Teacher *Questionnaire*

Your school has agreed to participate in the IEA Progress in International Reading Literacy Study (PIRLS), an educational research project sponsored by the International Association for the Evaluation of Educational Achievement (IEA). PIRLS is investigating children's reading literacy in about 40 countries around the world. It is designed to measure and interpret differences in national education systems in order to help improve the teaching and learning of reading worldwide.

This questionnaire is addressed to teachers of <fourth-grade> students, who are asked to supply information about their academic and professional backgrounds, classroom resources, and the instructional materials and activities used to teach reading and promote the development of students' reading skills and strategies. Since your class has been selected as part of a nationwide sample, your responses are very important in helping to describe reading education in <country>.

Some of the questions in this questionnaire refer to "this class." This is the class which is identified on the front of this booklet, and which will be tested as part of PIRLS in your school.

Since PIRLS is an international study and all countries are using the same questionnaire, you may find that some of the questions seem unusual or are not entirely relevant to you or schools in <country>. Nevertheless, it is important that you do your best to answer all of the questions so comparisons can be made across countries in the study.

It is estimated that it will require approximately 30 minutes to complete this questionnaire. We appreciate the time and effort that this takes and thank you for your cooperation and your contribution.

When you have completed the questionnaire, please place it in the accompanying envelope and return it to:

<Insert country-specific information here>.

Thank You.
