

### 2009 Science Assessment Content

Guided by a new framework, the NAEP science assessment was updated in 2009 to keep the content current with key developments in science, curriculum standards, assessments, and research. The 2009 framework organizes science content into three broad content areas.

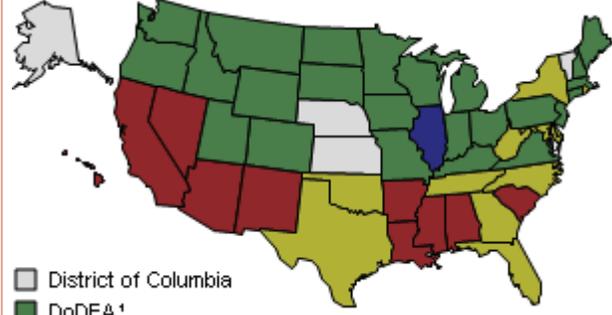

**Physical science** includes concepts related to properties and changes of matter, forms of energy, energy transfer and conservation, position and motion of objects, and forces affecting motion.

**Life science** includes concepts related to organization and development, matter and energy transformations, interdependence, heredity and reproduction, and evolution and diversity.

**Earth and space sciences** includes concepts related to objects in the universe, the history of the Earth, properties of Earth materials, tectonics, energy in Earth systems, climate and weather, and biogeochemical cycles.

The 2009 science assessment was composed of 143 questions at grade 4, 162 at grade 8, and 179 at grade 12. Students responded to only a portion of the questions, which included both multiple-choice questions and questions that required a written response.

### Compare the Average Score in 2009 to Other States/Jurisdictions

<sup>1</sup> Department of Defense Education Activity (overseas and domestic schools).

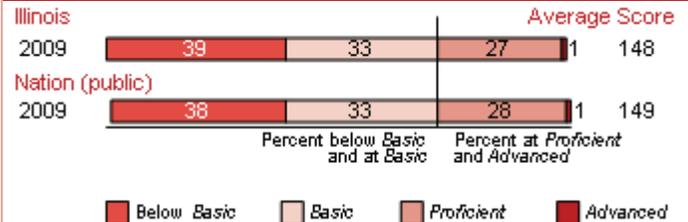

In 2009, the average score in **Illinois** was

- lower than those in 25 states/jurisdictions
- higher than those in 10 states/jurisdictions
- not significantly different from those in 11 states/jurisdictions
- 5 states/jurisdictions did not participate

### Overall Results

- In 2009, the average score of eighth-grade students in Illinois was 148. This was not significantly different from the average score of 149 for public school students in the nation.
- The percentage of students in Illinois who performed at or above the NAEP *Proficient* level was 27 percent in 2009. This percentage was not significantly different from the nation (28 percent).
- The percentage of students in Illinois who performed at or above the NAEP *Basic* level was 61 percent in 2009. This percentage was not significantly different from the nation (62 percent).

### Achievement-Level Percentages and Average Score Results

NOTE: Detail may not sum to totals because of rounding.

### Results for Student Groups in 2009

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
<b>Gender</b>					
Male	51	150	64	32	2
Female	49	146	58	25	1
<b>Race/Ethnicity</b>					
White	58	162	79	41	2
Black	19	118	23	4	#
Hispanic	18	131	40	10	#
Asian/Pacific Islander	4	167	80	48	5
American Indian/Alaska Native	#	‡	‡	‡	‡
<b>National School Lunch Program</b>					
Eligible	39	127	35	9	#
Not eligible	61	161	78	41	2

# Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed.

### Score Gaps for Student Groups

- In 2009, male students in Illinois had an average score that was higher than female students.
- In 2009, Black students had an average score that was 44 points lower than White students. This performance gap was wider than the nation (36 points).
- In 2009, Hispanic students had an average score that was 30 points lower than White students. This performance gap was not significantly different from the nation (30 points).
- In 2009, students who were eligible for free/reduced-price school lunch, an indicator of low family income, had an average score that was 34 points lower than students who were not eligible for free/reduced-price school lunch. This performance gap was wider than the nation (28 points).

NOTE: Statistical comparisons are calculated on the basis of unrounded scale scores or percentages.
