

A Profile of State Assessment Programs 2009

Since 2003, the National Center for Education Statistics (NCES) has supported research that compares the proficiency standards of the National Assessment of Educational Progress (NAEP) with those of individual states. State assessments are placed onto a common scale defined by NAEP, which allows states' proficiency standards to be compared not only to NAEP, but also to each other.¹ While the mapped NAEP equivalent scores of state standards are useful in determining the relative rigor of states' proficiency standards, the results of the studies should be interpreted with caution. Variations among states can be due to many factors, including differences in assessment frameworks, test specifications, the psychometric properties of the tests, the definition of Adequate Yearly Progress (AYP) standards, and the standard-setting process.

In 2007, in collaboration with the Education Information Management Advisory Consortium (EIMAC)—Task Force on Assessment of the Council of Chief State School Officers—NCES conducted a survey of state assessment programs to gain contextual information about the states' assessment programs in 2006–07 and to note changes in their assessments between the 2004–05 and 2006–07 school years that could affect the interpretation of the mapping results. The NAEP State Coordinator in every state was asked to provide information about the state's testing program through an online survey. After this information was verified and confirmed by the NAEP State Coordinator of each state, it was summarized in individual state profiles.² These profiles were designed in collaboration with a panel of NAEP State Coordinators.

In support of the 2009 Mapping Study, NAEP State Coordinators were asked by NCES to update the information collected on their state assessment program in 2007. Following similar verification steps, the information was summarized into profiles to provide a concise snapshot of all state assessment programs in the 2008–09 school year. Each profile presents information on the grades and subjects tested during the 2008–09 year, state performance levels and performance level descriptors, the composition of main state assessments, and changes to the state assessments between 2006–07 and 2008–09.

A sample profile is shown below. Information on the state assessment programs is presented in nine blocks. The first block combines all subjects. The remaining blocks (2–9) are presented twice, once for Reading/Language Arts and then for Mathematics. The example that follows is for Reading/Language Arts only. Some answers may have been edited for consistency or for space limitations; however, the substance of all answers is unchanged from what states provided to the NAEP State Coordinators. All web addresses in these profiles were verified on May 15, 2011. In any block, the symbol “—” indicates that a state's information was either not provided (for example, if there is no information on performance level descriptors of an alternate assessment for meeting AYP) or not applicable (for example, if the information relates to the proportion of the test score from short constructed response items, but the test does not use short constructed response items).

¹ Documents that discuss the research on NAEP and state proficiency standards are available at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/>.

² The 2007 State Profiles are available at: http://nces.ed.gov/nationsreportcard/studies/statemapping/profile_standards_2007.asp.

Block 1 summarizes information about each state’s testing program: the name of the program, the different tests, the type and format of each test, the grades and subjects tested, and the tests’ purpose. States were asked to enter up to four tests in Mathematics, English Language Arts, Reading, and Science. Response options for test type were: regular, alternate, modified, and portfolio assessments.³ Response options for test format were: criterion-referenced (CRT), norm-referenced (NRT), combination CRT/NRT, and other formats. Response options for test purpose were: instructional, student accountability, school accountability, staff accountability, and other. Additional information provided by NAEP State Coordinators summarizing their states’ tests and test purposes is included at the end of the block. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block1.asp>.

Block 1		Example State																		
		State Assessment and Accountability Program (SAAP)																		
Component		Test		Grades Tested												Test Purpose ¹				
		Type	Format	K	1	2	3	4	5	6	7	8	9	10	11	12	Instructional	Student Accountability	School Accountability	Staff Accountability
Language Arts																				
Comprehensive Assessments of State Students (CASS)		Regular	CRT		√	√	√	√	√	√	√	√	√				√		√	
CASS - Alternate (CASS-Alt)		Alternate	CRT	√			√	√	√	√	√	√	√				√		√	
Mathematics																				
CASS		Regular	CRT		√	√	√	√	√	√	√	√	√				√		√	
CASS-Alt		Alternate	CRT	√			√	√	√	√	√	√	√				√		√	
Science																				
CASS		Regular	CRT							√		√				√	√		√	
CASS-Alt		Alternate	CRT						√		√				√	√		√		

¹ Example purposes: Instructional: student diagnosis, student placement, instructional planning, program evaluation, improvement of instruction for groups of students, etc.
 Student Accountability: student awards/recognition, honors diploma, student promotion/retention, required remediation, exit requirement, etc.
 School Accountability: monetary awards/penalties, school accreditation, school performance reporting, high school skills guarantee, school improvement plans, etc.
 Staff Accountability: staff awards/recognition, salary increases, staff dismissal, staff evaluation or certification, staff monetary penalties, etc.

³ For reference, definitions of different types of assessments are available at the National Center on Educational Outcomes (NCEO) website, at: <http://www.cehd.umn.edu/NCEO/TopicAreas/AlternateAssessments/altAssessTopic.htm>.

Block 2 summarizes information about the composition of the main state assessments in 2008–09 for grades 4 and 8 in Reading/Language Arts and Mathematics. It shows the number of items for each type of question and each type’s respective weight in the final score. If the state indicated that an item type was not used, the type’s weight is indicated by “—.” An accessible table containing the information in this block can be found at:

<http://nces.ed.gov/nationsreportcard/studies/statemapping/block2.asp> .

Block 3 includes additional information about the timing of the assessments and whether assessments measured skills acquired only in prior grades. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block3.asp>.

Block 4 summarizes information about the assessments and performance levels used by the state in 2008–09 for state accountability for grades 4 and 8 in Reading/Language Arts and Mathematics, as well as the assessments and performance levels used to determine AYP. The symbol “—” indicates that the information was not provided (e.g., if the state did not provide additional information about performance levels used during the 2008–09 academic year). An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block4.asp>.

Example State		Reading/Language Arts									
Block 2	Composition of the Main Reading/Language Arts Test in 2008–09										
		Multiple Choice		Short Constructed Response		Extended Constructed Response		Performance Tasks		Other	
		Number of Items	Proportion of Score	Number of Items	Proportion of Score	Number of Items	Proportion of Score	Number of Items	Proportion of Score	Number of Items	Proportion of Score
	Grade 4	24	50%	0	—	3	50%	0	—	0	—
	Grade 8	24	50%	0	—	3	50%	0	—	0	—
Block 3	Administration of the Main Reading/Language Arts Test in 2008–09										
	Were any of the 2008–09 assessments used for AYP reporting for grades 4 or 8 administered in the fall 2008?							No.			
Block 4	Performance Levels and AYP										
	Performance levels used during the 2008–09 year						Below Basic, Basic, Proficient, and Advanced				
	Test used for AYP determination						Comprehensive Assessments of State Students (CASS)				
	Performance level used for AYP						Proficient				
	Other tests used for AYP determination						CASS-Alt assessments are used in AYP determination.				
	Test used for state accountability						CASS				
	Performance level used for state accountability						Proficient				
	First implementation of performance standards for the 2008–09 assessments						2005–06 school year				
Additional information about performance levels used during the 2008–09 academic year						—					

Block 5 provides the performance level descriptors used for meeting AYP in 2008–09 assessments for grades 4 and 8 in Reading/Language Arts and Mathematics. The descriptors correspond to the proficient performance level as it is defined by each state. A web address is included if the state provided a link. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block5.asp>.

Block 6 lists the performance level descriptors used for meeting AYP in 2008–09 alternate assessments for grades 4 and 8 in Reading/Language Arts and Mathematics. The descriptors correspond to the proficient performance level as it is defined by each state. A “—” indicates that the state did not provide performance level descriptors. A web address is included if the state provided a link. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block6.asp>.

	Example State	Reading/Language Arts
Block 5	<p>Performance Level Descriptors for Meeting Adequate Yearly Progress</p> <p>Grade 4: Students performing at the Proficient level demonstrate a fundamental understanding of what they read by applying various strategies when reading textual/informational, functional, and literary/recreational materials. To some degree these students use various skills and strategies, including demonstrating a knowledge of sentence structure, making inferences, and distinguishing fiction from nonfiction. They recognize some literary elements and devices including characters, similes, and important details as they read literary/recreational text. As a part of understanding informational/textual and functional materials, students at this level are beginning to locate information, identify important details, use sentence structure, and distinguish fact from fiction. Their vocabulary knowledge includes recognition of some antonyms, synonyms, and some use of structural analysis skills.</p> <p>Performance level descriptors are available online at http://www.STDOE.st.gov/pdf/AchievementLevelsGrade4.pdf</p>	<p>Grade 8: Students performing at the Proficient level utilize strategies to make inferences to determine bias or theme and use specific context clues to determine some word meanings. They can distinguish among characteristics of some types of poetry such as ballads, epics, haikus, limericks, and lyrics. They often identify literary elements and can describe their impact on setting, mood, characterization, or theme. These students also are able to identify the elements of plot.</p>
Block 6	<p>Performance Level Descriptors of Alternate Assessment for Meeting Adequate Yearly Progress</p> <p>Grade 4: A fourth-grade student performing at the Proficient level on the Example State Extended Standards in Reading demonstrates fundamental knowledge that meets the extended standards in multiple phoneme words, reading simple sentences, synonyms, literary elements (main characters and details), and letter blends. This knowledge might be demonstrated at different complexity levels and with varying degrees of assistance.</p> <p>Performance level descriptors are available online at: http://www.STDOE.st.gov/pdf/AchievementLevels.pdf</p>	<p>Grade 8: —</p>

Block 7 presents changes to the main state assessment in Reading/Language Arts and Mathematics between the 2006–07 and 2008–09 school years. Each state self-reported whether the changes to its assessment were significant or not. For many states, additional information about the changes is included in a note below the block. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block7.asp>.

Block 8 provides information about the comparability of the state assessments between 2006–07 and 2008–09. Specifically, it is the answer given to the survey question “Are the reported 2008–09 state assessment results for grades 4 and 8 Reading or Mathematics directly comparable with the 2006–07 reported results?” Each state self-reported whether its 2006–07 and 2008–09 assessments were comparable or not. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block8.asp>.

Block 9 provides additional information about changes to the state assessment, inclusion policies, or administration of the state assessment between 2006–07 and 2008–09 that would have an impact on the ability to compare outcomes over time. An accessible table containing the information in this block can be found at: <http://nces.ed.gov/nationsreportcard/studies/statemapping/block9.asp>.

Example State
Reading/Language Arts

Block 7

Changes to State Assessments Between 2006–07 and 2008–09

	No Significant Changes	Changed Cut Scores	Changed The Period of Administration	Changed Assessment Items	Used Entirely Different Assessment	Realigned To New Content Standards	Changed Proficiency Standards	Changed Accommodation Policy	Changed Re-Test Policy	Changed Test Contractors	Other Changes
Grade 4	√									•	
Grade 8	√									•	

Block 8

Are the reported 2008–09 state assessment results for grades 4 and 8 directly comparable with the 2006–07 reported results?

Yes, they can be compared. The testing contractors changed but the test and scales did not change.

Block 9

Are there differences in the administration of assessments or in the reporting of outcomes between 2006–07 and 2008–09 due to policy or legislative changes having an impact on the ability to compare outcomes over time?

None.

Performance Level Descriptors for Meeting Adequate Yearly Progress

Grade 4: Students compare and contrast; identify and summarize the main idea; use synonyms; draw conclusions based on real-life experiences; recall facts to infer; apply vocabulary rules; synthesize information; use process of elimination; use abstract thinking; interpret expressions; use sequencing; predict outcomes; use prior knowledge; and identify cause and effect.

Performance level descriptors are available online at:
<http://www.dpi.state.nd.us/standard/perform/index.shtm>

Grade 8: Students draw conclusions based on evidence and supporting details; use vocabulary building skills for synonyms; use root origins for word meaning; read for details; determine main idea; draw conclusions based on character's thoughts and actions, and by making comparisons; identify sequence of events; interpret figurative language; identify and analyze supporting detail; interpret cultural significance in historical context; determine order of importance of detail; infer meaning based on cause and effect; identify types of conflict; evaluate research information; and determine author's purpose.

Performance level descriptors are available online at:
<http://www.dpi.state.nd.us/standard/perform/index.shtm>

Performance Level Descriptors of Alternate Assessment for Meeting Adequate Yearly Progress

Grade 4: NDAA2 - Student identifies specific fact and opinion within text; applies strategies to improve comprehension in various genres. NDAA1 - Student recognizes fact/opinion within text; recognizes strategies to improve comprehension; recognizes main ideas, details, and summaries. Student selects, plans, and evaluates performance in multiple settings.

Performance level descriptors are available online at:
<http://www.dpi.state.nd.us/testing/assess/index.shtm>

Grade 8: NDAA2 - Student applies various resources to access information; uses graphic organizers to improve reading comprehension; summarizes and paraphrases text; applies vocabulary building strategies; uses context clues to understand meaning and increase comprehension. NDAA1 - Student applies organizational strategies to increase comprehension; makes use of context clues to improve understanding. Student selects, plans, and evaluates performance in multiple settings.

Performance level descriptors are available online at:
<http://www.dpi.state.nd.us/testing/assess/index.shtm>

Changes to State Assessments Between 2007 and 2009

Performance Level Descriptors for Meeting Adequate Yearly Progress

Grade 4: Students solve subtraction and division problems; order numbers to thousands; represent multiplication as repeated addition; demonstrate inverse relationship between multiplication and division; add to sums > 100; use symbols to write equations; apply input/output function rules; identify missing information; extend patterns with two variables; make predictions based on probability; display data in different ways; estimate cost; estimate length; determine elapsed time; count units on coordinate grid; and identify appropriate measurement tools.

Performance level descriptors are available online at:

<http://www.dpi.state.nd.us/standard/perform/index.shtm>

Grade 8: Students convert standard numerals to expanded notation; multiply fractions and mixed numbers; apply order of operations with exponents; apply spatial reasoning and calculations to visualize three-dimensional figures and identify results of transformations; use correct terminology to identify parts of geometric figures including lines and angles; use multistep computational skills to group data; compare rates of change in line graphs; interpret statistical data including mean, median, mode, and range; identify appropriate units of measurement; and analyze and extend patterns.

Performance level descriptors are available online at:

<http://www.dpi.state.nd.us/standard/perform/index.shtm>

Performance Level Descriptors of Alternate Assessment for Meeting Adequate Yearly Progress

Grade 4: NDAA2 - Student identifies odd/even numbers; identifies place value from tenths to 10.00; uses mathematical vocabulary; models division; multiplies three-digit numbers; divides two-digit numbers and estimates answers; adds and subtracts numbers to 10,000; understands properties of addition and subtraction; recalls multiplication and division facts to 10; identifies right angles and congruent shapes; identifies ordered pairs on a grid; determines probability to outcomes; tells times to the nearest minute; converts measurement within the same system. NDAA1 - Student pairs numbers to items; identifies shapes; identifies calendar sequences; pairs measurement tools to tasks; identifies first and last in patterns. Student selects, plans, and evaluates performance in multiple settings.

Performance level descriptors are available online at:

<http://www.dpi.state.nd.us/testing/assess/index.shtm>

Grade 8: NDAA2 - Student compiles and draws conclusions from data; identifies components of the coordinate plane; identifies similar and congruent figures; evaluates algebraic expressions; performs accurate measurement with appropriate tools; performs operations with fractions, decimals, percents, and integers. NDAA1 - Student responds to requests of "more" or "less"; identifies shapes; draws conclusions when comparing data; identifies measurement tools; groups requested quantities. Student selects, plans, and evaluates performance in multiple settings.

Performance level descriptors are available online at:

<http://www.dpi.state.nd.us/testing/assess/index.shtm>
