

Graduation Rates Supplemental

Screening Question

Does this institution have additional data to report on completers or transfers out of long programs for the 2001 cohort?

*If you answer **Yes** to this question, you will be required to finish the survey*

- No
- Yes

Total number of students in long programs from 2004-05

Number of students in long programs

Section III - Graduation Rate - Completers within 150%

Cohort of full-time, first-time degree/certificate-seeking students

Cohort year 2001

Cohort students who completed their program within
150% of normal time to completion

<u>Revised cohort</u>	Completers of programs of <2-yrs	Completers of programs of 2<4-yrs	<u>Total completers within 150%</u>
(10)	(11A)	(12A)	(29A)

Instructions for Graduation Rates - 2-year Supplemental Form

For best results, print using landscape orientation.

GRADUATION RATE SUPPLEMENT

General Instructions – Institutions With 3-Year (Or Longer) Programs

Period of Report

This report requests additional data on the 2001 cohort of full-time, first-time degree/certificate-seeking students who were reported on your Graduation Rate Survey report in 2004.

Screening Question

In order to make it easier for some institutions to report on the supplemental form, there is the following screening question:

Does this institution have additional data to report on completers or transfers out of long programs for the 2001 cohort?

If the institution answers "Yes", they will need to complete the rest of the survey. However, if they answer "No", they are not required to fill out anything else on this survey.

Preloaded Information

This report includes each of the Sections that you will need to update. Section III includes edited data from your 2004 GRS submission.

General Instructions

Since this report collects supplemental information for the 2001 cohort of students you included on your 2004 Graduation Rate survey (GRS) form, all instructions for reporting additional information remain the same.

Please report additional completers by race/ethnicity and gender in the columns provided, so that a graduation rate can be calculated based on 150% of normal time for your institution's longest program.

Worksheets

Worksheets recalculating the Student Right-To-Know completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the 2001 student cohort are provided as a convenience to the institution.

Privacy Issues with Disclosure

Before using the worksheets for disclosure, please consider the following:

The Family Educational Rights and Privacy Act of 1974 as amended (1998) (FERPA) requires that institutions not disclose information where students could be identified.

Section III – Full-Time, First-Time Degree/Certificate-Seeking Students, Completers within 150% of Normal Time

Report each student only once.

Report the status of the 2001 cohort of degree/certificate-seeking students **as of August 31, 2007**. Report all students by race/ethnicity and gender.

Report only for full-time, first-time students seeking degrees or certificates. DO NOT include students who transferred into your institution.

Count completers only once and indicate the highest degree level attained.

Completed 2<4-yr within 150% (12) - In order to calculate a graduation rate to comply with Student Right-to-Know regulations, institutions can count as completers only those students who received their degree/certificate (or completed a transfer-preparatory program) within 150% of normal program time. See Glossary for definition of normal time to completion. Do not count as completers students who get their degree from another institution.

Indicate the number of students who completed programs of at least 2 years but less than 4 years within 150% of normal time to completion of their program. Include completers of 3-year programs only if they completed within 4-1/2 years.

Section III – Full-Time, First-Time Degree/Certificate-Seeking Students, Transfers/Exclusions

Report each student only once.

Report the status of the 2001 cohort of degree-certificate/seeking students **as of August 31, 2007**. Report all students by race/ethnicity and gender.

Report only for full-time, first-time students seeking degrees or certificates. DO NOT include students who transferred into your institution.

Total transfer-out students (30) - Report the total number of students who transferred (without a degree/award) out of your institution, within 150% of normal time to completion. Include students who transferred out of your institution and subsequently re-enrolled.

Total exclusions (45) - Indicate the total number of students who left your institution (and have neither graduated nor transferred to another institution) because of one of the following documented reasons:

- a. The student is deceased or is totally and permanently disabled and thus unable to return to school.
- b. The student left school to serve in the armed forces or was called up to active duty. (DO NOT include students already in the military who transfer to another duty station.)
- c. The student left school to serve with a foreign aid service of the Federal Government, such as the Peace Corps.
- d. The student left school to serve on an official church mission.

NOTE: Students who leave the institution for one of the reasons noted in b, c, or d above, but return prior to the status date of August 31, 2007, may be subtracted from the cohort during the calculation of graduation rates.

Calculation of Graduation and Transfer-out Rates

Worksheets

A worksheet recalculating the Student Right-To-Know completion/graduation and transfer-out rates of full-time, first-time degree/certificate-seeking undergraduates for the 2001 student cohort and the 2001 athletic subcohorts are provided as a convenience to the institution.

Privacy Issues with Disclosure

Before using the worksheets for disclosure, please consider the following:

The Family Educational Rights and Privacy Act of 1974 as amended (1998) (FERPA) requires that institutions not disclose information where students could be identified.
