The Department of Education is studying the education and training experiences of adults and children. Each household is different, and we need your response so we can send you a survey that is right for your household.

- Return this form even if there are only one or two people in the household.
- This survey should be filled out by an adult household member living at this address.
- Please use a blue or black pen if available.

1. How many people live in this household?
   Include adults and children who are temporarily away from home (for example, living in college housing) if they have no other permanent home.

Continue answering questions 2 through 6 for each person living in this household. Include all adults and children. Start with yourself.

Commonly Asked Questions

Q: How did you get my address?
   A: Your address was randomly selected from among all of the home addresses in the nation. It was
   selected using scientific sampling methods to represent other households in the U.S.

Q: Why don’t you ask more questions about education in this questionnaire?
   A: The purpose of this questionnaire is to find out if anyone in your household is eligible for the next
   stage of the survey. If so, we will send a second questionnaire that will ask about educational
   experiences of a member of your household.

Q: If there are no children or anyone currently in school in my household, should I respond?
   A: Yes, you should respond to this survey. Once you return the questionnaire, the study will be able
   to see if anyone in your household is eligible for the next and final survey. If no one is eligible,
   you will not receive another survey.

Q: Why should I take part in this study? Do I have to do this?
   A: This survey is the only way that the Department of Education can learn about children’s early
   care and education, students’ schooling, and adult training and education, from your perspective.
   You represent thousands of other households like yours, and you cannot be replaced. Your
   answers and opinions are very important to the success of this study. You may choose not to
   answer any or all questions in this survey. In order for the survey to be representative, it is
   important that you complete and return this questionnaire. Those who do not return the survey
   will not be represented in key statistics used by policymakers and researchers.

Q: How will the information I provide be used? Will my privacy be protected?
   A: Your responses will be combined with those of others to produce statistical summaries and
   reports. Your individual data will not be reported. Your answers may be used only for statistical
   purposes and may not be disclosed, or used, in identifiable form for any other purpose except as
   required by law (20 USC § 9573).

Q: How much time will it take?
   A: On average, it should take 8 minutes or less for you to respond, including the time for
   reviewing instructions and completing and reviewing the collection of information.

Q: Who is sponsoring the study?
   A: The National Center for Education Statistics (NCES), within the U.S. Department of Education,
   is authorized to conduct this study by the Education Sciences Reform Act of 2002 (ESRA 2002;
   20 USC § 9543). The U.S. Census Bureau is administering this survey on behalf of NCES. This
   study has been approved by the Office of Management and Budget (OMB), the office that
   reviews all federally sponsored surveys. If you have any comments concerning the accuracy of
   the time estimate, suggestions for improving this survey, or any comments or concerns regarding
   the status of your individual submission of this survey, please write to: Sarah Grady, National
   Household Education Survey, National Center for Education Statistics, 1990 K Street, NW,
   Room 9016, Washington, DC 20006-5650. Do not return the completed form to this address. You
   may send email to NHES@census.gov. If you have any questions about the study, contact the
   Census Bureau toll-free at 1-888-840-8353.
