

ERRATA SHEET

Arts Education in Public Elementary and Secondary Schools: 1999–2000 and 2009–10 (NCES 2012–014rev) and Supplemental Tables to the NCES Report, Arts Education in Public Elementary and Secondary Schools: 1999–2000 and 2009–10 (NCES 2012-014rev).

In the above referenced report and supplemental tables, the original estimates for breakouts by the percentage of students eligible for free- or reduced price lunch at the school were incorrect for the 1999–2000 survey data. These estimates were based on a variable (POVSTAT) that was derived from the 1999-2000 SASS universe file, which was created from the 1997-98 CCD public school file. However, to be consistent with the analyses of the 2009–10 survey data, the 1999–2000 variable should have been created from a combination of questionnaire and frame data. Thus, a new variable (POVST1) has been recreated to produce correct estimates for breakouts by the percentage of students eligible for free- or reduced price lunch. These estimates are currently available in the report in figures 8, 11, 14, 17, 22, 26 and in tables 5, 13, 21, 23, B-5a, B-13a, B-21a, and B-23a which report 1999–2000 survey data.
