

Student Financial Aid Component

Undergraduate students are counted as of Fall 2007 for institutions reporting on a fall cohort, and for the 12-month period September 1, 2007 through August 31, 2008 for institutions reporting on a full-year cohort:

	Current Year	Prior Year
Total number of undergraduate students	<input type="text"/>	<input type="text"/>
Total grant aid dollars received by all undergraduate students, from the federal government, a state or local government, the institution, and other sources known by the institution	<input type="text"/>	<input type="text"/>
Total number of all students who received a Pell grant	<input type="text"/>	<input type="text"/>
Number of full-time, first-time degree/certificate-seeking undergraduates (number of students in the fall cohort)	<input type="text"/>	<input type="text"/>

You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.

Student Counts

Full-time, first-time degree/certificate-seeking undergraduate students, Fall 2007

Please provide student counts information as requested below. Enter and/or update the requested information; percentages will be calculated for you.

Your **fall cohort** consists of all full-time, first-time degree/certificate-seeking undergraduate students enrolled at your institution as of October 15, 2007 (or your institution's official fall reporting date). This number may be provided for you if you responded to the 2007 IPEDS Fall Enrollment survey.

Current Year

Prior Year

Total number of undergraduate students

Number of full-time, first-time degree/certificate-seeking undergraduates (number of students in the fall cohort)

Of these -

How many are from in-district

How many are from in-state

How many are from out-of-state

Balance (calculated value)

Percentage from in-district

Percentage from in-state

Percentage from out-of-state

Percentage unknown

Percentage of undergraduates in the fall cohort

Number of students in the fall cohort who received any **financial aid** during the full academic year

Percentage of students in the fall cohort who received any financial aid during the full academic year

You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.

Student financial aid to your Fall 2007 cohort

Student financial aid provided to your Fall 2007 cohort of full-time, first-time degree/certificate-seeking undergraduate students

Fall 2007 cohort information from the Student Counts page:

Total undergraduates in the fall cohort

Number in cohort who received any **financial aid**

Report the number of students in the cohort who received each of the types of aid listed below at any time during the full academic year 2007-08. The percentages will be calculated for you.

For each type of aid, calculate the average amount of aid received by these students for the entire academic year.

Types of aid	Number of students receiving aid	Percentage of cohort receiving aid	Average amount of aid they received	PY Average amount
Any grant	<input type="text"/>		<input type="text"/>	
Federal grants	<input type="text"/>		<input type="text"/>	
Pell grants	<input type="text"/>		<input type="text"/>	
Other Federal grants	<input type="text"/>		<input type="text"/>	
State/local government grants (grants/scholarships/waivers)	<input type="text"/>		<input type="text"/>	
Institutional grants (scholarships/fellowships)	<input type="text"/>		<input type="text"/>	
Loans to students	<input type="text"/>		<input type="text"/>	
Federal loans	<input type="text"/>		<input type="text"/>	
Other loans	<input type="text"/>		<input type="text"/>	

You may use the space below to provide context for the data you've reported above. These context notes will be posted on the College Navigator website.

General Information and Instructions

Throughout these instructions the word “received” refers to aid that was awarded to, and accepted by, a student. This amount may differ from the aid that is disbursed to a student. For example, a student may accept aid that was awarded by the institution but then leave the institution prior to the aid being disbursed.

Student Counts - Academic Year Reporters

Please provide the Student Counts information as requested. Academic year reporters (those operating on **standard academic terms** and tracking a **fall cohort** for reporting graduation rates) should provide data from their Fall 2007 enrollment report and financial aid information based on the full 2007-08 academic year.

Total number of undergraduate students: Institutions reporting on a **fall cohort** should report the total number of undergraduate students enrolled at your institution as of October 15, 2007 (full-time plus part-time; degree/certificate-seeking plus all others).

Total grant aid dollars received by all undergraduate students, from the federal government, a state or local government, the institution, and other sources known by the institution: Report the total amount of grant aid received. DO NOT include any Federal Work Study amounts.

Total number of all students who received a Pell grant: Institutions reporting on a **fall cohort** should report the total number of students enrolled as of October 15, 2007 (or the institution’s official fall reporting date) who received a Pell grant.

Number of full-time first-time degree/certificate-seeking undergraduate students (number of students in the fall cohort): Report the number of full-time, first-time degree/certificate-seeking undergraduate students included in the cohort you defined for Student Right-to-Know purposes. Your **fall cohort** consists of all full-time first-time degree/certificate-seeking undergraduate students enrolled at your institution as of October 15, 2007 (or your institution’s official fall reporting date). This number may be provided for you if you

responded to the 2007 IPEDS Fall Enrollment survey. The intent of this item is to count entering students who may have been eligible for student financial aid based on their full-time enrollment. Be sure to refer to the definition of **first-time** when completing this item.

Public institutions are asked to further define the cohort by the number of students from in-district, those who are from in-state (but are not reported as in-district), and those from out-of-state. The intent is to estimate the number of students (for example) who are paying in-state tuition vs. out-of-state tuition.

Percentage of undergraduates in the fall cohort: This number will be calculated for you.

Number of students in the fall cohort who received any financial aid during the full academic year: Report the total number of students in your cohort who received any form of financial aid at anytime during the full academic year, including scholarships, grants, loans, and Federal Work Study.

Percentage of students in the fall cohort who received any financial aid during the full academic year: This number will be calculated for you.

Student Counts - Program Reporters

Student Counts: Please provide the Student Counts information as requested. Program reporters (those that do NOT operate on standard academic terms) should report on a **full-year** cohort (**unduplicated** counts) of students enrolled during the 12-month period September 1, 2007 through August 31, 2008. Financial aid information should also be based on the same period of time.

Total unduplicated count of all students enrolled: Report the total number of students enrolled at your institution at any time during the 12-month period September 1, 2007 through August 31, 2008 (full-time plus part-time; degree/certificate-seeking plus all others).

Unduplicated count of full-time, first-time degree/certificate-seeking students (students in the full-year cohort): Report the number of full-time, first-time degree/certificate-seeking students included in the cohort you defined for Student Right-to-Know purposes. For your **full-year cohort**, report the unduplicated count of all full-time, first-time degree/certificate-seeking students

enrolled at your institution during the period September 1, 2007 through August 31, 2008. The intent of this item is to count entering students who may have been eligible for student financial aid based on their full-time enrollment. Be sure to refer to the definition of **first-time** when completing this item.

Percentage of all students in the full-year cohort: This number will be calculated for you.

Number of students in the full-year cohort who received any financial aid during the full 12-month period: Report the total number of students in your cohort who received any form of financial aid at anytime during the full 12-month period, including scholarships, grants, loans, and Federal Work Study.

Percentage of students in the full-year cohort who received any financial aid during the full 12-month period: This number will be calculated for you.

Public institutions are asked to further define the cohort by the number of students from in-district, those who are from in-state (but are not reported as in-district), and those from out-of-state. The intent is to estimate the number of students (for example) who are paying in-state tuition vs. out-of-state tuition.

Percentage of undergraduates in the fall cohort: This number will be calculated for you.

Number of students in the fall cohort who received any financial aid during the full academic year: Report the total number of students in your cohort who received any form of financial aid at anytime during the full academic year, including scholarships, grants, loans, and Federal Work Study.

Percentage of students in the fall cohort who received any financial aid during the full academic year: This number will be calculated for you.

Student Financial Aid Data

This screen is used to report student financial aid to full-time, first-time (undergraduate-level) students, which is your Student Right-to-Know/Graduation Rate cohort, at any time during the full academic year or during the 12-month period for which you are reporting.

The number of students in your cohort and the number receiving aid (from the **Student Counts** page) are shown again for your convenience.

Report, in the first column, the number of students in your cohort that received each of the types of financial aid listed. These numbers **cannot** exceed the number of students (from the Student Counts page) that received any type of aid. The percentage of your cohort that received aid will be calculated for you.

To calculate the average amount of aid these students received consider **ONLY** those funds that pass through your financial aid office. Although students that receive Federal Work Study are included in counts of students receiving aid, **DO NOT** include any Federal Work Study amounts in any of these aid categories.

Sum the total amount of aid (by type) awarded to students in your cohort during the entire academic year (for institutions reporting on a **fall cohort**) or during the entire 12-month period (for institutions reporting on a **full-year cohort**) and divide by the number of students who received each type of aid (from column 1).

Note that a student may appear as a count in more than one aid type (e.g., Federal loans and Other loans). However, when rolled up to the category level student counts should be unduplicated (e.g., a student reported for both Federals loan and Other loans should only be reported as one student when reporting Loans to Students).

Federal grants (grants/educational assistance funds): Include grants that were provided by federal agencies such as the U.S. Department of Education, including Title IV Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOGs), and Academic Competitiveness Grants (ACGs). Also include need-based and merit-based educational assistance funds and training vouchers provided from other federal agencies and/or federally-sponsored educational benefits programs, including the Veteran's Administration, Department of Labor, etc.

- **Pell grants:** Include only Federal Pell grants in this category.
- **Other Federal grants:** Include all other Federal grants **except** Pell grants in this category.

State/local grants (grants/scholarships/waivers): Include grants that

were provided by your state such as Leveraging Educational Assistance Partnerships (LEAPs) (formerly SSIGs). Also include merit scholarships that were provided by your state and tuition and fee waivers for which your institution was reimbursed by a state agency. Local grants would include any local government grants, scholarships or gift-aid awarded directly to the student.

Institutional grants (scholarships/fellowships): Include scholarships and fellowships that were granted and funded by your institution and/or individual departments within your institution (and are limited to students attending your institution). Also include tuition and fee waivers granted by your institution (for which your institution is not reimbursed from another source). These would include scholarships targeted to certain groups of individuals (from a particular state or studying a certain subject) for which the institution designates the recipient; athletic scholarships; etc.

Loans to students: Include all Title IV subsidized and unsubsidized loans made directly to students and for which the student is the designated borrower. Include Perkins loans made to students. Exclude PLUS and other loans made directly to parents and for which the parent is the designated borrower. Also include all institutionally- and privately-sponsored loans made to students, for which the student is the designated borrower (as long as the funds pass through the financial aid office).

- **Federal loans:** Include **only** Federal loans in this category.
- **Other loans:** Include all non-Federal loans as described above in this category.

Note: The types of aid listed above are not meant to account for all aid to students. You may use the context box provided to describe other forms of aid not covered.

Context: Context fields are available on both the Student Counts page and the Financial Aid page to allow the institution to provide additional information. Since these data will be made available on the College Navigator web site and will provide much needed consumer information, institutions are urged to provide text describing special conditions and other information needed to fully understand the meaning of the reported values. For example, a 2-year institution may report that 90 percent of all its students are less than half time and therefore are not eligible for student financial aid.
