

The writing assessment of the National Assessment of Educational Progress (NAEP) measures narrative, informative, and persuasive writing—three purposes identified in the NAEP framework. The NAEP writing scale ranges from 0 to 300.

### Overall Writing Results for Maryland

- The average scale score for fourth-grade students in Maryland was 157.
- Maryland's average score (157) was higher<sup>1</sup> than that of the nation's public schools (153).
- Students' average scale scores in Maryland were higher than those in 26 jurisdictions<sup>2</sup>, not significantly different from those in 17 jurisdictions, and lower than those in 4 jurisdictions.
- The percentage of students who performed at or above the NAEP *Proficient* level was 30 percent. The percentage of students who performed at or above the *Basic* level was 88 percent.

### Student Percentage at Each Achievement Level

### Performance of NAEP Reporting Groups in Maryland

Reporting groups	Percentage of students	Average Score	Percentage of students at			
			Below <i>Basic</i>	<i>Basic</i>	<i>Proficient</i>	<i>Advanced</i>
Male	48	148 ↑	17	62	20	1
Female	52	165	8	54	35	4
White	52	165 ↑	8	53	35 ↑	4
Black	37	144 ↑	19	64	17	#
Hispanic	5	149	15	65	20	#
Asian/Pacific Islander	4	170	6	50	38	6
American Indian/Alaska Native	1	---	---	---	---	---
Free/reduced-priced school lunch						
Eligible	39	145	19	63	17	1
Not eligible	58	164	8	54	34	3
Information not available	3	165	8	54	38	1

### Average Score Gaps Between Selected Groups

- Female students in Maryland had an average score that was higher than that of male students (17 points). This performance gap was not significantly different from that of the Nation (18 points).
- White students had an average score that was higher than that of Black students (21 points). This performance gap was not significantly different from that of the Nation (20 points).
- White students had an average score that was higher than that of Hispanic students (17 points). This performance gap was not significantly different from that of the Nation (19 points).
- Students who were not eligible for free/reduced-price school lunch had an average score that was higher than that of students who were eligible (19 points). This performance gap was not significantly different from that of the Nation (22 points).

### Writing Scale Scores at Selected Percentiles

	Scale Score Distribution		
	25 <sup>th</sup>	50 <sup>th</sup>	75 <sup>th</sup>
	Percentile	Percentile	Percentile
<b>Maryland</b>	132 ↑	157 ↑	181
<b>Nation (Public)</b>	128	153	178

An examination of scores at different percentiles on the 0-300 NAEP writing scale at each grade indicates how well students at lower, middle, and higher levels of the distribution performed. For example, the data above shows that 75 percent of students in public schools nationally scored below 178, while 75 percent of students in Maryland scored below 181.

# Percentage rounds to zero.

--- Reporting standards not met; sample size insufficient to permit a reliable estimate.

\* Significantly different from Maryland.

↑ Significantly higher than, ↓ lower than appropriate subgroup in the nation (public).

<sup>1</sup> Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance.

<sup>2</sup> "Jurisdictions" includes participating states and other jurisdictions (such as Guam or the District of Columbia).

NOTE: Detail may not sum to totals because of rounding. Score gaps are calculated based on differences between unrounded average scale scores.
