According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0695. The time required to complete this information collection is estimated to average 30 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving the form, please write to: U.S. Department of Education, Washington, D.C. 20202-4651. If you have comments or concerns regarding the status of your individual submission of this form, write directly to: National Center for Education Statistics, U.S. Department of Education, 1990 K St., N.W. Washington, D.C. 20006-5650.
General Directions

Your school has kindly agreed to participate in TIMSS 2007, a large international study of student learning in mathematics and science in more than 60 countries around the world. Sponsored by the International Association for the Evaluation of Educational Achievement (IEA), TIMSS (Trends in International Mathematics and Science Study) is measuring trends in student achievement and studying differences in national education systems in order to help improve the teaching and learning of mathematics and science worldwide.

As part of the study, students in a nationwide sample of fourth-grade classes in the United States will complete the TIMSS mathematics and science tests. This questionnaire is addressed to teachers who teach mathematics and science to these students, and seeks information about teachers’ academic and professional background, instructional practices, and attitudes toward teaching mathematics and science. As a teacher of the students participating in TIMSS, your responses to these questions are very important in helping to describe mathematics and science education in the United States.

Some of the questions in this questionnaire refer to teaching mathematics and teaching science to the students participating in TIMSS 2007. If you teach both mathematics and science to the students in the TIMSS class, please complete the entire questionnaire. If you teach only mathematics or only science to these students, you will be guided to the appropriate sections to complete.

Please set aside a time and place where you will be able to complete this questionnaire without being interrupted. This should require no more than 45 minutes. To make it as easy as possible for you to respond, most questions may be answered simply by checking or filling in the appropriate circle.

Once you have completed the questionnaire, place it in the return envelope provided and return it to: The School Coordinator

Thank you very much for the time and effort you have put into responding to this questionnaire.
Teacher Background Information
To Be Completed By All Teachers

1

How old are you?

Fill in one circle only

Under 25 - 1

25–29 - 2

30–39 - 3

40–49 - 4

50–59 - 5

60 or older - 6

2

Are you female or male?

Fill in one circle only

Female - 1

Male - 2

3

By the end of this school year, how many years will you have been teaching altogether? Do not include substitute or student teaching.

Number of years you have taught full time

Number of years you have taught part time

4

Do you have a teaching license or certificate?

Fill in one circle only

Yes - 1

No - 2

5

What is the highest level of formal education you have completed?

Fill in one circle only

Did not complete high school - 1

Completed high school - 2

Completed a vocational/technical certificate after high school - 3

Completed an Associate's degree (AA) in a vocational/technical program - 4

Completed an academic Associate's or Bachelor's degree - 5

Completed an academic Master's degree, postgraduate certificate program (e.g., teaching) or first professional degree (e.g., law, medicine, dentistry) - 6

Completed a doctorate (Ph.D. or Ed.D) - 7

6

A. During your college or university education, what was your major or main area(s) of study?

Fill in one circle for each row

No

Minor

Major

a) Education - Primary/Elementary - 1

b) Education - Secondary - 2

c) Education - Other - 3

d) Mathematics - 4

e) Science - 5

f) Other - 6

B. If your major or main area of study was education, did you have a specialization in any of the following?

Fill in one circle for each row

No

Yes

a) Mathematics - 1

b) Science - 2

c) Language/reading - 3

d) Other subject - 4
About Your School
To Be Completed By All Teachers

7

How often do you have the following types of interactions with other teachers?

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Daily or almost daily</th>
<th>1-3 times per week</th>
<th>Never or almost never</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Discussions about how to teach a particular concept</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>b) Working on preparing instructional materials</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>c) Visits to another teacher’s classroom to observe his/her teaching</td>
<td>1</td>
<td>2</td>
</tr>
<tr>
<td>d) Informal observations of my classroom by another teacher</td>
<td>1</td>
<td>2</td>
</tr>
</tbody>
</table>

8

Thinking about your current school, indicate the extent to which you agree or disagree with each of the following statements about your school.

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Disagree a lot</th>
<th>Disagree</th>
<th>Agree</th>
<th>Agree a lot</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) This school is located in a safe neighborhood</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>b) I feel safe at this school</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
<tr>
<td>c) This school’s security policies and practices are sufficient</td>
<td>1</td>
<td>2</td>
<td>3</td>
</tr>
</tbody>
</table>

9

In your current school, how severe is each problem?

Fill in one circle for each row

Serious problem

<table>
<thead>
<tr>
<th>Minor problem</th>
<th>Not a problem</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) The school building needs significant repair</td>
<td>1</td>
</tr>
<tr>
<td>b) Classrooms are overcrowded</td>
<td>1</td>
</tr>
<tr>
<td>c) Teachers do not have adequate workspace outside their classroom</td>
<td>1</td>
</tr>
<tr>
<td>d) Materials are not available to conduct experiments or projects</td>
<td>1</td>
</tr>
</tbody>
</table>

10

How would you characterize each of the following within your school?

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Very low</th>
<th>Low</th>
<th>Medium</th>
<th>High</th>
<th>Very high</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Teachers’ job satisfaction</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>b) Teachers’ understanding of the school’s curricular goals</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>c) Teachers’ degree of success in implementing the school’s curriculum</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>d) Teachers’ expectations for student achievement</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>e) Parental support for student achievement</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>f) Parental involvement in school activities</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>g) Students’ regard for school property</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>h) Students’ desire to do well in school</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>
About Teaching Mathematics

If you do not teach mathematics to students in the class identified on the cover of this questionnaire, proceed to Question 28. If you do teach mathematics to students in the class identified on the cover of this questionnaire, please continue.

How well prepared do you feel you are to teach the following mathematics topics?

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Not well prepared</th>
<th>Somewhat prepared</th>
<th>Very well prepared</th>
<th>Not applicable</th>
</tr>
</thead>
</table>

A. Number

a) Whole numbers including place value and ordering
b) Adding, subtracting, multiplying and/or dividing with whole numbers
c) Fractions (parts of a whole or a collection, location on a number line)
d) Fractions represented by words, numbers, or models
e) Comparing and ordering fractions
f) Adding and subtracting with fractions
g) Adding and subtracting with decimals
h) Number sentences (finding the missing number, modeling simple situations with number sentences)
i) Number patterns (extending number patterns and finding missing terms)
j) Relationships between given pairs of whole numbers

B. Geometric Shapes and Measures

a) Comparing and drawing angles
b) Elementary properties of common geometric shapes
c) Relationships between two-dimensional and three-dimensional shapes
d) Finding areas and perimeters
e) Estimating areas and volumes
f) Using informal coordinate systems to locate points in a plane
g) Reflections and rotations

C. Data Display

a) Reading data from tables, pictographs, bar graphs, or pie charts
b) Drawing conclusions from data displays
c) Displaying data using tables, pictographs, bar graphs, or pie charts
Teaching Mathematics to the TIMSS Class

Questions 12-26 refer to the TIMSS class. Remember, “the TIMSS class” is the class which is identified on the cover of this questionnaire, and which will be tested as part of TIMSS 2007 in your school.

12
A. How many students are in the TIMSS class for mathematics?

Write in the number of students

B. How many students in Question 12A are in the fourth grade?

Write in the number of fourth grade students

13
How many minutes per week do you teach mathematics to the fourth-grade students in the TIMSS class?

Write in the number of minutes per week

14
A. Do you use a textbook(s) in teaching mathematics to the fourth-grade students in the TIMSS class?

Fill in one circle only

Yes

No

If No, please go to question 15

B. How do you use a textbook(s) in teaching mathematics to the fourth-grade students in the TIMSS class?

Fill in one circle only

As the primary basis for my lessons

As a supplementary resource

15
In a typical week of mathematics lessons for the fourth-grade students in the TIMSS class, what percentage of time do students spend on each of the following activities?

Write in the percent
The total should add to 100%

a) Reviewing homework

b) Listening to lecture-style presentations

c) Working problems with your guidance

d) Working problems on their own without your guidance

e) Listening to you re-teach and clarify content/procedures

f) Taking tests or quizzes

g) Participating in classroom management tasks not related to the lesson’s content/purpose (e.g., interruptions and keeping order)

h) Other student activities

Total

100%
16

Are the fourth-grade students in the TIMSS class permitted to use calculators during mathematics lessons?

Fill in one circle only

- Yes, with unrestricted use - 1
- Yes, with restricted use - 2
- No, calculators are not permitted - 3

If No, please go to question 18

17

How often do the fourth-grade students in the TIMSS class use calculators in their mathematics lessons for the following activities?

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Activity</th>
<th>Never</th>
<th>Some lessons</th>
<th>About half the lessons</th>
<th>Every or almost every lesson</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Check answers</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>1</td>
</tr>
<tr>
<td>b) Do routine computations</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>2</td>
</tr>
<tr>
<td>c) Solve complex problems</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>3</td>
</tr>
<tr>
<td>d) Explore number concepts</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>4</td>
</tr>
</tbody>
</table>

18

A. Do the fourth-grade students in the TIMSS class have computer(s) available to use during their mathematics lessons?

Fill in one circle only

- Yes - 1
- No - 2

If No, please go to question 20

B. Do any of the computer(s) have access to the Internet?

Fill in one circle only

- Yes - 1
- No - 2

19

In teaching mathematics to the fourth-grade students in the TIMSS class, how often do you have students use a computer for the following activities?

Fill in one circle for each row

<table>
<thead>
<tr>
<th>Activity</th>
<th>Never</th>
<th>Some lessons</th>
<th>About half the lessons</th>
<th>Every or almost every lesson</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Discover mathematics principles and concepts</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>1</td>
</tr>
<tr>
<td>b) Practice skills and procedures</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>2</td>
</tr>
<tr>
<td>c) Look up ideas and information</td>
<td>-</td>
<td>-</td>
<td>-</td>
<td>3</td>
</tr>
</tbody>
</table>

Teacher Questionnaire

Grade 4
By the end of this school year, approximately what percentage of teaching time will you have spent during this school year on each of the following mathematics content areas for the fourth-grade students in the TIMSS class?

Write in the percent
The total should add to 100%

a) Number (includes computation with whole numbers, fractions, decimals and number patterns)  

b) Geometric Shapes and Measures (includes two- and three-dimensional shapes, length, area and volume)  

c) Data Display (includes reading, making, and interpreting tables and graphs)  

d) Other, please specify:  

Total 100%
The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the fourth-grade students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

<table>
<thead>
<tr>
<th>Not yet taught or just introduced</th>
<th>Mostly taught before this year</th>
<th>Mostly taught this year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fill in one circle for each row</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### A. Number

- **a)** Representing whole numbers using words, diagrams, or symbols
- **b)** Whole numbers including place value and ordering
- **c)** Computation with whole numbers
- **d)** Multiples and factors of numbers
- **e)** Estimation with whole numbers
- **f)** Problems involving proportions
- **g)** Fractions (parts of a whole or a collection, location on a number line)
- **h)** Equivalent fractions
- **i)** Comparing and ordering simple fractions
- **j)** Fractions represented by words, numbers, or models
- **k)** Adding and subtracting simple fractions
- **l)** Decimal place value including writing decimals using words and numbers
- **m)** Adding and subtracting with decimals
- **n)** Finding the missing number in a number sentence (e.g., if 17 + ___ = 29, what number would go in the blank to make the number sentence true?)
- **o)** Model simple situations involving unknowns with expressions or number sentences
- **p)** Extending patterns and finding missing terms in them
- **q)** Describing relationships between adjacent terms in a sequence
- **r)** Generating pairs of numbers following a given rule (e.g., multiply the first number by 3 and add 2 to get the second number)
- **s)** Finding a rule for a relationship given some pairs of numbers which satisfy the relationship
The following list includes the main topics addressed by the TIMSS mathematics test. Choose the response that best describes when the fourth-grade students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

<table>
<thead>
<tr>

**How well prepared do you feel to teach the following science topics?**

*Fill in one circle for each row*

<table>
<thead>
<tr>
<th>Not well prepared</th>
<th>Somewhat prepared</th>
<th>Very well prepared</th>
<th>Not applicable</th>
</tr>
</thead>
</table>

### A. Life Science

- **a)** Major body structures and their functions in humans and other organisms (plants and animals)  
  
- **b)** Reproduction and development in plants and animals (passing on of general characteristics; life cycles of familiar organisms)

- **c)** Physical features, behavior, and survival of organisms living in different environments

- **d)** Relationships in a living community (e.g., simple food chains, predator-prey relationships)

- **e)** Changes in environments (effects of human activity, pollution and its prevention)

- **f)** Human health (e.g., transmission/prevention of communicable diseases, signs of health/illness, diet, exercise)

### B. Physical Science

- **a)** Classification of objects/materials based on physical properties (e.g., mass, shape, volume, color, hardness, texture, heat/electrical conductivity, magnetic attraction)

- **b)** Forming and separating mixtures

- **c)** States of matter (solids, liquids, gases) and differences in their physical properties (shape, volume), including changes in state of matter by heating and cooling (melting, freezing, boiling, evaporating, condensation)

- **d)** Familiar changes in materials (e.g., decaying of animal/plant matter, burning, rusting, cooking)

- **e)** Common energy sources/forms and their practical uses (e.g., wind, sun, electricity, burning fuel, moving water, food)

- **f)** Light (e.g. sources and behavior)

- **g)** Electrical circuits

- **h)** Properties of magnets

- **i)** Forces that cause objects to move (e.g., gravity, push/pull forces)

### C. Earth Science

- **a)** Features of Earth's landscape (e.g., mountains, plains, rivers, deserts)

- **b)** Water on Earth (location, types, and movement)

- **c)** Air (composition, proof of its existence, uses, and importance for supporting life)

- **d)** Common features of Earth's landscape (e.g., mountains, plains, rivers, deserts) and relationship to human use (e.g., farming, irrigation, land development)

- **e)** Weather conditions from day to day or over the seasons

- **f)** Fossils of animals and plants (age, formation)

- **g)** Earth's solar system (planets, sun, moon)
Teaching Science to the TIMSS Class

Questions 29-40 refer to the TIMSS class. Remember, “the TIMSS class” is the class which is identified on the cover of this questionnaire, and which will be tested as part of TIMSS 2007 in your school.

29

A. How many students are in the TIMSS class for science?

Write in the number of students

B. How many students in Question 29A are in the fourth grade?

Write in the number of fourth grade students

30

Is science taught mainly as a separate subject (i.e., not integrated with other subjects) to the fourth-grade students in the TIMSS class?

Fill in one circle only - -------------

If No, please go to question 33

A. If YES...

How many minutes per week do you teach science to the fourth-grade students in the TIMSS class?

Write in the number of minutes per week

B. If NO...

Please estimate the number of minutes per week that you spend on science topics with the fourth-grade students in the TIMSS class.

Write in the number of minutes per week

31

A. Do the fourth-grade students in the TIMSS class have computer(s) available to use when you are teaching science? Do not include calculators.

Yes

No

Fill in one circle only - -------------

If No, please go to question 33

B. Do any of the computer(s) have access to the Internet?

Yes

No

Fill in one circle only - -------------

32

In teaching science to the fourth-grade students in the TIMSS class, how often do you have students use a computer for the following activities?

Fill in one circle for each row

Never

Some lessons

About half the lessons

Every or almost every lesson

a) Do scientific procedures or experiments

b) Study natural phenomena through simulations

c) Practice skills and procedures

d) Look up ideas and information
In teaching science to the fourth-grade students in the TIMSS class, how often do you usually ask them to do the following?

35

A. Do you use a textbook(s) in teaching science to the fourth-grade students in the TIMSS class?

Fill in one circle only

- Yes
- No

If No, please go to question 36

B. How do you use a textbook(s) in teaching science to the fourth-grade students in the TIMSS class?

Fill in one circle only

- As the primary basis for my lessons
- As a supplementary resource

By the end of this school year, approximately what percentage of teaching time will you have spent during this school year on each of the following science content areas for the fourth-grade students in the TIMSS class?

Write in the percent
The total should add to 100%

a) Life science (includes environmental issues)  

b) Physical science (includes topics in physics and chemistry)  

c) Earth science (includes Earth and the solar system)  

d) Other, please specify:  

Total 100%
The following list includes the main topics addressed by the TIMSS science test. Choose the response that best describes when the fourth-grade students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

**Fill in one circle for each row**

### Not yet taught or just introduced

<table>
<thead>
<tr>
<th>Mostly taught before this year</th>
<th>Mostly taught this year</th>
</tr>
</thead>
</table>

**A. Life Science**

- **a)** Types, characteristics, and classification of living things
- **b)** Major body structures and their function in humans and other organisms (plants and animals)
- **c)** General steps in the life cycle of familiar organisms (e.g., humans, butterflies, frogs, plants)
- **d)** Plant and animal reproduction (passing on of general characteristics)
- **e)** Physical features, behavior, and survival of plants and animals in different environments
- **f)** Bodily actions in response to outside conditions (e.g., heat, cold, danger) and activities (e.g., exercise)
- **g)** Energy requirements of plants and animals (energy from the sun to make food and to provide energy for growth and repair)
- **h)** Relationships in a living community (e.g., simple food chains using common plants and animals and predator-prey relationships)
- **i)** Changes in environments (effects of human activity, pollution and its prevention)
- **j)** Ways that common communicable diseases (e.g., colds, influenza) are transmitted; signs, prevention, and treatment of illness
- **k)** Ways of maintaining good health, including diet and exercise
36 Continued

### B. Physical Science

a) Classification of objects and materials based on physical properties

b) Properties and uses of metals

c) Forming and separating mixtures

d) Properties and uses of water

e) States of matter (solids, liquids, and gases) and differences in their physical properties in terms of shape and volume

f) Changes in state of matter by heating and cooling (melting, freezing, boiling, evaporation, condensation)

g) Familiar changes in materials (e.g., decaying of animal/plant matter, burning, rusting, cooking)

h) Common energy sources/forms and their practical uses (e.g., wind, sun, electricity, burning fuel, water wheel, food)

i) Heat flow and temperature

j) Common sources of light and related phenomena (e.g., formation of rainbows and shadows, visibility of objects, mirrors, colors)

k) Production of sound by vibrations

l) Electrical circuits

m) Magnets (north and south poles, magnetic attraction, and repulsion)

n) Forces that cause objects to move (e.g., gravity, push/pull forces)
The following list includes the main topics addressed by the TIMSS science test. Choose the response that best describes when the fourth-grade students in the TIMSS class have been taught each topic. If a topic was taught half this year but not yet completed, please choose “Mostly taught this year.” If a topic is not in the curriculum, please choose “Not yet taught or just introduced.”

### C. Earth Science

a) Rocks, minerals, sand, and soil

b) Water on Earth (location, types, and movement)

c) Air (composition, proof of its existence, uses, and importance for supporting life)

d) Common features of the Earth’s landscape (e.g., mountains, plains, rivers, deserts) and relationship to human use (e.g., farming, irrigation, land development)

e) Use and conservation of Earth’s natural resources

f) Earth’s water cycle (water flowing in rivers from mountains to sea, cloud formation and precipitation)

g) Weather conditions from day to day or over the seasons

h) Fossils of animals and plants (age, formation)

i) Earth’s solar system (planets, sun, moon)

j) Earth’s rotation on its axis (e.g., day and night, appearance of shadows)
37
Do you assign science homework to the fourth-grade students in the TIMSS class?

Fill in one circle only

Yes [ ]
No [ ]

If No, please go to question 40

38
How often do you usually assign science homework to the fourth-grade students in the TIMSS class?

Fill in one circle only

Every or almost every lesson [ ]
About half the lessons [ ]
Some lessons [ ]

39
When you assign science homework to the fourth-grade students in the TIMSS class, about how many minutes do you usually assign? (Consider the time it would take an average student in your class to complete the assignment.)

Fill in one circle only

Fewer than 15 minutes [ ]
15-30 minutes [ ]
31-60 minutes [ ]
61-90 minutes [ ]
More than 90 minutes [ ]

40
In your view, to what extent do the following limit how you teach science to the TIMSS class?

Fill in one circle for each row

A lot [ ]
Some [ ]
A little [ ]
Not at all [ ]
Not applicable [ ]

a) Students with different academic abilities [ ]
b) Students who come from a wide range of backgrounds (e.g., economic, language) [ ]
c) Students with special needs, (e.g., hearing, vision, speech impairment, physical disabilities, mental or emotional/psychological impairment) [ ]
d) Uninterested students [ ]
e) Disruptive students [ ]

41
In the past two years, have you participated in professional development in any of the following?

Fill in one circle for each row

Yes [ ]
No [ ]

a) Science content [ ]
b) Science pedagogy/instruction [ ]
c) Science curriculum [ ]
d) Integrating information technology into science [ ]
e) Improving students’ critical thinking or inquiry skills [ ]
f) Science assessment [ ]
Thank You
for completing this questionnaire
