

**ELS:2012 Second Follow-up
Student-Institution Codebook**

Variable Name: STU_ID

Record #1, Position: 1 - 6, Format: N6.

Variable Label: Student ID

Variable Description:

- ID of the student linked to the institution.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshmen sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Code	Value Label	Frequency	Percentage
c	101102-461234	33,495	100.00
TOTALS		33,495	100.00

Variable Name: F2IORDER

Record #1, Position: 7 - 8, Format: N2.

Variable Label: F2 Institution file order number

Variable Description:

- This variable indicates the order in which the postsecondary institution(s) associated with each respondent appear on the institution file. F2IORDER is intended to identify and link to institutions of particular interest; for example, the first "real" institution attended (see F2PS1) and the 2006 postsecondary institution (see F2PS2006). For any one respondent, institution(s) are ordered from first to last as follows: institution(s) which the respondent attended, sorted chronologically from earliest start date to latest start date, followed by institution(s) which the respondent applied to but did not attend, listed in order in which they were provided by the respondent. Thus, for respondents with postsecondary attendance, the chronologically-first attended institution will always appear first (F2IORDER=1).

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Variable Name: F2ILEVEL

Record #1, Position: 9 - 10, Format: N2.

Variable Label: Level of institution

Variable Description:

- Institutional level as indicated by the Integrated Postsecondary Education Data System (IPEDS) variable "ICLEVEL"; for institutions appearing on the ELS:2002 institution file without an IPEDS code, institutional level (if available) was provided by the respondent.

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Source: ELS:2002 Second follow-up interview; Integrated Postsecondary Education Data System (IPEDS)

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
1	4-year college or university	25,572	76.35

Variable Name: F2ICNTRL

Record #1, Position: 11 - 12, Format: N2.

Variable Label: Control of institution

Variable Description:

- Institutional control as indicated by the Integrated Postsecondary Education Data System (IPEDS) variable "CONTROL"; for institutions appearing on the ELS:2002 institution file without an IPEDS code, institutional control (if available) was provided by the respondent.

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Source: ELS:2002 Second follow-up interview; Integrated Postsecondary Education Data System (IPEDS)

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>

9	Private for-profit, less than 2-year	396	1.18
-9	Missing	115	0.34
TOTALS		33,495	100.00

Variable Name: F2IAPPLY

Record #1, Position: 15 - 16, Format: N2.

Variable Label: Whether applied in first round of applications

Variable Description:

- Indicates whether the respondent applied for admission to the associated postsecondary institution.

Note: The "first round of applications" refers to when the respondent first applied to a postsecondary institution, as reported in F2A02 (i.e. while still in high school or sometime after high school).

The number of "applied-to" schools appearing on the F2 Institution File for any given respondent may be less than, but not more than, the value stored in F2NAPPLY; for example, when a respondent reports (in F2B03) having applied to 10 schools but is only able to provide information for 8 of those schools.

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Source: ELS:2002 Second follow-up interview

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
0	No	3,066	9.15

-9	Missing	782	2.33
TOTALS		33,495	100.00

Variable Name: F2IATTND

Record #1, Position: 27 - 28, Format: N2.

Variable Label: Whether attended this postsecondary institution

Variable Description:

- Indicates whether the respondent attended the associated post-secondary institution.

The number of attended schools appearing on the F2 Institution File for any given respondent may be less than, but not more than, the value stored in F2NATTND; for example, when a respondent reports (in F2B10) having attended 3 schools but is only able to provide information for 2 of those schools.

Applies to: All postsecondary institutions on the ELS F2 Institution File.

Source: ELS:2002 Second follow-up interview

Code	Value Label	Frequency	Percentage
0	No	20,200	60.31
1	Yes	13,275	39.63
-9	Missing	20	0.06
TOTALS		33,495	100.00

Variable Name: F2IFTPT

Record #1, Position: 29 - 30, Format: N2.

Variable Label: Intensity of enrollment at postsecondary school

Variable Description:

- While enrolled at [school name (F2PSNAME)], have you been...

Enrollment intensity at the associated postsecondary institution.

Applies to: All attended institutions on the ELS F2 Institution File (i.e. where F2IATTND=1).

Source: ELS:2002 Second follow-up interview

Code	Value Label	Frequency	Percentage
1	Full-time or mainly full-time	10,834	32.35
2	Part-time or mainly part-time	1,780	5.31
3	An equal mix of full-time and part-time	632	1.89
-3	Item legitimate skip/NA	20,200	60.31
-9	Missing	49	0.15
TOTALS		33,495	100.00

Variable Name: F2ISTART

Record #1, Position: 31 - 32, Format: N2.

Variable Label: First period of attendance at this postsecondary institution

Variable Description:

- What month and year did you first start attending [school name]?

Note: F2ISTART indicates the earliest period of enrollment at a particular institution; the student-level variable F2PSSTRT indicates the respondent's earliest period of enrollment across all attended institutions.

Second follow-up data collection spanned from January through August 2006; information on the respondent's 2006 postsecondary enrollment is therefore dependent on the date of their F2 participation. As a result, "2006" has been constructed as a single time period rather than using the cut-points employed for 2004 and 2005.

Applies to: All attended institutions on the ELS F2 Institution File (i.e. where F2IATTND=1).

Source: ELS:2002 Second follow-up interview

Code	Value Label	Frequency	Percentage
1	June 2004 or earlier	944	2.82
2	July 2004 - December 2004	8,648	25.82
3	January 2005 - June 2005	1,363	4.07
4	July 2005 - December 2005	1,643	4.91
5	2006	658	1.96
-3	Item legitimate skip/NA	20,200	60.31
-9	Missing	39	0.12
TOTALS		33,495	100.00

Variable Name: F2IEND

Record #1, Position: 33 - 34, Format: N2.

Variable Label: Last period of attendance at this postsecondary institution

Variable Description:

- Last period of attendance at the associated postsecondary institution. Please see the student-level variable F2PSEND for the respondent's last period of attendance across all attended institutions.

Second follow-up data collection spanned from January through August 2006; information on the respondent's 2006 postsecondary enrollment is therefore dependent on the date of their F2 participation. As a result, "2006" has been constructed as a single time period rather than using the cut-points employed for 2004 and 2005.

Applies to: All attended institutions on the ELS F2 Institution File (i.e. where F2IATTND=1).

TOTALS		33,495	100.00

Variable Name: F2IMO45

Record #1, Position: 35 - 36, Format: N2.

Variable Label: Number of months enrolled in institution in 2004-2005 school year

Variable Description:

- Number of months attended at the associated institution during the 2004-2005 school year (from July 2004 [F2I0407] through June 2005 [F2I0506]). Values are calculated for all attended postsecondary institutions, regardless of the attendee's high school completion status and/or high school exit date.

Applies to: All attended institutions on the ELS F2 Institution File (i.e. where F2IATTND=1).

Source: ELS:2002 Second follow-up interview

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
c	0-12,6.9366/4.2996	13,256	39.58

-9	Missing	39	0.12
TOTALS		33,495	100.00

Variable Name: F2IPRE_P

Record #1, Position: 37 - 38, Format: N2.

Variable Label: Number of months enrolled at postsecondary institution in 2002-2003

Variable Description:

- Number of months enrolled at postsecondary institution in 2002-2003

This variable indicates the total number of months the respondent was enrolled at the associated postsecondary institution during the 2002 and 2003 calendar years. Month-by-month indicators (F2I0201 through F2I0312) are not included on the ECB due to low incidence of monthly enrollment prior to 2004 among sample members.

Note: F2IPRE_P is a categorized public-use version of the restricted-use variable F2IPRE4.

SAS Code:

```
If 1<=F2IPRE4<=3 then F2IPRE_P=1;
else if 4<=F2IPRE4<=6 then F2IPRE_P=2;
else if F2IPRE4>6 then F2IPRE_P=3;
else F2IPRE_P=F2IPRE4;
```

Applies to: All attended institutions on the ELS F2 Institution File (i.e. where F2IATTND=1).

Source: ELS:2002 Second follow-up interview

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>

**ELS:2012 Third Follow-up
Student-Institution Codebook**

Variable Name: Stu_ID

Record #1, Position: 1 - 6, Format: N6.

Variable Label: Student ID

Variable Description:

- ID of the student linked to the institution.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
C	101101-461234	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3IIPED

Record #1, Position: 7 - 12, Format: N6.

Variable Label: IPEDS code of attended postsecondary institution

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- Postsecondary institution code, based on the the Integrated Postsecondary Education Data System (IPEDS); IPEDS codes were assigned primarily by the survey instrument assisted coder, and secondarily by upcoding activities.

NOTE: A given respondent may have multiple records on the third follow-up student-institution file with F3IIPED values of 999995, 999996, 999997, and/or 999998; all other F3IIPED values will be associated with a given respondent no more than once (in other words, records in the third follow-up student-institution file will be unique based on pairings of stud_id and F3IIPED, with a handful of exceptions where F3IIPED = 999995, 999996, 999997, or 999998).

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire; Integrated Postsecondary Education Data System (IPEDS).

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- Measure of the associated institution's admissions selectivity based on 2010 Carnegie classifications. Institutions identified as 4-year schools via IPEDS data are further classified as highly selective, moderately selective, or inclusive according to the Carnegie selectivity measure; institutions identified as 4-year schools via IPEDS data with unknown Carnegie selectivity are coded in F3ISELC as "selectivity not classified, 4-year institution". Institutions identified as 2-year or less-than-2-year via IPEDS data are coded as such in F3ISELC. The ELS:2002 institutional selectivity measure is based on the Integrated Postsecondary Education Data System (IPEDS) variable "CCUGPROF" (Carnegie Classification 2010: Undergraduate Profile): "highly selective" 4-year institutions refer to those whose first-year students' test scores places them in roughly the top fifth of baccalaureate institutions; "moderately selective" 4-year institutions refer to those whose first-year students' test scores places them in roughly the middle two-fifths of baccalaureate institutions; "inclusive" 4-year institutions either did not report test score data, or their scores indicate that they extend educational opportunity to a wide range of students with respect to academic preparation and achievement.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire; Integrated Postsecondary Education Data System (IPEDS).

Code	Value Label	Frequency	Percentage
-5	Suppressed	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3IOPNAP

Record #1, Position: 23 - 24, Format: N2.

Variable Label: Attended institution has an open admission policy

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- F3IOPNAP indicates whether the associated institution has an open admission policy for all or most entering first-time undergraduate-level students. Based on the Integrated Postsecondary Education Data System (IPEDS) variable "OPENADMP"; values of "not applicable" in the original IPEDS variable have been set to missing (-9) in F3IOPNAP.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire; Integrated Postsecondary Education Data System (IPEDS).

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
-5	Suppressed	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3ISATV25

Record #1, Position: 25 - 27, Format: N3.

Variable Label: SAT verbal 25th percentile score (from SATVR25 in IPEDS)

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- SAT Verbal 25th percentile score of the institution's first-time, degree/certificate-seeking undergraduate students, as indicated by the Integrated Postsecondary Data System (IPEDS). Scores were reported by institutions which required them for admission, and had 60 percent or more of their first-time, degree/certificate-seeking undergraduate students submit said test score.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire; Integrated Postsecondary Education Data System (IPEDS).

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>

Variable Name: F3IHBCU

Record #1, Position: 49 - 50, Format: N2.

Variable Label: Attended institution is an HBCU

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- F3IHBCU indicates whether the associated institution is flagged as a Historically Black College or University by the Integrated Postsecondary Education Data System (IPEDS).

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire; Integrated Postsecondary Education Data System (IPEDS).

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
-5	Suppressed	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3ISTDATE

Record #1, Position: 51 - 56, Format: N6.

Variable Label: Year/month R first attended postsecondary institution

Comment: For the purpose of disclosure avoidance, dates for this variable are reported as year-only and top-coded at 2012 on the public-use file.

Variable Description:

- F3ISTDATE indicates the year and month the respondent began attending the associated postsecondary institution.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
C	2003-2012	19,913	95.05
-9	Missing	1,038	4.95
TOTALS		20,951	100.00

Variable Name: F3IFIRSTINST

Record #1, Position: 57 - 58, Format: N2.

Variable Label: Institution is R's first-attended postsecondary institution

Variable Description:

- F3IFIRSTINST indicates whether the associated postsecondary institution is the respondent's first-attended institution. If the respondent has a "first-attended institution" identified as of the second follow-up data, then that institution is identified as such in the third follow-up student-institution file

(see F2PS1 for further detail on how first-attended institutions was identified in the second follow-up); if the respondent does not have a "first-attended institution" identified as of the second follow-up, then the institution with the earliest F3ISTDATE value associated with that student is flagged as their first-attended institution.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire; Second follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
0	No	9,249	44.15
1	Yes	11,357	54.21
-9	Missing	345	1.65
TOTALS		20,951	100.00

Variable Name: F3ILASTINST

Record #1, Position: 59 - 60, Format: N2.

Variable Label: Institution is R's last/currently attended postsecondary institution

Variable Description:

- F3ILASTINST indicates whether the associated postsecondary institution is the respondent's last/currently-attended institution, as indicated by the respondent in the third follow-up questionnaire. The student-level composite variable F3EDSTAT can be used to distinguish whether F3ILASTINST identifies a last-attended or a currently-attended institution, i.e. F3ILASTINST identifies a currently-attended institution for respondents where F3EDSTAT = 1, 2, 3, or 4; conversely, F3ILASTINST identifies a last-attended institution for respondents where F3EDSTAT=5.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
0	No	9,398	44.86
1	Yes	11,462	54.71
-9	Missing	91	0.43
TOTALS		20,951	100.00

Variable Name: F3ICREDNUM

Record #1, Position: 61 - 62, Format: N2.

Variable Label: Number of credentials earned at postsecondary institution

Variable Description:

- F3ICREDNUM indicates the number of credentials the respondent earned from the associated postsecondary institution. If the respondent earned one or more credentials from the associated postsecondary institution, information regarding the first/only credential earned from that institution will be stored in variables named F3ICREDxxxx_1; if the respondent earned two credentials from the associated postsecondary institution, information regarding the second credential earned from that institution will be stored in variables named F3ICREDxxxx_2.

Applies to: All student-institution pairings on the ELS:2002 third follow-up student-institution file.

Source: ELS:2002 Third follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
0	0	12,698	60.61
1	1	7,666	36.59
2	2 or more	458	2.19
-9	Missing	129	0.62
TOTALS		20,951	100.00

Variable Name: F3ICREDTYPE_1

Record #1, Position: 63 - 64, Format: N2.

Variable Label: Credential #1 (highest/only cred from this inst): credential type

Comment: For the purpose of disclosure avoidance: "Post-Master's certificate" recoded as "Master's degree", combined "Doctoral degree - professional practice", "Doctoral degree - research/scholarship" and "Doctoral degree - other" on the public-use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDTYPE_1 indicates the credential type for the respondent's highest/only credential earned from the associated postsecondary institution. See Chapter 7 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1.

Source: ELS:2002 Third follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>

TOTALS		20,951	100.00

Variable Name: F3ICREDDATE_1

Record #1, Position: 65 - 70, Format: N6.

Variable Label: Credential #1 (highest/only cred from this inst): year/month earned

Comment: For the purpose of disclosure avoidance, dates for this variable are reported as year-only, bottom-coded at 2004 and top-coded at 2012 on the public-use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDDATE_1 indicates the year and month the respondent earned their highest/only credential from the associated postsecondary institution. See Chapter 7 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding variables in credential block #1 (i.e. variables following the

naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1.

Source: ELS:2002 Third follow-up questionnaire.

Code	Value Label	Frequency	Percentage
C	2004-2012	8,040	38.38

TOTALS		20,951	100.00

Variable Name: F3ICREDFIELD_1

Record #1, Position: 71 - 120, Format: A50

Variable Label: Credential #1 (highest/only cred from this inst): field-of-study (verbatim)

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDFIELD_1 indicates the primary field-of-study for the respondent's highest/only credential earned from the associated postsecondary institution. See Chapter 7 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1.

Source: ELS:2002 Third follow-up questionnaire.

Code	Value Label	Frequency	Percentage
-5	Suppressed	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3ICREDGEN_1

Record #1, Position: 121 - 122, Format: A2

Variable Label: Credential #1 (highest/only cred from this inst): field-of-study 2-digit code

Comment: For the purpose of disclosure avoidance, this variable has been coarsened on the public-use file such that each (non-reserve code) value has a frequency of 30 or more.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDGEN_1 indicates the two-digit CIP code (Classification of Instructional Programs code) for the primary field-of-study associated with the respondent's highest/only credential earned from the associated postsecondary institution. CIP codes were assigned primarily by the survey instrument assisted coder, supplemented by upcoding activities. See Chapter 5 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding upcoding activities; see Chapter 7 of the ELS:2002/2012 Data File Documentation for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1.

Source: ELS:2002 Third follow-up questionnaire.

Variable Name: F3ICREDSPEC_1

Record #1, Position: 123 - 129, Format: A7

Variable Label: Credential #1 (highest/only cred from this inst): field-of-study 6-digit code

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDDGEN_1 indicates the six-digit CIP code (Classification of Instructional Programs code) for the primary field-of-study associated with the respondent's highest/only credential earned from the associated postsecondary institution. CIP codes were assigned primarily by the survey instrument assisted coder, supplemented by upcoding activities. See Chapter 5 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding upcoding activities; see Chapter 7 of the ELS:2002/2012 Data File Documentation for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1.

Source: ELS:2002 Third follow-up questionnaire.

Variable Name: F3ICREDFIELD2_1

Record #1, Position: 132 - 181, Format: A50

Variable Label: Credntl #1 (highest/only cred from this inst): 2nd maj fld-of-study (verbatim)

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDFIELD2_1 indicates the respondent's secondary field-of-study for their highest/only credential earned from the associated postsecondary institution. See Chapter 7 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1 and F3ICREDBLMAJ_1 = 1.

Source: ELS:2002 Third follow-up questionnaire.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
-5	Suppressed	20,951	100.00
TOTALS		20,951	100.00

Variable Name: F3ICREDGEN2_1

Record #1, Position: 182 - 183, Format: A2

Variable Label: Credntl #1 (highest/only cred from this inst): 2nd maj fld-of-study 2-digit code

Comment: Variable suppressed with -5 values on the public use file.

Variable Description:

- If the respondent has earned one or more credentials from the associated institution, F3ICREDGEN2_1 indicates the two-digit CIP (Classification of Instructional Programs) code for the secondary field-of-study associated with the respondent's highest/only credential earned from the associated postsecondary institution. CIP codes were assigned primarily by the survey instrument assisted coder, supplemented by upcoding activities. See Chapter 5 of the ELS:2002/2012 Data File Documentation (NCES 2014-364) for further information regarding upcoding activities; see Chapter 7 of the ELS:2002/2012 Data File Documentation for further information regarding variables in credential block #1 (i.e. variables following the naming convention "F3ICREDxxxx_1") and credential block #2 (i.e. variables following the naming convention "F3ICREDxxxx_2").

Applies to: Student-institution pairings on the ELS:2002 third follow-up student-institution file where F3ICREDNUM >= 1 and F3ICREDBLMAJ_1 = 1.

ELS:2012 School Codebook

Variable Name: SCH_ID

Record #1, Position: 1 - 4, Format: N4.

Variable Label: School ID

Variable Description:

- School ID provides linkage to school-level information. For base-year schools, school ID includes the 3-digit stratum (STRAT_ID) variable and 1-digit PSU concatenated together. See descriptions of STRAT_ID and PSU.

Note: For schools added since the base-year component, a school ID was assigned using numbers outside the 3-digit stratum and 1-digit PSU range. The 3-digit stratum ranges from 100 to 461 and the 1-digit PSU ranges from 1 to 3. School IDs added since the Base Year are not associated with strata and PSUs, thus values were created avoiding already existing values associated with strata and PSUs.

Transfer school IDs can be identified as school IDs ranging from 5004 to 7145. New schools, which are schools that split off from the base-year schools by the first follow-up, were assigned school IDs ranging from 9995 to 9999. School IDs were added for new schools in the First Follow-up and transfer schools in the transcript component. These new schools are identified on the student file in F1RSCH2 and F1RSCHL, and can be linked from the student file to SCH_ID on the school file in order to obtain more school information.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the

component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

<i>Code</i>	<i>Value Label</i>	<i>Frequency</i>	<i>Percentage</i>
c	1011-9999	1,954	100.00
TOTALS		1,954	100.00

Variable Name: STRAT_ID

Record #1, Position: 5 - 7, Format: N3.

Variable Label: Stratum

Variable Description:

- This variable is a component of the ELS:2002 base-year school ID (first three digits). The STRAT_ID is not available for schools added since the base-year. STRAT_ID indicates the analysis stratum to be used for computing Taylor Series variance estimates. The analysis strata were formed from the sampling strata used in the first stage of sampling. This STRAT_ID is developed at the school level and copied to the student level. This school level STRAT_ID should be used when generating school estimates. In order to support improved variance estimation, a larger number of strata (with fewer PSUs per stratum -- up to 3 PSUs per stratum) are used in ELS:2002, compared to NEL:88 or HS&B. See section 3.5 of the ELS:2002 Base Year Data File User's Manual.

TOTALS		1,954	100.00

Variable Name: PSU

Record #1, Position: 8 - 9, Format: N2.

Variable Label: Primary sampling unit

Variable Description:

- This variable is a component of the ELS:2002 base-year school ID

(fourth digit). The PSU is not available for schools added since the base-year. PSU indicates the analysis primary sampling unit (PSU, i.e., School) to be used for computing Taylor Series variance estimates. This PSU is developed at the school level and copied to the student level. This school level PSU should be used when generating school estimates. In order to support improved variance estimation, a larger number of strata (with fewer PSUs per stratum -- up to 3 PSUs per stratum) are used in ELS:2002, compared to NELS:88 or HS&B. See section 3.5 of the ELS:2002 Base Year Data File User's Manual.

TOTALS		1,954	100.00

Variable Name: BYSCHWT

Record #1, Position: 10 - 19, Format: N10.4

Variable Label: School weight

Variable Description:

- This weight applies to all high schools with 10th grades in the fifty states and the District of Columbia in the 2001-2002 school year. This weight is different from BYADMWT in NELS:88, which was based on completion of the school administrator questionnaire. BYSCHWT is available for all 752 sample schools that gave permission for the conduct of ELS:2002 and can be used with administrator data, library data, or facilities checklist data.

Note: This school level variable is replicated on the student file for all BY eligible sample members.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the

questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Variable Name: F1ADMSTA

Record #1, Position: 40 - 41, Format: N2.

Variable Label: F1 administrator questionnaire status

Variable Description:

- School administrator questionnaire status.

0 not completed

1 completed

Note: This school level variable is replicated on the student file for all F1 responding students attending the sampled school as of spring 2004.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered

that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Record #1, Position: 48 - 49, Format: N2.

Variable Label: Way of teaching students with different abilities

Variable Description:

- 4. Which of the following statements best describes your school's approach to providing instruction in your core curriculum to students who come to you with different abilities, learning rates, interests or motivations (do not include Special Education students when considering your answer)?

(MARK ONE RESPONSE)

We offer differentiated courses in our core curriculum but students have open access to any course provided they have taken the required prerequisite(s)

We offer differentiated courses and do differentiated grouping in our core curriculum

We offer a variety of undifferentiated courses in our core curriculum, and students have open access to any course provided they have taken the required prerequisite(s)

Other

Note: This question contained a footnote with the following text:

DEFINITIONS

Ability levels - the distinction among students, or courses, on the basis of the students' learning aptitudes or past academic achievements, or each course's adaptation to students' levels of readiness and learning rates.

Core curriculum - courses in English, Math, Science, and Social Studies that students can choose from in order to fulfill the school district's graduation requirements.

Differentiated courses - courses that fulfill the same requirements in the core curriculum but differ in terms of content, quantity and/or

intensity of work, or expectations regarding independent work.

Differentiated grouping - a school's approach to providing instruction to students who have been grouped because of similar learning aptitudes or past academic achievements for the purpose of providing them instruction in core curriculum areas that is geared to their abilities in terms of content, quantity and/or intensity of work, or expectations regarding independent work.

Undifferentiated courses - courses that are equivalent in terms of content, quantity and/or intensity of work, or expectations regarding independent work, and are open to students who may have widely differing learning aptitudes or past academic achievements.

Note: This school level variable is replicated on the student file for all BY eligible sample members.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

Variable Name: F1A02

Record #1, Position: 658 - 660, Format: N3.

Variable Label: # of days in school year for 12th graders

Variable Description:

- 2. How many days are in the school year for 12th graders in your school?

Days in the school year for 12th graders

Note: This school level variable is replicated on the student file for all F1 responding students attending the sampled school as of spring 2004.

Note: Values greater than 190 were set to 190. Values less than 160 were set to 160.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshened sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the

routing suggests that a response should have been provided.

Applies to:All respondents.

Variable Name: BYL01

Record #2, Position: 31 - 32, Format: N2.

Variable Label: How library is organized

Variable Description:

- 1. How is this library media center organized?

(MARK ONE RESPONSE)

Centralized (one area in one building)

Decentralized (collections or services available in more than one location on campus or in another building)

Note: This school level variable is replicated on the student file for all BY eligible sample members.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshmen sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Applies to:All respondents.

TOTALS		1,954	100.00

Variable Name: BYF01A

Record #2, Position: 404 - 405, Format: N2.

Variable Label: Trash on front hallway floors

Variable Description:

- 1. Standing at the main entrance into the school, observe the school's front hallway(s) during a time when most students are in class (i.e., a class period). Take as much time as necessary to observe the hallway(s). For each item listed, indicate whether you observed it or not.

(MARK ONE RESPONSE ON EACH LINE)

(Yes, observed; No, did not observe)

a. Trash on the floors

Note: This is one of a series of items, a through j.

Note: This school level variable is replicated on the student file for all BY eligible sample members.

Note: The following reserve codes are used throughout the ECB. This description is added to the first variable of each section to help users understand the meaning of each reserve code.

-1: "Don't know" represents respondents who indicated that they didn't know the answer to the question.

-2: "Refused" represents respondents who indicated that they refused to answer the question

-3: "Item legitimate skip/NA" is filled for questions that are not administered based on routing logic; i.e., the items are not applicable based on responses to prior questions.

-4: "Nonrespondent" is filled for all variables across the entire questionnaire when a sample member did not respond to the questionnaire.

-5: "Out of range" represents questionnaire respondents who reported values that are out of range.

-6: "Multiple response" represents hard copy questionnaire respondents who reported more than one response for an item that requires only one response.

-7: "Partial interview-breakoff" is filled for questions that are not answered because the respondent does not wish to continue the interview or they have run out of time. This also includes particular items that are not included on an abbreviated version questionnaire.

-8: "Survey component legitimate skip/NA" is filled for all items within a survey component for sample members who were not administered that component by design for one of the following reasons: 1) the component was not administered based on their status (e.g., transfer students did not receive certain items on the in-school survey), 2) the sample member was not a part of the study at the time of administration (e.g., first follow-up freshmen sample members were by definition not eligible for the base-year survey), or 3) the sample member was not capable of completing the survey component (e.g., students who were questionnaire-ineligible due to a language barrier or disability at the time of the survey).

-9: "Missing" is filled for questions that are not answered when the routing suggests that a response should have been provided.

Applies to:All Schools.
