Welcome to the
National Forum on Education Statistics
Winter 2008 Meeting

Dear Forum Members,

On behalf of the National Forum on Education Statistics, we are pleased to welcome you to San Francisco, California for the Winter 2008 meeting of the National Forum on Education Statistics.

The Forum is committed to improving the quality, comparability, and usefulness of elementary and secondary education data, while remaining sensitive to data burden concerns. As such, Forum meetings are a venue in which representatives from state education agencies, local education agencies, the federal government, and other organizations with an interest in education data convene to plan, recommend, and implement strategies for building an education data system that will support local, state, and national efforts to improve public and private education throughout the United States.

This week, Forum members can expect to consider a wide range of issues, including metadata, longitudinal data systems, data ethics, crisis data management, attendance codes, race/ethnicity, FERPA and NCES updates.

Clearly, this week offers numerous opportunities to share information about high profile data issues and cutting edge technology use in schools, school districts, state departments of education, and the U.S. Department of Education. We urge you to take this opportunity to attend standing committee meetings, joint sessions, and roundtable discussions. We also recommend that you not overlook your most valuable resource at this meeting—your peers in schools, districts, state education agencies, federal offices, and national organizations who, like you, are engaged in innovative and exciting activities aimed at improving the collection and use of education data across the nation.

We hope that you enjoy the meeting, develop and renew relationships with colleagues, and take a new idea, concept, or perspective home to your organization following our time together at the Forum.

Most sincerely,

Susan VanGorden

WebBoard Instructions

Important WebBoard Terms

If you choose to enter WebBoard, you will notice that many of the terms you were familiar with are used a little differently on WebBoard. For instance, listserv groups are now referred to as “Conferences”. Please read through the instructions below and try logging onto WebBoard. If you still have questions, please contact someone from Coffey Communications, LLC.

How to Send and Reply to Messages If You Choose Not to go to the WebBoard Site

1. To Start a New Message:
   a. Type the address (GroupName@esharecentral.com) in the To: line of your e-mail. Send the message as you would a regular e-mail.

2. To Reply:
   a. We recommend that you click on the “To reply” link at the bottom of the message rather than using the reply buttons on your e-mail.
   b. A message screen will come up. You will need to type in the subject of the discussion. Send your reply as you would a regular e-mail.

3. To Start a New Topic of Discussion for the Group:
   a. Click on “To start a new topic” at the bottom of the message.
   b. A new message screen will come up. Send the message as you would a regular e-mail.

How Messages are Received

1. The message will be sent directly to the mailbox of each group member just as the previous listserv software delivered the message.

2. At the bottom of the e-mail message there are several links.
   a. Click on: “To reply” to reply to the message. Keep in mind this will send your reply to the entire group and post it to the bulletin board.
   b. Click on: “To start a new topic” to begin a new topic on your group’s bulletin board.
   c. Click on: “To login” to access the bulletin board and look at all messages.
   d. Click on: “(un)subscribe” to send a message to the group manager requesting to be removed from the group e-mail list.

3. TO REPLY TO THE SENDER ONLY, click on their e-mail address beside their name.
To Enter the Board via the Web in order to View or Send Messages and Documents

1. To enter WebBoard, go to http://www.esharecentral.com/wb/default.asp?boardid-ELSEC

   My Log In Name: __________________
   My Password: _____________________

   If you any questions regarding WebBoard use, please contact Sherrie McCoy of Coffey Communications, LLC at 301-907-0900 or smccoy@coffeyconsultingllc.com.

2. Enter you username and password. DO NOT check “Remember My Password”. DO click on the “log-in” button.

3. After clicking “Log-in”, you will see the Board web page with a list of conferences (i.e., groups) to which you are a subscribed member.

4. Click on the conference name you want to work with.

5. You will see the conference’s web page. If any messages have been posted or e-mailed to the conference, they will be listed directly beneath the conference name in the left margin.

6. Click on the name of the e-mail message to see the body of the message.

7. If you wish to reply to the post and keep it part of the same thread of discussion, click on the “Reply” button at the lower right hand corner of the posting box.

8. If you wish to start a new topic, click on the “New Topic” button at the upper right hand corner of your posting box.

9. If you click “New Topic” or “Reply”, you will be presented with a message template with several items that can be checked and an area to enter the body of your message.

   a. If you “Reply” to a message, you can also check that you want
      - to be notified via e-mail when a reply is posted.
      - to upload an attachment with the message.

   b. If you create a “New Topic” you can check that you want
      - to be notified via e-mail when a reply is posted.
      - to upload an attachment with the message.
      - to create a new poll for this topic.
10. Enter the body of your message.

11. You can preview your message and check your spelling before posting it.

12. When you are finished, click “Post”. Your message will post to the Board immediately, but will take a few minutes to be dispersed to everyone on the mailing list.
Forum Member Handbook
National Cooperative Education Statistics System

The National Center for Education Statistics (NCES) established the National Cooperative Education Statistics System (Cooperative System) to assist in producing and maintaining comparable and uniform information and data on early childhood education and on elementary and secondary education. These data are intended to be useful for policymaking at the federal, state, and local levels.

The National Forum on Education Statistics (the Forum) is an entity of the Cooperative System, and among its other activities, proposes principles of good practice to assist state and local education agencies in meeting this purpose. The Cooperative System and the Forum are supported in these endeavors by resources from NCES.

Publications of the Forum do not undergo the same formal review required for products of NCES. The information and opinions published here are those of the National Forum on Education Statistics and do not necessarily represent the policy or views of the U.S. Department of Education or the National Center for Education Statistics.

Foreword

The National Forum on Education Statistics is supported by the National Center for Education Statistics of the U.S. Department of Education. Its mission is to develop and recommend strategies for building an education data system that will support local, state, and national efforts to improve public and private education throughout the United States. Forum members include representatives of state and local education agencies, offices of the U.S. Department of Education, other federal agencies, and national associations with an interest in education data.

This document was written for Forum members, and interested nonmembers, to improve their understanding of the Forum’s goals and objectives, the processes and mechanisms the Forum uses to accomplish those goals and objectives, and the resources it develops for the education community.

Visit http://nces.ed.gov/forum for more information about the National Forum on Education Statistics, and to find the most up-to-date version of this resource.
Acknowledgments

The development of this document was overseen by the 2007 Steering Committee of the National Forum on Education Statistics. Members include:

National Forum on Education Statistics
  Chair: Derrick Lindsay, Mississippi Department of Education
  Vice-Chair: Susan VanGorden, Lakota Local School District (OH)
  Immediate Past Chair: Bill Smith, Sioux Falls School District (SD)

National Education Statistics Agenda Committee (NESAC)
  Chair: Sonya Edwards, California Department of Education
  Vice-Chair: Linda Rocks, Bossier Parish Schools (LA)

Policies, Programs and Implementation Committee (PPI)
  Chair: Robert Beecham, Nebraska Department of Education
  Vice-Chair: Levette Williams, Georgia Department of Education

Technology Committee (TECH)
  Chair: Jeff Stowe, Arizona Department of Education
  Vice-Chair: Kathy Gosa, Kansas State Department of Education

Forum members reviewed the document in its draft form and provided valuable comments and suggestions for improving its quality and utility. Lee Hoffman and Ghedam Bairu (NCES) and Tom Szuba (Quality Information Partners) provided useful recommendations to improve the handbook. Joyce Stern (Synergy Enterprises, Inc.) provided editorial and design services.
Part One: About the Forum

About the Member Handbook

This Member Handbook of the National Forum on Education Statistics is designed to serve as a single, comprehensive resource about the purpose and operations of the National Forum on Education Statistics (the Forum). It is written for members of the Forum, and for interested nonmembers, to improve their understanding of the Forum’s goals and objectives, the processes and mechanisms the Forum uses to accomplish those goals and objectives, and the resources it develops for the education community.

New members may find it helpful as they prepare for their roles in the Forum, whether as a state education agency liaison, a local education agency liaison, a federal agency member, or an associate member. Typically, it takes some time for a new member to become familiar with the Forum’s culture, processes, and opportunities, and having a Member Handbook to consult should help expedite and simplify that process.

Seasoned members may find the Member Handbook useful as they engage in new activities, serve on committees and task forces, and accept leadership roles in the organization. It may also be a useful tool when mentoring new members and making presentations about the Forum and its resources to outside audiences.

The Handbook has two parts: “About the Forum” and “Forum Resources.” The first part reviews the mission of the Forum, its membership, organizational structure, and operating processes. The second part describes Forum resources, including free publications and presentation materials, the outreach toolkit, web resources, and links to related organizations.
What is the National Forum on Education Statistics?

*Background of the Forum*

The National Forum on Education Statistics provides an arena for local, state, and national leaders in the education data community to discuss issues, address problems, develop resources, and consider new approaches to improving data collection and utility. It is a voluntary, democratic, and participatory federal-state-local body that identifies and addresses education data needs at the national, state, and local levels. The Forum was established by the National Center for Education Statistics (NCES) of the U.S. Department of Education in 1989.

The Hawkins-Stafford Elementary and Secondary Education Improvement Amendments of 1988 (P.L. 100–297) gave NCES the authority to establish a National Cooperative Education Statistics System. NCES established the Cooperative System to “produce and maintain, with the cooperation of the States, comparable and uniform educational information and data that are useful for policymaking at the federal, state, and local level.” The legislation identified seven broad topics as examples of areas that could be addressed by the data collection and reporting system. They are

1. schools and school districts;
2. students and enrollments, including special populations;
3. availability of school libraries and their resources;
4. teachers, librarians, and school administrators;
5. financing of elementary and secondary education;
6. student outcomes, including scores on standardized tests and other measures of education achievement; and
7. progress of educational reform in the states and in the nation.

The Forum’s Mission

The major purposes of the Forum are to

- develop and propose, cooperatively, a national education data agenda and model(s) for a national data system that will meet the needs of education policymakers and program planners in the coming decade and beyond;
- inform federal, state, and local decision makers on the goals and progress of this cooperative education statistics system; and
- provide an arena in which federal, state, and local education interests can identify, debate, mediate, and where appropriate, recommend action on issues, emerging needs, and technological innovation salient to the improvement of education data comparability, uniformity, timeliness, and accuracy at the national level.

Who are the Forum Members?

Forum members include representatives from local and state education agencies, and federal agencies that have an interest in elementary/secondary education data. Federal, state, and local agency representatives are eligible to be full members of the Forum. Representatives of other organizations participate as associate members.

Education Agencies and Their Representatives Who are Members of the Forum

- The education agencies of the 50 states, the District of Columbia, and Puerto Rico (hereafter referred to as the states)
- One local education agency within a state selected by each Chief State School Officer
- The NCES Commissioner (ex officio), the Associate Commissioners of major NCES divisions, and the office of the NCES Chief Statistician;
- The other principal offices of the U.S. Department of Education or programs within these principal offices that collect or use elementary/secondary education data, including but not limited to
  - Office of Elementary and Secondary Education
  - Office for Civil Rights
  - Office of Special Education and Rehabilitative Services
  - Office of Vocational and Adult Education
  - Office of English Language Acquisition
  - Office of Migrant Education
  - Office of Non-Public Education
  - Office of the Chief Information Officer
- U.S. Department of Commerce, Bureau of the Census
- U.S. Department of Labor, Bureau of Labor Statistics
- U.S. Department of Defense Education Activity
State Education Agency (SEA) Liaisons

An SEA representative to the Forum is formally appointed by the Chief State School Officer of each state and is expected to speak on his or her behalf regarding education data issues. The SEA representatives contribute valuable perspective and experience concerning state education data needs. The state representative may designate a permanent alternate who will attend meetings and manage other Forum responsibilities in the representative’s place. In the absence of the state representative, the permanent alternate has the same voting and participation rights as a full member. A state representative’s responsibilities include

- acting as a representative in the coordination of federal data collections at the state level and in other matters concerning the Cooperative System to promote the efficiency, quality, and usefulness of data;
- attending two annual meetings of the National Forum on Education Statistics and voting on any issues that may come before the full Forum for approval;
- participating in the annual NCES Data Conference and in the Management Information Systems (MIS) Conference;
- serving as the principal contact for all Cooperative System Contracts awarded to states;
- serving as a member of a standing committee;
- volunteering to work with one or more task forces;
- reviewing Forum/NCES publications as a preliminary step to Forum approval; and
- managing work relating to contracts for basic participation and for special task awards. (The basic participation contracts cover the costs of travel to meetings of the Forum while the special task awards cover specific state data improvement projects.)

Local Education Agency (LEA) Liaisons

An LEA representative is formally appointed by the Chief State School Officer of each state and is expected to participate in all Forum meetings as a full member. LEA representatives are authorized to vote on issues that come before the Forum and to hold office in the Forum. They are expected to contribute valuable perspective and experiences regarding local education agency data needs. Other responsibilities include

- attending two annual meetings of the National Forum on Education Statistics and voting on any issues that may come before the full Forum for approval;
- participating in the annual NCES Data Conference and in the Management Information Systems Conference (MIS);
- serving as a member of one standing committee of the Forum;
- volunteering to work with one or more task forces; and
- reviewing Forum/NCES publications as a preliminary step to Forum approval.

Associate Members

- Associate members participate in Forum standing committee meetings and take an active role in committee, subcommittee, and task force activities. They participate in the discussion of issues, but they do not participate in formal decisionmaking of the full Forum, and do not vote for Forum officers or on policies and procedures. They may not hold office. In addition, the responsibilities of associate members include promoting the work of the Forum among the membership of their respective organizations and providing the Forum with valuable input from the perspective of their organizations.
Forum Organization

The Forum meets semiannually (each winter and summer) to discuss and work on data issues and specific topics related to education data in schools, districts, state education agencies, and the U.S. Department of Education. The Forum achieves its mission and objectives primarily through the deliberations and work of a Steering Committee and three standing committees designed to address major interests of the National Cooperative Education Statistics System. The committees may propose and support task forces, which are appointed for a specified time period to develop products about a specific topic (e.g., education indicators and virtual education data elements).

Forum Committees

Forum Steering Committee
The Forum Steering Committee oversees and coordinates all Forum activities. Members of the Steering Committee include the Forum chair, vice-chair, and immediate past chair, and the chairs and vice-chairs of the three standing committees. The Commissioner of the NCES is a member ex officio. The chairperson of the Forum leads the Steering Committee.

Standing Committees
Forum standing committees are designed to address the major mandates of the Cooperative System, promote long-range planning, and foster continuity in Forum activities. Membership in standing committees is limited to members and associates of the Forum. There are three standing committees: the National Education Statistics Agenda Committee (NESAC), the Policies, Programs, and Implementation Committee (PPI), and the Technology Committee (TECH).

1. National Education Statistics Agenda Committee. NESAC’s mission is to develop a national education statistics agenda. The agenda identifies issues and policy concerns bearing on the development of comparable and effective nationwide elementary and secondary education data collection, reporting, and use. The agenda focuses on the major areas of student, staff, fiscal, institutional, and other information that yields valuable perspectives on education in the United States.

2. Policies, Programs, and Implementation Committee. PPI addresses ways to help SEAs and LEAs improve their efforts to collect and report comparable, accurate, and timely data. It also works to improve coordination among federal agencies and between federal and state agencies. In addition, PPI develops ways to reduce paperwork burdens at all levels of government, and explores ongoing and emerging issues such as data sharing and confidentiality of education records. PPI is also responsible for recommending amendments to the Forum Policy and Procedures Manual and for reviewing and recommending the formation of new task forces.

3. Technology Committee. TECH is concerned with new and proven technology strategies to improve the management and exchange of student and staff information and the technical infrastructure that supports these technologies. TECH’s role and responsibilities include promoting the development and adoption of standards for electronic data exchange; sponsoring pilot and developmental projects in the exchange of data about students and education staff; examining the impact of new technologies on information exchange; and producing “best practices” guides to help schools, school districts, and state education agencies make good decisions about selecting hardware, software, and networking services for information management.

Committee Meeting Notes
The meeting notes of the committees may be accessed on the Forum’s website at: http://nces.ed.gov/forum/meeting_notes.asp.
Subcommittees, Working Groups, and Task Forces

Standing committees may appoint subcommittees and working groups (which may become task forces upon additional approval).

Subcommittees

Standing committees may establish subcommittees to address ongoing issues beyond the scope of regular committee work (e.g., the Forum Communications Subcommittee). Subcommittees consist of members of the standing committee with a chairperson determined by the standing committee. Subcommittees do not require substantial resources to complete their assignments, although the chair of the standing committee may request that a listserv be created or that conference telephone calls be convened to conduct subcommittee work.

Working Groups

Working groups are convened by standing committees to determine whether there is merit in establishing a Forum task force to produce a specific product. If it is the consensus of the standing committee to establish a working group to investigate whether such a project should be pursued, the chair appoints an individual or group to complete the Request to Form a Working Group. Upon Steering Committee approval, the working group is authorized to meet once outside of regularly scheduled full Forum meetings to research a specific issue and determine whether there is a need for the Forum to formally establish a task force to produce a publication or other product.

Working groups may consist of Forum members, members of partnering organizations who bring expertise on the topic of interest, an NCES liaison, and a consultant who is contracted to perform support work. The working group may decide that additional research about the topic is not necessary (i.e., resources are already available) or not feasible (i.e., the topic cannot be addressed in a timely or cost-effective manner). Should the working group determine that additional work is desirable, it proposes a product development and dissemination plan for a proposed task force (see the Forum Product Development and Dissemination Guide at http://nces.ed.gov/forum/pdf/guide_04.pdf for more information about the publication development process).

Should the parent standing committee agree with a working group recommendation to form a task force, the product development and dissemination plan is submitted to the Policies, Procedures, and Implementation Committee and the Steering Committee for consideration.

Task Forces

Once a written product development and dissemination plan is reviewed by the Policies, Programs, and Implementation Committee to ensure that the objectives relate to the Forum strategic plan and there is no overlap with other Forum committees or task forces, PPI may recommend to the Steering Committee that a working group be made into a Forum task force. The Steering Committee either approves or disapproves the establishment of task forces. Membership on task forces is not limited to members and associates of the Forum. The task force will develop a work plan that includes objectives, deliverables, outcomes, and a timeline for the completion of the work.
Leadership Roles and Responsibilities

At each summer Forum meeting, the Steering Committee nominates a slate of officers to be voted on by the full membership in a Forum election. The slate includes the Forum/Steering Committee chair, the Forum/Steering Committee vice-chair, and the chairs and vice-chairs of the three standing committees. Nominations for Forum officers may also be made from the floor. A quorum (at least half of the members of the Forum) must be present for an election to be held; officers are elected by a majority vote of those present.

Forum and committee officers are elected for a period of one year and take office immediately following the summer Forum meeting at which they are elected. There is no limit to the number of terms an officer may serve.

The Forum Chair

The Forum chair is elected by Forum members for a one-year term and works with the Steering Committee and NCES staff to oversee and coordinate all Forum activities. Responsibilities of the chair include

- serving for one year as the Forum chair and representing the Forum as necessary;
- chairing each Forum meeting;
- chairing Steering Committee meetings;
- developing agendas for the Forum and Steering Committee meetings with NCES staff;
- leading special projects at the request of Forum members; and
- serving on the Steering Committee as the “immediate past chair” in the ensuing year.

The Forum Vice-Chair

The Forum vice-chair is elected by Forum members for a one-year term and works with the Steering Committee and NCES staff to oversee and coordinate all Forum activities. The Forum vice-chair is often nominated and elected to become Forum Chair in the year following the term of office. Responsibilities of the Forum vice-chair include

- assisting the Forum chair in meetings and in representing the Forum;
- assisting the Forum chair in developing agendas for the Forum and Steering Committee meetings;
- leading the editorial board for the Forum Voice;
- serving as chair in the absence of the chair;
- leading special projects at the request of the chair; and
- reviewing the Forum Strategic Plan and recommending updates, as necessary.

The Standing Committee Chairs

Standing committee chairs are nominated by their committees and elected by the full Forum. The standing committee chairs work with the Steering Committee and NCES staff to oversee and coordinate the work of their specific standing committee. Responsibilities of standing committee chairs include

- serving for one year as standing committee chair and representing the Forum as necessary;
- chairing standing committee meetings;
• reviewing reports or products of the standing committee’s task forces and working groups;
• forwarding requests for creating working groups and task forces to the Steering Committee;
• participating in Steering Committee meetings and representing their committees;
• developing agendas for the standing committee meetings in collaboration with the NCES staff; and
• leading special projects at the request of their standing committees and Forum members.

Standing Committee Vice-Chairs

Standing committee vice-chairs are nominated by their standing committees and elected by the full Forum. The vice-chairs work with standing committee chairs and NCES staff to oversee and coordinate the work of their specific standing committees. Responsibilities of standing committee vice-chairs include

• assisting the standing committee chairs in meetings and in representing the Forum;
• assisting the standing committee chairs in developing agendas for the committee meetings;
• serving on the editorial board for the *Forum Voice*;
• chairing committee meetings in the absence of the chair;
• leading special projects at the request of the chair; and
• reviewing reports or products of the standing committee’s task forces and working groups.

Subcommittee and Working Group Chairs

Subcommittee and working group chairs are appointed by their committee chairs. Committee chairs may appoint co-chairs or vice-chairs of subcommittees or working groups if they deem it necessary.

Task Force Chairs

A task force chairperson is designated by the standing committee that requests the task force. The chair oversees and coordinates the work of specific topics of interest to Forum members. Responsibilities of standing task force chairs include

• leading task force work at the request of the Steering Committee, standing committees, and Forum members;
• chairing each task force meeting;
• selecting task force members with expertise in specific topics relating to task force work;
• identifying resource needs and establishing project timelines;
• scheduling and facilitating necessary meetings, phone conferences, and other events required for timely progress toward completion of task(s);
• developing agendas for the task force meetings in collaboration with NCES and support staff;
• developing products and promotional materials in collaboration with NCES and support staff;
• developing a product development and dissemination plan in collaboration with NCES and support staff;
• selecting outside reviewers for draft products in collaboration with NCES and support staff; and
• presenting the final products to the full Forum.
Forum Meetings

The Forum holds two meetings each year: one in the winter in conjunction with the NCES Management Information Systems (MIS) Conference, and one in the summer in conjunction with the NCES Summer Data Conference. The Steering Committee, standing committees, and active task forces/working groups all meet during this time. Task forces and working groups may also meet at other times as deemed necessary by their chairs and the NCES Project Officer.

Forum meetings include

- a new member orientation session held on the first day of all Forum meetings;
- opening and closing general sessions, usually with speakers from the federal government or national associations who update members on current and changing issues related to education data;
- standing committee meetings, in which the ongoing business of the Forum is conducted, major Forum initiatives are planned, and continuity in Forum activities is fostered; and
- professional development sessions, including seminars on important and current education data and technology issues, held on a periodic basis as determined by the Forum Steering Committee.

Consensus Process

The Forum endeavors to work by consensus decisionmaking in which all individuals party to a decision agree to the outcome before it is considered to be approved. To the extent possible, reports from committees, subcommittees, working groups, and task forces reflect the views of all their members.

When consensus cannot be achieved for decisions of the full Forum, majority rule as determined by a vote is used. Resolutions, reports for distribution to external audiences, and other actions representing the Forum as a whole must be approved by a two-thirds majority vote of members present (a quorum—at least half of all members—must be present at a Forum meeting in order to hold an election or to vote on an amendment to the policies and procedures). Forum voting may also be conducted online via the Forum Voting Tool.

Getting Involved in Forum Activities

Standing committees plan initiatives, task forces develop resources, and Forum members participate in professional development programs—to mention just a few of the many activities that take place at Forum meetings. The best way for members to get immersed in Forum work is to attend both the winter and summer annual meetings where decisions and assignments are made. By attending Forum meetings, members learn who is doing what (and how and when) in the Forum.

The next stage of involvement occurs when the member joins a task force. Because task forces usually meet twice a year for 1-2 days in addition to sessions at Forum meetings, they are excellent opportunities for getting to know the Forum and its members. New members are especially encouraged to get involved in task force work.

Another way to participate in Forum activities is to disseminate the publications produced by the Forum. Meetings and conferences within member states or districts provide excellent opportunities to discuss the work of the Forum with colleagues and to bring ideas back to the Forum standing committees for discussion and possible action. Forum members are encouraged to use the items in the Outreach Toolkit (at http://nces.ed.gov/forum/outreach.asp) to assist in this effort.
Member Communications

Forum members communicate in person at the annual winter meeting, the annual summer meeting, and task force meetings. Information is shared with Forum members and the general public via the Forum website (http://nces.ed.gov/forum). The Forum website contains a wealth of information including access to Forum publications and meeting notes. The organization's newsletter, the Forum Voice (http://nces.ed.gov/forum/voice.asp), is published in an electronic format each spring and fall. Email addresses and telephone numbers for current Forum members can be accessed via the membership rosters listed on the website (http://nces.ed.gov/forum/membership.asp).

NCES, the Steering Committee, standing committees, and task forces also communicate through teleconferences scheduled on an as-needed basis throughout the year and via email listservs restricted to member use. Using the group’s listserv address, members of a task force, committee, or other Forum group can send a message by email, which will be distributed to all members of the group. Only registered members of a listserv (i.e., only members of the group) can send messages via the listserv addresses below.

In addition to serving as a listserv, Web Board (the listserv software Forum members use to communicate) also has bulletin board capabilities that can be accessed at http://www.esharecentral.com/wb/default.asp?boardid=ELSEC with a valid username and password. Additional information about how to use Web Board and listserv can be accessed at http://nces.ed.gov/forum/webboard.asp.
Objectives and Strategies for Meeting the Forum’s Goals

Goal I: Develop a comprehensive system of comparable local, state, and federal basic data elements useful for education decisionmaking at all levels of government.

Goal I Objective:

A comprehensive, dynamic set of basic data elements will be developed that adhere to a set of common definitions, are comparable within and across reporting levels, are timely and available on a schedule appropriate for decision making, and provide an accurate and reliable picture of what they measure.

To meet this objective, the Forum endorses the following strategies:

A. Identify the basic data elements relating to students, staff, finance, facilities, and technology at school, district, state, and national levels.
B. Disseminate and promote the use of basic data elements.
C. Review the content and completeness of the system of basic data elements and the procedure for identifying elements on a continuing basis.
D. Assist with the adoption and use of standards for data collection and reporting.
E. Support efforts to plan the development and implementation of automated and integrated education data systems.
F. Identify and seek to remove organizational and technical barriers, problems, and unresolved questions impeding the development, adoption and use of shared data items.

Goal II: Improve coordination, integration, and consolidation of the collection and dissemination of quality education data.

Goal II Objectives:

1. The reporting burden on state and local data providers will be minimized.
2. Communication and coordination among the various data providers and requesters will be improved.
3. Data collectors will employ the most efficient and secure data collection procedures that are technically feasible.
4. Products of the Forum’s work (i.e., reports, programs, etc.) will be designed, disseminated and promoted to maximize usefulness.
5. States will implement and share projects that demonstrate the use of technology to improve data collection, access, analysis and reporting.
To meet these objectives, the Forum endorses the following strategies:

A. Promote ongoing coordinated reviews of education data collection activities.
B. Support the use of standard definitions in education data collections.
C. Promote efficiency in data collection and access through the use of new and emerging technologies.
D. Promote the better integration of education data collections.
E. Work to improve the dissemination and usefulness of education data and promote its use through Forum products.
F. Establish linkages with postsecondary education to promote coordination and efficiency in data collection and use.
G. Promote procedures and practices that ensure data quality at all levels of education.

**Goal III: Promote the Forum as a widely recognized cooperative body addressing issues of education data policy and as a leader in setting data standards.**

**Goal III Objectives:**

1. Local, state, federal, and other stakeholders will be actively engaged in the development and implementation of education data standards.
2. Education data standards will be developed, adopted, and widely disseminated.
3. Collaborative partnerships among and between states and the federal government will further the development of education policy.

To meet these objectives, the Forum endorses the following strategies:

A. Disseminate widely and promote the use of Forum products.
B. Strengthen coordination by expanding membership as appropriate.
C. Actively seek collaborative relationships with agencies and groups to work toward common education data issues and goals.
D. Promote consultation and information sharing with the private research, development, and service sectors.
E. Establish, review, and disseminate guidelines for policies affecting the production, use, confidentiality, release, and dissemination of education statistics.
F. Periodically review and update all Forum products as appropriate.

Report every other year on progress toward strategic plan goals.
Part Two: Forum Resources

The Forum web page, located on the NCES website (http://nces.ed.gov/forum/), is a rich resource for both Forum members and the larger education community. It provides information about current Forum activities, the Forum Voice newsletter, meeting notes, and policies and procedures for conducting Forum meetings and activities, as well as the Forum’s strategic plan.

The Forum’s many resources can also be accessed at the website, including publications about education data, best practices, and materials for promoting the Forum.

A “Resources” page (http://nces.ed.gov/forum/resources.asp) provides links to online materials about the Federal Register, FERPA resources (Family Educational Rights and Privacy Act), and NCLB resources (the No Child Left Behind Act of 2001) among other information that Forum members and others in the education community may find useful.
Outreach Toolkit

For members who wish to promote the Forum and its resources, the Outreach Toolkit website (http://nces.ed.gov/forum/outreach.asp) offers several downloadable promotional tools, including a Forum Overview PowerPoint™ presentation, publication summaries, publication PowerPoint™ presentations, and sample articles and letters. Several of these are described below.

Materials About the Forum

**National Forum on Education Statistics History**
http://nces.ed.gov/forum/pub_history.asp
This publication presents an overview of the Forum’s history since the legislation was passed in 1988 authorizing a Cooperative System for the collection and sharing of education data. It presents a brief history of the activities and special projects of the Forum from 1989-2004. Members may find it a useful source of information for explaining to others what the Forum is and does.

**Power Tools for Your Schools (2003)**
http://nces.ed.gov/forum/pub_2003365.asp
This brochure lists various Forum resources available for free to individuals, schools, and agencies, and provides information on how to order them.

**Putting Numbers to Work for Schools (2003)**
http://nces.ed.gov/forum/pub_2003366.asp
This brochure presents the purpose of the Forum and explains why the data collected and disseminated are important to users.

- 2006 Forum Overview PowerPoint Presentation
  http://nces.ed.gov/forum/outreach.asp
Recent Publications

The publications described below can be accessed at http://nces.ed.gov/forum/publications.asp.

**Forum Guide to Core Finance Data Elements**
http://nces.ed.gov/forum/pub_20078001.asp
This publication establishes current and consistent terms and definitions for maintaining, collecting, reporting, and exchanging comparable information related to education finances. It is designed to accompany *Financial Accounting for Local and State School Systems: 2003 Edition* by identifying common reporting requirements and defining frequently used indicators and calculations that use data elements from accounting and other data systems.

**Forum Curriculum for Improving Education Data: A Resource for Local Education Agencies**
This resource supports efforts to improve the quality of education data by serving as training materials for K-12 school and district staff. It provides lesson plans, instructional handouts, and related resources, and presents concepts necessary to help schools develop a culture for improving data quality.

http://nces.ed.gov/forum/pub_2006807.asp
This NCES/Forum guide was developed to help the education community better understand what decision support systems are, how they are configured, how they operate, and how they might be developed and implemented in an education setting.

**Forum Guide to Virtual Education (2006)**
http://nces.ed.gov/forum/pub_2006803.asp
This publication offers recommendations for collecting accurate, comparable, and useful data about virtual education in the elementary/secondary education setting. It highlights policy questions and data elements that are critical to meeting the information needs of policymakers, administrators, instructors, and parents involved in virtual education.
http://nces.ed.gov/forum/pub_2006805.asp
This publication was written to help school and local education agency staff better understand and apply the Family Educational Rights and Privacy Act, a federal law that protects the privacy interests of parents and students with respect to information maintained in student education records. It defines terms such as “education records” and “directory information,” and offers guidance for developing appropriate privacy policies and information disclosure procedures related to military recruiting, parental rights and annual notification, videotaping, online information, media releases, surveillance cameras, and health-related information.

Accounting for Every Student: A Taxonomy for Standard Student Exit Codes (2006)
http://nces.ed.gov/forum/pub_2006804.asp
This publication was developed to help education agencies develop effective information systems for tracking the enrollment status of students. It presents a student-level exit code taxonomy for states and districts that accounts for 100 percent (and not 90 percent or 110 percent) of all students. It also offers “best practice” advice regarding effective practices for tracking students, collecting exit codes data, and distinguishing among high school completion credentials.

Forum Guide to Education Indicators (2005)
http://nces.ed.gov/forum/pub_2005802.asp
This publication provides encyclopedia-type entries for 44 commonly used education indicators. Each indicator entry includes a definition, recommended uses, usage caveats and cautions, related policy questions, data element components, a formula, commonly reported subgroups, and display suggestions. The document will help readers better understand how to appropriately develop, apply, and interpret commonly used education indicators.

http://nces.ed.gov/forum/pub_2005801.asp
This publication focuses on data entry—getting things right at the source. As such, it recommends a practical process for developing a “Culture of Quality Data” based around individual “Tip Sheets” for the many people involved in providing quality data, including principals, teachers, office staff, school board members, superintendents, data stewards, and technology staff.
Forum Unified Education Technology Suite (2005)
This publication presents a practical, comprehensive, and tested approach to assessing, acquiring, instituting, managing, securing, and using technology in education settings. It is written for individuals who lack extensive experience with technology, but are tasked with leading technology initiatives in a school or district setting.

http://nces.ed.gov/forum/pub_2004330.asp
This publication presents a general overview of privacy laws and professional practices that apply to information collected for, and maintained in, student records. The document provides an overview of key principles and concepts governing student privacy, summarizes federal privacy laws, identifies issues concerning the release of information to both parents and external organizations, and suggests good data management practices for schools, districts, and state education agencies.

http://nces.ed.gov/forum/pub_2003400.asp
This publication provides a framework for identifying a basic set of school facilities data elements and definitions that will meet the information needs of school and community decision makers, school facility managers, and the general public. It presents recommendations for designing and maintaining an information system that addresses the condition, design, use, management, and financing of elementary/secondary education facilities. It also includes commonly used measures, data elements, and a list of additional resources for the practitioner.

http://nces.ed.gov/forum/pub_2003437.asp
This publication is intended to help school facilities managers plan for efficient and effective operations. It provides practical advice on a range of topics, including how to conduct a facilities audit, planning for maintenance to ensure smooth operations and avoid costly surprises, managing staff and contractors, and evaluating maintenance efforts.

</table>

CCSSO is a nonpartisan, nationwide, nonprofit organization of public officials who head departments of elementary and secondary education in the states, the District of Columbia, the Department of Defense Education Activity, and five U.S. extra-state jurisdictions.

EDFACTS is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.

EDI is the process of exchanging records (e.g., student records) electronically.

FERPA is a federal law that protects the privacy of student education records.

This body of data handbooks is collectively referred to as the “Handbooks” or the “NCES Handbooks.” They define standard education terms for students, staff, schools, local education agencies, intermediate education agencies, and state education agencies.

EDI is the process of exchanging records (e.g., student records) electronically.

Facts is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.

EDI is the process of exchanging records (e.g., student records) electronically.

Facts is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.

EDI is the process of exchanging records (e.g., student records) electronically.

Facts is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.

EDI is the process of exchanging records (e.g., student records) electronically.

Facts is a collaborative effort among ED, state educational agencies, and industry partners to establish a process for states to directly submit elementary and secondary education data from the state, district, and school levels to ED by electronic means.

EDI is the process of exchanging records (e.g., student records) electronically.
| **SIFA** | **Schools Interoperability Framework Association**  
SIFA is an associate member of the Forum and a nonprofit membership organization that is creating a set of platform-independent, vendor-neutral rules and definitions for sharing education information. |
|---|---|
| **TECH** | **Technology Committee**  
TECH is a Forum standing committee that considers methods, especially technology-related strategies, for improving data collection and communication within states and between states and the federal government. |
