

Overall Results

- In 2009, the average score of eighth-grade students in Jefferson County was 259. This was higher than the average score of 252 for public school students in large cities.
- The percentage of students in Jefferson County who performed at or above the NAEP *Proficient* level was 26 percent in 2009. This percentage was greater than that in large cities (21 percent).
- The percentage of students in Jefferson County who performed at or above the NAEP *Basic* level was 68 percent in 2009. This percentage was greater than that in large cities (63 percent).

Achievement-Level Percentages and Average Score Results

NOTE: Detail may not sum to totals because of rounding. Large cities are located in the urbanized areas of cities with populations of 250,000 or more.

Scores at Selected Percentiles

NOTE: Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels performed.

Average Scores for District and Large Cities

* Significantly different ($p < .05$) from Jefferson County (KY).

Results for Student Groups in 2009

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
Gender					
Male	50	256	65	25	2
Female	50	261	72	27	2
Race/Ethnicity					
White	56	267	77	34	3
Black	36	245	54	13	#
Hispanic	4	‡	‡	‡	‡
Asian/Pacific Islander	2	‡	‡	‡	‡
American Indian/Alaska Native	#	‡	‡	‡	‡
National School Lunch Program					
Eligible	54	248	58	15	1
Not eligible	46	271	81	39	4

Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

Score Gaps for Student Groups

- In 2009, female students in Jefferson County had an average score that was higher than that of male students.
- In 2009, Black students had an average score that was 22 points lower than that of White students. This performance gap was narrower than that in large cities (29 points).
- Data are not reported for Hispanic students in Jefferson County, because reporting standards were not met.
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low income, had an average score that was 23 points lower than that of students who were not eligible for free/reduced-price school lunch. This performance gap was not significantly different from that in large cities (24 points).

NOTE: Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
