NOTES: 2015-2016 GEOCODE - LOCAL EDUCATION AGENCY (LEA) LOCALE SUPPLEMENT FILE

1. The 2015-2016 Geocode - LEA Locale Supplement file (GEOCODE15A_LEA_LOCALE_SUPPLEMENT) contains 18,862 records.

2. Information on how locales are assigned to LEAs is available in the file documentation accompanying the 2015-2016 Geocode - Public School and LEA geocode files.

3. Some Department of Defense Education Agency (DODEA) schools operate outside of the United States. The value for LOCALE15 has been set to missing (00) for all DODEA agency records, and values for NONTYPE15 have been set to 0 because the DODEA agencies are not assigned a locale.

4. Agencies with missing information for TYPERANGE15 (0) and SCH_LOCALES (00) do not identify schools in the original directory input file. In these cases, the locale assignment (LOCALE15) is determined by the agency office location. Locale assignments for all other (non-DODEA) agencies were based on enrollment-weighted school locale values.

5.

#	Variable	Type	Len	Format	Informat	Label
1	LEAID	Char	7	$7.	$7.	Local Education Agency ID
2	LOCALE15	Char	2			Locale assigned to district
3	NONTYPE15	Num	8			Percentage of enrolled students attending schools in a locale other than the locale assigned to district
4	TYPERANGE15	Num	8			Number of locales assigned to schools operated by district
5	SURVYEAR	Char	9			School year of survey
6	SCH_LOCALES	Char	50			List of locales assigned to schools operated by district
