9=Don't know

Applies to:

Second follow-up respondents who reported applying to at least two colleges (i.e., S4CLGAPPNUM > 1).

Notes:

Please note that the series of questions on college applications includes registrations at open enrollment institutions. These questions pertain only to the first round of applications the student submitted. For example, if a student transferred from one institution to another, the application for the transfer institution would not be included. Additionally, students were able to report up to 3 institutions (the institution they attended, if applicable, and two others). Therefore, for some students the college application data do not reflect all of the institutions they applied to. In these cases, respondents were instructed to select the ones that they most seriously considered attending. See X4CLGAPPNUM for the number of institution the student applied to and X4ATNDAPPINST for indication of whether they ended up attending one of the institutions as a result of these applications.
