## INTRODUCTION

These Web Tables focus on the experiences of 2015-16 bachelor's degree recipients 1 year after completing their degree. The data are from the 2016/17 Baccalaureate and Beyond Longitudinal Study (B&B:16/17), a nationally representative, longitudinal sample survey of students who earned a bachelor's degree during the 2015-16 academic year. B&B:16/17, the first follow-up, was conducted in 2017, about 1 year after the respondents earned their bachelor's degrees. The tables are grouped into five sections that focus on undergraduate education experiences, postbaccalaureate education experiences, employment outcomes, household expenses and finances, and education debt and repayment outcomes of graduates by select demographic, enrollment, and employment characteristics.

### *Undergraduate Education Experiences*

Tables 1.1 through 1.5 detail the undergraduate education experiences of 2015-16 bachelor's degree recipients. Tables 1.1 and 1.2 show the distribution of the control (e.g., public) and level (e.g., 4-year) of the first institution attended and the distribution of the number of institutions attended before completion of the 2015-16 bachelor's degree, respectively, while table 1.3 presents the distribution of the control of the bachelor's degree-granting institution. Table 1.4 focuses on experiences such as breaks in attendance, credit transfers, academic probation, and graduating with academic honors; and table 1.5 shows the distribution of undergraduate majors.

### *Postbaccalaureate Education Experiences*

Table 2.1 displays the percentage of 2015-16 bachelor's degree recipients who applied to graduate school before bachelor's degree completion, enrolled in a postbaccalaureate degree program, or took graduate or professional entrance exams. Tables 2.2 through 2.4 present postbaccalaureate education experiences of graduates who enrolled in additional education within 1 year of bachelor's degree completion. Tables 2.2 and 2.3 show distributions of the institution control and level and field of study for highest postbaccalaureate enrollment. Table 2.4 details how those who enrolled in additional postbaccalaureate education paid for their highest postbaccalaureate enrollment.

## ***Postbaccalaureate Employment Outcomes***

The distributions of number of jobs and number of employers among those who worked for pay within 1 year of bachelor's degree completion are shown in table 3.1. Tables 3.2 through 3.4 examine details of 2015-16 bachelor's degree recipients' first full-time jobs within 1 year of bachelor's degree completion. Table 3.2 includes annualized income at the 25th percentile, median, and 75th percentile and the percentages of graduates who had a salaried job and percentages of those with an employer who offered benefits. Table 3.3 presents the distribution of occupation type. Table 3.4 displays the percentage of graduates whose first employer after bachelor's degree completion was located in the same state as their bachelor's degree institution and whether their first job required a bachelor's degree, was related to their bachelor's degree program, or was a part of the career they were pursuing.

## ***Household Expenses and Finances***

Table 4.1 shows monthly child care, rent, or mortgage, and vehicle loan/lease payments among 2015-16 bachelor's degree recipients 1 year after graduation. Table 4.2 presents household finances including credit card usage; the percentage of graduates with an employer-based retirement account, a non-employer-based retirement account, or no retirement account; and the percentage of graduates who could probably or certainly come up with \$2,000 in the event of an unexpected expense in the next month.

## ***Education Debt and Repayment***

Tables 5.1 through 5.5 examine education debt and repayment among 2015-16 bachelor's degree recipients within 1 year of bachelor's degree completion. Table 5.1 summarizes the percentage of graduates who borrowed federal student loans, the average amount borrowed in total and for undergraduate or graduate education separately, and the average ratio of amount owed to amount borrowed. Among those whose federal student loans were in repayment, table 5.2 shows monthly loan payments at the 25th percentile, median, and 75th percentile; and table 5.3 shows the percentage distribution of federal loan repayment plans. Table 5.4 presents the percentage of graduates who ever had an economic hardship deferment, a forbearance, or a delinquency on their federal student loan repayment; and table 5.5 shows select results of the financial costs of graduates' education, such as taking a job instead of pursuing additional education.

## **DATA**

The estimates presented in these tables were generated from B&B:16/17, conducted in 2017 by the National Center for Education Statistics (NCES). B&B:16/17 respondents were first identified in the 2015-16 National Postsecondary Student Aid Study (NPSAS:16). NPSAS:16 sampled approximately 122,030 students from institutions in the 50 states, the District of Columbia, and Puerto Rico that were eligible to participate in federal Title IV<sup>1</sup> student aid programs. Among them, about 26,500 students were determined to be eligible for B&B:16/17. B&B:16/17-eligible students were those who had completed requirements for a bachelor's degree between July 1, 2015, and June 30, 2016, and were awarded a bachelor's degree by the institution from which they were sampled no later than June 30, 2017.<sup>2</sup> Of the 26,500 eligible students, data were collected from approximately 19,500 respondents.<sup>3</sup> These respondents represent approximately 2.0 million students who completed the requirements for a bachelor's degree in the 2015-16 academic year.

Bachelor's degree recipients in B&B:16/17 were interviewed two times: first in 2016, near the end of their last year as undergraduates (as part of NPSAS:16), and again in 2017, approximately 1 year after they had graduated. The 2017 interview

focused on their undergraduate education, employment histories, preK-12 teaching experiences, and any additional postsecondary enrollment after completing the bachelor's degree in 2015-16.

For an overview of the survey methodology, see *2016/17 Baccalaureate and Beyond Longitudinal Study (B&B:16/17): Data File Documentation*.  
<https://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2020441>

## ANALYSIS

The estimates presented in these Web Tables were produced using PowerStats, a web-based software application that enables users to generate tables for most of the surveys conducted by NCES. Samples drawn for such NCES studies as B&B are not simple random samples; therefore, simple random sample techniques for estimating sampling errors cannot be applied to these data. PowerStats takes into account the complexity of the sampling procedures and calculates standard errors appropriate for such samples. The method for computing sampling errors used by PowerStats involves approximating the estimator by replication of the sampled population using a bootstrap technique.

With PowerStats, users can replicate or expand on the tables presented here. The output from PowerStats includes the table estimates (e.g., percentages or means), the design-adjusted standard errors, and weighted sample sizes for the estimates. If the number of valid cases is too small to produce a reliable estimate (fewer than 30 cases), PowerStats prints the double dagger symbol (§) instead of the estimate.

## VARIABLES USED

The variables used in these Web Tables are listed below. Visit the NCES DataLab website (<https://nces.ed.gov/datalab>) to view detailed information on how these variables were constructed and their sources. Information is available through DataLab's analysis applications—PowerStats, QuickStats, and TrendStats—and from downloadable codebooks available for each dataset through DataLab. After selecting *Baccalaureate and Beyond: 2016/17* as the study to use, click the plus sign on the banner to reveal additional study information and select a codebook by subject or by variable name. The program files that generated the statistics presented in these Web Tables can be found at <https://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2020341>.

Label	Name
Age completed requirements for bachelor's degree	BIAGEATBA
Annualized earned income from first full-time job 12 months after bachelor's degree completion	BISTSALIST
Annualized earned income from most recent full-time job 12 months after bachelor's degree completion	B1YRSAL12RCNT
Applied to graduate school before bachelor's degree completion	BIUGGRADAPP
Average ratio of amount owed to amount borrowed	BIFEDPCTDUE
Bachelor's degree major	BIMAJORS4Y
Control and level of first institution attended	BISECT
Control and level of institution of highest postbaccalaureate enrollment	BIHIDGSEC
Control of bachelor's degree institution	CONTROL
Could certainly or probably come up with \$2,000 in the next month	BIFIN2000
Credit card usage	BICRDBAL
Credit transfer	B1NUTRNACC
Dependency status in 2015-16 academic year	DEPEND
Employer offered benefits	BIBENANY1ST
Employer was located in same state as bachelor's degree institution	BISAMESTATE1ST
Enrolled in a postbaccalaureate degree program within 12 months after bachelor's degree completion	BIENRPG
Ever employed for pay within 12 months after bachelor's degree completion	BIWRK12M
Ever had a delinquency	B1DLQNUM
Ever had a federal loan repayment difficulty	B1FEDRPYDIF
Ever had a forbearance	B1FBNUM
Ever had an economic hardship deferment	B1DFRECEN
Ever on academic probation	BIEXPAP
Ever received a Pell Grant	PELLCUM
Family status 12 months after bachelor's degree completion	B1MARCHA
Federal loans in repayment/Federal loan repayment plan	B1FEDPAYPLAN
Field of study of highest postbaccalaureate enrollment	BIHIDGMAJ
Field of study of highest postbaccalaureate enrollment was the same as bachelor's degree field of study	B1SAMEMAJ

In addition to producing tables, PowerStats users may conduct linear or logistic regressions. Many options are available for output with the regression results. To use the application and for a description of all the options available, users should access the PowerStats website at <https://nces.ed.gov/datalab/index.aspx>.

For more information, contact [NCES.Info@ed.gov](mailto:NCES.Info@ed.gov)

For readers with disabilities, a Section 508-compliant version of these Web Tables is available at <https://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2020341>.

## ENDNOTES

<sup>1</sup> Title IV institutions are those eligible to participate in the federal financial aid programs included in Title IV of the Higher Education Act. These programs include Pell Grants, federal student loans, work-study, and other federal aid.

<sup>2</sup> B&B:16/17-eligible respondents may have been awarded a bachelor's degree up to 1 year after the end of the 2015-16 academic year, to account for any administrative issues that delay the receipt of a degree, such as outstanding fees or graduation paperwork. <sup>3</sup>

The weighted response rate was approximately 71 percent. NCES Statistical Standard 4-4-1 states that "any survey stage of data collection with a unit or item response rate less than 85 percent must be evaluated for the potential magnitude of nonresponse bias before the data or any analysis using the data may be released. Estimates of survey characteristics for nonrespondents and respondents are required to assess the potential nonresponse bias." For the nonresponse bias analysis, see *2016/17 Baccalaureate and Beyond Longitudinal Study (B&B:16/17) Data File Documentation*, chapter 6, section 6.2 (<https://nces.ed.gov/pubsearch/pubsinfo.asp?pubid=2020441>).

## VARIABLES USED—Continued

Label	Name
Graduate federal loan borrowing	B1FEDCUM2
Graduated with academic honors	B1EXPGH
Had breaks in attendance	B1NPCONT
Had salaried job	B1SALEMP1ST
Have a non-employer-based retirement account	B1RETNON
Have an employer-based retirement account	B1RETEMP
Highest education attained by either parent	PAREduc
Highest postbaccalaureate enrollment was at the same institution where bachelor's degree was completed	B1SAMEINST
Job required a bachelor's degree	B1NSFA1ST
Job was part of a career	B1CARINDIST
Job was related to bachelor's degree program	B1NSF19B1ST
Military status as of 2017	B1MILIT
Monthly child care costs	B1CSTDYCR
Monthly federal student loan payment	B1FEDLNPMT
Monthly rent or mortgage payment	B1MTGAMT
Monthly vehicle loan or lease payment	B1CARLOAN
No retirement account	B1RETIRE
Number of employers within 12 months after bachelor's degree completion	B1NUMEMP
Number of institutions attended before completing bachelor's degree	B1NUMINST
Number of jobs within 12 months after bachelor's degree completion	B1TOTJOB
Number of months from first enrollment to bachelor's degree completion	B1PSE_BA
Occupation of first job within 12 months of bachelor's degree completion	B1OCC331ST
Race/ethnicity	RACE
Sex	GENDER
Took a graduate or professional entrance exam as of June 2017	B1GRDEXM
Took job instead of enrolling in additional education	B1AFFEDJB
Took job outside of field of study or a less desirable job	B1AFFLESS
Total federal loan borrowing	B1FEDCUM3
Type of financial aid used to pay for highest postbaccalaureate enrollment	
Assistantships or fellowships	B1HIDGASST
Employer tuition assistance	B1HIDGEMPAID
Federal loans	B1HIDGFED
Grants or scholarships	B1HIDGGRANT
Own money	B1HIDGPOCKET
Personal loan or gift	B1HIDGGIFT
Private loans	B1HIDGPRIV
Undergraduate federal loan borrowing	B1FEDCUM1
Worked more than desired	B1AFFWKMR

Family status 12 months after bachelor’s degree completion <sup>10</sup>							
Unmarried with no dependent children	24.8	24.3	0.5	75.2	47.4	25.9	1.9
Unmarried with dependent children	37.8	34.2	3.6	62.2	35.5	15.8	10.9
Married with no dependent children	33.0	31.0	2.0	67.0	42.0	20.5	4.5
Married with dependent children	40.2	36.5	3.7	59.8	34.1	14.5	11.2

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Other 2-year or less” includes private nonprofit 2-year, private for-profit 2-year, and all less-than-2-year institutions.

<sup>2</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>3</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>4</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>5</sup> Students classified as independent include those age 24 or over and those under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other students under age 24 are considered dependent.

<sup>6</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>7</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>8</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>9</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>10</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding.

Married with dependent children	25.0	29.7	45.3

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>2</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>3</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>4</sup> Students classified as independent include those age 24 or over and those under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other students under age 24 are considered dependent.

<sup>5</sup> “Other 2-year or less” includes private nonprofit 2-year, private for-profit 2-year, and all less-than-2-year institutions.

<sup>6</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>7</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>8</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>9</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>10</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding.

Married with dependent children	20.9	29.1	70.9	33.4	66.6	6.6

† Not applicable.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

<sup>1</sup> “Breaks in attendance” are time periods of 4 months or more when the student was not enrolled. This does not include time spent in a study-abroad program or time periods between when the respondent completed their bachelor’s degree requirements and when they were awarded the degree.

<sup>2</sup> Examples include summa cum laude, magna cum laude, and cum laude.

<sup>3</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>4</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>5</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>6</sup> Students classified as independent include those age 24 or over and those under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other students under age 24 are considered dependent.

<sup>7</sup> “Other 2-year or less” includes private nonprofit 2-year, private for-profit 2-year, and all less-than-2-year institutions.

<sup>8</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>9</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>10</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>11</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>12</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding.

Married with dependent children	13.3	5.8	2.3	5.1	4.8	10.2	6.0	23.1	23.9	5.6	13.2

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>2</sup> "General studies and other" includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>3</sup> "Other applied" includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>4</sup> "Black, not Hispanic or Latino" includes African American; and "Other or Two or more races, not Hispanic or Latino" includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>5</sup> "High school diploma or less" includes the 0.2 percent of graduates who did not know either parent's highest level of education.

<sup>6</sup> "Some postsecondary education/subbaccalaureate credential" means that at least one parent began postsecondary education and may have earned a credential up to an associate's degree, but neither parent earned a bachelor's or advanced degree.

<sup>7</sup> Students classified as independent include those age 24 or over and those under 24 who are married, have dependents, are veterans or on active duty, are orphans or wards of the courts, are homeless or at risk of homelessness, or were determined to be independent by a financial aid officer using professional judgment. Other students under age 24 are considered dependent.

<sup>8</sup> "Other 2-year or less" includes private nonprofit 2-year, private for-profit 2-year, and all less-than-2-year institutions.

<sup>9</sup> "Unmarried" includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor's degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor's degree was not their first bachelor's degree. Respondents with multiple majors were classified by the first major field of study reported. Detail may not sum to totals because of rounding.

<sup>1</sup> Excludes the 2.6 percent of respondents who were dual enrolled in a bachelor’s degree program and a graduate degree program in the 2015–16 school year.

<sup>2</sup> Includes the Graduate Record Exam (GRE), GRE Subject Test, Medical College Admission Test, Law School Admission Test, Graduate Management Admission Test, and other unspecified graduate or professional entrance exams.

<sup>3</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>4</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>5</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>6</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>7</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>8</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>9</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>10</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. “Postbaccalaureate degree program” refers to any degree or certificate program attended after bachelor’s degree completion, including other undergraduate degrees or certificates or graduate-level degrees or certificates.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Private for-profit” includes 4-year, 2-year, and other private for-profit institutions.

<sup>2</sup> “Public 2-year or other” includes public 2-year, public less-than-2-year, and private nonprofit less-than-4-year institutions.

<sup>3</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>4</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>5</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>6</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>7</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>8</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>9</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>10</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding. This table excludes the 76.7 percent of 2015–16 bachelor’s degree recipients who did not enroll in a postbaccalaureate degree program within 12 months of bachelor’s degree completion. Only postbaccalaureate enrollment at Title IV eligible institutions within the United States and Puerto Rico is included. “Postbaccalaureate degree program” refers to any degree or certificate program attended after bachelor’s degree completion, including other undergraduate degrees or certificates or graduate-level degrees or certificates.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Other” includes biological and physical science and science technology; agriculture and natural resources; general studies and other; social sciences; history; personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; design and applied arts; law and legal services; library sciences; and theology and religious vocations.

<sup>2</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>3</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>4</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>5</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>6</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>7</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>8</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>9</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding. This table excludes the 76.7 percent of 2015–16 bachelor’s degree recipients who did not enroll in a postbaccalaureate degree program within 12 months of bachelor’s degree completion. Only postbaccalaureate enrollment at Title IV eligible institutions within the United States and Puerto Rico is included. “Postbaccalaureate degree program” refers to any degree or certificate program attended after bachelor’s degree completion, including other undergraduate degrees or certificates or graduate-level degrees or certificates.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Federal student loans” includes subsidized and unsubsidized Direct Loans (formerly called Stafford Loans), Perkins Loans, and Graduate PLUS loans. Excludes Parent PLUS loans.

<sup>2</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>3</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>4</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>5</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>6</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>7</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>8</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>9</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. This table excludes the 76.7 percent of 2015–16 bachelor’s degree recipients who did not enroll in a postbaccalaureate degree program within 12 months of bachelor’s degree completion. Only postbaccalaureate enrollment at Title IV eligible institutions within the United States and Puerto Rico is included. “Postbaccalaureate degree program” refers to any degree or certificate program attended after bachelor’s degree completion, including other undergraduate degrees or certificates or graduate-level degrees or certificates.

**Table 3.1. NUMBER OF EMPLOYERS AND JOBS: Percentage of 2015–16 bachelor’s degree recipients who were ever employed within 12 months of bachelor’s degree completion and among those, percentage distribution of number of employers and number of jobs, by demographic and enrollment characteristics in 2017—Continued**

Demographic and enrollment characteristics	Ever employed within 12 months after bachelor’s degree completion	Number of employers within 12 months of bachelor’s degree completion			Number of jobs within 12 months of bachelor’s degree completion		
		One	Two	Three or more	One	Two	Three or more
Military status as of 2017							
Veteran	86.9	69.1	23.7	7.2	59.3	28.9	11.8
Active duty, Reserves, or National Guard	94.5	69.2	24.3	6.5 !	60.5	29.5	10.0
No military service	90.3	61.0	28.8	10.2	51.3	31.8	16.9
Family status 12 months after bachelor’s degree completion <sup>a</sup>							
Unmarried with no dependent children	90.2	59.6	29.4	11.1	50.1	32.1	17.8
Unmarried with dependent children	89.5	68.0	23.2	8.8	56.9	29.5	13.6
Married with no dependent children	91.2	64.4	27.6	7.9	54.6	31.0	14.4
Married with dependent children	90.2	69.8	25.7	4.5	60.2	29.3	10.5

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

<sup>1</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>2</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>3</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>4</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>5</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>6</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>7</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>8</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding.

Married with dependent children	32,400	43,000	58,300	43.9	81.3
Occupation of first job within 12 months of bachelor’s degree completion					
Business/management occupations	31,200	40,000	52,500	57.6	74.1
Life scientists	27,600	34,000	42,400	42.4	63.4
Math, computer, and physical science occupations	40,000	54,000	65,700	66.8	78.6
Engineers	45,000	57,000	65,000	70.3	83.7
Nurses	44,200	50,500	60,300	13.2	84.5
Other health care occupations <sup>10</sup>	23,900	30,300	43,400	16.2	63.4
PreK–12 educators	25,100	34,000	39,000	71.7	66.1
Social service professionals	25,500	31,200	36,900	42.5	61.5
Sales occupations	21,800	31,200	40,000	33.8	53.2
Business support/administrative assistance	24,900	31,200	38,000	23.5	61.3
Other white-collar occupations <sup>11</sup>	23,100	31,200	42,000	47.9	56.5
Other occupations <sup>12</sup>	20,800	29,100	39,100	22.3	43.9

<sup>1</sup> Examples include health insurance, retirement contributions, and paid vacations.

<sup>2</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>3</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>4</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>5</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>6</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>7</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>8</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>9</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>10</sup> “Other health care occupations” includes non-nurse health care professionals and other health care occupations.

<sup>11</sup> “Other white-collar occupations” includes air transportation professionals, artists and designers, communication professionals, information professionals, legal professionals, postsecondary educators, other educators, and social scientists.

<sup>12</sup> “Other occupations” includes agriculture occupations; construction/mining occupations; fitters, tradesmen, and mechanics; food service occupations; military; personal care occupations; protective service occupations; sports occupations; and transportation support occupations.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. This table excludes the 42.9 percent of 2015–16 bachelor’s degree recipients who did not work within 12 months of bachelor’s degree completion or whose starting number of hours worked was fewer than 35 hours per week in their first job after bachelor’s degree completion.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Other health care occupations” includes non-nurse health care professionals and other health care occupations.

<sup>2</sup> “Other white-collar occupations” includes air transportation professionals, artists and designers, communication professionals, information professionals, legal professionals, postsecondary educators, other educators, and social scientists.

<sup>3</sup> “Other occupations” includes agriculture occupations; construction/mining occupations; fitters, tradesmen, and mechanics; food service occupations; military; personal care occupations; protective service occupations; sports occupations; and transportation support occupations.

<sup>4</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>5</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>6</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>7</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>8</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>9</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>10</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>11</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding. This table excludes the 42.9 percent of 2015–16 bachelor’s degree recipients who did not work within 12 months of bachelor’s degree completion or whose starting number of hours worked was fewer than 35 hours per week in their first job after bachelor’s degree completion.

**Table 3.4. CHARACTERISTICS OF FIRST POSTBACCALAUREATE JOB: Among 2015–16 bachelor's degree recipients whose first job after bachelor's degree completion was full time, percentage whose job had various characteristics, by demographic, enrollment, and employment characteristics in 2017—Continued**

Demographic, enrollment, and employment characteristics	Employer in same state as bachelor's degree institution	Job required bachelor's degree	Job closely related to bachelor's degree program	Job part of a career
Family status 12 months after bachelor's degree completion <sup>a</sup>				
Unmarried with no dependent children	71.7	47.5	36.4	59.3
Unmarried with dependent children	75.1	31.5	30.1	54.9
Married with no dependent children	72.9	43.1	32.8	61.7
Married with dependent children	67.6	32.0	35.6	66.8
Occupation of first job within 12 months of bachelor's degree completion				
Business/management occupations	69.3	53.3	40.6	62.1
Life scientists	67.3	76.2	32.1	72.3
Math, computer, and physical science occupations	69.5	62.6	38.3	75.9
Engineers	65.8	76.9	43.8	73.6
Nurses	70.2	39.6	23.3	86.6
Other health care occupations <sup>9</sup>	75.5	30.5	41.6	71.1
PreK–12 educators	78.5	67.5	31.0	77.9
Social service professionals	70.5	59.8	40.7	67.8
Sales occupations	75.7	30.0	37.6	40.1
Business support/administrative assistance	72.5	32.4	38.4	45.2
Other white-collar occupations <sup>10</sup>	68.9	54.1	33.7	69.0
Other occupations <sup>11</sup>	73.7	20.6	27.6	36.8

<sup>1</sup> "Black, not Hispanic or Latino" includes African American; and "Other or Two or more races, not Hispanic or Latino" includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>2</sup> "High school diploma or less" includes the 0.2 percent of graduates who did not know either parent's highest level of education.

<sup>3</sup> "Some postsecondary education/subbaccalaureate credential" means that at least one parent began postsecondary education and may have earned a credential up to an associate's degree, but neither parent earned a bachelor's or advanced degree.

<sup>4</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>5</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>6</sup> "General studies and other" includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>7</sup> "Other applied" includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>8</sup> "Unmarried" includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>9</sup> "Other health care occupations" includes non-nurse health care professionals and other health care occupations.

<sup>10</sup> "Other white-collar occupations" includes air transportation professionals, artists and designers, communication professionals, information professionals, legal professionals, postsecondary educators, other educators, and social scientists.

<sup>11</sup> "Other occupations" includes agriculture occupations; construction/mining occupations; fitters, tradesmen, and mechanics; food service occupations; military; personal care occupations; protective service occupations; sports occupations; and transportation support occupations.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor's degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor's degree was not their first bachelor's degree. This table excludes the 42.9 percent of 2015–16 bachelor's degree recipients who did not work within 12 months of bachelor's degree completion or whose starting number of hours worked was fewer than 35 hours per week in their first job after bachelor's degree completion. Job characteristics are for the first job held after bachelor's degree completion. They do not include information about other jobs held after bachelor's degree completion.

† Not applicable.

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> Monthly child care costs are limited to those with a dependent child under age 12 for consistency with how federal tax law defines a qualifying individual for the dependent child care credit.

<sup>2</sup> Average monthly child care cost is calculated among those with child care costs.

<sup>3</sup> Average monthly rent or mortgage payment is calculated among those with a rent or mortgage payment. Monthly rent and mortgage payment amounts include expenses directly related to monthly housing payments, such as multiple mortgage payments, construction loans, homeowner’s association fees, etc.

<sup>4</sup> Average monthly vehicle loan or lease payment is calculated among those with a vehicle loan or lease payment. Monthly vehicle loan or lease payment amounts do not include car insurance payments.

<sup>5</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>6</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>7</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>8</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>9</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>10</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>11</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>12</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>13</sup> “Full-time job” includes jobs worked 35 hours or more per week. “Lowest quarter of income” includes those with incomes greater than zero but less than \$21,049; “lower middle quarter of income” includes those with incomes between \$21,049 and \$33,900; “higher middle quarter of income” includes those with incomes between \$33,901 and \$47,808; and those in the “highest quarter of income” had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree.

Demographic, enrollment, and employment characteristics	Credit card usage			Percent had employer-based retirement account <sup>2</sup>	Percent had non-employer-based retirement account <sup>3</sup>	Percent had no retirement account	Could certainly or probably come up with \$2,000 in the event of an unexpected expense in the next month
	Percent who had a credit card	Of those with a credit card, percent who carried a balance	Average credit card balance <sup>1</sup>				
Annualized earned income from most recent full-time job 12 months after bachelor’s degree completion <sup>12</sup>							
Not working 12 months after bachelor’s degree completion	75.7	35.1	4,500	28.6	13.8	63.8	72.1
Lowest quarter of income	75.2	38.1	3,900	29.0	12.7	62.7	72.0
Lower middle quarter of income	80.1	39.9	4,000	46.0	16.4	47.0	72.3
Higher middle quarter of income	85.4	37.2	5,000	67.8	21.4	27.5	79.9
Highest quarter of income	89.5	32.3	6,700	79.8	28.6	15.7	86.8

<sup>1</sup> Average credit card balance is calculated across all credit cards among those who carry a balance over on their credit card(s) month to month.

<sup>2</sup> Includes employer-based retirement accounts such as 401(k), 403(b), and pensions.

<sup>3</sup> Includes non-employer-based retirement accounts such as individual retirement accounts.

<sup>4</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>5</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>6</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>7</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>8</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>9</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>10</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>11</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>12</sup> “Full-time job” includes jobs worked 35 hours or more per week. “Lowest quarter of income” includes those with incomes greater than zero but less than \$21,049; “lower middle quarter of income” includes those with incomes between \$21,049 and \$33,900; “higher middle quarter of income” includes those with incomes between \$33,901 and \$47,808; and those in the “highest quarter of income” had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree.

**Table 5.1. CUMULATIVE AMOUNT BORROWED AND PERCENT OWED: Percentage of 2015–16 bachelor’s degree recipients who took out federal loans for postsecondary education, average amount borrowed, and ratio of amount owed 12 months after bachelor’s degree completion to amount borrowed, by demographic, enrollment, and employment characteristics in 2017—Continued**

Demographic, enrollment, and employment characteristics	Total federal loans		Undergraduate federal loans <sup>1</sup>		Graduate federal loans <sup>2</sup>		Average ratio of amount owed to amount borrowed <sup>6</sup>
	Percent who borrowed	Amount borrowed <sup>3</sup>	Percent who borrowed	Amount borrowed <sup>4</sup>	Percent who borrowed	Amount borrowed <sup>5</sup>	
Annualized earned income from most recent full-time job 12 months after bachelor’s degree completion <sup>15</sup>							
Not working 12 months after bachelor’s degree completion	63.1	34,200	59.7	27,400	17.0	30,900	94.5
Lowest quarter of income	69.2	30,800	67.0	26,300	14.4	25,200	93.7
Lower middle quarter of income	71.5	30,600	71.1	28,300	7.4	23,600	95.8
Higher middle quarter of income	71.4	29,200	70.5	27,700	7.0	18,800	91.8
Highest quarter of income	65.1	29,300	64.7	27,500	6.2	21,900	82.5

‡ Reporting standards not met either because the standard error is greater than 50 percent of the estimate or because there were too few cases for a reliable estimate.

<sup>1</sup> “Undergraduate federal loans” includes subsidized and unsubsidized Direct Loans (formerly called Stafford Loans) and Perkins Loans. Excludes Parent PLUS loans.

<sup>2</sup> “Graduate federal loans” includes subsidized and unsubsidized Direct Loans (formerly called Stafford Loans), Perkins Loans, and Graduate PLUS loans taken out to pay for any education above the bachelor’s degree level, including professional practice doctoral programs such as law, medicine, etc.

<sup>3</sup> Amount borrowed is calculated among those who took out either undergraduate or graduate federal loans and includes both their undergraduate and graduate federal loan amounts.

<sup>4</sup> Amount borrowed is calculated among those who took out undergraduate federal loans and includes only their undergraduate federal loan amounts.

<sup>5</sup> Amount borrowed is calculated among those who took out graduate federal loans and includes only their graduate federal loan amounts.

<sup>6</sup> Includes respondents who had paid off their loans as of 12 months after bachelor’s degree completion and owed \$0. The ratio of amount owed to amount borrowed may be over 100 percent because the amount owed includes interest accrued while loans are in deferment, causing the borrower to owe more than the original amount borrowed.

<sup>7</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>8</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>9</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>10</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>11</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>12</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>13</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>14</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>15</sup> “Full-time job” includes jobs worked 35 hours or more per week. “Lowest quarter of income” includes those with incomes greater than zero but less than \$21,049; “lower middle quarter of income” includes those with incomes between \$21,049 and \$33,900; “higher middle quarter of income” includes those with incomes between \$33,901 and \$47,808; and those in the “highest quarter of income” had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree.

**Table 5.3. FEDERAL LOAN REPAYMENT PLAN: Among 2015–16 bachelor’s degree recipients with federal student loans in repayment, percentage distribution of their federal loan repayment plan 12 months after bachelor’s degree completion, by demographic, enrollment, and employment characteristics in 2017—Continued**

Demographic, enrollment, and employment characteristics	Standard <sup>1</sup>	Graduated <sup>2</sup>	Income driven <sup>3</sup>	Other or multiple <sup>4</sup>
Family status 12 months after bachelor’s degree completion <sup>12</sup>				
Unmarried with no dependent children	64.4	11.8	21.4	2.4
Unmarried with dependent children	47.5	9.8	36.9	5.9
Married with no dependent children	61.0	12.2	21.9	4.9
Married with dependent children	53.2	15.8	22.2	8.8
Annualized earned income from most recent full-time job 12 months after bachelor’s degree completion <sup>13</sup>				
Not working 12 months after bachelor’s degree completion	60.3	10.6	26.7	2.4
Lowest quarter of income	61.7	10.7	24.6	3.0
Lower middle quarter of income	57.0	12.5	26.8	3.8
Higher middle quarter of income	61.5	12.8	22.2	3.5
Highest quarter of income	68.7	13.1	13.4	4.7

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

<sup>1</sup> All of the student’s loans are in a standard repayment plan. Under these plans, payments are a fixed amount that ensures loans are paid off within 10 years (within 10 to 30 years for consolidation loans).

<sup>2</sup> All of the student’s loans are in a graduated repayment plan. Under these plans, payments are lower at first and then increase, usually every 2 years, and are for an amount that will ensure loans are paid off within 10 years (within 10 to 30 years for consolidation loans).

<sup>3</sup> All of the student’s loans are in income-driven repayment plans. These include income-contingent, income-based, revised pay-as-you-earn, and pay-as-you-earn (PAYE) repayment plans. Under these plans, payments are a certain percentage of discretionary income, and after the required payments are made for 20–25 years, any remaining balance is forgiven. Income-based repayment and PAYE repayment plans have unique qualification requirements based on income and family size.

<sup>4</sup> All of the student’s loans are in other repayment plans, or the student has multiple loans in repayment plans spanning multiple categories. “Other” repayment plans include alternative repayment plans and plans that cannot be categorized as standard, graduated, or income driven. Alternative repayment plan payment amounts and repayment periods vary, and all require documentation of exceptional circumstances.

<sup>5</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>6</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>7</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>8</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>9</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>10</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>11</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>12</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>13</sup> “Full-time job” includes jobs worked 35 hours or more per week. “Lowest quarter of income” includes those with incomes greater than zero but less than \$21,049; “lower middle quarter of income” includes those with incomes between \$21,049 and \$33,900; “higher middle quarter of income” includes those with incomes between \$33,901 and \$47,808; and those in the “highest quarter of income” had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor’s degree was not their first bachelor’s degree. Detail may not sum to totals because of rounding. This table excludes the 40.1 percent of 2015–16 bachelor’s degree recipients who did not take out federal student loans or whose federal student loans had not entered repayment within 12 months of bachelor’s degree completion.

Higher middle quarter of income	24.3	5.6	11.9	16.5
Highest quarter of income	22.5	5.8	12.8	15.7

! Interpret data with caution. Estimate is unstable because the standard error is between 30 and 50 percent of the estimate.

<sup>1</sup> “Any repayment difficulties” includes respondents who ever had an economic hardship deferment, three or more forbearances, or three or more delinquencies on their federal student loan repayments as of 12 months after bachelor’s degree completion. Individual cases may have had more than one indicator of repayment difficulty, such as an economic hardship and three or more delinquencies on their federal student loan repayments.

<sup>2</sup> The eligibility requirements and acceptable reasons for entering into a forbearance agreement vary by federal loan servicer. Reasons include financial difficulty but may also include medical expenses, change in employment, or other reasons the servicer considers acceptable. These reasons are not reported to the National Student Loan Data System, and as a result, are not distinguishable in this table. The 3 or more months in forbearance on their federal student loan repayments may not be consecutive.

<sup>3</sup> The 3 or more months delinquent on their federal student loan repayments may not be consecutive.

<sup>4</sup> “Black, not Hispanic or Latino” includes African American; and “Other or Two or more races, not Hispanic or Latino” includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>5</sup> “High school diploma or less” includes the 0.2 percent of graduates who did not know either parent’s highest level of education.

<sup>6</sup> “Some postsecondary education/subbaccalaureate credential” means that at least one parent began postsecondary education and may have earned a credential up to an associate’s degree, but neither parent earned a bachelor’s or advanced degree.

<sup>7</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>8</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>9</sup> “General studies and other” includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>10</sup> “Other applied” includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>11</sup> “Unmarried” includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>12</sup> “Full-time job” includes jobs worked 35 hours or more per week. “Lowest quarter of income” includes those with incomes greater than zero but less than \$21,049; “lower middle quarter of income” includes those with incomes between \$21,049 and \$33,900; “higher middle quarter of income” includes those with incomes between \$33,901 and \$47,808; and those in the “highest quarter of income” had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor’s degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. **Table 5.5. CONSEQUENCES OF FINANCIAL COST OF EDUCATION: Percentage of 2015–16 bachelor's degree recipients who reported that the costs of their education had various consequences after degree completion, by demographic, enrollment, and employment characteristics in 2017—Continued**

Demographic, enrollment, and employment characteristics	Took job instead of enrolling in additional education	Took job outside of field of study or a less desirable job	Worked more than desired
Military status as of 2017			
Veteran	25.3	36.2	33.1
Active duty, Reserves, or National Guard	30.2	37.8	30.0
No military service	28.8	44.1	38.5
Family status 12 months after bachelor's degree completion <sup>a</sup>			
Unmarried with no dependent children	28.2	44.9	37.1
Unmarried with dependent children	36.2	45.0	46.9
Married with no dependent children	29.3	40.9	40.8
Married with dependent children	27.6	35.1	39.0
Annualized earned income from most recent full-time job 12 months after bachelor's degree completion <sup>a</sup>			
Not working 12 months after bachelor's degree completion	24.8	42.3	32.2
Lowest quarter of income	29.2	54.0	40.7
Lower middle quarter of income	35.0	51.8	43.1
Higher middle quarter of income	32.3	42.0	41.5
Highest quarter of income	22.2	28.4	33.3

<sup>1</sup> "Black, not Hispanic or Latino" includes African American; and "Other or Two or more races, not Hispanic or Latino" includes American Indian or Alaska Native, Native Hawaiian or other Pacific Islander, and respondents who identify as more than one race.

<sup>2</sup> "High school diploma or less" includes the 0.2 percent of graduates who did not know either parent's highest level of education.

<sup>3</sup> "Some postsecondary education/subbaccalaureate credential" means that at least one parent began postsecondary education and may have earned a credential up to an associate's degree, but neither parent earned a bachelor's or advanced degree.

<sup>4</sup> Respondents with multiple majors were classified by the first major field of study reported.

<sup>5</sup> STEM majors include those in the fields of science, technology, engineering, and mathematics.

<sup>6</sup> "General studies and other" includes liberal arts and sciences, general studies and humanities, multi/interdisciplinary studies, other, basic skills, citizenship activities, health-related knowledge and skills, interpersonal and social skills, leisure and recreational activities, personal awareness and self-improvement, and high school/secondary diplomas and certificates.

<sup>7</sup> "Other applied" includes personal and consumer services; manufacturing, construction, repair, and transportation; military technology and protective services; architecture; communications; public administration and human services; design and applied arts; law and legal studies; library sciences; and theology and religious vocations.

<sup>8</sup> "Unmarried" includes respondents who were widowed, divorced, separated, or never married. Students are considered to have a dependent child if they have a child for whom they are the caretaker or have financial responsibility.

<sup>9</sup> "Full-time job" includes jobs worked 35 hours or more per week. "Lowest quarter of income" includes those with incomes greater than zero but less than \$21,049; "lower middle quarter of income" includes those with incomes between \$21,049 and \$33,900; "higher middle quarter of income" includes those with incomes between \$33,901 and \$47,808; and those in the "highest quarter of income" had incomes of \$47,809 or more.

NOTE: Estimates pertain to individuals who completed the requirements for a bachelor's degree in 2015–16 and were awarded their degree by a Title IV eligible postsecondary institution in the 50 states, the District of Columbia, or Puerto Rico no later than June 30, 2017. This table includes the 6 percent of respondents for whom the 2015–16 bachelor's degree was not their first bachelor's degree.
