

Slide 2 of 20

Module Objectives

- Introduce DataLab
- Identify studies that are available for research using DataLab tools
- Describe features of the DataLab website
- Provide an overview of the tools available within DataLab:
 - Tables Library
 - o PowerStats

Slide 3 of 20

Introduction to DataLab Research and Data Tools

- The Tables Library
 - o Provides access to data tables that have been published in NCES reports
- PowerStats
 - Enables analysts to generate estimates from NCES micro-level datasets without accessing data at the individual case, or unit record, level
 - Eliminates the need for access to commercial statistical software packages
 - Some restricted-use data can be accessed without obtaining a restricted-use license
 - Properly accounts for NCES studies' complex sample designs, including the correct calculation of standard errors

Slide 4 of 20

Studies Available via DataLab

P-12

- Students
 - Pre-Elementary Education Longitudinal Study (PEELS)
 - Early Childhood Longitudinal Study, Birth Cohort (ECLS-B)
 - Early Childhood Program Participation (ECPP)
 - Parent and Family Involvement in Education (PFI)
 - High School and Beyond (HS&B)
 - National Education Longitudinal Study of 1988 (NELS:88)
 - Education Longitudinal Study of 2002 (ELS:2002)
 - High School Longitudinal Study of 2009 (HSLS:09)

Schools

- Schools and Staffing Survey (SASS)
- School Survey on Crime and Safety (SSOCS)
- National Teacher and Principal Survey (NTPS)
- Private School Universe Survey (PSS)

Slide 5 of 20

Studies Available via DataLab (Continued)

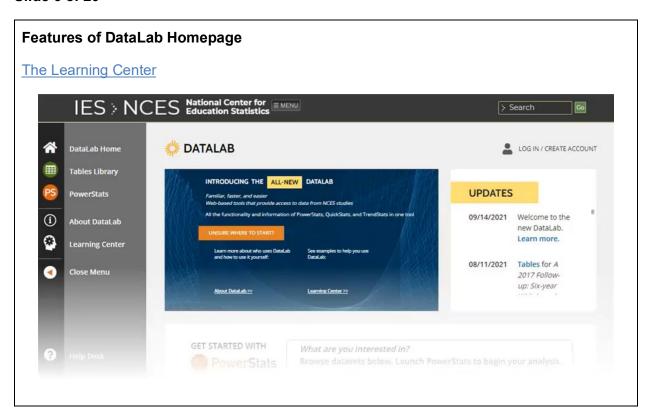

Postsecondary, Students and Faculty

- National Postsecondary Student Aid Study (NPSAS)
- Beginning Postsecondary Students Longitudinal Study (BPS)
- Baccalaureate and Beyond Longitudinal Study (B&B)
- National Study of Postsecondary Faculty (NSOPF)

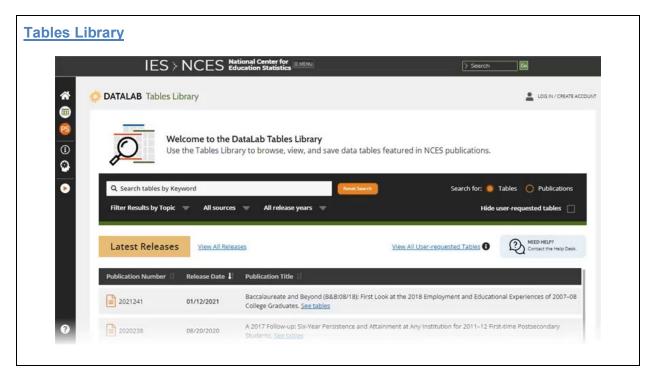

Adult Education

Adult Training and Education Survey (ATES)

Introduction to DataLab Data Tools: PowerStats

- Quick and easy to use to generate simple statistics, run more complex analyses, and produce tables, charts, and graphs
 - Percentages
 - Averages
 - Medians
 - o Centiles
 - Linear regression
 - Logistic regression
 - Visual representations of data, including pie charts and bar graphs
- Can conduct trend analyses to produce averages, medians, and percentages over time
 - Choose from variables that are repeated in certain studies

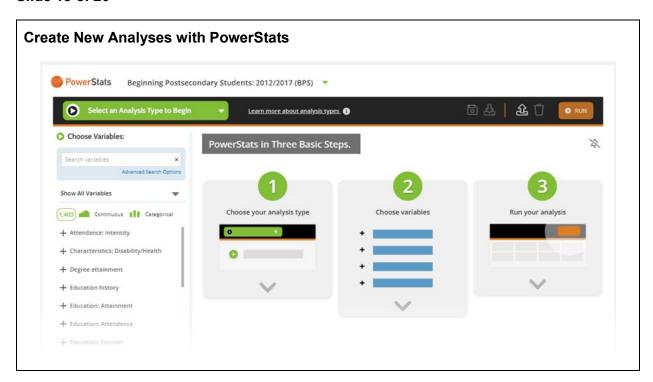

Slide 17 of 20

Overview of PowerStats Functionality

- Enables users to run analysis and produce results from NCES micro-level data without utilizing a statistical analysis program or accessing the data at the case level
- Provides access to restricted-use data without having to acquire a restricted-use license
 - Users only see estimates and standard errors
- Features include

Module Summary and Resources

Summary

- Introduced DataLab
- Identified studies that are available for research using DataLab tools
- Described features of the DataLab website
- Provided an overview of the tools available within DataLab:
 - o Tables Library
 - PowerStats

Resources

- DataLab
- The Learning Center
- Tables Library
- PowerStats
