

The National Assessment of Educational Progress (NAEP) assesses reading in three content areas in grade 8: reading for literary experience, to gain information, and to perform a task. The NAEP reading scale ranges from 0 to 500.

Overall Reading Results for Delaware

- In 2007, the average scale score for eighth-grade students in Delaware was 265. This was not significantly different from their average score in 2005 (266) and was higher than their average score in 1998 (254).¹
- Delaware's average score (265) in 2007 was higher than that of the nation's public schools (261).
- Of the 52 states and other jurisdictions that participated in the 2007 eighth-grade assessment, students' average scale score in Delaware was higher than those in 22 jurisdictions, not significantly different from those in 14 jurisdictions, and lower than those in 15 jurisdictions.²
- The percentage of students in Delaware who performed at or above the NAEP *Proficient* level was 31 percent in 2007. This percentage was not significantly different from that in 2005 (30 percent) and was greater than that in 1998 (23 percent).
- The percentage of students in Delaware who performed at or above the NAEP *Basic* level was 77 percent in 2007. This percentage was smaller than that in 2005 (80 percent) and was greater than that in 1998 (64 percent).

Percentages at NAEP Achievement Levels and Average Score

^a Accommodations were not permitted for this assessment.

NOTE: The NAEP grade 8 reading achievement levels correspond to the following scale points: *Below Basic*, 242 or lower; *Basic*, 243–280; *Proficient*, 281–322; *Advanced*, 323 or above.

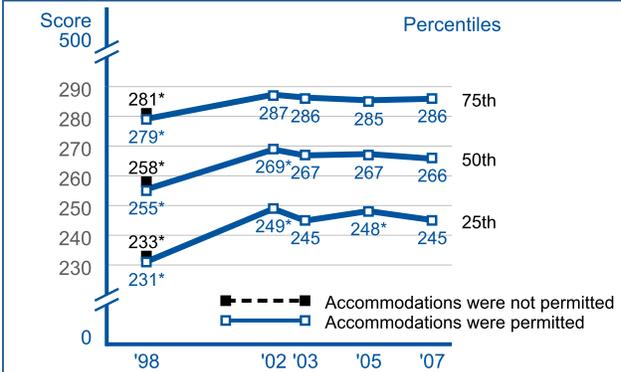

Performance of NAEP Reporting Groups in Delaware: 2007

Reporting groups	Percent of students	Average score	Percent below Basic	Percent of students at or above		Percent Advanced
				Basic	Proficient	
Male	50	260	27	73	26	1
Female	50	269	18	82	35	3
White	55 ↓	274	13	87	41	3
Black	34	250	37	63	14	1
Hispanic	8	257	31	69	21	2
Asian/Pacific Islander	3	277	14	86	47	5
American Indian/Alaska Native	#	‡	‡	‡	‡	‡
Eligible for National School Lunch Program	33 ↑	254	34	66	18	1
Not eligible for National School Lunch Program	67	270	17	83	37	3

Average Score Gaps Between Selected Groups

- In 2007, male students in Delaware had an average score that was lower than that of female students by 9 points. In 1998, the average score for male students was lower than that of female students by 12 points.
- In 2007, Black students had an average score that was lower than that of White students by 23 points. In 1998, the average score for Black students was lower than that of White students by 28 points.
- In 2007, Hispanic students had an average score that was lower than that of White students by 17 points. In 1998, there was no significant difference between the average score of Hispanic and White students.
- In 2007, students who were eligible for free/reduced-price school lunch, a proxy for poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 16 points. In 1998, the average score for students who were eligible for free/reduced-price school lunch was lower than the score of those not eligible by 24 points.
- In 2007, the score gap between students at the 75th percentile and students at the 25th percentile was 41 points. This performance gap was narrower than that of 1998 (48 points).

Reading Scores at Selected Percentiles

NOTE: Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels performed.

Rounds to zero.

‡ Reporting standards not met.

* Significantly different from 2007.

↑ Significantly higher than 2005. ↓ Significantly lower than 2005.

¹ Comparisons (higher/lower/narrower/wider/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages. Comparisons across jurisdictions and comparisons with the nation or within a jurisdiction across years may be affected by differences in exclusion rates for students with disabilities (SD) and English language learners (ELL). The exclusion rates for SD and ELL in Delaware were 6 percent and 2 percent in 2007, respectively. For more information on NAEP significance testing see <http://nces.ed.gov/nationsreportcard/reading/interpret-results.asp#statistical>.

² "Jurisdictions" refers to states and the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for the National School Lunch Program, which provides free and reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/states/> for additional results and detailed information.
