Skills of U.S. Unemployed, Young, and Older Adults in Sharper Focus: Results from the Program for the International Assessment of Adult Competencies (PIAAC) 2012/2014: First Look (NCES 2016-039rev).

Since the report was released on March 10, 2016, the following change has been made and is now reflected in the PDFs available for viewing and downloading.

On page C3, the description of the final household reporting sample was revised to ensure the number of respondents in each of the targeted samples was clearly described. The text was revised to read as follows: “Of the 8,490 respondents who completed the background questionnaire, 7,760 were age 16 to 65 and 730 were age 66 to 74. Of the 7,760 respondents who were age 16 to 65, there were 1,450 who were unemployed.”
