

2010 College Course Map

Errata Sheet

June 2012

In the original release of the College Course Map (CCM) directory, the parenthetical citation in the introduction (page 1), which was attributed to Cliff Adelman, was incorrect. The citation was corrected and three additional references were added to the report to more accurately direct users to past CCM directories and reports. Additionally, one sentence was added to the introduction to better clarify how the original CCM codes were developed:

“Earlier editions of the College Course Map were developed using faculty review groups in major disciplinary areas (e.g., mathematics, business, chemistry, allied health, English, etc.). These groups were provided descriptions from course catalogs and used NCES postsecondary transcript data to develop recommendations on coding and decision rules.”

The corrected reference list (page 288) includes the following citations:
