

ERRATA SHEET

**Early Childhood Program Participation, Results from the National Household Education Surveys
Program of 2012 (NCES 2013-029.REV2)**

June 2019

The following estimate table was found to contain an error in the number of children column:

Table 4. Mean per child hourly out-of-pocket expense paid for families with any out-of-pocket expense for child care for children from birth through age 5 and not yet in kindergarten for weekly nonparental primary care arrangements, by child and family characteristics: 2012

One column of table 4 included a group of children who were reported as excluded from the table population in the table notes. Specifically, the estimated populations, and their standard errors, in the “Number of children (thousands)” column was incorrect in the initial report because they included those who reported \$0 for their out-of-pocket expense for care. The revised report excludes those children from the analysis for Table 4. This correction aligns the estimates and standard errors for the total column with the table note which reads “Children for whom no fee was charged, for whom another source paid the entire fee, or for whom the period of time covered by the amount indicated (e.g., per hour, per week) could not be determined are excluded from the estimates.”

The original and correct population and standard error estimates (Table 4) and standard errors (Table C-4) are presented in the tables on the following pages. The corrected estimates did not result in any changes to the report's "Selected Findings." A corrected version of the report is available at <http://nces.ed.gov/pubs2013/2013029rev2.pdf>
