

The National Assessment of Educational Progress (NAEP) assesses reading in two content areas: reading for literary experience and to gain information. The NAEP reading scale ranges from 0 to 500.

Overall Reading Results for Arizona

- In 2005, the average scale score for fourth-grade students in Arizona was 207. This was not significantly different from¹ their average score in 2003 (209), and was not significantly different from their average score in 1992 (209).
- Arizona's average score (207) in 2005 was lower than that of the Nation's public schools (217).
- Of the 52 states and other jurisdictions² that participated in the 2005 fourth-grade assessment, students' average scale scores in Arizona were higher than those in 1 jurisdiction, not significantly different from those in 8 jurisdictions, and lower than those in 42 jurisdictions.
- The percentage of students in Arizona who performed at or above the NAEP *Proficient* level was 24 percent in 2005. This percentage was not significantly different from that in 2003 (23 percent), and was not significantly different from that in 1992 (21 percent).
- The percentage of students in Arizona who performed at or above the NAEP *Basic* level was 52 percent in 2005. This percentage was not significantly different from that in 2003 (54 percent), and was not significantly different from that in 1992 (54 percent).

Student Percentage at NAEP Achievement Levels

¹ Accommodations were not permitted for this assessment.

NOTE: The NAEP reading achievement levels correspond to the following scale points: *Below Basic*, 207 or lower; *Basic*, 208–237; *Proficient*, 238–267; *Advanced*, 268 or above.

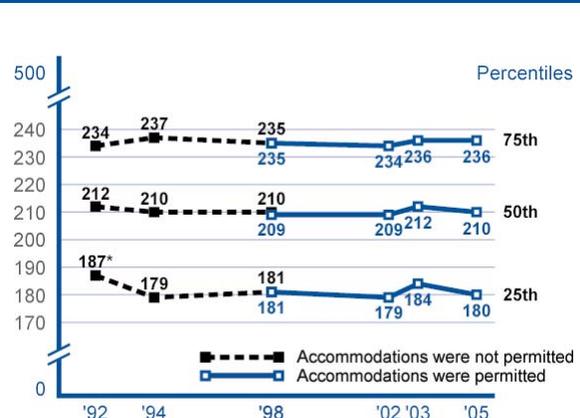

Performance of NAEP Reporting Groups in Arizona

Reporting groups	Percent of students	Average score	Percent below <i>Basic</i>	Percent of students at or above <i>Basic</i>	Percent of students at or above <i>Proficient</i>	Percent <i>Advanced</i>
Male	51	203	51	49	21	5
Female	49	211	44	56	26	7
White	46	224	30	70	37	10
Black	5	193	67	33	12	3
Hispanic	40	192	63	37	11	2
Asian/Pacific Islander	2	224	30	70	36	11
American Indian/Alaska Native	6	‡	‡	‡	‡	‡
Eligible for free/reduced-price school lunch	48	192	63	37	12	2
Not eligible for free/reduced-price school lunch	39	223	31	69	36	9

Average Score Gaps Between Selected Groups

- In 2005, male students in Arizona had an average score that was lower than that of female students by 8 points. In 1992, the average score for male students was lower than that of female students by 8 points.
- In 2005, Black students had an average score that was lower than that of White students by 31 points. In 1992, the average score for Black students was lower than that of White students by 22 points.
- In 2005, Hispanic students had an average score that was lower than that of White students by 31 points. This performance gap was wider than that of 1992 (23 points).
- In 2005, students who were eligible for free/reduced-price school lunch, an indicator of poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 31 points. In 1998, the average score for students who were eligible for free/reduced-price school lunch was lower than the score of those not eligible by 32 points.
- In 2005, the score gap between students at the 75th percentile and students at the 25th percentile was 56 points. This performance gap was wider than that of 1992 (47 points).

Reading Scale Scores at Selected Percentiles

Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels of the distribution performed.

The estimate rounds to zero.

‡ Reporting standards not met.

* Significantly different from 2005.

↑ Significantly higher than 2003. ↓ Significantly lower than 2003.

¹ Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Performance comparisons may be affected by differences in exclusion rates across years for students with disabilities (5% nationally in 2005) and English language learners (2% nationally in 2005) in the NAEP samples. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.

² "Other Jurisdictions" refers to the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for free/reduced-price lunch and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/states/> for additional results and detailed information.
