
MP3 PLAYER

Question 3: MP3 PLAYER

CP043Q03

The bottom row of the MP3 player shows the settings that you have chosen. Decide whether each of the following statements about the MP3 player is true or false. Select “True” or “False” for each statement to show your answer.

Statement	True or False?	
You need to use the middle button (⊙) to change the type of music.	True	False
You have to set the volume before you can set the bass level.	True	False
Once you have increased the volume, you can only decrease it if you change the type of music you are listening to.	True	False
