NOTES: Codebook frequencies are unweighted. Restricted-use school and student variables (continuous free-lunch and uncollapsed race/ethnicity) are included in school and student questionnaire files. Formats were defined by the OECD and implemented in these codebooks. Some assessment items were assigned partial credit -- for those items, Score 1=partial credit and Score 2=full credit. For all other assessment items, Score 1=full credit. The following is list of assessment items for which partial credit was given:
