

The History and Origins of Survey Items for the Integrated Postsecondary Education Data System

THE HISTORY AND ORIGINS OF SURVEY ITEMS FOR THE INTEGRATED POSTSECONDARY EDUCATION DATA SYSTEM

Report of the National Postsecondary Education Cooperative

This project has been funded, either wholly or in part, with federal funds from the U.S. Department of Education under Coffey Consulting, LLC's Contract No ED-04-CO-0044-0001.

The contents of this publication do not necessarily reflect the views or policies of the U.S. Department of Education, nor does mention of trade names, commercial products, or organizations imply endorsement of same by the U.S. Government.

National Postsecondary Education Cooperative

The National Postsecondary Education Cooperative (NPEC) was established by the National Center for Education Statistics (NCES) in 1995 as a voluntary organization that encompasses all sectors of the postsecondary education community including federal agencies, postsecondary institutions, associations and other organizations with a major interest in postsecondary education data collection. In 2007, NCES assigned NPEC the responsibility for developing a research and development agenda for the Integrated Postsecondary Education Data System (IPEDS). IPEDS is the core postsecondary education data collection program for NCES. NPEC also occasionally produces products of value to postsecondary data providers, users, and institutional representatives.

NPEC publications do not undergo the formal review required for standard NCES products. The information and opinions published in them are the products of NPEC and do not necessarily represent the policy or views of the U.S. Department of Education or NCES.

Introduction

Purpose of Project

This project was conducted to determine the origin of each item (or cluster of items) in the 2011-12 Integrated Postsecondary Education Data System (IPEDS) survey components. The report was developed by a consultant to the National Postsecondary Education Cooperative (NPEC). NPEC, established by the National Center for Education Statistics (NCES), is a voluntary organization that includes representatives from federal agencies, postsecondary institutions, associations, and other organizations that have a major interest in postsecondary education data collection. NPEC's mission is to promote the quality, comparability, and utility of postsecondary data and information that support policy development at the federal, state, and institution levels. NPEC commissioned this paper to document the sources of current IPEDS data items as background information for interested parties and to provide guidance when NCES, technical review panels, and others are considering potential changes to the IPEDS data collection.

Organization of Report

This report is organized into four sections as described below.

I. The overview section provides general information about the history of postsecondary institutional data collection by the Department of Education, and the origins of the IPEDS survey components. Statutory and other requirements that apply to all or multiple IPEDS components are described.

II. A section for each component includes

- general history of the component;
- summary of statutory provisions specific to that component;
- requirements for how the data are reported;
- upcoming changes planned for the component;
- summary of data from the component that appear in the *Digest of Education Statistics 2010*; and
- a table that includes, for each item:
 - the specific survey form(s) on which each item appears;
 - whether the item(s) is reported or calculated;
 - whether the item(s) was included on the last Higher Education General Information Survey (HEGIS) forms (1984-85, 1985-86, or 1986-87), was

recommended by the IPEDS Technical Review Panel (TRP), is required by statute, or is included for another reason;

- notes including applicable statutory requirements (if any) and other information, such as if the item is not included in the IPEDS Data Center;
- date added to IPEDS if not included on the last HEGIS survey forms; and
- whether the data for the item(s) appear in the *Digest of Education Statistics*.

Some IPEDS data are collected for the current year and other data are collected for prior years. Unless otherwise indicated, references to dates in the report are to IPEDS data collection years, not the data years.

III. Appendix A includes a list of the *Digest of Education Statistics 2009* figures and tables that contain data from the IPEDS components (except Human Resources).

IV. Appendix B contains a detailed list of the relevant HEGIS and IPEDS survey forms available from NCES (paper copies and forms archived on the NCES website).

Sources

Multiple sources were reviewed in preparation of this document. Those sources are listed below.

Digest of Education Statistics 2009

Digest of Education Statistics 2010

Statutory Provisions

- Public Laws
- U.S. Code
- Code of Federal Regulations

HEGIS Surveys (final years):

- Institutional Characteristics of Colleges and Universities, 1984-85
- Fall Enrollment (and Compliance Report in alternate years), 1984-85, 1985-86
- Residence and Migration of College Students, 1984
- Degrees and Other Formal Awards Conferred, 1986-87 (covering awards conferred 1985-86)
- Financial Statistics of Institutions of Higher Education, 1986-87 (covering [fiscal year] FY 1986)

IPEDS Survey Components:

- Institutional Characteristics (IC), 1985-86 to 2010-11
- IC Header, 2010-11
- Fall Enrollment (EF), 1986-87 to 2010-11
- Residence of First-Time Students, 1986-87 to 1988-89 (moved to EF in 1990-91)
- Completions (C), 1987-88 to 2010-11 (awards conferred 1986-87 to 2009-10)
- Finance (F), 1987-88 to 2010-11 (FY 1987 to FY 2010)
- Consolidated Form (CN, for non-degree-granting institutions) 1990-91 to 1999-2000
- Graduation Rates (GRS), Supplemental Graduation Rates (GR-suppl), 200% Graduation Rates (GR200), 1997-98 to 2010-11
- Student Financial Aid (SFA), 2000-01 to 2010-11 (aid conferred 1999-2000 to 2009-10) (These data were collected as the Institution Price and Student Financial Aid (IPSFA) component in 1999-2000.)
- 12-Month Enrollment (E12), 2007-08 to 2010-11 (enrollment for 2006-07 to 2009-10). Total Institutional Activity Survey (EA), 1987-88 to 1989-90 (activity for 1986-87 to 1988-89) (These data were moved to IC in 1990-91, and moved to EF in 2000-01.)

Integrated Postsecondary Education Data System Manual for Four- and Two-Year Institutions, (January 1986)

“Mail-Out” letters July 1984, November 1985, August 1986, August 1987, August 1988, and July 1990. These letters informed institutions of the upcoming mailing of the HEGIS or IPEDS paper forms for each year.

Overview

The origins of the Integrated Postsecondary Education Data System (IPEDS) data collection date back to the very beginnings of the Department of Education. Key events in the evolution of IPEDS and the different survey components are detailed below.

Department of Education Established. A Department of Education¹ was established in 1867 for the purpose of “collecting such statistics and facts as shall show the condition and progress of education in the several States and territories, and of diffusing such information respecting the organization and management of schools and school systems, and methods of teaching, as shall aid the people of the United States in the establishment and maintenance of efficient school systems, and otherwise promote the cause of education throughout the United States” (cited in P. L. 103-382, Title IV, § 402(a)).

Early Data Collection. According to the source information in the *Digest of Education Statistics 2009*, a federal education agency has collected higher education data for enrollment, earned degrees conferred, and faculty since 1869-70. The 1874 *Report of the Commissioner of Education* also included higher education information for libraries and financial data for 1870-1874.

National Center for Education Statistics (NCES) Established. The responsibility for collecting and disseminating statistics and other data related to education in the United States was officially assigned to NCES when it was established in 1974² (P.L. 93-380) as part of the Education Division of the HEW. NCES became part of the Office of Educational Research and Improvement when the current Department of Education was established in 1979 (P.L. 96-88). The Education Sciences Reform Act of 2002 (P.L. 107-279) established NCES within the Institute of Education Sciences (20 U.S.C. 9541).

Higher Education General Information Surveys (HEGIS). The HEGIS surveys were administered between 1966-67 and 1986-87. The 1970 edition of the *Digest of Educational Statistics* includes information on institutional characteristics, fall enrollment, earned degrees conferred, finances, faculty salaries, faculty and other professional staff, student charges (tuition and fees, and

¹ Various called Bureau, Office, or Division in subsequent reorganizations that placed the agency in the Department of the Interior in 1869, the Federal Security Agency in 1939, and the Department of Health, Education, and Welfare (HEW) when it was created in 1953.

² The earliest reference to NCES found by the author was in the 1965 edition of the *Digest of Educational Statistics*. Publication information in the prior editions (1962-64) referred to the “Division of Educational Statistics” in the Bureau of Educational Research and Development (in HEW).

room and board rates), residence and migration, student financial aid, land-grant institutions, enrollment for advanced degrees, and engineering enrollments and degrees.

The 1986-87 *Directory of Postsecondary Institutions* listed the HEGIS surveys at that time: annual or biennial surveys of institutional characteristics, fall enrollment and compliance reports, earned degrees conferred, finance, and faculty salaries; and periodic surveys of residence and migration, libraries, and physical facilities. The HEGIS universe in 1986-87 included 3,340 institutions accredited at the college level (2,029 four-year and 1,311 two-year).

Integrated Postsecondary Education Data System (IPEDS). IPEDS was phased-in between 1985-86 and 1988-89, beginning with the 1985-86 Institutional Characteristics (IC) survey. The universe of institutions covered included all institutions whose primary purpose was providing postsecondary education programs and that were open to the general public. The 1987-88 *Directory of Postsecondary Institutions* reported 12,052 institutions (2,652 four-year, 2,925 two-year, and 6,475 less-than-two-year).

The IPEDS surveys implemented in 1986-87 included the Fall Enrollment (and Compliance Report) (EF) and Residence of First-Time Students surveys (the residence and migration survey items were moved to EF in 1990-91). The Total Institutional Activity (EA), Completions (C), Finance (F), Staff³ Salaries of Full-Time Instructional Faculty, and Enrollment in Occupationally Specific Programs (EP)⁴ surveys were implemented in 1987-88. The IPEDS Academic Libraries Survey (ALS)⁵ was implemented in 1988-89. The Consolidated Survey (for non-degree-granting institutions) was administered between 1990-91 and 1999-2000.

Six survey components have since been added:

- The Graduation Rates (GRS) component was added in 1997-98, following enactment of the Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542). The Graduation Rates Supplement form was added in 1999-2000 to allow institutions to report completions within 150 percent of normal time for students in long programs (3 years or longer for 2-year institutions, 5 years or longer for 4-year institutions). The mandates for NCES in the Higher Education Opportunity Act of 2008 (HEOA) (P.L. 110-315) required additional items in the GRS, and collection of 200 percent graduation rates on the Spring Supplemental component in 2008-09 and on the GR200 component starting in 2009-10.

³ The IPEDS Staff survey originally was administered for institutions that were not required to submit data to the Equal Employment Opportunity Commission (EEOC). The IPEDS Staff survey replaced the EEOC survey for all institutions in 1993-94.

⁴ The IPEDS EP component was last collected in 1997-98.

⁵ The IPEDS ALS continues to be conducted by NCES, but has not been part of IPEDS since 1996-97.

- The Student Financial Aid (SFA) component was developed in 1999 to satisfy requirements in the 1998 amendments to the Higher Education Act (HEA) (P.L. 105-244). (The SFA data originally were included with price information on the 1999 Institution Price and Student Financial Aid Survey [IPSFA]. In 2000-01, the price information was moved to the IC component.)
- The Employees by Assigned Position (EAP) component was introduced in 2001-02. (The EAP was merged with the Salaries and Staff survey components to form a single Human Resources component in 2005-06).
- The 12-month unduplicated enrollment count and instructional activity portions of the EF component were moved in 2007-08 to a separate 12-Month Enrollment (E12) component (these data were originally collected separately in the EA, beginning in 1986-87, then added to the IC component in 1990-91, and moved to the EF component in 2000-01).
- In 2010-11, a few items were moved from the IC component to a new component, IC Header. These items determine the applicability and version for the remaining IPEDS survey components.

IPEDS Mandatory. The HEA Amendments of 1992 (P.L. 102-325) added a provision regarding IPEDS to the Title IV, HEA Student Financial Aid Program Participation Agreement (PPA). HEA Sec. 487(a)(17) states: “The institution will complete surveys conducted as a part of the Integrated Postsecondary Education Data System (IPEDS) or any other Federal postsecondary institution data collection effort, as designated by the Secretary, in a timely manner and to the satisfaction of the Secretary (20 U.S.C. 1094(a)(17)).”

IPEDS Redesign. The 1998 amendments to the HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected.....”

The final report of the IPEDS Redesign Task Force, *Integrated Postsecondary Education Data System (IPEDS): An Improved System*, was submitted to the NCES Commissioner on August 31, 1999. Goals for the revised IPEDS included improving the timeliness and quality of IPEDS data, ensuring the relevance of the data, increasing the efficiency of data collection and utility of the data, and enhancing communication and collaboration with data providers and stakeholders.

The most significant change in IPEDS recommended by the Task Force was to move to a web-based system to provide more timely data that would be easier to access and use, and to make the reporting process less burdensome.

- Changes in Collection: The web-based system was implemented with three waves of collection (fall, winter, spring) geared to institutional availability of data, and with built-in edits and other quality checks to process the data at the time they are entered to shorten data processing time and improve data quality. The Task Force also recommended technical assistance for data providers through training workshops and Help Desk support.
- Dissemination: The Task Force recommended a peer analysis system and other online programs for access to information, including a webpage for each institution with basic information of interest to the general public, particularly parents and students who are searching for institutions (originally named College Opportunities On-Line, currently part of College Navigator).

Other changes to IPEDS based on Task Force recommendations included

- changes in coverage – full set of data from all institutions participating in Title IV, HEA student financial aid programs, and a minimal set of data from all non-Title IV, HEA institutions open to the general public;
- changes in reporting data on employees (EAP);
- changes in data content in the IC, C, and EF surveys;
- deletion of the EP survey; and
- multiple approaches to maintain effective communication with data providers, data users, and other stakeholders; coordination and collaboration with other major data developers to reduce overall response burden; and a process of continuous improvement for IPEDS.

Higher Education Act. The 1998 amendments to the HEA (P.L. 105-244) required NCES to collect information on institution price and student financial aid and make it available in a form that would allow parents and students to make informed decisions about institutions (see IPEDS Student Financial AID component for complete information).

The amendments to the HEA in the HEOA (P.L. 110-315) significantly increased the amount of “consumer information” that NCES is required to provide (through the College Navigator website) (HEA Sec. 132(i)(A) to (Z)). Some of the information was already collected in IPEDS, but changes and additions were necessary to the IC, GRS, EF, and SFA components.⁶

⁶ Prior to the HEOA, most new or revised IPEDS reporting requirements were introduced with at least 1 year of optional reporting. The short timeframe NCES was allowed for posting the information (1 year from date of enactment of the HEOA) required NCES to implement new or revised items that were required in the first year (2008-09 or 2009-10), including a supplemental form in 2008-09 that collected information on students with disabilities and additional graduation rates information.

Requirements for Reporting by Race/Ethnicity and Gender. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (*later removed*) requiring the coordination of the collection of information and data acquisition activities of the Education Division [of HEW] and the Office for Civil Rights [OCR]. According to the *NCES Handbook of Survey Methods* (2003), NCES and OCR have collaborated since that time, in HEGIS and in IPEDS, for the collection of racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)), and regulations implementing Title IX of the Education Amendments of 1972 that require data on gender (34 CFR Part 106).

The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” by gender and race (and other population characteristics). The 2002 NCES reauthorization statute (P.L. 107-279) mandated additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)).

Standards for IPEDS Race/Ethnicity Reporting. The current categories for reporting race/ethnicity are required under the Department of Education’s “Final Guidance on Maintaining, Collecting, and Reporting Racial and Ethnic Data to the U.S. Department of Education” (*Federal Register*, October 19, 2007). The Guidance implements the Office of Management and Budget’s 1997 Race/Ethnicity Standards. The new categories were first implemented in IPEDS in 2008-09 and are mandatory for all IPEDS components beginning with the 2011-12 collection year.

Revised Categories for Postbaccalaureate Programs. New postbaccalaureate award categories and definitions were implemented for the EF, IC, C, and E12 components in 2008-09. The first-professional category was eliminated. The post-master’s and first-professional certificate categories were combined, and doctor’s degrees were divided into three categories: research/scholarship, professional practice, and other. The new categories were mandatory for the IC and EF components in 2009-10, and are mandatory for the C and E12 components in 2010-11.

Classification of Instructional Programs (CIP). The CIP is a taxonomic scheme that identifies fields of study in the IPEDS IC, EF, and C components. The CIP was originally developed by NCES in 1980, with revisions in 1985, 1990, 2000, and 2010. The use of the 2010 version of CIP has been required since the 2010-11 data collection year.

This page left intentionally blank.

IPEDS Institutional Characteristics (IC)

History

The IC component was part of HEGIS (primarily directory information). The 1985-86 IC was the first component of IPEDS to be administered. A few items were moved in 2010-11 to a new component, IC Header. The items in this component determine the applicability and version of the remaining IPEDS survey components.

Summary of Statutory Requirements

Higher Education Act. The 1998 amendments to the HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected.....” The IPEDS Redesign Taskforce recommended several changes, including the addition of items to the IC component regarding admissions and student services.

The 1998 HEA amendments also required NCES to collect and disseminate information on: tuition and fees for a full-time undergraduate student, cost of attendance for a full-time first-time undergraduate student, average amount of financial assistance received by an undergraduate student, and the number of students receiving each type of assistance. The price and student financial aid data originally were collected on the 1999 IPSFA Survey. In 2000-01, the price information was moved to the IC component.

Higher Education Opportunity Act of 2008 (P.L. 110-315). The HEOA requires NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following items related to the IC component (financial aid data are collected on the SFA component):

- College affordability and transparency lists – based on tuition and fees for the most recent year for a full-time, first-time undergraduate student, and changes in tuition and fees over the most recent 3-year period; and net price for the most recent year and changes in net price over the most recent 3-year period. Net price is to be calculated as the cost of attendance minus average grant aid provided (for public institutions, net price is to be calculated for in-state students).*
- Statement of institution’s mission.
- Total number of undergraduate students who applied to, were admitted by, and enrolled in the institution.
- SAT or ACT scores for the middle 50 percent range (for institutions that require SAT or ACT scores to be submitted).
- The percentage of undergraduate students who are formally registered with the office of disability services of the institution.

- The cost of attendance for first-time, full-time undergraduate students who live on campus, and who live off-campus. For public institutions, the cost of attendance is to be provided separately for students who are residents and nonresidents of the state in which the institution is located.
- A link to the institution's website providing information on student activities, services offered for individuals with disabilities, career and placement services, and policies related to transfer of credit from other institutions.
- The availability of alternative tuition plans.
- Link to institution pricing summary page with information on –
 - average full-time undergraduate tuition and fees for each of 3 most recent years;
 - average annual percentage change and dollar change in tuition and fees for each of the three most recent years;
 - average net price for 3 years;
 - average annual percentage change and dollar change in net price for each of the 3 most recent years; and
 - average net price for students receiving Title IV, HEA aid disaggregated by income categories (for most recent year beginning 2010, and for most recent 3 years beginning 2013).
- A multiyear tuition calculator that provides estimates of tuition and fees for each year of the normal duration of the program of study at an institution – based on annual percentage change in the institution's tuition and fees for the most recent 3 years. The estimates may be calculated based on the provisions of a multiyear tuition guarantee program (if offered by the institution). The multiyear calculator requires separate reporting of tuition and fees in the price of attendance data.

Prior to 2009-10, the price data were reported for the current year and 2 prior years, and student financial aid data (SFA component) were reported for the prior year. The HEOA provisions mandating that NCES post 3 years of net price information required an additional (fourth) year of institutional price data beginning in 2009-10 to align the price and student financial aid data for the first year of the net price calculations.

Other Requirements

Classification of Instructional Programs. Reporting data using the 2010 version of CIP has been required since the 2010-11 data collection year. In IC, CIP is only used to identify the six largest programs at institutions that are program reporters.

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the IC component in 2008-09 (mandatory 2010-11).

Upcoming Changes

The following changes to the IC component are planned:

- An item will be added to collect whether distance education opportunities are offered and at what student level. The current IC question C-04 will be modified to exclude the distance education reporting option, and a new question will be added.

Summary of Institutional Characteristics Component Information Included in *Digest of Education Statistics 2010*

IPEDS Completions (C) Component

History

The Degrees and Other Formal Awards Conferred for 1985-86 was one of the last HEGIS surveys to be administered (in 1986-87). The first IPEDS C Survey was administered in 1987-88 (data for 1986-87).

Summary of Statutory Requirements

National Center for Education Statistics and Office for Civil Rights. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (*later removed*) requiring the coordination of the collection of information and data acquisition activities of the Education Division [of HEW] and the Office for Civil Rights [OCR]. OCR and NCES collaborate for reports of racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100) and regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR 106).

The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” by gender and race (and other population characteristics). The 2002 NCES reauthorization statute (P.L. 107-279) mandated additional population characteristics, including ethnicity (20 U.S.C. 9543(a)).

The 1994 NCES reauthorization statute (P.L. 103-382) included the requirement that NCES collect and disseminate data on student achievement at all levels of education.

Higher Education Act. The HEA Amendments of 1998 (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected.....” The IPEDS Redesign Taskforce recommended several changes, including reporting double majors in the C Survey. (In 1995-96 to 1999-2000, a clarifying question asked about the number of double majors, by gender and award level.) Reporting of double majors by CIP, award level, gender, and race/ethnicity began in 2001-02.

The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following items related to the C Survey:

- The number of certificates, associate degrees, baccalaureate degrees, master’s degrees, professional degrees, and doctoral degrees awarded by the institution
- The undergraduate major areas of study at the institution with the highest number of degrees awarded

Other Requirements

Race/Ethnicity. The new categories for reporting race/ethnicity were first implemented in IPEDS in 2008-09 and were mandatory for the C Survey beginning with the 2011-12 collection year.

Classification of Instructional Programs. Reporting data using the 2010 version of CIP has been required since the 2010-11 data collection year.

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the EF component in 2008-09 and became mandatory in 2010-11.

Upcoming Changes

The following changes are planned for the C component:

- Add an item to collect the total number of students who earned degrees or certificates, by race/ethnicity and gender.
- Add items to collect the number of students who earned degrees or certificates separately by gender, race/ethnicity, and age for collapsed award categories.
- Add an item so that the institutions can indicate, by CIP code and award level, if the program is offered through exclusively distance education.

Summary of Completions Data Included in *Digest of Education Statistics 2010*

IPEDS 12-Month Enrollment (E12) Component

History

The 12-month unduplicated enrollment count and instructional activity items were moved from the EF component to a separate E12 component in 2007-08. These data originally were collected separately in the IPEDS EA, beginning 1987-88. The items were added to the IC component in 1990-91, and moved to the EF component in 2000-01.

Summary of Statutory Requirements

The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” by gender and race (and other population characteristics). The 2002 NCES reauthorization statute (P.L. 107-279) mandated additional population characteristics, including ethnicity (20 U.S.C. 9543(a)).

Other Requirements

Race/Ethnicity. The new categories for reporting race/ethnicity were first implemented in IPEDS in 2008-09, and were mandatory for the E12 component beginning with the 2011-12 collection year.

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the E12 component in 2008-09 and were mandatory in 2010-11.

Reporting Period. As of the 2011-12 data collection year, all institutions report 12-month enrollment using the same reporting period: July 1 of the previous calendar year to June 30 of the current calendar year.

Upcoming Changes:

The following changes are planned for the E12 component:

- Eliminate the collection of doctor’s-professional practice instructional activity, now included with graduate activity (4-year institutions).
- Add an item to collect full-time equivalent enrollment for doctor’s-professional practice students (4-year institutions).

IPEDS Fall Enrollment (EF) Component

History

The EF and Compliance Reports were part of HEGIS. The first IPEDS EF Survey was conducted in 1986-87. The residence of first-time undergraduate students data were originally collected as a separate survey in HEGIS and in IPEDS. These items were added to the IPEDS EF component (Part C) in 1990-91.

Summary of Statutory Requirements

National Center for Education Statistics. The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of the Education Division [of HEW] and the Office for Civil Rights [OCR]. The OCR and NCES collaborate for reports of racial/ethnic data needed for compliance with Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)) and regulations implementing Title IX of the Education Amendments of 1972 that require data by gender (34 CFR Part106).

The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” by gender and race (and other population characteristics). The 2002 NCES reauthorization statute (P.L. 107-279) mandated additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)).

The 1994 NCES statute also required NCES to collect and disseminate data on access to, and opportunity for, postsecondary education (20 U.S.C. 9543(a)(1)(E)).

Student Right-to-Know and Campus Security Act of 1990. The Student Right-to-Know and Campus Security Act of 1990 (P.L. 101-542) added graduation rates and campus security reports to the information that institutions that participate in Title IV, HEA student financial aid programs are required to make available to current and prospective students and others (34 CFR 668.41, 34 CFR 668.45 and 34 CFR 668.48). The cohort data for the graduation rate information reported on the GRS are collected on the EF component.

Higher Education Act. HEA (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected.....” The IPEDS Redesign Taskforce recommended several changes, including adding the percentage of the total undergraduate entering class represented by the GRS cohort.

Higher Education Opportunity Act of 2008. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website, including the following items related to the EF component (HEA Sec. 132(i)):

- Number of students enrolled – first-time, full-time, and part-time at undergraduate and graduate levels
- Number of degree- or certificate-seeking undergraduate students who have transferred from another institution
- Percentages of male and female undergraduates
- Percentage of first-time, full-time, degree- or certificate-seeking undergraduates who are from the state in which the institution is located; the percentage from other states; and the percentage who are international students
- Percentages of first-time, full-time, degree- or certificate-seeking students disaggregated by race/ethnicity
- Graduation rates (fall enrollment data are used to determine cohorts); and
- Student-to-faculty ratio

The HEOA also requires institutions to disclose to current and prospective students the retention rates for degree/certificate-seeking, first-time, full-time undergraduates (HEA Sec. 485(a)(1)(a)).

Other Requirements

Race/Ethnicity. The new categories for reporting race/ethnicity were first implemented in IPEDS in 2008-09 and were mandatory for EF beginning with the 2011-12 collection year.

Classification of Instructional Programs. Reporting data using the 2010 version of CIP has been required since the 2010-11 data collection year.

Revised Categories for Postbaccalaureate Programs. The new postbaccalaureate award categories and definitions were implemented for the EF component in 2008-09 and became mandatory in 2010-11.

Upcoming Changes

The following changes are planned for the EF component:

- Add a new part to the survey to collect data on the number of students enrolled in any distance education and the number of students enrolled exclusively in distance education. Data will be broken out by student level and location.

IPEDS Finance (F) Component Summary

History

The Financial Statistics of Institutions of Higher Education for Fiscal Year 1986 Survey was one of the last two HEGIS surveys to be conducted. The first IPEDS Finance (F) Survey was conducted in 1987-88 (FY 1987). All institutions reported the same finance information using the “Common Form” until FY 1997. The Finance form F1-A was revised in 1997-98 due to changes in accounting and financial reporting standards issued by the Financial Accounting Standards Board (FASB) for private nonprofit institutions. The revised form included special instructions for private for-profit institutions. An IPEDS F survey form (F3) for private-for-profit institutions was implemented in 1999-2000. Public institutions continued to report financial data based on Common Form reporting guidelines through FY 2002. The Finance form for public institutions was revised in 2002-03 following new standards implemented by the Governmental Accounting Standards Board (GASB). The new form was phased in between 2002-03 and 2004-05. The IPEDS TRP #18 recommended changes to align the Finance forms for public institutions using GASB standards and institutions using FASB standards to improve comparability and increase the utility of the data collected. Those changes were implemented in 2008-09 and 2009-10.

Summary of Statutory Requirements

The 1994 NCES reauthorization statute (P.L. 103-382 included requirements that NCES collect and disseminate data at all levels of education on the financing and management of education, including data on revenues and expenditures (20 U.S.C. 9543(a)(I)).

IPEDS Student Financial Aid (SFA) Component

History

The SFA component was developed in 1999 to satisfy requirements in the 1998 amendments to the HEA (P.L. 105-244). The SFA data originally were included with price information on the 1999 IPSFA. The price information was moved to the IC component in 2000-01. The SFA component was significantly revised in 2008-09 and 2009-10 to meet requirements in the HEOA.

Summary of Statutory Requirements

Higher Education Act Amendments of 1998 (P.L. 105-244). The 1998 amendments to the HEA required NCES to collect and disseminate information on tuition and fees for a full-time undergraduate student, cost of attendance for a full-time undergraduate student, the number of undergraduate students receiving financial assistance, and the average amount of each type of financial assistance received.

Higher Education Opportunity Act of 2008 (P.L. 110-315). The amendments to the HEA in the HEOA of 2008 (HEA Sec. 132(i)) require NCES to post several types of information for each institution on the College Navigator website, including the following items collected in the SFA component (price information is collected in the IC component):

- College affordability and transparency lists (beginning July 1, 2011) – based on tuition and fees for a full-time, first-time undergraduate student for the most recent academic year, and changes in tuition and fees over the most recent 3-year period; and net price for the most recent year, and changes in net price over the most recent 3-year period. Net price is to be calculated as the price of attendance minus average grant aid provided (for public institutions, net price is to be calculated for in-state students)
- Link to institution pricing summary page with information on
 - average full-time undergraduate tuition and fees for each of the 3 most recent years;
 - average annual percentage change and dollar change in tuition and fees for each of the 3 most recent years;
 - average net price for 3 years;
 - average annual percentage change and dollar change in net price for each of the 3 most recent years; and
 - average net price for students receiving Title IV, HEA financial aid disaggregated by income categories (for the most recent year beginning 2010, and for the most recent 3 years beginning 2013)
- Average annual grant amount (including federal, state, and institutional aid) awarded to a first-time, full-time undergraduate student
- Average annual amount of federal student loans provided through the institution to undergraduate students

- Total annual grant aid awarded to undergraduate students from the federal government, a state, the institution, and other sources known by the institution.
- Percentage of first-time, full-time undergraduate students receiving federal, state, and institutional grants, student loans, and any other type of student financial assistance known by the institution
- Number of students receiving Federal Pell Grants

Net price data for public institutions only apply to students who pay the in-state or in-district tuition rate. In 2011-12, program reporters will begin reporting net price data for their largest program.

The HEOA-mandated changes to the SFA component include new items and items that are reported differently – previously reported average grant amounts are now calculated from reported total grant amounts and the number of students receiving the grants; and previously combined information on loans and federal grants are now reported separately. Financial aid data must be provided for four groups of students (instead of one).

Prior to enactment of the HEOA, the SFA component collected information for the most recent prior year. The HEOA provisions mandating that NCES disseminate information on 3 years of net price information require collecting certain SFA information for 2 additional prior years.

In 2009-10, NCES clarified that for reporting grant or scholarship aid in SFA, “aid received” should refer to amounts that were awarded to, and accepted by, students. In 2011-12, NCES further clarified that for reporting grant or scholarship aid in SFA, institutions should report “aid awarded” rather than “aid received” or “aid awarded and accepted.” Amounts awarded may be different from the amounts that were actually disbursed to students.

Summary of Student Financial Aid Data Included in *Digest of Education Statistics 2010*

Graduation Rates:

IPEDS Graduation Rates, 200% Graduation Rates, and Supplemental Graduation Rates

History

The Graduation Rates Survey (GRS) was added to IPEDS in 1997-98, following enactment of the Student Right-to-Know and Campus Security Act of 1990 (P. L. 101-542). The Graduation Rates Supplement (GRS-S) form was added in 1999-2000 to allow institutions to report completions within 150 percent of normal time for students in long programs (3 years or longer for 2-year institutions, 5 years or longer for 4-year institutions). The mandates for NCEs in the HEOA required the introduction of the 200% Graduation Rates (GR200) component in 2009-10 (first administered in the spring of 2009 as the Spring Supplemental Survey). The GRS-S was not collected beginning with the 2011-12 collection year.

Summary of Statutory Requirements

National Center for Education Statistics. The 1994 NCEs reauthorization statute (P.L. 103-382) added the requirement that NCEs collect, analyze, cross-tabulate, and report, "to the extent feasible," by gender and race (and other population characteristics). The 2002 NCEs reauthorization statute (P.L. 107-279) added other population characteristics, including ethnicity (20 U.S.C. 9543(a)).

Student Right-to-Know (SRK). The SRK and Campus Security Act of 1990 added graduation rates and campus security reports to the information that institutions that participate in Title IV, HEA student financial aid programs are required to make available to current and prospective students. Final regulations implementing the SRK provisions were published in the *Federal Register* on November 1, 1999 (34 CFR 668.41, 34 CFR 668.45 and 34 CFR 668.48). The 1999 SRK regulations required institutions to disclose the completion or graduation rate for first-time, full-time degree- or certificate-seeking undergraduate students who complete or graduate within 150 percent of the normal time for completion or graduation from their program. An institution that determines that its mission includes providing substantial preparation for students to enroll in another [Title IV, HEA] eligible institution is also required to disclose the transfer-out rate for its first-time, full-time, degree- or certificate-seeking undergraduate students who did not complete or graduate from their programs, but subsequently enrolled in another eligible program within 150 percent of the normal time for completion or graduation from their program.

Institutions participating in Title IV, HEA programs that provide athletically related financial aid are also required to report enrollment and graduation rate information to the Department of Education, and disclose the information to prospective student athletes, their parents, and their

high school coach and guidance counselor at the time an offer of aid is made. This information must include enrollment data by race and gender; the number of students receiving athletically related aid, by gender and race within sport; the completion or graduation rate, and, if applicable, the transfer-out rate, for all certificate- or degree-seeking first-time, full-time undergraduates; and the completion or graduation rate, and, if applicable, the transfer-out rate for the subset who received athletically related aid, categorized by race and gender within sport.

Higher Education Act. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website (HEA Sec. 132(i)), including the following graduation rates:

- The percentages of first-time, full-time, degree- or certificate-seeking undergraduate students enrolled at the institution who obtain a degree or certificate within
 - the normal time (100 percent) for completion of, or graduation from, the student's program;
 - 150 percent of the normal time for completion of, or graduation from, the student's program; and
 - 200 percent of the normal time for completion of, or graduation from, the student's program.

Prior to enactment of the HEOA, the GRS for 4-year institutions collected data for completions within 4 years (100 percent of normal time), 5 years, and 6 years (150 percent of normal time) for students in the bachelor's degree-seeking subcohort, and completions within 150 percent of normal time for the subcohort of students seeking other than a bachelor's degree. Rates for 150 percent of normal time were collected for less-than-4-year institutions. Following enactment of the HEOA, data on the 100 percent and 2005 time graduation rates were collected on the Spring Supplemental Survey in the spring of 2009. The GRS forms for 2-year and less-than-2-year institutions were modified in 2009-10 to collect data for completions within 100 percent of normal time. The Spring Supplemental Survey transformed into the GR200 component, and was introduced in 2009-10 to collect data on completions within 200 percent of normal time from 4-year and less-than-4-year institutions.

The HEOA also amended the SRK **disclosure** requirements. The graduation rate information that institutions must disclose to current and prospective students must be disaggregated by gender, by race/ethnicity, and by financial aid status:

- Recipients of a Federal Pell Grant
- Recipients of a subsidized Stafford Loan who did not receive a Pell Grant
- Students who did not receive either a Pell Grant or a subsidized Stafford Loan

(This requirement does not apply to 2-year institutions until 2011-12.)

Other Requirements

The new categories for reporting race/ethnicity were first implemented in IPEDS in 2008-09 and are mandatory for all IPEDS components beginning 2011-12.

IPEDS Human Resources (HR) Surveys

Survey History

Salaries. The Salaries, Tenure and Fringe Benefits of Full-Time Instructional Faculty Survey was part of HEGIS. The IPEDS Salaries survey was conducted in 1987-88 and 1989-90, and has been conducted annually since 1990-91. Degree-granting institutions are required to complete the Salaries survey (unless all instructional staff are employed on a part-time basis, all instructional staff are military personnel, all instructional staff contribute their services, and/or all instructional staff teach preclinical or clinical medicine).

Fall Staff. Fall staff data were collected in HEGIS until 1976-77. Fall staff data originally were collected biennially in IPEDS, beginning 1987-88, for institutions with fewer than 15 full-time employees and for a sample of less than 2-year institutions. The Equal Employment Opportunity Commission (EEOC) collected fall staff data, biennially from 1975 to 1991, on the Higher Education Staff Information form (EEO-6), from institutions with 15 or more full-time employees. In 1993, NCES began to collect fall staff data in IPEDS for the educational component of the institutions surveyed by the EEOC. (The 1993-94 IPEDS Fall Staff survey form for degree-granting institutions was similar to the EEO-6 form.) Since 2007-08, degree-granting institutions with fewer than 15 full-time employees are also required to report staff data by race/ethnicity and gender in alternate years (optional in 2006-07).

Employees by Assigned Position (EAP). The EAP was added to IPEDS in 2001-02, based on a recommendation by the IPEDS Redesign Task Force. The EAP was designed to clarify which staff was reported in the Fall Staff and the Salaries surveys.

Human Resources. The Salaries, Fall Staff, and EAP surveys were merged to form a single HR component in 2005-06, based on a recommendation by the IPEDS TRP.

Summary of Statutory Requirements

Civil Rights. Institutions that have 15 or more full-time employees are required, under Title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972 (29 CFR 1602, subparts O and P), to biennially submit fall staff data.

The 1976 amendments (P.L. 94-273) to the 1974 statute (P.L. 93-380) establishing NCES added a provision (later removed) requiring the coordination of the collection of information and data acquisition activities of the Education Division [of HEW] and the Office for Civil Rights [OCR]. The OCR and NCES cooperate for reports of racial/ethnic data required for institutions that

receive federal financial assistance to comply with the Department of Education regulations implementing Title VI of the Civil Rights Act of 1964 (34 CFR 100.6(b)).

National Center for Education Statistics. The 1994 NCES reauthorization statute (P.L. 103-382) added the requirement that NCES collect, analyze, cross-tabulate, and report, “to the extent feasible,” by gender and race (and other population characteristics). The 2002 NCES reauthorization statute (P.L. 107-279) mandated additional population characteristics, including ethnicity (20 U.S.C. 9543(a)(3)).

Higher Education Act. The HEA Amendments of 1998 (P.L. 105-244) required that the relevant parts of IPEDS be redesigned “to improve the usefulness and timeliness of the data collected.....” The IPEDS Redesign Taskforce recommended several changes, including the addition of the EAP survey, a count of the number of employees that provide instruction regardless of their functional classification, and the separation of medical employees from nonmedical employees for institutions with a medical school.

Higher Education Opportunity Act of 2008. The amendments to the HEA in the HEOA (P.L. 110-315) require NCES to post several types of information for each institution on the College Navigator website, including the following items (HEA Sec. 132(i)):

- the number of full-time and part-time faculty
- the number of graduate assistants with primarily instructional responsibilities at the institution

Other Requirements

The new categories for reporting race/ethnicity were first implemented in IPEDS in 2008-09, and are mandatory for HR in 2010-11.

Upcoming Changes

The following changes are planned for the HR component:

- Add a screening question to determine if an institution has graduate assistants (all degree-granting institutions).
- Eliminate the graduate assistant column from the part-time section and implement a new, condensed screen in the EAP section for graduate assistants. This screen will collect data in the following three categories, each subdivided by medical versus nonmedical personnel: Graduate assistant—teaching, graduate assistant—research, and graduate assistant—other (all degree-granting institutions).
- Eliminate the contract length differentiation from the Part E (Salaries) survey screens (all degree-granting institutions).

- Add an additional column to the Part E (Salaries) survey screen after the salary outlays column to collect the number of months covered by those salary outlays (all degree-granting institutions).
- Add an additional screen to Part E (Salaries) to be displayed immediately after the existing salary outlays screen to collect salary outlays for full-time staff in the following categories: executive/administrative/managerial, other professionals, technical and paraprofessionals, clerical and secretarial, skilled crafts, and service/maintenance (all degree-granting institutions).
- Eliminate noninstructional research and public service full-time staff from Part G reporting in the fall staff section (degree-granting institutions with 15 or more full-time staff).
- Add a screening question to determine if the institution has a tenure system (degree-granting institutions with 15 or more full-time staff).
- Add the following nontenure track contract faculty categories to Part G (fall staff): multiyear contract, annual contract, less than annual contract, and without faculty status (degree-granting institutions with 15 or more full-time staff).

Summary of Human Resources Survey Data Included in *Digest of Education Statistics 2010*

Human Resources Data	Earliest Data	Latest Data
Average Salaries for Full-Time Instructional Faculty on 9-Month Contracts by Academic Rank and Gender	1970-71	2008-09
