Jeffersonville, IN 47132-0001**

Dear Principal/Headmaster/Headmistress:

The National Center for Education Statistics of the U.S. Department of Education, requests your participation in the Private Schools Survey. The purpose of this data collection effort is to obtain current information about private schools including: the type of school, length of school year, the number of students and teachers, and the number of high school graduates, if any. The data will be used to develop a profile of the providers of private education in the United States.

Private schools are a significant segment of the Nation's educational system. Results from previous surveys have shown that approximately 25 percent of all elementary and secondary schools in the United States are private and that these schools enroll approximately 12 percent of the Nation's children and employ 12 percent of the Nation's teachers. The National Center for Education Statistics has instituted this survey in recognition of the importance of private education in the United States.

The U.S. Bureau of the Census is collecting these data for the National Center for Education Statistics by the authority of Sections 406(b) and (c) of the General Education Provisions Act, as amended (20 U.S.C. 1221e-1).

While there is no penalty for not responding, a high response rate is very important to the success of the survey. I, therefore, encourage you to participate in this voluntary effort by completing this questionnaire and returning it within 3 weeks to the **Bureau of the Census, Current Projects Branch, 1201 East 10th Street, Jeffersonville, IN 47132-0001**, in the preaddressed envelope enclosed for your convenience.

I thank you for your cooperation in this very important effort.

Sincerely,

EMERSON J. ELLIOTT
Acting Commissioner
National Center for Education Statistics
