<sup>1</sup> In the 2021-22 survey year, procedures for keeping NCES IDs for inactive schools on the PSS universe file from which this methodological data file is derived changed. Prior to 2021-22, NCES IDs from schools that were inactive in previous survey years were dropped from the universe file after a period of sustained inactivity. Beginning with the 2021-22 universe file, NCES IDs for inactive schools are kept in the universe file to facilitate reactivation should the school become active or in-scope for the PSS in future survey years.
