 9-digit ZIP Code (if known), as it should appear in an institutional listing.

Employer ID number — Enter the Employer Identification Number (EIN) which is the 9-digit number that the Internal Revenue Service (IRS) assigned to the institution for tax purposes.

Name and title of chief administrator of institution — Provide the name and title of the chief administrator of the entity covered by this report. (Example: President, Chancellor, Provost, etc.)

Telephone numbers — These are the telephone numbers for general information inquiries, the Financial Aid Office, and the Admissions Office.

Respondent — Enter the name and telephone number of the person responsible for completing this report.

County or city location of institution and Congressional District — Provide the name of the county or independent city in which your entity is located and the Congressional District number.

PART A — TYPES OF EDUCATIONAL OFFERINGS

These questions are asked to verify the inclusion of this institution on the NCES/IPEDS list of institutions and agencies offering all types of postsecondary education. Postsecondary education is the provision of a formal instructional program whose curriculum is designed primarily for students beyond the compulsory age for high school. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

PART B — ORGANIZATION AND ACCREDITATION

The purpose of question 1 in this section is to identify the institution or entity that will be responsible for completing this and other IPEDS survey forms. For individual institutions this will simply be the institution itself. However, for groups of institutions organized into systems or corporations, an administrative unit (such as the central, system, or corporate office), or the main campus, or one of the branch campuses may complete separate survey forms for itself and for all of the campuses of the institution. If you believe that your response to this section does not adequately describe the reporting process in your organization, call your State Coordinator or the Census Bureau representative.

1. If this entity (institution or administrative unit) will complete any IPEDS survey forms for other institutions or branches, provide the information requested in this item. If this entity is an institution of postsecondary education, or branch of such an institution, also complete the rest of the survey. If this entity is an administrative unit only, stop after completing page 4. All entities should return the completed survey to the address shown on page 1.

2. Institutional control or affiliation — Indicate the appropriate form of control or affiliation under which the institution operates. Affiliation with a religious group need not imply financial backing. Mark the appropriate religious affiliation. If the religious affiliation is Protestant or Other, specify the denomination. If more than one response is appropriate, mark all that apply, but do not indicate both public and private.

3. Award levels — Check all applicable levels for all credit programs offered at this institution. Award levels are identified on the basis of either recognition for their completion, or duration, or a combination thereof.

Boxes (1), (2), and (4) — Note that these categories are differentiated on the basis of length of programs and refer to completions below the level of the baccalaureate degree. Do not designate the categories on the basis of the terminology used by the institution to describe these completions. All references to length of study should be interpreted to mean the equivalent of full-time academic years; that is, at least 1 but less than 2 years refers to the number of credits or the course load that would normally be completed by a full-time student attending within the stated time periods. One academic year equals 30 semester credit hours or its equivalent, or 900 contact or clock hours of instruction.

Boxes (3), (5), (7), (9), and (10) indicate those degree levels for which the institution is authorized to make formal awards.
GENERAL INSTRUCTIONS - IC-ADD — Continued

Boxes (6), (8), and (11) indicate programs for which the institution offers formal recognition at these levels. Examples might be additional credit hours needed to complete licensure requirements; refresher courses in any technical or professional area; certificate of competency (for example in performing arts); or advanced work that does NOT meet the requirements of the next higher degree but constitutes an organized program of study and is recognized by the institution.

Administrative unit — An administrative unit is the office in a multi-campus environment responsible for the completion of the IPEDS survey forms for the campuses (main and branch) of the school. An administrative unit conducts no classes. The administrative office for a one-campus school is not considered an administrative unit for IPEDS reporting purposes. If this entity, as named on page 1, box 1, is an administrative unit only, stop after completing all of page 4, and return the completed survey to the address shown on page 1.

4. Two-year provision — Indicate whether this institution has been offering postsecondary instruction on a continuous basis for at least 2 years (except for normal vacation periods). A change in name or ownership of the institution during this 2-year period is not relevant in answering this question.

5. Licensing or regulatory agency — Indicate whether this institution is licensed by a State or local licensing or regulatory agency.

6. Institutional accreditation — Indicate the types of agencies which accredit this institution.

7. Regional accreditation — Please indicate which regional association accredits your institution.

8. National institutional or specialized accreditation — If this institution or any of its programs, departments, or schools is currently accredited by any of the national institutional or specialized accrediting agencies recognized by the Secretary, U.S. Department of Education (Higher Education and Occupational/Vocational Institution Eligibility Agencies) which are listed on pages 6—8, check the appropriate box(es) for all that apply.

PART C — CALENDAR, ADMISSION REQUIREMENTS, AND SERVICES

1. Calendar system — Indicate the predominant calendar on which the institution operates. If courses or programs are offered on more than one calendar, select the system under which most courses or programs are offered. If there is no predominant calendar system at this institution, mark (X) box 5, 6, or 7, as appropriate.

2. Location of course instruction — Indicate all locations where courses are offered. The intent of this item is to identify geographically dispersed sites used for instructional offerings. Do not use the category of "Abroad" to refer to study-abroad programs that involve travel or visitation in other countries.

3. Admission requirements — This item refers to undergraduate credit programs only. Mark the types of information that are used as part of the selection process for students entering your institution. Mark "no entering freshmen" if yours is an upper level or first-professional only institution.

4. Further admission requirements — This item refers to institutions that limit entrance to students who have completed certain academic requirements. Indicate the level of completion required.

PART D — STUDENT CHARGES

It is recognized that tuition and required fees and room and board charges may not be the same for all students at an institution. Therefore, please be guided by the following —

- Report tuition and fees charged to in-district, in-state and out-of-state students as requested.
- Include all fixed sum charges which are REQUIRED of such a large proportion of all students that the student who does not pay the charges is an exception.
- Do not include any charges which are clearly optional.
- If the institution has a single lump-sum charge for tuition, required fees, and board, apportion the lump-sum charges among the appropriate categories so that tuition and fees and room and board can be analyzed separately.

Data items to be completed.

1. Application fee — If your institution charges an application fee for admission, indicate the amount.

2. Enrollment of full-time students — Indicate if your institution enrolls any students on a full-time basis.

3. Basis for charging full-time students — Indicate all methods by which full-time students are charged. When reporting student charges information in these questions, please choose the appropriate METHOD(S) OF REPORTING, according to how you answered question 3. Report charges BY PROGRAM, if your institution is organized such that students enter into a particular program and tuition and fees are assessed based on the program chosen. This method of reporting is particularly relevant to occupational and vocational programs. For example, a 1500 clock hour cosmetology program may cost $2,500 for the entire program. Or report by ACADEMIC YEAR, if charges are assessed by credit hour, quarter, semester, trimester, or term. NOTE — These charges must be converted to ACADEMIC YEAR charges.

If your institution uses both methods, that is, for some vocational/occupational programs, charges are assessed by the program, while for academic programs, tuition and fees are charged by semester or term, then report BOTH ways.

4. Number of programs — Provide the total number of programs that your institution offers.
5. Length of programs — Indicate whether your institution offers programs that are at least 300 contact hours or clock hours, or 6 semester or trimester hours, or 12 quarter hours.

6. Largest programs — Provide the title, Classification of Instructional Program (CIP) code, in-state tuition and required fees for the total program, the cost of books and supplies for the total program, and the length of the program in contact hours.

   • Enter the title of the program as designated by your institution.
   • Please note that English as a second language and GED courses are not to be included in IPEDS.
   • Refer to the enclosed NCES publication, the 1990 version of the Classification of Instructional Programs (CIP). Match your program title as closely as possible with a program listed in this publication. Enter the corresponding 6-digit code in the appropriate space.
   • Enter the total in-state tuition and required fees charged for the entire length of the program.
   • Enter the cost of books and supplies for the total program.
   • Report the full length of the program measured in contact or clock hours.

7. and 8. Typical tuition and required fees for undergraduate and graduate students — Enter in the spaces provided the dollar amount of tuition and required fees for an academic year most frequently charged to each of the types of full-time students indicated. Note — If tuition is charged on a per credit hour basis, multiply the charge per credit hour by the number of hours that would normally be required per academic year to complete a degree or program at the level indicated and add the typical required fees.

   Undergraduate students include: (1) those who have not obtained a bachelor's degree; (2) all students in bachelor's degree programs which require at least 4 years but fewer than 6 years of college work; and (3) all students in occupational or general study programs requiring 1, 2, or 3 years of college work and which are designed to prepare students for immediate employment, or to provide general education rather than as the first 1, 2, or 3 years of a bachelor's degree program.

   Graduate students are those who have attained at least one standard bachelor's degree or first-professional degree and are or could be candidates for Master's or Doctor's degrees. DO NOT include candidates for the degrees of D.P.M., D.D.S., D.M.D., M.D., O.D., D.O., D.V.M., L.L.B., J.D., B.D., or other first-professional degrees; see question 9.

   In 7c, enter the typical number of credit (or contact) hours taken by a full-time undergraduate student in a full academic year. Answer in credit hours or contact hours, but not both. Provide a single figure, not a range of hours. In 8c, enter the typical number of credit hours taken by a full-time graduate student in a full academic year.

9. Tuition and required fees for first-professional programs — Enter in the spaces provided the dollar amount of in-state and out-of-state tuition and required fees for an academic year charged to full-time students in each of the first-professional programs offered at this institution, or mark box 9a if you have no full-time first-professional students.

   In 9c, enter the typical number of credit hours taken by a full-time first-professional student in a full academic year. Provide a single figure, not a range of hours.

10. and 11. Typical room and board charges — Check the appropriate boxes in questions 10a and 10b to indicate if this institution provides room and board to students. Report the total dormitory capacity (number of students) for an academic year in 10a, if applicable. Report the number of meals per week covered by the board charge in 10b, if applicable. If there is not a fixed number of meals per week covered by the board charge, check the box provided for this purpose in 10b instead.

   Report the typical room charge (for an academic year) to a full-time student sharing a room with one other student in 11a, if applicable. Report the typical board charge (for an academic year) to a full-time student in 11b, if applicable. DO NOT report the total of 11a and 11b in 11c.

   If this institution assesses a combined charge for room and board, report these charges separately in 11a and 11b if possible. If the room and board charge CANNOT BE SEPARATED, report the combined charge in 11c.

PART E — ENROLLMENT

NOTE — Part E requests data for academic year 1996–97, unlike Parts A—D and Part F which request data for academic year 1997–98. Please read the definition of credit course in the glossary before completing question 1.

1. Enrollment — Report the total number of students enrolled for credit at your institution as of October 15, 1996, or on your institution’s official fall reporting date. This number will include students taking courses for credit as well as those enrolled in occupational and vocational programs.

PART F — ADDITIONAL INFORMATION

1. Eligibility for Title IV Programs — Indicate whether or not students attending your institution are eligible for funding through Title IV programs (e.g., Pell, Stafford, etc.). If you know your institution’s OPE (Office of Postsecondary Education) identification number, please enter it in the space provided.

2. Eligibility for Federal programs — Indicate for which of these Federal programs the institution is eligible. This list is not intended to be exhaustive.

3. Full-time staff — Indicate how many persons are employed full time at your institution according to the categories shown.

4. Instructional faculty — This item refers to ALL instructional faculty.

5. Enrollment in postsecondary programs — Indicate the percentage (%) of students enrolled in postsecondary programs.

The unit accredited may be as large as a college or school within a university or as small as a curriculum within a discipline. Most of the specialized accrediting agencies review units within a postsecondary institution which is accredited by one of the regional accrediting commissions. However, certain of the specialized accrediting agencies do accredit professional schools and other specialized or vocational or other postsecondary institutions which are free-standing in their operations. Thus, a "specialized" or "programmatic" accrediting agency may also function in the capacity of an "institutional" accrediting agency. In addition, a number of specialized accrediting agencies accredit educational programs within noneducational settings, such as hospitals.
