

The National Assessment of Educational Progress (NAEP) assesses reading in three content areas: reading for literary experience, to gain information, and to perform a task. The NAEP reading scale ranges from 0 to 500.

**Overall Reading Results for Florida**

- In 2005, the average scale score for eighth-grade students in Florida was 256. This was not significantly different from<sup>1</sup> their average score in 2003 (257), and was not significantly different from their average score in 1998 (255).
- Florida's average score (256) in 2005 was lower than that of the Nation's public schools (260).
- Of the 52 states and other jurisdictions<sup>2</sup> that participated in the 2005 eighth-grade assessment, students' average scale scores in Florida were higher than those in 5 jurisdictions, not significantly different from those in 11 jurisdictions, and lower than those in 35 jurisdictions.
- The percentage of students in Florida who performed at or above the NAEP *Proficient* level was 25 percent in 2005. This percentage was not significantly different from that in 2003 (27 percent), and was not significantly different from that in 1998 (23 percent).
- The percentage of students in Florida who performed at or above the NAEP *Basic* level was 66 percent in 2005. This percentage was not significantly different from that in 2003 (68 percent), and was not significantly different from that in 1998 (67 percent).

**Student Percentage at NAEP Achievement Levels**

<sup>1</sup> Accommodations were not permitted for this assessment.

NOTE: The NAEP reading achievement levels correspond to the following scale points: Below Basic, 242 or lower; Basic, 243–280; Proficient, 281–322; Advanced, 323 or above.

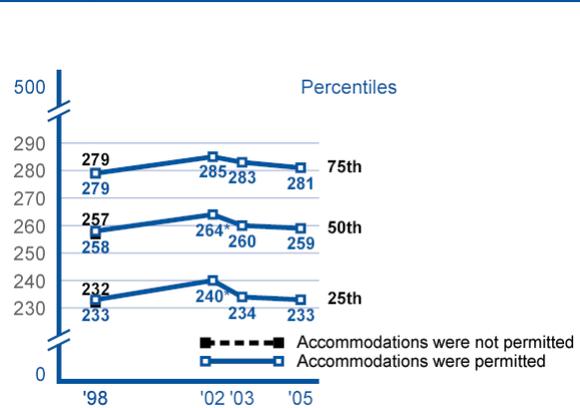

**Performance of NAEP Reporting Groups in Florida**

Reporting groups	Percent of students	Average score	Percent below Basic	Percent of students at or above Basic	Percent Proficient	Percent Advanced
Male	49	249	41	59	20	2
Female	51	262	27	73	30	2
White	51	265	25	75	33	3
Black	23	238	53	47	11	1
Hispanic	21	252	38	62	21	1
Asian/Pacific Islander	2	273	18	82	47	6
American Indian/Alaska Native	#	‡	‡	‡	‡	‡
Eligible for free/reduced-price school lunch	44	246	44	56	17	1
Not eligible for free/reduced-price school lunch	56	264	26	74	32	3

**Average Score Gaps Between Selected Groups**

- In 2005, male students in Florida had an average score that was lower than that of female students by 13 points. In 1998, the average score for male students was lower than that of female students by 13 points.
- In 2005, Black students had an average score that was lower than that of White students by 26 points. In 1998, the average score for Black students was lower than that of White students by 28 points.
- In 2005, Hispanic students had an average score that was lower than that of White students by 13 points. In 1998, the average score for Hispanic students was lower than that of White students by 17 points.
- In 2005, students who were eligible for free/reduced-price school lunch, an indicator of poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 18 points. In 1998, the average score for students who were eligible for free/reduced-price school lunch was lower than the score of those not eligible by 24 points.
- In 2005, the score gap between students at the 75th percentile and students at the 25th percentile was 48 points. In 1998, the score gap between students at the 75th percentile and students at the 25th percentile was 46 points.

**Reading Scale Scores at Selected Percentiles**

Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels of the distribution performed.

# The estimate rounds to zero.

‡ Reporting standards not met.

\* Significantly different from 2005.

† Significantly higher than 2003. ‡ Significantly lower than 2003.

<sup>1</sup> Comparisons (higher/lower/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Performance comparisons may be affected by differences in exclusion rates across years for students with disabilities (4% nationally in 2005) and English language learners (1% nationally in 2005) in the NAEP samples. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.

<sup>2</sup> "Other Jurisdictions" refers to the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for free/reduced-price lunch and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/states/> for additional results and detailed information.
