

The writing assessment of the National Assessment of Educational Progress (NAEP) measures narrative, informative, and persuasive writing—three purposes identified in the NAEP framework. The NAEP writing scale ranges from 0 to 300.

Overall Writing Results for Oregon

- The average scale score for eighth-grade students in Oregon was 155. This was higher¹ than the average score (149) in 1998.
- Oregon's average score (155) was not found to be significantly different from that of the nation's public schools (152).
- Students' average scale scores in Oregon were higher than those in 21 jurisdictions², not significantly different from those in 20 jurisdictions, and lower than those in 5 jurisdictions.
- The percentage of students who performed at or above the NAEP *Proficient* level was 33 percent. This percentage was greater than 1998 (27).

Student Percentage at Each Achievement Level

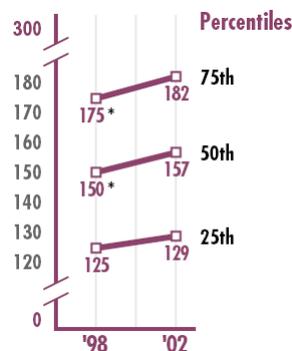

Performance of NAEP Reporting Groups in Oregon

Reporting groups	Percentage of students	Average Score	Percentage of students at			
			Below <i>Basic</i>	<i>Basic</i>	<i>Proficient</i>	<i>Advanced</i>
Male	53	144	22	56	22 ↑	1
Female	47	167	8	47	40	4
White	82	157 ↑	13	51	32	3
Black	2	---	---	---	---	---
Hispanic	8	133	32	51	17	1
Asian/Pacific Islander	5	162	10	48	37	4
American Indian/Alaska Native	2	---	---	---	---	---
Free/reduced-priced school lunch						
Eligible	26	135	29	55	16	1
Not eligible	63	162	11	50	36	3
Information not available	11	160	10	54	34	2

Average Score Gaps Between Selected Groups

- Female students in Oregon had an average score that was higher than that of male students (23 points). This performance gap was not significantly different from that of 1998 (23 points).
- The sample size was not sufficient to permit a reliable estimate for Black students in Oregon.
- White students had an average score that was higher than that of Hispanic students (24 points). This performance gap was not significantly different from that of 1998 (17 points).
- Students who were not eligible for free/reduced-price school lunch had an average score that was higher than that of students who were eligible (27 points). This performance gap was not significantly different from that of 1998 (23 points).

Writing Scale Scores at Selected Percentiles

Percentage rounds to zero.

--- Reporting standards not met; sample size insufficient to permit a reliable estimate.

* Significantly different from 2002.

↑ Statistically significantly higher than 1998.

↓ Statistically significantly lower than 1998.

¹ Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance.

² "Jurisdictions" includes participating states and other jurisdictions (such as Guam or the District of Columbia).

NOTE: Detail may not sum to totals because of rounding. Score gaps are calculated based on differences between unrounded average scale scores. Performance changes across years should be interpreted in the context of changes in rates of exclusion of special-needs students, which occurred in some states. See *The Nation's Report Card: Writing 2002* for additional information.
