

Overall Results

- In 2013, the average score of fourth-grade students in New York City was 236. This was not significantly different from the average score of 235 for public school students in large cities.
- The average score for students in New York City in 2013 (236) was not significantly different from their average score in 2011 (234) and was higher than their average score in 2003 (226).
- The score gap between higher performing students in New York City (those at the 75th percentile) and lower performing students (those at the 25th percentile) was 40 points in 2013. This performance gap was not significantly different from that in 2003 (38 points).
- The percentage of students in New York City who performed at or above the NAEP *Proficient* level was 34 percent in 2013. This percentage was not significantly different from that in 2011 (32 percent) and was greater than that in 2003 (21 percent).
- The percentage of students in New York City who performed at or above the NAEP *Basic* level was 77 percent in 2013. This percentage was not significantly different from that in 2011 (76 percent) and was greater than that in 2003 (67 percent).

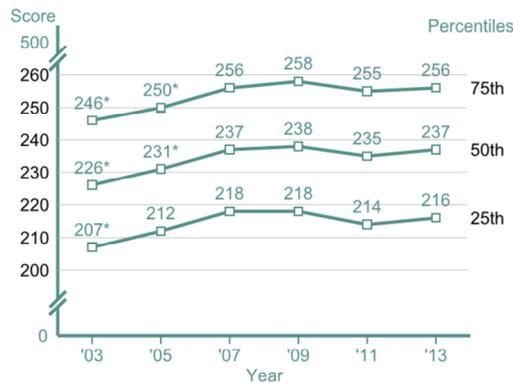

Achievement-Level Percentages and Average Score Results

* Significantly different ($p < .05$) from district's results in 2013. Significance tests were performed using unrounded numbers.

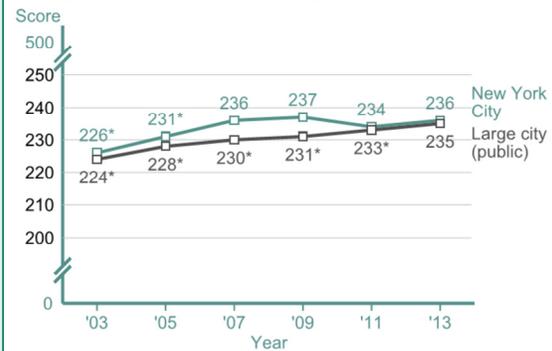

NOTE: Detail may not sum to totals because of rounding. Large city (public) includes public schools located in the urbanized areas of cities with populations of 250,000 or more including the participating districts.

Scores at Selected Percentiles

* Significantly different ($p < .05$) from 2013. Significance tests were performed using unrounded numbers.

Average Scores for District and Large Cities

* Significantly different ($p < .05$) from 2013. Significance tests were performed using unrounded numbers.

NOTE: Large city (public) includes public schools located in the urbanized areas of cities with populations of 250,000 or more including the participating districts.

Results for Student Groups in 2013

Reporting Groups	Percent of students	Avg. score	Percentages at or above		Percent at Advanced
			Basic	Proficient	
Race/Ethnicity					
White	17	251	90	55	13
Black	24	225	67	17	1
Hispanic	42	228	72	23	1
Asian	16	257	93	66	18
American Indian/Alaska Native	#	‡	‡	‡	‡
Native Hawaiian/Pacific Islander	#	‡	‡	‡	‡
Two or more races	#	‡	‡	‡	‡
Gender					
Male	51	235	76	34	6
Female	49	237	79	34	5
National School Lunch Program					
Eligible	79	231	74	28	3
Not eligible	21	252	91	56	15

Rounds to zero.

‡ Reporting standards not met.

NOTE: Detail may not sum to totals because of rounding, and because the "Information not available" category for the National School Lunch Program, which provides free/reduced-price lunches, is not displayed. Black includes African American and Hispanic includes Latino. Race categories exclude Hispanic origin.

Score Gaps for Student Groups

- In 2013, Black students had an average score that was 26 points lower than White students. This performance gap was not significantly different from that in 2003 (25 points).
- In 2013, Hispanic students had an average score that was 23 points lower than White students. This performance gap was not significantly different from that in 2003 (24 points).
- In 2013, male students in New York City had an average score that was not significantly different from female students.
- In 2013, students who were eligible for free/reduced-price school lunch, an indicator of low family income, had an average score that was 20 points lower than students who were not eligible. This performance gap was not significantly different from that in 2003 (24 points).
