"The purpose of the Center shall be to collect, and analyze, and disseminate statistics and other data related to education in the United States and in other nations."--Section 406(b) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).
Foreword

The Classification of Instructional Programs (CIP) was originally developed by the U.S. Department of Education’s National Center for Education Statistics (NCES) in 1979-80 and revised for the first time in 1985. This publication represents the second revision and clarifies education program descriptions and titles. The 1990 edition is the product of an extensive investment of time and work and reflects the considerable changes in educational programs that have taken place since the CIP was originally developed. Programs at the secondary, postsecondary, and adult education levels are covered in this volume. CIP is used in all NCES surveys and is the accepted Government standard on programs for education information surveys.

Since first published, CIP has been used by NCES in the Integrated Postsecondary Education Data System (IPEDS) and its predecessor, the Higher Education General Information Survey (HEGIS); as well as in the Vocational Education Data System (VEDS). CIP has also been used by other components of the Department of Education, such as the Office of Civil Rights, the Office of Vocational and Adult Education, and the Office of Special Education. In addition, CIP is used as the data standard on instructional programs for other Federal agencies, including the National Occupational Information Coordinating Committee (NOICC), the National Science Foundation and the National Academy of Sciences, the Departments of Commerce (Bureau of the Census) and Labor (Bureau of Labor Statistics), and others. It is also used by State agencies and national associations.

Revisions to a nationwide coding scheme such as CIP require that users of these codes be given ample time and assistance to implement the codes within their own databases and reporting systems. Consequently, the NCES does not plan to implement the new CIP until the mailout of the IPEDS survey forms in the summer of 1992. As part of that package, several of the questionnaires require program completion data by field of study for the prior academic year (1991-92).

The extended phase-in outlined above is probably sufficient for the transition from the 1985 to the 1990 codes. However, in an effort to ease the transition, CIP users may obtain a copy of this entire manual on diskette from NCES. The diskette will also include files that can be used directly to replace 1985 CIP codes with their 1990 equivalent. Additional information on the conversion process and obtaining the diskette may be found on page iii. Since HEGIS and Handbook VI crosswalks are no longer acceptable as reporting standards, it is particularly important for all data providers to implement the 1990 CIP as the basis for their operations.

ACKNOWLEDGMENTS

This publication was accomplished with extensive help from well over two hundred individuals representing State, Federal, institutional, and association interests. This revision to CIP is the result of their contributions and the empirical examination of reported data. Their names and affiliations are listed in Appendix H.

Special thanks are extended to those individuals who provided overall guidance to the project and attended virtually all the CIP meetings. These individuals include, within the Department of Education, Dr. Clifford Adelman, Director of the Higher Education and Adult Learning Division, Office of Research, OERI; Dr. Roslyn A. Korb, Senior Statistician, Postsecondary Education Statistics Division, NCES/OERI; and Mr. Gerald S. Malitz, Senior Statistician, Elementary/Secondary Education Statistics Division, NCES/OERI.

Outside the Department of Education, the efforts of Ms. Pamela Frugoli, National Occupational Information Coordinating Committee (NOICC); Dr. Philip B. Sheldon, Virginia Polytechnic Institute and State University, representing the Association for Institutional Research (AIR); Mr. Wayne Becraft, Executive Director of the American Association of College Registrars and Admissions Officers (AACRAO); and Dr. Ronnie Posner, Assistant Executive Director, American Vocational Association (AVA), are gratefully acknowledged. Each of these individuals advised NCES during all stages of the 1990 CIP update.

Finally, this manuscript would have never been completed without the assistance of Ms. Paulette Vanderhorst, NCES. Her tolerance and expertise made this publication possible.
Trademarks

The National Center for Education Statistics (NCES) has made every effort to supply trademarks relating to company names, products and services mentioned in Appendix I. Trademarks indicated below were derived from various sources, but NCES cannot attest to the accuracy of this information.

OBTAINING CIP CODE DISKETTES

The 1990 Classification of Instructional Programs (CIP) is available on diskette. To use the diskette, you will need an IBM PC® or compatible microcomputer running under MS- or PC-DOS® (Version 2.0 or higher). A hard disk with at least 2MB of free space is strongly recommended. You will also need a laserjet printer with a nine point proportional font (Swiss is used in this manual). With the exception of three additional files, all portions of the manual are in WordPerfect® (Version 5.1). The additional files are in ASCII code and may be used for uploading or downloading CIP codes to and from mainframe computers and microcomputers. These specific files are as follows:

1) CIP90.PRN: A file containing all 1990 6-digit CIP codes and program titles, including additions, that are used by postsecondary education institutions to report annual program completions and biennial occupationally specific enrollment data for the Integrated Postsecondary Education Data System (IPEDS). This file is a subset of Appendix E (which contains all 1990 codes).

2) CIP90OCC.PRN: A file containing all 1990 6-digit occupationally-specific CIP codes, including additions.

3) CIP8590.PRN: A file where each record (line) contains the 1985 CIP code, its' corresponding 1990 code plus the 1990 program title. It is the ASCII version of Chapter I, Appendix B.

These ASCII files were created to assist postsecondary education institutions in converting from the 1985 CIP to the 1990 version for reporting IPEDS survey data. None of these ASCII files contain "invalid" program codes for reporting IPEDS program completions or occupationally specific enrollments on IPEDS survey forms. In particular, the following CIP code series are omitted from each file: 20.01 (Consumer and Homemaking Education); 21.01 (Technology Education/Industrial Arts); 28.01 through 28.04 (R.O.T.C. programs); 32 through 37 (Personal Improvement and Leisure Programs); and 51.28 through 51.30 (Dental, Medical and Veterinary Residency Programs). In a few cases, there may be graduate programs in dental, medical or veterinary clinical sciences which lead to academic degree awards. In each case, these awards should be reported in 51.0501, 51.1401, and 51.2501 respectively.

Conversions from 1985 to 1990 codes must be handled with care. For example, while the CIP8590.PRN file may be used to replace existing 1985 codes with their 1990 counterparts, there are some potential problems. Deletions are a case in point. All 1985 deleted codes have a single 1990 replacement code with five exceptions. Codes 17.0499, 18.0701, 20.0403, 26.0201 and 26.0602 were deleted but their programs were divided and placed into two other CIP codes. In these cases, the 1985 codes appear twice in the CIP8590.PRN file (because there are two 1990 codes) and you and/or your Registrar will have to determine what proportion of your program completions or enrollments to allocate between the 1990 programs. It should also be noted that two codes were deleted (18.0404, Oral/Maxial Facial Surgery and 28.0201, Coast Guard Science) and no corresponding 1990 codes have been identified. Another example is program additions. The CIP8590.PRN file does not contain new 1990 programs. These new programs, listed in Appendix D and included in both CIP90.PRN and CIP90OCC.PRN, should be brought to the attention of those individuals responding to surveys requesting program completion or enrollment data. In many cases, these persons are the ones who identified new programs and may recognize the program titles.

To obtain a diskette with these files, format a 5¼” high density diskette at 1.2 MB or a 3½” high density diskette at 1.44 MB and mail it with a short note requesting the 1990 CIP manual to:

The 1990 Classification of Instructional Programs (CIP) is the second revision of the Department of Education’s standard educational program classification system. This version supersedes all previous editions of the CIP, and will be used by the Department of Education as its taxonomic standard for Federal surveys and State reporting of institutional data, including program offerings, program financial data, staffing data, enrollments and completions. The 1990 CIP is also the accepted guide for data reported to the Federal government by individual institutions and other educational providers. Implementation is planned beginning with the 1991-92 academic year.

Background to the 1990 CIP Update

The CIP was originally developed in 1979 to replace two previous systems: Handbook VI, Standard Terminology for Curriculum and Instruction in Local and State School Systems (1970), for K-12 and postsecondary vocational programs; and A Taxonomy of Instructional Programs in Higher Education (1970), for postsecondary academic programs. Handbook VI was conceived in 1959, with work beginning in 1964, and was the product of an extensive interagency and intergovernmental development process. The Taxonomy of Instructional Programs in Higher Education was developed via a Federal contract let in 1968, and was known more commonly as the HEGIS Program Classification System.

Both of these classification systems had become obsolete by the late 1970’s, and NCES developed the CIP system to replace them. The development of CIP also allowed data providers and analysts to overcome incompatibility problems between Handbook VI and HEGIS, and to develop an integrated classification system capable of continuous updating. CIP had replaced both previous systems by 1980. A revision process was built into the CIP system that called for periodic review, and the first review and revision took place in 1985.

In 1987, work began on a second update of the CIP system. This process began with the planning of an extensive internal and external evaluation of all existing CIP codes and series. The review also included an examination of the organization of codes and series within the CIP, the conventions used in the text, and the standards employed for determining program inclusion, modification and deletion.

A series of CIP Review Meetings was held with representatives of users, data providers, and interested organizations, extending over all of 1989. Persons invited to these meetings included representatives from all program accrediting bodies recognized by the Department of Education, the State Higher Education Executive Officers’ Organization (SHEEO) network, other state-level agencies concerned with education, various Federal agencies, independent educational organizations and professional associations, educational institutions, and experts in the various subject-matter areas contained in the CIP. These representatives were asked to provide specific recommendations for the improvement of the CIP system. Following the meetings, correspondence with these representatives continued as drafts of the 1990 CIP were developed and reviewed.

In addition to the meetings and communications with external representatives and experts, NCES examined a wide variety of available data resources on educational programs, from Government and private sources. Files of postsecondary institutional catalogs and course listings were analyzed, as were commercial data bases and the published lists of approved programs available from the same organizations that were also invited to the meetings. NCES also analyzed its own and other organizations’ data files, including such resources as the National Longitudinal Study Postsecondary Transcript Data File, data bases sponsored by the National Occupational Information Coordinating Committee (NOICC), the NSF/NAS Survey of Earned Doctorates, the Dictionary of Occupational Titles of the Department of Labor, the Standard Occupational Classification System of the Department of Commerce, and various data bases and publications of the Bureau of Labor Statistics and the Bureau of the Census, among others.

1The two principle technical authors of the 1990 CIP are Dr. Robert L. Morgan, Senior Statistician, Programs for the Improvement of Practice, OERI, and Dr. E. Stephen Hunt, Senior Research Analyst, Office of Research, OERI. Ms. Judith M. Carpenter was the project officer for the 1990 CIP Update Process from 1988 to 1990.
Numerous changes have been made as a result of the 1990 CIP revision process. These changes are described below and in the Users' Guide, that immediately follows this Introduction. The most important changes can be summarized as follows:

- Extensive code deletions and title/description changes, and the addition of new codes, reflect the evolution of education since the 1970's.
- Series have been reorganized in many cases, and in some instances codes have been moved.
- The document has been divided into seven chapters, reflecting the different types of instructional programs included in the system.

Principles Governing Instructional Programs in CIP

Concept Definition. For purposes of the CIP system, NCES defines an instructional program as follows:

A combination of courses and experiences that is designed to accomplish a predetermined objective or set of allied objectives such as preparation for advanced study, qualification for an occupation or range of occupations, or simply the increase of knowledge and understanding. (Chismore and Hill, A Classification of Educational Subject Matter, NCES, 1978, p. 165)

Under this definition, instructional programs, while containing courses and other learning experiences (such as laboratories, field experiences, practical applications, research assignments, etc.), are not merely the sum of such components. A list of courses, for example, cannot be equated with a program, much less a successfully completed program, unless there is evidence that an institution or other provider recognizes the existence of such a program and certifies completions of it. This point is set forth via the operational criteria described below.

Operational Criteria. There are two criteria that refine the conceptual definition for operational purposes:

1) An instructional program must be offered by, through, or under the auspices of an educational institution or other provider.

2) Accomplishment of predetermined objectives must mean, in practice, the presence of a set of structured learning experiences, as defined by an institution or other provider, that lead to a completion point, and that point must be formally certified via an award or other form of recognition.

Instructional programs that meet the above criteria include:

-- Postsecondary programs culminating in the following awards: Postsecondary Certificates, Associate’s Degrees, Bachelor’s Degrees, Postbaccalaureate Certificates, Master’s Degrees, Post-Master’sCertificates, First-Professional Degrees, Specialist Degrees, Doctoral Degrees, and Post-Doctorate Certificates.

-- Secondary programs culminating in the following awards: Regular High School Diplomas, College Preparatory Diplomas, Vocational Diplomas, Regents or Honors Diplomas, High School Equivalence Certificates, Certificates of Academic or Vocational Competence, and Certificates of IEP Completion.

-- Secondary and postsecondary Cadet and Junior/Senior R.O.T.C. programs.

-- Adult education programs leading to certificates of completion in credit or non-credit programs of various types.

-- Residency programs conducted by the dental, medical, and veterinary professions that lead to advanced professional certification.
Decision Rules for Inclusion in CIP. An instructional program that meets the definitional criteria stated above is eligible for inclusion in CIP. To determine whether an eligible program is in fact included or excluded, the following decision rules are used:

- **Additions** have been based on (a) Federal survey data showing that at least 30 completions have been reported over a three-year period in at least 10 postsecondary institutions in three or more States, in program areas not currently included in the 1985 CIP (via write-ins for the “other” codes in Series); (b) on testimony of cognizant authorities in a field who state, and provide evidence to show, that a new program exists and is offered; and/or (c) on empirical evidence of program viability based on the authors’ review of primary sources and related data bases at both the secondary and postsecondary levels.

- **Deletions** have been based on (a) Federal survey data showing that fewer than 30 completions were recorded over a three-year period, in less than 10 postsecondary institutions and spread across fewer than three States; (b) on testimony of cognizant authorities in a field who state, and provide evidence to show, that a program is no longer offered or recognized; and/or (c) on empirical evidence that a program is not in fact offered, based on the authors’ review of primary sources and related data bases at both the secondary and postsecondary levels.

- **Modifications** to viable program titles and descriptions have been made where necessary to reflect dynamic changes in program terminology and instructional content at both the secondary and postsecondary levels, as well as in order to insure internal logical and organizational consistency within the CIP. Whenever changes have been made, the user is informed by means of cross references, crosswalks or notes.

In all cases of addition, deletion, or modification, as well as in cases where Series and codes have been moved to new locations in CIP, more than one source has been consulted.

Differentiating Programs from Subject Matter. Instructional programs (and their component courses and experiences) need to be carefully differentiated from the parallel concept of subject matter. NCES defines the difference as follows:

Subject matter is the substance of knowledge. In contrast, programs constitute the form and style by which knowledge, or subject matter, is taught and learned. In most instances, but by no means all, instructional programs can be defined in terms of the subject matter of which they are composed. (Chismore and Hill, NCES, 1978, p. 165)

The converse is not true, however: subject matter is not usually defined by the instructional programs or experiences that organize and deliver it. In general, instructional programs deliver a portion of the knowledge base of a given subject matter area -- that which is defined by the institution offering a program as necessary and sufficient to qualify a student for certification as having satisfactorily completed it. Such a definition, while adequate to define a program, does not usually encompass the whole branch of knowledge, or subject matter, concerned.

Frequently, both subject matter and program may have the same name, since the purpose of the latter is to deliver knowledge about the former and to certify (upon successful completion of the program) competence in that portion of the subject matter thus delivered. This parallel relationship between instructional programs and their components on one hand, and the subject matter they deliver on the other, permits use of the CIP as a basis for efforts to construct subject matter classifications (Chismore and Hill, NCES, 1978; Adelman, OERI, 1990).
Essential taxonomic principles of comprehensiveness, mutual exclusivity of elements, logical consistency, communicability and parsimony have guided NCES in developing and refining the CIP system since its inception. The CIP is a classification of program terms and descriptions reflecting the manner in which institutional instructional program data are organized, collected and reported. Its purpose is to define and classify instruction according to currently recognized awards and program completions.

The CIP is intended to establish standard terminology in order to improve communication and standardize record-keeping. Among the intended users of the CIP system, besides the Federal Government, are State governments, local governments, educational institutions, education research organizations, accrediting agencies, professional associations, and individual researchers. Specifically, the CIP is designed to:

- assist in collecting, reporting and interpreting data about instructional programs;
- aid those responsible for designing data collection instruments;
- indirectly assist in educational planning, resource allocation and review via standardized data categories;
- aid those responsible for responding to data requests; and
- serve as a tool to assist those who compile, verify and analyze instructional program data.

The organization of the 1990 CIP is described below, together with examples of each type of entry. Each Appendix and its purpose is also described.

**Organization of the 1990 CIP**

The 1990 CIP is divided into six (6) Chapters, with each containing Series and codes appropriate to distinguish from the others. The Chapters contain the following types of instructional programs:

**Chapter One** - Academic and occupationally specific instructional programs offered for regular credit at one or more educational levels, and including programs which result in recognized completion points and awards.

**Chapter Two** - Comprehensive homemaking skills programs offered for credit in secondary schools and certain postsecondary situations, but that may not lead to regular completions or award certifications, and which may be confused with home economics programs listed in Chapter One.

**Chapter Three** - Technology education programs offered for credit in middle and secondary schools, but that may not lead to regular completions or award certifications, and which may be confused with teacher education programs in technology education at the postsecondary level, as well as occupationally specific program codes that contain the word "technology" or "technician" in their titles.

**Chapter Four** - Reserve Officer Training Corps (R.O.T.C.) programs offered for limited regular credit and leading to professionally recognized completions, but which do not lead to academic awards or completions.

**Chapter Five** - Personal improvement and leisure-time activity programs that are not offered for credit and that may or may not lead to any recognized completion.

**Chapter Six** - Residency programs in various dental, medical, and veterinary specializations offered in teaching hospitals and similar locations, leading to advanced professional certification.

**Chapter Seven** - Instructional programs leading to diplomas and certificates awarded at the secondary educational level only, and not corresponding to instructional programs described in any other Chapter.
Each Chapter contains, in numerical order, the complete list of currently active CIP six-digit codes pertaining to the topic of that Chapter, arranged in 4-digit and 2-digit Series. Users will note that the numerical sequences in Chapter I occasionally skip code or Series numbers. This is due to deletions of code numbers that appeared in prior editions of the CIP, and to moves of several 2- and 4-digit Series to new Chapters in this edition.

Following Chapter VII is a set of Appendices. These sections provide lists of CIP codes that serve specific needs of users. They are:

A p p e n d i x A  --  A master Crosswalk linking 1990 CIP codes and Series to 1985 codes and Series.

A p p e n d i x B  --  A Crosswalk of 1985 CIP codes, in numerical order from the previous edition, showing what the corresponding 1990 CIP code is.

A p p e n d i x C  --  A numerical listing of 1985 CIP codes deleted in the 1990 CIP.

A p p e n d i x D  --  A numerical listing of instructional programs added in the 1990 CIP.

A p p e n d i x E  --  An alphabetical listing of all 1990 CIP codes.

Appendix F -- A Glossary of CIP and related NCES terms.

A p p e n d i x G  --  List of 1990 CIP Review participants and their affiliations.

While not an Appendix per se, the Code and Title Listing that appears immediately after this Users’ Guide is a list, in numerical order, of every 2-, 4-, and 6-digit code and title in the 1990 CIP.

Organization Conventions

Standard formats are used in each Chapter to indicate the type of information conveyed by an entry. These formats refer to Series organization, active instructional program descriptions, cross-references, moves, deletions with crosswalks, and straight deletions. Each will be discussed in turn.

Two-Digit Series. Every CIP entry is aggregated into a specific 2-digit Series, indicated by the two-digit number -- followed by a period -- to the left of the title (Example: 01., 02., etc.). Titles are printed in bold-face type and are in all-capital letters. Every 2-digit descriptive text begins with the standard phrase "A summary of groups of instructional programs...".

Four-Digit Series. Within 2-digit Series there is an intermediate aggregation known as a 4-digit Series. There is at least one 4-digit Series within each 2-digit Series, and the function of the 4-digit Series is to group together related 6-digit codes. Numbers for 4-digit Series consist of the 2-digit Series number, which precedes a period, followed by the number assigned to that 4-digit Series, beginning with 01 (Example: 01.01, 01.02, etc.). Titles are printed in bold-face type. Every 4-digit descriptive text begins with the standard phrase "A group of instructional programs...".

Six-Digit Codes. Every six-digit code corresponds to a single instructional program. There is at least one 6-digit code within each 4-digit Series, and they are separated by single line spacings. Numbers are as for 4-digit Series, with the addition of two more digits after the period corresponding to the number assigned to that specific code, beginning with 01 (Example: 01.0101, 01.0102, etc.). Titles are printed in bold-face type and correspond to actual titles of programs as currently used by institutions and other education providers. (Because the 1990 CIP attempts to employ titles actually used by institutions, inconsistencies may appear between titles of codes in this and previous editions, where
titles were not chosen based on empirical usage.)
There are several conventions associated with 6-digit titles and program descriptions, as follows:

- **Asterisks (*) preceding a code** indicate that the code so identified may be used to report data on occupationally specific sub-baccalaureate instructional programs.

- **Multiple titles separated by the word "and"** indicate that programs using any of these names should be reported under this code and treated as similar, even though they may not be identical. Such programs were adjudged similar enough to be combined for data purposes.

- **Multiple titles separated by slashes ("/")** indicate that two or more interchangeable titles are in use for this program. In such cases, the most commonly used title appears first, with those following being frequently encountered. This format is intended to increase data accuracy by clarifying what is to be reported where, cutting down on entries in "other" or "general" unless a program genuinely qualifies for such treatment.

- **Program descriptions for occupationally specific and/or professional programs** generally begin with the phrase "An instructional program that prepares individuals for...", or contain the phrase "prepares individuals" within the text of the description.

- **Program descriptions for academic or general programs** generally begin with the phrase "An instructional program that describes...".

- **When a 6-digit program description contains a second sentence or clause that begins with "Includes instruction in..." or "including...such as..."**, this is a sampling of the sort of subject matter that might be contained in such a program. It is not intended as a set of requirements, but only as a guide. Programs at different levels may cover more or fewer topics than are listed.

**Cross-References.** These are unnumbered entries that refer the user to related codes located elsewhere in CIP. A cross-reference may be to another 6-digit code, or to a 4-digit or 2-digit Series. When one appears, it will be preceded by dashes in the spaces normally occupied by the number. The title of the referenced code or Series will be printed in bold-face type, and then there will be a parenthetical statement like this: "(refer to ...)", containing the precise number of the referenced Series or code.

**Moves.** Moves indicate that a code or Series that occupied that spot in the 1985 CIP has been moved to a new location for 1990. Move entries look identical to cross-references, except that the parenthetical statement says "(moved to ...)", and notes the precise location that the code or Series now occupies.

**Crosswalked Deletions.** If a code or Series has been deleted as a separate entry, but also combined with another code or Series that continues to exist, the user will be alerted by a crosswalk notice in the space formerly occupied by the deleted entry. This will take the form of an unnumbered entry in which the dashes are followed by the deleted code or Series title, enclosed in brackets "["]". Following the bracketed title will be a parenthetical statement like this "(deleted, included under ...)", which refers the user to the number of the code or Series where such data are now to go.

**Straight Deletions.** If a code or Series has been completely deleted from the 1990 CIP, the user will find, in its former location, an unnumbered entry similar to a crosswalk deletion. The difference is that the parenthetical statement will simply say "(deleted)", with no numerical reference.

**New Series Numbers for 1990.** In two cases in the 1990 CIP, NCES and cognizant authorities determined that Series-level reorganization was advisable. Series 06. and .07 in the 1985 CIP have been reorganized, and the program codes that appeared in these Series are now located in a new Series 52, Business Management and Administrative Services, which combines both previous Series. Likewise, former Series 17. and 18. have been combined into a new Series 51, Health Professions and Related Sciences.

A new Series 53., High School/Secondary Diploma and Certificate Programs, was created for the 1990 CIP and placed in Chapter VII. It has not appeared in previous CIP editions, and includes codes for standard secondary level instructional programs.
Chapter Reorganizations. Besides new 2-digit Series, the 1990 CIP has moved four types of programs out of the academic and occupationally specific code list and into separate Chapters.

The 20.01 Series in the 2-digit Vocational Home Economics Series has also been moved and placed in Chapter II. This 4-digit Series refers to a group of programs offered to secondary students and adult learners designed to equip individuals with homemaking skills, and which could be confused with regular credit vocational and academic home economics programs with similar titles.

Series 21., Technology Education/Industrial Arts, has been moved to a new Chapter III of the same title as the Series.

Series 28., Military Sciences, which has historically seen little or no data reporting and actually refers to the partial-credit R.O.T.C. programs available on many postsecondary campuses. The Series was moved to Chapter IV and retitled Reserve Officer Training Corps (R.O.T.C.) Programs.

Series 32. through 37., which refer to non-credit personal improvement and leisure activity programs, have also been removed from the main listing in order to avoid potential confusion with regular credit programs having similar titles. They are now located in Chapter V.

The clinical residency programs associated with advanced certification programs in dentistry, medicine, and veterinary medicine have been placed in Chapter VI. These programs, while instructional, are not always offered in educational institutions, and data on them are only partially collected. In addition, such programs might be confused with clinical or basic research programs taught in educational institutions and that lead to academic degree completions.

Finally, a new Series 53. has been created and placed in Chapter VII, as indicated above.

Special Use Considerations for Certain Series

Series 08., now called Marketing Retailing and Wholesaling Operations, was formerly called Marketing and Distribution, and has been historically known as Distributive Education. Instructional programs described in this Series are offered primarily at the secondary school level, and less frequently at the postsecondary vocational/technical level. Series 08. programs should be carefully distinguished from marketing programs described in Series 52., Business Management and Administrative Services, which refer to traditional marketing disciplines taught in postsecondary business programs, as well as from marketing programs offered within the context of specific occupational programs elsewhere in the CIP.

Series 11. Computer and Information Sciences, and Series 52.12 Business Information and Data Processing Services, overlap somewhat in terms of the focus and subject matter coverage of instructional programs. Series 11. focuses on computer and information science programs that have general applicability and are commonly taught in departments and divisions of computer science. Series 52.12, by contrast, is intended to cover instructional programs in computer applications to business management, and computer-related programs offered in departments and school of business. Users should employ codes in Series 52.12 only for instructional programs directly pertaining to business applications located in business programs. All other computer science-related instruction should be reported via Series 11. (Computer-related instructional programs in engineering, engineering technology, and various maintenance/installation/repair fields are properly reported in Series 14., 15. and 47.)

Series 13 Education includes both preservice and inservice teacher education programs in 13.10, Special Education, 13.12, General Teacher Education and 13.13, Teacher Education, Specific Academic and Vocational Programs. The teacher education categories in 13.10, 13.12 and 13.13 are based on teacher certification categories used by states and these categories should be used as standard occupational classifications in surveys of educational staffing at the elementary and secondary education levels in order to assure the educational supply and demand data on teacher preparation, continuing education and occupational placement can be readily matched. Principal preparation programs should be reported under 13.0405, Elementary, Middle and Secondary Administration. School and Educational Psychology programs were both reported under 13.08, School Psychology in prior editions of the CIP. These two programs have been split and school psychology programs should be reported under 42.1701 and educational psychology programs should be reported under 13.0802.
Engineering programs, engineering-related technology programs, and occupationally specific programs in the technical trades are distinct types of programs, and should be carefully distinguished in data reporting. Engineering programs lead to 4-year bachelor’s degrees or higher, prepare students to function as professional engineers or engage in advanced applied scientific research, and their program content is generally oriented as much toward mastery of applied physics and advanced calculus as toward practical applications and skills. Data on engineering programs should be reported under codes in Series 14. Engineering-related technology programs are generally offered at the sub-baccalaureate level, but may be 4-year programs in some cases. They prepare individuals to support engineers, but do not lead to professional engineering degrees, and the content of such programs is more practically oriented than that of engineering programs. Data on such programs should be reported under codes in Series 15. Occupationally specific technical trades programs are offered at the sub-baccalaureate level and prepare students for work in various skilled trades, including such jobs as mechanics, repairers, installers, maintenance and service personnel, and workers in various industries. Such programs are generally practical in nature and involve training in the application of technical principles and standard operating procedures to the solution of routine problems. Data on occupationally specific technical trades programs should be reported under codes in Series 46., 47. and 48., as appropriate.

NCES data collection activities at the postsecondary level have isolated a reporting problem within the Home Economics (19.) and Vocational Home Economics (20.) Series. There are level distinctions between the two Series. College level enrollments and completions - B.S. and above - should be reported in the Home Economics (19.) Series, and some postsecondary education degree or certificate programs in community colleges and technical schools are also appropriately reported in this Series. The Vocational Home Economics (20.) Series is made up of two types of programs. The 20.01 Series is traditionally offered at the elementary and secondary levels to prepare individuals for the occupation of homemaker. This Series was historically referred to as "non-gainful home economics", and has been moved to Chapter II. Completion or degree data should not be reported within the 20.01 Series at any level. The remainder of the Vocational Home Economics (20.) Series, is occupationally specific with defined completion points offered at both the secondary and postsecondary levels. The highest degree for these Vocational Home Economics programs is the Associate of Arts or Sciences in community colleges. No Bachelor’s or graduate degree (Master’s, Doctorate) data should be reported under the 20. Series.

The Technology Education/Industrial Arts (21.) Series also does not always have formal completion points. This Series covers programs aimed at improving student understanding of industry and technology. Students are provided with educational experiences that overlap with occupational preparation. However, the intent of Technology Education is to increase awareness and understanding, not necessarily to develop job skills. The Series should be used primarily at the middle or secondary school levels and be carefully distinguished from occupationally-specific programs. Postsecondary degree awards should not be reported under the 21. Series unless such programs are different from those to be reported under Technology Teacher Education/Industrial Arts Teacher Education (13.1309).

Chapter VI, as previously noted, contains a listing of codes corresponding to currently recognized residency programs in dentistry, medicine, and veterinary medicine. In some cases, academic degrees may be awarded to individuals completing residency programs. These degrees are considered advanced degrees in dental, medical, or veterinary clinical science (as opposed to the basic sciences, which parallel many biological science disciplines). If an individual obtains an academic degree (M.S. or Ph.D.) in a clinical science (residency) program, that data should be reported under the appropriate clinical science code in Series 51., Chapter I. Completions of residency programs that do not result in academic degree awards should be reported under the residency codes in Chapter VI -- not under the codes in Chapter I.

Crosswalking Data from Obsolete Systems to the 1990 CIP

In prior editions of the CIP, crosswalks were provided to guide users in reporting data classified by HEGIS code (A Taxonomy of Instructional Programs in Higher Education, Huff and Chandler, 1970), or by Handbook VI code (Standard Terminology for Curriculum and Instruction in Local and State School Systems, Putnam and Chimore, 1970). Neither a HEGIS or a Handbook VI Crosswalk is provided for the 1990 CIP. Both of these classification systems were superseded by the CIP in 1980 and are now obsolete. Users who collect data under either of these older classification systems and then crosswalk reported data to the CIP risk significant inaccuracies.
Data providers and collectors who use the CIP are urged to obtain the free diskettes available from NCES, which are provided as a service to data providers to facilitate reporting based on the 1990 CIP. Information on obtaining CIP diskettes can be found on page iv.

53.0199 High School/Secondary Diplomas, Other

53.02 **High School/Secondary Certificates**

53.0201 High School Equivalence Certificate
53.0202 High School Certificate of Competence
53.0203 Certificate of IEP Completion
53.0299 High School Certificates, Other
The Series in this Chapter refer to instructional programs that are offered in specific fields of study at the secondary and postsecondary levels. All of the programs described in this Chapter are offered for full academic credit and lead to specific awards, including degrees, diplomas and certificates.

01. **AGRICULTURAL BUSINESS AND PRODUCTION.** A summary of groups of instructional programs that prepare individuals to apply scientific knowledge and methods, and techniques to agricultural business and production.

01.01 **Agricultural Business and Management.** A group of instructional programs (see 01.0101)

---- Business Administration and Management. (refer to 52.02 Series)

* 01.0101 **Agricultural Business and Management, General.** An instructional program that generally prepares individuals to apply modern economic and business principles involved in the organization, operation and management of farm and agricultural businesses.

* 01.0102 **Agricultural Business/Agribusiness Operations.** An instructional program that prepares individuals to apply modern business and economic principles relating to the production and marketing of agricultural products and services.

01.0103 **Agricultural Economics.** An instructional program that describes modern business and economic principles relating to the allocation of resources in the production and marketing of agricultural products and services in the domestic and international markets.

------ **Economics.** (refer to 45.06 Series)

* 01.0104 **Farm and Ranch Management.** An instructional program that prepares individuals to manage a farm or ranch. Includes instruction in computer-assisted management analysis, accounting, taxes, production, financing, capital resources, purchasing, government programs, farm inputs, performance records, contracts, estate planning and marketing.

* 01.0199 **Agricultural Business and Management, Other.** Any instructional program in agricultural business and management not described above.

01.02 **Agricultural Mechanization.** A group of instructional programs (see 01.0201)

* 01.0201 **Agricultural Mechanization, General.** An instructional program that prepares individuals in a general way to sell, select and service agriculture or agribusiness technical equipment and facilities, including computers, specialized software, power units, machinery, equipment, structures and utilities. Includes instruction in agricultural power units; the planning and selection of materials for the construction of agricultural facilities; the mechanical practices associated with irrigation and water conservation; erosion control; and data processing systems.

------ [Agricultural Electrification, Power, and Controls.] (deleted, included under 01.0299)

NOTE: The use of an asterisk (*) denotes a code which has historically been used for reporting data on occupationally specific programs, in addition to other uses. See Appendix F for a definition of the term "occupationally specific".
01.0204 **Agricultural Power Machinery Operator.** An instructional program that prepares individuals to install, operate, service, maintain, and repair various agricultural power units, vehicles, machinery and equipment. Includes instruction in gas, diesel, and electric power units; welding; refrigeration; and hydraulic systems.

01.0299 **Agricultural Mechanization, Other.** Any instructional program in agricultural mechanization not described above.

01.03 **Agricultural Production/Workers and Managers.** A group of instructional programs (see 01.0301).

* 01.0301 **Agricultural Production Workers and Managers, General.** An instructional program that generally prepares individuals to plan and economically use facilities, natural resources, labor and capital in the production of plant and animal products.

* 01.0302 **Agricultural Animal Husbandry and Production Management.** An instructional program that prepares individuals to select, breed, care for and market livestock and small farm animals. Includes instruction in the operation of animal production enterprises.

* 01.0303 **Aquaculture Operations and Production Management.** An instructional program that prepares individuals to select, culture, propagate, harvest and market domesticated fish, shellfish and marine plants. Includes instruction in the operation of fish farms and related enterprises.

**Fishing and Fisheries Management and Sciences.** (refer to 03.0301)

* 01.0304 **Crop Production Operations and Management.** An instructional program that prepares individuals to operate enterprises producing cereal grain, fiber, forage, oilseed, tree fruits and nuts, small fruits, vegetables and other plant products. Includes instruction in soils, plant nutrition, plant diseases, pest management, harvesting and marketing.

* 01.0399 **Agricultural Production Workers and Managers, Other.** Any instructional program in agricultural production not described above.

01.04 **Agricultural and Food Products Processing.** A group of instructional programs (see 01.0401)

* 01.0401 **Agricultural and Food Products Processing Operations and Management.** An instructional program that prepares individuals to receive, inspect, store and process agricultural food or products preparatory to marketing. Includes instruction in the characteristics and properties of agricultural products, and processing and storage techniques.

**Food Products.** (deleted, included under 01.0401)

**Agricultural Products and Processing, Other.** (deleted, included under 01.0401)
01.05 **Agricultural Supplies and Related Services.** A group of instructional programs (see 01.0501)

* 01.0501 **Agricultural Supplies Retailing and Wholesaling.** An instructional program that generally prepares individuals to sell supplies for agricultural production, provide agricultural services and purchase and market agricultural products.

------- [Agricultural Services.] (deleted, included under 01.0501)

------- [Agricultural Supplies Marketing.] (deleted included under 01.0501)

------- [Pet Grooming.] (deleted, included under 01.0599)

* 01.0505 **Animal Trainer.** An instructional program that prepares individuals to teach animals to obey commands: perform services; perform in sports and leisure activities; provide security; assist in law enforcement; assist in search and rescue operations or perform entertainment tricks.

------- [Horseshoeing.] (deleted, included under 01.0599)

01.0507 **Equestrian/Equine Studies, Horse Management and Training.** An instructional program that prepares individuals to care for horses and horse equipment; to train horses for various work and athletic or entertainment roles; to ride horses; and to manage horse training, breeding and housing programs and facilities.

* 01.0599 **Agricultural Supplies and Related Services, Other.** Any instructional program in agricultural supplies and support services not described above.

01.06 **Horticulture Services Operations and Management.** A group of instructional programs (see 01.0601)

* 01.0601 **Horticulture Services Operations and Management, General.** An instructional program that generally prepares individuals to produce, process and market plants, shrubs and trees used principally for ornamental, recreational and aesthetic purposes and to establish, maintain, and manage horticultural enterprises.

------- [Arboriculture.] (deleted, included under 01.0699)

------- **Horticulture Science.** (refer to 02.0403)

* 01.0603 **Ornamental Horticulture Operations and Management.** An instructional program that prepares individuals to produce flowers, foliage, and related plant materials in fields and greenhouses for ornamental purposes, and to arrange, package and market these materials. Includes instruction in enterprise management.

* 01.0604 **Greenhouse Operations and Management.** An instructional program that prepares individuals to produce commercial plant species in controlled environments, and to manage commercial and experimental greenhouse operations.

* 01.0605 **Landscaping Operations and Management.** An instructional program that prepares individuals to procure, plant and maintain grounds and indoor and outdoor ornamental plants. Includes instruction in equipment maintenance and facilities management.

------- **Landscape Architecture.** (refer to 04.0601)

* 01.0606 **Nursery Operations and Management.** An instructional program that prepares individuals to produce turf, shrubs, and trees for the purpose of transplanting or propagation. Includes instruction in enterprise management.
* 01.0607 Turf Management. An instructional program that prepares individuals to establish, manage and maintain ornamental or recreational grassed areas, to prepare and maintain athletic playing surfaces, and to produce turf for transplantation.

* 01.0699 Horticulture/Services Operations and Management, Other. Any instructional program in horticulture management and production not described above.

01.07 International Agriculture. A group of instructional programs (see 01.0701)

  01.0701 International Agriculture. An instructional program that describes the application of agricultural principles to problems of global food production and distribution, and to the study of the agricultural systems of other nations.

----- Development Economics and International Development. (refer to 45.0604)

01.99 Agricultural Business and Production, Other. A group of instructional programs (see 01.9999)

* 01.9999 Agricultural Business and Production, Other. Any instructional program in agricultural business and production not described above.

02. AGRICULTURAL SCIENCES. A summary of groups of instructional programs that describe the study of animals and plants as related to agricultural production, the organization of agricultural work, and the processing and distribution of food and fiber products.

  02.01 Agriculture/Agricultural Sciences. A group of instructional programs (see 02.0101)

* 02.0101 Agriculture/Agricultural Sciences, General. An instructional program that generally describes the principles and practices of agricultural research and production, and may prepare individuals to apply such knowledge and skills to the solution of practical agricultural problems. Includes instruction in basic animal, plant, and soil science; animal husbandry and plant cultivation; and soil conservation.

----- Agricultural Teacher Education (Vocational). (refer to 13.1301)

----- Agricultural Engineering. (refer to 14.0301)

  02.0102 Agricultural Extension. An instructional program that prepares individuals to provide referral, consulting, assistance and educational services to farmers and ranchers via local, state or Federal government agencies. Includes instruction in agricultural sciences, agricultural business operations, agricultural law and administrative regulations, public relations, and communications skills.

02.02 Animal Sciences. A group of instructional programs (see 02.0201)

----- Zoology. (refer to 26.07 Series)

  02.0201 Animal Sciences, General. An instructional program that generally describes the scientific principles that underlie the breeding and husbandry of agricultural animals, and the production, processing, and distribution of agricultural animal products.
02.0202 **Agricultural Animal Breeding and Genetics.** An instructional program that describes the application of genetics to the improvement of agricultural animal health, the development of new animal breeds, and the selective improvement of animal populations.

------- **Genetics, Plant and Animal.** (refer to 26.0613)

02.0203 **Agricultural Animal Health.** An instructional program that describes the scientific principles that affect the prevention and control of diseases in agricultural animals.

------- **Veterinary Assistant/Animal Health Technician.** (refer to 51.0808)

------- **Veterinary Medicine (D.V.M.).** (refer to 51.2401)

------- **Veterinary Clinical Sciences (M.S., Ph.D.).** (refer to 51.2501)

02.0204 **Agricultural Animal Nutrition.** An instructional program that describes the biology and chemistry of proteins, fats, carbohydrates, water, vitamins, and feed additives and their relation to animal health and the production of improved animal products.

------- **Nutritional Sciences.** (refer to 26.0609)

02.0205 **Agricultural Animal Physiology.** An instructional program that describes the application of physiological principles to the study of agricultural animals and production problems. Instruction is provided in lactation, reproduction, digestion and growth.

------- **Physiology, Human and Animal.** (refer to 26.0706)

02.0206 **Dairy Science.** An instructional program that describes the biological theories, principles, and applications that apply to the production and management of dairy animals and the production of milk products.

------- **Agricultural Animal Husbandry and Production Management.** (refer to 01.0302)

------- **Entomology.** (refer to 26.0702)

------- **Parasitology.** (refer to 26.0610)

------- **[Livestock.]** (deleted, included under 02.0201)

02.0209 **Poultry Science.** An instructional program that describes the scientific theories, principles, and applications pertaining to the management of poultry populations and the production of poultry products.

------- **Agricultural Animal Husbandry and Production Management.** (refer to 01.0302)

------- **Fishing and Fisheries Management and Sciences.** (refer to 03.0301)

02.0299 **Animal Sciences, Other.** Any instructional program in animal sciences not described above.

02.03 **Food Sciences and Technology.** A group of instructional programs (see 02.0301)

02.0301 **Food Sciences and Technology.** An instructional program that describes the biological, chemical, physical and engineering principles and practices involved in converting agriculture products to forms suitable for direct human consumption or for storage, and the solution of problems relating to product transportation, storage and marketing.
Agricultural Engineering. (refer to 14.0301)

Foods and Nutrition Science. (refer to 19.0502)

02.04 Plant Sciences. A group of instructional programs (see 02.0401)

----- Botany. (refer to 26.03 Series)

02.0401 Plant Sciences, General. An instructional program that generally describes the scientific theories and principles involved in the production and management of plants for food, feed, fiber and soil conservation.

----- Crop Production Operations and Management. (refer to 01.0304)

02.0402 Agronomy and Crop Science. An instructional program that describes the chemical, physical and biological relationships of crops and the soils nurturing them. Includes instruction in the growth and behavior of agricultural crops, the breeding of improved and new crop varieties, and the scientific management of soils for maximum plant nutrition and health.

02.0403 Horticulture Science. An instructional program that describes the scientific principles involved in the cultivation of garden and ornamental plants, including fruits, vegetables, flowers, landscape and nursery crops. Includes instruction in specific types of plants, plant breeding, plant physiology, and the management of garden/nursery crops throughout the plant life cycle.

02.0405 Plant Breeding and Genetics. An instructional program that describes the scientific theories and principles underlying plant breeding, development and mutation, including hybridization and differential selection for plant improvement. Includes instruction in botanical biometry, statistics and computer analysis.

----- Genetics, Plant and Animal. (refer to 26.0613)

02.0406 Agricultural Plant Pathology. An instructional program that describes the scientific principles associated with recognizing diseased plants, identifying causal agents, the development of disease response mechanisms and treatments, and the prevention or reduction of economic loss.

----- Plant Pathology. (refer to 26.0305)

02.0407 Agricultural Plant Physiology. An instructional program that describes the scientific principles involved in the life processes of plants and plant responses to the elements of the physical environment, including nutrition, respiration, growth, photosynthesis, and reproduction.

----- Plant Physiology. (refer to 26.0307)

02.0408 Plant Protection (Pest Management). An instructional program that describes the principles and practices of controlling and preventing economic loss caused by plant pests, and related environmental protection measures. Includes instruction in entomology, plant pathology, weed science, crop science and environmental toxicology.

----- Parasitology. (refer to 26.0610)

----- Entomology. (refer to 26.0702)

02.0409 Range Science and Management. An instructional program that describes the scientific principles and practices involved in studying and managing rangelands, arid regions, grasslands
and other areas of low productivity. Includes instruction in livestock grazing systems management, soil science, plant and wildlife ecology, and hydrology.

-------  **Wildlife and Wildlands Management.** (refer to 03.0601)

02.0499  **Plant Sciences, Other.** Any instructional program in plant sciences not described above.

02.05  **Soil Sciences.** A group of instructional programs (see 02.0501)

02.0501  **Soil Sciences.** An instructional program that describes the scientific classification and study of soils and soil properties. Includes instruction in soil chemistry, soil physics, soil biology, soil fertility, morphogenesis, mineralogy and hydrology, and soil conservation and management.

02.99  **Agriculture/Agricultural Sciences, Other.** A group of instructional programs (see 02.9999)

* 02.9999  **Agriculture/Agricultural Sciences, Other.** Any instructional programs in agriculture/agricultural sciences not described above.

03. **CONSERVATION AND RENEWABLE NATURAL RESOURCES.** A summary of groups of instructional programs that prepare individuals for activities involving the conservation and/or improvement of natural resources.

03.01  **Natural Resources Conservation.** A group of instructional programs (see 03.0101)

03.0101  **Natural Resources Conservation, General.** An instructional program that generally describes activities involving the conservation and/or improvement of natural resources such as air, soil, water, land, fish, and wildlife for economic and recreation purposes.

03.0102  **Environmental Science/Studies.** An instructional program that describes the study of the biological and physical aspects of the environment and environment-related issues, including methods of abating or controlling environmental pollution and collateral damage.

-------  **Ecology.** (refer to 26.0603)

03.02  **Natural Resources Management and Protective Services.** A group of instructional programs preparing individuals to engage in activities concerned with monitoring and maintaining the quality of the natural environment.

03.0201  **Natural Resources Management and Policy.** An instructional program that prepares individuals to plan, develop and conduct programs to protect and maintain natural habitats and renewable natural resources. Includes instruction in wildlife biology, animal population surveys, economics, conservation techniques, public education, and administration.

-------  **Public Policy Analysis.** (refer to 44.0501)

-------  **Applied and Resource Economics.** (refer to 45.0602)

-------  [Conservation.] (deleted, included under 03.0101)

* 03.0203  **Natural Resources Law Enforcement and Protective Services.** An instructional program that prepares individuals to enforce natural resource and environmental protection regulations and laws; and to perform emergency duties to protect human life, property and natural resources, including fire prevention and control measures, and emergency and rescue
procedures.
Law Enforcement/Police Science. (refer to 43.0107)

Fire Science/Firefighting. (refer to 43.0203)

Natural Resources Management and Protective Services, Other. Any instructional program in natural resources management and protective services not described above.

Fishing and Fisheries Sciences and Management. A group of instructional programs (see 03.0301)

Fishing and Fisheries Sciences and Management. An instructional program that describes the scientific study of the husbandry of fish populations for recreational, ecological, and commercial purposes; and the application of such studies to the management of marine life resources and fisheries. Includes instruction in principles of aquatic and marine biology, water resources, fishing production and management operations, fishing regulations, water quality monitoring, and the management of recreational and commercial fishing activities.

Aquaculture/Operations and Production Management. (refer to 01.0303)

Marine/Aquatic Biology. (refer to 26.0607)

Fishing Technology/Commercial Fishing. (refer to 49.0303)

Forest Production and Processing. A group of instructional programs that prepare individuals to assist foresters, scientists and wood processing facility managers in the maintenance of forest lands and resources, and the harvesting and processing of forest products.

Agricultural Production. (refer to 01.03 Series)

Forest Harvesting and Production Technology/Technician. An instructional program that prepares individuals to assist foresters in managing, protecting and harvesting timber stands and specialty forest crops. Includes instruction in equipment maintenance and repair, tree planting, selection and identification of trees for special attention, transplantation and harvesting, and forest management and safety procedures.

[Forest Production.] (deleted, included under 03.0401)

[Forest Products Utilization.] (deleted, included under 03.0404)

Forest Products Technology/Technician. An instructional program that prepares individuals to assist a manager, engineer, chemist, or forest product scientist in the measurement, analysis of quality, testing, and processing of harvested forest raw materials, and the selection, grading and marketing of forest products to be used for specific purposes. Includes instruction in identifying, measuring, assessing quality, evaluating commercial value, and strength testing.

Logging/Timber Harvesting. An instructional program that prepares individuals to operate logging equipment and machinery for the direct harvesting of timber crops, including equipment maintenance and the practice of safety procedures.

Forest Production and Processing, Other. Any instructional program in forestry production and processing not described above.

Forestry and Related Sciences. A group of instructional programs that prepare individuals to apply scientific, engineering, and management principles to the management and use of natural resources that
occur on, and in association with, forest lands.

-- **Agricultural Sciences.** (refer to 02. Series)

-- **Biological Sciences/Life Sciences.** (refer to 26. Series)

* 03.0501 **Forestry, General.** An instructional program that generally prepares individuals to manage and develop forest areas for economic, recreational and ecological purposes. Includes instruction in forest-related sciences, mapping, statistics, harvesting and production technology, resource protection, management and economics, ecology and biology, administration, and public relations.

-------- **Natural Resources Conservation.** (refer to 03.0101)

03.0502 **Forestry Sciences.** An instructional program that describes the application of scientific principles to the study of environmental factors affecting forests and to the growth and management of forest resources. Includes instruction in forest biology, forest hydrology, forest engineering, silviculture, disease and pest control, and the development of improved tree varieties.

---- **Plant Sciences.** (refer to 02.04 Series)

---- **Botany.** (refer to 26.03 Series)

-------- **Soil Sciences.** (refer to 02.0501)

-------- **Environmental Science/Studies.** (refer to 03.0102)

03.0506 **Forest Management.** An instructional program that prepares individuals in the management and administration of forests and forest lands. Includes instruction in silviculture, forest protection, forest policy, and forest resources planning and economics.

-------- **Agricultural Business/Agribusiness Operations.** (refer to 01.0102)

-------- **Agricultural Production Workers and Managers, General.** (refer to 01.0301)

-------- **Natural Resources Management and Policy.** (refer to 03.0201)

03.0509 **Wood Science and Pulp/Paper Technology.** An instructional program that prepares individuals to apply scientific and engineering principles to analyze the properties and behavior of wood and wood products; to analyze the chemical and physical processes involved in converting wood into paper and other products; and the design and development of related machinery and systems.

-------- **Agricultural Engineering.** (refer to 14.0301)

03.0599 **Forestry and Related Sciences, Other.** Any instruction program in forestry and related sciences not described above.

03.06 **Wildlife and Wildlands Management.** A group of instructional programs (see 03.0601).

* 03.0601 **Wildlife and Wildlands Management.** An instructional program that prepares individuals in the principles and practices used in the conservation and management of wildlands and wildlife resources for aesthetic, ecological, and recreational uses.
03.99  Conservation and Renewable Natural Resources, Other.  A group of instructional programs (see 03.9999)

* 03.9999  Conservation and Renewable Natural Resources, Other.  Any instructional program in conservation and renewable natural resources not described above.

04.  ARCHITECTURE AND RELATED PROGRAMS.  A summary of groups of instructional programs that describe the principles and methods used to create, adapt, alter, preserve, and control human physical and social surroundings and habitations.

-----  [Architecture and Environmental Design, General.]  (deleted)

-----  [Architecture and Environmental Design, General.]  (deleted, included under 04.9999)

04.02  Architecture.  A group of instructional programs (see 04.0201).

04.0201  Architecture.  An instructional program that prepares individuals for the independent professional practice of architecture. Includes instruction in architectural design; architectural history and theory; building structures and environmental systems; site planning; construction; professional responsibilities and standards; and the cultural, social, economic and environmental issues relating to architectural practice.

-----  Architectural Engineering.  (refer to 14.0401)

-----  Structural Engineering.  (refer to 14.0803)

-----  Architectural Engineering Technology/Technician.  (refer to 15.0101)

-----  Construction/Building Technology/Technician.  (refer to 15.1001)

-----  Historic Preservation, Conservation and Architectural History.  (refer to 30.1201)

-----  Architectural Drafting.  (refer to 48.0102)

04.03  City/Urban, Community and Regional Planning.  A group of instructional programs (see 04.0301).

04.0301  City/Urban, Community and Regional Planning.  An instructional program that prepares individuals to apply principles of planning and analysis to the development and improvement of urban areas or surrounding regions, including the development of master plans, the design of urban services systems, and the economic and policy issues related to planning and plan implementation.

-----  Architectural Urban Design and Planning.  (refer to 04.0701)

-----  Community Organization, Resources and Services.  (refer to 44.0201)

-----  Public Policy Analysis.  (refer to 44.0501)
04.04 **Architectural Environmental Design.** A group of instructional programs  

04.0401 **Architectural Environmental Design.** An instructional program that prepares individuals for the independent professional practice of environmental architecture -- the processes and techniques of designing total environments and living systems for human populations, both indoor and outdoor. Includes instruction in relating the structural, aesthetic and social concerns affecting life and work to the needs of clients and the constraints of the site environment.

04.05 **Interior Architecture.** A group of instructional program (see 04.0501).

04.0501 **Interior Architecture.** An instructional program that prepares individuals for the independent professional practice of interior architecture -- the processes and techniques of designing living, work and leisure indoor environments as integral components of a building system. Includes instruction in building design and structural systems, heating and cooling systems, safety and health standards, and interior design principles and standards.

04.06 **Landscape Architecture.** A group of instructional programs  

04.0601 **Landscape Architecture.** An instructional program that prepares individuals for the independent professional practice of landscape architecture. Includes instruction in site planning, site analysis, site engineering, environmental impact, garden and landscape art and design, horticulture, and applicable regulations.

04.07 **Architectural Urban Design and Planning.** A group of instructional programs  

04.0701 **Architectural Urban Design and Planning.** An instructional program that prepares individuals for the independent professional practice of urban systems design and planning -- the processes and techniques of designing and modifying the physical elements constituting built urban environments. Includes instruction in regional and community site planning, architecture, systems planning, transportation and logistics design, human services planning, legal codes and zoning development, and related economic and policy issues.

04.08 **City/Urban, Community and Regional Planning.** (refer to 04.0301)

04.09 **Transportation and Highway Engineering.** (refer to 14.0804)

04.10 **Urban Affairs/Studies.** (refer to 45.1201)

[Land Use Management and Reclamation.] (deleted)

[Land Use Management and Reclamation.] (deleted, included under 04.9999)
04.99  Architecture and Related Programs, Other. A group of instructional programs (see 04.9999)

04.9999  Architecture and Related Programs, Other. Any instructional program in architecture and related programs not described above.

05.  AREA, ETHNIC AND CULTURAL STUDIES. A summary of groups of instructional programs that describe the history, society, politics, culture, and economics of a particular geographic region, or a particular subset of the population sharing common characteristics, traits and customs.

--  Foreign Languages and Literatures. (refer to 16. Series)

--  Multi/Interdisciplinary Studies. (refer to 30. Series)

--  Social Sciences and History. (refer to 45. Series)

--  Visual and Performing Arts. (refer to 50. Series)

05.01  Area Studies. A group of instructional programs that describe the history, society, politics, culture, and economics of a particular geographic region.

----  International Relations and Affairs. (refer to 45.09 Series)

----  Development Economics and International Development. (refer to 45.0604)

05.0101  African Studies. An instructional program that describes the history, society, politics, culture, and economics of Africa, with emphasis on societies south of the Sahara.

-------  Afro-American (Black) Studies. (refer to 05.0201)

05.0102  American Studies/Civilization. An instructional program that describes the history, society, politics, culture, and economics of the United States of America and its regions such as Appalachia, New England, the South, the West, and others.

-------  Ethnic and Cultural Studies. (refer to 05.02 Series)

-------  American Literature (United States). (refer to 23.0701)

-------  American (United States) History. (refer to 45.0802)

-------  American Government and Politics. (refer to 45.1002)

05.0103  Asian Studies. An instructional program that describes the general history, society, politics, culture, and economics of the continent of Asia and its borderlands, including related island groups.

-------  Ethnic and Cultural Studies. (refer to 05.02 Series)

05.0104  East Asian Studies. An instructional program that describes the history, society, politics, culture, and economics of East Asia, including China, Japan, Korea, Mongolia and Eastern Central Asia, Taiwan and Tibet.

-------  East and Southeast Asian Languages and Literatures. (refer to 16.03 Series)
Asian-American Studies. (refer to 05.0206)

05.0105 Eastern European Area Studies. An instructional program that describes the history, society, politics, culture, and economics of Eastern Europe, including the Balkans, Czechoslovakia, Hungary, Poland, Romania, the European portions of the U.S.S.R. and its constituent republics, and the region of Germany comprising the former East Germany.

---

East European Languages and Literatures. (refer to 16.04 Series)

05.0106 European Studies. An instructional program that describes the general history, society, politics, culture, and economics of the European Continent and its borderlands.

---

European History. (refer to 45.0803)

05.0107 Latin American Studies. An instructional program that describes the history, society, politics, culture, and economics of Mexico, the Caribbean, Central and South America.

---

Ethnic and Cultural Studies. (refer to 05.02 Series)

---

Romance Languages and Literatures. (refer to 16.09 Series)

05.0108 Middle Eastern Studies. An instructional program that describes the history, society, politics, culture, and economics of the Fertile Crescent, Arabic-speaking North Africa, Anatolia, the Caucasus, Iran, the Arabian Peninsula, and the Indo-Soviet borderlands of Central Asia.

---

Ethnic and Cultural Studies. (refer to 05.02 Series)

---

Middle Eastern Languages and Literatures. (refer to 16.11 Series)

05.0109 Pacific Area Studies. An instructional program that describes the history, society, politics, culture, and economics of Australia, New Zealand and the Pacific Islands; excluding the Philippines, Taiwan and Japan.

05.0110 Russian and Slavic Area Studies. An instructional program that describes the history, society, politics, culture, and economics of the Slavic peoples of Europe, including Russia.

---

East European Languages and Literatures. (refer to 16.04 Series)

05.0111 Scandinavian Area Studies. An instructional program that describes the history, society, politics, culture, and economics of Northern Europe and the Baltic, including Denmark, Finland, Iceland, Norway and Sweden.

-----

Scandinavian Languages and Literatures. (refer to 16.0502)

05.0112 South Asian Studies. An instructional program that describes the history, society, politics, culture, and economics of the peoples of the Indian Subcontinent and the Indian Ocean, including Bangladesh, Bhutan, India, Nepal, Pakistan, Sri Lanka, and the Maldives.

-----

Asian-American Studies. (refer to 05.0206)

-----

South Asian Languages and Literatures. (refer to 16.0703)

05.0113 Southeast Asian Studies. 13.0402 **Administration of Special Education.** An instructional program that describes the principles and techniques of administering educational facilities and programs provided for children or adults with special learning needs, and that prepares individuals to serve as administrators of such programs. Includes instruction in special education principles, program and facilities planning, personnel management, community and client relations, budgeting and administration, professional standards, and applicable laws and policies.

13.0403 **Adult and Continuing Education Administration.** An instructional program that describes the principles and techniques of administering programs and facilities designed to serve the basic education needs of undereducated adults, or the continuing education needs of adults seeking further or specialized instruction, and that prepares individuals to serve as administrators of such programs. Includes instruction in adult education principles, program and facilities planning, personnel management, community and client relations, budgeting and administration, professional standards, and applicable laws and policies.

13.0404 **Educational Supervision.** An instructional program that prepares individuals to supervise instructional and support personnel at the school building, facility or staff level. Includes instruction in the principles of staffing and organization, the supervision of learning activities, personnel relations, administrative duties related to departmental or unit management, and
specific applications to various educational settings and curricula.

13.0405 **Elementary, Middle and Secondary Education Administration.** An instructional program that describes the principles and techniques of elementary, middle or secondary school principalship, and that prepares individuals to serve as principals and other administrative personnel for elementary, middle or secondary education programs and facilities. Includes instruction in elementary, middle or secondary-level education, program and facilities planning, personnel management, community and client relations, budgeting and administration, professional standards, and applicable laws and policies.

13.0406 **Higher Education Administration.** An instructional program that describes the principles and practice of administration in four-year colleges, universities and higher education systems, the study of higher education as an object of applied research, and which may prepare individuals to function as administrators in such settings. Includes instruction in higher education economics and finance; policy and planning studies; curriculum; faculty and labor relations; higher education law; college student services; research on higher education; institutional research; marketing and promotion; and issues of evaluation, accountability and philosophy.

13.0407 **Community and Junior College Administration.** An instructional program that describes the principles and techniques of administering community and junior colleges and related postsecondary systems, the study of community and junior colleges as objects of applied research, and that may prepare individuals to function as administrators in such settings. Includes instruction in community and junior college finance; policy and planning studies; curriculum; faculty and labor relations; higher education law; student services; research on community and junior colleges; institutional research; marketing and promotion; and issues of evaluation, accountability and philosophy.

13.0499 **Education Administration and Supervision, Other.** Any instructional program in education administration and supervision not described above.

13.05 **Educational/Instructional Media Design.** A group of instructional programs.

13.0501 **Educational/Instructional Media Design.** An instructional program that describes the principles and techniques of creating instructional materials and related educational resources in various media or combinations, such as film, video, recording, text, art, software, and three-dimensional objects, and that prepares individuals to function as instructional media designers. Includes instruction in the techniques specific to creating in various media; the behavioral principles applicable to using various media in learning and teaching; the design, testing and production of instructional materials; and the management of educational/instructional media facilities and programs.

-------- **Educational/Instructional Media Technology/Technician.** (refer to 10.0101)

13.06 **Educational Evaluation, Research and Statistics.** A group of instructional programs that describe the application of analytical and evaluation methodologies to educational problems and settings.

13.0601 **Educational Evaluation and Research.** An instructional program that describes the principles and procedures for generating information about educational programs, personnel and methods, and the analysis of such information for planning purposes. Includes instruction in evaluation theory, evaluation research design and planning, administering evaluations and related data collection activities, data reporting requirements, data analysis and interpretation, and related economic and policy issues.
13.0603 **Educational Statistics and Research Methods.** An instructional program that describes the application of statistics to the analysis and solution of educational research problems, and the development of technical designs for research studies. Includes instruction in mathematical statistics, research design, computer applications, instrument design, research methodologies, and applications to research problems in specific education subjects.

------ **Mathematical Statistics.** (refer to 27.0501)

13.0604 **Educational Assessment, Testing and Measurement.** An instructional program that describes the principles and procedures for designing, developing, implementing and evaluating tests and other mechanisms used to measure learning, evaluate student progress, and assess the performance of specific teaching tools, strategies and curricula. Includes instruction in psychometric measurement, instrument design, test implementation techniques, research evaluation, data reporting requirements, and data analysis and interpretation.

------ [Elementary and Secondary Research.] (deleted, included under 13.0601)

------ [Higher Education Research.] (deleted, included under 13.0601)

13.0699 **Educational Evaluation, Research and Statistics, Other.** Any instructional program in educational evaluation, research and statistics not described above.

13.07 **International and Comparative Education.** A group of instructional programs (see 13.0701).

13.0701 **International and Comparative Education.** An instructional program that describes the study of educational phenomena, practices and institutions within different societies and states in comparative perspective, and the study of international educational issues. Includes instruction in comparative research methods, country- or area-specific studies, crossnational studies of learning and teaching styles, international educational policy and development, and analyses of educational migration patterns and experiences.

13.08 **Educational Psychology.** A group of instructional programs (see 13.0802)

------ **School Psychology.** (moved to 42.1701)

13.0802 **Educational Psychology.** An instructional program that describes the application of psychology to the study of the behavior of individuals in the roles of teacher and learner, the nature and effects of learning environments, and the psychological effects of methods, resources, organization and non-school experience on the educational process. Includes instruction in learning theory, human growth and development, research methods, and psychological evaluation.

13.09 **Social and Philosophical Foundations of Education.** A group of instructional programs (see 13.0901).

13.0901 **Social and Philosophical Foundations of Education.** An instructional program that describes the systematic study of education as a social and cultural institution, and the educational process as an object of humanistic inquiry. Includes instruction in such subjects as the philosophy of education, history of education, educational literature, educational anthropology, sociology of education, economics and politics of education, educational policy studies, and studies of education in relation to specific populations, issues, social phenomena, and types of work.
13.10  **Special Education.** A group of instructional programs (see 13.1001)

-----  **Psychology.** (refer to 42. Series)

-----  **Health and Physical Education/Fitness.** (refer to 31.05 Series)

-----  **Communication Disorders Sciences and Services.** (refer to 51.02 Series)

-----  **Rehabilitation/Therapeutic Services.** (refer to 51.23 Series)

13.1001  **Special Education, General.** An instructional program that generally describes the design and provision of teaching and other educational services to children or adults with special learning needs or disabilities, and that may prepare individuals to function as special education teachers. Includes instruction in diagnosing learning disabilities, developing individual education plans, teaching and supervising special education students, special education counseling, and applicable laws and policies.

-----  **Adapted Physical Education/Therapeutic Recreation.** (refer to 31.0502)

-----  [Education of the Culturally Disadvantaged.] (deleted, included under 13.1099)

13.1003  **Education of the Deaf and Hearing Impaired.** An instructional program that describes the study and design of educational services for children or adults with hearing impairments which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying hearing-impaired students, developing individual education plans, teaching and supervising hearing-impaired students, counseling, and applicable laws and policies.

-----  **Audiology/Hearing Sciences.** (refer to 51.0202)

-----  **Sign Language Interpreting.** (refer to 51.0205)

13.1004  **Education of the Gifted and Talented.** An instructional program that describes the study and design of educational services for children or adults exhibiting exceptional intellectual, psychomotor or artistic talent or potential, or who exhibit exceptional maturity or social leadership talents, and that may prepare individuals to teach such students. Includes instruction in identifying gifted and talented students, developing individual education plans, teaching and supervising gifted and talented students, counseling, and applicable laws and policies.

13.1005  **Education of the Emotionally Handicapped.** An instructional program that describes the study and design of educational services for children or adults with emotional conditions which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying emotionally disturbed students, developing individual education plans, teaching and supervising emotionally disturbed students, counseling, and applicable laws and policies.

-----  **Clinical Psychology.** (refer to 42.0201)

13.1006  **Education of the Mentally Handicapped.** An instructional program that describes the study and design of educational services for children or adults with mental disabilities which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying mentally handicapped students, developing individual education plans, teaching and supervising mentally handicapped students, counseling, and applicable laws and policies.

80
13.1007 Education of the Multiple Handicapped. An instructional program that describes the study and design of educational services for children or adults with multiple disabilities which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying multiple handicapped students, developing individual education plans, teaching and supervising multiple handicapped students, counseling, and applicable laws and policies.

13.1008 Education of the Physically Handicapped. An instructional program that describes the study and design of educational services for children or adults with physical disabilities which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying physically disabled students, developing individual education plans, teaching and supervising physically disabled students, counseling, and applicable laws and policies.

13.1009 Education of the Blind and Visually Handicapped. An instructional program that describes the study and design of educational services for children or adults with visual disabilities which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying visually handicapped students, developing individual education plans, teaching and supervising blind or visually handicapped students, counseling, and applicable laws and policies.

13.1011 Education of the Specific Learning Disabled. An instructional program that describes the study and design of educational services for children or adults with specific learning disabilities which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying specific learning disabled students, developing individual education plans, teaching and supervising students with specific learning disabilities students, counseling, and applicable laws and policies.

13.1012 Education of the Speech Impaired. An instructional program that describes the study and design of educational services for children or adults with speech impairments which adversely affect their educational performance, and that may prepare individuals to teach such students. Includes instruction in identifying speech impaired students, developing individual education plans, teaching and supervising students with speech disabilities, counseling, and applicable laws and policies.

13.1013 Education of the Autistic. An instructional program that describes the study and design of educational services for children or adults that are autistic, and that prepares individuals to teach such students. Includes instruction in identifying students with autism, developing individual education plans, teaching and supervising autistic students, counseling, and applicable laws and policies.

13.1099 Special Education, Other. Any instructional program in special education not described above.
13.11 **Student Counseling and Personnel Services.** A group of instructional programs (see 13.1101).

13.1101 **Counselor Education/Student Counseling and Guidance Services.** An instructional program that prepares individuals to apply the theory and principles of guidance and counseling to the provision of support for the personal, social, educational, and vocational development of students, and the organizing of guidance services within elementary, middle and secondary educational institutions. Includes instruction in legal and professional requirements, therapeutic counselor intervention, vocational counseling, and related sociological and psychological foundations.

------- **School Psychology.** (refer to 42.1701)

13.1102 **College/Postsecondary Student Counseling and Personnel Services.** An instructional program that describes the organization and provision of counseling, referral, assistance and administrative services to students in postsecondary educational institutions and adult education facilities, and that may prepare individuals to function as professional counselors in such settings. Includes instruction in applicable laws and policies, residential counseling and services, vocational counseling and placement services, remedial skills counseling, and therapeutic counselor intervention.

13.12 **General Teacher Education.** A group of instructional programs that prepares individuals to teach at various educational levels.

* 13.1201 **Adult and Continuing Teacher Education.** An instructional program that prepares individuals to teach adult students in various settings, including basic and remedial education programs, continuing education programs, and programs designed to develop or upgrade specific employment-related knowledge and skills.

* 13.1202 **Elementary Teacher Education.** An instructional program that prepares individuals to teach students in the elementary grades, which may include kindergarten through grade eight, depending on the school system or state regulations. Includes preparation to teach all elementary education subject matter.

13.1203 **Junior High/Intermediate/Middle School Teacher Education.** An instructional program that prepares individuals to teach students in the middle, intermediate or junior high grades, which may include grades four through nine, depending on the school system or state regulations. May include preparation to teach a comprehensive curriculum or specific subject matter.

* 13.1204 **Pre-Elementary/Early Childhood/Kindergarten Teacher Education.** An instructional program that prepares individuals to teach students ranging in age from infancy through eight years (grade three), depending on the school system or state regulations. Includes preparation to teach all relevant subject matter.

13.1205 **Secondary Teacher Education.** An instructional program that prepares individuals to teach students in the secondary grades, which may include grades seven through twelve, depending on the school system or state regulations. May include preparation to teach a comprehensive curriculum or specific subject matter.

13.1206 **Teacher Education, Multiple Levels.** An instructional program that prepares individuals to teach students at more than one educational level, such as a combined program in elementary/secondary, early childhood/elementary, elementary/middle school, or junior high/high school teacher education.

13.1299 **General Teacher Education, Other.** Any instructional program in general teacher education not described above.

82
13.13 **Teacher Education, Specific Academic and Vocational Programs.** A group of instructional programs that prepare individuals to teach subject matter in specific academic and vocational programs at various educational levels.

--- **Health and Physical Education/Fitness.** (refer to 31.05 Series)

13.1301 **Agricultural Teacher Education (Vocational).** An instructional program that prepares individuals to teach vocational agricultural programs at various educational levels.

13.1302 **Art Teacher Education.** An instructional program that prepares individuals to teach art and art appreciation programs at various educational levels.

13.1303 **Business Teacher Education (Vocational).** An instructional program that prepares individuals to teach vocational business programs at various educational levels.

13.1304 **Driver and Safety Teacher Education.** An instructional program that prepares individuals to teach driver and safety education programs at various educational levels.

13.1305 **English Teacher Education.** An instructional program that prepares individuals to teach English grammar, composition and literature programs at various educational levels.

13.1306 **Foreign Languages Teacher Education.** An instructional program that prepares individuals to teach foreign languages programs at various educational levels.

13.1307 **Health Teacher Education.** An instructional program that prepares individuals to teach health education programs at various educational levels.

13.1308 **Home Economics Teacher Education (Vocational).** An instructional program that prepares individuals to teach vocational home economics programs at various educational levels.

13.1309 **Technology Teacher Education/Industrial Arts Teacher Education.** An instructional program that prepares individuals to teach technology education/industrial arts programs at various educational levels.
13.1310 **Marketing Operations Teacher Education/Marketing and Distributive Teacher Education (Vocational).** An instructional program that prepares individuals to teach vocational marketing operations/marketing and distributive education programs at various educational levels.

13.1311 **Mathematics Teacher Education.** An instructional program that prepares individuals to teach mathematics programs at various educational levels.

13.1312 **Music Teacher Education.** An instructional program that prepares individuals to teach music and music appreciation programs at various educational levels.

13.1314 **Physical Education Teaching and Coaching.** An instructional program that prepares individuals to teach physical education programs and/or to coach sports at various educational levels.

13.1315 **Reading Teacher Education.** An instructional program that prepares individuals to diagnose reading difficulties and to teach reading programs at various educational levels.

13.1316 **Science Teacher Education, General.** An instructional program that prepares individuals to teach general science programs, or a combination of the biological and physical science subject matter areas, at various educational levels.

13.1317 **Social Science Teacher Education.** An instructional program that prepares individuals to teach specific social sciences subjects and programs at various educational levels.

13.1318 **Social Studies Teacher Education.** An instructional program that prepares individuals to teach general social studies programs at various educational levels.
13.1319 **Technical Teacher Education (Vocational).** An instructional program that prepares individuals to teach specific vocational technical education programs at various educational levels.

13.1320 **Trade and Industrial Teacher Education (Vocational).** An instructional program that prepares individuals to teach specific vocational trades and industries programs at various educational levels.

13.1321 **Computer Teacher Education.** An instructional program that prepares individuals to teach computer education programs at various educational levels.

13.1322 **Biology Teacher Education.** An instructional program that prepares individuals to teach biology programs at various educational levels.

13.1323 **Chemistry Teacher Education.** An instructional program that prepares individuals to teach chemistry programs at various educational levels.

13.1324 **Drama and Dance Teacher Education.** An instructional program that prepares individuals to teach drama and/or dance programs at various educational levels.

13.1325 **French Language Teacher Education.** An instructional program that prepares individuals to teach French language programs at various educational levels.
13.1326 **German Language Teacher Education.** An instructional program that prepares individuals to teach German language programs at various educational levels.

--------

13.1327 **Health Occupations Teacher Education (Vocational).** An instructional program that prepares individuals to teach specific vocational health occupations programs at various educational levels.

--------

**Community Health Services.** (refer to 51.03 Series)

--------

**Dental Services.** (refer to 51.06 Series)

--------

**Health and Medical Administrative Services.** (refer to 51.07 Series)

--------

**Health and Medical Assistants.** (refer to 51.08 Series)

--------

**Health and Medical Diagnostic and Treatment Services.** (refer to 51.09 Series)

--------

**Health and Medical Laboratory Technologies.** (refer to 51.10 Series)

--------

**Mental Health Services.** (refer to 51.15 Series)

--------

**Nursing.** (refer to 51.16 Series)

--------

**Ophthalmic/Optometric Services.** (refer to 51.18 Series)

--------

**Miscellaneous Health Aides.** (refer to 51.26)

13.1328 **History Teacher Education.** An instructional program that prepares individuals to teach history programs at various educational levels.

--------

**History, General.** (refer to 45.0801)

13.1329 **Physics Teacher Education.** An instructional program that prepares individuals to teach physics programs at various educational levels.

--------

**Physics, General.** (refer to 40.0801)

13.1330 **Spanish Language Teacher Education.** An instructional program that prepares individuals to teach Spanish language programs at various educational levels.

--------

**Spanish Language and Literature.** (refer to 16.0905)

13.1331 **Speech Teacher Education.** An instructional program that prepares individuals to teach speech and language arts programs at various educational levels.

--------

**Speech and Rhetorical Studies.** (refer to 23.1001)

13.1399 **Teacher Education, Specific Academic and Vocational Programs, Other.** Any instructional program in teacher education, specific academic and vocational programs not described above.

13.1401 Teaching English as a Second Language/Foreign Language. An instructional program that describes the principles and practice of teaching English to students who are not proficient in it or who do not speak, read or write English, and that may prepare individuals to function as teachers and administrators in such programs.

------- Bilingual/Bicultural Education. (refer to 13.0201)

13.15 Teacher Assistant/Aide. A group of instructional programs (see 13.1501)

* 13.1501 Teacher Assistant/Aide. An instructional program that prepares individuals to assist a teacher in regular classroom settings or in providing instruction and supervision to special student populations, such as bilingual/bicultural students, special education students, adult learners, and students learning English. Includes instruction in techniques of general classroom supervision, maintaining order, assisting with lessons and carrying out related assignments.

13.99 Education, Other. A group of instructional programs (see 13.9999)

13.9999 Education, Other. Any instructional program in education not described above.

14. ENGINEERING. A summary of groups of instructional programs that prepares individuals to apply mathematical and scientific principles to the solution of practical problems for the benefit of society.

14.01 Engineering, General. A group of instructional programs (see 14.0101).

---- Mathematics. (refer to 27. Series)

---- Physical Sciences. (refer to 40. Series)

14.0101 Engineering, General. An instructional program that generally prepares individuals to apply mathematical and scientific principles to solve a wide variety of practical problems in industry, social organization, public works, and commerce.

------- Engineering-Related Technology/Technician, General. (refer to 15.1101)

14.02 Aerospace, Aeronautical and Astronautical Engineering. A group of instructional programs (see 14.0201).

14.0201 Aerospace, Aeronautical and Astronautical Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of aircraft, space vehicles, and their systems; applied research on flight characteristics; and the development of systems and procedures for the launching, guidance, and control of air and space vehicles.

------- Aeronautical and Aerospace Engineering Technology/Technician. (refer to 15.0801)
14.03 **Agricultural Engineering.** A group of instructional programs (see 14.0301).

14.0301 **Agricultural Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems, equipment and facilities used to produce, process and store agricultural products; to improve the productivity of agricultural methods; and to develop improved agricultural biological systems.

------- **Food Sciences and Technology.** (refer to 02.0301)

14.04 **Architectural Engineering.** A group of instructional programs (see 14.0401).

14.0401 **Architectural Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of materials, systems, and methods used to construct and equip buildings intended for human habitation or other purposes.

------- **Architecture.** (refer to 04.01 Series)

------- **Architectural Engineering Technology/Technician.** (refer to 15.0101)

14.05 **Bioengineering and Biomedical Engineering.** A group of instructional programs (see 14.0501).

14.0501 **Bioengineering and Biomedical Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of biological and health systems and products such as integrated biological systems, instrumentation, medical information systems, artificial organs and prostheses, and health management and care delivery systems.

------- **Biomedical Engineering Technology/Technician.** (refer to 15.0401)

---- **Environmental Control Technologies.** (refer to 15.05 Series)

------- **Occupational Safety and Health Technology/Technician.** (refer to 15.0701)

------- **Biotechnology Research.** (refer to 26.0616)

---- **Biological Technology/Technician.** (refer to 41.0101 Series)

-- **Health Sciences and Allied Health Services.** (refer to 51. Series)

14.06 **Ceramic Sciences and Engineering.** A group of instructional programs (see 14.0601).

14.0601 **Ceramic Sciences and Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of inorganic non-metallic materials, such as porcelains, cements, industrial ceramics, ceramic superconductors, abrasive, and related materials and systems.

14.07 **Chemical Engineering.** A group of instructional programs (see 14.0701).

14.0701 **Chemical Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of
systems employing chemical processes, such as chemical reactors, kinetic systems, electrochemical systems, energy conservation processes, heat and mass transfer systems, and separation processes; and the applied analysis of chemical problems such as corrosion, particle abrasion, energy loss, pollution, and fluid mechanics.

---- Chemistry. (refer to 40.05 Series)

------- Chemical Technology/Technician. (refer to 41.0301)

14.08 Civil Engineering. A group of instructional programs (see 14.0801).

14.0801 Civil Engineering, General. An instructional program that generally prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of structural, load-bearing, material moving, transportation, water resource, and material control systems; and related equipment and environmental safety measures.

------- Civil Engineering/Civil Technology/Technician. (refer to 15.0201)

14.0802 Geotechnical Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems for manipulating and controlling surface and subsurface features at or incorporated into structural sites, including earth and rock moving and stabilization, land fills, structural use and environmental stabilization of wastes and by-products, underground construction, and groundwater and hazardous material containment.

14.0803 Structural Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of materials and systems used in building load-bearing structures for various purposes and in different environments, including buildings, roads, rail lines, bridges, dams, conduits, offshore platforms and work stations, and other structural shells; and the analysis of structural problems such as aging, failure, fabrication, safety, and natural hazards.

------- Construction/Building Technology/Technician. (refer to 15.1001)

14.0804 Transportation and Highway Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of total systems for the physical movement of people, materials and information, including general network design and planning, facilities planning, site evaluation, transportation management systems, needs projections and analysis, and analysis of costs.

------- Architectural Urban Design and Planning. (refer to 04.0701)

14.0805 Water Resources Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems for collecting, storing, moving, conserving and controlling surface- and groundwater, including water quality control, water cycle management, management of human and industrial water requirements, water delivery, and flood control.

14.0899 Civil Engineering, Other. Any instructional program in civil engineering not described above.

14.0901 Computer Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of
computer hardware and software systems and related equipment and facilities; and the analysis of specific problems of computer applications to various tasks.

-----  **Computer Science.** (refer to 11.0701)

-----  **Computer Engineering Technology/Technician.** (refer to 15.0301)

-----  **Computer Maintenance Technology/Technician.** (refer to 15.0402)

14.10  **Electrical, Electronics and Communications Engineering.** A group of instructional programs (see 14.1001)

14.1001  **Electrical, Electronics and Communications Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of electrical, electronic and related communications systems and their components, including electrical power generation systems; and the analysis of problems such as superconductivity, wave propagation, energy storage and retrieval, and reception and amplification.

-----  **Electrical, Electronic and Communications Engineering Technology/Technician.** (refer to 15.0303)

-----  [Microelectronic Engineering.] (deleted, included under 14.1001)

14.11  **Engineering Mechanics.** A group of instructional programs (see 14.1101).

14.1101  **Engineering Mechanics.** An instructional program that generally describes the application of the mathematical and scientific principles of classical mechanics to the analysis and evaluation of the behavior of structures, forces and materials in engineering problems. Includes instruction in statics, kinetics, dynamics, kinematics, celestial mechanics, stress and failure, and electromagnetism.

14.12  **Engineering Physics.** A group of instructional programs (see 14.1201).

14.1201  **Engineering Physics.** An instructional program that generally describes the application of the mathematical and scientific principles of physics to the analysis and evaluation of engineering problems. Includes instruction in high- and low-temperature phenomena, computational physics, superconductivity, applied thermodynamics, molecular and particle physics applications, and space science research.

-----  **Physics.** (refer to 40.08 Series)

14.13  **Engineering Science.** A group of instructional programs (see 14.1301).

14.1301  **Engineering Science.** An instructional program that generally describes the application of various combinations of mathematical and scientific principles to the analysis and evaluation of engineering problems, including applied research in human behavior, statistics, biology, chemistry, the earth and planetary sciences, atmospherics and meteorology, and computer applications.

-----  **Physical Sciences, General.** (refer to 40.0101)
14.14 **Environmental/Environmental Health Engineering.** A group of instructional programs (see 14.1401).

14.1401 **Environmental/Environmental Health Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems for controlling contained living environments and for monitoring and controlling factors in the external natural environment, including pollution control, waste and hazardous material disposal, health and safety protection, conservation, life support, and requirements for protection of special materials and related work environments.

------ **Environmental Control Technologies.** (refer to 15.05 Series)

------ **Quality Control and Safety Technologies.** (refer to 15.07 Series)

14.15 **Geological Engineering.** A group of instructional programs (see 14.1501).

14.1501 **Geological Engineering.** An instructional program that prepares individuals to apply mathematical and geological principles to the analysis and evaluation of engineering problems, including the geological evaluation of construction sites, the analysis of geological forces acting on structures and systems, the analysis of potential natural resource recovery sites, and applied research on geological phenomena.

------ **Geology.** (refer to 40.0601)

14.16 **Geophysical Engineering.** A group of instructional programs (see 14.1601).

14.1601 **Geophysical Engineering.** An instructional program that prepares individuals to apply mathematical, geophysical and planetary principles to the analysis and evaluation of engineering problems, including gravitational and magnetic forces, time and space factors, celestial mass and motion, and their relation to questions of control, movement, function and design in earthbound and space systems.

------ **Geophysics and Seismology.** (refer to 40.0603)

------ **Earth and Planetary Sciences.** (refer to 40.0703)

14.17 **Industrial/Manufacturing Engineering.** A group of instructional programs (see 14.1701).

14.1701 **Industrial/Manufacturing Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of integrated systems for managing industrial production processes, including the optimization of human work factors, efficiency engineering, logistics and material flow, just-in-time manufacturing, industrial quality control, automation, cost analysis, and production coordination.

------ **Industrial/Manufacturing Technology/Technician.** (refer to 15.0603)

14.18 **Materials Engineering.** A group of instructional programs (see 14.1801).

14.1801 **Materials Engineering.** An instructional program that prepares individuals to apply mathematical and materials science principles to the design, development and operational evaluation of materials and related processes used in manufacturing in a wide variety of
settings; the synthesis of new industrial materials, including marrying and bonding composites; analysis of materials requirements and specifications; and related problems of system design dependent on materials factors.

Materials Sciences. (refer to 14.3101)

14.1901 Mechanical Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of physical systems used in manufacturing and end-product systems used for specific uses, including machine tools, jigs and other manufacturing equipment; stationary power units and appliances; engines; self-propelled vehicles; housings and containers; hydraulic and electric systems for controlling movement; and the integration of computers and remote control with operating systems.

Mechanical Engineering/Mechanical Technology/Technician. (refer to 15.0805)

14.2001 Metallurgical Engineering. An instructional program that prepares individuals to apply mathematical and metallurgical principles to the design, development and operational evaluation of metal components of structural, load-bearing, power, transmission, and moving systems; and the analysis of engineering problems such as stress, creep, failure, alloy behavior, environmental fluctuations, stability, electromagnetic and thermodynamic characteristics, optimal manufacturing processes, and related design considerations.

Metallurgical Technology/Technician. (refer to 15.0611)

Metallurgy. (refer to 40.0701)

14.2101 Mining and Mineral Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of mineral extraction, processing and refining systems, including open pit and shaft mines, prospecting and site analysis equipment and instruments, environmental and safety systems, mine equipment and facilities, mineral processing and refining methods and systems, and logistics and communications systems.

Mining Technology/Technician. (refer to 15.0901)

14.2201 Naval Architecture and Marine Engineering. An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of self-propelled, stationary, or towed vessels operating on or under the water, including inland, coastal and ocean environments; and the analysis of related engineering problems such as corrosion, power transfer, pressure, hull efficiency, stress factors, safety and life support, communications and sensing, environmental hazards and factors, and specific use requirements.
14.23 **Nuclear Engineering.** A group of instructional programs (see 14.2301).

14.2301 **Nuclear Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems for controlling and manipulating nuclear energy, including nuclear power plant design, fission reactor design, fusion reactor design, reactor control and safety systems design, power transfer systems, containment vessels and structures design; and the analysis of related engineering problems such as fission and fusion processes, human and environmental factors, construction, and operational considerations.

------- **Nuclear/Nuclear Power Technology/Technician.** (refer to 41.0205)

14.24 **Ocean Engineering.** A group of instructional programs (see 14.2401)

14.2401 **Ocean Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems to monitor, control, manipulate and operate within coastal or ocean environments, such as underwater platforms, flood control systems, dikes, hydroelectric power systems, tide and current control and warning systems, and communications equipment; the planning and design of total systems for working and functioning in water or underwater environments; and the analysis of related engineering problems such as the action of water properties and behavior on physical systems and people, tidal forces, current movements, and wave motion.

------- **Oceanography.** (refer to 40.0702)

14.25 **Petroleum Engineering.** A group of instructional programs (see 14.2501).

14.2501 **Petroleum Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems for locating, extracting, processing and refining crude petroleum and natural gas, including prospecting instruments and equipment, mining and drilling systems, processing and refining systems and facilities, storage facilities, transportation systems, and related environmental and safety systems.

14.27 **Systems Engineering.** A group of instructional programs (see 14.2701).

14.2701 **Systems Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of total systems solutions to a wide variety of engineering problems, including the integration of human, physical, energy, communications, management, and information requirements as needed, and the application of requisite analytical methods to specific situations.
14.28 **Textile Sciences and Engineering.** A group of instructional programs (see 14.2801).

14.2801 **Textile Sciences and Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of systems to test and manufacture fibers and fiber products, both synthetic and natural; to develop new and improved fibers, textiles and their uses; and to the analysis of related engineering problems such as structural factors, molecular synthesis, chemical manufacturing, weaves, strength and stress, useful life, dyes, and applications to composite systems.

14.29 **Engineering Design.** A group of instructional programs (see 14.2901)

14.2901 **Engineering Design.** An instructional program that prepares individuals to apply mathematical and scientific principles to engineering problems involving marrying or coordinating multiple dissimilar systems to carry out single functions or achieve common purposes, organizing system components for maximum flexibility and utility, planning engineering projects involving multiple tasks and design solutions, planning design testing and evaluation procedures, resolving specification and requirement conflicts, and choosing among competing theoretical solutions.

14.30 **Engineering/Industrial Management.** A group of instructional programs (see 14.3001)

14.3001 **Engineering/Industrial Management.** An instructional program that describes the application of engineering principles to the planning and operational management of enterprises and organizations, including budgeting, costing, quality control, efficient resource allocation and utilization, product production and distribution, human resource management, systems and plant maintenance, scheduling, storage and security, organization planning, acquisitions, and logistics.

14.31 **Materials Science.** A group of instructional programs (see 14.3101)

14.3101 **Materials Science.** An instructional program that generally describes the application of mathematical and scientific principles to the analysis and evaluation of the characteristics and behavior of solids, including internal structure, chemical properties, transport and energy flow properties, thermodynamics of solids, stress and failure factors, chemical transformation states and processes, compound materials, and research on industrial applications of specific materials.

14.32 **Polymer/Plastics Engineering.** A group of instructional programs (see 14.3201)

14.3201 **Polymer/Plastics Engineering.** An instructional program that prepares individuals to apply mathematical and scientific principles to the design, development and operational evaluation of
synthesized macromolecular compounds and their application to specific engineering uses, including the development of industrial materials with tailored properties, the design of lightweight structural components, the use of liquid or solid polymers, and the analysis and control of polymerization processes.

14.9999 Engineering, Other. Any instructional program in engineering not described above.

15. ENGINEERING-RELATED TECHNOLOGIES. A summary of groups of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineering and related projects.

15.01 Architectural Engineering Technology. A group of instructional programs (see 15.0101)

--- Engineering. (refer to 14. Series)

* 15.0101 Architectural Engineering Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of architects, engineers and planners engaged in designing and developing buildings, urban complexes, and related systems. Includes instruction in design testing procedures, building site analysis, model building and computer graphics, engineering drawing, structural systems testing, analysis of prototype mechanical and interior systems, test equipment operation and maintenance, and report preparation.

[Architectural Interior Design Technology.] (deleted, included under 15.0101)
[Architectural Technologies, Other.] (deleted, included under 15.0101)

15.02 Civil Engineering/Civil Technology. A group of instructional programs (see 15.0201)

* 15.0201 Civil Engineering/Civil Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of civil engineers engaged in designing and executing public works projects such as highways, dams, bridges, tunnels and other facilities. Includes instruction in site analysis, structural testing procedures, field and laboratory testing procedures, plan and specification preparation, test equipment operation and maintenance, and report preparation.

[Drafting and Design Technology/Technician]. (deleted, included under 48.0101)

Surveying and Mapping Technology. (moved to 15.1103)
[Urban Planning Technology.] (deleted, included under 15.0201)
[Civil Technologies, Other.] (deleted, included under 15.0201)

15.03 Electrical and Electronic Engineering-Related Technology. A group of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineering, research and industrial applications of electricity, lasers, and computers.

* 15.0301 Computer Engineering Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of computer
engineers engaged in designing and developing computer systems and installations. Includes instruction in computer electronics and programming, prototype development and testing, systems installation and testing, solid state and microminiature circuitry, peripheral equipment, and report preparation.

[Electrical Engineering-Related Technology.] (deleted, included under 15.0303)

* 15.0303 Electrical, Electronic and Communications Engineering Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of electrical, electronics and communication engineers. Includes instruction in electrical circuitry, prototype development and testing; systems analysis and testing, systems maintenance, instrument calibration, and report preparation.

* 15.0304 Laser and Optical Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using lasers and other optical for commercial or research purposes. Includes instruction in laser and optical principles, testing and maintenance procedures, safety precautions, specific applications to various tasks, and report preparation.

* 15.0399 Electrical and Electronic Engineering-Related Technologies/Technicians, Other. Any instructional program in electrical and electronic engineering-related technologies not described above.

15.04 Electromechanical Instrumentation and Maintenance Technology. A group of instructional programs that prepare individuals to apply basic engineering and technical skills in support of engineers and other professionals engaged in developing and using industrial systems relying on electrical power.

* 15.0401 Biomedical Engineering-Related Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers engaged in developing biological or medical systems and products. Includes instruction in instrument calibration, design and installation testing, system safety and maintenance procedures, procurement and installation procedures, and report preparation.

* 15.0402 Computer Maintenance Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of professionals who use computer systems. Includes instruction in basic computer design and architecture, programming, problems of specific computer applications, component and system maintenance and inspection procedures, hardware and software problem diagnosis and repair, and report preparation.

[Computer Installer and Repairer. (refer to 47.0104)]

* 15.0403 Electromechanical Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers engaged in developing and testing automated, servomechanical, and other electromechanical systems. Includes instruction in prototype testing, manufacturing and operational testing, systems analysis and maintenance procedures, and report preparation.

* 15.0404 Instrumentation Technology/Technician. An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers engaged in developing control and measurement systems and procedures. Includes instruction in instrumentation design and maintenance, calibration, design and production testing and scheduling, automated equipment functions, applications to specific industrial tasks, and report preparation.
* 15.0405 **Robotics Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using robots. Includes instruction in the principles of robotics, design and operational testing, system maintenance and repair procedures, robot computer systems and control language, specific system types and applications to specific industrial tasks, and report preparation.

* 15.0499 **Electromechanical and Instrumentation and Maintenance Technologies/Technicians, Other.** Any instructional program in electromechanical instrumentation and maintenance technologies not described above.

15.05 **Environmental Control Technologies.** A group of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in environmental protection and the development of environmental systems.

* 15.0501 **Heating, Air Conditioning and Refrigeration Technologies/Technicians.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using air conditioning, refrigeration, and heating systems. Includes instruction in principles of heating and cooling technology, design and operational testing, inspection and maintenance procedures, installation and operation procedures, and report preparation.

* 15.0503 **Energy Management and Systems Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing energy-efficient systems or monitoring energy use. Includes instruction in principles of energy conservation, instrumentation calibration, monitoring systems and test procedures, energy loss inspection procedures, energy conservation techniques, and report preparation.

* 15.0505 **Solar Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing solar-powered energy systems. Includes instruction in solar energy principles, energy storage and transfer technologies, testing and inspection procedures, system maintenance procedures, and report preparation.

* 15.0506 **Water Quality and Wastewater Treatment Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using water storage, water power, and wastewater treatment systems. Includes instruction in water storage, power and/or treatment systems and equipment; appropriate testing and inspection procedures; appropriate system maintenance procedures; and report preparation.

* 15.0507 **Environmental and Pollution Control Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using indoor and outdoor environmental pollution control systems, and in disposing of hazardous materials. Includes...
15.0599 **Environmental Control Technologies/Technicians, Other.** Any instructional program in environmental control technologies not described above.

15.06 **Industrial Production Technologies.** A group of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using industrial processes.

* 15.0603 **Industrial/Manufacturing Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using industrial manufacturing systems and processes. Includes instruction in design and prototype testing, instrument calibration, operational and maintenance procedures, operational diagnosis and repair, applications to specific systems and products, and report preparation.

* 15.0607 **Plastics Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using industrial polymers. Includes instruction in the principles of macromolecular chemistry, polymerization and plastic manufacturing processes and equipment, design and operational testing procedures, equipment maintenance and repair procedures, safety procedures, applications to specific products, and report preparation.

* 15.0611 **Metallurgical Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and metallurgists engaged in developing and using industrial metals and manufacturing processes. Includes instruction in principles of metallurgy, related manufacturing systems, laboratory techniques, testing and inspection procedures, instrument calibration, system and equipment maintenance and repair, applications to specific processes, and report preparation.

* **Industrial Radiologic Technology/Technician.** (refer to 41.0204)

* 15.0699 **Industrial Production Technologies/Technicians, Other.** Any instructional program in industrial production technologies not described above.

15.07 **Quality Control and Safety Technologies.** A group of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in monitoring product quality and the health and safety of the work place.

* 15.0701 **Occupational Safety and Health Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in maintaining job-related health and safety standards. Includes instruction in safety engineering principles, inspection and monitoring.
procedures, testing and sampling procedures, laboratory techniques, applications to specific work environments, and report preparation.

* 15.0702 **Quality Control Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in maintaining consistent manufacturing and construction standards. Includes instruction in quality control systems management principles, technical standards applicable to specific engineering and manufacturing projects, testing procedures, inspection procedures, related instrumentation and equipment operation and maintenance, and report preparation.

* 15.0799 **Quality Control and Safety Technologies/Technicians, Other.** Any instructional program in quality control and safety technologies not described above.

15.08 **Mechanical Engineering-Related Technologies.** A group of instructional programs that prepare individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing mechanical systems.

* 15.0801 **Aeronautical and Aerospace Engineering Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing, manufacturing and testing aircraft, spacecraft and their systems. Includes instruction in aircraft/spacecraft systems technology, design and development testing, prototype and operational testing, inspection and maintenance procedures, instrument calibration, test equipment operation and maintenance, and report preparation.

--------- **Aviation Systems and Avionics Maintenance Technologist/Technician.** (refer to 47.0609)

* 15.0803 **Automotive Engineering Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing, manufacturing and testing self-propelled ground vehicles and their systems. Includes instruction in vehicular systems technology, design and development testing, prototype and operational testing, inspection and maintenance procedures, instrument calibration, test equipment operation and maintenance, and report preparation.

--------- **Auto/Automotive Mechanic/Technician.** (refer to 47.0604)

--------- [Marine Propulsion Technology.] (deleted, included under 15.0899)

* 15.0805 **Mechanical Engineering/Mechanical Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers engaged in the design and development phases of a wide variety of projects involving mechanical systems. Includes instruction in principles of mechanics, applications to specific engineering systems, design testing procedures, prototype and operational testing and inspection procedures, manufacturing system testing procedures, test equipment operation and maintenance, and report preparation.

* 15.0899 **Mechanical Engineering-Related Technologies/Technicians, Other.** Any instructional program in mechanical engineering-related technologies not described above.

15.09 **Mining and Petroleum Technologies.** A group of instructional programs that prepare individuals to apply basic principles of engineering and technical skills in support of engineers and other professionals engaged in locating and extracting mineral and petroleum resources.
* 15.0901 **Mining Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in the development and operation of mines and related mineral processing facilities. Includes instruction in principles of mineral extraction and related geology, mineral field mapping and site analysis, testing and sampling methods, instrument calibration, assay analysis, test equipment operation and maintenance, mine environment and safety monitoring procedures, mine inspection procedures, and report preparation.

-------- [Mining (Excluding Coal) Technology.] (deleted, included under 15.0901)

* 15.0903 **Petroleum Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in the development and operation of oil and natural gas extraction and processing facilities. Includes instruction in principles of petroleum extraction and related geology, petroleum field mapping and site analysis, testing and sampling methods, instrument calibration, laboratory analysis, test equipment operation and maintenance, environment and safety monitoring procedures for oil/gas fields and facilities, facility inspection procedures, and report preparation.

* 15.0999 **Mining and Petroleum Technologies/Technicians, Other.** Any instructional program in mining and petroleum engineering-related technologies not described above.

15.10 **Construction/Building Technology.** A group of instructional programs (see 15.1001).

* 15.1001 **Construction/Building Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers, engineering contractors and other professionals engaged in the construction of buildings and related structures. Includes instruction in basic structural engineering principles and construction techniques, building site inspection, site supervision, construction personnel supervision, plan and specification interpretation, supply logistics and procurement, applicable building codes, and report preparation.

-------- **Architectural Engineering Technology.** (refer to 15.0101)

-------- **Construction/Building Inspector.** (refer to 46.0403)

15.11 **Miscellaneous Engineering-Related Technologies.** A group of instructional programs (see 15.1101)

* 15.1101 **Engineering Technology/Technician, General.** An instructional program that generally prepares individuals to apply basic engineering principles and technical skills in support of engineers engaged in a wide variety of projects. Includes instruction in various engineering support functions for research, production, and operations, and applications to specific engineering specialties.

* 15.1102 **Surveying.** An instructional program that prepares individuals to apply mathematical and scientific principles to the delineation, determination, planning and positioning of land tracts, land and water boundaries, land contours and features; and the preparation of related maps, charts and reports. Includes instruction in applied geodesy, computer graphics, photointerpretation, plane and geodetic surveying, mensuration, traversing, survey equipment operation and maintenance, instrument calibration, and basic cartography.

* 15.1103 **Hydraulics Technology/Technician.** An instructional program that prepares individuals to apply basic engineering principles and technical skills in support of engineers and other professionals engaged in developing and using fluid power and transportation systems.
Includes instruction in fluid mechanics and hydraulics principles, fluid power systems, pipeline and pumping systems, design and operational testing, inspection and maintenance procedures, related instrumentation, and report preparation.

15.99 **Engineering-Related Technologies, Other.** A group of instructional programs (see 15.9999)

* 15.9999 **Engineering-Related Technologies/Technicians, Other.** Any instructional program in engineering-related technologies not described above.

16. **FOREIGN LANGUAGES AND LITERATURES.** A summary of groups of instructional programs that describe the study of languages other than English, and the study of related aspects of foreign literatures and cultures.

---- **Area, Ethnic and Cultural Studies.** (refer to 05. Series)

---- **English Language and Literature/Letters.** (refer to 23. Series)

16.01 **Foreign Languages and Literatures.** A group of instructional programs (see 16.0101).

16.0101 **Foreign Languages and Literatures, General.** An instructional program that describes an undifferentiated program in foreign languages and literatures.

------- **Foreign Languages Teacher Education.** (refer to 13.1306)

------- **Comparative Literature.** (refer to 23.0301)

16.0102 **Linguistics.** An instructional program that describes the scientific and scholarly study of language and the relationships among languages. Includes instruction in psycholinguistics, anthropological linguistics, historical linguistics, mathematical linguistics, grammatical theory, philosophy of language, philology, sociolinguistics, language and culture studies, and the study of written scripts and their evolution.

16.0103 **Foreign Language Interpretation and Translation.** An instructional program that prepares individuals to translate written documents, or to consecutively or simultaneously interpret oral communications. Includes instruction in translating and/or interpreting from a specific foreign language into English, from English into another specific language, or between two foreign languages.

------- [African (Non-Semitic) Languages.] (deleted)

------- [African (Non-Semitic) Languages.] (deleted, included under 16.9999)

16.03 **East and Southeast Asian Languages and Literatures.** A group of instructional programs that describe the study of the languages, literatures, and cultures of East and Southeast Asian peoples.

------- **East Asian Studies.** (refer to 05.0104)

------- **Southeast Asian Studies.** (refer to 05.0113)

16.0301 **Chinese Language and Literature.** An instructional program that describes the study of the language, literature, and culture of Chinese-speaking peoples, including dialects such as
Cantonese, Taiwanese, and Mandarin.

16.0302 **Japanese Language and Literature.** An instructional program that describes the study of the language, literature, and culture of Japanese-speaking peoples.

16.0399 **East and Southeast Asian Languages and Literatures, Other.** Any instructional program in East and Southeast Asian languages and literatures not described above, such as Korean, Tibetan, Mongolian, Tagalog, Thai, Lao, Vietnamese, Cambodian, Indonesian/Malay, Burmese or others.

16.0406 **East European Languages and Literatures.** A group of instructional programs that describe the study of the languages, literatures, and cultures of the peoples of Eastern Europe, including Russia, the Baltic Coast, Middle Europe, and the Balkans.

------ **European Studies.** (refer to 05.0106)

------ **Eastern European Area Studies.** (refer to 05.0105)

------ **Russian and Slavic Area Studies.** (refer to 05.0110)

16.0402 **Russian Language and Literature.** An instructional program that describes the study of the language, literature, and culture of Russian-speaking peoples.

16.0403 **Slavic Languages and Literatures (Other than Russian).** An instructional program that describes the study of one or more of the languages, literatures and cultures of the non-Russian Slavic peoples, including such languages as Byelorussian, Bulgarian, Czech, Polish, Serbo-Croatian, Old Slavonic and Ukrainian.

16.0499 **East European Languages and Literatures, Other.** Any instructional program in East European languages and literatures not described above, such as Finnish, Hungarian, Estonian, Latvian and Lithuanian.

16.05 **Germanic Languages and Literatures.** A group of instructional programs that describe the study of the languages, literatures, and cultures of peoples speaking Germanic languages other than English.

------ **European Studies.** (refer to 05.0106)

------ **Western European Studies.** (refer to 05.0114)

16.0501 **German Language and Literature.** An instructional program that describes the study of the language, literature, and culture of German-speaking peoples, including related dialects such as Low German, Swiss-German, and Old or Middle German.

------ **German Language Teacher Education.** (refer to 13.1326)

16.0502 **Scandinavian Languages and Literatures.** An instructional program that describes the study of the languages, literatures, and cultures of the Scandinavian peoples, including Danish, Icelandic, Norwegian, Swedish, and Old Norse.

------ **Scandinavian Area Studies.** (refer to 05.0111)

16.0599 **Germanic Languages and Literatures, Other.** Any instructional program in Germanic languages and literatures not described above, such as Yiddish, Dutch, Flemish, Old German, Frisian, Gothic and Saxon.
16.06 Greek Language and Literature (Modern). A group of instructional programs that describe the study of the language, literature, and culture of Greek-speaking peoples.

------- European Studies. (refer to 05.0106)
------- Greek Language and Literature (Ancient and Medieval). (refer to 16.1202)

16.0601 Greek Language and Literature (Modern). An instructional program that describes the study of the language, literature, and culture of modern Greece, generally comprising the period from the fall of Byzantium in 1453 to the present.

16.07 South Asian Languages and Literatures. A group of instructional programs (see 16.0703).

16.0703 South Asian Languages and Literatures. An instructional program that describes the study of the languages, literatures and cultures of peoples of South Asia, including such languages as Hindi, Urdu, Bengali, Punjabi, and the Dravidian group, and ancestral languages such as Sanskrit, Pali and Bactrian.

------- South Asian Studies. (refer to 05.0112)

16.09 Romance Languages and Literatures. A group of instructional programs that describe the languages, literatures, and cultures of peoples speaking languages descended from Latin dialects and their modern derivatives.

------- African Studies. (refer to 05.0101)
------- European Studies. (refer to 05.0106)
------- Latin American Studies. (refer to 05.0107)
------- Western European Studies. (refer to 05.0114)

16.0901 French Language and Literature. An instructional program that describes the study of the language, literature, and culture of French-speaking peoples, including related languages and dialects such as Creole, Provencal and Walloon.

------- French Language Teacher Education. (refer to 13.1325)

16.0902 Italian Language and Literature. An instructional program that describes the study of the language, literature, and culture of Italian-speaking peoples, including dialects and related languages such as Sicilian, Friulian and Sardinian.

------- Latin (moved to 16.1203)

16.0904 Portuguese Language and Literature. An instructional program that describes the study of the language, literature, and culture of Portuguese-speaking peoples, including the Luso-Brazilian and African dialects.

16.0905 Spanish Language and Literature. An instructional program that describes the study of the language, literature, and culture of Spanish-speaking peoples, including related or derived dialects and languages such as Catalan, Castillian, and various Latin American dialects.

------- Spanish Language Teacher Education. (refer to 13.1329)
16.0999 **Romance Languages and Literatures, Other.** Any instructional program in Romance languages not described above, such as Romanian and Rhaeto-Romansch.

----- [Native American Languages.] (deleted)

------- [Native American Languages.] (deleted, included under 16.9999)

16.11 **Middle Eastern Languages and Literatures.** A group of instructional programs that describes the languages, literatures, and cultures of peoples of the Middle East, including Turkey, the Arabian Peninsula, Iran, the Fertile Crescent and Semitic North Africa.

------- **Middle Eastern Studies.** (refer to 05.0108)

16.1101 **Arabic Language and Literature.** An instructional program that describes the study of the language, literature, and culture of Arabic-speaking peoples, including Classical, Modern Standard, and related dialects and derivatives.

------- **Islamic Studies.** (refer to 05.0204)

16.1102 **Hebrew Language and Literature.** An instructional program that describes the study of the language, literature, and culture of Hebrew-speaking peoples, including promodern and modern Hebrew dialects and derivatives.

------- **Jewish/Judaic Studies.** (refer to 05.0205)

------- **Classical and Ancient Near Eastern Languages and Literatures.** (refer to 16.12 Series)

------- **Biblical and Other Theological Languages and Literatures.** (refer to 39.0101)

16.1199 **Middle Eastern Languages and Literatures, Other.** Any instructional program in Middle Eastern languages and literatures not described above, including such languages as Farsi (Iranian), Turkish, Berber and Armenian.

16.12 **Classical and Ancient Near Eastern Languages and Literatures.** A group of instructional programs that describe the study of the languages, literatures and cultures of the Greek- and Latin-speaking peoples of the ancient and Medieval West, and of the peoples of the Pre-Islamic Near East.

16.1201 **Classics and Classical Languages and Literatures.** An instructional program that describes the study of the languages, literatures and general civilization of the classical Greco-Roman world, including both ancient Greek and Latin, and related studies.

------- **Archaeology.** (refer to 45.0301)

------- **Art History, Criticism and Conservation.** (refer to 50.0703)

16.1202 **Greek Language and Literature (Ancient and Medieval).** An instructional program that describes the study of the language, literature and culture of the ancient and Medieval Greeks, including Archaic Greece, Classical Greece, the Hellenistic World, Byzantium, and related studies.

16.1203 **Latin Language and Literature (Ancient and Medieval).** An instructional program that describes the study of the language, literature and culture of the ancient and Medieval Latin-speaking peoples, including Classical Roman Latin, related ancient Italic dialects and
languages, Medieval Latin and derivatives, and related studies.
Medieval and Renaissance Studies. (refer to 30.1301)

Biblical and Other Theological Languages and Literatures. (refer to 39.0101)

16.1299 Classical and Ancient Near Eastern Languages and Literatures, Other. Any instructional program in Classical and ancient Near Eastern languages and literatures not described above, such as Ancient Egyptian/Egyptology, Coptic, Avestan (Old Persian), Akkadian, Aramaic, Ugaritic, Syriac, Phoenician, Hittite and Hurrian, Sumerian, Luwian, Yemeni, Elamite, Cretan, and Urartian.

16.99 Foreign Languages and Literatures, Other. A group of instructional programs (see 16.9999)

16.9999 Foreign Languages and Literatures, Other. Any instructional program in foreign languages and literatures not described above, including language groups and individual languages such as the non-Semitic African languages, Native American languages, the Celtic languages, Pacific language groups, the Ural-Altaic languages, Basque, and others.

An instructional program that describes the study of the processes used by families and households in balancing needs and wants and in maximizing the use of available resources. Includes instruction in human behavior, management theory, household planning, financial instruments and planning, and family resource consultative services.

19.0402 Consumer Economics and Science. An instructional program that describes the systematic study of the concepts and skills pertaining to consumer behavior in relation to the social, political and economic components of market environments; and strategies and methods for responding to identified problems. Includes instruction in consumer activities and behavior which affect the individual, the family, society and the workplace.

19.0499 Family/Consumer Resource Management, Other. An instructional program in family/consumer resource management not described above.

19.05 Foods and Nutrition Studies. A group of instructional programs (see 19.0501)

19.0501 Foods and Nutrition Studies, General. An instructional program that generally describes the study of the role of food and nutrition in individual and family health and wellness, and in the study of food production, preparation and service operations. Includes instruction in food product consumption, nutritional care and education, and the organization and administration of food systems.

19.0502 Foods and Nutrition Science. An instructional program that describes the scientific study of the chemical, physical and sensory properties of human food; food preservation and safety; nutritional quality; food processing and preparation; food use and diet applications; and food-related logistics management and marketing.

------ Food Science. (refer to 02.0301)

19.0503 Dietetics/Human Nutritional Services. An instructional program that describes the provision of nutritional services, menu planning and diet consultation for individuals, families and institutions. Includes instruction in planning and directing food service activities, diet and nutrition analysis and plan formulation, food preparation management, client education and related services.

------ Dietetic Assistant. (refer to 20.0404)

------ Medical Dietician. (refer to 51.2702)

19.0505 Food Systems Administration. An instructional program that describes the principles and practices relating to the administration of institutional food service systems. Includes instruction in service design and organization, resource acquisition and management, personnel resources management and human behavior, and consumer economics.
19.06 **Housing Studies.** A group of instructional programs  

19.0601 **Housing Studies, General.** An instructional program that generally describes the study of the behavioral, social, economic, functional and aesthetic aspects of housing and other environments. Includes instruction in planning, designing, furnishing, and equipping households, and the behavioral, developmental, public policy, and cultural issues related to households.

19.0603 **Interior Environments.** An instructional program that describes the planning and analysis of interior home environments relative to function and quality as related to individual, family and social development and behavior. Includes instruction in the design of environments and interiors, space utilization, furnishing and equipment -- from the standpoint of enhancing habitability and the quality of life and work.

19.0699 **Housing Studies, Other.** Any instructional program in housing studies not described above.

19.07 **Individual and Family Development Studies.** A group of instructional programs  

19.0701 **Individual and Family Development Studies, General.** An instructional program that generally describes the study of the developmental and behavioral characteristics of the individual, within the context of the family, across the life span.

19.0703 **Family and Marriage Counseling.** An instructional program that describes the study of the factors affecting marital relationships, parent-child relationships, and the functioning of the family as a whole; the study of separation, divorce and remarriage, death, exceptional children, and health and wellness; and the application of therapeutic intervention strategies in appropriate situations.

19.0704 **Family Life and Relations Studies.** An instructional program that describes the study of the family unit as it evolves across the lives of its members, with emphasis on identifying and analyzing family structures, family member roles and functions, family interactions, and family conflicts.

19.0705 **Gerontological Services.** An instructional program that describes the study of the characteristics, attitudes, behavior and needs of older people in family settings, and the methods of organizing services for them. Includes instruction in providing dependent care; serving the physical, social, economic, and psychological needs and concerns of the elderly; related legislation; and community resources.

19.0706 **Child Growth, Care and Development Studies.** An instructional program that describes the study of the intellectual, social, emotional and physical growth of children from birth through
adolescence, and the administration and supervision of services to children and their families. Includes instruction in providing dependent care; related social, behavioral and biological sciences; and management theory and practice.

-------  Developmental and Child Psychology. (refer to 42.0701)

19.0799 Individual and Family Development Studies, Other. Any instructional program in individual and family development studies not described above.

19.09 Clothing/Apparel and Textile Studies. A group of instructional programs (see 19.0901)

  19.0901 Clothing/Apparel and Textile Studies. An instructional program that describes the study of contemporary and historical ways of meeting psychological, sociological, economic, and physiological needs relative to clothing and textile products, including techniques of design, production, distribution, marketing and consumption.

19.99 Home Economics, Other. A group of instructional programs (see 19.9999)

  * 19.9999 Home Economics, Other. Any instructional program in home economics not described above.

20. VOCATIONAL HOME ECONOMICS. A summary of groups of instructional programs that describe competencies in home economics which prepare individuals for the occupation of homemaking, for paid employment, and for organizing and managing business undertakings and services.

-------  Consumer and Homemaking Education. (moved to CHAPTER II)

20.02 Child Care and Guidance Workers and Managers. A group of instructional programs (see 20.0201)

  * 20.0201 Child Care and Guidance Workers and Managers, General. An instructional program that generally prepares individuals for occupations in child care and guidance in institutional and residential family settings, often under the supervision of professional personnel. Includes instruction in child growth and development; nutrition; recreation, play and learning activities planning and supervision; child abuse and neglect prevention; parent-child relationships; and applicable legal and administrative requirements.

  * 20.0202 Child Care Provider/Assistant. An instructional program that prepares individuals to be primary providers of home-, family-, residential- or institutionally-based child care services. Includes instruction in planning, organizing and conducting meaningful play and learning activities; child monitoring and supervision; record-keeping; and referral procedures.
* 20.0203 **Child Care Services Manager.** An instructional program that prepares individuals to develop and manage effective child care programs and facilities. Includes instruction in the management of financial operations; selecting and developing facilities; selecting staff and staffing patterns; providing for staff development opportunities; developing a total program for children; and working with parents, community organizations and others concerned with children.

------ [Foster Care/Family Care.] (deleted, included under 20.0202)

* 20.0299 **Child Care and Guidance Workers and Managers, Other.** Any instructional program in child care and guidance management and services not described above.

20.03 **Clothing, Apparel and Textile Workers and Managers.** A group of instructional programs (see 20.0301)

* 20.0301 **Clothing, Apparel and Textile Workers and Managers, General.** An instructional program that generally prepares individuals for occupations concerned with the entire spectrum of clothing, apparel, and textiles management, production, and services, including but not limited to construction; fabric and fabric care; pattern design; principles in clothing construction and selection; fitting and alterations of ready-to-wear garments; custom tailoring; clothing maintenance; and textiles testing.

------ [Clothing Maintenance Aide.] (deleted, included under 20.0301)

* 20.0303 **Commercial Garment and Apparel Worker.** An instructional program that prepares individuals to construct ready-to-wear garments and apparel. Includes instruction in developing and preparing patterns for standardized sizes; selecting appropriate fabric; cutting of fabric with commercial cutting equipment; stitching fabric on commercial power sewing equipment; applying finishes and notions to garments and apparel; and pressing and packing garments or apparel.

------ [Custom Apparel/Garment Seamstress.] (deleted, included under 20.0305)

* 20.0305 **Custom Tailor.** An instructional program that prepares individuals to design, construct, alter, and repair men's, women's and children's garments and apparel. Includes instruction in tailoring design, fabric selection, customizing to customer specifications; taking measurements and fitting; preparing patterns; cutting, sewing, altering, refitting and adjusting; operation of hand and power equipment; and pressing and smoothing seams.

------ [Wedding/Specialty Consulting.] (deleted, included under 20.0306)

* 20.0306 **Fashion and Fabric Consultant.** An instructional program that prepares individuals to assist in apparel and fashion selection, style coordination, customer sales and consulting, fabric selection, clothing specifications, and contract buying activities. Includes instruction in supplying regular clothing needs or acting as a consultant for special events such as weddings.

------ [Wedding/Specialty Consulting.] (deleted, included under 20.0306)

* 20.0309 **Drycleaner and Launderer.** An instructional program that prepares individuals to perform clothing and apparel cleaning services and to operate and manage laundry and drycleaning facilities. Includes instruction in routine clothing repairs, fabric identification, spot removing and special cleaning, dyeing and bleaching, ironing and pressing, equipment operation and maintenance, and business management.

* 20.0399 **Clothing, Apparel and Textile Workers and Managers, Other.** Any instructional program in clothing, apparel, and textiles management, production, and services not described above.
20.04 Institutional Food Workers and Administrators. A group of instructional programs (see 20.0401)

----- Culinary Arts and Related Services. (refer to 12.05 Series)

* 20.0401 Institutional Food Workers and Administrators. An instructional program that generally prepares individuals in managerial, production, and service skills used in governmental, commercial, or independently owned institutional food establishments and related food industry occupations. Includes instruction in planning, selecting, storing, purchasing, preparing, and serving food and food products; basic nutrition, sanitation, and food safety; the use and care of commercial equipment; serving techniques; and the operation of institutional food establishments.

22.  **LAW AND LEGAL STUDIES.** A summary of groups of instructional programs that describe the theory, history and application of the rules of conduct by which societal relations are formally structured and adjudicated.

22.01  **Law and Legal Studies.** A group of instructional programs that describe the theory, history and application of the rules of conduct by which societal relations are formally structured and adjudicated.

22.0101  **Law (L.L.B., J.D.)** An instructional program that prepares individuals for the independent professional practice of law and for advanced research in jurisprudence. Includes instruction in the theory and practice of the legal system, including the statutory, administrative and judicial components of civil and criminal law.

22.0102  **Pre-Law Studies.** An instructional program that prepares individuals for admission to a first-professional program in law.

* 22.0103  **Paralegal/Legal Assistant.** An instructional program that prepares individuals to perform research, drafting, investigatory, record-keeping and related administrative functions under the supervision of an attorney. Includes instruction in legal research, drafting legal documents, appraising, pleading, courthouse procedures and legal specializations.

--------  **Legal Administrative Assistant/Secretary.** (refer to 52.0403)

22.0104  **Juridical Science/Legal Specialization (LL.M., M.C.L., J.S.D., S.J.D.).** An instructional program that prepares attorneys and law school graduates for advanced technical specialization in legal research and practice in law, including such specializations as Tax Law, International Law, Comparative Law, Admiralty, Patents, Contracts, and others.

22.0199  **Law and Legal Studies, Other.** Any instructional program in law and legal studies not described above.

23.  **ENGLISH LANGUAGE AND LITERATURE/LETTERS.** A summary of groups of instructional programs that describe the structure and use of the English language and dialects, speech, writing, and various aspects of the literatures and cultures of the English-speaking peoples.

-----  **Foreign Language and Literatures.** (refer to 16. Series)

23.01  **English Language and Literature, General.** A group of instructional programs (see 23.0101).

-----  **Dramatic/Theater Arts and Stagecraft.** (refer to 50.05 Series)

23.0101  **English Language and Literature, General.** An instructional program that generally describes the English language, including its history, structure and related communications skills; and the literature and culture of English-speaking peoples.
23.03 **Comparative Literature.** A group of instructional programs (see 23.0301).

23.0301 **Comparative Literature.** An instructional program that describes the study of the literatures of different societies and linguistic groups in comparative perspective, including analyses of cross-cultural influences, national literary styles, the influence of translation, and the shared international literary heritage. Includes instruction in the study of literatures in the original languages as well as in English translation.

23.04 **English Composition.** A group of instructional programs (see 23.0401).

23.0401 **English Composition.** An instructional program that describes the principles of English vocabulary, grammar, morphology, syntax and semantics; and techniques of selecting, developing, arranging, combining and expressing ideas in appropriate written forms.

23.05 **English Creative Writing.** A group of instructional programs (see 23.0501).

23.0501 **English Creative Writing.** An instructional program that describes the process and techniques of original composition in various literary forms such as the short story, poetry, the novel, and others. Includes instruction in technical and editorial skills, criticism, and the marketing of finished manuscripts.

23.9999 English Language and Literature/Letters, Other. Any instructional program in English language and literature not described above.
24. **LIBERAL ARTS AND SCIENCES, GENERAL STUDIES AND HUMANITIES.** A summary of groups of instructional programs that describe general programs and independent or individualized studies in the liberal arts subjects, the humanities disciplines and the general curriculum.

24.01 **Liberal Arts and Sciences, General Studies and Humanities.** A group of instructional programs (see 24.0101)

24.0101 **Liberal Arts and Sciences/Liberal Studies.** An instructional program that describes a structured combination of the arts, biological and physical sciences, social sciences, and humanities, emphasizing breadth of study. Includes instruction in either independently designed, individualized, or regular programs.

24.0102 **General Studies.** An instructional program that describes either undifferentiated study for traditional students or continuing education opportunities for adult learners.

24.0103 **Humanities/Humanistic Studies.** An instructional program that describes combined studies and research in the humanities subjects as distinguished from the social and physical sciences, emphasizing languages, literatures, art, music, philosophy and religion.

24.0199 **Liberal Arts and Sciences, General Studies and Humanities, Other.** Any instructional program in liberal arts and sciences, general studies and humanities not described above.

25. **Library Science.** A summary of groups of instructional programs that describe the knowledge and skills required to manage and/or maintain libraries and related information and record systems, collections and facilities for research and general use.

25.01 **Library Science/Librarianship.** A group of instructional programs (see 25.0101).

25.0101 **Library Science/Librarianship.** An instructional program that describes the knowledge and skills required to develop, organize, store, retrieve, administer, and facilitate the use of collections of information in such formats as books, documents, manuscripts, machine-readable data bases, filmed and recorded materials, and that prepares individuals for professional service as librarians and information consultants.

------ **Public/Applied History and Archival Administration.** (refer to 48.0405)

Library Science, Other. A group of instructional programs (see 25.9999)

Library Science, Other. Any instructional program in library science not described above.

BIOLOGICAL SCIENCES/LIFE SCIENCES. A summary of groups of instructional programs that describe the scientific study of living organisms and their systems.

Biology, General. A group of instructional programs (see 26.0101).

Biology, General. An instructional program that generally describes the scientific study of the structure, function, reproduction, growth, heredity, evolution, behavior and distribution of living organisms, and their relations to their natural environments.

Biology Teacher Education. (refer to 13.1322)

Biochemistry and Biophysics. A group of instructional programs (see below)

[Biochemistry and Biophysics.] (deleted, included under either 26.0202 or 26.0203)

Biochemistry. An instructional program that describes the chemical processes of living organisms. Includes instruction in the chemical mechanisms of genetic information storage and transmission; the chemistry of cell components; blood chemistry; the chemistry of biological systems and biological products; and the chemistry of life processes such as respiration, digestion and reproduction.

Medical Biochemistry. (refer to 51.0202)

Biophysics. An instructional program that describes the application of physics principles to the study of living cells and organisms, including structures and fine structures, bioelectric phenomena, radiation effects, molecular behavior, photosynthesis, membranes, organic thermodynamics, and quantitative analysis and modelling.

Bioengineering and Biomedical Engineering. (refer to 14.0501)

Medical Biophysics. (refer to 51.1304)
26.03  **Botany.** A group of instructional programs (see 26.0301)

26.0301  **Botany, General.** An instructional program that generally describes the scientific study of plants, related bacteria, fungi, and algae life forms. Includes instruction in the classification, structure, function, reproduction, growth, heredity, evolution, and the pathology of plant life, with particular attention to basic processes such as photosynthesis, plant biochemistry and plant ecosystems.

-------

26.0305  **Plant Pathology.** An instructional program that describes the nature, causes, development and treatment of plant diseases. Includes instruction in the nature and behavior of disease causal agents, including other life forms and non-biological factors; the study of chemistry and physics of basic pathogens; disease host behaviors; and the development and analysis of disease control and treatment agents.

-------

26.0307  **Plant Physiology.** An instructional program that describes the scientific study of plant functions and life processes, including such metabolic processes as photosynthesis, respiration, assimilation, and transpiration; and plant systems, including movement, reproduction, digestion and anatomical system functions.

-------

26.0399  **Botany, Other.** Any instructional program in botany not described above.

26.04  **Cell and Molecular Biology.** A group of instructional programs that describe the cell as a unit of organization in plans and animals, and the molecular structure and processes of living organisms.

26.0401  **Cell Biology.** An instructional program that describes the scientific study of the cell as a biological system in plants and animals. Includes instruction in cellular structure and function, biosynthesis, enzyme production, cell communication and nutrition, chromosome organization and function, cell life cycles, and cell pathology.

-------

26.0402  **Molecular Biology.** An instructional program that describes the scientific study of the molecular structures and processes that underlay the storage and transmission of genetic information, of energy storage and transfer, of hormone generation, and of basic life process such as development, growth and aging.

-------

26.0499  **Cell and Molecular Biology, Other.** Any instructional program in cell and molecular biology not described above.
26.05 **Microbiology/Bacteriology.** A group of instructional programs (see 26.0501).

**26.0501 Microbiology/Bacteriology.** An instructional program that describes the scientific study of microorganisms, including bacteria and viruses, as distinguished from the cellular components of larger organisms. Includes instruction in the ecological behavior of microorganisms, their anatomy and physiology, pathogenesis, and microbe evolution and mutation.

------- **Medical Microbiology.** (refer to 52.1308)

26.06 **Miscellaneous Biological Specializations.** A group of instructional programs that describe specialized areas of the biological sciences not pertaining exclusively to botany, zoology, microbiology, cell and molecular biology, or related physical sciences.

**26.0601 Anatomy.** An instructional program that describes the scientific study of the structure and function of living organisms, tissues, organs, and systems. Includes instruction in gross anatomy, histology, ultrastructure, neuroanatomy, microscopy, dissection, electrical and atomic analytical methods, and quantification methods.

------- **Medical Anatomy.** (refer to 51.1301)

------- [Biometrics and Biostatistics.] (deleted, included under either 26.0614 or 26.0615)

**26.0603 Ecology.** An instructional program that describes the scientific study of ecological systems and the physical interactions among system components. Includes instruction in population biology, large and small ecosystems, environmental factors affecting organisms, evolution and extinction, and symbiotic relationships.

------- **Environmental Science/Studies.** (refer to 03.0102)

------- [Embryology.] (deleted, included under 26.0699)

**26.0607 Marine/Aquatic Biology.** An instructional program that describes the scientific study of marine organisms and their environments. Includes instruction in freshwater and saltwater organisms, physiological and anatomical marine adaptations, ocean and freshwater ecologies, marine microbiology, marine mammalogy, ichthyology, marine botany, and biochemical products of marine life used by humans.

**26.0608 Neuroscience.** An instructional program that describes the scientific study of the anatomy, physiology, biophysics, biochemistry, molecular biology and behavior roles of neuron cells and biological nervous systems. Includes instruction in neurological signalling, neuroanatomy and brain research, neuropsychology, and neuropsychological research.

------- **Medical Neurobiology.** (refer to 51.1310)
Nutritional Sciences. An instructional program that describes the scientific study of the biological processes by which organisms ingest, digest and use the chemical compounds vital to survival, and which cannot be synthesized by the organism itself. Includes instruction in nutritional biochemistry and biophysics, anatomy and physiology of digestive systems, environmental and behavioral aspects of nutrition, and studies of the nutritional problems of specific organisms.

Agricultural Animal Nutrition. (refer to 02.0204)

Food Sciences and Technology. (refer to 02.0301)

Medical Nutrition. (refer to 51.1311)

Foods and Nutrition Science. (refer to 19.0502)

Parasitology. An instructional program that describes the scientific study of organisms living on or within biological hosts, their behavioral interactions with host organisms, and defenses against parasitical infestations. Includes instruction in parasitical evolution and community behavior, parasite metabolism, immunization processes, drug development, and drug reactions.

Radiation Biology/Radiobiology. An instructional program that describes scientific study of the effects of radiation on organisms and biological systems. Includes instruction in particle physics, ionization, biophysics of radiation perturbations, cellular and organismic repair systems, genetic and pathological effects of radiation, and the measurement of radiation dosages.

Toxicology. An instructional program that describes the scientific study of the nature, source, effects, identification and characteristics of poisons, toxic substances, and exogenous chemical agents and their effect on biological organisms. Includes instruction in environmental biology, chemico-physiological mechanisms, genetic toxicology, studies of specific organisms and habitats, and the development of toxic defenses and antidotes.

Medical Toxicology. (refer to 51.1314)

Genetics, Plant and Animal. An instructional program that describes the scientific study of biological inheritance and variation in organisms, and the mechanisms of gene behavior. Includes instruction in molecular genetics, mutation, gene expression, specification, cloning, the study of inherited diseases and disorders, breeding, genetic biochemistry and biophysics, gene transference, and gene modification.

Agricultural Animal Breeding and Genetics. (refer to 02.0202)

Agricultural Plant Breeding and Genetics. (refer to 02.0405)

Medical Genetics. (refer to 51.1306)

Biometrics. An instructional program that describes quantitative measurement methods in the biological and related sciences; the development of biometrics solutions to specific research problems; and related computer applications. Includes instruction in algebraic analysis, matrix algebra, computer methods, and applications to specific biological subdisciplines.
Medical Biomathematics and Biometrics. (refer to 51.1303)

Biostatistics. An instructional program that describes the application of statistical methods and techniques to the study of living organisms and biological systems. Includes instruction in experimental design and data analysis, projection methods, descriptive statistics, and specific applications to biological subdisciplines.

Health and Medical Biostatistics. (refer to 51.2204)

Biotechnology Research. An instructional program that describes the application of the biological sciences to the development of medical and industrial products and processes, and the methods and equipment used in these procedures. Includes instruction in genetic engineering, cell technology, protein synthesis, applied biology, artificial enzyme production, biomaterial development, and drug therapy mechanisms.

Bioengineering and Biomedical Engineering. (refer to 14.0501)

Evolutionary Biology. An instructional program that describes the scientific study of the generation of organismic traits and of shared traits across taxonomic classifications, and the refinement of related theory and experimental methods. Includes instruction in the process of heredity, genetic mutation and variation, phenotype determination, ecological determinants of species survival and adaptation, population genetics, taxonomic classification, developmental biology, and paleontology.

Paleontology. (refer to 40.0604)

Biological Immunology. An instructional program that describes the scientific study of organismic responses to, and defenses against, invasive foreign substances and parasitical life forms. Includes instruction in the anatomy and physiology of immune systems, autoimmune responses, disease response mechanisms and triggers, antigen receptors, membrane transfer, the histocompatibility complex, immunogenetics, immunochemistry, and immune system regulation.

Medical Immunology. (refer to 51.1307)

Virology. An instructional program that describes the scientific study of viruses, a group of parasitical subcellular biologic entities. Includes instruction in viral classification, genetic effects of viral infestations, viral genome and phonemes, viruses as cancer agents, viral applications in genetic research and engineering, and the development of antiviral drugs and other therapies.

Miscellaneous Biological Specializations, Other. Any instructional program in miscellaneous biological specializations, not described above.

Zoology. A group of instructional programs that describe the scientific study of animals, including their structure, reproduction, growth, heredity, evolution, behavior, and distribution.

Zoology, General. An instructional program that generally describes the scientific study of animals, including their structure, reproduction, growth, heredity, evolution, behavior, and distribution.
Animal Sciences. (refer to 02.02 Series)

26.0702 Entomology. An instructional program that describes the scientific study of insects, including life cycle, morphology, physiology, ecology, taxonomy, population dynamics, genetics, and ecosystem relations. Includes instruction in the biological and chemical control of insects, and the development of insecticide agents.

Plant Protection (Pest Management). (refer to 02.0408)

[Genetics, Human and Animal.] (deleted, included under 26.0613)

26.0704 Pathology, Human and Animal. An instructional program that describes the scientific study of the nature, causes, and development of human and animal diseases, and the mechanisms of disease infestation and transfer. Includes instruction in human and animal pathobiology, disease morphology, disease biochemistry, physiology of disease and cell injury, and immunopathology.

Medical Pathology. (refer to 51.1312)

Pharmacology, Human and Animal. An instructional program that describes the scientific study of the therapeutic and toxic effects of drugs on living tissues and entire organisms. Includes instruction in pharmacodynamic behavior, drug metabolism, chemical pharmacology, the physiological effects of chemical substances on human beings and animals, therapeutic applications, chemical profile analysis, and rational drug design.

Medical Pharmacology and Pharmaceutics. (refer to 51.2003)

Physiology, Human and Animal. An instructional program that describes the scientific study of organismic and systemic function and behavior in humans and animals, including processes such as respiration, circulation, digestion, excretion, and reproduction.

Agricultural Animal Physiology. (refer to 02.0205)

Medical Physiology. (refer to 51.1313)

26.0799 Zoology, Other. Any instructional program in zoology not described above.

Biological Sciences/Life Sciences, Other. A group of instructional programs (see 26.9999)

26.9999 Biological Sciences/Life Sciences, Other. Any instructional program in biological sciences not described above.

MATHEMATICS. A summary of groups of instructional programs that describe the systematic study of logical symbolic language and its applications.

Mathematics. A group of instructional programs (see 27.0101)

Mathematics. An instructional program that describes the rigorous analysis of quantities, magnitudes, forms, and their relationships, using symbolic logic and
language. Includes instruction in algebra, calculus, functional analysis, geometry, number theory, logic, topology and other mathematical specializations.

27.03 Applied Mathematics. A group of instructional programs (see 27.0301)

27.0301 Applied Mathematics, General. An instructional program that describes the application of mathematical principles to the solution of functional area problems, using the knowledge base of the subject or field for which the analytical procedures are being developed. Includes instruction in computer-assisted mathematical analysis and the development of tailored algorithms for solving specific research problems.

27.0302 Operations Research. An instructional program that describes the development and application of complex mathematical or simulation models to solve problems involving operational systems, where the system concerned is subject to human intervention. Includes instruction in advanced multivariate analysis, application of judgement and statistical tests, optimization theory and techniques, resource allocation theory, mathematical modelling, control theory, statistical analysis, and applications to specific research problems.

27.0399 Applied Mathematics, Other. Any instructional programs in applied mathematics not described above.
27.05 Mathematical Statistics. A group of instructional programs (see 27.0501)

27.0501 Mathematical Statistics. An instructional program that describes the mathematical theory and proofs forming the basis of probability and inference, and their applications to the collection, analysis and description of data. Includes instruction in statistical theory, experimental analysis, sampling techniques, survey research, projections, and related evaluations of numerical data.

27.99 Mathematics, Other. A group of instructional programs (see 27.9999)

27.9999 Mathematics, Other. Any instructional program in mathematics not described above.

MILITARY SCIENCES. (moved to Chapter II: RESERVE OFFICER TRAINING CORPS PROGRAMS)

29. MILITARY TECHNOLOGIES. A summary of groups of instructional programs that prepare individuals in specialized and advanced subject matter for the armed services and related national security organizations.

29.01 Military Technologies. A group of instructional programs (see 29.0101)

29.0101 Military Technologies. An instructional program that prepares individuals to undertake advanced and specialized leadership and technical responsibilities for the armed services and related national security organizations. Includes instruction in such areas as weapons systems and technology, communications, intelligence, management, logistics, and strategy.

30.05 **Peace and Conflict Studies.** A group of instructional programs (see 30.0501)

-- **Psychology.** (refer to 42. Series)

-- **Social Sciences and History.** (refer to 45. Series)

30.0501 **Peace and Conflict Studies.** An instructional program that describes the study of the origins, resolution and prevention of international and inter-group conflicts. Includes instruction in peace research methods and related social scientific and psychological knowledge bases.

------ **International Relations and Affairs.** (refer to 45.0901)

30.06 **Systems Science and Theory.** A group of instructional programs (see 30.0601).

-- **Biological Sciences/Life Sciences.** (refer to 26. Series)

-- **Mathematics.** (refer to 27. Series)

-- **Physical Sciences.** (refer to 40. Series)
30.0601 **Systems Science and Theory.** An instructional program that describes a multidisciplinary approach to the analysis and solution of complex problems, requiring a combined approach using data and models from the natural, social, technological, behavioral and life sciences, and other specialized fields.

------ **Systems Engineering.** (refer to 14.2701)

30.08 **Mathematics and Computer Science.** A group of instructional programs (see 30.0801)

-- **Computer and Information Sciences.** (refer to 11. Series)

-- **Mathematics.** (refer to 27. Series)

30.0801 **Mathematics and Computer Science.** An instructional program that describes a general synthesis of mathematics and computer science or a specialization which draws from mathematics and computer science.

------ [Imaging Science.] (deleted)

------ [Imaging Science.] (deleted, included under 30.9999)

30.10 **Biopsychology.** A group of instructional programs (see 30.1001)

-- **Biological Sciences/Life Sciences.** (refer to 26. Series)

30.1001 **Biopsychology.** An instructional program that describes the study of the biological linkages to psychological phenomena, especially the linkages between biochemical and biophysical activity and the functioning of the central nervous system.

------ **Physiological Psychology/Psychobiology.** (refer to 42.1101)

30.11 **Gerontology.** A group of instructional programs (see 30.1301)

-- **Biological Sciences/Life Sciences.** (refer to 26. Series)

-- **Psychology.** (refer to 42. Series)

-- **Social Sciences.** (refer to 45. Series)

-- **Health Professions and Related Sciences.** (refer to 51. Series)

30.1101 **Gerontology.** An instructional program that describes the study of the human aging process and aged human populations, using the knowledge and methodologies of the social sciences, psychology and the biological and health sciences.

------ **Gerontological Services.** (refer to 19.0705)

------ **Social Work.** (refer to 44.0701)
Historic Preservation, Conservation and Architectural History. A group of instructional programs (see 04.0901).

Architecture and Related Programs. (refer to 04. Series)

History. (refer to 45.08 Series)

Construction Trades. (refer to 46. Series)

Fine and Studio Arts. (refer to 50.07 Series)

30.1201 Historic Preservation, Conservation and Architectural History. An instructional program that describes the architectural design principles and building techniques used in historic structures and environments, and the process of saving and restoring old buildings and districts for contemporary use and enjoyment. Includes instruction in architectural history; building conservation techniques; real estate, land-use and tax laws and codes; economics and public policy; and public relations.

Medieval and Renaissance Studies. A group of instructional programs (see 30.1301)

Foreign Languages and Literatures. (refer to 16. Series)

English Language and Literature/Letters. (refer to 23. Series)

Philosophy and Religion. (refer to 38. Series)

Social Sciences. (refer to 45. Series)

Visual and Performing Arts. (refer to 50. Series)

30.1301 Medieval and Renaissance Studies. An instructional program that describes the study of the Medieval and Renaissance periods in European and circum-Mediterranean history from the perspective of various disciplines in the humanities and social sciences, including history and archeology, as well as studies of period art and music.

Museology/Museum Studies. A group of instructional programs (see 30.1601)

Social Sciences and History. (refer to 45. Series)

Visual and Performing Arts. (refer to 50. Series)

30.1401 Museology/Museum Studies. An instructional program that describes the attitudes, knowledge, and skills required to develop, prepare, organize, administer, conserve, store and retrieve artifacts, exhibits and entire collections in museums and galleries, and that prepares individuals to assume curatorial, technical and managerial positions in museums. Includes instruction in institutional management, acquisition, exhibit design, conservation, packing techniques, and public relations.
30.15 **Science, Technology and Society.** A group of instructional programs (see 30.1701)

----- **Engineering.** (refer to 14. Series)

----- **Biological Sciences/Life Sciences.** (refer to 26. Series)

----- **Physical Sciences.** (refer to 40. Series)

----- **Philosophy and Religion.** (refer to 38. Series)

----- **Social Sciences.** (refer to 45. Series)

----- **Health Sciences and Allied Health Services.** (refer to 51. Series)

30.1501 **Science, Technology and Society.** An instructional program that describes the contemporary social and public policy ramifications of science and technology, the interrelationship of science and engineering with the public policy process, and the social and ethical dimensions of scientific and technological enterprises.

----- **Technology Education/Industrial Arts.** (refer to 21. Series)

----- **Public Policy Analysis.** (refer to 44.0501)

30.99 **Multi/Interdisciplinary Studies, Other.** A group of instructional programs (see 30.9999)

30.9999 **Multi/Interdisciplinary Studies, Other.** Any instructional program in multi/interdisciplinary studies not described above.

31. **PARKS, RECREATION, LEISURE AND FITNESS STUDIES.** A summary of groups of instructional programs that describe the principles and practices of managing parks and other recreational and fitness facilities; providing recreational, leisure and fitness services; and the study of human fitness.

31.01 **Parks, Recreation and Leisure Studies.** A group of instructional programs (see 31.0101).

31.0101 **Parks, Recreation and Leisure Studies.** An instructional program that describes the study of the principles underlying recreational and leisure activities, and the practices involved in providing indoor and outdoor recreational facilities and services for the general public.

----- [Outdoor Recreation.] (deleted)

----- [Outdoor Recreation.] (deleted, included under 31.0101)

31.03 **Parks, Recreation and Leisure Facilities Management.** A group instructional programs (see 31.0301)

* 31.0301 **Parks, Recreation and Leisure Facilities Management.** An instructional program that prepares individuals to develop and manage park facilities and other indoor and outdoor recreation and leisure facilities. Includes instruction in supervising support personnel, health and safety standards, public relations,
and basic business and marketing principles.

31.05 **Health and Physical Education/Fitness.** A group of instructional programs that describe the study of human physiology and behavior as applied to sports, and the leadership and management of physical fitness and sports services.

31.0501 **Health and Physical Education, General.** An instructional program that generally describes the study and practice of activities and principles that promote physical fitness, achieve and maintain athletic prowess, and accomplish related research and service goals. Includes instruction in human movement studies, motivation studies, rules and practice of specific sports, exercise and fitness principles and techniques, basic athletic injury prevention and treatment, and organizing and leading fitness and sports programs.

* 31.0503 **Athletic Training and Sports Medicine.** An instructional program that prepares individuals to prevent and treat athletic injuries, to perform related rehabilitative therapy, and to manage the provision of health and treatment services to athletes. Includes instruction in basic sports medicine, dietetics, movement and motivation sciences, administering preventive and treatment remedies, equipment maintenance, clinic management, and patient education and counseling.

31.0504 **Sport and Fitness Administration/Management.** An instructional program that prepares individuals to apply business, coaching and physical education principles to the organization, administration and management of athletic programs and teams, fitness/rehabilitation facilities and health clubs, sport recreation services, and related services. Includes instruction in program planning and development; business and financial management principles; sales, marketing and recruitment; event promotion, scheduling and management; facilities management; public relations; legal aspects of sports; and applicable health and safety standards.

31.0505 **Exercise Sciences/Physiology and Movement Studies.** An instructional program that describes the scientific study of the anatomy, physiology, biochemistry, and biophysics of human movement, and applications to exercise and therapeutic rehabilitation. Includes instruction in biomechanics, motor
behavior, motor development and coordination, motor neurophysiology, performance research, rehabilitative therapies, the development of diagnostic and rehabilitative methods and equipment, and related analytical methods and procedures.

31.0506 Socio-Psychological Sports Studies. An instructional program that describes the scientific study of human motivation as applied to athletic performance, and the related social and cultural factors affecting the organization and behavior of sports and participants. Includes instruction in sports psychology, sociology of sports, studies of sports and coaching theory, motivational research, and the psychological aspects of motor behavior.

* 31.0599 Health and Physical Education/Fitness, Other. Any instructional program in health and physical education/fitness not described above.

31.99 Parks, Recreation, Leisure and Fitness Studies, Other. A group of instructional programs (see 31.9999)

* 31.9999 Parks, Recreation, Leisure and Fitness Studies, Other. Any instructional program in parks, recreation, leisure and fitness studies not described above.

38. PHILOSOPHY AND RELIGION. A summary of groups of instructional programs that describe the study of modes, methods and types of logical inquiry; and the study of organized systems of belief and related practices.

38.01 Philosophy. A group of instructional programs (see 38.0101).

38.0101 Philosophy. An instructional program that describes the study of ideas and
their logical structure, including arguments and investigations about abstract and real phenomena. Includes instruction in logic, ethics, aesthetics, epistemology, metaphysics, symbolism, history of philosophy, and applications to the theoretical foundations and methods of other disciplines.

38.02 Religion/Religious Studies. A group of instructional programs (see 38.0201).

38.0201 Religion/Religious Studies. An instructional program that describes the study of the nature of religious belief and specific religious and quasi-religious systems. Includes instruction in phenomenology; the sociology, psychology, philosophy, anthropology, literature and art of religion; mythology; scriptural and textual studies; religious history and politics; and specific studies of particular faith communities and their behavior.

------- Islamic Studies (refer to 05.0204)
------- Jewish/Judaic Studies. (refer to 05.0205)

38.99 Philosophy and Religion, Other. A group of instructional programs (see 38.9999)

38.9999 Philosophy and Religion, Other. Any instructional program in philosophy and religion not described above.

39. THEOLOGICAL STUDIES AND RELIGIOUS VOCATIONS. A summary of groups of instructional programs that describe the study of religious beliefs, doctrines, and practices from the intramural standpoint of a particular faith; and that prepare individuals for the professional practice of religious vocations.

39.01 Biblical and Other Theological Languages and Literatures. A group of instructional programs (see 39.0101)

------- Middle Eastern Languages and Literatures. (refer to 16.11 Series)
------- Classical and Ancient Near Eastern Languages and Literatures. (refer to 16.12 Series)

39.0101 Biblical and Other Theological Languages and Literatures. An instructional program that describes the study of liturgical, scriptural and historical languages and literatures used by Christianity, Judaism, and other major faiths as vehicles for communicating doctrine, forms of worship, rules, and traditions. Includes instruction in translation techniques, textual analysis and criticism, the study and preservation of ancient manuscripts, and studies of specific languages such as Hebrew, Koine Greek, Biblical Aramaic, and others.

39.02 Bible/Biblical Studies. A group of instructional programs (see 39.0201).

39.0201 Bible/Biblical Studies. An instructional program that describes the study of the Bible and its component books from the standpoint of the Christian or Jewish faiths, with an emphasis on understanding and interpreting the theological, doctrinal, and ethical messages contained within it. May include preparation for applying these studies in various church-related vocations.
39.03 Missions/Missionary Studies and Misology. A group of instructional programs (see 39.0301).

39.0301 Missions/Missionary Studies and Misology. An instructional program that describes the theory and practice of Christian or other religious outreach, social service and proselytization, and that prepares individuals for mission vocations.

39.04 Religious Education. A group of instructional programs (see 39.0401).

39.0401 Religious Education. An instructional program that describes the theory and practice of providing educational services to members of faith communities, within the context of a particular religion, and that prepares individuals to serve as religious educators. Includes instruction in planning and teaching lessons; organizing and supervising instructional activities; designing and developing instructional materials; and administering religious education programs and facilities.

39.05 Religious/Sacred Music. A group of instructional programs (see 39.0501).

----- Music. (refer to 50.09 Series)

39.0501 Religious/Sacred Music. An instructional program that describes the history, theory, composition, and performance of music for religious or sacred purposes, and that prepares individuals for religious musical vocations such as choir directors, Cantors, organists, and chanters.

39.06 Theological and Ministerial Studies. A group of instructional programs that prepare individuals for the professional study and practice of theology and ministry.

39.0601 Theology/Theological Studies. An instructional program that describes the study of the beliefs and doctrine of a particular religious faith from the intramural point of view of that faith. Includes instruction in systematic theology, historical theology, moral theology, doctrinal studies, dogmatics, apologetics, and applications to specific questions of ecclesiastical polity and religious life.

39.0602 Divinity/Ministry (B.D., M.Div.). An instructional program that prepares individuals for ordination as ministers or priests in any of the Christian religious traditions. Includes instruction in the theology and polity of a particular church, liturgy, principles of pastoral ministry, homiletics, basic church/parish organization and management, and related studies.

39.0603 Rabbinical and Talmudic Studies (M.H.L./Rav). An instructional program that prepares individuals for ordination as Rabbis in the Orthodox, Conservative and Reformed Jewish traditions; and that describes the specialized devotional study of Jewish law and sacred writings.

----- Jewish/Judaic Studies. (refer to 05.0205)

39.0604 Pre-Theology/Pre-Ministerial Studies. An instructional program that prepares individuals to enter a seminary or other program leading to religious ordination, or a related religious vocation.

39.0699 Theological and Ministerial Studies, Other. An instructional program in
theological and ministerial studies not described above.

39.07 Pastoral Counseling and Specialized Ministries. A group of instructional programs (see 39.0701).

39.0701 Pastoral Counseling and Specialized Ministries. An instructional program that prepares ordained ministers, priests and rabbis, and other religious vocations, in the principles and methods of pastoral practice in such areas as clinical pastoral counseling, marriage and family therapy, youth ministry, outreach and evangelism, ministry to special populations, advanced leadership and management skills, and other studies.

------- Counseling Psychology. (refer to 42.0601)

39.99 Theological Studies and Religious Vocations, Other. A group of instructional programs (see 39.9999)

39.9999 Theological Studies and Religious Vocations, Other. Any instructional program in theological studies and religious vocations not described above.

40. PHYSICAL SCIENCES. A summary of groups of instructional programs that describe the scientific study of inanimate objects, processes of matter and energy, and associated phenomena.

40.01 Physical Sciences, General. A group of instructional programs (see 40.0101).

40.0101 Physical Sciences, General. An instructional program that generally describes the major topics, concepts, processes, and interrelationships of physical phenomena as studied in any combination of physical science disciplines.

40.02 Astronomy. A group of instructional programs (see 40.0201).

40.0201 Astronomy. An instructional program that describes the scientific study of matter and energy in the universe, using observational techniques such as spectroscopy, photometry, interferometry, radio astronomy and optical astronomy. Includes instruction in celestial mechanics, cosmology, and stellar physics; and applications to research on lunar, planetary, solar, stellar, and galactic phenomena.

40.03 Astrophysics. A group of instructional programs (see 40.0301).

40.0301 Astrophysics. An instructional program that describes the scientific and mathematical study of the behavior of astronomical phenomena and related physico-chemical interactions, and the experimental laboratory simulation of these phenomena. Includes instruction in cosmology, plasma kinetics, stellar physics, convolution and nonequilibrium radiation transfer theory, non-Euclidian geometries, mathematical modelling, galactic structure theory, and relativistic astronomy.
40.04 **Atmospheric Sciences and Meteorology.** A group of instructional programs (see 40.0401).

40.0401 **Atmospheric Sciences and Meteorology.** An instructional program that describes the scientific study of the composition and behavior of the atmospheric envelopes surrounding the earth and other planets, the effect of earth's atmosphere on terrestrial weather, and related problems of environment and climate. Includes instruction in atmospheric chemistry and physics, atmospheric dynamics, climatology and climate change, weather simulation, weather forecasting, climate modelling and mathematical theory; and studies of specific phenomena such as clouds, weather systems, storms, and precipitation patterns.

40.05 **Chemistry.** A group of instructional programs (see 40.0501)

40.0501 **Chemistry, General.** A group of instructional programs that generally describes the scientific study of the composition and behavior of matter, including its micro- and macro-structure, the processes of chemical change, and the theoretical description and laboratory simulation of these phenomena.

------- **Chemistry Teacher Education.** (refer to 13.1323)

------- **Chemical Engineering.** (refer to 14.0701)

40.0502 **Analytical Chemistry.** An instructional program that describes the scientific study of techniques for analyzing and describing matter, including its precise composition and the interrelationships of constituent elements and compounds. Includes instruction in spectroscopy, chromatography, atomic absorption, photometry, chemical modelling, mathematical analysis, laboratory analysis procedures and equipment maintenance, and applications to specific research, industrial and health problems.

40.0503 **Inorganic Chemistry.** An instructional program that describes the scientific study of the elements and their compounds, other than the hydrocarbons and their derivatives. Includes instruction in the characterization and synthesis of non-carbon molecules, including their structure and their bonding, conductivity, and reactive properties; research techniques such as spectroscopy, X-ray diffraction, and photoelectron analysis; and the study of specific compounds, such as transition metals, and compounds composed of inorganic and organic molecules.

40.0504 **Organic Chemistry.** An instructional program that describes the scientific study of the properties and behavior of hydrocarbon compounds and their derivatives. Includes instruction in molecular conversion and synthesis, the molecular structure of living cells and systems, the mutual reactivity of organic and inorganic compounds in combination, the spectroscopic analysis of hydrocarbon compounds, and applications to specific problems in research, industry, and health.

40.0505 **Medicinal/Pharmaceutical Chemistry.** An instructional program that describes the scientific study of the structural and reactive properties of natural and synthetic compounds intended for applications to human or animal medicine, pharmaceutical industrial uses, or treatment of plant disease. Includes instruction in molecular synthesis, drug design, properties of natural organic compounds, cosmetic chemistry, chemical manufacturing systems, drug behavior and host metabolism, and specific applications to health and industrial problems.

------- **Pharmaceutical and Pharmacological Sciences.** (refer to 51.20 Series)
40.0506 **Physical and Theoretical Chemistry.** An instructional program that describes the scientific study of the theoretical properties of matter, and the relation of physical forces and phenomena to the chemical structure and behavior of molecules and other compounds. Includes instruction in reaction theory, calculation of potential molecular properties and behavior, computer simulation of structures and actions, transition theory, statistical mechanics, phase studies, quantum chemistry, and the study of surface properties.

40.0507 **Polymer Chemistry.** An instructional program that describes the scientific study of synthesized macromolecule and their interactions with other substances. Includes instruction in molecular bonding theory, polymerization, properties and behavior of unstable compounds, the development of tailored polymers, transition phenomena, and applications to specific industrial problems and technologies.

------- **Polymer/Plastics Engineering.** (refer to 14.3201)

40.0599 **Chemistry, Other.** Any instructional program in chemistry not described above.

40.06 **Geological and Related Sciences.** A group of instructional programs that describe the natural history and physical properties of the earth.

40.0601 **Geology.** An instructional program that describes the scientific study of the earth; the forces acting upon it; and the behavior of the solids, liquids and gases comprising it. Includes instruction in historical geology, geomorphology, sedimentology, the chemistry of rocks and soils, stratigraphy, mineralogy, petrology, geostatistics, volcanology, glaciology, geophysical principles, and applications to research and industrial problems.

------- **Geological Engineering.** (refer to 14.1501)

40.0602 **Geochemistry.** An instructional program that describes the scientific study of the chemical properties and behavior of the silicates and other substances forming, and formed by geomorphological processes of the earth and other planets. Includes instruction in chemical thermodynamics, equilibria in silicate systems, atomic bonding, isotopic fractionation, geochemical modelling, specimen analysis, and studies of specific organic and inorganic substances.

40.0603 **Geophysics and Seismology.** An instructional program that describes the scientific study of the physics of solids and its application to the study of the earth and other planets. Includes instruction in gravimetric, seismology, earthquake forecasting, magnetometry, electrical properties of solid bodies, plate tectonics, thermodynamics, remote sensing, and laboratory simulations of geological processes.

40.0604 **Paleontology.** An instructional program that describes the scientific study of extinct life forms and associated fossil remains, and the reconstruction and analysis of ancient life forms, ecosystems, and geologic processes. Includes instruction in sedimentation and fossilization processes, fossil chemistry, evolutionary biology and paleobiology, field research methods, and laboratory research and conservation methods; as well as studies of specific subjects such as paleoecology, paleoclimatology, trace fossils, micropaleontology, invertebrate paleontology, vertebrate paleontology, paleobotany, and paleoceanography.

------- **Evolutionary Biology.** (refer to 26.0617)
40.0699 Geological and Related Sciences, Other. Any instructional program in geological and related sciences not described above.

40.07 Miscellaneous Physical Sciences. A group of instructional programs that describe specialized areas of the physical sciences not in the other physical sciences groupings.

40.0701 Metallurgy. An instructional program that describes the scientific study of the chemical and physical properties of metals and related compounds in their solid, liquid, and gaseous states, together with applications to industrial problems. Includes instruction in X-Ray diffraction, metallurgical microscopy, solid-state chemistry, thermodynamics of solids and solutions, crystallography, surface physics, molecular bonding, electrodynamics of metals, elasticity and mechanical properties, and processing behavior.

------ Metallurgical Engineering. (refer to 14.2001)

40.0702 Oceanography. An instructional program that describes the scientific study of the oceans and associated phenomena, including the land/water and water/atmosphere boundaries. Includes instruction in physical oceanography, marine chemistry, marine geology, and biological oceanography; and applications to specific research problems such as coastal erosion, seawater corrosion and reactive behavior, seafloor volcanism, underwater acoustics and optics, oceanic environments and conservation, and global climate change.

------ Ocean Engineering. (refer to 14.2401)

40.0703 Earth and Planetary Sciences. An instructional program that describes the scientific study of the earth and other planets as comprehensive physical systems incorporating solid, liquid, gas, and radiation constituents, as well as exhibiting interactions with other systems. Includes instruction in planetary evolution, gravitational physics, atmospheric evolution, volcanism and crustal movement studies, organic systems and ecologies, orbital mechanics, radiation physics, and the study of planetary and satellite systems.

40.08 Physics. A group of instructional programs (see 40.0801)

40.0801 Physics, General. An instructional program that generally describes the scientific study of matter and energy, and the formulation and testing of the laws governing the behavior of the matter-energy continuum. Includes instruction in classical and modern physics, electricity and magnetism, thermodynamics, mechanics, wave properties, nuclear processes, relativity and quantum theory, quantitative methods, and laboratory methods.

------ Health Physics/Radiologic Health. (refer to 51.2205)
Chemical and Atomic/Molecular Physics. An instructional program that describes the scientific study of the behavior of matter-energy phenomena at the level of atoms and molecules. Includes instruction in chemical physics, atomic forces and structure, fission reactions, molecular orbital theory, magnetic resonance, molecular bonding, phase equilibria, quantum theory of solids, and applications to the study of specific elements and higher compounds.

Elementary Particle Physics. An instructional program that describes the scientific study of the basic constituents of sub-atomic matter and energy, and the forces governing fundamental processes. Includes instruction in quantum theory, field theory, single-particle systems, perturbation and scattering theory, matter-radiation interaction, symmetry, quarks, capture, Schroedinger mechanics, methods for detecting particle emission and absorption, and research equipment operation and maintenance.

Plasma and High-Temperature Physics. An instructional program that describes the scientific study of the properties and behavior of matter at high temperatures, such that molecular and atomic structures are in a disassociated ionic or electronic state. Includes instruction in magnetohydrodynamics, free electron phenomena, fusion theory, electromagnetic fields and dynamics, plasma and non-linear wave theory, instability theory, plasma shock phenomena, quantitative modelling, and research equipment operation and maintenance.

Nuclear Physics. An instructional program that describes the scientific study of the properties and behavior of atomic nuclei instruction in nuclear reaction theory, quantum mechanics, energy conservation, nuclear fission and fusion, strong and weak atomic forces, nuclear modelling, nuclear decay, nucleon scattering, pairing, photon and electron reactions, statistical methods, and research equipment operation and maintenance.

Optics. An instructional program that describes the scientific study of light energy, including its structure, properties and behavior under different conditions. Includes instruction in wave theory, wave mechanics, electromagnetic theory, physical optics, geometric optics, quantum theory of light, photon detecting, laser theory, wall and beam properties, coherence and chaotic light, non-linear optics, harmonic generation, optical systems theory, and applications to engineering problems.

Solid State and Low-Temperature Physics. An instructional program that describes the scientific study of solids and related states of matter at low energy levels, including liquids and dense gases. Includes instruction in statistical mechanics, quantum theory of solids, many-body theory, low temperature phenomena, electron theory of metals, band theory, crystalline structures, magnetism and superconductivity, equilibria and dynamics of liquids, film and surface phenomena, quantitative modelling, and research equipment operation and maintenance.

Acoustics. An instructional program that describes the scientific study of sound, and the properties and behavior of acoustic wave phenomena under different conditions. Includes instruction in wave theory, the acoustic wave equation, energy transformation, vibration phenomena, sound reflection and transmission, scattering and surface wave phenomena, singularity expansion theory, ducting, and applications to specific research problems such as underwater acoustics, crystallography, and health diagnostics.

* 41.0204  **Industrial Radiologic Technology/Technician.** An instructional program that prepares individuals to apply scientific principles and technical skills to the operation of industrial and research testing equipment using radioisotopes. Includes instruction in X-Ray analysis of materials, nondestructive testing and inspection of materials, and continuous measurement of paper or metal thicknesses.
**41.0205**  **Nuclear/Nuclear Power Technology/Technician.**  An instructional program that prepares individuals to apply scientific principles and technical skills in support of research scientists and operating engineers engaged in the running of nuclear reactors, and in nuclear materials processing and disposal. Includes instruction in basic nuclear physics and nuclear engineering, monitoring and safety procedures, radioactive materials handling and disposal, equipment maintenance and operation, and record-keeping.

**41.0299**  **Nuclear and Industrial Radiologic Technologies/Technicians, Other.** Any instructional program in nuclear and industrial radiologic technologies not described above.

**41.03**  **Physical Science Technologies.** A group of instructional programs that prepare individuals to apply scientific principles and technical skills in support of physical science research and development projects.

**41.0301**  **Chemical Technology/Technician.** An instructional program that prepares individuals to apply scientific principles and technical skills in support of chemical research and industrial operations. Includes instruction in laboratory research methods, industrial processing methods and equipment, and instrumentation and test equipment operation and maintenance.

**41.9999**  **Science Technologies/Technicians, Other.** Any instructional program in science technologies not described above.

**42.**  **PSYCHOLOGY.** A summary of groups of instructional programs that describe the scientific study of the behavior of individuals, independently or collectively, and the physical and environmental bases of mental, emotional and neurological activity.

**42.01**  **Psychology, General.** A group of instructional programs (see 42.0101).

**42.0101**  **Psychology, General.** An instructional program that generally describes the scientific study of individual and collective behavior, the physical and environmental bases of behavior, and the analysis and treatment of behavior problems and disorders. Includes instruction in the principles of the various subfields of psychology, research methods, and psychological assessment and testing methods.
42.02  **Clinical Psychology.** A group of instructional programs (see 42.0201).

42.0201  **Clinical Psychology.** An instructional program that prepares individuals for the independent professional practice of clinical psychology, involving the analysis, diagnosis, and clinical treatment of psychological disorders and behavioral pathologies. Includes instruction in clinical assessment and diagnosis, personality appraisal, psychopathology, clinical psychopharmacology, behavior modification, therapeutic intervention skills, patient interviewing, personalized and group therapy, child and adolescent therapy, cognitive and behavioral therapy, supervised clinical practice, ethical standards, and applicable regulations.

42.03  **Cognitive Psychology and Psycholinguistics.** A group of instructional programs (see 42.0301)

42.0301  **Cognitive Psychology and Psycholinguistics.** An instructional program that describes the scientific study of the mechanisms and processes of learning and thinking, and associated information encoding, decoding, processing and transmitting systems. Includes instruction in theories of cognition and intelligence; studies of cognitive processes such as memory, sensation, perception, pattern recognition, problem solving, and conceptual thinking; cybernetics; psycholinguistics; and the study of biological and social communications mechanisms and processes.

-------  **Linguistics.** (refer to 16.0102)

42.04  **Community Psychology.** A group of instructional programs (see 42.0401).

42.0401  **Community Psychology.** An instructional program that prepares individuals to apply psychological principles to the analysis of social problems, and the implementation of intervention strategies for addressing these problems. Includes instruction in social ecology, primary and secondary prevention of social pathologies, social intervention strategies and tactics, large group counseling, social services systems behavior, creating settings, cultural stress, and the dynamics of social change.

42.07 Developmental and Child Psychology. A group of instructional programs (see 42.0701).

42.0701 Developmental and Child Psychology. An instructional program that describes the scientific study of the psychological growth and development of individuals from infancy through adulthood. Includes instruction in cognitive and perceptual development, emotional development, personality development, the effects of biological maturation on behavior, theories of cognitive growth and related research methods, testing and assessment methods for different age levels, research on child and adolescent behavior therapy, and the psychology of aging.

Educational Psychology. (refer to 13.0802)

42.08 Experimental Psychology. A group of instructional programs (see 42.0801).

42.0801 Experimental Psychology. An instructional program that describes the scientific study of behavior under experimental conditions, and the analysis of controlled behavioral responses. Includes instruction in learning theory, research design and experimental methods, psychological measurement, statistical design and methods, analysis of cognitive and behavioral variables, and the conduct of specialized and large-scale studies.

42.09 Industrial and Organizational Psychology. A group of instructional programs (see 42.0901).

42.0901 Industrial and Organizational Psychology. An instructional program that describes the scientific study of individual and group behavior in institutional settings, applications to related problems of organization and industry, and that may prepare individuals to apply such principles in industrial and organizational settings. Includes instruction in group behavior theory, organizational theory, reward/punishment structures, human-machine and human-computer interactions, motivation dynamics, human stress studies, environmental and organizational influences on behavior, alienation and satisfaction, and job testing and assessment.

42.16 **Social Psychology.** A group of instructional programs (see 42.1601).

42.1601 **Social Psychology.** An instructional program that describes the scientific study of individual behavior in group contexts, group behavior, and associated phenomena. Includes instruction in social learning theory, group theory and dynamics, sex roles, social cognition and inference, attribution theory, attitude formation, criminal behavior and other social pathologies, altruistic behavior, social development, and social ecology.

-------- **Sociology.** (refer to 45.1101)

42.17 **School Psychology.** A group of instructional programs (see 42.1701)

42.1701 **School Psychology.** An instructional program that prepares individuals to apply clinical and counseling psychology principles to the diagnosis and treatment of student behavioral problems. Includes instruction in child and/or adolescent development; learning theory; testing, observation and other procedures for
assessing educational, personality, intelligence and motor skill development; therapeutic intervention strategies for students and families; identification and classification of disabilities and disorders affecting learning; school psychological services planning; supervised counseling practice; ethical standards; and applicable regulations.

------ Educational Psychology.  (refer to 13.0802)

42.99  Psychology, Other.  A group of instructional programs  (see 42.9999)

* 42.9999  Psychology, Other.  Any instructional program in psychology not described above.

43.  PROTECTIVE SERVICES.  A summary of groups of instructional programs that describe the principles and procedures for providing police, fire, and other safety services, and for managing penal institutions.

43.01  Criminal Justice and Corrections.  A group of instructional programs that describe the principles and procedures for conducting and supervising law enforcement, corrections, and security services.

------ Criminology.  (refer to 45.04 Series)

------ [Correctional Administration.]  (deleted, included under 43.0102)

* 43.0102  Corrections/Correctional Administration.  An instructional program that prepares individuals to apply the theories, principles, and techniques of correctional science to the development, administration and implementation of procedures for the incarceration, supervision, and rehabilitation of legal offenders.

* 43.0103  Criminal Justice/Law Enforcement Administration.  An instructional program that prepares individuals to apply the theories and practices of criminal justice to structuring, managing, directing, and controlling criminal justice agencies, including police departments, sheriff’s departments, law enforcement divisions and units, and private protective services.

------ Natural Resources Protection and Law Enforcement.  (refer to 03.0203)

43.0104  Criminal Justice Studies.  An instructional program that describes the study of the criminal justice system, its organizational components and processes, and its legal and public policy contexts. Includes instruction in criminal law and policy, police and correctional systems organization, the administration of justice and the judiciary, and public attitudes regarding criminal justice issues.

------ [Criminal Justice Technology]  (deleted, included under 43.0107)

* 43.0106  Forensic Technology/Technician.  An instructional program that prepares individuals to conduct crime scene and laboratory analyses and evaluations of evidentiary materials, including human remains, under the supervision of a pathologist, forensic administrator or other law enforcement personnel. Includes instruction in principles of pathology, laboratory technology and procedures, dusting and fingerprinting, reconstructive analysis and related skills.
Law Enforcement/Police Science. An instructional program that prepares individuals to perform the duties of police and public security officers, including patrol and investigative activities, traffic control, crowd control and public relations, witness interviewing, evidence collection and management, basic crime prevention methods, weapon and equipment operation and maintenance, report preparation, and other routine law enforcement responsibilities.

Natural Resources Law Enforcement and Protective Services. (refer to 03.0203)

[Law Enforcement Administration.] (deleted, included under 43.0103)

Security and Loss Prevention Services. An instructional program that prepares individuals to perform routine inspection, patrol and crime prevention services for private clients. Includes instruction in the provision of personal protection as well as property security.

Corrections and Criminal Justice, Other. Any instructional program in corrections and criminal justice not described above.

Fire Protection. A group of instructional programs that prepare individuals to perform firefighting and related services.

Fire Protection and Safety Technology/Technician. An instructional program that prepares individuals to apply a knowledge of fire prevention and control skills to problems of reducing fire risk, loss limitation, supervising substance removal, conducting fire investigations, and advising on matters of safety procedures and fire prevention policy.

Fire Services Administration. An instructional program that prepares individuals to structure, manage, direct, and control fire departments, fire prevention services, fire inspection and investigation offices, and ancillary rescue services.

Fire Science/Firefighting. An instructional program that prepares individuals to perform the duties of fire fighters. Includes instruction in firefighting equipment operation and maintenance, principles of fire science and combustible substances, methods of controlling different types of fires, hazardous material handling and control, fire rescue procedures, public relations, and applicable laws and regulations.

Natural Resources Law Enforcement and Protective Services. (refer to 03.0203)

Emergency Medical Technology/Technician. (refer to 51.0904)

Fire Protection, Other. Any instructional program in fire protection not described above.

Protective Services, Other. A group of instructional programs (see 43.9999)

Protective Services, Other. Any instructional program in protective services not described above.

44.04 **Public Administration.** A group of instructional programs (see 44.0401).

44.0401 **Public Administration.** An instructional program that prepares individuals to serve as managers in the executive arm of local, state, and Federal government; and that describes the systematic study of executive organization and management. Includes instruction in the roles, development, and principles of public administration; the management of public policy; executive-legislative relations; public budgetary processes and financial management; administrative law; public personnel management; professional ethics; and research methods.

------- Public and Non-Profit Management. (refer to 52.0206)

------- Public Finance. (refer to 52.0808)

44.05 **Public Policy Analysis.** A group of instructional programs (see 44.0501).

44.0501 **Public Policy Analysis.** An instructional program that describes the systematic analysis of public policy issues and decision processes. Includes instruction in the role of economic and political factors in public decision-making and policy formulation; microeconomic analysis of policy issues; resource allocation and decision modelling; cost/benefit analysis; statistical methods; and applications to specific public policy topics.

------- Natural Resources Management and Policy. (refer to 03.0201)
44.07 Social Work. A group of instructional programs (see 44.0701)

44.0701 Social Work. An instructional program that prepares individuals for the professional practice of social welfare administration and counseling, and that describes the study of organized means of providing basic support services for vulnerable individuals and groups. Includes instruction in social welfare policy; case work planning; social counseling and intervention strategies; administrative procedures and regulations; and specific applications in areas such as child welfare and family services, probation, employment services, and disability counseling.

44.9999 Public Administration and Services, Other. Any instructional program in public administration and services not described above.

45. SOCIAL SCIENCES AND HISTORY. A summary of groups of instructional programs that describe the systematic study of social systems, social institutions, and social behavior, as well as the study of the human past.

45.01 Social Sciences, General. A group of instructional programs (see 45.0501).

45.0101 Social Sciences, General. An instructional program that generally describes the study of human social behavior and social institutions using any of the methodologies common to the social sciences and/or history, or an undifferentiated program of study in the social sciences.
45.02 **Anthropology.** A group of instructional programs  (see 45.0201).

45.0201 **Anthropology.** An instructional program that describes the systematic study of human beings, their antecedents and related primates, and their cultural behavior and institutions, in comparative perspective. Includes instruction in biological/physical anthropology, primatology, human paleontology and prehistoric archeology, hominin evolution, anthropological linguistics, ethnography, ethnology, ethnohistory, socio-cultural anthropology, psychological anthropology, research methods, and applications to areas such as medicine, forensic pathology, museum studies, and international affairs.

45.04 **Criminology.** A group of instructional programs  (see 45.0401).

45.0401 **Criminology.** An instructional program that describes the systematic study of crime as a sociopathological phenomenon, the behavior of criminals, and the social institutions evolved to respond to crime. Includes instruction in the theory of crime, psychological and social bases of criminal behavior, social value systems and the theory of punishment, criminal law and criminal justice systems, penology, rehabilitation and recidivism, studies of specific types of crime, social attitudes and policy, and applications to specific issues in law enforcement administration and policy.

---- **Corrections and Criminal Justice.** (refer to 43.01 Series)

------- **Clinical Psychology.** (refer to 42.0201)
Demography and Population Studies. A group of instructional programs (see 45.0501).

45.05 Demography and Population Studies. An instructional program that describes the systematic study of population models and population phenomena, and related problems of social structure and behavior. Includes instruction in population growth, spatial distribution, mortality and fertility factors, migration, dynamic population modelling, population estimation and projection, mathematical and statistical analysis of population data, population policy studies, and applications to problems in economics and government planning.

Applied Mathematics, General. (refer to 27.0301)

Mathematical Statistics. (refer to 27.0501)

Sociology. (refer to 45.1101)

Economics. A group of instructional programs (see 45.0601).

Economics, General. An instructional program that generally describes the systematic study of the production, conservation and allocation of resources in conditions of scarcity, together with the organizational frameworks related to these processes. Includes instruction in economic theory, micro- and macro-economics, comparative economic systems, money and banking systems, international economics, quantitative analytical methods, and applications to specific industries and public policy issues.

Agricultural Economics. (refer to 01.0103)

Business/Managerial Economics. (refer to 52.0601)

Consumer Economics and Science. (refer to 19.0402)

Applied and Resource Economics. An instructional program that describes the application of economic principles and analytical techniques to the study of particular industries, activities, or the exploitation of particular resources. Includes instruction in economic theory; microeconomic analysis and modelling of specific industries, commodities; the economic consequences of resource allocation decisions; regulatory and consumer factors; and the technical aspects of specific subjects as they relate to economic analysis.

Econometrics and Quantitative Economics. An instructional program that describes the systematic mathematical and statistical analysis of economic phenomena and problems. Includes instruction in economic statistics, optimization theory, cost/benefit analysis, price theory, economic modelling, and economic forecasting and evaluation.

Applied Mathematics, General. (refer to 27.0301)

Operations Research. (refer to 27.0302)

Mathematical Statistics. (refer to 27.0501)
45.0604 **Development Economics and International Development.** An instructional program that describes the systematic study of the economic development process and its application to the problems of specific countries and regions. Includes instruction in economic development theory, industrialization, land reform, infrastructural development, investment policy, the role of governments and business in development, international development organizations, and the study of social, health, and environmental influences on economic development.

-------

**International Agriculture.** (refer to 01.0701)

-------

**International Relations and Affairs.** (refer to 45.0901)

45.0605 **International Economics.** An instructional program that describes the systematic study and analysis of international commercial behavior and trade policy. Includes instruction in international trade theory, tariffs and quotas, commercial policy, trade factor flows, international finance and investment, currency regulation and trade exchange rates and markets, international trade negotiation, and international payments and accounting policy.

-------

**International Finance.** (refer to 52.0806)

45.07 **Geography.** A group of instructional programs (see 45.0701).

45.0701 **Geography.** An instructional program that describes the systematic study of the spatial distribution and interrelationships of people, natural resources, plant and animal life. Includes instruction in historical and political geography, cultural geography, economic and physical geography, regional science, cartographic methods, remote sensing, spatial analysis, and applications to areas such as land-use planning, development studies, and analyses of specific countries, regions, and resources.

45.0702 **Cartography.** An instructional program that describes the systematic study of map-making and the application of mathematical, computer, and other techniques to the science of mapping geographic information. Includes instruction in cartographic theory and map projections, computer-assisted cartography, map design and layout, photogrammetry, air photo interpretation, remote sensing, cartographic editing, and applications to specific industrial, commercial, research, and governmental mapping problems.

-------

**Surveying.** (refer to 15.1102)

45.08 **History.** A group of instructional programs (see 45.0801).

45.0801 **History, General.** An instructional program that generally describes the study and interpretation of the past, including the gathering, recording, synthesizing and criticizing of evidence and theories about past events. Includes instruction in historiography; historical research methods; studies of specific periods, issues and cultures; and applications to areas such as historic preservation, public
policy, and records administration.

45.0802 **American (United States) History.** An instructional program that describes the study of the development of American society, culture, and institutions from the Pre-Columbian period to the present. Includes instruction in American historiography, American history sources and materials, historical research methods, and applications to the study of specific themes, issues, periods, and institutions.

---

**American Studies/Civilization.**  (refer to 05.0102)

45.0803 **European History.** An instructional program that describes the study of the development of European society, culture, and institutions from the origins to the present. Includes instruction in European historiography, European history sources and materials, historical research methods, and applications to the study of specific themes, issues, periods, and institutions.

---

**European Studies.**  (refer to 05.0106)

45.0804 **History and Philosophy of Science.** An instructional program that describes the study of the historical evolution of scientific theories and science applications and technologies, as well as the philosophy of science and its historical socio-economic context. Include instruction in the concepts and methods of philosophical inquiry, historiography of science, and research methods in the history of the scientific and engineering disciplines, including mathematics.

---

**Science, Technology and Society.**  (refer to 30.1501)

45.0805 **Public/Applied History and Archival Administration.** An instructional program that describes the application of history and administrative skills to the recording of public events and the management of related historical resources. Includes instruction in historical research methods, archives and records management, the planning and administration of public records services and history projects, and applications to specific problems in public organizations, government agencies, foundations, and records facilities.

45.12 Urban Studies/Affairs. A group of instructional programs (see 45.1201).

45.1201 Urban Studies/Affairs. An instructional program that describes the application of social science principles to the study of urban institutions and the forces influencing urban social and political life. Includes instruction in urban theory, the development and evolution of urban areas, urban sociology, principles of urban and social planning, and the politics and economics of urban government and services.

City/UrbAn, Community and Regional Planning. (refer to 04.03 Series)

45.99 Social Sciences, Other. A group instructional programs (see 45.9999)

45.9999 Social Sciences, Other. Any instructional program in social sciences not described above.

CONSTRUCTION TRADES. A summary of groups of instructional programs that prepare individuals to apply technical knowledge and skills in the building, inspecting, and maintaining of structures and related properties.

46.01 Masons and Tile Setters. A group of instructional programs (see 46.0101)

* 46.0101 Mason and Tile Setter. An instructional program that prepares individuals to apply technical knowledge and skills in the laying and/or setting of brick, concrete block, hard tile, marble and related materials, using trowels, levels, hammers, chisels, and other hand tools.

[Brick, Block and Stonemasonry.] (deleted, included under 46.0101)

[Tile Setting.] (deleted, included under 46.0101)

[Brickmasonry, Stonemasonry and Tile Setting, Other.] (deleted, included under 46.0101)

46.02 Carpenters. A group of instructional programs (see 46.0201)

* 46.0201 Carpenter. An instructional program that prepares individuals to apply technical knowledge and skills to lay out, fabricate, erect, install, and repair wooden structures and fixtures, using hand and power tools. Includes instruction in areas such as common systems of framing, construction materials, estimating, blueprint reading and finish carpentry techniques.
46.03  **Electrical and Power Transmission Installers.** A group of instructional programs (see 46.0301)

* 46.0301  **Electrical and Power Transmission Installer, General.** An instructional program that prepares individuals to apply technical knowledge and skills to install, operate, maintain, and repair residential, commercial, and industrial electrical systems, and the power lines that transmit electricity from its source of generation to its place of consumption.

* 46.0302  **Electrician.** An instructional program that prepares individuals to apply technical knowledge and skills to install, operate, maintain, and repair electric apparatus and systems such as residential, commercial, and industrial electric-power wiring; and D.C. and A.C. motors, controls, and electrical distribution panels. Includes instruction in the use of test equipment.

* 46.0303  **Lineworker.** An instructional program that prepares individuals to apply technical knowledge and skills to install, operate, maintain and repair local, long-distance, and rural electric power cables and communication lines; erect and construct pole and tower lines; and install underground lines and cables.

* 46.0399  **Electrical and Power Transmission Installers, Other.** Any instructional program in electrical and power transmission installation not described above.

46.04  **Construction and Building Finishers and Managers.** A group of instructional programs that prepare individuals to apply technical knowledge and skills to the finishing, inspection, and maintenance of structures and related properties.

* 46.0401  **Building/Property Maintenance and Manager.** An instructional program that prepares individuals to apply technical knowledge and skills in order to keep a building functioning, and to service a variety of types of structures including commercial and industrial buildings and mobile homes. Includes instruction in the basic maintenance and repair skills required to service building air conditioning, heating, plumbing, electrical, major appliances and other mechanical systems.

------  [Concrete Placing and Finishing.] (deleted, included under 46.0499)

* 46.0403  **Construction/Building Inspector.** An instructional program that prepares individuals to apply technical knowledge and skills to inspect and oversee construction of buildings, dams, highways, and other structures, in order to ensure that procedures and materials comply with plans, specifications, codes and regulations.

------  **Construction/Building Technology/Technician.** (refer to 15.1001)

---  [Drywall Installation.](deleted, included under 46.9999)

---  [Floor Covering Installation.] (deleted, included under 46.9999)

------  [Glazing.] (deleted, included under 46.9999)

------  [Insulation Installation.] (deleted, included under 46.9999)

* 46.0408  **Painter and Wall Coverer.** An instructional program that prepares individuals to apply technical knowledge and skills to finish exterior and interior surfaces by applying protective or decorative coating materials, such as paint, lacquer, and
wallpaper. Includes instruction in surface preparation; selecting, preparing, and applying paints and other coatings; hanging wallpaper; and equipment operation and maintenance.

* 46.0499 Construction and Building Finishers and Managers, Other. Any instructional program in construction and building finishing and management not described above.

Plumbers and Pipefitters. A group of instructional programs (see 46.0501)

* 46.0501 Plumber and Pipefitter. An instructional program that prepares individuals to apply technical knowledge and skills to lay out, assemble, install, and maintain piping fixtures and piping systems for steam, hot water, heating, cooling, drainage, lubricating, sprinkling, and industrial processing systems. Includes instruction in material selection and use of tools to cut, bend, join, and weld pipes.

* 46.9999 Construction Trades, Other. Any instructional program in construction trades not described above.

MECHANICS AND REPAIRERS. A summary of groups of instructional programs that prepare individuals to apply technical knowledge and skills in the adjustment, maintenance, part replacement, and repair of tools, equipment, and machines.

Electrical and Electronics Equipment Installers and Repairers. A group of instructional programs (see 46.0101)

* 47.0101 Electrical and Electronics Equipment Installer and Repairer, General. An instructional program that generally prepares individuals to apply technical knowledge and skills to operate, maintain, and repair electrical and electronic equipment. Includes instruction in electrical circuitry, simple gearing, linkages and lubrication of machines and appliances, and the use of testing equipment.

* 47.0102 Business Machine Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to maintain and repair a wide variety of office machines such as electric typewriters, word processing and dictation machines, calculators, data-processing equipment, duplicating machines, and mailing machines. Includes instruction in diagnostic techniques, the use of testing equipment.
equipment, and the principles of mechanics, electricity, and electronics as they relate to the repair of business machines.

* 47.0103 Communications Systems Installer and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to assemble, install, operate, maintain, and repair one- and two-way communications equipment and systems, including television cable systems and mobile or stationary communication devices. Includes instruction in diagnostic techniques, the use of testing equipment, and the principles of mechanics, electricity, and electronics as they relate to the repair of communications systems.

* 47.0104 Computer Installer and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to assemble, install, operate, maintain, and repair computers and related instruments. Includes instruction in power supplies, number systems, memory structure, buffers and registers, microprocessor design, peripheral equipment, programming, and networking.

------ Computer Maintenance Technology/Technician. (refer to 15.0402)

* 47.0105 Industrial Electronics Installers and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to assemble, install, operate, maintain, and repair electrical/electronic equipment used in industry and manufacturing. Includes instruction in installing, maintaining, and testing various types of equipment.

* 47.0106 Major Appliance Installer and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, install, and service major gas, electric, and microwave consumer appliances such as stoves, refrigerators, dryers, water heaters, washers, dishwashers, and commercial units such as ice makers and coffee makers.

------ [Motor Repair.] (deleted, included under 47.0101)

------ [Small Appliance Repair.] (deleted, included under 47.0101)

------ [Vending and Recreational Machine Repair.] (deleted, included under 47.0101)

* 47.0199 Electrical and Electronics Equipment Installers and Repairers, Other. Any instructional program in electrical and electronics equipment installation and repair not described above.

47.02 Heating, Air Conditioning, and Refrigeration Mechanics and Repairers. A group of instructional programs (see 47.0201)

* 47.0201 Heating, Air Conditioning, and Refrigeration Mechanic and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, install, service and maintain the operating condition of heating, air conditioning, and refrigeration systems. Includes instruction in diagnostic techniques, the use of testing equipment, and the principles of mechanics, electricity, and electronics as they relate to the repair of heating, air conditioning and refrigeration systems.

------ Heating, Air Conditioning and Refrigeration Technology/Technician. (refer to 15.0501)
47.03 Industrial Equipment Maintenance and Repairers. A group of instructional programs (see 47.0302 and 47.0303)

* 47.0302 Heavy Equipment Maintenance and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills in the field maintenance and repair of heavy equipment, and in the general maintenance and overhaul of such equipment. Includes instruction in inspection, maintenance, and repair of tracks, wheels, brakes, operating controls, pneumatic and hydraulic systems, electrical circuitry, engines, and in techniques of welding and brazing.

* 47.0303 Industrial Machinery Maintenance and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair and maintain industrial machinery and equipment such as cranes, pumps, engines and motors, pneumatic tools, conveyor systems, production machinery, marine deck machinery, and steam propulsion, refinery, and pipeline-distribution systems.

* 47.0399 Industrial Equipment Maintenance and Repairers, Other. Any instructional program in industrial equipment maintenance and repair not described above.

47.04 Miscellaneous Mechanics and Repairers. A group of instructional programs that prepare individuals to apply technical knowledge and skills to repair and maintain a wide variety of items other than those described elsewhere in the Mechanics and Repairers Series.

* 47.0401 Instrument Calibration and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair and maintain testing equipment, calibration equipment, instrumentation, meters, measuring devices, and control devices.

* 47.0402 Instrumentation Technology/Technician. (refer to 15.0404)

* 47.0403 Gunsmith. An instructional program that prepares individuals to apply technical knowledge and skills to make, repair, maintain, and modify firearms according to blueprints or customer specifications, using specialized hand tools and machines.

* 47.0403 Locksmith and Safe Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to make, repair, maintain, modify, and open locks; to make keys; to enter and change lock and safe combinations; and install and repair safes.
Musical Instrument Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to make, repair, maintain, and tune acoustic and electric musical instruments. Includes instruction in methods and equipment for making musical instruments, electronic instrument amplification systems, techniques of cleaning, and methods of tuning musical instruments.

[Operation, Maintenance, and Repair of Audio-Visual Equipment.] (deleted, included under 47.0499)

[Sporting Goods Equipment Repair.] (deleted, included under 47.0499)

Watch, Clock and Jewelry Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to make, repair, and maintain timepieces, time-measuring devices, and jewelry items. Includes instruction in mechanical timekeeping systems, digital timekeeping systems, timesetting, casting, engraving, polishing, stonesetting, soldering, fine microscopic work, equipment and tool maintenance, redesign and restyling techniques, and customer relations.

Miscellaneous Mechanics and Repairers, Other. Any instructional program in miscellaneous mechanics and repairers not described above.

Stationary Energy Sources Installers and Operators. A group of instructional programs that prepare individuals to install, operate, and maintain large power sources for such purposes as generating electricity, pumping, and heating.

Stationary Energy Sources Installer and Operator. An instructional program that prepares individuals to apply technical knowledge and skills to install, repair, operate, and maintain large power sources for such purposes as generating electricity, pumping, and heating.

[Conventional (Non-Nuclear) Electrical Power Generation.] (deleted, included under 47.0501)

[Pumping Plants.] (deleted, included under 47.0501)

[Stationary Energy Sources, Other.] (deleted, included under 47.0501)

Vehicle and Mobile Equipment Mechanics and Repairers. A group of instructional programs that prepare individuals to apply technical knowledge and skills to maintain and repair aircraft, land vehicles, ships, construction equipment and portable power equipment.

[Vehicle and Mobile Equipment Mechanics and Repairers, General.] (deleted, included under 47.0699)

Auto/Automotive Body Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in all phases of body work preparation and finishing.

Auto/Automotive Mechanic/Technician. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles, trucks, vans and buses. Includes instruction in the diagnosis of malfunctions in and repair of engines; fuel, electrical, cooling, and brake systems; and drive train and suspension systems.
Automotive Engineering Technology/Technician. (refer to 15.0803)

* 47.0605 Diesel Engine Mechanic and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain diesel engines in vehicles such as automobiles, buses, ships, trucks, railroad locomotives, and construction equipment; as well as stationary diesel engines in electrical generators and related equipment.

Agricultural Power Machinery Operator. (refer to 01.0204)

* 47.0606 Small Engine Mechanic and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain small internal-combustion engines used on portable power equipment such as lawnmowers, chain saws, rotary tillers, and snowmobiles.

* 47.0607 Aircraft Mechanic/Technician Airframe. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain all aircraft components other than engines, propellers, avionics, and instruments. Includes instruction in layout and fabrication of sheet metal, fabric, wood, and other materials into structural members, parts, and fittings, and replacement of damaged or worn parts such as control cables and hydraulic units.

* 47.0608 Aircraft Mechanic/Technician Powerplant. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of aircraft powerplants and related systems. Instruction includes engine inspection and maintenance, lubrication and cooling, electrical and ignition systems, carburetion, fuels and fuel systems, propeller and fan assemblies.

* 47.0609 Aviation Systems and Avionics Maintenance Technologist/Technician. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of aircraft operating, control, and electronic systems. Includes instruction in flight instrumentation, aircraft communications and homing systems, radar and other sensory systems, navigation aids, and specialized systems for various types of civilian and military aircraft.

Aeronautical and Aerospace Engineering Technology/Technician. (refer to 15.0801)

* 47.0610 Bicycle Mechanic and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain bicycles and other human-powered vehicles. Includes instruction in lubrication, adjustments of moving parts, and wheel building.

* 47.0611 Motorcycle Mechanic and Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair, service, and maintain motorcycles and other similar powered vehicles. Includes instruction in lubrication and cooling systems, electrical and ignition systems, carburetion, fuel systems and adjustments of moving parts.

* 47.0699 Vehicle and Mobile Equipment Mechanics and Repairers, Other. Any instructional program in vehicle and mobile equipment mechanics and repairers not described above.
47.99  Mechanics and Repairers, Other.  A group of instructional programs (see 47.9999)

* 47.9999  Mechanics and Repairers, Other.  Any instructional program in mechanics and repairs not described above.

48.  PRECISION PRODUCTION TRADES.  A summary of groups of instructional programs that prepare individuals to apply technical knowledge and skills to create products using techniques of precision craftsmanship or technical illustration.

48.01  Drafting.  A group of instructional programs (see 48.0101)

* 48.0101  Drafting, General.  An instructional program that generally prepares individuals to apply technical knowledge and skills to plan and prepare scale pictorial interpretations of engineering and design concepts. Includes instruction in the use of precision drawing instruments, computer-assisted design programs, sketching and illustration, and specification interpretation.

* 48.0102  Architectural Drafting.  An instructional program that prepares individuals to apply technical knowledge and skills to plan and prepare scale pictorial interpretations of plans and design concepts for buildings or other structures. Includes instruction in creating layouts and designs, architectural blueprints and renderings, and in the use of computer-assisted design programs.

* 48.0103  Civil/Structural Drafting.  An instructional program that prepares individuals to apply technical knowledge and skills to plan and prepare scale pictorial interpretations of plans and design concepts for construction projects, including topographical profiles, related maps and specifications sheets for use by civil engineers and other land use planning specialists. Includes instruction in performing all stages of design illustration and interpretation from initial concept to prototype, and the use of computer-assisted design programs.

* 48.0104  Electrical/Electronics Drafting.  An instructional program that prepares individuals to apply technical knowledge and skills to plan and prepare scale pictorial interpretations of plans and design concepts for wiring diagrams and schematics used by electrical/electronics engineers, electrical contractors and repairers to plan, install and modify electrical equipment and systems. Includes instruction in performing all stages of design illustration and interpretation from initial concept to prototype, and the use of computer-assisted design programs.

* 48.0105  Mechanical Drafting.  An instructional program that prepares individuals to apply technical knowledge and skills to plan and prepare scale pictorial interpretations of plans and design concepts for mechanical devices and machinery, including vehicles and other major systems. Includes instruction in performing all stages of design illustration and interpretation from initial concept to prototype, and the use of computer-assisted design programs.

* 48.0199  Drafting, Other.  Any instructional program in drafting not described above.

48.02  Graphic and Printing Equipment Operators.  A group of instructional programs (see 48.0201)

* 48.0201  Graphic and Printing Equipment Operator, General.  An instructional program that generally prepares individuals to apply technical knowledge and skills to plan,
prepare and execute commercial and industrial visual image and print products using mechanical, electronic, and digital graphic and printing equipment.

* 48.0212 **Desktop Publishing Equipment Operator.** An instructional program that prepares individuals to apply technical knowledge and skills to plan and execute entire publication tasks using desktop publishing equipment and software, including designing, printing and binding.

* 48.0299 **Graphic and Printing Equipment Operators, Other.** Any instructional program in graphic and printing equipment operation not described above.

48.03 **Leatherworkers and Upholsterers.** A group of instructional programs that prepare individuals to apply technical knowledge and skills to fabricate and repair all types of upholstery and leather goods.

--------

[Leatherworking and Upholstering, General.] (deleted, included under 48.0399)

--------

[Saddlemaking and Repair.] (deleted, included under 48.0399)

* 48.0303 **Upholsterers.** An instructional program that prepares individuals to apply technical knowledge and skills to install springs, filling, padding, covering and finishing on items such as furniture, automobile seats, caskets, mattresses, and
Shoe, Boot and Leather Repairer. An instructional program that prepares individuals to apply technical knowledge and skills to repair all types of footwear, including replacement and mending of worn parts; repairing orthopedic footwear, refinishing and dyeing leather; and repairing other leather goods such as handbags, belts, and luggage.

Leatherworkers and Upholsterers, Other. Any instructional program in leatherworking and upholstering not described above.

Precision Metal Workers. A group of instructional programs (see 48.0501)

- Machinist/Machine Technologist. An instructional program that prepares individuals to apply technical knowledge and skills to plan, manufacture, assemble, test, and repair parts, mechanisms, machines, and structures in which materials are cast, formed, shaped, molded, heat treated, cut, twisted, pressed, fused, stamped or worked.

- [Foundry Work.] (deleted, included under 48.0599)

- Machine Shop Assistant. An instructional program that prepares individuals to apply technical knowledge and skills to fabricate and modify metal parts in support of other manufacturing, repair or design activities, or as an independent business.

- [Metal Fabrication.] (deleted, included under 48.0501)
- [Metal Patternmaking.] (deleted, included under 48.0501)

- Sheet Metal Worker. An instructional program that prepares individuals to apply technical knowledge and skills to form, shape, bend and fold extruded metals, including the creation of new products, using hand tools and machines such as cornice brakes, forming rolls, and squaring shears.

- Tool and Die Maker/Technologist. An instructional program that prepares individuals to apply technical knowledge and skills to operate machine tools used in the forming of metal components, as well as the fabrication of special tools, dies, jigs and fixtures used in cutting, working and finishing metal components.

- Welder/Welding Technologist. An instructional program that prepares individuals to apply technical knowledge and skills to unite or separate metal parts by heating, using a variety of techniques and equipment, such as brazing, arc,
gas and laser operations.
48.0599  **Precision Metal Workers, Other.** Any instructional program in precision metal work not described above.

**TRANSPORTATION AND MATERIALS MOVING WORKERS.** A summary of groups of instructional programs that prepare individuals to apply technical knowledge and skills to perform tasks and services that facilitate the movement of people or materials.

49.01  **Air Transportation Workers.** A group of instructional programs that prepare individuals to apply technical knowledge and skills to provide in-flight, ground and administrative services to the aviation industry.

49.0101  **Aviation and Airway Science.** An instructional program that generally describes the study of aviation and the aviation industry, including in-flight and ground support operations. Includes instruction in the technical, business, and general
aspects of air transportation systems.

* 49.0102 Aircraft Pilot and Navigator (Professional). An instructional program that prepares individuals to apply technical knowledge and skills to the flying and/or navigation commercial passenger and cargo, agricultural, public service, corporate and rescue aircraft. Includes instruction in principles of aircraft design and performance; aircraft flight systems and controls; flight crew operations and procedures; radio communications and navigation procedures and systems; airways safety and traffic regulations; and governmental rules and regulations pertaining to piloting aircraft. Programs may qualify individuals to sit for the FAA commercial aircrew examinations.

* 49.0104 Aviation Management. An instructional program that prepares individuals to apply technical knowledge and skills to the management of aviation industry operations and services. Includes instruction in airport operations, ground support and flightline operations, passenger and cargo operations, flight safety and security operations, aviation industry regulation, and related business aspects of managing aviation enterprises.

49.0105 Air Traffic Controller. An instructional program that prepares individuals to apply technical knowledge and skills to air-traffic management and control, usually with additional training at the FAA Flight Control Center in a cooperative education program. Includes instruction in flight control; the use of radar and electronic scanning devices; plotting of flights; radio communication; interpretation of weather conditions affecting flights; flight instrumentation used by pilots; and maintenance of flight-control center or control-tower log books.

* 49.0106 Flight Attendant. An instructional program that prepares individuals to apply technical knowledge and skills to the performance of a variety of personal services conducive to the safety and comfort of airline passengers during flight, including verifying tickets, explaining the use of safety equipment, providing passenger services, and responding to in-flight emergencies.

49.0107 Aircraft Pilot (Private). An instructional program that prepares individuals to fly aircraft for personal use, and qualifies individuals to sit for the FAA pilot's license examination. Includes instruction in principles of aircraft design and performance; aircraft flight systems and controls; flight crew operations and procedures; radio communications and navigation procedures and systems; airways safety and traffic regulations; and governmental rules and regulations pertaining to piloting aircraft.

* 49.0199 Air Transportation Workers, Other. Any instructional program in aviation and air transportation services not described above.

49.02 Vehicle and Equipment Operators. A group of instructional programs that prepare individuals to apply technical knowledge and skills to operate commercial and construction vehicles and mobile equipment.

[Vehicle and Equipment Operation, General.] (deleted, include under 49.0299)

* 49.0202 Construction Equipment Operator. An instructional program that prepares individuals to apply technical knowledge and skills to operate and maintain a variety of heavy equipment, such as a crawler tractors, motor graders and scrapers, and shovels, including dragline, hoe, and cranes. Includes instruction in digging, ditching, sloping, stripping, grading, backfilling, clearing and excavating.
Agricultural Power Machinery Operator. (refer to 01.0204)

[Material Handling.] (deleted, included under 49.0299)

[Mining Equipment Operation.] (deleted, included under 49.0299)

* 49.0205 Truck, Bus and Other Commercial Vehicle Operator. An instructional program that prepares individuals to apply technical knowledge and skills to drive trucks and buses, delivery vehicles, for-hire vehicles and other commercial vehicles. Includes instruction in operating gas, diesel, or electrically-powered vehicles; loading and unloading cargo or passengers; reporting delays or accidents on the road; verifying load against shipping papers; arranging transportation for personnel; and keeping records of receipts and fares.

* 49.0299 Vehicle and Equipment Operators, Other. Any instructional program in vehicle and equipment operation not described above.

49.03 Water Transportation Workers. A group of instructional programs that prepare individuals to apply technical knowledge and skills to perform tasks on or in the water, including diving, fishing, and ship operation and repair services.

* 49.0303 Fishing Technology/Commercial Fishing. An instructional program that prepares individuals to apply technical knowledge and skills to function as commercial fishermen, fishing operations supervisors, or in related fishing industry operations. evaluation, record-keeping, and equipment operation and maintenance.

* 51.0999 Health and Medical Diagnostic and Treatment Services, Other. Any instructional program in health and medical diagnostic and treatment services not described above.

51.10 Health and Medical Laboratory Technologies. A group of instructional programs that prepare individuals to perform diagnostic and analytical laboratory procedures that support medical research and practice.

* 51.1001 Blood Bank Technology/Technician. An instructional program that prepares individuals to perform classification, analysis, and related tests on banked blood under the supervision of a pathologist, physician, or laboratory director. Includes instruction in laboratory hematology; laboratory and blood bank procedures; blood donor selection; blood collection, classification, storage, and processing procedures; topological and compatibility tests; blood bank inventory and delivery procedures; record-keeping; and personnel and volunteer supervision.

* 51.1002 Cytotechnologist. An instructional program that prepares individuals to perform oncological and related pathological analyses of human tissue samples, under the supervision of a pathologist. Includes instruction in pathology laboratory procedures; equipment operation and maintenance; conducting Pap and other test procedures for cancer diagnosis; analytical procedures for other cell abnormalities; slide and tissue sample preparation; and record-keeping.

* 51.1003 Hematology Technology/Technician. An instructional program that prepares individuals to perform tests and analyses of patients’ blood samples under the supervision of a hospital laboratory director or physician. Includes instruction in laboratory procedures; laboratory hematology; conducting quantitative, qualitative, and coagulation tests on cellular and plasma blood components; equipment operation and maintenance, and record-keeping.

------- [Histologic Technology.] (deleted, included under 51.1099)

* 51.1004 Medical Laboratory Technician. An instructional program that prepares individuals to perform general medical laboratory procedures and routines, under the supervision of a physician or laboratory director. Includes instruction in medical laboratory procedures; equipment operation and maintenance; principles of different bacteriological, biological, and chemical test procedures; equipment and sample inventorying and storage; laboratory safety procedures; laboratory assistant supervision; and record-keeping.

51.1005 Medical Technology. An instructional program that prepares individuals as independent laboratory scientists and laboratory supervisors in the analysis of human body fluids and tissues. Includes instruction in clinical chemistry, clinical microbiology, clinical immunology, immunohematology, clinical hematology, chemical and physical analytic techniques, equipment technology, data and
record systems maintenance and experiment design. Also includes the preparation and interpretation of research and medical reports.

[Microbiology Technology.] (deleted, included under 51.1106)

* 51.1006 Optometric/Ophthalmic Laboratory Technician. An instructional program that prepares individuals to make prescription lenses and related visual aid equipment, under the supervision of an optician or optometrist. Includes instruction in optical laboratory procedures; principles of vision optics; lens grinding and polishing; contact lens fabrication; glasses construction; equipment operation and maintenance; safety procedures; precision instrument work and testing; prescription interpretation; and record-keeping.

* 51.1099 Health and Medical Laboratory Technologies/Technicians, Other. Any instructional program in health and medical laboratory technologies not described above.

51.11 Health and Medical Preparatory Programs. A group of instructional programs that prepare individuals for admission to first-professional programs in medical or other health fields.

51.1101 Pre-Dentistry Studies. An instructional program that prepares individuals for admission to a first-professional program in dentistry.

51.1102 Pre-Medicine Studies. An instructional program that prepares individuals for admission to a first-professional program in allopathic, osteopathic, or podiatric medicine.

51.1103 Pre-Pharmacy Studies. An instructional program that prepares individuals for admission to a first-professional program in pharmacy.

51.1104 Pre-Veterinary Studies. An instructional program that prepares individuals for admission to a first-professional program in veterinary medicine.

51.1199 Health and Medical Preparatory Programs, Other. Any instructional program in health and medical first-professional preparation not described above.

51.12 Medicine (M.D.). A group of instructional programs (see 51.0701)

51.1201 Medicine (M.D.) An instructional program that prepares individuals for the independent professional practice of allopathic medicine. Includes instruction in the principles and procedures used in the observation, diagnosis, care and treatment of illness, disease, injury, deformity, or other anomalies in humans; ethics and professional standards; and supervised clinical practice.

------ Physician Assistant. (refer to 51.0807)

------ Pre-Medicine Studies. (refer to 51.1102)

by medical graduates and others, on the chemical nature of food substances; the
processes by which the human body ingests, digests, absorbs, transports, utilizes
and excretes food and nutrients; and their relation to human behavior and health.

51.1312 Medical Pathology. An instructional program that describes advanced research,
by medical graduates and others, on the causes and effects of diseases and
disease mechanisms in human beings. Includes instruction in renal,
cardiovascular, neuro-, pulmonary, bone, liver and gastrointestinal, surgical,
autopsy, cellular, biochemical and immunopathology.

51.1313 Medical Physiology. An instructional program that describes advanced
research, by medical graduates and others, on the functions of the human body
and its parts, and their relationship to the restoration and preservation of good
health. Includes instruction in cellular, cardiovascular, renal, neuro-, endocrine,
gastrointestinal, and respiratory physiology.

51.1314 Medical Toxicology. An instructional program that describes advanced
research, by medical graduates and others, on the nature and extent of adverse
effects of synthetic and naturally occurring chemical substances on human
beings. Includes instruction in chemical mechanisms and the specialties of
reproductive, developmental, genetic, forensic, inhalation and neurobehavioral
toxicology.

51.1399 Medical Basic Sciences, Other. Any instructional program in basic medical
sciences not described above.

51.14 Medical Clinical Sciences (M.S., Ph.D.). A group of instructional programs
(see 51.1401)

51.1401 Medical Clinical Sciences (M.S., Ph.D.). An instructional program that
describes the scientific study, by medical residents and other medical doctors, of
specialized medical practice arts and related clinical research. Includes
instruction in fields such as pediatrics, anesthesiology, obstetrics, gynecology,
ocology, surgery, radiology, internal medicine, neurology, clinical pathology,
psychiatry, and others.

------ Medical Residency Programs. (refer to CHAPTER VI)

51.15 Mental Health Services. A group of instructional programs that prepare individuals to provide
counseling and support services related to the care and treatment of persons with mental,
emotional or behavioral disorders.

----- Clinical Psychology. (refer to 42.02 Series)

----- Counseling Psychology. (refer to 42.06 Series)

* 51.1501 Alcohol/Drug Abuse Counseling. An instructional program that prepares
individuals to counsel drug users, addicts, family members, and associates in a
wide variety of settings, using various preventive strategies and treatment
regimes. Includes instruction in outreach; patient education; therapeutic
intervention methods; diagnostic procedures; addiction symptomology; record-
keeping; liaison with community health, social services, law enforcement, and
legal services; and applicable regulations.

* 51.1502 Psychiatric/Mental Health Services Technician. An instructional program that
prepares individuals to assist psychiatrists, psychologists, nurses and other mental health personnel in patient care and treatment. Includes instruction in patient interviewing, data recording, taking vital signs, the supervised administration of routine medication and assisting in examinations and treatment procedures.

51.1503 **Clinical and Medical Social Work.** An instructional program that prepares individuals for the independent practice of social work in mental health clinics, hospitals, and community health service organizations. Includes instruction in psychiatric case work, clinical interviewing techniques, therapeutic intervention strategies, psychological test administration, family counseling, social rehabilitation, record-keeping, and liaison with other community support agencies and services.

------ **Social Work.** (refer to 44.0701)

* 51.1599 **Mental Health Services, Other.** Any instructional program in mental health/human services not described above.

51.16 **Nursing.** A group of instructional programs (see 51.1401)

* 51.1601 **Nursing (R.N. Training)** An instructional program that generally prepares individuals in the knowledge, techniques and procedures for promoting health, providing care for sick, disabled, informed, or other individuals or groups. Includes instruction in the administration of medication and treatments, assisting a physician during treatments and examinations, referring patients to physicians and other health care specialists, and planning education for health maintenance.

51.1602 **Nursing Administration (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to manage nursing personnel and services in hospitals and other health care delivery agencies.

51.1603 **Nursing, Adult Health (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to provide general care for adult patients, including the administration of medication and treatments, assisting a physician during treatments and examinations, referring patients to physicians and other health care specialists, and planning education for health maintenance.

51.1604 **Nursing Anesthetist (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to administer anesthetics and provide care for patients before, during and after anesthesia.

51.1605 **Nursing, Family Practice (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to provide general care for family groups and individual health needs in the context of family living, including the administration of medication and treatments, assisting a physician during treatments and examinations, referring patients to physicians and other health care specialists, and planning education for health maintenance.

51.1606 **Nursing, Maternal/Child Health (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to provide prenatal care to pregnant women and postnatal care to mothers and their infants.

51.1607 **Nursing Midwifery (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to independently deliver babies and treat mothers in the
prenatal, delivery, and post-delivery periods. Includes instruction in pre-delivery screening, physician referral, and the care of infants during the delivery and immediate post-delivery phases.

51.1608 **Nursing Science (Post-R.N.).** An instructional program in research that describes the study of advanced clinical practices, research methodologies, the administration of complex nursing services, and that prepares nurses to further the progress of nursing research through experimentation and clinical applications.

51.1609 **Nursing, Pediatric (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to provide care for children from infancy through adolescence. Includes instruction in the administration of medication and treatments, assisting physicians, patient examination and referral, and planning and delivering health maintenance and health education programs.

51.1610 **Nursing, Psychiatric/Mental Health (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to promote mental health and provide nursing care to patients with mental, emotional or behavioral disorders, in mental institutions or other settings.

51.1611 **Nursing, Public Health (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to promote health and provide preventive and curative nursing services for individuals, groups or communities under the supervision of a public health agency.

51.1612 **Nursing, Surgical (Post-R.N.).** An instructional program that prepares registered nurses (R.N.) to provide care to patients before and during surgery, and provide tableside assistance to surgeons.

* 51.1613 **Practical Nurse (L.P.N. Training).** An instructional program that prepares individuals to assist in providing general nursing care under the direction of a registered nurse, physician or dentist. Includes instruction in taking patient vital signs, applying sterile dressings, patient health education and assistance with examinations and treatment.

* 51.1614 **Nursing Assistant/Aide.** An instructional program that prepares individuals to perform routine nursing-related services to patients in hospitals or long-term care facilities, under the training and supervision of a registered nurse or licensed practical nurse.

* 51.1615 **Home Health Aide.** An instructional program that prepares individuals to assist elderly, convalescent or handicapped patients in their homes by providing for their physical, mental, emotional and/or social health care needs, under the supervision of a registered nurse.

* 51.1699 **Nursing, Other.** Any instructional program in nursing not described above.

51.17 **Optometry.** A group of instructional programs (see 51.1501).

51.1701 **Optometry (O.D.).** An instructional program that prepares individuals for the independent professional practice of optometry and that describes the principles and techniques for examining, diagnosing and treating conditions of the visual system. Includes instruction in prescribing glasses and contact lenses, other optical aids, corrective therapies, patient counseling, physician referral, practice management,
and ethics and professional standards.
51.18 **Ophthalmic/Optometric Services.** A group of instructional programs that prepare individuals to assist ophthalmologists and/or optometrists in providing clinical services.

* 51.1801 **Opticianry/Dispensing Optician.** An instructional program that prepares individuals to fill prescriptions ordered by ophthalmologists or optometrists and to dispense optical supplies and equipment. Includes instruction in shaping and grinding lenses, frame selection and fitting, patient counseling, supervision of assistants and the operation of a business.

* 51.1802 **Optical Technician/Assistant.** An instructional program that prepares individuals to assist optometrists or ophthalmologist providing diagnostic, treatment and dispensing services. Includes instruction in vision testing, corneal measurement, color screening, patient counseling, eyewear fitting and modification, and office administration duties.

------ **Ophthalmic Medical Assistant.** (refer to 51.0804)

* 51.1803 **Ophthalmic Medical Technologist.** An instructional program that prepares individuals to perform ophthalmic clinical photography and florescence angiography of the eye, ophthalmic electrophysiological and microbiological procedures, and administer ocular motility and binocular function tests under the supervision of ophthalmologist.

* 51.1804 **Orthoptics.** An instructional program that prepares individuals, under the supervision of an ophthalmologist, to correct vision defects in children and adults via therapeutic exercises. Includes instruction in strabismus, amblyopia, patient care and counseling, and diagnostic testing.

* 51.1899 **Ophthalmic/Optometric Services, Other.** Any instructional program in ophthalmic/optometric services not described above.

51.19 **Osteopathic Medicine (D.O.).** A group of instructional programs (see 51.1701).

51.1901 **Osteopathic Medicine (D.O.)** An instructional program that prepares individuals for the independent professional practice of osteopathy, a system of holistic diagnosis and treatment of health problems. Includes instruction in all accepted allopathic medical diagnostic and treatment methods, plus spinal manipulation; musculoskeletal and nervous system influence on body health; promoting natural defense mechanisms; and the interrelation of the various body systems.

------ **Pre-Medicine Studies.** (refer to 51.1102)

51.20 **Pharmacy.** A group of instructional programs (see 51.1801).

51.2001 **Pharmacy (B.Pharm., Pharm.D.)** An instructional program that prepares individuals for the independent professional practice of pharmacy. Includes instruction in principles of medicinal chemistry, drug behavior, and drug metabolism; mixing, preparing, and dispensing prescription medications; pharmacy practice management; patient advising; ethical and professional standards; and applicable laws and regulations.

------ **Pharmacy Technician/Assistant.** (refer to 51.0805)

------ **Pre-Pharmacy Studies.** (refer to 51.1103)
51.2002  **Pharmacy Administration and Pharmaceutics.** An instructional program that prepares pharmacists to manage pharmaceutical operations and programs in industrial, hospital, and other clinical settings. Includes instruction in business management principles; pharmaceutical laboratory and production operations and organization; social and economic policy aspects of pharmaceutics; and specific applications to such areas as industrial pharmaceutics, clinical pharmaceutics, hospital pharmaceutics, pharmacy industry and distribution studies, and the regulatory aspects of pharmaceutics.

51.2003  **Medical Pharmacology and Pharmaceutical Sciences.** An instructional program that describes the scientific study, by pharmacists and other medical researchers, of drugs, drug behavior, and the actions of chemical substances on human systems and whole organisms. Includes instruction in such areas as biopharmaceutics, pharmacokinetics and dynamics, drug metabolism, bioanalytical assay, pharmacognosy, cosmetic science, neuropharmacology, behavioral effects of drugs, radiopharmacology, and pharmaceutical socioeconomic policy.

--------  **Pharmacology, Human and Animal.** (refer to 26.0705)

--------  **Medicinal/Pharmaceutical Chemistry.** (refer to 40.0505)

51.2099  **Pharmacy, Other.** Any instructional program in pharmacy not described above.

51.21  **Podiatry (D.P.M., D.P., Pod.D.).** A group of instructional programs (see 51.2101).

51.2101  **Podiatry (D.P.M., D.P., Pod.D.)** An instructional program that prepares individuals for the independent professional practice of podiatric medicine. Includes instruction in the principles and procedures used in the observation, diagnosis, care and treatment of disease, injury, deformity, or other anomalies of the human foot; ethics and professional standards; and supervised clinical practice.

--------  **Pre-Medicine Studies.** (refer to 51.1102)

51.22  **Public Health.** A group of instructional programs that prepare individuals to provide publicly supervised health services to community, regional, national and international health services.

51.2201  **Public Health, General.** An instructional program that prepares individuals to plan, implement, and evaluate publicly supervised and administered health care programs and systems. Includes instruction in principles of epidemiology, health law and regulations, law enforcement, biostatistical methods, budget policy and economics, report-making and personnel supervision.

--------  **Health Teacher Education.** (refer to 13.1307)

--------  **Public Health Nursing.** (refer to 51.1611)

51.2202  **Environmental Health.** An instructional program that prepares public health specialists to monitor and evaluate potential and confirmed environmental health hazards, and to plan and manage environmental health programs. Includes instruction in environmental toxicology, genetic toxicology, biohazard research, test and evaluation procedures, measurement instrumentation and equipment operation, environmental and health law and regulations, and applications to
specific environmental health problems.

----- Environmental Science/Studies. (refer to 03.0102)
----- Environmental/Environmental Health Engineering. (refer to 14.1401)
----- Environmental Control Technologies. (refer to 15.05 Series)

51.2203 Epidemiology. An instructional program that describes the scientific study, by public health scientists and other medical researchers, of the distribution of disease in human populations; patterns in the life cycles of infectious diseases; and methods of preventing disease outbreaks and promoting population health.

51.2204 Health and Medical Biostatistics. An instructional program that describes the advanced study of the health applications of statistical models and analytical techniques. Includes instruction in descriptive and inferential studies of human populations, the human organism and its biological components.

51.2205 Health Physics/Radiologic Health. An instructional program that describes the scientific measurement of radiation levels and dosages affecting human beings, and that prepares individuals to monitor radiation health. Includes instruction in radiation dosimetry methods; the health effects of natural and man-made radiation; operation and maintenance of test and monitoring equipment; and applicable standards and regulations pertaining to radiation emissions.

51.2206 Occupational Health and Industrial Hygiene. An instructional program that prepares public health specialists to monitor and evaluate health standards related to industrial and commercial workplaces and locations. Includes instruction in occupational health and safety standards and regulations; requirements of particular jobs and industrial processes; test and monitoring equipment operation and maintenance; industrial toxicology; worker health and safety education; and the analysis of job-related equipment, behavior, practices, and protective gear.

----- Quality Control and Safety Technologies. (refer to 15.07 Series)

51.2207 Public Health Education and Promotion. An instructional program that prepares public health specialists to provide specialized educational and informational services to populations affected by disease outbreak, health hazards, or who are at risk. Includes instruction in health publicity, public relations, public health campaign management, preparation of public health teaching aids and instructional materials, and applications to specific public health problems and campaign audiences.

----- [Public Health Laboratory Science.] (deleted, included under 51.1099)
----- [Public Health Practice and Management.] (deleted, included under 51.2201)

51.2299 Public Health, Other. Any instructional program in public health not described above.

51.23 Rehabilitation/Therapeutic Services. A group of instructional programs that prepare individuals to provide assistance in stabilizing and/or improving diagnosed health problems.

51.2301 Art Therapy. An instructional program that prepares individuals to employ art as
a tool to assist patients in overcoming physical disability, resolving emotional conflicts and enhancing communications with others.

---

[Corrective Therapy.] (deleted, included under 51.2199)

---

51.2302 **Dance Therapy.** An instructional program that prepares individuals to employ dance as a tool to assist patients in overcoming physical disability, resolving emotional conflicts and enhancing communications with others.

---

51.2303 **Hypnotherapy.** An instructional program that prepares individuals to employ hypnosis as a tool to assist patients in reducing physical pain, resolving emotional conflicts and enhancing communications with others. Includes instruction in trance inducement and its relation to other healing arts specialties.

---

51.2304 **Movement Therapy.** An instructional program that prepares individuals to employ hands-on repatterning and verbal instruction as a tool to assist patients in overcoming physical disability, resolving emotional conflicts and enhancing communications with others. Includes instruction in physiological pattern/cognitive-motor functioning, movement analysis and performance, psychological/emotional expression and health maintenance and improvement.

---

51.2305 **Music Therapy.** An instructional program that prepares individuals to employ music as a tool to assist patients in overcoming physical disability, resolving emotional conflicts and enhancing communications with others. Includes instruction in leading and monitoring individual and group musical activities with patients who suffer from physical or mental disorders.

---

51.2306 **Occupational Therapy.** An instructional program that prepares individuals to employ self-care, work and play activities as therapeutic regimes for patients in order to increase independent functioning, enhance development and assist recovery from disability. Includes instruction in adapting therapeutic tasks or environments to achieve maximum independence and enhance the quality of life for each patient.

---

[Occupational Therapy Aide.] (deleted, included under 51.2601)

---

**Occupational Therapy Assistant.** (refer to 51.0803)

---

[Orthopedic Assisting.] (deleted, included under 51.0999)

---

51.2307 **Orthotics/Prosthetics.** An instructional program that prepares individuals, under the supervision of a physician and in consultation with therapists, to make and fit orthoses and prostheses. Includes instruction in design, crafting and production techniques, properties of materials, anatomy and physiology, and patient counseling.

---

51.2308 **Physical Therapy.** An instructional program that prepares individuals, upon referral by a physician, to evaluate patients and plan and execute treatment programs to prevent or remediate physical dysfunction, relieve pain and prevent further disability. Includes instruction in patho- and therapeutic kinesiology, equipment design and maintenance, treatment regimes, and the evaluation of skeletal, neurological and cardiovascular disorders. Also includes instruction in patient counseling, personnel supervision and record-keeping.

---

[Physical Therapy Aide.] (deleted, included under 51.2601)

---

**Physical Therapy Assistant.** (refer to 51.0806)
Recreational Therapy. An instructional program that prepares individuals to plan, organize, and direct medically approved programs of leisure activity to promote patient physical and mental health and functioning in social interactions. Includes instruction in volunteer and staff supervision, patient evaluation and monitoring, behavioral therapy, and recreation program and predischarge planning.

Respiratory Therapy Technician. (refer to 51.0908)

Vocational Rehabilitation Counseling. An instructional program that prepares individuals, under the supervision of physicians or psychologists, to assist patients in coping with physical and/or mental disabilities that affect work. Includes instruction in vocational counseling, employment assistance and placement, patient evaluation and monitoring, administering psychological and psychomotor tests, and the planning of training programs.

Rehabilitation/Therapeutic Services, Other. An instructional program in rehabilitation/therapeutic services not described above.

Veterinary Medicine (D.V.M.). A group of instructional programs (see 51.2201).

Veterinary Medicine (D.V.M.) An instructional program that prepares individuals for the independent professional practice of veterinary medicine. Includes instruction in the principles and procedures used in the observation, diagnosis, care and treatment of illness, disease, injury, deformity, or other anomalies in animals; ethics and professional standards; and supervised clinical practice.

Pre-Veterinary Studies. (refer to 51.1104)

Veterinary Clinical Sciences (M.S., Ph.D.). A group of instructional programs (see 51.2501)

Veterinary Clinical Sciences (M.S., Ph.D.) An instructional program that describes the scientific study, by veterinarians, of the clinical specializations and supporting applied sciences related to the practice of veterinary medicine. Includes instruction in areas such as veterinary anatomy; veterinary physiology; veterinary pharmacology; veterinary radiology; veterinary pathology; veterinary toxicology; veterinary microbiology; veterinary preventive medicine; veterinary parasitology; veterinary immunology; veterinary bacteriology; veterinary virology; large animal surgery and medicine; small animal surgery and medicine; avian medicine; theriogenology; laboratory animal science; and animal nutrition.

Veterinary Residency Programs. (refer to CHAPTER V)
51.26  **Miscellaneous Health Aides.** A group of instructional programs (see 51.2301)

* 51.2601 **Health Aide.** Any of a group of instructional programs that prepare individuals to perform routine care and assistance duties for patients, under the direct supervision of other health care professionals, and/or to perform routine maintenance and general assistance duties in health care laboratories.

------  **Nurse Assistant/Aide.** (refer to 51.1614)

------  **Home Health Aide.** (refer to 51.1615)

51.27  **Miscellaneous Health Sciences and Allied Health Services.** A group of instructional programs that prepare individuals in health-related subjects and fields not included in Health Sciences and Allied Health Services Series described above.

* 51.2701 **Acupuncture and Oriental Medicine.** An instructional program that prepares individuals to administer Oriental and related traditional treatment therapies, and dispense traditional herbal and other medications, as independent practitioners. Includes instruction in acupuncture, moxibustion, Oriental pharmacology, Oriental medical theory and principles, diagnostic procedures, patient counseling, and related health care arts.

* 51.2702 **Medical Dietician.** An instructional program that prepares individuals to plan and administer special diets in clinical situations, under the supervision of or in consultation with physicians or other health professionals. Includes instruction in the principles of medical nutrition; the use of nutrition as a treatment regime; the management of health care facility food services; special menu planning and food preparation; and patient education and counseling.

CHAPTER IV
RESERVE OFFICERS’ TRAINING CORPS PROGRAMS

The 28. Series refers to instructional programs sponsored and regulated by the U.S. Department of Defense that prepare students for entry into the armed services as commissioned reserve or active duty officers. Such programs may carry academic credit, although not usually full credit for individual courses, and are offered in two-year and four-year postsecondary institutions. Completions result in the award of a commission (in four-year programs) or approval for transfer to a four-year R.O.T.C. program (for two-year programs). Satisfactory completion of any R.O.T.C. program does not solely depend upon meeting academic requirements, so that it is possible to complete R.O.T.C. coursework yet fail to obtain a commission. Students who fail to complete a full R.O.T.C. program in which they have enrolled will usually be required to finish their military service contract as enlisted personnel.

28. Reserve Officers’ Training Corps (R.O.T.C.). A summary of groups of instructional programs preparing individuals for entry into the armed forces of the United States as cadets or commissioned officers.

28.01 Air Force R.O.T.C. A group of instructional programs (see 28.0101)

28.0101 Air Force R.O.T.C./Air Science. An instructional program that prepares individuals for commissioning as reserve or active duty officers in the United States Air Force, or for entry into an approved senior A.F.R.O.T.C. commissioning program.

28.03 Army R.O.T.C. A group of instructional programs (see 28.0301)

28.0301 Army R.O.T.C./Military Science. An instructional program that prepares individuals for commissioning as reserve or active duty officers in the United States Army, or for entry into an approved senior A.R.O.T.C. commissioning program.

28.04 Navy/Marine Corps R.O.T.C. A group of instructional programs (see 28.0401)

28.0401 Navy/Marine Corps R.O.T.C./Naval Science. An instructional program that prepares individuals for commissioning as reserve or active duty officers in the United States Navy or Marine Corps, or for entry into an approved senior N.R.O.T.C. commissioning program.
CHAPTER V
PERSONAL IMPROVEMENT AND LEISURE PROGRAMS

The programs in the 32., 33., 34., 35., 36. and 37. Series describe areas of educational competence that equip individuals with knowledge and/or skills related to personal growth and leisure-time pursuits. Most of these instructional programs are designed for adult learners and are not formal academic or occupationally specific programs, nor do they result in transferable credit. Awards and completions in these programs are usually informal. These codes and Series are located in Chapter IV to avoid potential confusion with codes and Series in Chapter I, since data for these programs are not routinely collected or analyzed by the United States Department of Education.

32. Basic Skills. A summary of groups of instructional programs that describe fundamental knowledge and skills that individuals need in order to function productively in society.

32.01 Basic Skills. A group of instructional programs (see 32.0101)

32.0101 Basic Skills, General. An instructional program that generally describes fundamental knowledge and skills that individuals need in order to function productively in society.

-------- [Academic and Intellectual Skills.] (deleted)

-------- [Communication Skills.] (deleted)

32.0104 Computational Skills. An instructional program that describes the development of computing and other mathematical reasoning abilities.

32.0105 Job-Seeking/Changing Skills. An instructional program that describes the development of skills related to job searches and self-marketing. Includes instruction in assessing one’s own capabilities and skills; filling out an application; and handling an interview.

-------- [Motor Skills.] (deleted)

32.0107 Career Exploration/Awareness Skills. An instructional program that describes the linkage between individual capabilities and needs and the job market. Includes instruction in the variety and scope of available employment, how to access job information, and techniques of self-analysis.

32.0108 Reading, Literacy and Communication Skills. An instructional program that describes the development of reading, writing, and speaking abilities that are needed to perform day-to-day tasks. Includes instruction in the use of basic communication skills to develop and transmit ideas and thoughts.

32.0199 Basic Skills, Other. Any instructional program in basic skills not described above.
33. **Citizenship Activities.** A summary of groups of instructional programs that prepare individuals for citizenship, and describe how citizens may engage in civic activities.

33.01 **Citizenship Activities.** A group of instructional programs (see 33.0101)

33.0101 **Citizenship Activities, General.** An instructional program that generally prepares individuals for citizenship, and describes how citizens may engage in civic activities.

33.0102 **American Citizenship Education.** An instructional program that prepares individuals to take the oath of United States citizenship and to exercise the attendant rights and responsibilities of citizenship.

33.0103 **Community Awareness.** An instructional program that describes local government and history, current issues, and how individuals can keep abreast of important issues that may affect them.

33.0104 **Community Involvement.** An instructional program that describes how individuals may become actively involved in the social, economic and political issues and events affecting them; and the roles and methods that are available to influence community life and public policy.

33.0199 **Citizenship Activities, Other.** Any instructional program in citizenship activities not described above.

34. **Health-Related Knowledge and Skills.** A summary of groups of instructional programs that describe the promotion of personal and family health.

34.01 **Health-Related Knowledge and Skills.** A group of instructional programs that describe the promotion of personal and family health.

-------- [Health-Related Activities, General.] (deleted)

34.0102 **Birthing and Parenting Knowledge and Skills.** An instructional program that describes all facets of the mother’s and father’s roles in family planning, prenatal preparation and care, the birthing experience, post-natal care and the raising of children.

34.0103 **Personal Health Improvement and Maintenance.** An instructional program that describes the principles, techniques, and methods by which individuals can maintain or improve their overall physical and emotional well-being, as well as work on specific areas of personal health.

34.0104 **Addiction Prevention and Treatment.** An instructional program that describes how individuals can avoid addictive substances and behaviors; the methods by which individuals can be treated for various addictions and related behavior problems; and the knowledge and coping skills needed by relatives and associates of addicted individuals.

34.0199 **Health-Related Knowledge and Skills, Other.** Any instructional program in health-related knowledge and skills not described above.
35. **Interpersonal and Social Skills.** A summary of groups of instructional programs that describe how to effectively interact with others in private, social and business settings.

35.01 **Interpersonal and Social Skills.** A group of instructional programs  

35.0101 **Interpersonal and Social Skills, General.** An instructional program that generally describes how to effectively interact with others in private, social and business settings.

35.0102 **Interpersonal Relationships Skills.** An instructional program that describes how to increase one’s ability to establish and maintain mutually satisfactory ties with other human beings.

35.0103 **Business and Social Skills.** An instructional program that describes how to increase one’s ability to function effectively in social and business settings where interpersonal communication is required.

35.0109 **Interpersonal Social Skills, Other.** Any instructional program in interpersonal social skills not described above.

36. **Leisure and Recreational Activities.** A summary of groups of instructional programs that describe the development of an appreciation for and competency in recreational and leisure-related activities.

36.01 **Leisure and Recreational Activities.** A group of instructional programs  

36.0101 **Leisure and Recreational Activities, General.** An instructional program that generally describes the development of an appreciation for and competency in recreational and leisure-related activities.

36.0102 **Handicrafts and Model-Making.** An instructional program that describes the fashioning of objects of decoration, utility or representation from various materials, including related matters of research, tool use and appreciation.

36.0103 **Board, Card and Role-Playing Games.** An instructional program that describes the rules and techniques of participation and skill-building in competitive activities of skill or chance, such as board games, card games or role-playing activities.

36.0105 **Home Maintenance and Improvement.** An instructional program that describes the knowledge and skills associated with maintaining living space and related equipment and furnishings, as well as do-it-yourself repairs and improvement projects of varying complexity.

36.0106 **Nature Appreciation.** An instructional program that describes how to increase one’s understanding and knowledge of the natural environment in which we live, as well as techniques of wildlife observation and management.

36.0107 **Pet Ownership and Care.** An instructional program that describes how to increase one’s ability to care for domesticated animals kept for pleasure or work.
36.0108 **Sports and Exercise.** An instructional program that describes the rules and techniques of participation and skill-building in competitive physical activities, as well as non-competitive physical fitness programs.

36.0109 **Travel and Exploration.** An instructional program that describes particular geographic areas or phenomena, and provides opportunities for organized trips or tours, including related knowledge and skills.

36.0110 **Art.** An instructional program that describes the techniques and methods of creative self-expression in visual or plastic media, such as painting or sculpture.

36.0111 **Collecting.** An instructional program that describes the knowledge and techniques necessary for acquiring and maintaining personal collections of objects, such as autographs, stamps, models, specimens, vehicles and antiques.

36.0112 **Cooking and Other Domestic Skills.** An instructional program that describes the knowledge and skills related to food buying and preparation, home decoration, sewing and other domestic activities, either as hobbies or as routine tasks.

36.0113 **Computer Games and Programming Skills.** An instructional program that describes the knowledge and skills associated with creating, acquiring, maintaining and using computer hardware and software, as well as the playing of computer-based games.

36.0114 **Dancing.** An instructional program that describes the knowledge and skills related to recreational dance, such as square dancing, ballroom dancing, classical or modern dance.

36.0115 **Music.** An instructional program that describes the knowledge and skills associated with personal music appreciation, the playing of a musical instrument, singing or recreational composition.

36.0116 **Reading.** An instructional program that describes the activity of reading for pleasure, either alone or as part of a group experience.

36.0117 **Theater.** An instructional program that describes the knowledge and skills associated with participation in amateur theatrical productions, drama appreciation, and writing amateur plays.

36.0118 **Writing.** An instructional program that describes the knowledge and skills related to creative writing and poetry composition for pleasure or profit, including methods of publication.

36.0199 **Leisure and Recreational Activities, Other.** Any instructional program in leisure and recreational activities not described above.

37. **Personal Awareness and Self-Improvement.** A summary of groups of instructional programs that describe how to develop improved self-awareness, avoid stressful behavior and improve decision-making skills.

37.01 **Personal Awareness and Self-Improvement.** A group of instructional programs that describe how to develop improved self-awareness, avoid stressful behavior and improve decision-making skills.
37.0101 **Self-Awareness and Personal Assessment.** An instructional program that describes how to be aware of one’s feelings, to use methods of assessing one’s personal attributes and to be aware of how others perceive oneself.

37.0104 **Self-Esteem and Values Clarification.** An instructional program that describes the development of personal philosophies and ideas of self-worth, and how to apply such knowledge and skills in everyday circumstances.

37.0199 **Personal Awareness and Self-Improvement, Other.** Any instructional program in personnel awareness and self-improvement not described above.
Residency programs are designed to prepare medical doctors (M.D.), or osteopaths (D.O.), dentists (D.D.S., D.M.D.), and veterinarians (D.V.M.) for certification as practitioners of recognized specialties in their respective professions. These programs are approved and accredited by designated professional associations and require from one to five years to complete, depending on the program. Medical residencies usually require completion of an internship after the M.D. degree for program entry, while requirements vary for dentistry and veterinary programs. These programs are offered by professional schools, independent teaching hospitals and clinics, and other approved facilities.

Data on residency program enrollments and completions only partially collected and analyzed by the United States Department of Education. Should a residency program also result in an academic degree completion, such as an M.S. or Ph.D., that would properly be reported under one of the Clinical Sciences codes (51.0501, 51.1401, or 51.2501) in Series 51., rather than in a residency code located in Chapter V.

51.2901 **Aerospace Medicine Residency.** A residency training program that prepares physicians in the health care of operating crews and passengers of air and space vehicles, plus support personnel. Includes instruction in special conditions of physical and psychological stress, emergency medical procedures, adaptive systems and artificial environments.

51.2902 **Allergies and Immunology Residency.** A residency training program that prepares physicians in the delivery of skilled medical care to patients suffering from allergic, asthmatic and immunologic diseases. Requires completion of a prior program in internal medicine or pediatrics.

51.2903 **Anesthesiology Residency.** A residency training program that prepares physicians in the application of anesthesia for general and specialized surgery and obstetrics, critical patient care and the care of pain problems. Includes instruction in surgical procedures, current monitoring procedures, fluid therapy, pain management, diagnostic and therapeutic procedures outside the operating room and operating room safety. (see also 51.2910)

51.2904 **Blood Banking Residency.** A residency training program that prepares physicians in the medical, technical, research and administrative aspects of operating blood banks. Includes instruction in transfusion and transplantation procedures, logistics and the training and supervision of blood bank technicians.

51.2905 **Cardiology Residency.** A residency training program that prepares physicians in the natural history of cardiovascular disorders in adults and the diagnosis and treatment of diseases of the heart and blood vessels. Includes instruction in coronary care, diagnostic testing and evaluation, invasive and non-invasive therapies and pacemaker follow-up. Requires prior completion of a program in internal medicine. (see also 51.2945)
51.2906 **Chemical Pathology Residency.** A residency training program that prepares physicians in the development, operation and quality control of chemical pathology laboratories and the provision of support and consultative services to other physicians. Includes instruction in instrumentation, analysis, data processing and administration. Requires prior completion of a program in medical pathology.

51.2907 **Child/Pediatric Neurology Residency.** A residency training program that prepares physicians in the diagnosis and management of neurological disorders of the newborn infant, early childhood and adolescence. Requires training in adult neurology and prior partial completion of a program in pediatrics.

51.2908 **Child Psychiatry Residency.** A residency training program that prepares physicians in the diagnosis and treatment of mental, emotional and behavioral disorders of infancy, early childhood and adolescence. Requires completion of the initial segment of a program in psychiatry.

51.2909 **Colon and Rectal Surgery Residency.** A residency training program that prepares physicians in the surgical care of patients with anorectal and colonic diseases. Also includes instruction in diagnostic and therapeutic colonoscopy. Requires prior completion of a program in general surgery.

51.2910 **Critical Care Anesthesiology Residency.** A residency training program that prepares physicians in the administration of anesthesia to patients with acute, chronic or long-term illness and who have multiple organ system derangements. Includes instruction in high-risk and trauma procedures, respiratory therapy and biomedical engineering. Requires prior completion of a program in anesthesiology.

51.2911 **Critical Care Medicine Residency.** A residency training program that prepares physicians in the management of care for patients with acutely life-threatening conditions which may include multiple organ failure. Includes instruction in the management of critical care units, emergency procedures and post-discharge care of former critical care patients. Requires prior completion of a program in internal medicine.

51.2912 **Critical Care Surgery Residency.** A residency training program that prepares physicians in surgical procedures for patients with multiple trauma, critical illness, patients on life support and elderly or very young patients with disease complications. Requires full or partial prior completion of a program in general surgery or another surgical specialty.

------

**Dental/Oral Surgery Specialty.** (refer to 51.2801)

51.2913 **Dermatology Residency.** A residency training program that prepares physicians in the delivery of specialized care to patients with diseases of the skin, hair, nails and mucous membranes. Includes instruction in dermatologic surgical procedures, cutaneous allergies, sexually transmitted diseases, and diagnostic and therapeutic techniques.

51.2914 **Dermatopathology Residency.** A residency training program that prepares physicians in the clinical and microscopic diagnosis and analysis of skin diseases and disorders. Includes instruction in laboratory administration and the supervision and training of support personnel. Requires prior completion of a program in dermatology or pathology.
Diagnostic Radiology Residency. A residency training program that prepares physicians in the diagnostic use of roentgen, isotopic, ultrasound and other radiant energy imaging techniques. Includes instruction in intervention procedures, safety and imaging science and technology. (see also 51.2936, 51.2958, and 51.2959)

Emergency Medicine Residency. A residency training program that prepares physicians in the methods, procedures, and techniques of providing and managing immediate health care services. Includes instruction in the initial recognition, stabilization, evaluation and care of the acutely ill or injured patient; patient follow-up and referral; management of prehospital care; training and supervision of emergency medical personnel; emergency department management; medicolegal and ethical issues; and disaster planning.

Endocrinology and Metabolism Residency. A residency training program that prepares physicians in the diagnosis and treatment of diseases and disorders of the endocrine glands and metabolic system. Includes instruction in the diagnosis and care of diabetes, hypoglycemia, hormone disorders and sexual disfunction. Requires prior completion of a program in internal medicine. (see also 51.2946)

Family Medicine Residency. A residency training program that prepares physicians in the provision of regular and long-term care to individuals and family members. Includes instruction in comprehensive care and specialist referral, basic surgery, emergency medical procedures, diagnostic imaging and practice management.

Forensic Pathology Residency. A residency training program that prepares physicians in the performance of medical autopsies, the analysis of human remains and crime scenes, and the legal follow-up and responsibilities of public pathologists. Requires prior completion of a program in pathology.

Gastroenterology Residency. A residency training program that prepares physicians in the diagnosis and treatment of patients with digestive and other gastrointestinal disorders. Includes instruction in surgical procedures, cancer of the digestive system, nutrition and malnutrition and counseling the behavioral adjustment of patients with chronic problems. Requires prior completion of a program in internal medicine.

General Surgery Residency. A residency training program that prepares physicians in the care and treatment of diseases and disorders via invasive procedures and the etiology, pathogenesis, diagnosis and management of physical disorders. Includes instruction in clinical and operative skills, pre-operative and post-operative care, trauma management and endoscopic techniques. (see also 51.2912, 51.2923, 51.2933, 51.2942, 51.2950, 51.2953, 51.2962, and 51.2964)

Geriatric Medicine Residency. A residency training program that prepares physicians in the care and management of elderly patients in acute, ambulatory, community and long-term care settings, and the treatment of diseases and conditions associated with the aging process. Includes instruction in ethical and legal issues, behavioral aspects of illness, socioeconomic factors in care and rehabilitation therapies. Requires prior completion of a program in family medicine or internal medicine.

Hand Surgery Residency. A residency training program that prepares physicians in the investigation, preservation and restoration by medical, surgical or physical methods of all structures of the upper extremity which directly affect the
form and function of the limb, wrist and hand. Requires prior completion of a program in orthopedic surgery, plastic surgery or general surgery.

51.2924 **Hematology Residency.** A residency training program that prepares physicians in the mechanisms and therapy of diseases of the blood, including patient management, diagnostic tests, biopsies and other procedures. Requires prior completion of a program in internal medicine.

51.2925 **Hematological Pathology Residency.** A residency training program that prepares physicians in the laboratory and analytical procedures for studying all facets of hematologic and coagulation disorders. Includes instruction in the management of hematology laboratories. Requires prior completion of a program in pathology.

51.2926 **Immunopathology Residency.** A residency training program that prepares physicians in the diagnosis, treatment and laboratory management of immunologic diseases. Includes instruction in diagnostic surgical pathology, management of organ transplantation and immunotherapy. Requires prior completion of a program in pathology.

51.2927 **Infectious Disease Residency.** A residency training program that prepares physicians in the natural history, prevention and treatment of major infectious diseases, including sexually transmitted diseases, and the long-term management of patients. Includes instruction in epidemiology, identification and specimen collection techniques, quality assurance and cost containment. Requires prior completion of a program in internal medicine.

51.2928 **Internal Medicine Residency.** A residency training program that prepares physicians in the provision of general medical services to adult patients with a wide range of non-surgical clinical problems. Includes instruction in behavioral aspects of diseases, patient and family counseling and practice management.

51.2929 **Laboratory Medicine Residency.** A residency training program that prepares physicians in the principles and practices of applied medical research and related techniques, equipment, data systems and research design. Includes instruction in the management of medical laboratories in research and health care facilities.

51.2930 **Musculoskeletal Oncology Residency.** A residency training program that prepares physicians in the diagnosis and treatment of musculoskeletal neoplasia, and the application of cancer therapy regimes.

51.2931 **Neonatal-Perinatal Medicine Residency.** A residency training program that prepares physicians in the physiology of the normal neonate, the patho-physiology of the sick infant and the diagnosis and management of problems of the newborn infant. Requires prior completion of a program in pediatrics and obstetrics.

51.2932 **Nephrology Residency.** A residency training program that prepares physicians in the pathogenesis, natural history and management of congenital and acquired diseases of the kidney and urinary tract and renal diseases associated with systemic disorders. Includes instruction in organ transplantation and dialysis therapy. Requires prior completion of a program in internal medicine. (see also 51.2048)

51.2933 **Neurological Surgery/Neurosurgery Residency.** A residency training program that prepare physicians in the diagnosis, evaluation and treatment of disorders of
the central, peripheral and autonomic nervous systems, including their supporting systems and vascular supply; and the evaluation and treatment of pathological processes which modify function or activity of the nervous system, including the hypophysis. Includes instruction in critical care management and rehabilitation. Requires prior partial completion of a program in general surgery and another surgical specialty.

51.2934 Neurology Residency. A residency training program that prepares physicians in the diagnosis and non-surgical treatment of diseases and abnormalities affecting the nervous system and nerve tissue in adults. Requires prior partial completion of a program in internal medicine. (see also 51.2907)

51.2935 Neuropathology Residency. A residency training program that prepares physicians in the laboratory analysis of nerve tissues and the clinical diagnosis of neurological and neuromuscular diseases. Includes instruction in nerve biopsies and necropsies. Requires prior completion of a program in pathology.

51.2936 Nuclear Medicine Residency. A residency training program that prepares physicians in the diagnostic, therapeutic and investigational use of radionuclides. Includes instruction in imaging and non-imaging technologies and the design and development instrumentation, procedures and pharmaceutical. Requires prior partial completion of a program in radiology, pathology or internal medicine.

51.2937 Nuclear Radiology Residency. A residency training program that prepares physicians in the imaging by external detection of radionuclides and/or biodistribution by external detection of radionuclides for diagnosis of disease. Requires prior partial completion of a program in diagnostic radiology.

51.2938 Obstetrics and Gynecology Residency. A residency training program that prepares physicians in the diagnosis, prevention and treatment of diseases of women, especially those affecting the reproductive system, and the comprehensive care and treatment of women before, during and after childbirth.

51.2939 Occupational Medicine Residency. A residency training program that prepares physicians in the maintenance of the health of workers, the ability to perform work, the arrangements of work, and the physical and chemical environments of the workplace. Includes instruction in data collection and management and the administration and regulation of occupational medical services.

51.2940 Oncology Residency. A residency training program that prepares physicians in the etiology, epidemiology, diagnosis, treatment and therapeutic management of cancers and related clinical neoplastic diseases. Includes instruction in rehabilitation, supportive care and the administration of tumor boards. Requires prior completion of a program in internal medicine. (see also 51.2930, 51.2947 and 51.2958)

51.2942 Orthopedics/Orthopedic Surgery Residency. A residency training program that prepares physicians in the investigation, preservation, and restoration of the form and function of the extremities, spine and associated structures by medical, surgical and physical methods. Requires prior partial completion of a program in general surgery, internal medicine or pediatrics. (see also 51.2949)
Otolaryngology Residency. A residency training program that prepares physicians in the recognition and medical management of diseases, congenital anomalies, disorders and traumas of the head and neck, the air and food passages, and the organs of hearing and speech. Includes instruction in regional surgery. Requires prior partial completion of a program in general surgery.

Pathology Residency. A residency training program that prepares physicians in the clinical laboratory analysis and diagnosis of disease and anatomic abnormalities. Includes instruction in performing general autopsies, forensic medicine, laboratory management and quality control. (see also 51.2904, 51.2914, 51.2919, 51.2925, 51.2935 and 51.2959)

Pediatric Cardiology Residency. A residency training program that prepares physicians in the diagnosis and management of diseases and disorders of the cardiovascular and cardiopulmonary systems of infants, children and adolescents. Includes instruction in related public health and community medicine issues. Requires prior completion of a program in pediatrics.

Pediatric Endocrinology Residency. A residency training program that prepares physicians in the diagnosis and management of endocrine diseases and the regulation of hormone balance in childhood and adolescence. Requires prior completion of a program in pediatrics.

Pediatric Hemato-Oncology Residency. A residency training program that prepares physicians in the diagnosis and management of hematologic disorders and malignant diseases, including blood and bone marrow function, in infancy, childhood and adolescence. Requires prior completion of a program in pediatrics.

Pediatric Nephrology Residency. A residency training program that prepares physicians in the diagnosis and management of infants, children and adolescents with renal and genito-urinary problems, hypertension and disorders of body fluid physiology. Requires prior completion of a program in pediatrics.

Pediatric Orthopedics Residency. A residency training program that prepares physicians in the diagnosis, surgical and non-surgical treatment, and management of musculoskeletal diseases, abnormalities and trauma in infants, children and adolescents. Requires prior completion of a program in orthopedic surgery.

Pediatric Surgery Residency. A residency training program that prepares physicians in the diagnosis, evaluation and surgical treatment of diseases, disorders and trauma in infants and children. Requires prior completion of a program in general surgery.

Pediatrics Residency. A residency training program that prepares physicians in the comprehensive care and treatment of all aspects of human growth and development from conception through fetal life, infancy, childhood and adolescence, including preventive and therapeutic regimes. Includes instruction in behavioral aspects of illness, related family and community medicine issues, and emergency and critical care procedures. (see also 51.2945, 51.2946, 51.2947, 51.2948, 51.2949 and 51.2950)

Physical and Rehabilitation Medicine Residency. A residency training program that prepares physicians in the diagnosis, etiology, treatment, prevention and rehabilitation of neuromusculo-skeletal, cardiovascular, pulmonary and other system disorders common to patients of both sexes and all ages. Includes instruction in physiatric examinations, design and prescription of rehabilitation
strategies and the supervision of rehabilitation teams.

51.2953 **Plastic Surgery Residency.** A residency training program that prepares physicians in the repair, replacement and reconstruction of defects of form and function of the integument and its underlying musculoskeletal system, with emphasis on the craniofacial structures, the oropharynx, the hand, the breast and the external genitalia. Includes instruction in aesthetic as well as reconstructive surgery. Requires prior completion of a program in general surgery.

51.2954 **Preventive Medicine Residency.** A residency training program that prepares physicians in the investigation of and intervention in health and disease problems of communities and defined population groups, and the simulation of behaviors that promote good health. Includes instruction in biostatistics, epidemiology, environmental control, toxicology and the planning and administration of health programs and services. Requires prior or concurrent completion of a program in public health.

51.2955 **Psychiatry Residency.** A residency training program that prepares physicians in the diagnosis, treatment, and prevention of mental, emotional, behavioral and neurological disorders. Includes instruction in psychotherapy, family counseling, referral, clinical diagnosis, and practice management. Requires prior partial completion of a program in neurology and internal medicine, family medicine or pediatrics. (see also 51.2908)

51.2956 **Public Health Medicine Residency.** A residency training program that prepares physicians in the prevention, control and treatment of communicable and chronic diseases in communities and defined population groups, with emphasis on the administrative management of health care, sanitation and applied research services.

51.2957 **Pulmonary Disease Residency.** A residency training program that prepares physicians in pulmonary physiology and the treatment of lung diseases, pulmonary malignancies, related vascular diseases, respiratory disorders, diagnostic and therapeutic procedures, and pulmonary pathology. Requires prior completion of a program in internal medicine.

51.2958 **Radiation Oncology Residency.** A residency training program that prepares physicians in the use of ionizing radiation to treat patients with cancer and other diseases. Includes instruction in treatment planning, instrument design and operation, radiation physics and radiobiology.

51.2959 **Radioisotopic Pathology Residency.** A residency training program that prepares physicians in the use of radionuclides in the study of body fluids, excreta, or tissues quantified outside the body. Includes instruction in laboratory management and safety, quality control, instrumentation, isotope storage and in vitro analyses. Require prior completion of a program in pathology.

51.2960 **Rheumatology Residency.** A residency training program that prepares physicians in the diagnosis and treatment of patients with acute and chronic rheumatic diseases, diffuse connective tissue diseases, systemic and metabolic diseases and infections and complications following surgery. Requires prior completion of a program in internal medicine.

51.2961 **Sports Medicine Residency.** A residency training program that prepares physicians in the pathology and biomechanics of athletic injuries and the effects of injury on the athlete, including both physical and psychological manifestations.
Includes instruction in acute and chronic patient supervision, therapy and rehabilitation, and diagnostic procedures. Requires prior completion of a program in orthopedic surgery.

51.2962 Thoracic Surgery Residency. A residency training program that prepares physicians in the evaluation and surgical treatment of pulmonary, esophageal, mediastinal, chest wall, diaphragmatic and cardiovascular disorders. Includes instruction in bronchoscopy and esophagoscope. Requires prior completion of a program in general surgery.

51.2963 Urology Residency. A residency training program that prepares physicians in the diagnosis and treatment of diseases of the genitourinary tract in men and women, including renal transplantation, renal-vascular disease, oncology, infertility and endocrinology, stone disease and aerodynamics. Requires prior partial completion of a program in general surgery.

51.2964 Vascular Surgery Residency. A residency training program that prepares physicians in the surgical treatment of diseases and disorders of the arterial, venous and lymphatic circulatory systems and of the heart and thoracic aorta. Requires prior completion of all or a portion of a program in general surgery.

51.2999 Medical Residency Programs, Other. Any residency program in medicine not described above.

51.30 Veterinary Residency Programs. A group of instructional programs that prepare veterinarians in advanced clinical work in special areas of veterinary practice. Programs may lead to examination for board certification.

---------- Veterinary Medicine (D.V.M.). (refer to 51.24 Series)

---------- Veterinary Clinical Sciences (M.S., Ph.D.). (refer to 51.25 Series)

51.3001 Veterinary Anesthesiology. A residency training program that prepares veterinarians in the application of anesthesia for general and specialized surgery and obstetrics, critical animal care and the care of pain problems. Includes instruction in surgical procedures, current monitoring procedures, fluid therapy, pain management, diagnostic and therapeutic procedures outside the operating room, and operating room safety.

51.3002 Veterinary Dentistry. A residency training program that prepares veterinarians in the application of dental care procedures to the teeth, eating surfaces, and oral cavities of animals. Includes instruction in the prevention, diagnosis, and treatment of diseases and abnormalities of animal teeth and gums and related parts of the oral cavity; and related anatomical and physiological principles.

51.3003 Veterinary Dermatology. A residency training program that prepares veterinarians in the delivery of specialized care to animals with diseases of the skin, scales, feathers, hair, nails and mucous membranes. Includes instruction in dermatologic surgical procedures, cutaneous allergies, and diagnostic and therapeutic techniques.

51.3004 Veterinary Emergency and Critical Care Medicine. A residency training program that prepares veterinarians in the emergency treatment and management of care for animals with acutely life-threatening conditions which may include multiple organ failure. Includes instruction in the management of
critical care units, emergency procedures, and long-term care of critically
diseased animals.

51.3005 Veterinary Internal Medicine. A residency training program that prepares
veterinarians in the provision of general medical services to animals with a wide
range of non-surgical clinical problems. Includes instruction in behavioral aspects
of diseases, animal diagnosis, animal aging, and referral procedures.

51.3006 Laboratory Animal Medicine. A residency training program that prepares
veterinarians in the principles and practices of applied veterinary research and
related techniques, equipment, data systems and research design. Includes
instruction in the management of veterinary and other animal research
laboratories and health care facilities.

51.3007 Veterinary Microbiology. A residency training program that prepares
veterinarians in clinical applications of research on harmful microorganisms,
including viruses, and of the disease processes they induce in animals.

51.3008 Veterinary Nutrition. A residency training program that prepares veterinarians to
apply research on the chemical nature of food substances; the processes by
which animals ingest, digest, absorb, transport, utilize and excrete food and
nutrients; and their relation to animal behavior and health.

51.3009 Veterinary Ophthalmology. A residency training program that prepares
veterinarians in the diagnosis, prevention, and treatment of ophthalmic diseases
and disorders in animals, and related ocular pathology procedures. Includes
instruction in animal eye surgery.

51.3010 Veterinary Pathology. A residency training program that prepares veterinarians
in the clinical laboratory analysis and diagnosis of diseased animal tissues and
anatomic abnormalities. Includes instruction in performing general autopsies,
forensic medicine, laboratory management and quality control.

51.3011 Veterinary Practice. A residency training program that prepares veterinarians in
the provision of regular and long-term care to animals, health services to owners,
and the management of independent veterinary practices. Includes instruction in
comprehensive care and specialist referral, basic surgery, emergency medical
procedures, and diagnostic imaging.

51.3012 Veterinary Preventive Medicine. A residency training program that prepares
veterinarians in the investigation of and intervention in health and disease
problems of animal and related human communities; comparative medicine; and
animal public health. Includes instruction in biostatistics, epidemiology,
environmental control, toxicology and the planning and administration of animal
health programs and services.

51.3013 Veterinary Radiology. A residency training program that prepares veterinarians
in the use of radiologic imaging and therapies to diagnose and treat animal
diseases and health problems. Includes instruction in the use and handling of
equipment for radionuclide detection and application.

51.3014 Veterinary Surgery. A residency training program that prepares veterinarians in
the care and treatment of animal diseases and disorders via invasive procedures
and the etiology, pathogenesis, diagnosis and management of physical disorders.
Includes instruction in clinical and operative skills, pre-operative and
post-operative care, trauma management, endoscopic techniques, and
applications to large and small animal medicine.

51.3015 **Theriogenology.** A residency training program that prepares veterinarians in the diagnosis, prevention and treatment of diseases and health problems affecting the reproductive systems of animals, and the comprehensive care and treatment of parent animals, animal fetuses and newborn or newly hatched animals throughout the gestation period.

51.3016 **Veterinary Toxicology.** A residency training program that prepares veterinarians in the clinical application of research on the nature and extent of adverse effects of synthetic and naturally occurring chemical substances on animals. Includes instruction in chemical mechanisms and the specialties of reproductive, developmental, genetic, forensic, inhalation and neurobehavioral toxicology.

51.3017 **Zoological Medicine.** A residency training program that prepares veterinarians in the specialized treatment and care of zoo animals, performing animals, and animals living in the wild. Includes instruction in the principles and procedures used in the observation, diagnosis, care and treatment of illness, disease, injury, deformity, or other anomalies in non-domesticated animals.

51.3099 **Veterinary Residency Programs, Other.** Any residency training program in veterinary medicine not described above.
CHAPTER VII
HIGH SCHOOL/SECONDARY DIPLOMA AND CERTIFICATE PROGRAMS

The codes listed in Chapter VI describe formal instructional programs of study at the high school level only. Data on completions and awards in the Series 53. codes are annually collected and analyzed by the United States Department of Education.

High school/secondary awards that do not reflect completion of an instructional program, such as certificates of attendance, are not described in the Classification of Instructional Programs.

Regular High School Diplomas, regardless of type, represent the successful completion of 16 or more prescribed Carnegie Units of instruction. (Each Carnegie Unit equals one academic year of instruction in a specific subject matter area, at approximately one instructional hour per school day.)

Depending on state policy, secondary students enrolled in vocational and other programs may receive more than one completion award. In states offering separate vocational diplomas, individuals receiving recognized vocational diplomas will also have completed a regular secondary academic program, and will be simultaneously certified in both. Other states do not offer a separate secondary vocational diploma, but either offer a certificate of completion in specified vocational programs or program areas, or make no distinction at all.

Proficiency in specific academic subject matter areas is also certified in some states by the simultaneous award of a regular secondary diploma and certification of competence in one or more specific programs or program areas. Other states award separate college preparatory diplomas to those students completing specified credits in academic subjects. In addition, a few states award honors or regents diplomas that certify outstanding scholastic performance in either academic or vocational programs.

State policy also determines the treatment of completions and awards in the area of special education. Under the authority of P.L. 94-142, all handicapped students in the United States under age 21 must have an Individualized Education Plan (IEP), which specifies the knowledge and skills that the student is expected to achieve. Some states implement this National requirement by awarding a regular secondary diploma to students who successfully complete their IEP requirements, without regard to the standard Carnegie Unit requirements of such diplomas. Other states award certificates of IEP completion along with attendance certificates, but not diplomas. Still others do not formally recognize IEP completions, and do not separately distinguish special education students receiving any kind of award.

It is also possible to be certified to have met diploma requirements without having attended a traditional or recognized secondary school, or having completed a program, either by examination or by official acceptance of credentials earned outside the United States.

53. High School/Secondary Diplomas and Certificates. A summary of groups of instructional programs that describe the requirements for high school/secondary graduation.

53.01 High School/Secondary Diplomas. A group of instructional programs that describe prescribed programs of study leading to high school/secondary graduation.

53.0101 Regular High School Diploma. An instructional program that describes prescribed minimum requirements specified by a state or other jurisdiction for high school/secondary school graduation.

53.0102 College Preparatory High School Diploma. An instructional program that describes prescribed requirements, specified by a state or other jurisdiction, for high school/secondary school graduation in a program of academic subject matter designed to meet typical college entrance requirements.
53.0103 Vocational High School Diploma. An instructional program that describes prescribed requirements, specified by a state or other jurisdiction, for high school/secondary school graduation in a vocational program -- together with other required subject matter, and that may prepare individuals for specific occupations.

53.0104 Honors/Regents High School Diploma. An instructional program that describes prescribed requirements, specified by a state or other jurisdiction, for high school/secondary school graduation in an academic or vocational program at a stated level of outstanding scholastic performance, or via meeting special requirements beyond the minimum.

53.0199 High School/Secondary Diplomas, Other. Any high school/secondary diploma program not described above, such as diplomas awarded to special education students for completion of an individualized education plan (IEP).

53.02 High School/Secondary Certificates. A group of instructional programs that describe the requirements for successful completion of specified portions of high school/secondary diploma programs.

53.0201 High School Equivalence Certificate. An instructional program that describes the requirements for meeting the minimum high school/secondary graduation requirements specified by a state or other jurisdiction, either by obtaining a prescribed passing score on the national General Educational Development Test (GED), or by satisfactory completion of prescribed coursework, or both.

53.0202 High School Certificate of Competence. An instructional program that describes the requirements for meeting specified performance standards in academic or vocational program areas, as prescribed by a state or other jurisdiction, corresponding to a portion of a high school/secondary diploma program. Includes such requirements as passing a state-mandated academic achievement test, completing specified requirements for subject-matter competence, or achieving a specified high level of performance, and may be awarded independently or in conjunction with a high school/secondary diploma.

53.0203 Certificate of IEP Completion. An instructional program that describes the requirements for meeting specified goals pertaining to an Individual Educational Program established by a local school system under the authority of a state or other jurisdiction. Specific content varies by student and may or may not equal a regular high school/secondary school program.

53.0299 High School/Secondary Certificates, Other. Any certificate program at the high school/secondary instructional level not described above.
APPENDIX A

CROSSWALK CHART FROM 1990 CODE NUMBERS AND TITLES TO 1985 CODE NUMBERS AND TITLES

NOTE: This chart is keyed to 1990 CIP code numbers and titles. 1985 codes are grouped according to the 1990 codes they correspond to. Corresponding codes are located on the same lines, except where a single 1990 code replaces several 1985 codes. In such cases, all 1985 codes are grouped together, and this is indicated in both columns by spacing. Where a 1990 code is new, there is a blank space across from it in the 1985 column.

GLOSSARY OF TERMS AND ABBREVIATIONS

Terms Used in the CIP:

ACADEMIC PROGRAM. Instructional program of a professional or non-occupationally specific nature leading toward an associate’s, bachelor’s, master’s, doctor’s, or first-professional degree or resulting in credits that can be applied to one of these degrees.

ASSOCIATE’S DEGREE. An award that normally requires at least 2 but less than 4 years of full-time equivalent college work.

AVOCATIONAL PROGRAMS. Instructional programs in personal interest and leisure categories whose expressed intent is not to produce postsecondary credits, nor to lead to a formal award or an academic degree, nor result in occupationally specific skills.

BACHELOR’S DEGREE. An award that normally requires at least 4 but not more than 5 years of full-time equivalent college-level work. This includes ALL bachelor’s degrees conferred in a COOPERATIVE or WORK STUDY PLAN or PROGRAM. A cooperative plan provides for alternate class attendance and employment in business, industry, or government; thus, it allows the student to combine actual work experience with college studies. Also includes bachelor’s degrees in which the normal 4 years of work is completed in 3 years.

CERTIFICATE. A formal award certifying the satisfactory completion of a postsecondary education program.

CIP (CLASSIFICATION OF INSTRUCTIONAL PROGRAMS). NCES publication that classifies instructional programs by standard terminology for curriculum and instruction in local and State school systems and postsecondary institutions.

CREDIT. Recognition of attendance and/or performance in an instructional activity (course or program) that can be applied by a recipient to requirements for a degree, diploma, certificate, or other formal award.

DEGREE. An award conferred by a college, university, or other postsecondary educational institution as official recognition for the successful completion of a program of studies.

DIPLOMA. A formal document certifying the successful completion of a prescribed program of studies.

DOCTOR’S DEGREE. An award that requires work at the graduate level and terminates in a doctor’s degree. The doctor’s degree classification includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and the Doctor of Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology. For the Doctor of Public Health degree, the
prior professional degree is generally earned in the closely related professional field of medicine or of sanitary engineering.

**FIRST-PROFESSIONAL CERTIFICATE (POST-DEGREE).** An award that requires completion of an organized program of study designed for persons who have completed the first-professional degree. Examples could be refresher courses, or additional units of study in a specialty or subspecialty.

**FIRST-PROFESSIONAL DEGREE.** An award that requires completion of a program that meets all of the following criteria: (1) completion of the academic requirements to begin practice in the profession; (2) at least 2 years of college work before entrance to the program; and (3) a total of at least 6 academic years of college work to complete the degree program, including prior required college work plus the length of the professional program itself.

First-professional degrees may be awarded in the following 10 fields:

- Chiropractic (D.C., D.C.M.)
- Pharmacy (B. Pharm., Pharm. D.)
- Dentistry (D.D.S., D.M.D.)
- Podiatry (Pod.D., D.P., D.P.M.)
- Medicine (M.D.)
- Veterinary Medicine (D.V.M.)
- Optometry (O.D.)
- Law (L.L.B., J.D.)
- Osteopathic Medicine (D.O.)
- Divinity/Ministry (B.D., M.Div.)
- Rabbinical and Talmudic Studies (M.H.L., Rav)

**HIGH SCHOOL DIPLOMA OR RECOGNIZED EQUIVALENT.** A document certifying the successful completion of a prescribed secondary school program of studies, or the attainment of satisfactory scores on the Tests of General Educational Development (GED) or another State specified examination.

**JOB TRAINING PARTNERSHIP ACT (JTPA).** Legislation effective beginning Federal fiscal year 1984, enabling Private Industry Councils (PICs) in service areas defined within each State to support job training programs. Provisions of the legislation deal with the authority of the councils, the range of allowable programs, and special populations to be served.

**MASTER’S DEGREE.** An award that requires the successful completion of a program of study of at least the full-time equivalent of 1 but not more than 2 academic years of work beyond the bachelor’s degree.

**OCCUPATIONALLY SPECIFIC INSTRUCTIONAL PROGRAM.** Instructional programs whose expressed intent is to impart work-related knowledge and skills at the secondary and postsecondary levels. The term has been historically applied to vocational programs offered in grades 11 and 12 at the secondary level, and to postsecondary vocational and technical education programs at the sub-baccalaureate level. The concept, however, applies to any program designed to prepare individuals for work at any level, and thus encompasses baccalaureate and postbaccalaureate programs related to professional education.

**POSTBACCALAUREATE CERTIFICATE.** An award that requires completion of an organized program of study requiring 30 credit hours beyond the bachelor’s; designed for
persons who have completed a baccalaureate degree, but do not meet the requirements of academic degrees carrying the title of master.

**POST-MASTER’S CERTIFICATE.** An award that requires completion of an organized program of study of 60 credit hours beyond the master’s degree, but does not meet the requirements of academic degrees at the doctor’s level.

**POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (LESS THAN ONE ACADEMIC YEAR).** Requires completion of an organized program of study at the postsecondary level in less than 1 academic year (2 semesters or 3 quarters) or in less than 900 contact hours by a student enrolled full-time.

**POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (AT LEAST ONE BUT LESS THAN TWO ACADEMIC YEARS).** Requires completion of an organized program of study at the postsecondary level in at least 1 but less than 2 full-time equivalent academic years, or designed for completion in at least 30 but less than 60 credit hours, or in at least 900 but less than 1,800 contact hours.

**POSTSECONDARY AWARDS, CERTIFICATES OR DIPLOMAS (AT LEAST TWO BUT LESS THAN FOUR ACADEMIC YEARS).** Requires completion of an organized program of study at the postsecondary level in at least 2 but less than 4 full-time equivalent academic years, or designed for completion in at least 60 but less than 120 credit hours, or in at least 1,800 but less than 3,600 contact hours.

**POSTSECONDARY EDUCATION.** The provision of a formal instructional program whose curriculum is designed primarily for students who have completed the requirements for a high school diploma or its equivalent. This includes programs whose purpose is academic, vocational, and continuing professional education, and excludes avocational and adult basic education programs.

**PROGRAM.** A combination of courses and related activities organized for the attainment of broad educational objectives described by the institution.

**PROGRAM CATEGORY.** A summary of groups of related instructional programs designated by the first 2 digits of its appropriate CIP code.

**PROGRAM SPECIALTY.** A specific instructional program that can only be identified by a 6-digit CIP code.

**PROGRAM WITH NO FORMAL AWARD.** Any formally organized program with stated occupational objectives and well defined completion requirements that does not lead to a formal award.
