22nd Annual MIS Conference

February 18-20, 2009
Sheraton Seattle Hotel
Seattle, Washington

Sponsored by: The National Center for Education Statistics and The Washington State Office of Superintendent of Public Instruction
The 2009 MIS Conference is a concentrated 3 days of information about best practices, innovative ideas, current issues, and practical how-to advice about management information systems for K-12 education.

Co-sponsored by the Washington State Office of Superintendent of Public Instruction and the U.S. Department of Education’s National Center for Education Statistics (NCES), the MIS Conference brings together the people who work with information collection, management, transmittal, and reporting in school districts and state education agencies.

Over the past 22 years, a state education agency has partnered annually with NCES to bring local, state, and national data professionals together to learn from one another in an informal setting. This year, the MIS Conference will offer more than 80 presentations, demonstrations, and workshops conducted by practitioners from K-12 information systems.

You are invited to attend the 2009 MIS Conference in Seattle, Washington and to submit a proposal for presenting a session that will add to the conference’s interest and usefulness. Topics are invited from all sources, but the major focus will be on data use, data standards, statewide data systems, and data quality.

Sample Sessions From Last Year

- Discussion of the Implementation of the Final Guidance on Collecting and Reporting Racial and Ethnic Data
- Understanding Longitudinal Data, Data Quality, Growth, and Reports in the Age of NCLB
- How Do You Leverage Longitudinal Data to Inform Stakeholders?
- Merging Two Large Data Collections: Lessons Learned From the CCD-EDEN Merger
- Creating High-Impact Information From Longitudinal Data
